POLYCHLORINATED BIPHENYLS

Contamination of Animal Feeds, Foods, and Food Packaging Materials and Availability of Supplement to Environmental Statement on Rulemaking

No. 129—Pt. II——1

V 38 - 129 JUL 6 73 XUM

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER A—GENERAL

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

POLYCHLORINATED BIPHENYLS (PCB's)

Contamination of Animal Feeds, Foods, and Food-Packaging Materials

In the FEDERAL REGISTER of March 18, 1972 (37 FR 5705) a notice of proposed rule making was published limiting the sources by which polychlorinated biphenyls (PCB's) may contaminate animal feed, food, and food-packaging materials during manufacturing, handling, and storage, and limiting the levels of PCB's that may be present in animal feed, food, and food-packaging materials as a result of unavoidable, environmental contamination. The notice provided for the filing of comments within 60 days after the date of publication and this was extended to July 16, 1972 by a notice published May 18, 1972 (37 FR 10003).

In response to the notice, ninety-three comments were received from members of industry, trade associations, consumer groups and individual consumers.

The following is a summary of the provisions contained in the notice and the comments on these provisions received by the Food and Drug Administration:

1. *Sections 3,93, 128.4, and 135.113.* The notice included provisions which would prohibit the use of PCB-containing materials and equipment in animal feed, in food, and in food-packaging material manufacturing, handling and storage establishments, in order to preclude direct, accidental PCB contamination of animal feed, food, and food-packaging materials.

a. One comment suggests that since most industrial chemicals can be interpreted to be "harmful or deleterious", the phrase should be deleted as a criterion for PCB replacement. The Commissioner concurs with deleting the phrase "harmful or deleterious". The toxicity and other characteristics of fluids selected as PCB replacements must be adequately determined so that the least potentially hazardous replacement is used. In making this determination with respect to a given fluid, consideration should be given to (1) its toxicity; (2) the maximum quantity that could be spilled onto a given quantity of food before it would be noticed, taking into account its color and odor; (3) possible signaling devices in the equipment to indicate a loss of fluid, etc.; and (4) its environmental stability and tendency to survive and be concentrated through the food chain. The judgment as to whether a replacement fluid is sufficiently nonhazardous is to be made on an individual installation and operation basis. Accordingly, the appropriate amendments have been made in § 135.113(b)(3) (21 CFR 135.113(b)(3)), § 3.93(b)(2) (21 CFR 3.93(b)(2)), and § 128.4(b)(2) (21 CFR 128.4(b)(2)).

b. One comment argues that electrical capacitors and transformers should be exempt from the requirement that new equipment and existing equipment in establishments engaged in the processing of animal feed, human food, or packaging materials shall not contain PCB's, since no known substitute is available which offers the proper balance of characteristics (e.g., fire safety and design efficiency). In support of the comment, it is stated that both capacitors and transformers are constructed in sealed metal cases and are not normally installed in equipment or located in such a manner as to be in direct contact with the material being processed. The Commissioner of Food and Drugs agrees that there should be an exemption for the safe use of PCB's in electrical capacitors and transformers. The final order has been amended in § 135.113(c), § 3.93(c) and § 128.4(b)(3), to provide an exemption for electrical capacitors and transformers.

c. One comment contends that an effective date of 90 days following publication of the final order should be established since this time period would be required for the modification of existing plant equipment to accommodate PCB replacements. The Commissioner concludes that there is no justification for extending the effective date and the final order establishes an effective date of 30 days from the date of publication in the FEDERAL REGISTER.

d. One comment contends that with the replacement of PCB formulated heat exchange fluids with non-PCB fluids, some level of PCB residue is likely to remain in certain equipment. Therefore, the comment continues, the Food and Drug Administration should initiate studies for the purpose of establishing a finite allowable residual level. While it is true that some residue of PCB may remain in certain equipment, if the change is made in a reasonable manner and in good faith there should not be significant concentrations of PCB remaining. Without additional data it is not possible to set any specific limit for PCB concentration in the equipment fluids. Furthermore, the Commissioner has determined that no reasons exists for FDA to initiate studies to determine the extent of residual levels of PCB's in heat exchangers or to specify by regulations finite tolerances for such residual material at this time.

2. *Section 121.2546.* The notice included an amendment to the existing food additive regulations (21 CFR 121.2546) so as to exclude from use in food-packaging materials pulp from reclaimed fibers containing poisonous and deleterious substances which may migrate to the packaged food.

a. One comment contends that the language of the amendment is incomplete since it does not establish a limit or tolerance for poisonous or deleterious substances, such as PCB's, which may ultimately be found in the packaged food product. The Commissioner disagrees because the purpose of § 121.2546 is to regulate the use of reclaimed fibers containing poisonous or deleterious substances for use in the manufacture of food-packaging materials and, to the extent necessary, to prevent contamination of the packaged food product with these substances. Therefore, the regulation precludes the necessity of establishing tolerances for the packaged food product. The Commissioner agrees, however, the clarification of the amendment is needed in order to be consistent with regulations which permit the presence of what could otherwise be regarded as poisonous or deleterious substances at levels that have been proved to be safe in food-packaging materials. Therefore, the order is amended in § 121.2546 by adding the phrase "except as provided in regulations promulgated under Sections 406 and 409 of the Federal Food, Drug, and Cosmetic Act."

3. *Part 122.* The notice included the proposal to establish temporary tolerances under Section 406 of the Federal Food, Drug, and Cosmetic Act for unavoidable PCB residues in animal feed, certain foods and food-packaging materials as a result of environmental contamination.

a. One comment recommends that a zero tolerance for PCB's in foods and feeds should be established. The Commissioner rejects this recommendation. Animal feeds, certain foods, and paper food-packaging materials contain PCB's which, under present conditions of environmental contamination, are unavoidable. Current toxicological information does not support the necessity of establishing zero tolerances for these articles in order to protect public health since human exposure to dietary sources of PCB's is usually sporadic, non-systematic, and occasional. The "finite" temporary tolerances being established will provide the assurance that significant PCB levels are not contained in food and that human exposure to PCB's from dietary sources will be maintained at safe and minimal levels. Zero tolerances, therefore, are unwarranted and would unnecessarily deprive the consumer of a portion of his food supply and disrupt the Nation's food distribution system because a portion of fish, poultry, eggs, and milk and packaging used for food would be violative.

b. A consumer group's comment recommended lowering the PCB tolerances for human foods by a factor 5–10; while another comment recommended that the temporary tolerances should be based on toxicological data which would allow a level that is deemed safe rather than allow a level that can be reasonably achieved. The Commissioner disagrees with both recommendations. Section 406 of the act, which is the authority for establishing the temporary tolerances for PCB's, states that where the addition of a poisonous or deleterious substance to food cannot be avoided the Secretary shall promulgate regulations "limiting the quantity therein or thereon to such extent as he finds necessary for the protection of the public health", and also specifically states that the Secretary in setting such a tolerance shall take into account the extent to which use of the substance "cannot be avoided". The fact

that the tolerances are termed "temporary" is recognition that, in the future, there should be less PCB contamination which "cannot be avoided" and the Commissioner is authorized to reduce the tolerance levels accordingly. The temporary tolerance levels are based on an analysis of animal and human toxicological data and data on the occurrence of PCB's in the food supply as follows:

(1) *Animal toxicological data.* Data from long-term animal studies are available to show that the no-effect level in rats and dogs (for PCB's with 42, 54, and 60 percent chlorination) is 10 parts per million (ppm). Employing a 100 to 1 safety factor, the "no-effect" level for man would be 2.5 microgram (mcg)/kilogram (kg) body weight/day based on data drived from dogs, or 3 mcg/kg body-weight/day from rats. Therefore, based on long-term animal studies, the allowable level of PCB ingestion in man would be approximately 175 mcg/day for a 70 kg individual.

(2) *Human toxicological data.* Human intoxication with Kanachlor 400, a PCB manufactured in Japan with 48 percent chlorine was noted when a heat exchanger leaked fluid into rice oil and was consumed by Japanese families in 1968. About 1,000 people were eventually affected. Typical clinical findings included chloracne and increased pigmentation, visual impairment due to hypersecretion of the Meibomian glands, and systemic gastrointestinal symptoms that included abdominal pain and disturbances in liver function. A few babies were born with decreased birth weights and skin discoloration which slowly regressed as the children grew in size, although the growth rate of males appeared to be somewhat slower than normal. Adult patients had protracted clinical disease with very slow regression of symptoms and signs, suggesting slow metabolism and excretion of this PCB in humans, probably involving a long biological half-life. Exposure levels to the oil were calculated to approximate, on the average, 15,000 mg per day. The oil itself was reportedly contaminated at a level of about 2,000 ppm. This level was derived from the known organic chlorine content of rice oil related to the known organic chlorine content of Kanachlor 400. The average total dose of PCB's causing an effect in the Japanese was reported to be 2,000 mg. The human data published by Karatsune, et al., Fukuoka Acta. Med. 23:117 (1971) established that the lowest level of PCB that produced an effect in man (using a 50 kg man) was 500 mg consumed over a period of 50 days at a rate of approximately 200 mcg/kg body weight/day. The effect level was based on overt symptoms rather than sensitive biochemical tests that might have demonstrated some effects at even lower levels. Employing a safety factor of 10 to 1 to go from an effect level in man to a permissible no-effect level in man allows for an ingestion of 20 mcg/kg body weight/day; or 1.4 mg/day for a 70 kg man based on a total period of exposure of 50 days (equivalent to the Japanese incident). Since PCB's probably have a long biological half-life in man, an alternative toxicological analysis of the human data may be based on the assumption that ingested PCB's would continue to accumulate in tissues for a long period of time. Since 2,000 mg was reported to be the average total dose causing an effect in the Japanese, it is possible that 200 mg total dosage PCB's (applying a safety factor of 10 to 1 as above) may be tolerated over a much more protracted period of time without overt adverse effect if daily exposure is held to minimal levels. It would take 22 months of daily ingestion of 300 mcg of PCB's to arrive at a total ingestion of 200 mg. This would permit ingestion of 4 mcg/kg/day as derived from a 70 kg man. Since the lowest total dose producing an effect in man was 500 mg, a similar analysis leads to an allowable protracted ingestion of 1 mcg/kg/day as derived from a 70 kg man.

(3) *Dietary sources of PCB's.* The results of FDA total diet studies for fiscal years 1970–1972 show that quantitatively measurable residues of PCB's are equivalent to an intake of approximately 0.06 mcg/kg/body weight/day (or 4.2 mcg/day for a 70 kg man). Because of the sensitivity of the analytical methods used. PCB's may be present at levels too low to be detected. If lower levels could be measured, the dietary intake of PCB's from the total diet studies would probably show an increase. It should be recognized, however, that in rare instances some people could have more systematic exposures to PCB's in foods than those expected by eating a moderately well balanced diet such as represented by the total diet samples. Hence, there is a need for minimizing potential human exposures. The total diet studies indicate that PCB's most frequently occur in the food composite consisting of meat, fish and poultry (experience has shown that most of the PCB residues in this composite are in fish and, to a lesser extent, poultry) and in the food composite consisting of grain and cereal products (experience has shown most of the PCB residues in this composite are derived from paper packaging materials). FDA's food surveillance activities have shown that PCB's also occur in dairy products, eggs, and packaged foods, in addition to packaged cereal products.

(4) *Temporary tolerances for PCB's.* Using the human toxicological data described above, FDA concludes that for the short term, based on the lowest total dose producing an effect and estimated biological half-life of PCB's, current levels of PCB's in the diet represent no immediate hazard. This is also true for the average total dose causing an effect in the Japanese for long-term exposure. However, based on the most sensitive "Japanese patient" (i.e., lowest total dose producing an effect), the possibility of potential long-term hazards necessitates reduction of the levels of PCB's in food as soon as possible. In the interim, temporary tolerances are necessary to limit human exposure to those foods that may contain PCB's resulting from environmental contamination, which as a practical matter are presently unavoidable. Those foods, for which temporary tolerances are being established, include milk and dairy products, poultry, eggs, fish, and infant and junior food. Infants and young children consume a greater amount of food per kilogram of body weight and thereby have a proportionately greater exposure than do adults. A separate temporary tolerance for infant and junior food, therefore, reflects the possibility that undesirable exposures could result if combinations of certain PCB-contaminated foods comprise a major portion of this age group's diet. In order to minimize the overall dietary intake of PCB's, individual sources of PCB contamination must also be appropriately minimized. PCB's have been shown to occur in packaged food as a result of the PCB contamination of paper food-packaging materials. Limitations on the levels of PCB's in paper food-packaging materials are, therefore, necessary to minimize the amount of PCB's which may migrate to the packaged food. Since PCB's can be transmitted to and concentrated in edible portions of food-producing animals ingesting PCB-contaminated feed, animal feed represents another source of PCB's in the food supply. Limitations on the levels of PCB's in animal feeds and animal feed components are necessary, therefore, to minimize the frequency and magnitude of PCB residues in foods of animal origin.

The Commissioner concludes that the temporary tolerances being established will protect the public health from PCB's in food, but cautions that the temporary tolerances are not to be construed as "guidelines" permitting the consumption of foods containing these amounts of PCB's on a regular and consistent basis. Further, the temporary tolerances will be lowered as experience indicates that lower levels can be attained.

c. One comment recommends that FDA issue warnings to pregnant women who breast feed their babies to restrict their intake of fish to species that have been thoroughly monitored by FDA and found to be uniformly within the temporary tolerance. The basis for this recommendation is that consumption of PCB-containing fish and, for that matter other foods, may result in transfer and storage of PCB residues in human milk which in turn, the comment contends, would present a hazard to breast fed babies. The Commissioner concludes that such a warning is not warranted. On the basis of available, but limited monitoring data, most of which is unpublished, it appears that PCB levels in human milk would generally be less than approximately 0.05 ppm (whole product basis). Analysis of available toxicological data involving multigeneration reproduction studies in rat indicates that this level presents no immediate hazard to infants. Furthermore, this level is substantially less than the level of PCB's FDA will permit in the milk of dairy cows. The temporary tolerance being established for milk is 2.5 ppm (fat basis), which is

V38-129 JUL 6 73 XUM

equivalent to 0.1 ppm (whole product basis). Therefore, a public warning as recommended is not supported by the scientific facts available at this time.

d. One comment recommends clarification of the term "PCB's" so as to distinguish between PCB-compounds of different chemical composition. The basis for this comment is the fact that PCB's are mixtures of chlorinated biphenql compounds. Each component of the PCB mixture is a specific chemical compound having the basic biphenyl moiety and one to ten chlorine atoms. There are 209 different chlorinated biphenyl compounds. Each component of manufactured and sold in the United States under the registered trade name of Aroclor, followed by a four digit number (i.e., 1242; 1248; 1254; etc.). The term Aroclor signifies that the product consists of chlorinated biphenyls, chlorinated terphenyls, or a mixture of these compounds. The first two digits of the numerical part of the trade name indicate the molecular type (1200 signifies chlorinated biphenyl), while the last two digits give the weight percent of chlorine (42 signifies 42 percent chlorine). Since the physical and chemical properties of each Aroclor vary, the analytical behavior of each Aroclor will also vary. For PCB residue analysis, it is customary to determine the amount of PCB residue found by comparing the residue to a known quantity of the Aroclor it most nearly matches when separated into multicomponents on a gas chromatograph. Therefore, the Commissioner agrees that clarification of the term "PCB" is necessary for the analysis of food, animal feed and paper food-packaging materials for PCB residues. The compilation of FDA analytical methods to be used for enforcing the PCB tolerance that is available upon request contains instructions regarding this aspect of the recommendation. The Commissioner does not agree, however, that the tolerances for PCB's should distinguish between PCB-compounds of different chemical composition because toxicological data do not support the need to establish separate tolerances for each Aroclor. Therefore, the temporary tolerances will apply to the term "PCB" irrespective of which Aroclor or mixture of Aroclor is present as the contaminant.

4. *Section 122.10(a)(1) and (2).* The notice included the proposal to establish a temporary tolerance for PCB's in milk and dairy products at 2.5 ppm (fat basis).

a. One comment recommends that since FDA's previous action level for PCB's in milk and dairy products, which was set at 55 ppm (fat basis), was stated as adequate for protecting public health, the temporary tolerance for milk and dairy products should be kept at the same level. The Commissioner concludes that there is no justification for raising the proposed tolerance from 2.5 ppm to 5 ppm in the fat of milk and dairy products. The 2.5 ppm temporary tolerance takes into account current toxicological data and the level of PCB residues that is presently considered unavoidable. A recent FDA survey revealed that only one sample of milk in 520 tested contained more than 2.5 ppm PCB in the fat, i.e., 0.2 percent of the total samples. Evidence also indicates that higher levels may be generally attributed to avoidable sources of contamination, such as the use of PCB coatings in diary farm silos which caused PCB contamination of silage for diary cows with subsequent transmission of PCB's to the milk of these cows.

b. One comment recommends the PCB tolerance be expressed on an "as is" basis because the fat content of dairy products varies and these foods are consumed "as is". The Commissioner rejects this recommendation. The butterfat is generally considered the most valuable constituent of milk PCB's are fat soluble, and in the manufacture of various dairy products from milk, remain at a nearly constant concentration in the fat. The fat basis tolerance is therefore necessary to govern the level of PCB's in such products in preparing some other type of food. For example, butter (about 80 percent fat) made from milk containing levels of PCB's below tolerance would also be acceptable since the PCB concentration in the fat would be unchanged.

5. *Section 122.10(a)(3).* The notice included a proposal to establish a temporary tolerance for PCB's in poultry at 5.0 ppm (fat basis).

a. One comment recommends that since FDA's previous action level for PCB's in poultry, which was set at 5 ppm on the edible tissue, was stated as adequate for protecting public health, the temporary tolerance should be kept at that same level. The Commissioner rejects this recommendation. PCB contamination of poultry at levels in excess of the temporary tolerance being established has been attributed to the use of animal feed contaminated with PCB's as a result of industrial accidents, e.g., leakage of PCB's onto feed components. The Commissioner concludes that there is no justification for establishing a tolerance level that accounts for avoidable sources of contamination. The temporary tolerance of 5 ppm (fat basis) takes into account that this level of PCB is generally unavoidable because some poultry feeds contain unavoidable PCB residues that will transfer to and concentrate in the fat of poultry. Furthermore, current toxicological data supports this tolerance level.

b. One comment recommends that the tolerance for poultry be expressed on an "as is basis" since this would more closely relate to the total PCB intake from this food than would a tolerance established for poultry on a "fat basis". In response, the Commissioner finds that although the dietary intake of PCB's resulting from contaminated poultry was considered on an "as is" basis (whole tissue) in the development of the temporary tolerance level, expressing the temporary tolerance on a fat basis is preferred since PCB's are fat soluble and fat derived from poultry can be used as a separate food (e.g., soups, gravies, etc.). The fat basis tolerance, therefore, provides the assurance that poultry contains acceptable levels of PCB's, irrespective of whether the whole tissue is consumed or the fat is consumed as a separate food.

6. *Section 122.10(a)(5) and (6).* The notice included the proposal to establish temporary tolerances for PCB's in finished animal feeds at 0.5 ppm and animal feed components (including fishmeal) at 5 ppm.

a. One comment recommends that the term "finished animal feed" be changed to "complete animal feed" since some finished feeds are further mixed with grains, by-products of grains, and other feed ingredients of plant origin before feeding. The Commissioner agrees that certain finished animal feeds such as feed concentrates, premixes, and supplements, often contain high levels of PCB's because they consist of a high percentage of animal-derived ingredients. At time of use, however, these articles are mixed with plant-derived ingredients which are not expected to contain PCB's. Thus, the final ration for the animal would not contain excessive levels of PCB's. The Commissioner concludes that for purposes of the PCB tolerance for animal feeds, clarification of the term "finished animal feed" is needed rather than a change in terminology. Therefore, the order is amended in § 122.10(a)(5) (21 CFR 122.10) so that the temporary tolerance for PCB's is applicable to finished animal feeds, except feed concentrates, supplements, and premixes.

b. One comment recommends a PCB tolerance of 1.0 ppm be established for animal feed components which are not of animal or marine origin. Since there has been no reported finding of PCB's (other than that which may be due to avoidable contamination during processing, handling, or storage) in animal feed components such as grains and by-products of grains, the Commissioner concludes there is no need at this time to establish a separate tolerance for PCB's in this category of animal feed component.

c. One comment recommends that the term "animal feed components" be qualified by the expression "including fishmeal and concentrates, premixes, and supplements". The Commissioner agrees with this recommendation and the order is amended in § 122.10(a)(6) so that the temporary tolerance for PCB's is applicable to animal feed components of animal origin (including fishmeal and other marine by-products) and animal feed concentrates, premixes and supplements.

d. The Commissioner finds that although there was no comment to change the proposed tolerance levels of 0.5 ppm for finished animal feeds and 5 ppm for animal feed components, current information indicates a lowering of these tolerance levels is warranted for the following reasons:

(1) Data from FDA conducted feeding studies show that the proposed temporary tolerance 0.5 ppm for finished animal feeds is incompatible with the temporary tolerances for poultry. White leghorn hens exposed to a diet containing 0.5 ppm PCB's (Aroclor 1254) for 8 weeks contained residues in excess of 5 ppm (fat basis) in the muscle (breast and thigh), dissectable fat, and liver of these animals. At a 0.2 ppm feeding level, the concentration of the PCB tissue residues in poultry was less than 5 ppm (fat basis). Data further indicate that continuous feeding of Aroclor 1254 at 0.5 ppm from day three to day forty-three post initial egg production can result in PCB residues only slightly less than 0.5 ppm in the eggs.

(2) Data from FDA surveillance programs and from industry reports indicate that PCB levels in finished animal feeds and in animal feed components are generally substantially less than the proposed tolerance limits. (a) Last year FDA conducted a survey of finished animal feeds for PCB's. The survey consisted of 1274 sample examinations representing various categories of animal feeds. The results show that 4.4 percent of the samples contained PCB residues. The highest reported level was 0.6 ppm PCB in feed intended for beef cattle. The average level for all samples tested was less than 0.1 ppm and the average level of the 56 samples that contained reportable levels of PCB's was less than 0.2 ppm. About 1 percent of the samples exceeded 0.2 ppm. (b) Animal feed components of animal and marine origin are expected to contain PCB's as a result of environmental contamination. During the past year, 32 samples of imported fishmeal were examined by FDA for PCB's. The results show that about 37 percent of the samples contained PCB residues. The highest level reported was 0.47 ppm. In addition, 153 fishmeal samples of domestic origin were examined during this period. The results show that about 48 percent of the samples contained PCB residues. The highest level reported was 2.1 ppm and the average was less than 1 ppm. (c) In the fall of 1971, industry conducted a survey of the PCB levels in rendered animal by-products used for feed ingredients such as hydrolyzed feather meal; meat and bone meal; fats and greases; and poultry by-product meal. The results of this survey which were published in "Feedstuffs," issue of July 3, 1972, show that of the 438 samples tested, the highest level of PCB found was 1.6 ppm in fat and greases. The average PCB level for the samples tested was less than 1 ppm. Other data that the FDA has received on the levels of PCB's in rendered animal by-products essentially confirms the results of this industry survey. Therefore, on the basis of the above, the Commissioner concludes that available evidence requires and justifies a reduction in the PCB tolerances for animal feeds and animal feed components. The order is thus amended in § 122.10(a)(5) and (6) to establish temporary tolerances for PCB's in finished feeds at 0.2 ppm and in animal feed components at 2 ppm.

e. One comment recommends that a tolerance of 5 ppm be established for PCB's in pet food. The Commissioner agrees in part with the comment. The proposal to establish a tolerance for animal feed was directed toward food-producing animals because the transmission of PCB's to the edible portion of animals ingesting PCB contaminated feed constitutes a potential hazard to human health. Further, the comment makes a reasonable recommendation since some pets may be able to safely consume levels of PCB's higher than 0.5 ppm. However, on the basis of available toxicological information, there is insufficient data for FDA to establish a tolerance for PCB's in feed for all types of pets and for other non-food producing animals. For this reason, studies will be initiated to obtain this information and, if warranted, FDA will issue a proposal to limit the level of PCB's in this category of finished animal feed. In the interim, the order is amended so that the temporary tolerance in § 122.10(a)(5) is applicable to only food-producing animals.

7. *Section 122.10(a)(7).* The notice included the proposal to establish a temporary tolerance for PCB's in fish (edible portion) at 5 ppm.

a. One comment recommends that a temporary tolerance be established for shellfish. The Commissioner agrees with this recommendation because shellfish also have been found to contain PCB's as a result of unavoidable, environmental contamination and it is also in the interest of public health to limit the level of PCB's in this food. Therefore, § 122.10(a)(7) is amended to include shellfish under the temporary tolerance of 5 ppm.

8. *Section 122.10(a)(8).* The notice included the proposal to establish a temporary tolerance for PCB's in infant and junior foods at 0.1 ppm.

a. One comment states that the level proposed cannot be achieved because of trace quantities of PCB's in certain foods and in paper food-packaging materials. The Commissioner concurs with this statement because information indicates that this level of PCB's cannot be avoided and that current analytical methodology is insufficient to enforce a tolerance of 0.1 ppm. Therefore, the final order is amended by revising the temporary tolerance for PCB's in infant and junior foods to 0.2 ppm.

9. *Section 122.10(a)(9).* The notice included the proposal to establish a temporary tolerance for PCB's in food-packaging materials at 5 ppm.

a. One comment recommends that plastic and other non-paper food-packaging material be exempt from the temporary tolerance. The Commissioner agrees with this recommendation because there is no evidence to indicate that PCB's occur in plastic or other non-paper food-packaging materials as a result of unavoidable contamination. For this reason, no basis exists for establishing a tolerance under Section 406 of the Federal Food, Drug, and Cosmetic Act for these articles. Therefore, the wording of § 122.10(a)(9) is revised to apply only to paper food-packaging materials. This exemption means that no PCB's whatever may be present, either as a result of purposeful addition or industrial accidents, in plastic and other non-paper food-packaging materials. The provisions in the Statement of General Policy or Interpretation under Part 3, which prohibits the use of PCB-containing equipment and materials, are applicable to those establishments engaged in the manufacture, handling, and storage of plastic and other non-paper food-packaging materials.

b. One comment contends that no authority exists under Section 406 of the Federal Food, Drug, and Cosmetic Act for the establishment of temporary tolerances for PCB's in food-packaging materials. The Commissioner concludes that the establishment of temporary tolerances for PCB's in food-packaging material is consistent with the language and purpose of Sections 402(a)(2)(A) and 406 of the Federal Food, Drug, and Cosmetic Act.

c. One comment recommends the temporary tolerance be applied to the packaged food, rather than the food-packaging material. The Commissioner rejects this recommendation for the following reasons:

(1) Since the transfer of PCB's from packaging material to the food is dependent on time and conditions of exposure, tolerances based solely on the food would not provide adequate protection to the consumer. A packaged food analyzed at the time of packaging may be entirely free of PCB's, but by the time it reaches the consumer and is finally consumed it may have accumulated considerable quantities of PCB's if the packaging material is contaminated. A tolerance system in which analytical findings are so dependent on many variables such as time of sampling would not be reasonable or adequate. (2) In order to achieve compliance with a tolerance for packaged food, the level of PCB in the packaging has to be taken into account and limited to preclude the potential transfer of quantities of PCB's to the food that would cause the food to exceed its tolerance level. The fact that the level of PCB in packaged food is related to the level of PCB in its packaging, in effect, necessitate tolerance for both the food and its packaging. This would represent an obvious redundancy. (3) Establishing a tolerance for packaged food would be inconsistent with the intent and meaning of section 406 of the Federal Food, Drug, and Cosmetic Act. The packaged food does not contain unavoidable PCB residues. The principal source of the PCB contamination of packaged food is the paper food-packaging material, which contain the unavoidable contamination. As such, the tolerance should deal with this article. Therefore, this source of food contamination should be limited so as to minimize the levels of PCB's that may migrate to the packaged food. (4) Failure to limit the level of PCB's in food-packaging materials would perpetuate the use of a known, avoidable source of PCB contamination of food.

d. One comment received from industry and related trade associations argues that the temporary tolerance for PCB's in food-packaging materials should be deleted or postponed until: (1) quality control test procedures and adequate analytical methods are developed to regulate production and insure compliance,

V 38 I 129 JUL 6 73 XUM

and (2) migration rates are established to take into account barrier effects, type of food, and package weight to food weight ratio. In response, the Commissioner finds that: (1) Although a trade association submitted data which they claimed indicates a lack of reliability in analyses of paperboard material, the data failed to show that uniform test methods were employed by the participating laboratories or that these tests were performed by laboratories with demonstrated capabilities in trace residue analysis. Further, an interlaboratory study conducted under the auspices of another trade association using FDA analytical methodology, supports the conclusion that current methodology is adequately sensitive and reproducible from laboratory to laboratory in order to insure compliance with the tolerance. (2) It is recognized that migration rates (actual level of PCB in food resulting from the use of contaminated packaging) are affected by factors such as barriers, type of food, package weight to food weight ratio, and time and conditions of exposure. Since FDA's primary concern is not the fact that paper food-packaging materials contain PCB's, but the fact that PCB's can migrate to the food from the packaging, the use of barriers which prevent migration is an acceptable alternative to limiting the PCB content of paper food-packaging material. For this reason, the final order is amended in § 122.10(a)(9) to exempt paper food-packaging materials from compliance with the temporary tolerance if the paper food-packaging material is separated from the food by a functional barrier impermeable to PCB migration. Metal cans and glass bottles are obvious examples of what constitutes a functional barrier impermeable to PCB migration. Data from industry sponsored studies have shown that materials such as polyvinylidene coated paper and glassine can, to varying degrees, prevent or reduce PCB migration under test conditions which would favor migration. FDA would not object to the use of flexible materials and other materials as barriers provided there is no evidence of migration of PCB's to the food. At this time, however, there is insufficient information for FDA to list as part of the regulation those materials that are considered functional barriers. The other factors mentioned above which affect migration rates may also be important considerations and should be thoroughly studied. In the interim, the temporary tolerance for paper food-packaging materials and the exemption to this temporary tolerance are considered necessary to assure the consumer that packaged food is not being contaminated with PCB's to an avoidable degree.

e. One comment states that the establishment of temporary tolerance for PCB in paper food-packaging materials is unwarranted for public health reasons because available scientific evidence shows that Aroclor 1242 (predominant PCB found in paper) is not persistent and cumulative, and thus will not present a chronic toxicity problem. Although data indicates that some components of Aroclor 1242 are metabolized in biological systems more rapidly than the higher chlorinated Aroclors, there is no information available which describes the composition, toxicity, and fate of the metabolic products. The absence of Aroclor 1242 residues in human and other animal tissue and in the environment is not a sound basis from which to argue that no hazard exists from the ingestion of Aroclor 1242. The possibility exists that Aroclor 1242 is converted to alteration products which may be more toxic than the original compounds, but which are not detectable by current analytical methods. Further, available data from chronic feeding studies with rats and dogs fail to substantiate claims that Aroclor 1242 does not represent a toxic substance or that it differs in toxicity from the higher Aroclors. The Commissioner concludes that the temporary tolerance for paper food-packaging materials will apply to the tem "PCB" irrespective of which Aroclor is present as the contaminant.

f. Several manufacturers and trade associations recommended that the temporary tolerance for PCB's in food-packaging materials be modified so that the tolerance is expressed as "0.265 mcg/square centimeter in that portion of the package from which migration to the food can reasonably be expected", rather than using "parts per million" terminology. The Commissioner believes that this would not be a practical alternative because: (1) Expressing the tolerance for the weight of PCB residues in terms of unit area of packaging material rather than unit weight of packaging material assumes that PCB's are uniformly distributed throughout the food package and that any area of the packaging material selected for PCB analysis would be representative of the entire package. It is generally recognized that this assumption is not valid. (2) The migration of PCB from package material to food is considered to be chiefly a vapor phase phenomenon which is related to the concentration of PCB's in the packaging material. It is therefore not possible to ascertain which portion of the package would be expected to contribute to the PCB contamination of the packaged food. For these reasons, it is necessary to take into account the paper food-packaging material in its entirety as a potential source for the PCB contamination of the packaged food. Therefore, expressing the tolerance in terms of weight of PCB's per weight of packaging material as "parts per million" is a practical means to measure the "average" PCB level in the packaging.

g. One comment recommends that FDA include in the final regulation PCB analytical procedures employed by FDA in determining the extent of compliance with the established temporary tolerance for paper food-packaging materials. The Commissioner concurs in part with this recommendation and FDA will provide upon request the analytical methods to be used for enforcing the temporary tolerances for PCB's in paper food-packaging materials and the other articles for which tolerances are established in § 122.10(a). Omitting the methodology from the regulation will permit easier adoption of improved procedures as they are developed while having the analytical methods readily available to all interested parties.

h. One comment states that the temporary tolerance for PCB's for paper food-packaging materials will be detrimental to solid waste disposal programs, increase food packaging costs and result in an insufficient supply of packaging materials due to limitations of raw materials, and thus will significantly affect the quality of the human environment. The underlying basis for this statement is the fact that PCB's may occur in recycled paper because of the inclusion of some types of carbonless copy paper containing 3–5 percent PCB's into wastepaper stocks used in the manufacture of recycled paper. The comment contends that the temporary tolerance will have an adverse effect on the recycled paper industry and thus will cause the above environmental consequences. In response, FDA prepared in accordance with the National Environmental Policy Act of 1969 an environmental impact statement on the proposed rule making. FDA issued a Draft Environmental Impact Statement on May 11, 1972, a Final Environmental Impact Statement on December 21, 1972, and a Supplement to the Final Environmental Impact Statement (published concurrently with this order). In these statements, FDA asserted that information on the toxicity of PCB's necessitates limiting the levels of PCB's currently present in certain foods as a result of environmental contamination, as well as levels of PCB's in certain unavoidable sources of food contamination, i.e., PCB contaminated paper foodpackaging materials. FDA also asserted that the public health benefits derived from the rule making would outweigh any benefits that might be derived from industry-recommended alternative courses of action. These alternatives, which were considered and rejected by FDA as ineffective consumer protection measures, included: (1) The alternative of not regulating the PCB content of food-packaging materials; (2) The alternative of exempting Aroclor 1242 from the regulation; and (3) The alternative of regulating the packaged food rather than the packaging. FDA concluded in the statements that the rule making would have a significant, beneficial effect on the quality of the human environment. FDA did, however, re-evaluate the proposed level of 5 ppm as the temporary tolerance for PCB's in paper food-packaging materials. Data from the FDA survey of PCB's in foods and food packaging showed that the food portion of the samples with 5–10 ppm in paper food packaging contained the same range of PCB levels (0.1–0.6 ppm) as the food portion of the samples with 0–5 ppm in paper packaging. Samples with more than 10 ppm in the packaging contained higher levels in the food, ranging up to 3.7 ppm. The Commissioner concluded that this was the only acceptable alternative available and stated in the Final Environmental Impact Statement that the temporary tolerance for PCB's in paper food-packaging materials would be changed to 10 ppm. (This order amends § 122.10(a)(9) to reflect this change.) Data provided by industry shows that levels of PCB's in paper food-packaging materials have diminished during the past year to the point that 93 percent or more of this material will contain 10 ppm or less PCB's. Therefore, FDA concluded that the temporary tolerance of 10 ppm and the exemption to this tolerance for paper food-packaging materials separated from the packaged food by a functional barrier will protect the public, while minimizing or negating the impact of the rule making on recycling programs. Furthermore, FDA indicated in the Supplement to the Final Environmental Impact Statement that it will explore with other federal agencies measures for eliminating PCB–containing carbonless copy paper from existing inventories. If feasible, this action would reduce the primary source of PCB's found in paper food-packaging materials permitting FDA to reduce the temporary tolerance, and eventually to eliminate the need for regulating this unavoidable source of PCB's in food.

Accordingly, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 402(a), 406, 409, 701, 52 Stat. 1046 as amended, 1049, 1055–1056 as amended by 70 Stat. 919 and 72 Stat. 948, 72 Stat. 1784–1788 as amended; 21 U.S.C. 342(a), 346, 348, 371) and under authority delegated to the Commissioner (21 CFR 2.120) Parts 3, 121, 128, and 135 are amended and a new Part 122 is added, as follows:

PART 3—STATEMENTS OF GENERAL POLICY OR INTERPRETATION

1. The following new section is added to Part 3:

§ 3.93 Use of polychlorinated biphenyls (PCB's) in establishments manufacturing food-packaging materials.

(a) Polychlorinated biphenyls (PCB's) represent a class of toxic industrial chemicals manufactured and sold under a variety of trade names, including: Aroclor (United States); Phenoclor (France); Colphen (Germany); and Kanaclor (Japan). PCB's are highly stable, heat resistant, and non-flammable chemicals. Industrial uses of PCB's include, or did include in the past, their use as electrical transformer and capacitor fluids, heat transfer fluids, hydraulic fluids, and plasticizers, and in formulations of lubricants, coatings, and inks. Their unique physical and chemical properties and widespread, uncontrolled industrial applications have caused PCB's to be a persistent and ubiquitous contaminant in the environment, causing the contamination of certain foods. In addition, incidents have occurred in which PCB's have directly contaminated animal feeds as a result of industrial accidents (leakage or spillage of PCB fluids from plant equipment). These accidents in turn caused the contamination of food products intended for human consumption (meat, milk and eggs). Investigations by the Food and Drug Administration have revealed that a significant percentage of paper food-packaging material contains PCB's which can migrate to the packaged food. The origin of PCB's in such material is not fully understood. Reclaimed fibers containing carbonless copy paper (contains 3 to 5 percent PCB's) have been identified as a primary source of PCB's in paper products. Some virgin paper products have also been found to contain PCB's, the source of which is generally attributed to direct contamination from industrial accidents from the use of PCB-containing equipment and machinery in food packaging manufacturing establishments. Since PCB's are toxic chemicals, the PCB contamination of food-packaging materials as a result of industrial accidents, which can cause the PCB contamination of food, represents a hazard to public health. It is therefore necessary to place certain restrictions on the industrial uses of PCB's in establishments manufacturing food-packaging materials.

(b) The following special provisions are necessary to preclude the accidental PCB contamination of food-packaging materials:

(1) New equipment or machinery for manufacturing food-packaging materials shall not contain or use PCB's.

(2) On or before August 6, 1973, the management of establishments manufacturing food-packaging materials shall:

(i) Have the heat exchange fluid used in existing equipment for manufacturing food-packaging materials sampled and tested to determine whether it contains PCB's or verify the absence of PCB's in such formulations by other appropriate means. On or before Sept. 4, 1973, any such fluid formulated with PCB's must to the fullest extent possible commensurate with current good manufacturing practices be replaced with a heat exchange fluid that does not contain PCB's.

(ii) Eliminate to the fullest extent possible commensurate with current good manufacturing practices from the establishment any other PCB-containing equipment, machinery and materials wherever there is a reasonable expectation that such articles could cause food-packaging materials to become contaminated with PCB's either as a result of normal use or as a result of accident, breakage, or other mishap.

(iii) The toxicity and other characteristics of fluids selected as PCB replacements must be adequately determined so that the least potentially hazardous replacement is used. In making this determination with respect to a given fluid, consideration should be given to (*a*) its toxicity; (*b*) the maximum quantity that could be spilled onto a given quantity of food before it would be noticed, taking into account its color and odor; (*c*) possible signaling devices in the equipment to indicate a loss of fluid, etc.; and (*d*) its environmental stability and tendency to survive and be concentrated through the food chain. The judgment as to whether a replacement fluid is sufficiently non-hazardous is to be made on an individual installation and operation basis.

(c) The provisions of this section do not apply to electrical transformers and condensers containing PCB's in sealed containers.

PART 121—FOOD ADDITIVES

2. In Part 121, § 121.2546(b) is amended by revising subparagraphs (1) and (2), as follows:

§ 121.2546 Pulp from reclaimed fiber.

* * * * * *

(b) * * *

(1) Industrial waste from the manufacture of paper and paperboard products excluding that which bears or contains any poisonous or deleterious substance which is retained in the recovered pulp and that migrates to the food, except as provided in regulations promulgated under sections 406 and 409 of the Federal Food, Drug, and Cosmetic Act.

(2) Salvage from used paper and paperboard excluding that which (i) bears or contains any poisonous or deleterious substance which is retained in the recovered pulp and that migrates to the food, except as provided in regulations promulgated under sections 406 and 409 of the act or (ii) has been used for shipping or handling any such substance.

* * * * * *

PART 122—UNAVOIDABLE CONTAMINANTS IN FOOD AND FOOD-PACKAGING MATERIAL

3. A new Part 122 is added as follows:

Subpart A—Definitions and Procedural and Interpretive Regulations

Sec.
122.1 Definitions and interpretations.
122.2—122.9 [Reserved]

Subpart B—Industrial Contaminants in Food and Food-Packaging Material

122.10 Temporary tolerances for polychlorinated biphenyls (PCB's).

AUTHORITY: Secs. 402(a), 406, 409, 701, 52 Stat. 1046 as amended, 1049, 1055–1056 as amended by 70 Stat. 919 and 72 Stat. 948, 72 Stat. 1785–1788 as amended; 21 U.S.C. 342(a), 346, 348, 371.

Subpart A—Definitions and Procedural and Interpretive Regulations

§ 122.1 Definitions and interpretations.

(a) The definitions and interpretations of terms contained in section 201 of the Federal Food, Drug, and Cosmetic Act shall be applicable to such terms when used in this part.

(b) Unavoidable natural, environmental, or industrial contaminants include any poisonous or deleterious substance added to any food where such substance cannot be avoided by good manufacturing practice.

Subpart B—Industrial Contaminants in Food and Food-Packaging Material

§ 122.10 Temporary tolerances for polychlorinated biphenyls (PCB's).

(a) Polychlorinated biphenyls (PCB's) are toxic, industrial chemicals. Because of their widespread, uncontrolled industrial applications, PCB's have become a persistent and ubiquitous contaminant in

V 38 1 29 JUL 6 73 XUM

the environment. As a result, certain foods and animal feeds, principally those of animal and marine origin, contain PCB's as unavoidable, environmental contaminants. PCB's are transmitted to the food portion (meat, milk, and eggs) of food producing animals ingesting PCB contaminated animal feed. In addition, a significant percentage of paper food-packaging materials contain PCB's which may migrate to the packaged food. The source of PCB's in paper food-packaging materials is primarily of certain types of carbonless copy paper (containing 3 to 5 percent PCB's) in waste paper stocks used for manufacturing recycled paper. Therefore, temporary tolerances for residues of PCB's as unavoidable environmental or industrial contaminants are established for a sufficient period of time following the effective date of this paragraph to permit the elimination of such contaminants at the earliest practicable time. For the purposes of this paragraph, the term "polychlorinated biphenyls (PCB's)" is applicable to mixtures of chlorinated biphenyl compounds, irrespective of which mixture of PCB's is present as the residue. The temporary tolerances for residues of PCB's are as follows:

(1) 2.5 parts per million in milk (fat basis).

(2) 2.5 parts per million in manufactured dairy products (fat basis).

(3) 5 parts per million in poultry (fat basis).

(4) 0.5 parts per million in eggs.

(5) 0.2 parts per million in finished animal feed for food-producing animals (except the following finished animal feeds: feed concentrates, feed supplements, and feed premixes).

(6) 2 parts per million in animal feed components of animal origin, including fishmeal and other by-products of marine origin and in finished animal feed concentrates, supplements, and premixes intended for food producing animals.

(7) 5 parts per million in fish and shellfish (edible portion). The edible portion of fish excludes head, scales, viscera, and inedible bones.

(8) 0.2 parts per million in infant and junior foods.

(9) 10 parts per million in paper food-packaging material intended for or used with human food, finished animal feed and any components intended for animal feeds. The tolerance shall not apply to paper food-packaging material separated from the food therein by a functional barrier which is impermeable to migration of PCB's.

(b) A compilation entitled "Analytical Methodology for Polychlorinated Biphenyls, February 1973" for determining compliance with the tolerances established in this section is available from the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852.

PART 128—HUMAN FOODS; CURRENT GOOD MANUFACTURING PRACTICE (SANITATION) IN MANUFACTURE, PROCESSING, PACKING OR HOLDING

4. In Part 128 by revising § 128.4 to read as follows:

§ 128.4 Equipment and utensils.

(a) *General.* All plant equipment and utensils should be (1) suitable for their intended use, (2) so designed and of such material and workmanship as to be adequately cleanable, and (3) properly maintained. The design, construction, and use of such equipment and utensils shall preclude the adulteration of food with lubricants, fuel, metal fragments, contaminated water, or any other contaminants. All equipment should be so installed and maintained as to facilitate the cleaning of the equipment and of all adjacent spaces.

(b) *Use of polychlorinated biphenyls in food plants.* Polychlorinated biphenyls (PCB's) represent a class of toxic industrial chemicals manufactured and sold under a variety of trade names, including: Aroclor (United States); Phenoclor (France); Colphen (Germany); and Kanaclor (Japan). PCB's are highly stable, heat resistant, and non-flammable chemicals. Industrial uses of PCB's include, or did include in the past, their use as electrical transformer and capacitor fluids, heat transfer fluids, hydraulic fluids, and plasticizers, and in formulations of lubricants, coatings, and inks. Their unique physical and chemical properties and widespread, uncontrolled industrial applications have caused PCB's to be a persistent and ubiquitous contaminant in the environment and causing the contamination of certain foods. In addition, incidents have occurred in which PCB's have directly contaminated animal feeds as a result of industrial accidents (leakage or spillage of PCB fluids from plant equipment). These accidents in turn cause the contamination of food intended for human consumption (meat, milk, and eggs). Since PCB's are toxic chemicals, the PCB contamination of food as a result of these accidents represents a hazard to human health. It is therefore necessary to place certain restrictions on the industrial uses of PCB's in the production, handling, and storage of food. The following special provisions are necessary to preclude accidental PCB contamination of food:

(1) New equipment, utensils, and machinery for handling or processing food in or around a food plant shall not contain PCB's.

(2) On or before September 4, 1973, the management of food plants shall:

(i) Have the heat exchange fluid used in existing equipment or machinery for handling or processing food sampled and tested to determine whether it contains PCB's, or verify the absence of PCB's in such formulations by other appropriate means. On or before Sept. 4, 1973, any such fluid formulated with PCB's must be replaced with a heat exchange fluid that does not contain PCB's.

(ii) Eliminate from the food plant any PCB-containing food-contact surfaces of equipment or utensils and any PCB-containing lubricants for equipment or machinery that is used for handling or processing food.

(iii) Eliminate from the food plant any other PCB-containing materials wherever there is a reasonable expectation that such materials could cause food to become contaminated with PCB's either as a result of normal use or as a result of accident, breakage, or other mishap.

(iv) The toxicity and other characteristics of fluids selected as PCB replacements must be adequately determined so that the least potentially hazardous replacement is used. In making this determination with respect to a given fluid, consideration should be given to (*a*) its toxicity; (*b*) the maximum quantity that could be spilled onto a given quantity of food before it would be noticed, taking into account its color and odor; (*c*) possible signaling devices in the equipment to indicate a loss of fluid, etc.; and (*d*) its environmental stability and tendency to survive and be concentrated through the food chain. The judgment as to whether a replacement fluid is sufficiently non-hazardous is to be made on an individual installation and operation basis.

(3) For the purposes of this section, the provisions do not apply to electrical transformers and condensers containing PCB's in sealed containers.

PART 135—NEW ANIMAL DRUGS

5. The following new section is added to Part 135, Subpart B:

§ 135.113 Use of polychlorinated biphenyls (PCB's) in the production, handling, and storage, of animal feed.

(a) Polychlorinated biphenyls (PCB's) represent a class of toxic industrial chemicals manufactured and sold under a variety of trade names, including: Aroclor (United States); Phenoclor (France); Colphen (Germany); and Kanaclor (Japan). PCB's are highly stable, heat resistant, and nonflammable chemicals. Industrial uses of PCB's include, or did include in the past, their use as electrical transformer and capacitor fluids, heat transfer fluids, hydraulic fluids, plasticizers, and in formulations of lubricants, coatings, and inks. Their unique physical and chemical properties and widespread, uncontrolled industrial applications have caused PCB's to be a persistant and ubiquitous contaminant in the environment, causing the contamination of certain foods. In addition, incidents have occurred in which PCB's have directly contaminated animal feeds as a result of industrial accidents (leakage or spillage of PCB fluids from plant equipment). These accidents in turn cause the contamination of food intended for human consumption, (meat, milk, and eggs). Investigations by the Food and Drug Administration have revealed that heat exchange fluids for certain pasteurization equipment used in processing animal feed contain PCB's. Although heat exchange fluids in such equipment are considered to be in "closed systems", leakage has occurred that resulted in direct contamination of animal feed with PCB's and subsequently resulted in the transfer of PCB's to human food produced by animals consuming the contaminated feed. The use of PCB-containing coatings on the inner walls of silos has resulted in the contamination of silage which has in turn caused PCB residues in the milk of dairy cows consuming the contaminated silage. Since PCB's are toxic chemicals, the PCB contamination of food as a result of these and other incidents represent a hazard to public health. It is therefore necessary to place certain restrictions on the industrial uses of PCB's in the production, handling, and storage of animal feed.

(b) The following special provisions are necessary to preclude accidental PCB contamination of animal feed:

(1) Coatings or paints for use on the contact surfaces of feed storage areas may not contain PCB's or any other harmful or deleterious substances likely to contaminate feed.

(2) New equipment or machinery for handling or processing feed in or around an establishment producing animal feed shall not contain PCB's.

(3) On or before Sept. 4, 1973, the management of establishments producing animal feed shall:

(i) Have the heat exchange fluid used in existing equipment or machinery for handling and processing feed sampled and tested to determine whether it contains PCB's, or verify the absence of PCB's in such formulations by other appropriate means. On or before Sept. 4, 1973, any such fluid formulated with PCB's must to the fullest extent possible commensurate with current good manufacturing practices, be replaced with a heat exchange fluid that does not contain PCB's.

(ii) Eliminate to the fullest extent possible commensurate with current good manufacturing practices from the animal feed producing establishment any PCB-containing lubricants for equipment or machinery used for handling or processing animal feed.

(iii) Eliminate to the fullest extent possible commensurate with current good manufacturing practices from the animal feed producing establishment any other PCB-containing materials, whenever there is a reasonable expectation that such materials could cause animal feed to become contaminated with PCB's either as a result of normal use or as a result of accident, breakage, or other mishap.

(iv) The toxicity and other characteristics of fluids selected as PCB replacements must be adequately determined so that the least potentially hazardous replacement should be used. In making this determination with respect to a given fluid, consideration should be given to (*a*) its toxicity; (*b*) the maximum quantity that could be spilled onto a given quantity of food before it would be noticed, taking into account its color and odor; (*c*) possible signaling devices in the equipment to indicate a loss of fluid, etc.; (*d*) and its environmental stability and tendency to survive and be concentrated through the food chain. The judgment as to whether a replacement fluid is sufficiently non-hazardous is to be made on an individual installation and operation basis.

(c) For the purpose of this section, the provisions do not apply to electrical transformers and condensers containing PCB's in sealed containers.

(d) For the purpose of this section, the term "animal feed" includes all articles used for food or drink for animals other than man.

Any person who will be adversely affected by the provisions of §§ 121.254b and 122.10 of the foregoing order may at any time on or before August 6, 1973 file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order, specify with particularity the provisions of the order deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections shall states the issues for the hearing, shall be supported by grounds factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event that a hearing is held. Objections may be accompanied by a memorandum or brief in support thereof. Six copies of all documents shall be filed. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date. This order will become effective for foods, feeds, and paper food-packaging materials initially shipped in commerce after Sept. 4 1973 except as to any provisions of §§ 121.2546 and 122.10 that may be stayed by the filing of proper objections. Notice of the filing of objections or lack thereof will be announced in the FEDERAL REGISTER. In the event § 122.10 is stayed by valid objections, pending a final regulation the Food and Drug Administration will enforce the levels stated in § 122.10 by seizing pursuant to sections 301 and 304 of the Act any food, feed, or paper food-packaging material shipped in commerce containing higher than the specified level of PCB's as adulterated in violation of section 402 of the Act.

(Secs. 402(a), 406, 409, 701, 52 Stat. 1046 as amended, 1049, 1055–1056 as amended by 70 Stat. 919 and 72 Stat. 948, 72 Stat. 1785–1788 as amended; 21 U.S.C. 342(a), 346, 348, 371)

Availability of Supplement To Final Environmental Impact Statement

The Commissioner of Food and Drugs published a notice in the FEDERAL REGISTER of December 21, 1972 (37 FR 28201) announcing that a statement entitled "Final Environmental Impact Statement—Rule Making on Polychlorinated Biphenyls" had been issued by the Food and Drug Administration.

Notice is hereby given that a statement entitled "Supplement to the Final Environmental Impact Statement—Rule Making on Polychlorinated Biphenyls" has been issued by the Food and Drug Administration. Copies of the supplement are available from the Office of the Assistant Commissioner for Public Affairs, Room 15B-42, or the Office of the Hearing Clerk, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852.

This notice is issued pursuant to provisions of the National Environmental Policy Act of 1969, Public Law 91-190 (sec. 102(2)(c), 83 Stat. 853; 42 U.S.C. 4332), and under authority delegated to the Commissioner (21 CFR 2.120).

Dated: June 21, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

■

Minimum Wages for Federal and Federally Assisted Construction

Area Wage Determination Decisions, Modifications, and Supersedeas Decisions; Index

V 38 - 129 JUL 6 73 XUM

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

Area Wage Determination Decision, Modifications and Supersedeas Decisions

Area wage determination decisions. Area wage determination decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24 70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 12–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

Area wage determination decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

Modifications and supersedeas decisions to area wage determination decisions. Modifications and supersedeas decisions to area wage determination decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing Area Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and supersedeas decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U. S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D. C. 20210. The cause for not utilizing the rulemaking procedures prescribed in 5 U.S.C. 553 has been set forth in the original area wage determination decision.

Set forth in this document are the following:

INDEX TO AREA WAGE DETERMINATION DECISIONS AND MODIFICATIONS AS OF JUNE 29, 1973

There is set forth below an index to area wage determination decisions and modifications as published in the FEDERAL REGISTER pursuant to the Davis-Bacon and related Acts. The index lists area wage determination decisions and modifications by State and county. An updated index is published on the first Friday of each month.

The index is published for the convenience of the public and the Department of Labor will endeavor to keep it accurate and up to date. In the event the data in the index and published area decisions do not coincide, the published area decisions shall control.

Abbreviations:

(B)—Building Construction
(D)—Dredging Construction
(F)—Flood Control Construction
(H)—Heavy Construction
(Hw)—Highway Construction
(R)—Residential Construction
Mod.—Modification

Signed at Washington, D.C. this 29th day of June 1973.

BEN P. ROBERTSON,
Acting Administrator,
Wage and Hour Division.

An Invaluable Reference Tool

1972/73 Edition

This guidebook provides information about significant programs and functions of the U.S. Government agencies, and identifies key officials in each agency.

Included with most agency statements are "Sources of Information" sections which give helpful information on:

- Employment
- Contracting with the Federal Government
- Environmental programs
- Small business opportunities
- Federal publications
- Speakers and films available to civic and educational groups

This handbook is a "must" for teachers, students, librarians, researchers, businessmen, and lawyers who need current official information about the U.S. Government.

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

PRESIDENTIAL DETERMINATION—Memorandum for A.I.D. Administrator regulating transfer of funds for Vietnam programs 18231

DISASTER LOANS—SBA issues general revision of regulations; effective 7–1–73 18238

PUBLIC ASSISTANCE—HEW proposal on eligibility; comments by 8–8–73 18254

LEASED HOUSING PROJECTS—HUD notice of unavailability of funds for relocation cost; effective 7–9–73 18262

FOOD ADDITIVES—FDA approves two food contact materials (2 documents); effective 7–9–73 ..... 18245, 18246

NEW ANIMAL DRUGS—FDA approves new penicillin drug; effective 7–9–73 18246

MARITIME COMMUNICATIONS—FCC proposal on identification requirements; comments by 8–13–73 18256

GOVERNMENT SHIPPERS OF HOUSEHOLD GOODS—ICC allows waiver of requirements or order for service; effective 8–20–73 18253

MOTOR CARRIER CREDIT REGULATIONS—ICC amends rule permitting carrier credit to shippers 18253

HAZARDOUS MATERIALS—Coast Guard packaging requirements for shipment of materials sold by DOD; effective 10–12–73 18235

FLUE-CURED TOBACCO—
USDA 3 year marketing quotas beginning 7–1–74 18233
USDA notice of marketing quotas referendum 18254

MEETINGS—
CSC: Federal Employees Pay Council, 7–10 and 7–13–73 18264
National Foundation on the Arts and the Humanities: Theatre Advisory Panel, 7–10 and 7–11–73 18290
FPC: Technical Advisory Committee on Power Supply, 7–24–73 18281
Technical Advisory Committee on Finance, 7–20–73 .. 18281
Technical Advisory Committee on Fuels, 7–12–73 18281
Technical Advisory Committee on Conservation of Energy, 7–10–73 18281
Technical Advisory Committee on Research and Development, 7–10 and 7–11–73 18281
Technical Advisory Committee on Conservation of Energy, 7–9–73 18281
DOT: National Committee on Prevention of Marine Pollution, 7–12–73 18263
AEC: ACRS Subcommittee on Oconee Nuclear Station, 7–23 and 7–24–73 18290
Advisory Committee on Reactor Safeguards Combined Environmental and Waste Management Subcommittees, 7–18 and 7–19–73 18291

MEMORANDUM OF JUNE 13, 1973

[Presidential Determination No. 73-15]

Transfer of Certain Supporting Assistance Fund to Administrative Expense Funds

Memorandum for the Administrator, Agency for International Development

THE WHITE HOUSE
Washington, June 13, 1973.

SUBJECT: Determination under Section 610 of the Foreign Assistance Act of 1961, as amended, (the "Act"), to transfer up to $2.9 million of Supporting Assistance funds to Administrative Expense funds.

In accordance with the recommendation in your memorandum of May 18, 1973, I hereby determine, pursuant to Section 610 of the Act, that it is necessary for purposes of the Act that up to $2.9 million appropriated under Section 402 (now Section 532) of the Act be transferred to, and consolidated with, appropriations made under Section 637(a) of the Act, subject to the limitation that funds so transferred shall be available solely for administrative expenses incurred in connection with programs in Vietnam. I hereby authorize such transfer and consolidation.

You are requested on my behalf to notify the Speaker of the House of Representatives and the Senate Foreign Relations Committee of my intention to take this action, in accordance with Section 652 of the Foreign Assistance Act of 1961, as amended.

In accordance with the provisions of 654(c) of the Act, this determination shall be published in the FEDERAL REGISTER.

Richard Nixon

Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER VII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (AGRICULTURAL ADJUSTMENT), DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

PART 725—FLUE-CURED TOBACCO

Subpart—Proclamations, Determinations and Announcements of National Marketing Quotas and Referendum Results

PROCLAMATION OF QUOTAS, 1973–74 MARKETING YEAR

Basis and purpose. Section 725.1 is issued pursuant to and in accordance with the Agricultural Adjustment Act of 1938, as amended, hereinafter referred to as the "Act", to proclaim national marketing quotas for flue-cured tobacco for the 1974–75, 1975–76, and 1976–77 marketing years. Section 725.2 is issued, pursuant to the Act, to determine and announce the reserve supply level for flue-cured tobacco; and to determine and announce for flue-cured tobacco for the marketing year beginning July 1, 1974, the amount of the national marketing quota; the national average yield goal; the national acreage allotment; the reserve for making corrections in farm acreage allotments, adjusting inequities, and for establishing acreage allotments for new farms; the national acreage factor; and the national yield factor. The material previously appearing in these sections under centerheads PROCLAMATION OF QUOTAS and DETERMINATIONS AND ANNOUNCEMENTS—1973–74 MARKETING YEAR remain in full force and effect as to the crop to which it was applicable.

Since the 1973–74 marketing year is the last of the three consecutive years for which marketing quotas, previously proclaimed on an acreage-poundage basis, will be in effect, section 317(d) of the Act provides that the Secretary shall proclaim marketing quotas for flue-cured tobacco on either an acreage basis or an acreage-poundage basis for the 1974–75, 1975–76, and 1976–77 marketing years, whichever he determines would result in a more effective quota. It is hereby determined that, in view of the better supply control resulting from the acreage-poundage quota program beginning in 1965, a more effective quota would result from marketing quotas on an acreage-poundage basis.

The determinations by the Secretary contained in §§ 725.1 and 725.2 have been made on the basis of the latest available statistics of the Federal Government. Due consideration has been given data, views and recommendations received from flue-cured tobacco producers and others pursuant to a notice (38 FR 13653) given in accordance with the provisions of 5 U.S.C. 553.

Since the Act requires the holding of a referendum of flue-cured tobacco producers within 30 days after the issuance of the proclamation of quotas to determine whether the producers favor quotas, and the Act requires, insofar as practicable, the mailing of farm allotment notices to farmers prior to the referendum, it is hereby found that compliance with the 30-day effective date provision of 5 U.S.C. 553 is impracticable and contrary to the public interest. Therefore, the proclamation, determinations and announcements contained herein shall become effective upon the date of filing with the Director, Office of the Federal Register.

The reserve supply level is defined in the Act as 105 percent of the normal supply. The normal supply is defined in the Act as a normal year's domestic consumption and exports, plus 175 percent of a normal year's domestic consumption and 65 percent of a normal year's exports. A normal year's domestic consumption is defined in the Act as the yearly average quantity produced in the United States and consumed in the United States during the 10 marketing years immediately preceding the marketing year in which such consumption is determined, adjusted for current trends in such consumption. A normal year's exports is defined in the Act as the yearly average quantity produced in the United States which was exported from the United States during the 10 marketing years immediately preceding the marketing year in which such exports are determined, adjusted for current trends in such exports. The 10-year average domestic consumption, during the 10 marketing years preceding the 1973–74 marketing year (including estimate for the 1972–73 marketing year), was 695 million pounds, and the 10-year average exports, during such period (including estimate for the 1972–73 marketing year), was 505 million pounds. After adjustment for trends, a normal year's domestic consumption of 690 million pounds, and a normal year's exports of 480 million pounds appear reasonable and result in a reserve supply level of 2,824 million pounds.

The carryover of flue-cured tobacco in the hands of dealers and manufacturers and under Government loan on July 1, 1973, is estimated at 1,787 million pounds farm-sales weight. The 1973 crop is currently estimated at 1,144 million pounds. The sum of these, 2,931 million pounds, represents the total supply of flue-cured tobacco for the 1973–74 marketing year.

It is estimated that 690 million pounds of flue-cured tobacco will be utilized in the United States during the 1974–75 marketing year, and 455 million pounds will be exported. The sum of these, 1,145 million pounds, is the estimated total disappearance. Because it is desirable to maintain an adequate supply, an upward adjustment of 34 million pounds has been made. Accordingly, the national marketing quota for flue-cured tobacco for the marketing year beginning July 1, 1974, is determined to be 1,179 million pounds. It is determined that the national marketing quota of 1,179 million pounds, in view of the anticipated carryover, will insure an adequate supply of flue-cured tobacco for the 1974–75 marketing year.

The "national average yield goal" has been determined to be 1,854 pounds per acre. It has been determined that this yield will improve or insure the usability of flue-cured tobacco and increase the net return per pound to the growers. In making this determination, consideration was given to research data of the Agricultural Research Service of the Department and one of the land-grant colleges in the flue-cured tobacco area.

The community average yields have been determined for flue-cured tobacco and published in the FEDERAL REGISTER, § 724.34u (30 FR 6207, 9875, 14487).

The national acreage allotment is 635,922.33 acres, determined in accordance with provisions of the Act by dividing the national marketing quota of 1,179 million pounds by the national average yield goal of 1,854 pounds.

In accordance with the Act, a reserve from the national acreage allotment is established in the amount of 300 acres for making corrections in farm acreage allotments, adjusting inequities and establishing allotments for new farms. It is estimated that the reserve acreage will be adequate.

Consideration in the light of the latest available statistics of the Federal Government was given as to whether any of the types of flue-cured tobacco should be treated as a kind of tobacco pursuant to section 301(b)(15) of the Act at the time the national marketing quota for the 1965–66 marketing year for flue-cured tobacco was determined (30 FR 6144), and it was determined that types 11, 12, 13 and 14 constitute one kind of tobacco for purposes of the Act for the 1965–66, 1966–67, 1967–68 marketing years. This finding was affirmed by the Secretary in his determination of January 18, 1966 (31 FR 881), and that determination was sustained in the case of *Brown et al, v. Freeman*. This finding was made applicable for the 1968–69, 1969–70 and 1970–71 marketing years (32 FR 9817), the 1971–72, 1972–73 and 1973–74 marketing years (35 F.R. 10838), and is determined to be applicable also to the 1974–75, 1975–76 and 1976–77 marketing years.

No action may be taken under section 313(i) of the Act unless a substantial

V 38 I 130 JUL 9 73 XUM

difference exists in the usage or market outlets for any one or more of the types comprising the kind of tobacco. On the basis of the facts recited (30 FR 6144) in connection with the consideration of section 301(b)(15), it was determined that there is no substantial difference existing in the usage or marketing outlets for any one or more of the types of flue-cured tobacco, and, therefore, no action was taken for the 1965–66 marketing year (nor for subsequent marketing years) under this section. The same conditions prevail with respect to usage or marketing outlets that prevailed at the time of the determination for the marketing quotas on an acreage-poundage basis for the 1965–66 and subsequent marketing years, and, therefore, no action is being taken under section 313(1) of the Act for the 1974–75 marketing year. In addition, section 313(1) of the Act applied only to marketing quotas and acreage allotments established pursuant to section 313. It is, therefore, concluded that, notwithstanding section 4 of Public Law 89–12, the better view is that section 313 (1) of the Act should not be applied to acreage allotments and marketing quotas determined under section 317.

PROCLAMATION OF QUOTAS

§ 725.1 1974–75, 1975–76 and 1976–77 marketing years.

Since marketing quotas have been made effective for flue-cured tobacco for the 1971–72, 1972–73 and 1973–74 marketing years (35 FR 10838), and since the 1973–74 marketing year is the last of three consecutive years for which marketing quotas previously proclaimed will be in effect for flue-cured tobacco, and since it is determined that a marketing quota program on an acreage-poundage basis will result in a more effective program for flue-cured tobacco, marketing quotas on an acreage-poundage basis are hereby proclaimed for flue-cured tobacco for the 1974–75, 1975–76 and 1976–77 marketing years.

DETERMINATIONS AND ANNOUNCEMENTS—1974–75 MARKETING YEAR

§ 725.2 Flue-cured tobacco.

(a) *Reserve supply level.* The reserve supply level for flue-cured tobacco is 2.824 million pounds, calculated, as provided in the Act, from a normal year's domestic consumption of 690 million pounds and a normal year's exports of 480 million pounds.

(b) *National marketing quota.* A national marketing quota for flue-cured tobacco on an acreage-poundage basis for the marketing year beginning July 1, 1974, is hereby determined and announced in the amount of 1,179 million pounds. This quota is based upon an estimated utilization in the United States in such marketing year of 690 million pounds and exports in such marketing year of 455 million pounds, with an upward adjustment determined to be desirable for the purpose of maintaining an adequate supply.

(c) *National average yield goal.* The national average yield goal for flue-cured tobacco for the marketing year beginning July 1, 1974, is determined and announced at 1,854 pounds. This goal is based on the yield per acre which on a national average basis it is determined will improve or insure the usability of flue-cured tobacco and increase the net return per pound to growers.

(d) *National acreage allotment.* The national acreage allotment for flue-cured tobacco on an acreage-poundage basis for the marketing year beginning July 1, 1974, is determined and announced to be 635,922.33 acres. This allotment was determined by dividing the national marketing quota of 1,179 million pounds by the national average yield goal of 1,854 pounds.

(e) *Reserve acreage for making corrections in farm acreage allotments, adjusting inequities and establishment of acreage allotments for new farms.* A national reserve from the national acreage allotment in the amount of 300 acres is hereby determined and announced. This reserve is for making corrections in farm acreage allotments, adjusting inequities and establishing allotments for new farms. Of the 300 acres, 80 acres are hereby set aside to be available for new farms. The remainder, 220 acres, is hereby made available for making corrections in farm acreage allotments and for adjusting inequities.

(f) *National acreage factor.* The national acreage factor for the 1974 crop of flue-cured tobacco is determined and announced to be 1.00.

(g) *National yield factor.* The national yield factor for the 1974 crop of flue-cured tobacco is determined and announced to be 1.312.

(Secs. 301, 313, 317, 375, 52 Stat. 38, 47, 66, as amended, 79 Stat. 66; 7 U.S.C. 1301, 1313, 1314c, 1375)

Effective date: July 6, 1973.

Signed at Washington, D.C., on July 3, 1973.

KENNETH E. FRICK,
Administrator, Agricultural Stabilization and Conservation Service.

CHAPTER X—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; MILK), DEPARTMENT OF AGRICULTURE

[Milk Order No. 125; Docket No. AO 226-A25]

PART 1125—MILK IN THE PUGET SOUND, WASHINGTON, MARKETING AREA

Order Amending Order

Correction

In FR Doc. 73-12527 appearing at page 16332 in the issue of Friday, June 22, 1973, the following changes should be made:

1. In § 1125.9, the word "produced" in the second line of paragraph (c) should read "producer"; and the word "distribution" in the second line of pargraph (d) should read "distributing".

2. In § 1125.13(c)(4) the word "of" in the fourth line should read "or".

3. In § 1125.71(b) the word "handling" in the 7th line should read "handler".

4. In § 1125.73(a) the word "from" in the second line should read "for".

PART 1139—MILK IN THE LAKE MEAD MARKETING AREA

Order Regulating the Handling of Milk

Correction

In FR Doc. 73-12406 appearing at page 16203 in the issue of Thursday, June 21, 1973, after the Table of Contents in the second column on page 16204, insert the following:

AUTHORITY: Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674.

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS; EXTRAORDINARY EMERGENCY REGULATION OF INTRASTATE ACTIVITIES

PART 73—SCABIES IN CATTLE

Areas Released From Quarantine

This amendment releases Chaves, De-Baca, Guadalupe, and Lincoln Counties in New Mexico from the areas quarantined because of cattle scabies. Therefore, the restrictions pertaining to the interstate movement of cattle from quarantined areas contained in 9 CFR Part 73, as amended, do not apply to the excluded areas, but will continue to apply to the quarantined areas described in § 73.1a. Further, the restrictions pertaining to the interstate movement of cattle from nonquarantined areas contained in said Part 73 apply to the excluded areas.

Pursuant to provisions of the Act of May 29, 1884, as amended, the Act of February 2, 1903, as amended, the Act of March 3, 1905, as amended, and the Act of July 2, 1962 (21 U.S.C. 111–113, 115, 117, 120, 121, 123–126, 134b, 134f), Part 73, Title 9, Code of Federal Regulations, restricting the interstate movement of cattle because of scabies, is hereby amended as follows:

In § 73.1a, paragraph (c) relating to the State of New Mexico is amended to read:

§ 73.1a Notice of quarantine.

* * * * *

(c) Notice is hereby given that cattle in certain portions of the State of New Mexico are affected with scabies, a contagious, infectious, and communicable disease; and therefore, the following areas in such State are hereby quarantined because of said disease:

NEW MEXICO

(1) Curry County.
(2) Roosevelt County.
(3) Torrance County.
(4) Quay County.

(Secs. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; secs. 1–4, 33 Stat. 1264, 1265, as amended; secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111–113, 115, 117, 120, 121, 123–126, 134b, 134f; 37 FR 28464, 28477.)

Effective date. The foregoing amendment shall become effective July 2, 1973.

The amendment relieves restrictions no longer deemed necessary to prevent the spread of cattle scabies, and should be made effective promptly in order to be of maximum benefit to affected persons. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and unnecessary, and good cause is found for making the amendment effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 2nd day of July, 1973.

F. J. MULHERN,
Administrator, Animal and Plant Health Inspection Service.

Title 28—Judicial Administration

CHAPTER I—DEPARTMENT OF JUSTICE

[Order No. 523-73]

PART 5—ADMINISTRATION AND ENFORCEMENT OF FOREIGN AGENTS REGISTRATION ACT OF 1938, AS AMENDED

Organizational Change

On March 26, 1973, the Internal Security Division of the Department of Justice was abolished and its functions were transferred to the Criminal Division. (38 FR 8152). This order conforms the Department's regulations prescribed under the Foreign Agents Registration Act to reflect this organizational change.

By virtue of the authority vested in me by section 10 of the Foreign Agents Registration Act of 1938, as amended (56 Stat. 257; 22 U.S.C. 620), Part 5 of Chapter I of Title 28, Code of Federal Regulations, is hereby amended as follows:

1. The term "Criminal Division" is substituted for the term "Internal Security Division" in paragraphs (a) and (c) of § 5.1, in paragraph (a)(3) of § 5.100, and in § 5.501.

2. The term "Registration Unit" is substituted for the term "Registration Section" in § 5.3, in paragraph (a)(7) of § 5.100, in paragraph (b) of § 5.201, in paragraph (a) of § 5.205, in paragraphs (b) and (c) in § 5.400, and in paragraphs (a) and (b) of § 5.601, and § 5.801.

3. Paragraph (a)(5) of § 5.100 is revised to read as follows: The term "Registration Unit" means the Registration Unit, Internal Security Section, Criminal Division, Department of Justice, Washington, D.C. 20530.

Dated July 1, 1973.

ELLIOT RICHARDSON,
Attorney General.

[FR Doc.73-13810 Filed 7-6-73;8:45 am]

[Order No. 524-73]

PART 12—REGISTRATION OF CERTAIN PERSONS HAVING KNOWLEDGE OF FOREIGN ESPIONAGE, COUNTERESPIONAGE, OR SABOTAGE MATTERS UNDER THE ACT OF AUGUST 1, 1956

Registration of Certain Persons Trained in Foreign Espionage Systems

On March 26, 1973, the Internal Security Division of the Department of Justice was abolished and its functions were transferred to the Criminal Division. (38 FR 8152). This order conforms the Department's regulations concerning the registration of certain persons having knowledge of foreign espionage, counterespionage, or sabotage matters under the Act of August 1, 1956, to reflect this organizational change.

By virtue of the authority vested in me by Section 5 of the Act of August 1, 1956, 70 Stat. 900; 50 U.S.C. 854, Part 12 of Chapter I of Title 28, Code of Federal Regulations, is amended as follows:

1. Sections 12.3, 12.23, and paragraphs (a), (d), and (e) of § 12.25 are amended by substituting the term "Registration Unit" or "Registration Section" each place where the latter term appears.

2. Section 12.2 is revised to read as follows:

§ 12.2 Administration of act.

The administration of the act is assigned to the Registration Unit of the Internal Security Section, Criminal Division, Department of Justice. Communications with respect to the act shall be addressed to the Registration Unit Internal Security Section, Criminal Division, Department of Justice, Washington, D.C. 20530. Copies of the act, the regulations contained in this part, including the forms mentioned therein, may be obtained upon request without charge.

3. Section 12.20 is revised to read as follows:

§ 12.20 Filing of registration statement.

Registration statements shall be filed in duplicate with the Registration Unit, Internal Security Section, Criminal Division, Department of Justice, Washington, D.C. 20530. Filing may be made in person or by mail, and shall be deemed to have taken place upon the receipt thereof by the Registration Unit.

4. Section 12.40 is revised to read as follows:

§ 12.40 Public examination.

Registration statements shall be available for public examination at the offices of the Registration Unit, Department of Justice, Washington, D.C., from 10:00 a.m. to 4:00 p.m. on each official business day, except to the extent that the Attorney General having due regard for national security and public interest may withdraw such statements from public examination.

5. Paragraph (b) of § 12.41 is revised to read as follows:

§ 12.41 Photocopies.

* * * * *

(b) Estimates as to prices for photocopies and the time required for their preparation will be furnished upon request addressed to the Registration Unit, Internal Security Section, Criminal Division, Department of Justice, Washington, D.C. 20530.

* * * * *

Dated July 1, 1973.

ELLIOTT RICHARDSON,
Attorney General.

Title 46—Shipping

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 73-42R]

PART 146—TRANSPORTATION OR STORAGE OF EXPLOSIVES OR OTHER DANGEROUS ARTICLE OR SUBSTANCES AND COMBUSTIBLE LIQUIDS ON BOARD CARGO VESSELS

This amendment to Title 46 of the Code of Federal Regulations is to permit shipment of hazardous materials sold by the Department of Defense in packaging of equal or greater strength and efficiency than those specified for hazardous materials in 46 CFR Part 146.

In the March 22, 1973 FEDERAL REGISTER, a notice of proposed rulemaking (38 FR 7468) was published. A public hearing was held on April 17, 1973 and no comments (written or oral) were received.

No objections have been received and the proposed regulations are hereby adopted without change and are set forth below.

Effective date. This amendment becomes effective on October 12, 1973.

Dated July 2, 1973.

T. R. SARGENT,
Vice Admiral, U.S. Coast Guard.
Acting Commandant.

In consideration of the foregoing, part 146 of title 46 of the Code of Federal Regulations is revised to read as follows:

§ 146.02-8 U.S. Government shipments.

(a) Shipments of hazardous materials offered by or consigned to the Department of Defense (DOD) of the U.S. Government must be packaged, including limitations of weight, in accordance with the regulations in this subchapter or in containers of equal or greater strength and efficiency as required by DOD regulations.

(1) Hazardous materials sold by DOD in packagings that are not marked in accordance with the requirements of title 49 CFR 170 to 179 may be shipped from DOD installations if the DOD certifies in writing that the packagings are equal to or greater in strength and efficiency than the packaging prescribed in this subchapter and title 49 CFR parts 170 to 179. The shipper shall obtain such a certification in duplicate for each shipment. He shall give one copy to the originating carrier and retain the other for no less than 1 year.

* * * * *

Federal Insurance Administrator.

[FR Doc.73-13683 Filed 7-6-73;8:45 am]

[Docket No. FI-166]

PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

List of Communities With Special Hazard Areas

The Federal Insurance Administrator finds that comment and public procedure and the use of delayed effective dates in identifying the areas of communities which have special flood or mudslide hazards, in accordance with 24 CFR Part 1915, would be contrary to the public interest. The purpose of such identifications is to guide new development away from areas threatened by flooding, a purpose which is accomplished pursuant to statute by denying subsidized flood insurance to structures thereafter built within such areas. The practice of issuing proposed identifications for comment or of delaying effective dates would tend to frustrate this purpose by permitting imprudent or unscrupulous builders to start construction within such hazardous areas before the official identification became final, thus increasing the communities' aggregate exposure to loss of life and property and the agency's financial exposure to flood losses, both of which are contrary to the statutory purposes of the program. Accordingly, the Department is not providing for public comment in issuing this amendment and it will become effective July 9, 1973.

Section 1915.3 is amended by adding in alphabetical sequence a new entry to the table, which entry reads as follows:

§ 1915.3 List of communities with special hazard areas.

State	County	Location	Map No.	State map repository	Local map repository	Effective date of identification of areas which have special flood hazards
Florida	Manatee	Anna Maria, City of.	H 12 081 0050 02	Department of Community Affairs, 309 Office Plaza, Tallahassee, Fla. 32301. State of Florida Insurance Department, Treasurer's Office, The Capitol, Tallahassee, Fla. 32304.	City Hall, 10005 Gulf Dr., Anna Maria, Fla. 33501.	July 1, 1970.

(National Flood Insurance Act of 1968 (title XIII of the Housing and Urban Development Act of 1968), effective Jan. 28, 1969 (33 FR 17804, Nov. 28, 1968), as amended (secs. 408-410, Public Law 91-152, Dec. 24, 1969), 42 U.S.C. 4001-4127; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, Feb. 27, 1969)

Issued: June 27, 1973.

V 38 I 130 JUL 9 73 XUM

Title 13—Business Credit and Assistance

CHAPTER I—SMALL BUSINESS ADMINISTRATION

[Rev. 8]

PART 123—DISASTER LOANS

On May 11, 1973, the Small Business Administration published in the FEDERAL REGISTER a notice of proposed rulemaking which set forth proposed new policies relating to SBA's several disaster loan programs. The public was invited to comment by May 31, 1973. Such comment has been received and considered, and the proposed revision is adopted with minor modifications. This Revision 8 will be effective as of July 1, 1973, as follows:

Sec.

123.0 Explanation of regulations.
123.1 General.
123.2 Eligibility.
123.3 Purposes of loans.
123.4 Where to apply.
123.5 Amount of loan and interest rate.
123.6 Collateral.
123.7 Repayment.
123.8 Step-by-step procedure for disaster loan applicant.
123.9 Cooperation with American Red Cross.
123.10 Obtaining loan funds.
123.11 Administration of loans.
123.12 Fees and charges.
123.13 Extension of loans, including RFC loans.
123.14 Restriction against loans to certain felons.
123.15 Certification of use of loan proceeds.
123.16 Compliance with Consumer Protection Laws.

AUTHORITY: 72 Stat. 385, 387, as amended; 83 Stat. 125, 742; 15 U.S.C. 636.

§ 123.0 Explanation of regulations.

(a) The regulations in this part set forth the information and procedures generally followed in Physical and other types of Disaster loans. However, because of the emergency nature of floods, hurricanes, earthquakes or other similar catastrophes, the regulations cannot anticipate all of the contingencies, problems, and needs which may arise in any given disaster. The SBA therefore advises that the regulations in this part must be, and are, subject to change without advance notice and publication in the FEDERAL REGISTER.

(b) SBA will, however, make every effort to publicize changes of substance and procedure by whatever means practicable under the circumstances, including, but not limited to press releases to newspapers, radio and television stations, posting notices in public places, and by direct mailings (when possible) to affected persons. Publication in the FEDERAL REGISTER of appropriate regulatory changes will follow at the earliest practicable time.

§ 123.1 General.

(a) SBA is authorized to make or guarantee loans where necessary or appropriate to victims of floods, riots and civil disorders, and other catastrophes to rehabilitate or replace damaged or lost physical property (Physical-Loss Disaster Assistance).

(b) SBA is also authorized to make or guarantee loans where necessary or appropriate to a small business concern:

(1) Located in an area declared to be a major disaster area by the President or declared to be a natural disaster area by the Secretary of Agriculture, or a physical disaster area declared by SBA after April 1, 1970, if SBA determines that the concern has suffered substantial economic injury as a result of such disaster (Economic Injury Assistance);

(2) To assist in reestablishing its business, continuing in business at its existing location, in purchasing a business, or in establishing a new business, if SBA determines that the concern has suffered substantial economic injury as a result of its displacement by, or location in, adjacent to, or near, a federally aided urban renewal program or a highway project or any other construction constructed by or with funds provided in whole or in part by the Federal Government (Displaced Business Disaster Assistance);

(3) To continue or reestablish its business if SBA determines that the concern has suffered substantial economic injury as a result of the inability of such concern to process or market a product for human consumption because of disease or toxicity occurring in such product through natural or undetermined causes (Product Disaster Assistance);

(4) Which operates a coal mine, to make additions to or alterations in its equipment or facilities or methods of operation, in order to meet requirements of the Federal Coal Mine Health and Safety Act of 1969, if the SBA determines that the concern is likely to suffer substantial economic injury without SBA assistance (Coal Mine Health and Safety Assistance);

(5) To make additions to or alterations in its plant, facilities, or operating methods, in order to meet requirements of the Egg Products Inspection Act, the Wholesome Poultry Products Act, the Wholesome Meat Act of 1967, or State laws enacted by its provisions, if SBA determines that the concern is likely to suffer substantial economic injury without SBA assistance (Consumer Protection Assistance);

(6) To make additions to or alterations in the equipment, facilities, or operating methods, in order to comply with standards issued pursuant to the Occupational Safety and Health Act of 1970, or State laws enacted by its provisions, if SBA determines that the concern is likely to suffer substantial economic injury without SBA assistance (Occupational Safety and Health Assistance); and

(7) Which is directly and seriously affected by the significant reduction of Federal support for any project as a result of any international agreement limiting the development of strategic arms or the installation of such arms or facilities. SBA must determine that a small firm is likely to suffer substantial economic injury without SBA assistance. Refinancing of existing indebtedness is authorized under this program. (Strategic Arms Economic Injury Assistance).

(c)(1) "Financial Assistance" as used in this part shall include direct loans made by SBA, immediate participation loans, and guaranteed loans.

(i) In an immediate participation loan either SBA or the financial institution makes the loan and the other party purchases an agreed percentage of the loan. SBA participation shall not exceed 90 percent of the outstanding amount of the loan.

(ii) In guaranteed loans the financial institution makes the entire loan and SBA is obligated to purchase pursuant to its guaranty agreement not more than 90 percent of the outstanding loan and accrued interest in the event the borrower has defaulted. Default as used in this subsection means nonpayment of principal or interest when due.

(iii) SBA has the right at any time to purchase the guaranteed percentage of any guaranteed loan.

(2) "Financial Institutions" as used in this part shall include, but not be limited to, banks and other lending institutions whose regular course of business entails the making of commercial, industrial and/or other loans of the type authorized to be made by SBA to eligible small business concerns, and who otherwise meet the criteria specified in Part 120, § 120.3(c) of the regulations in this part.

§ 123.2 Eligibility.

(a) *Disaster loans for physical property loss, or for substantial economic injury as a result of major or natural disasters, or inability to process or market a product because of disease or toxicity through natural or undetermined causes*—(1) *General-scope of assistance.* Financial assistance may be extended to rehabilitate or replace property damaged or lost as a result of a disaster concerning which an appropriate SBA notice is published in the FEDERAL REGISTER. Applicants for physical disaster loans include but are not limited to home or property owners, businesses of any size, and nonprofit institutions. Applicants for economic injury type of assistance must be small business concerns as defined in Part 121 of these Regulations. Such assistance will be considered on an individual basis in the light of circumstances of the applicant and of the particular disaster, and will be made as SBA determines to be necessary or appropriate to relieve the distress and hardships attendant upon the disasters. The age of any adult applicant may not be considered in determining whether a loan should be made or the amount of a loan.

(2) *Limitations on assistance*—(i) *Farmers, stockmen, and others primarily engaged in agricultural activities.* Farmers, stockmen, and others engaged primarily in agricultural activities are not eligible for SBA disaster loan assistance. No disaster loan funds will be provided to an otherwise eligible applicant which would be used primarily in a farming or other agricultural activity, which is normally eligible for emergency assistance from the Farmers Home Administration of the U.S. Department of Agriculture, except where the disaster area is located beyond the territorial jurisdiction of any other Federal agency otherwise authorized to provide such assistance.

(ii) *Religious, eleemosynary, nonprofit, and other organizations.* Religious eleemosynary, and nonprofit organizations are eligible for physical disaster loans.

(3) *Evidence of Loss.* Assistance may be extended only to applicants determined by SBA to have suffered substantially the disaster loss (beneficial ownership as well as legal title may be considered in determining who suffered the loss); it will not be extended (i) if the applicant suffers flood loss as a result of action by a Federal agency which causes flooding of an area where the Government has been held harmless under a lease agreement covering a flowage easement, or (ii) where a substantial change of ownership occurred after the disaster. Substantial change of ownership does not include those instances in which a contract of sale had been entered into prior to the disaster and the transaction is completed after the disastser.

(4) *Substantial economic injury assistance*—(i) *Disaster declaration.* An area must be declared to be a major disaster area by the President, a disaster area by the Administrator of SBA, or declared to be a natural disaster area by the Secretary of Agriculture or his designee.

(ii) *Location.* An otherwise eligible small business concern must be located in the disaster area as defined by the disaster declaration made as provided in subparagraph (i) of this paragraph.

(5) *Product disaster assistance*—(i) *Disaster declaration.* The Administrator of SBA makes all product disaster declarations.

(ii) *Scope.* An otherwise eligible small business concern is eligible for product disaster assistance to continue or reestablish its business if SBA determines that the concern has suffered substantial economic injury as a result of the inability of such concern to process or market a product for human consumption because of disease or toxicity occurring in such product through natural or undetermined causes.

(b) *Displaced business, coal mine health and safety, consumer protection, occupational safety and health, and strategic arms economic injury loans.*—(1) *General—Scope of assistance.*—(i) *Limitations on assistance. Availability of funds from other sources.* Personal and/or business assets must be used by the applicant to the greatest extent feasible without causing undue hardship to overcome economic injury. In addition, private credit to the extent obtainable on reasonable rates and terms must be used prior to obtaining economic injury assistance.

(ii) *Farmers, stockmen, and others primarily engaged in agricultural activities.* Farmers, stockmen, and others engaged primarily in agricultural activities are subject to the eligibility criteria set forth in § 120.2(d)(9) of these rules and regulations.

(iii) *Eligible small business concerns.* Religious, eleemosynary, and nonprofit organizations are not small business concerns. Gambling activities, financing, and those engaged in speculative activities, are not small business concerns for the purpose of economic injury loans. Therefore, they are ineligible for disaster assistance except for Physical-Loss Disaster Assistance. Persons or firms holding realty for lease or rent for the production of income, or real estate developers, are not small business concerns for economic injury assistance except that such persons or firms are eligible to apply for assistance under the Strategic Arms Economic Injury Assistance Program. A cooperative association may qualify as a small business concern if each of its members qualify as a small business concern. A consumer cooperative will not qualify as a small business concern.

(iv) *Substantial economic injury.* Assistance may be extended only to applicants determined by SBA to have suffered substantial economic injury. It will not be extended if SBA determines from the circumstances that the applicant assumed the loss of possibility of loss from the disaster. Therefore, applicants shall not be eligible, for example, where their concerns have been acquired or established, or where a substantial change of ownership therein occurred, during or following a period of disaster. See paragraph (a)(2) of this section.

(2) *Special Considerations—Displaced business loans.* In the discretion of SBA, an applicant for a displaced business loan may be considered eligible for assistance to purchase or construct other premises whether or not such applicant owned the premises occupied by the business.

(3) *Special considerations—Coal mine health and safety loans.* (i) To qualify for a coal mine health and safety loan, an applicant must be a small coal mine which must meet requirements of the Coal Mine Health and Safety Act of 1969. Coal mine services are not eligible for a Coal Mine Health and Safety Loan since they do not come under the jurisdiction of the Bureau of Mines.

(ii) *Inspection of mine by Bureau of Mines.* Based upon its inspection, the Bureau of Mines issues a notice of deficiency or similar notice to the coal mine operator. The notice is the basis upon which the applicant determines the amount and use of proceeds of a Coal Mine Health and Safety Loan necessary to correct the deficiencies cited. A copy of the notice of deficiency from the Bureau of Mines must accompany any formal application for loan. All applications must be supported by sufficient information so that SBA will be able to determine the economic life of the mine.

(4) *Special considerations—consumer protection loans.* (i) To qualify for a Consumer Protection Loan, an applicant must be a small concern engaged in meat, poultry, or egg processing effecting additions to or alterations in the equipment, facilities, or methods of operation of such firm to meet requirements imposed by the Egg Products Inspection Act, the Wholesome Poultry Products Act, and the Wholesome Meat Act of 1967 or State laws enacted in conforming therewith, if the Administration determines that such concern is likely to suffer substantial economic injury without such a loan.

(ii) *Plant inspection.* Based upon its inspection, the appropriate Federal or State authority issues a notice of deficiency or similar notice to the firm. The notice is the basis upon which the applicant determines the amount and use of proceeds of a Consumer Protection Loan necessary to correct the deficiencies cited. A copy of the notice of deficiency from the inspection authority must accompany any formal application for loan.

(5) *Special Considerations—Occupational Safety and Health Loans.* (i) To qualify for an Occupational Safety and Health Loan, an applicant must be a small concern seeking to comply with standards established under the Occupational Safety and Health Act of 1970.

(ii) *Plant Inspection.* Based upon its inspection, the appropriate Federal or State authority issues a notice of deficiency or similar notice to the firm. The notice is the basis upon which the applicant determines the amount and use of proceeds of an Occupational Safety and Health Loan necessary to correct the deficiencies cited. A copy of the notice of deficiency from the inspection authority must accompany any formal application for loan.

(iii) *Voluntary Compliance.* Plant operators may on own initiative undertake action to meet OSH Act standards. If major construction or reconstruction is needed, the report of a licensed professional engineer and/or achitect or other qualified professional is required and must be submitted with the loan application.

(6) *Special Consideration—Strategic Arms Economic Injury Loans.* To qualify for a Strategic Arms Economic Injury Loan, an applicant must be a small business concern, a small real estate developer, or a person or small firm holding realty for lease or rent for the production of income.

§ 123.3 Purposes of loans.

(a) *Physical-loss disaster assistance.* (1) The purpose of these loans is to restore a victim's home or homes (including a mobile home used as a residence of the applicant) or business property as nearly as possible to predisaster condition. A loan to an individual may be used to repair or replace damaged furniture and other household belongings or personal effects, except for irreplaceable or extraordinarily expensive items. Funds may be used to repair or replace destroyed or damaged inventory, machinery, or equipment. If the disaster victim elects to construct a new home or new business facilities on a different site,

V 38 1 30 JUL 9 73 XUM

the loan may be used for such purpose. However, the SBA's share or guaranteed percentage of any such loan shall not exceed the estimated cost of restoring or replacing the damaged or destroyed property, plus amounts eligible for refinancing of existing liens or mortgages, and SBA's lien position shall be at least as strong as it would have been if the victim had restored in the original location. In loans made for Physical-Loss Disaster Assistance, Substantial Economic Injury Assistance and Product Disaster Assistance to cover losses and damage and injury resulting from major disasters, SBA may authorize the repayment of temporary loans used solely to alleviate the disaster-caused injury. SBA shall cancel any loan made in connection with a disaster occurring on or after January 1, 1972, and prior to April 20, 1973, if declared by the President or the SBA Administrator, but in no event shall such cancellation of a loan exceed $5,000 and the cancellation may not apply to any amount refinanced. Loans made in connection with disasters occuring on or after April 20, 1973, will not be canceled in any amount.

(2) Refinancing: Only where property suffers uninsured (or otherwise uncompensated for) damage of 30 percent or more of the market value at the time of the disaster, a part of all of existing liens as they apply to the specific real property lost or damaged may be refinanced by a part of the SBA loan. Such refinancing shall be limited to an amount which is no greater than the disaster-caused damage or loss in business loans, or home loans approved as the result of disaster occurring on and after July 1, 1973. In the case of a home loan, the monthly repayment of principal and interest may not be less than the amount of such payment made prior to the refinancing loan, in any loan approved as the result of a disaster occurring prior to July 1, 1973. Refinancing of personal property is not permitted in disaster home loans. Refinancing is permitted only when the damaged property is to be repaired, rehabilitated, or replaced.

(3) Any disaster victim located in a restricted building area (flood-prone, urban renewal, or other area where rebuilding is prevented by action of appropriate authority) that suffers real property damage may obtain funds for such purposes as are prescribed in paragraph (a)(1) of this section and such other funds as may be determined necessary by SBA to reestablish the borrower's real property at the new location. In any situation where physical-loss disaster assistance is provided to relocate real property outside of a flood disaster-prone area, no future flood disaster assistance will be provided by SBA for any future physical-loss disaster damage to the property located at the site from which the disaster victim was relocated. SBA shall require the borrower to execute and record in the local office where records of property ownership are recorded a document which shall give notice of this qualification to all subsequent purchasers and encumbrancers of real property located at the disaster site. The recorded notice of disaster disqualification may be canceled (released or terminated) by the recording of a determination issued by SBA that adequate flood control measures have been effected to protect the property from future flood damage.

(b) *Substantial economic injury assistance.* The purpose of these loans is solely to provide relief to small business concerns for substantial economic injury sustained as a result of a major or natural disaster declared by the President or Secretary of Agriculture, or SBA declared physical disaster. Personal and/or business assets must be used by the applicant to the greatest extent feasible, without undue hardship, to alleviate the injury incurred. In addition, private credit to the extent obtainable on reasonable rates and terms must be used prior to obtaining disaster loan assistance from SBA. Loans may be used for working capital and to pay financial obligations which the borrower would have been able to pay had it not been for the loss of revenue resulting from the disaster. Unrealized profits or past sales may not be considered in arriving at the amount of injury incurred. No funds may be authorized which would provide for the payment of any stock dividends, bonuses, or for disbursements to owners, partners, officers, or stockholders not directly related to the performance of services.

(c) *Displaced business assistance.* (1) The purpose of these loans is to assist any small business concern in continuing in business at its existing location, in reestablishing its business, in purchasing a business, if the Administration determines that such concern has suffiered substantial economic injury as the result of its displacement by, or location in, adjacent to, or near, a federally aided urban renewal program or a highway project or any other construction constructed by or with funds provided in whole or in part by the Federal Government.

(2) These loans may be used to provide:

(i) Working capital necessary to carry the concern until resumption of normal operations;

(ii) Replacement costs to owners of realty less net amounts received for indemnification of property from which displaced;

(iii) Funds for nonowners of the premises from which displaced to purchase or construct premises if no suitable rental property is available;

(iv) Purchase of machinery and equipment necessary to carry on business at the new location less any funds received from disposal of equipment owned at location from which displaced;

(v) Increases in the cost of fixed charges such as rents, insurance, and utility bills for a reasonable period of time;

(vi) Moving expenses not compensated for from some other source where the distance moved is less than 100 miles;

(vii) Purchase of equipment to upgrade the business in a new location where such upgrading is necessary.

(3) Where realty is needed, no loan shall provide funds which would increase the square footage of:

(i) Land space to more than one-half greater than that owned or occupied prior to displacement: Provided, however, That additional space to meet the minimum requirement of a local building code for parking space may be approved;

(ii) Building space to more than one-third greater than that owned or occupied prior to displacement.

(d) *Product disaster assistance.* The purpose of these loans is to assist small business concerns to reestablish or continue their business when they have suffered substantial economic injury as the result of inability of such concerns to market or process a product because of disease or toxicity occurring in such products through natural or undetermined causes. Loans may be used to provide working capital to support the business until such time as it is reestablished and to pay financial obligations which the borrower would have been able to pay if it had not been for the loss of revenue resulting from the disaster. Financial assistance may not be used for the replacement of equipment or expansion of facilities except as SBA may determine to be necessary or appropriate for the concern properly to process a product to insure its fitness for human consumption. Unrealized profits or past sales may not be considered in arriving at the amount of injury incurred. No funds may be authorized which would provide for the payment of any stock dividends, bonuses, or for disbursements to owners, partners, officers, or stockholders, not directly related to the performance of services.

(e) *Coal mine health and safety assistance.* The purpose of these loans is to assist small coal mines to effect additions to or alterations in the equipment, facilities, or operating methods in order to meet the requirements of the Federal Coal Mine Health and Safety Act of 1969, if SBA determines that such coal mine is likely to suffer substantial economic injury without SBA assistance. Working capital may be provided to:

(i) Replace working capital expended incidentally for compliance, such as meeting construction time limits;

(ii) Furnish funds, when construction is involved and the operations are thereby curtailed, to meet continuing fixed costs such as payment on equipment notes or mortgage payments;

(iii) Help finance startup costs;

(iv) Finance changes in methods of operation required by examining authorities. Approval of these loans is contingent upon receipt by SBA of a notice of deficiency from the Bureau of Mines, and the opinion from that Bureau that upon completion of the purchase, rebuilding, or conversion proposed in the loan application, the coal mine will be in compliance with the provisions of the Federal Coal Mine Health and Safety Act of 1969.

(f) *Consumer protection assistance.* (1) The purpose of these loans is to assist small business concerns to effect additions to or alterations in the equipment, facilities, or methods of operation of such concern to meet requirements established pursuant to the Egg Products Inspection Act of 1970, the Wholesome Meat Act of 1967, and the Wholesome Poultry Products Act of 1968, if SBA determines that such concern is likely to suffer substantial economic injury without SBA assistance.

(2) Construction funds may be loaned to:

(i) Construct a new building, even in a new location, to replace an old building where remodeling is not feasible; or to replace rented quarters when needed rental arrangements cannot be obtained. Upgrading may not exceed the corresponding criteria in paragraph (c)(3) of this section;

(ii) Comply with inspection authority requirements issued to a new plant already under construction on January 1, 1971, and owned by a concern not previously involved in the activity in which it intends to engage, but falling within the control of any one of the consumer protection acts. Working capital may be provided for the purposes stated in paragraph (e), (i), (ii), (iii), and (iv) of this section. Approval of these loans is contingent upon receipt by SBA of a letter of survey to the plant operator from the U.S. Department of Agriculture or appropriate State authority, and an acceptance of the operator's proposal for correcting the deficiencies covered by the letter, from the agricultural inspection authority.

(g) *Occupational safety and health assistance.* The purpose is to assist small business concerns to adequately and efficiently effect additions to or alterations in the equipment, facilities, or operating methods of such business, in order to comply with the applicable standards issued pursuant to section 6 of the Occupational Safety and Health Act of 1970, or adopted by a State pursuant to a plan approved under section 18 of that Act, if SBA determines that such concern is likely to suffer substantial economic injury without SBA assistance. Construction funds may be loaned for the purposes stated in paragraph (f)(2)(i) and (ii) of this section. Working capital may be provided for the purposes stated in paragraph (e) (i), (ii), (iii), and (iv) of this section. Approval of these loans is contingent upon the receipt by SBA of an approval of the compliance authority of the proposal for either voluntary compliance or corrections of violations of standards established pursuant to the Occupational Safety and Health Act.

(h) *Aid to major sources of employment.* The purpose of loans authorized under section 237 of the Disaster Relief Act of 1970 is to enable an industrial or commercial enterprise, which has constituted a major source of employment in an area suffering a major disaster declared by the President, and which is no longer is substantial operation as a result of such disaster, to resume operations in order to assist in restoring the economic viability of the disaster area. A major source of employment as used in this part, is defined as: (1) A concern which employed 10 percent or more of the entire work force of a geographically identifiable community, no larger than a county; or (2) a concern which employed 10 percent or more of the total work force in an industry with the major disaster area; or (3) any business firm within the major disaster area which employed 1,000 or more employees.

(i) *Strategic arms economic injury assistance.* The purpose of loans made under section 7(b)(7) of the Small Business Act is to assist or to refinance the existing indebtedness of any small business concern directly and seriously affected by the significant reduction of the scope or amount of Federal support for any project as a result of any international agreement limiting the development of strategic arms or the installation of strategic arms or strategic arms facilities, if SBA determines that such concern is likely to suffer substantial economic injury without SBA assistance. Loan proceeds may be used for working capital and to pay financial obligations which the applicant would have been able to meet if he had not lost income because of significant reduction of the scope or amount of Federal support for the strategic arms project.

§ 123.4 Where to apply.

A single copy of an application on a form provided by SBA may be filed with the Regional or District Office, or Disaster Branch Office, if one has been established, which is most convenient to the applicant. If a bank is participating, two copies of the application should be filed with the bank which will send one copy to SBA. If a Disaster Branch Office has been established, applications generally should be filed there.

§ 123.5 Amount of loan and interest rates.

(a) SBA's share or guaranteed percentage of any disaster loan shall not exceed the actual physical loss or economic injury suffered as a result of a disaster except as may be permitted under § 123.3(a) (2), (3), (c), (e), (f), (g), (h), and (i).

(1)(i) SBA's share of a direct or immediate participation loan to any small business concern and/or any of its affiliates shall not exceed $500,000 in the aggregate for any one disaster, except for an additional amount to refinance any prior SBA disaster loan, or except in those cases where the Administrator finds substantial hardship.

(ii) Such dollar limitation also applies to loans made to any other entity eligible to receive disaster assistance other than homeowners and householders. Provided, however, the foregoing dollar limitations do not apply to displaced business, coal mine health and safety, consumer protection, occupational safety and health, strategic arms economic injury loans, and loans made under paragraph (e) of this section.

(2) SBA's share in a direct or in an immediate participation loan to any homeowner, including all members of the household, shall not exceed $50,000 for repair or replacement of the land or building, and shall not exceed $10,000 to repair or replace household goods and personal items: Provided, however, that SBA's share of any such loan or loans to repair or replace a home and household goods for any homeowner shall not exceed $55,000 in the aggregate for any one disaster, excluding eligible refinancing in an amount not to exceed the lesser of the physical damage to the real property or the amount of loan made to repair such property. Persons living in a damaged home who are not dependents of the homeowner may also apply for disaster assistance for personal property loss, up to $10,000. The cancellation feature, up to $5,000, applies to these loans as well as to loans to the homeowner, for disasters occurring between Jan. 1, 1972, and April 20, 1973.

(3) SBA's share of immediate participation loans shall not exceed 90 percent of the loan. In guaranteed loans, the exposure of SBA under the guaranty may not exceed 90 percent of the unpaid principal balance and accrued interest.

(4) A guaranteed loan, where the entire loan is disbursed by a private lending institution, may be made, in addition to the direct loan limitation, for the total amount of an applicant's physical loss or the economic injury suffered less funds available from its own resources, including funds from insurance or condemnation proceedings. Such guaranteeed disaster loans in conjunction with or exclusive of a direct loan shall not exceed the full amount of such loss or economic injury, except to the extent of allowable refinancing.

(5) Where an applicant's total physical loss or economic injury exceeds the dollar limitations imposed in this paragraph on SBA's share of direct or immediate participation disaster loans, then the balance of such loss may be assisted by a guaranteed loan. SBA's participation in or guaranty of any disaster loan may not exceed 90 percent of the total amount of the loan.

(b) In physical-loss disaster assistance, all direct and indirect costs attributable to restoring, rehabilitating, or replacing property damaged or destroyed by the disaster will be considered by SBA in determining the amount of loan. An SBA disaster loan may not include any amount to cover losses which have been compensated for by insurance or other sources, or other relief sources, such as the American Red Cross. Sums paid to a disaster victim subsequent to his filing an application by insurance companies representing the indemnification of loss in whole or in part for which the disaster victim is requesting SBA financial assistance shall be paid by the borrower to the SBA for the reduction of this loan.

V 38 130 JUL 9 73 XUM

(c) Interest rates on disaster loans are as follows:

(1) For disaster relief described under § 123.1(a), (b), (1), and (3), the interest rate shall be as follows: On SBA's share of financial assistance, interest shall be 3 percent per annum for disasters occurring between January 1 and December 31, 1971; at 1 percent per annum for disasters occurring between January 1, 1972, and prior to April 20, 1973, except that loans made in connection with natural disasters declared only by the Secretary of Agriculture during this period shall bear an interest rate of 3 percent per annum; and at a rate not to exceed 5 percent per annum on loans made in connection with disasters occurring on or after April 20, 1973. In any loan made under this subsection, except for loans approved as the result of disasters occurring prior to July 1, 1973, deferment may be made in payments of principal or interest, or both, for a period not to exceed 3 years. In participation or guaranteed loans, the interest rate on the participating institution's share shall be at a rate considered as reasonable by SBA at the time of approval.

(2) For disaster relief as described under § 123.1(b), (2), (4), (5), (6), and (7), interest on SBA's share of financial assistance shall be at a rate determined by SBA in conformity with the statutory formula set forth in the Small Business Act, as amended. Interest on the participating institution's share shall be at a rate considered by SBA to be legal and reasonable.

(d) *Major sources of employment.* In the case of a major disaster declaration by the President, Physical-Loss Disaster Assistance and Substantial Economic Injury Assistance loans may be made without dollar limitations, to any nonagricultural enterprise which has been a major source of employment and is no longer in substantial operation, to enable such enterprise to resume operations and restore the economy of the area. Loan payments may be deferred for a period of 3 years.

§ 123.6 Collateral.

(a) The Small Business Act, as amended, contains no specific requirements with respect to collateral as security for a disaster loan, nor has SBA established any rigid rule in regard to collateral. However, SBA requires applicants to pledge whatever collateral they can furnish. SBA will give consideration to the moral risk involved and to evidence showing a reasonable prospect that the loan will be repaid.

(b) Evaluation of collateral: In disaster loan cases the same general approach to establishing values will be used as for business loans keeping in mind the emergency and the urgency incident to a disaster loan.

§ 123.7 Repayment.

(a) Generally, disaster loans shall be repaid in monthly installments beginning not later than 5 months from the date of the note. For loans made under sections 7(b), (1), (2), and (4) of the Small Business Act, payments of principal or interest, or both, may be deferred during the first 3 years of the term of the loan. The maturity of the loan will be geared to the borrower's ability to repay. Final maturity of the loan shall not exceed 30 years. During a deferment period SBA may, upon request of the participant in the loan, purchase its participation. If necessary to avoid default, SBA may assume the borrower's obligation to the participant for the balance of the deferment period, provided the borrower agrees to reimburse SBA for such payments. In addition, for disasters occurring on or after January 1, 1972, but prior to July 1, 1973, in the case of a home loan to an individual who by reason of retirement, disability, or other similar circumstances relies for support on survivor, disability, or retirement benefits under a pension, insurance, or other program, SBA may consent to the suspension of the payments of principal during the lifetime of the individual and his spouse for so long as SBA determines that making such payments would constitute a substantial hardship.

(b) Displaced business loans may have other repayment terms if circumstances indicate the need, including (1) a moratorium on principal payments (not interest) not exceeding the 12 months which immediately follow disbursement; (2) smaller amortization payments during the first few years, increasing in later years; or (3) any other reasonable terms to fit the applicant's individual circumstances.

(c) Except as described elsewhere in paragraphs (a) and (b) of this section, and in the case of borrowers whose income is received on an annual or seasonal basis, all loans shall be repaid in equal monthly installments which will include principal and interest.

§ 123.8 Step-by-step procedure for disaster loan applicant.

(a) An applicant for physical-loss disaster assistance shall:

(1) Make a list of his damaged, destroyed, or lost property showing in as much detail as possible the extent of damage or loss, and, if possible, original cost of the property, desired to be repaired or replaced, recognizing that the burden of proof of loss is on the applicant;

(2) When deemed appropriate by SBA, obtain from a reliable contractor, supplier, or repairman, as appropriate, a signed estimate (in duplicate) of the cost of repairing damaged property or of replacing property which has been lost or damaged beyond repair, for which funds are requested;

(3) Make an overall estimate of his losses;

(4) Prepare a list of both his debts and assets and a financial statement;

(5) If the proposed loan is to rehabilitate his business, prepare a record of his business earnings and expenditures for the 3 years preceding and make a profit and loss statement;

(6) Obtain a disaster loan application form from a local bank or the nearest SBA office;

(7) Furnish the "Applicant's Agreement of Compliance," SBA Form 601 (see § 122.1(f) of this chapter) if such loan results in the alteration, rehabilitation, construction, conversion, extension, or repair of buildings, or other improvements to real estate, where the contract exceeds $10,000.

(8) Submit such other information as SBA may require in order to verify or support the information on hand to permit an application to be properly evaluated and acted upon, including the names and addresses of any persons, having an interest in the lost or damaged property, and the names and addresses of any persons who sustained a separate loss at the applicant's location and who may file a separate application.

(9) Submit the above information to the nearest SBA disaster or other field office, preferably in person, within the time limit established for the filing of applications. SBA will accept applications after such time limit only when SBA determines that an extreme hardship existed and the late filing was the result of causes substantially beyond the control of the applicant.

(b) An applicant for Substantial Economic Injury or Product Disaster Assistance shall:

(1) Furnish a statement of the extent to which his business has been injured by the disaster conditions;

(2) For purposes of comparison, furnish financial and operating conditions covering the current period and a 12 month period of normal operations prior to the disaster;

(3) List any accounts and notes receivable which are delinquent due to the disaster conditions;

(4) Explain fully the reasons for any abnormally large and burdensome inventories;

(5) List all payables which are delinquent due to the disaster as well as current accruals;

(6) Point out any adopted or planned economies in operation designed to reduce costs of doing a lessened volume of business.

(c) An applicant for Displaced Business Disaster Assistance shall:

(1) Furnish financial and operating statements for the current year to date and for the past 3 previous fiscal or calendar years;

(2) Furnish figures on actual or contemplated reduction or loss of income and profits and estimate of period of time income and profits will be reduced;

(3) List all payables which are delinquent;

(4) List any additional or replacement equipment that will be required reasonably to upgrade operations in new location, with allowances or any other recoveries from disposal or trade-in of existing equipment;

(5) Advise if additional inventories will be required or if different grades of items must be carried to meet demands of new location and effect on working capital position;

(6) Furnish projection of sales, normal percentage of profits, and fixed expenses, for a period of approximately 2 years following relocation in order to establish reasonable ability to repay loan;

(7) Make a list of collateral to be offered as security for repayment of the loan, showing in detail any existing obligations or liens against such collateral;

(8) Furnish the "Applicant's Agreement of Compliance," SBA Form 601 if such loan results in the alteration, rehabilitation, construction, conversion, extension, or repair of buildings or other improvements to real property, where the contract exceeds $10,000;

(d) An applicant for Coal Mine Safety and Health Assistance shall follow the procedures in paragraph (b) of this section, and in addition shall furnish a notice of deficiency from the Bureau of Mines.

(e) An applicant for Consumer Protection Assistance shall follow the procedures in paragraph (b) of this section, and in addition shall furnish a letter of survey from the U.S. Department of Agriculture or appropriate State authority.

(f) An applicant for Occupational Safety and Health Assistance shall follow the procedures in paragraph (b) of this section, and in addition shall furnish an approval of the compliance authority of the proposal for either voluntary compliance or corrections of violations of standards established pursuant to the Occupational Safety and Health Act.

(g) An applicant for Strategic Arms Economic Injury Assistance shall follow the procedures in paragraph (b) of this section, and in applicable cases explain fully the need for any refinancing of debt owned by the applicant.

(h) Any entity other than a homeowner applying for SBA disaster assistance must agree not to discriminate on the basis of race, color, or national origin, including but not limited to employment practices. See Parts 112 and 113 of these rules and regulations.

§ 123.9 Cooperation with American Red Cross.

In its physical-loss program of assistance to disaster victims, SBA maintains close coordination with the American Red Cross. In many cases, rehabilitation assistance is given jointly by the Red Cross and SBA with part of the applicant's losses being covered by a grant from the Red Cross and part by a loan through SBA.

§ 123.10 Obtaining loan funds.

(a) Once a disaster loan has been approved by SBA, the disaster victim may obtain the loan funds upon compliance with conditions of SBA's loan authorization.

(b) If the approved loan is an immediate participation or guaranteed loan, the bank will notify the disaster victim of the loan approval, terms and conditions, and arrange with him for actual closing of the loan.

(c) If the loan is a direct loan, the disaster victim will be notified by SBA of the loan approval, terms and conditions.

§ 123.11 Administration of loans.

Participation and guaranteed loans closed by the bank will be administered by the bank, and participation or direct loans closed by SBA will be administered by SBA.

§ 123.12 Fees and charges.

(a) *Service fees.* No service fees shall be charged by participating institutions for loans described in § 123.1 (a), (b), (1), and (3). For loans described in § 123.1 (b), (2), (4), (5), (6), and (1), a service fee is permitted for those financial institutions servicing immediate participation loans, or deferred participation loans where SBA has purchased its portion, on loans approved on or after July 1, 1969. The participating institution may deduct, only out of interest collected for the account of SBA, a service fee of three-eighths of 1 percent per annum where SBA's share is 75 percent or less or of one-fourth of 1 percent where SBA's share is more than 75 percent. Such fees are permitted only so long as the participating institution is servicing the loan. This fee shall not be added to any amount which borrower is obligated to pay under the loan. Participating institution shall not make a service charge to borrower for handling construction loans or accounts receivable and inventory collateral.

(b) *Guaranty charge.* A guaranty fee will be charged to the lender with respect to all guaranteed disaster loans as is set forth for business loans in § 120.3 (b), except that no fee will be charged in those cases where the lender elects to charge an interest rate of 5½ percent or less on the loan.

(c) *Closing fee.* No closing fee will be charged with respect to closing of any disaster loan.

§ 123.13 Extension of loans, including RFC loans.

Actions taken by SBA pursuant to the authority of section 7(c)(1) of the Small Business Act, as amended, are limited to such periods of time as appear necessary to avoid the forced liquidation of loans. Generally, a sequence of short extensions will be granted rather than one lengthy one. Extensions are only granted under this section when it appears that no other course of liquidation will result in a greater and earlier recovery of the indebtedness. No such extension may be made on any loan having a maturity in excess of 20 years.

§ 123.14 Restriction against loans to certain felons.

No person who has been convicted of committing a felony during and in connection with a riot or civil disorder shall be permitted, for a period of 1 year after the date of his conviction, to receive any benefit under any law of the United States providing relief for disaster victims.

§ 123.15 Certification of use of loan proceeds.

Recipients of SBA disaster loans described in § 123.1(a),(b),(1), and (3) are required to file a certification, and evidence in support of such certification, that the loan proceeds have been properly used. Any loan recipient who wrongfully misapplies such loan proceeds shall be civilly liable to the SBA Administrator in an amount equal to one and one-half times the original principal amount of the loan.

§ 123.16 Compliance with consumer protection laws.

Any recipient of an approved disaster loan for any noncommercial purpose shall be entitled to rescind said loan pursuant to the Consumer Credit Protection Act, Public Law 90–321, and Regulation Z of the Federal Reserve Board, 12 CFR Part 226.

(Catalog of Federal Domestic Assistance Program Nos. 59.001, 59.002, 59.008, 59.010, 59.014, 59.017, and 59.018, National Archives Reference Services.)

Effective date: July 1, 1973.

ANTHONY G. CHASE,
Acting Administrator.

[FR Doc.73–13828 Filed 7–6–73;8:45 am]

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 73–CE–9–AD, Amdt. 39–1683]

PART 39—AIRWORTHINESS DIRECTIVES

Beech Models B–19 and C–23 Airplanes

An Airworthiness Directive (AD) was adopted on June 27, 1973, and made effective immediately as to all known owners of Beech Models B–19 and/or C–23 airplanes. This AD was issued because there have been instances where pilots of these model airplanes have experienced difficulty in recovering from normal spins. In order to prevent this situation from occurring, the Directive prohibits intentional spins in Beech Models B–19 and C–23 airplanes and prohibits operation of these airplanes in the acrobatic category. The AD also requires removal of all placards in these model airplanes pertaining to acrobatic flight and the replacement thereof with one which covers these operational limitations.

Since it was found that immediate action was required, notice and public procedure hereon was impracticable and contrary to the public interest and good cause existed for making the AD effective immediately to the owners of Beech Models B–19 and/or C–23 airplanes by individual letters dated June 27, 1973. These conditions may still exist and the AD is hereby published in the FEDERAL REGISTER as an amendment to § 39.13 of Part 39 of the Federal Aviation Regulations to make it effective as to all persons.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation

V 38 130 JUL 9 73 XUM

Regulations is amended by adding the following new AD.

BEECH. Applies to Model B–19 (Serial Numbers MB–481 and after) and Model C–23 (Serial Numbers M–1285 and after) airplanes.

Compliance: Required as indicated, unless already accomplished.

To prevent in flight situations in which prompt spin recovery may not be assured, accomplish the following:

(A) Effective immediately, intentional spins and operation in the acrobatic category are prohibited.

(B) Within the next 20 hours' time in service or 10 calendar days, whichever comes first after the effective date of this Airworthiness Directive, remove all placards pertaining to acrobatic flight and install in place thereof a placard to be conspicuously located on the instrument panel which reads as follows:

THIS AIRPLANE MUST BE OPERATED AS A NORMAL OR UTILITY CATEGORY AIRPLANE. INTENTIONAL SPINS ARE PROHIBITED. NO ACROBATIC MANEUVERS APPROVED EXCEPT: CHANDELLES, LAZY EIGHTS, STEEP TURNS, AND STALLS (EXCEPT WHIP STALLS).

This amendment becomes effective July 12, 1973, to all persons except those to whom it was made effective by letter dated June 27, 1973.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Kansas City, Mo., on June 29, 1973.

JOHN M. CYROCKI,
Director, Central Region.

[FR Doc.73–13780 Filed 7–6–73;8:45 am]

[Docket No. 73–GL–7, Amdt. 39–1685]

PART 39—AIRWORTHINESS DIRECTIVES

Marvel Schebler Carburetors Models

Airworthiness Directive 72–6–5 was issued March 24, 1972, to prevent looseness or separation of the throttle arm of Marvel Schebler carburetors. The manufacturer has released a new design throttle arm and shaft which does not require the corrective action described in Airworthiness Directive 72–6–5. Accordingly, a revision to AD 72–6–5 is being issued to limit the applicability to the throttle arm configurations indicated in the Illustrations in the AD.

Since the amendment is relieving in nature and does not require any additional action on the part of any person, compliance with the notice and public procedures provisions of the Administrative Procedures Act is not required and good cause exists for making this Amendment effective in less than thirty days. In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (31 FR 13697, 14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following amended Airworthiness Directive:

72–6–5 MARVEL SCHEBLER: Amendment 39–1411 as amended by Amendment 39–1685.

Applies to Models MA–3, MA–3A, MA3–PA, MA–3SPA, MA4–SPA, MA4–5, M4–5AA, MA–6AA and HA–6 carburetors used on various Franklin (Aircooled), Continental, Lycoming and Ranger engines, having one of the throttle arm and shart configurations shown in Illustrations A, B, C, or D.

Compliance: Required at next annual inspection, unless already accomplished.

To prevent looseness or separation of the throttle arm, accomplish the following or any equivalent procedure approved by Chief, Engineering and Manufacturing Branch, FAA, Great Lakes Region.

(1) Inspect the throttle arm to vertify that it is bottomed against the shoulder on the throttle stop and positioned so that full throttle travel is obtained, and if not, loosen clamping screw and reposition arm and or re-rig control system in accordance with airplane manufacturers' maintenance instructions to obtain these conditions.

(2) Inspect the throttle arm on Marvel Schebler MA–3, MA–3A, MA–3PA, MA3–SPA and MA–4SPA carburetors to determine whether it has a spotfaced or milled flat for the head of the clamping screw. Replace any arm having a milled flat with one having a spotfaced flat. If not already installed, install a Marvel Schebler P/N A15–493 clamping screw (No. 10–24 x ⅝ slotted drilled fillister head) in the throttle arm. Torque the clamping screw to 20–28 in.-lb. and inspect the slot in the end of the arm for clearance. If the slot has closed so that no clearance remains, replace the arm and retorque to the above specifications. After the specified torque is established safety wire the throttle arm and clamping screw to the throttle stop as shown in Illustration A.

(3) On Marvel Schebler MA–4–5, MA4–5AA, MA–6AA and HA–6 series carburetors with throttle arms having a 10–32 bolt and nut clamping the arm on the throttle stop, torque the nut to 35 to 40 in. lbs. and safety wire the throttle arm to the throttle stop as shown in Illustration B. On these series carburetors having a throttle arm threaded for a 10–24 screw, if not already installed, install a Marvel Schebler P/N A15–493 clamping screw (No. 10–24 x ⅝ slotted drilled fillister head) in the throttle arm and torque the screw to 20 to 28 in. lbs. Safety wire the throttle arm to the throttle stop as shown in Illustration C or D.

NOTE: The procedures specified in American Aviation Corporation Service Letter No. 69–4, dated October 3, 1969, Cessna Service Letter SE71–17 revised February 25, 1972, and Lycoming Service Bulletin No. 330A, dated October 30, 1970, are approved as equivalent procedures to those prescribed in this AD for the applicable carburetors.

Amendment 39–1411 was effective March 24, 1972.

This amendment becomes effective immediately on July 9, 1973.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Des Plaines, Ill., on June 29, 1973.

R. O. ZIEGLER,
Acting Director, Great Lakes Region.

[Airspace Docket No. 73–CE–1]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On page 8669 of the FEDERAL REGISTER dated April 5, 1973, the Federal Aviation Administration published a notice of proposed rule making which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the transition area at Larned, Kansas.

Interested persons were given 30 days to submit written comments, suggestions or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective 0901 G.m.t., September 13, 1973.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c) Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Kansas City, Mo., on June 15, 1973.

CHESTER W. WELLS,
Acting Director, Central Region.

In § 71.181 (38 FR 435), the following transition area is amended to read:

LARNED, KANS.

That airspace extending upward from 700 feet above the surface within a 5.5-mile radius of the Larned, Kans. NDB, located at latitude 38°12'16" N., longitude 99°05'17" W., and within 3 miles either side of the 277° bearing from the NDB extending from the 5.5-mile radius to 8 miles west, and that airspace extending upward from 1,200 feet above the surface within 9.5 miles north, 5 miles south of the 277° bearing from the NDB extending from 18.5 miles West to 6 miles East of the NDB, excluding that area that overlaps the Great Bend, Kans., 700-foot transition area.

[FR Doc.73–13782 Filed 7–6–73;8:45 am]

[Airspace Docket No. 73–SW–13]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation and Alteration of Control Zones and Alteration of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to designate the Waco, Tex. (James Connally Airport), control zone; rename the Waco, Tex., control zone; and alter the Waco, Tex., transition area.

On March 9, 1973, a notice of proposed rule making was published in the FEDERAL REGISTER (38 FR 6397) stating the Federal Aviation Administration proposed to designate the Waco, Tex. (James Connally Airport), control zone; rename the Waco, Tex., control zone; and alter the Waco, Tex., transition area.

Interested persons were afforded an opportunity to participate in the rule making through submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., September 13, 1973, as hereinafter set forth.

In § 71.171 (38 FR 351), the following control zone is added:

WACO, TEX. (JAMES CONNALLY AIRPORT)

Within a 5-mile radius of James Connally Airport (latitude 31°38'00" N., longitude 97°04'00" W.) excluding the portion within the Waco, Tex. (Waco Municipal Airport), control zone. The control zone can be designated effective part time during times established in advance by a notice to airmen continuously published in the Airman's Information Manual.

In § 71.171 (38 FR 351), the Waco, Tex., control zone is amended to read "Waco, Tex. (Waco Municipal Airport)."

In § 71.181 (38 FR 435), the Waco, Tex., transition area is amended by deleting "latitude 31°49'00" N., longitude 97°00'00" W." and substituting therefor "latitude 31°46'00" N., longitude 96°55'-00" W."

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Fort Worth, Tex., on June 28, 1973.

R. V. REYNOLDS,
Acting Director, Southwest Region.

[FR Doc.73–13783 Filed 7–6–73;8:45 am]

[Airspace Docket No. 73–SO–31]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Nashville, Tenn., control zone and transition area.

The Nashville control zone is described in § 71.171 (38 FR 351) and the Nashville transition area is described in § 71.181 (38 FR 435). In the descriptions, extensions are predicated on the ILS localizer north course to provide controlled airspace protection for IFR aircraft executing the Localizer (BC) Runway 20R Instfument Approach Procedure to Nashville Metropolitan Airport. Effective July 5, 1973, the procedure turn altitude for this instrument approach procedure will be raised from 2,000 to 2,500 feet MSL and the altitude over the final approach fix will be raised from 1,700 to 2,000 feet MSL, thereby eliminating the requirement for the two extensions. It is necessary to alter the descriptions to reflect these changes. Since these amendments lessen the burden on the public, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., July 5, 1973, as hereinafter set forth.

In § 71.171 (38 FR 351), the Nashville, Tenn., control zone is amended as follows:

"* * * within 1 mile each side, expanding to two miles each side of the ILS localizer north course, extending from the 5-mile radius zone to 13 miles north of the localizer * * *" is deleted from the description.

In § 71.181 (38 FR 435), the Nashville, Tenn., transition area is amended as follows:

"* * * within 9.5 miles west and 4.5 miles east of the ILS localizer north course, extending from the 14-mile radius area to 23 miles north of the localizer * * *" is deleted from the description.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in East Point, Ga., on June 27, 1973.

PHILLIP M. SWATEK,
Director, Southern Region.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

ADHESIVES

The Commissioner of Food and Drugs, having evaluated data in a petition (FAP 3B2867) filed by Ciba-Geigy Corp., Ardsley, NY 10502, and other relevant material, concludes that the food additive regulations (21 CFR Part 121) should be amended, as set forth below, to provide for safe use of thiodiethylene-bis(3,5 - di - *tert* - butyl - 4 - hydroxyhydrocinnamate) as an adjuvant for polymers used in adhesives for food-packaging materials.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)), and under authority delegated to the Commissioner (21 CFR 2.120), § 121.2520(c)(5) is amended by alphabetically inserting a new item in the list of substances as follows:

§ 121.2520 Adhesives.

* * * * * *

(c) * * *

(5) * * *

COMPONENTS OF ADHESIVES	
Substances	*Limitations*
* * *	* * *
Thiodiethylene - bis(3,5 - di - *tert* - butyl - 4 - hydroxyhydrocinnamate)	----------
* * *	* * *

Any person who will be adversely affected by the foregoing order may at any time on or before August 8, 1973, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–88, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order, specify with particularity the provisions of the order deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections shall state the issues for the hearing, shall be supported by grounds factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in

V 38 130 JUL 9 73 XUM

the event that a hearing is held. Objections may be accompanied by a memorandum or brief in support thereof. Six copies of all documents shall be filed. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date. This order shall become effective on July 9, 1973.

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: June 27, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.73-13796 Filed 7-6-73;8:45 am]

PART 121—FOOD ADDITIVES

Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

COMPONENTS OF PAPER AND PAPERBOARD IN CONTACT WITH DRY FOOD

In the FEDERAL REGISTER of January 4, 1972 (37 FR 28), notice was given that a petition (FAP 2B2756) had been filed by E. F. Houghton & Co., 303 West Lehigh Ave., Philadelphia, PA 19133, proposing that § 121.2526 (21 CFR 121.2526) be amended to provide for the safe use of polyamide polyamine-epichlorohydrin water-soluble thermosetting resins, prepared by reacting 1-(carboxy pentyl)-4-carboxy pyrrolidone with caprolactam, diethylenetriamine, and epichlorohydrin to form a basic polyamide and further reacting the polyamide with epichlorohydrin, as components of paper and paperboard for food contact use. The petitioner subsequently revised the petition to limit the additive for use as a component of paper and paperboard in contact with dry food under § 121.2571 (21 CFR 121.2571).

The Commissioner of Food and Drugs, having evaluated data in a petition, and other relevant material, concludes that the food additive regulations should be amended, to provide for the safe use of the petitioned additive as set forth below. Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 121 (21 CFR 121) is amended in § 121.2571(b)(2) by alphabetically adding to the list of substances the following new items:

§ 121.2571 Components of paper and paperboard in contact with dry food.

* * * * * *

(b) * * *.

(2) * * *

List of substances	*Limitations*
* * *	* * *
Polyamide - epichlorohydrin modified resins resulting from the reaction of the initial caprolactam - itaconic acid product with diethylenetriamine and then condensing this prepolymer with epichlorohydrin to form a cationic resin having a nitrogen content of 11-15 percent and chlorine level of 20-23 percent on a dry basis.	----------
* * *	* * *

Any person who will be adversely affected by the foregoing order may at any time on or before August 8, 1973, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order, specify with particularity the provisions of the order deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections shall state the issues for the hearing, shall be supported by grounds factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event a hearing is held. Objections may be accompanied by a memorandum or brief in support thereof. Six copies of all documents shall be filed. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date. This order shall become effective on July 9, 1973.

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

SUBCHAPTER C—DRUGS

PART 135b—NEW ANIMAL DRUGS FOR IMPLANTATION OR INJECTION

PART 141a—PENICILLIN AND PENICILLIN-CONTAINING DRUGS; TESTS AND METHODS OF ASSAY

Sterile Benzathine Penicillin G and Procaine Penicillin G Suspension, Veterinary

The Commissioner of Food and Drugs has evaluated a new animal drug application (65-169V) filed by Bristol Laboratories, Division of Bristol-Myers Co., Post Office Box 657, Syracuse, NY 13201, proposing the safe and effective use of sterile benzathine penicillin G and procaine penicillin G suspension, veterinary for the treatment of bacterial infections susceptible to penicillin G in horses, dogs, and beef cattle. The application is approved.

The drug is subject to batch certifications under the provisions of section 512(n) of the act; accordingly, the order provides for an appropriate amendment to the regulations in Part 141a of this chapter.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), (n), 82 Stat. 347, 350; 21 U.S.C. 360b(i)(n)) and under authority delegated to the Commissioner (21 CFR 2.120), Parts 135b and 141a are amended as follows:

1. Part 135b is amended in § 135b.43 by revising paragraph (b) to read as follows:

§ 135b.43 Sterile benzathine penicillin G and procaine penicillin G suspension, veterinary.

* * * * *

(b) *Sponsor.* See code Nos. 017, 040, and 044 in § 135.501(c) of this chapter.

* * * * *

2. Part 141a is amended in § 141a.62 by revising paragraph (a) to read as follows:

§ 141a.62 Benzathine penicillin G and procaine penicillin for aqueous injection.

(a) *Total potency, benzathine penicillin G content, procaine penicillin content:*

(1) If the product does not contain procaine hydrochloride: Proceed as directed in § 141a.61(a)(1), (2), and (4).

(2) If the product contains procaine hydrochloride: (i) *Total potency.* Place one dose of the suspension in each of two centrifuge tubes. Label one tube "sample" and the other "blank". Add 9.0 ml. of 20 percent sodium sulfate solution to each tube and mix well. Centrifuge them at 10,000 r.p.m. for 15 minutes or until a clear supernatant solution is obtained.

Pour the supernatant solution from the sample tube into a 50-ml. volumetric flask and dilute to mark with 1 percent pH 6.0 buffer. Determine the amount of pencillin in this flask by the iodometric assay procedure.

Wash the penicillin residue from the tube labeled "sample" into a 200-ml. volumetric flask quantitatively with about 150 ml. of water. Add 10 ml. of of 1.0*N* sodium hydroxide and allow to stand for 15 minutes. Acidify the solution with 10 ml. of 1.2*N* hydrochloric acid and dilute to mark with water. Determine the amount of penicillin in this solution by the iodometric assay procedure. Use as a blank a suspension prepared by discarding the supernatant solution from the tube labeled "blank", washing the penicillin residue into a 200-ml. volumetric flask, and making to mark with water.

The total potency of the dose is the sum of the penicillin in the sample supernatant solution and in the insoluble residue of the sample.

(ii) *Procaine penicillin content.* Transfer 5.0 ml. of the solution from the 200-ml. volumetric flask containing the residue from the "sample" tube to a 50-ml. volumetric flask and make to mark with water. Assay 2.0 ml. of the solution by the Bratton-Marshall method.

The amount of procaine penicillin is the sum of the amount of penicillin in the sodium sulfate supernatant solution and the amount of penicillin determined by the Bratton-Marshall method.

(iii) *Benzathine penicillin content.* The amount of benzathine penicillin is the difference between the total potency and the amount of procaine penicillin.

* * * * * *

Effective date. This order shall become effective on July 9, 1973.

(Sec. 512(i), (n), 82 Stat. 347, 350; 21 U.S.C. 360b(i)(n))

Dated: June 28, 1973.

C. D. VAN HOUWELING,
Director, Bureau of Veterinary Medicine.

Title 41—Public Contracts and Property Management

CHAPTER 5A—FEDERAL SUPPLY SERVICE, GENERAL SERVICES ADMINISTRATION

CONTRACT ADMINISTRATION

The following is to update and provide more detailed instructions on the administration of contracts. The instructions reflect changes in the areas of termination, inspection and acceptance, contract administration, and the procurement of stock items.

PART 5A-1—GENERAL

The table of contents for Part 5A-1 is revised to reserve § 5A-1.373, as follows:

5A-1.373 [Reserved]

Subpart 5A-1.3—General Policies

§ 5A-1.373 [Reserved]

Section 5A-1.373 is reserved.

Subpart 5A-1.18—Postaward Orientation of Contractors

1. Section 5A-1.1803-2(a) is revised as follows:

§ 5A-1.1803-2 Initial action.

(a) Upon the award of a contract for which a regional Quality Control Division has responsibility for providing contract administration assistance (see § 5A-53.103), that Division also has the responsibility for conducting a postaward orientation conference (See the HB, Supply Operations, chap. 9 (FSSP 2900.5)). Ordinarily, such conferences will be conducted by the quality assurance specialist (QAS) on his initial visit to the supplier's plant. Where, because of special circumstances, the contracting officer determines that GSA personnel in addition to the QAS should participate in the conference or that the conference should be held at the office of the contracting activity or at some place other than the supplier's plant, the contracting officer shall make special arrangements with the Quality Control Division responsible for contract administration assistance.

* * * * *

2. Section 5A-1.1803-4 is revised as follows:

§ 5A-1.1803-4 Participants.

Participants in postaward orientation conferences should include, as appropriate, quality control personnel, personnel of the requiring service or staff office to whom the contracting officer will delegate the authority for contract administration (see § 5A-53.103), legal counsel, accounting personnel, and other interested Government personnel. Personnel attending conferences as representatives of quality control or any other service or staff office to whom the authority for contract administration has been delegated, shall, whenever possible, be the same individuals who will be responsible for providing contract administration assistance in connection with the contract (see § 5A-1.1803-2(a)).

PART 5A-14—INSPECTION AND ACCEPTANCE

Subpart 5A-14.2—Acceptance

Section 5A-14.206-1 is amended as follows:

§ 5A-14.206-1 Acceptance of nonconforming supplies or services.

* * * * *

(b) If the contracting officer or his authorized representative determines that acceptance of nonconforming supplies or services is in the Government's best interest, and a significant deviation as defined in § 1-14.206 is involved, recommendations for deviation shall be referred direct to the appropriate Central Office Standardization Division branch listed below, except where a region has full responsibility for the development and maintenance of the specifications or stock item purchase descriptions involved, in which case the recommendation shall be sent to such region for action and decision by the appropriate Regional Commissioner.

Branch	*Corresp. Symbol*
Office Supplies, Textiles & Domestics	FMSO
Chemicals, Subsistence & Drugs	FMSO
Hardware & Construction	FMSH
Electrical	FMSE
Electronics & Magnetic Surfaces Equipment	FMSM
Furniture & Furnishings	FMSF
Packaging & Packing	FMSX
Hand Tools and Mech. Equip	FMSK
Paints	FMSB

(c) Recommendations for deviation shall contain (1) a copy of the pertinent specification and Invitation for Bids, (2) the reasons why the item does not conform to contract requirements, (3) a statement as to whether or not a similar deficiency was the basis for rejection of an otherwise low bid received on the same IFB, and (4) the reasons why it is in the best interest of the Government to accept the nonconforming item. If urgency of acceptance is a factor, recommendations for deviation shall be handled by telephone or other expeditious means. When stock items are invoved, the contracting officer shall coordinate with the regional Supply Control item managers on local contracts and the National Inventory Control Center Branch (FXIN) or national or zonal contracts to determine urgency of need.

(d) Where the recommendation for deviation is concurred in by the Standardization Division or Regional Commissioner, FSS, the appropriate Standardization Division branch or regional Quality Control Division shall furnish the contracting officer with an estimate of the savings in costs which will accrue to the contractor as a result of the deviation and the amount of surcharge (generally 15 percent of the cost savings) for any administrative costs incurred by GSA. The contracting officer shall be guided by the estimate in negotiating an equitable price reduction (including direct and indirect costs, plus profit) for the deviation.

(e) If the deviation involved is not considered significant, the item may be accepted at an appropriate reduction in price (such price to be established on the basis of the estimate of savings in costs described in paragraph (d) of this section), provided the approval of the requiring activity is obtained in the case of nonstock items (see § 1-14.206), and provided such regional cases are approved by the Regional Commissioner, FSS. An information copy of each such approval shall be furnished to the appropriate Standardization Division branch in Central Office.

(f) Contracting officers not accept nonconforming supplies or services if the deviation is similar to a deviation which was the basis for rejection of an otherwise low bid received on the same invitation for bids.

(g) When it is determined to accept nonconforming material, the contracting officer shall provide appropriate notice to the regional Quality Control Division that submitted the rejection report.

PART 5A-16—PROCUREMENT FORMS

The table of contents for Part 5A-16 is amended to delete § 5A-16.950-2172 and to add the following new entries:

Sec.

5A-16.950-2718 GSA Form 2718, Preliminary Notice of Default—Definite Quantity Contract.

5A-16.950-2719 GSA Form 2719, Preliminary Notice of Default—Term Contract with Availability for Inspection and Testing and Delivery Clause.

V 38 130 JUL 9 73 XUM

Sec.
5A–16.950–2720 GSA Form 2720, Preliminary Notice of Default—Term Contract.
5A–16.950–2721 GSA Form 2721, Attachment A (Preliminary Notice of Default).

PART 5A–53—CONTRACT ADMINISTRATION

The table of contents for Part 5A–53 is amended as follows:

Sec.
5A–53.000 Scope of part.

Subpart 5A–53.1—General

5A–53.101 Definition.
5A–53.102 Elements of contract administration.
5A–53.103 Authority and responsibility.

Subpart 5A–53.4—Contract Performance

5A–53.401 General.
5A–53.470 Monitoring.
5A–53.471 Expediting
5A–53.471–1 General.
5A–53.471–2 Nonstock and stock direct delivery orders.
5A–53.471–3 Stock replenishment orders.
5A–53.471–4 Stock availability improvement assistance.
5A–53.472 Use and issuance of preliminary notice of default.
5A–53.473 Use of GSA Form 1679, Contract Administration.

PART 5A–53—CONTRACT ADMINISTRATION

Section 5A–53.000 is added as follows:

§ 5A–53.000 Scope of part.

This Part 5A–53 describes contract administration responsibilities and establishes policies and procedures for the administration of FSS contracts.

Subpart 5A–53.1—General

Subpart 5A–53.1 is added as follows:

§ 5A–53.101 Definition.

Contract administration is defined as the performance and coordination of all actions subsequent to the award of a contract that the Government must take to obtain compliance with all contract requirements, including timely delivery of supplies or services, acceptance, payment, and closing of the contract. These actions also include all technical, financial, audit, legal, administrative, and managerial services in support of the contracting officer.

§ 5A–53.102 Elements of contract administration.

(See § 5–53.102.)

§ 5A–53.103 Authority and responsibility.

(a) The contracting officer is the Government agent in whom authority is vested to enter into and administer contracts. All contracting and related actions flow from the contracting officer's authority either directly or through authorized representatives. (See § 5A–1.404–70.) The quality assurance specialist (QAS) of the Quality Control Division is responsible for providing quality control and field contract administration on contracts and orders if (1) the contract specifies origin inspection, (2) the contract is under the Federal Supply Schedule program and the Quality Control Division has been assigned responsibility for providing quality control and field contract administration, or (3) when field contract administration on contracts or orders which do not designate origin inspection has been requested by the contracting officer. In such cases, the QAS is responsible for initiating or requesting necessary action to ensure full compliance with all terms of the contract and for keeping the contracting officer advised of the status of the contract. Aggressive contract administration is essential to ensure timely contract performance.

(b) The contract administration responsibilities of the regional item manager, Inventory Management Branch, Supply Control Division, are contained in the HB, Supply Operations (FSS P 2900.3). These responsibilities include (1) issuing definite quantity stock replenishment and stock direct delivery orders from established sources; (2) issuing amendments to the above delivery orders, including editorial corrections, quantity changes, and other routine ordering problem corrections; and (3) the coordinated processing of: Over, short and damage discrepancies; the rejection, disposition, and replacement of unsuitable merchandise received from suppliers; and charges for failure by suppliers to mark shipments in accordance with contract requirements.

(c) Where contracts have been established to cover the particular requirements of another GSA service or staff office and the performance of the contract is an integral part of the program mission of the service or staff office for which the contract was established, the contracting officer shall delegate the authority for contract administration to activities or individuals designated by the requiring service or staff office, if requested. However, basic responsibility for adequate contract arrangements and final action in connection with such matters as disputes, terminations, etc., shall be retained by the contracting officer.

Subpart 5A–53.4—Contract Performance

Subpart 5A–53.4 is revised as follows:

§ 5A–53.401 General.

Contract performance requires effective and timely coordination directly between the contracting officer and supporting elements to ensure performance in accordance with the terms and conditions of the contract.

§ 5A–53.470 Monitoring.

Monitoring is the performance of all actions necessary to exercise effective surveillance over individual supply transactions while they are being processed through the total supply system. The Office of Supply Control performs the monitoring function and furnishes the indication to the expeditor of the necessity to perform an expediting action. Instructions concerning the monitoring function are contained in the appropriate volumes of the HB, Supply Operations (FSS P 2900.1).

§ 5A–53.471 Expediting.

§ 5A–53.471–1 General.

Expediting is the performance of all necessary actions required to obtain delivery to satisfy customer needs and consists of delivery status inquiries, ensuring "on time" deliveries, and accelerating or moving back delivery schedules. Expediting between the Government and contractor should only be made by the contracting officer or his authorized representatives. (See § 5A–53.103.)

§ 5A–53.471–2 Nonstock and stock direct delivery orders.

(a) *Source inspection.* (1) Requests for expediting source inspected orders shall be made to the QAS responsible for the inspection. The QAS shall take prompt and appropriate action in accordance with the request and expeditiously reply to the requestor.

(2) Requests altering delivery schedules which may require contract modifications shall be sent directly to the contracting officer by the requestor or the QAS. The contracting officer shall take prompt and appropriate action consistent with the relative priorities of the work-in-process on hand (but not later than 5 working days after receipt of request for action), and expeditiously reply to the requestor.

(b) *Destination inspection.* Expediting of direct delivery orders requiring inspection at destination shall be performed by the regional order processing and control activities when scheduled delivery dates have been missed or are in jeopardy. Expediting shall be limited to requesting delivery status information. Any changes to the contract/order shall be made only by the contracting officer.

§ 5A–53.471–3 Stock replenishment orders.

(a) All requests for accelerated delivery (requests for delivery to be made prior to contract due date) on national and zonal contracts shall be referred to the National Inventory Control Center Branch (NICC) for review. If honored, NICC will refer the request to the appropriate national/zonal contracting officer. The contracting officer shall take prompt action consistent with the relative priorities of the work-in-process on hand (but not later than 5 working days after receipt of request for action) to (1) contact the contractors, (2) ascertain whether delivery can be improved with or without alteration of contract delivery schedules and/or price, (3) coordinate with NICC when other delivery schedules are affected, and (4) provide NICC with the resultant information. (For procedures regarding public exigency purchases of stock items, see §§ 5A–3.202 and 5A–72.105–31).

(b) Requests from the Supply Control Division for delivery status information and ensuring "on time" deliveries shall be made to the QAS for source inspected orders and the contracting officer for destination inspection orders, provided no current status information (GSA Form 1679) is on file. If the QAS has referred the problem to the contracting officer, in the case of source inspected orders, status requests shall be submitted to the contracting officer. Prompt and appropriate action, consistent with the relative priorities of the work-in-process on hand, shall be taken by the QAS and contracting officer and an expeditious reply shall be made to the requestor.

§ 5A–53.471–4 Stock availability improvement assistance.

GSA Form 6673, Request for Stock Availability Improvement Assistance, was developed for use by the National Inventory Control Center Branch in requesting assistance from procuring activities on items in critical stock position nationally. In the event contracting officers receive a GSA Form 6673 from the National Inventory Control Center Branch, immediate action shall be taken to expedite all items covered by the request. Coordination with the National inventory Control Center Branch is required if the contracting officer encounters any difficulty in determining relative priority of need between the regions.

§ 5A–53.472 Use and issuance of preliminary notice of default.

(a) Quality Assurance Specialists (QAS) are only authorized to issue a preliminary notice of default pursuant to paragraph (a)(1), Article 11, General Provisions (Supply Contract). (See § 5A–53.103.) This authorization applies to stock and nonstock contracts requiring source inspection, excluding Federal Supply Schedule contracts, and AID contracts awarded by the National Buying Center Division. With approval from the regional Director, Procurement Division, or the Director, National Buying Center Division, as applicable, the contracting officer may direct the QAS to obtain clearance from the contracting officer prior to issuing a preliminary notice of default. When preliminary notices of default are issued by QAS, he shall immediately notify the contracting officer of such action by mailing a copy of all notices to the contracting officer the same day they are furnished to the contractor.

(b) Good judgment should be used by the contracting officer or the QAS in issuing a preliminary notice of default letter, considering such conditions as may be accomplished by the contractor within a short period (5 days): (1) Supplies are available for inspection and testing; (2) deliveries are in transit; or (3) other immediate conditions. If the QAS is in doubt about issuing a preliminary notice of default, he should contact the contracting officer direct.

(c) In all cases involving stock items, the Supply Control Division ordering activity shall be promptly notified of any action taken as a result of the preliminary notice of default letter.

(d) GSA Forms 2718, 2719, and 2720, Preliminary notice of default letters, (see §§ 5A–16.950–2718 through 5A–16.950–2720) are designed for use by the QAS in connection with the contract administration authorization stated in § 5A–53.472(a), above. GSA Form 2721, Attachment A, Preliminary Notice of Default, (see § 5A–16.950–2721) is used in conjunction with GSA Forms 2719 and 2720. Detailed procedures involving the QAS issuing preliminary notice of default letters are set forth in FSS P 2900.5, chap. 9.

§ 5A–53.473 Use of GSA Form 1679, Contract Administration.

The GSA Form 1679 is used to transmit contract status information directly between the QAS and the contracting officer. (See FSS P 2900.5, chap. 9.) Timeliness and clarity of purpose in the preparation of and response to GSA Form 1679 is of the essence. When a reply to the GSA Form 1679 is required or appropriate, contracting officers shall reply to the QAS within 5 working days from date of receipt of the GSA Form 1679. In the event final reply cannot be made within the 5 working days, contracting officers will furnish an interim reply with the estimated date final reply may be expected. To ensure timely replies, procurement offices shall establish appropriate controls. Contracting officers shall promptly notify the Supply Control Division ordering activity of any action taken as a result of a GSA Form 1679 (extensions, terminations, or other actions). Copies of GSA Form 1679 and replies thereto including copies of pertinent correspondence shall be used for this purpose.

PART 5A–72—REGULAR PURCHASE PROGRAMS OTHER THAN FEDERAL SUPPLY SCHEDULE

Subpart 5A–72.1—Procurement of Stock Items

1. Section 5A–72.103 is revised as follows:

§ 5A–72.105–16 Monthly Supply Potential Stock Item Purchase Descriptions.

The head of a procuring activity may authorize exceptions from the requirement of using Stock Item Purchase Descriptions (SIPD) when the purchase value is $2,500 or less, provided the product(s) to be purchased are known to meet the applicable specifications or, if not known, are good quality off-the-shelf products. (For interim stock replenishments see § 5A–72.105–29.)

2. Section 5A–72.105–16(a) is revised as follows:

§ 5A–72.105–16 Monthly Supply Potential (MSP) and Method of Award clauses.

(a) *General.* The Monthly Supply Potential (MSP) clause and Method of Award clause (see paragraphs (d) and (e) of this section) shall be included in all solicitations for requirements-type term contracts (see § 5A–72.105–3) under national and zone contracting assignments for stock items, except where (1) another authorized clause is used to limit the contractor's obligation to deliver (e.g., standby-stock clause), or (2) the Director, National Buying Center Division, or the Director of a regional Procurement Division authorizes an exception (in which case the file shall be documented accordingly). Use of these clauses is not mandatory in requirements-type term contracts issued by regional offices for their own regional requirements. However, the clauses should be used where the estimated requirements are substantial and it is anticipated that difficulties may otherwise be encountered because of inadequate production capacities of some offerors. Quantities refused by contractors as exceeding the MSP of a term contract shall be submitted by the regional Inventory Management activity to the Director, Procurement Division, in their region. The regional procuring activities are authorized to procure these requirements after coordination with the national/zonal contracting office; however, the Director of the regional procuring activity may choose not to procure the requirement. In this case, the regional Inventory Management Branch activity shall submit the requirements to the national/zonal contracting office who shall complete the purchase action.

* * * * * *

3. Section 5A–72.105–20(c) is revised as follows:

§ 5A–72.105–20 Maximum order limitations—requirements and indefinite quantity contracts.

* * * * * *

(c) Regional Inventory Management Branch activities shall submit their requirements in excess of the maximum order limitation on national or zonal term contracts to the Director, Procurement Division, in their region. The regional procuring activities are authorized to procure these requirements after coordination with the national/zonal contracting office; however, the Director of the regional procuring activity may choose not to procure the requirements. In this case, the regional Inventory Management Branch activity shall submit the requirements to the national/zonal contracting office who shall complete the purchase action.

* * * * * *

4. Section 5A–72.105–23(b) is revised as follows:

§ 5A–72.105–23 Preparation and distribution of contractual information.

* * * * * *

(b) Definite quantity buys by national/zone procuring activities. Where a national/zone contracting office makes definite quantity purchases for stock items, including repurchase actions, that office shall complete the purchase, prepare the purchase order(s), and make distribution in accordance with existing

V 38 130 JUL 9 73 XUM

procedures, except for the following special instructions:

(1) The purchase order number to be used shall be the number furnished by the requiring region.

(2) The purchase order shall include any special instructions (concerning shipping, etc.) specified in the purchase request.

(3) Procurement transaction reporting data shall be recorded by the contracting activity.

(4) For paying office addresses to be entered on purchase orders, see § 5A–76§ 307.

5. Section 5A–72.105–25 is revised as follows:

§ 5A–72.105–25 Expediting deliveries.

(See § 5A–53.471.)

6. Section 5A–72.105–29 is revised as follows:

§ 5A–72.105–29 Interim stock replenishments.

(a) Interim stock replenishment means regional purchase of stock items normally contracted for on a national or zonal basis when (1) there is temporarily no contract source for such items because of a gap between the time the previous contract expired and the time a new contract is available, or (2) there is temporarily no contract source for such items because there was no contract in effect for the prior period and there is a delay in contract award, or (3) a contract may or may not have been in effect for the prior period and a determination is made not to consummate a contract for the upcoming period due to specification problems, insufficient demand, no responsive bids, etc., or (4) there is a contract source but delivery thereunder is not being made because of special conditions, such as strikes or default.

(b) The national/zonal contracting office responsible for a national or zonal procurement assignment has the full and final responsibility (from the effective date of the assignment) for providing procurement support on the items involved. When any requirements arise due to the conditions set forth in (a), above, the national/zonal contracting office shall process those requirements in accordance with the procedures set forth in (c), below.

(c) When a lapse in contract coverage is expected to occur, the national/zonal contracting office is required to notify the National Inventory Control Center Branch (FXIN) and the stocking regional Inventory Management Branch activities of the approximate date contract award data will be furnished. (See § 5A–72.105–23(a)(6).) The notification shall be sent to FXIN and the stocking regional Inventory Management Branch activities 20 days prior to the contract expiration date, or if no contract was in effect for the prior period 20 days prior to the effective date of the new contract period, or at the time the special conditions take place; e.g., strikes or default. If the lapse in contract coverage is expected to exceed 30 days, the national/zonal contracting office shall, in the notification, request interim requirements from FXIN. The national/zonal contracting office shall accept requirements for consolidated definite quantity purchases and shall complete the purchase action. However, if the national/zonal contracting office, for justifiable reasons, cannot make the purchase, local purchase authority may be authorized, provided that the Director of the national/zonal contracting office (regional or National Buying Center Division as applicable) obtains the concurrence of the appropriate regional Director(s), Procurement Division(s), to transfer the requirements to that region(s). Concurrences shall be requested by telephone or TWX. In the case of lapses in contract coverage which are not expected to exceed 30 days, as provided by the notification from the national/zonal contracting office, regional Inventory Management Branch activities may submit their requirements to the Director, Procurement Division, in their region. The regional procuring activities are authorized to procure these interim requirements; however, the Director of the regional procuring activity may choose not to procure the requirement. In this case, the regional Inventory Management Branch activity shall submit the requirements through FXIN to the national/zonal contracting offices who shall complete the purchase action. It should be emphasized that the national/zonal contracting office has the final responsibility in ensuring that the requirement is satisfied. When regional procuring activities procure interim requirements, the national/zonal contracting offices shall provide guidance as to sources, purchase descriptions, previous price analysis information, and current problems.

(d) Unless special instructions are issued, any of the following methods normally may be used, as appropriate, when purchasing interim stock replenishment requirements.

(1) If the amount is $2,500 or less, products which are known to meet the applicable specifications or, if not known, good quality off-the-shelf products shall be purchased under the small purchase procedures. Small purchases of this type may be made from the prior contractor under the terms of the expired contract if the prices are considered reasonable and the prior contractor agrees.

(2) If the amount is in excess of $2,500, purchase shall be made by formal advertising or negotiation, depending on the circumstances. Where public exigency procurement is justified, the instructions in §§ 5A–3.202 and 5A–72.105–31 shall apply.

7. Section 5A–72.105–31 is amended as follows:

§ 5A–72.105–31 Public exigency purchases of stock items.

* * * * *

(b) Where there is an existing national or zone term contract for the required items, the inventory management activity shall first explore the possibility of obtaining timely deliveries under the existing contract by requesting accelerated delivery through the National Inventory Control Center Branch (NICC) to the contracting officer. (See § 5A–53.471–3.) If the request is found valid by NICC, it shall be forwarded to the contracting officer for action. If the contractor agrees to make accelerated delivery only under the condition that delivery schedules in other Government orders must be extended or the contract price increased, the matter shall be discussed with the NICC, who will inform the contracting officer of the desired priorities to be observed, and the contracting officer will take appropriate action. If the established contractor cannot make delivery in the time required, the procurement may be made under public exigency procedures where the circumstances justify. Exigency purchases may be made by the regional procuring activity, if they so desire, after coordination with the national/zonal contracting office. The national/zonal contracting office has the final responsibility in ensuring that the requirement is satisfied.

(c) When there is no central or zone purchasing assignment involved for the item(s) required and the circumstances described in paragraph (a) of this section are present, the requirement may be procured locally under public exigency procedures.

* * * * *

PART 5A–76—EXHIBITS

The table of contents for Part 5A–76 is amended to delete §§ 5A–76.112, 5A–76.113, and 5A–76.120, and to add the following new entry: 5A–76.307 Paying office addresses to be entered on purchase orders.

NOTE: Copies of the forms and exhibit added to Parts 5A–16 and 5A–76 are filed with the original document.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c); 41 CFR 5–1.101(c))

Effective date. This regulation is effective on the date shown below.

Dated: June 21, 1973.

M. S. MEEKER,
Commissioner,
Federal Supply Service.

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 18803]

PART 97—AMATEUR RADIO SERVICE

Licensing and Operation of Repeater Stations

Order. In the matter of amendment of Part 97 of the Commission's rules concerning the licensing and operation of repeater stations in the Amateur Radio Service, Docket 18803, RM–388, RM–1087, RM–1209, RM–1542, RM–1725.

1. The Commission has under consideration a "Petition for Postponement of Effective Date" filed by the American Radio Relay League (ARRL). Essentially, the ARRL requests that the date by which all existing remotely controlled stations must fully comply with the amended rules be extended from June 30 to October 30, 1973.

2. In support of its petition, the ARRL argues that the amended rules are relatively complex when compared to the rules pertaining to non-repeater applications; that they involve the use of techniques never before required of amateurs; and that the changes have raised a number of questions which were not readily and quickly answered. Regarding the latter point, the ARRL states that it was common knowledge among applicants that most applications for repeater stations filed prior to April 30, 1973, were being returned, and as a result, other potential applicants delayed the filing of their applications beyond the April 30 date so as to be able to submit a more complete and correct application that would not be returned for amendment. The end result of all this, according to the ARRL, is that full compliance by many existing repeater stations cannot be achieved by the June 30, 1973, deadline.

3. We have carefully considered the points set forth by the ARRL to justify an extension of the June 30 deadline, but we cannot agree that such an extension is justified. The rules adopted in Docket 18803 (37 FR 18540) became effective on October 17, 1972, but existing stations were allowed the necessary time to bring their operations into compliance, with all stations to be in compliance by June 30, 1973. See Memorandum Opinion and Order, FCC 72–1184, 38 FCC 2d 920. The Commission restated the requirement for full compliance by June 30, 1973, in a Public Notice issued on October 6, 1972, and in its Memorandum Opinion and Order, adopted December 20, 1972, dismissed several petitions for reconsideration. Moreover, the Public Notice stated that waivers of the June 30 date would not be granted except under the most exigent circumstances. Therefore, the Commission's intentions and policies have been affirmed and the amateur radio press has brought this information to the attention of potential applicants and licensees. For its part, the Commission's staff met with many applicants and licensees, answered numerous letters and telephone calls, and assigned ample manpower to process these applications.

4. It is important to note that the rules adopted in Docket 18803 represent the first comprehensive effort by the Commission to regulate the area of amateur repeater stations and the increasingly sophisticated remote control systems employed by amateurs. While repeater stations were licensed under the rules applicable to all amateur stations, prior to our action in this Docket, it has become apparent from the applications filed that many existing applicable requirements were not understood, nor observed. Consequently, to correct this situation the rules must apply to all stations, old and new, as soon as practicably possible. On the other hand we also note that out of about 800 systems applications received to date only approximately 300 have met the new requirements. Thus, a large number of stations will be required to cease operations if we adhere to the June 30, 1973, date. Accordingly, we feel that some additional time for compliance is warranted but that the full 120-day extension which was requested is excessive. It is anticipated that the accumulated experience to date will enable amateurs to file proper applications in an expeditious fashion and meet a new deadline date of August 30, 1973.

5. Accordingly, the Commission by the Chief, Safety and Special Radio Services Bureau, pursuant to the delegated authority in § 0.331(b)(1) of the Commission's rules orders that the date by which all existing remotely controlled stations must comply with the amended rules is extended from June 30, 1973, to August 30, 1973. *It is further ordered,* That the ARRL petition is denied to the extent that it is at variance with this order.

Adopted: June 27, 1973.

Released: June 29, 1973.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] JAMES E. BARR,
Chief, Safety and Special Radio Services Bureau.

[FR Doc.73–13825 Filed 7–6–73;8:45 am]

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[Second Revised Service Order No. 1124]

PART 1033—CAR SERVICE

Demurrage and Free Time on Freight Cars

At a session of the Interstate Commerce Commission, Division 3, held in Washington, D.C., on the 29th day of June 1973.

It appearng, that an acute shortage of boxcars, gondola cars, and covered hopper cars exists throughout the country; that certain carriers are unable to furnish adequate supplies of these types of freight cars to shippers located on their lines; that these shortages of freight cars are impeding the movement of many commodities; that many freight cars are held by shippers for excessive periods awaiting loading, unloading, or disposition instructions; that such practices immobilize large numbers of freight cars needed by shippers for the transportation of other freight; and that the existing demurrage and detention rules, regulations, and practices of the railroads are ineffective to control such use of freight cars. It is the opinion of the Commission that an emergency exists requiring immediate action to promote car service in the interest of the public and the commerce of the people. Accordingly, the Commission finds that notice and public procedure are impracticable and contrary to the public interest, and that good cause exists for making this order effective upon less than thirty day's notice.

It is ordered, That:

1033.1124 Demurrage and free time on freight cars

(a) Each common carrier by railroad subject to the Interstate Commerce Act shall observe, enforce, and obey the following rules, regulations, and practices with respect to its car service:

(1) *Application:* (i) The provisions of this order shall apply to intrastate, interstate, and foreign commerce.

(ii) This order shall apply to all freight cars which are listed in the Official Railway Equipment Register, I.C.C. R.E.R. No. 386, issued by W. J. Trezise, or successive issues thereof, as having one of the mechanical designations shown on pages 1154 and 1155 under the headings:

Class "X"—Box Car Type—All Class "X" except "XT."
Class "G"—Gondola Car Type—All Class "G" except "GW."
Class "L"—Special Car Type—"LC", "LO", "LU", only.

(iii) *Exception:* This order shall not apply to cars with inside length 69 ft. 0 in. and over.

(iv) *Exception:* This order shall not apply to cars held at, or outside of ocean, Great Lakes, or river ports, while subject to the provisions of Service Order No. 1121—Demurrage and Free Time at Ports—or revisions thereof.

(v) *Exception:* This order shall not apply to freight cars of Mexican ownership while held by or for shippers at Mexican border crossings, viz:

Brownsville, Texas
Laredo, Texas
Eagle Pass, Texas
Presidio, Texas
El Paso, Texas
Douglas, Arizona
Naco, Arizona
Nogales, Arizona
Calexico, California

(vi) *Exception:* This order shall not apply to cars subject to Freight Tariff 8–0, I.C.C. H–30, issued by B. B. Maurer, supplements thereto, or re-issues thereof, Car Demurrage Rules on Cars Used in Handling Coal or Coke Products at Coal Mines, etc.

(viii) *Exception:* The provisions of Rule 8, Items 935 of General Car Demurrage Tariff 4–J, I.C.C. H–59, issued by B. B. Maurer, supplements thereto, or re-issues thereof, or similar provisions of other applicable demurrage, detention, or storage tariffs shall govern the adjustment, cancellation, or refund of demurrage assessed as a result of the causes described in such rules.

(viii) *Exception:* Exceptions to this order may be authorized to carriers by the Railroad Service Board. Request for exceptions must be submitted in writing to R. D. Pfahler, Chairman, Railroad

V 38 I 130 JUL 9 73 XUM

Service Board, Interstate Commerce Commission, Washington, D.C. 20423. Each such request must specifically identify the type of cars for which an exemption is desired and must clearly state the reasons why such cars cannot be utilized in other services.

(ix) The terms "loading", "unloading", "constructive placement", and "forwarding directions" as defined in General Car Demurrage Tariff 4–J, I.C.C. H–59, issued by B. B. Maurer, supplements thereto, or re-issues thereof, shall apply to cars subject to this order.

(x) The term "holidays" means holidays as listed in Item 25 of General Car Demurrage Tariff 4–J, I.C.C. H–59, issued by B. B. Maurer, supplements thereto, or re-issues thereof.

(2) *Free Time:* (i) Not more than a total of 48 hours' free time, computed in accordance with the provisions of the applicable tariffs naming demurrage or detention rules and charges, shall be allowed for loading, unloading, or furnishing of forwarding or disposition instructions on cars held for orders.

(ii) If the maximum free time authorized in applicable tariffs is less than the 48-hour period described in paragraph (i) of this section, the free-time periods, if any, provided in such tariffs shall apply.

(3) *Demurrage, Detention, or Storage Charges—Cars Not Subject to Average Demurrage Basis:*

(i) After the expiration of the free-time period described in part (2) of this order, or without free-time allowance when none is provided, demurrage charges shall be assessed at the following rates, until car is released:

$10.00 per car per day, or fraction of a day, for each of the first two days
$20.00 per car per day, or fraction of a day, for each of the next two days
$30.00 per car per day, or fraction of a day, for each of the next two days
$50.00 per car per day, or fraction of a day, for each subsequent day.

(ii) Except as provided in demurrage Rule 6, section B of General Car Demurrage Tariff 4–J, I.C.C. H–59, the applicable demurrage charges provided herein will accrue on all Saturdays, Sundays, and holidays subsequent to the free time, or without free time when none is provided, including a Saturday, Sunday, or holiday immediately following the day on which the last day of free time begins, provided such last day of free time begins to run at or before 7 a.m. or expires at or before 11:59 p.m. of the day immediately prior to the Saturday, Sunday, or holiday.

(4) *Cars Subject to Average Demurrage Basis:* (i) One credit will be allowed for each car released before the expiration of the first twenty-four (24) hours of free time. After the expiration of forty-eight (48) hours free time (or the adjusted free time if provided in applicable tariffs), one debit per car per day, or fraction of a day, will be charged for each of the first two days. In no case shall more than one credit be allowed on any one car, and in no case shall more than four credits be applied in cancellation of debits accruing on any one car. When a car has accrued two debits, a charge of $20.00 per car per day, or fraction of a day, will be made for each of the next two days, or fraction of a day, and $30.00 per car, per day, or fraction of a day, for each of the next two days, and $50.00 per car per day, or fraction of a day, will be made for all subsequent detention. In computing time under this rule, all Saturdays, Sundays, and holidays will be counted after the free time, including a Saturday, Sunday, or holiday immediately following the day on which the last day of free time begins.

(ii) (*a*) Credits earned on cars held for loading shall not be used in offsetting debits accruing on cars held for unloading, nor shall credits earned on cars held for unloading be used in offsetting debits accruing on cars held for loading.

(*b*) Credits earned on cars loaded and unloaded in intraplant switching service shall not be used to offset debits accruing on cars handled in other services; nor shall credits earned on cars handled in other services be used to offset debits accruing on cars loaded and unloaded in intraplant switching service.

NOTE: The term "intraplant switching service" will be applied as defined in the applicable tariffs, and will include cars of grains, seeds, or soybeans, handled in "set-back service."

(iii) Credits cannot be earned by private cars subject to Rule 1, section B, paragraph 4(a) of General Car Demurrage Tariff 4–J, I.C.C. H–59, issued by B. B. Maurer, supplements thereto, or re-issues thereof, or subject to similar rules in other tariffs, but debits charged on such cars while under constructive placement may be offset by credits earned on other cars.

(iv) At end of the calendar month the total number of applicable credits will be deducted from the total number of debits at the ratio of two credits for one debit, and $10.00 per debit will be charged for the remainder. (See Note.) If the total number of debits are offset by credits through deduction at the above ratio of two credits for one debit, no charge will be made for the detention of the cars except as otherwise provided herein for detention beyond the second debit day, and no payment will be made by the railroad on account of such excess of credits; nor shall the credits in excess of the debits of any one month be considered in computing the average detention for another month.

NOTE: For the purpose of applying Part (iv) of this paragraph, when an odd number of credits is earned, one of such credits will be disregarded in the computation.

(v) Credits earned on cars subject to this order shall not be used in offsetting debits accruing on cars not subject to this order; nor shall debits accruing on cars subject to this order be offset by credits earned on cars not subject to this order.

(5) Existing tariff rules requiring the placement or release, as a unit, of all cars in a multiple-car shipment shall remain in effect.

(6) The demurrage, detention, or storage rates provided herein shall supersede all published storage charges expressed in cents per hundred-weight, per bushel, or other unit of measure, for all freight held in cars in excess of the free-time periods provided in paragraph (2) of this section.

(7) If the demurrage, detention, or storage rates authorized in the applicable tariffs are greater than those described herein, such higher rates shall apply.

(8) *Notices of Arrival, Constructive Placement, etc.:* (i) Existing tariff provisions defining constructive placement and establishing the requirements for the placement, the giving of arrival or constructive placement notice of freight destined for unloading or trans-shipment, shall apply.

(ii) If no such rules with respect to arrival, or regarding constructive placement are published in the applicable tariffs, the rules published in General Car Demurrage Tariff 4–J, I.C.C. H–59, issued by B. B. Maurer, supplements thereto, or re-issues thereof, shall apply.

(*b*) *Rules and regulations suspended.* The operation of all rules and regulations, including rates, rules and free-time periods granted by authority of Part 1, Section 22 of the Interstate Commerce Act, insofar as they conflict with the provisions of this order, is hereby suspended.

(c) *Notification of shipper required.* (1) Carriers shall send or deliver a written notice to shippers or consignees of the requirements of this order at or prior to the time of actual or constructive placement of cars for loading or unloading or at the time notice of arrival or of constructive placement is given. On cars held for instructions from the shipper or qualified owner of the freight, such notices must accompany or precede the arrival notice.

(ii) If a notice described in paragraph (i) of this section has been given to a shipper or receiver at origin, destination, or hold point, no further notices of the requirements of this order need be given.

(iii) Carriers are required to maintain a copy of all notices of the requirements of this order sent to shippers, receivers, or qualified owners of freight, at the station or point from which sent.

(iv) Failure of a carrier to send and preserve copies of the notices required by Part (i) of this section shall not be deemed as nullifying the requirements of Sections (2) or (3) of this order.

(d) *Effective date.* This order shall become effective at 7:00 a.m., July 1, 1973.

(e) *Expiration date.* This order shall expire at 6:59 a.m., Oct. 1, 1973, unless otherwise modified, changed, or suspended by order of this Commission.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies Secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2).

It is further ordered, That a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Division 3.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[Ex Parte No. MC–19 (Sub-No. 17)]

PART 1056—TRANSPORTATION OF HOUSEHOLD GOODS IN INTERSTATE OR FOREIGN COMMERCE

Practices of Motor Common Carriers of Household Goods; Waiver of Order for Service

Order. At a General Session of the INTERSTATE COMMERCE COMMISSION, held at its office in Washington, D.C., on the 20th day of June, 1973.

It appearing, that by order dated August 21, 1972, in the above-entitled proceeding, this Commission promulgated a regulation (49 CFR 1056.9(c)) which provided that upon written request from the shipper, the requirement for an Order for Service may be waived for shipments moving for the account of the Department of Defense on Government Bills of Lading and for shipments transported under paragraph (c)(3) of the household goods commodity description (49 CFR 1056.1(a)(3)) consisting of articles, including objects of art, displays, and exhibits, which because of their unusual nature or value, require the specialized handling and equipment usually employed in moving household goods;

It further appearing, that by petition filed March 7, 1973, the Household Goods Carriers' Bureau seeks the amendment of § 1056.9(c) of the Commission's general rules and regulations (49 CFR 1056.9(c)) so as to permit waiver of the requirement for an Order for Service on all shipments moving on a Government Bill of Lading (not limited to shipments moving for the account of the Department of Defense) when so requested in writing by the shipper; that petitioner contends that such an amendment will permit all Federal agencies (including the General Services Administration) which utilize the Government Bill of Lading to waive the requirement for an Order for Service; that petitioner states that Government Bills of Lading are issued by knowledgeable, trained personnel thoroughly instructed in the technicalities involved in ordering moving services and that nothing contained in the Order for Service is of any value to the government agency or its transportation department; and that petitioner asserts that the Order for Service in these circumstances constitutes a burden to both shipper and carrier and that practical considerations demand that any government agency wishing to take the positive step of requesting waiver of the requirement for Order of Service in writing should be permitted to exercise that prerogative;

It further appearing, That, pursuant to section 553 of the Administrative Procedure Act, notice of the said petition was published in the FEDERAL REGISTER, which notice stated that no oral hearings were contemplated; that persons desiring to participate in the proceeding were invited to file representations supporting or opposing the proposal; that individual representations were filed in support of the petition by the General Services Administration of the United States and by Allied Van Lines, Inc., a motor common carrier of household goods; and that no representations were filed in opposition to the petition;

It further appearing, that the uncontested evidence of record demonstrates that the Order for Serivce is unnecessary with respect to certain types of shipments of government shippers; that for the past 2.5 years, Orders for Service have not been issued on shipments of the Department of Defense, the largest shipper of household goods in the nation; that all government agencies utilizing Government Bills of Lading are entitled to the same advantages presently enjoyed by the Department of Defense; and that granting the relief sought should not adversely affect the positive value which the Order for Service has with respect to shipments by individual shipper-owners of household goods;

Wherefore, and good cause appearing therefor:

It is ordered, That Part 1056 of subchapter A of chapter X of title 40 of the Code of Federal Regulations be, and it is hereby, amended by modifying § 1056.9(c), so as to read as follows:

§ 1056.9 Order for service.

* * * * *

(c) *Waiver of Order for Service.* Upon written request from the shipper, the requirement for an Order for Service may be waived for shipments moving on Government Bills of Lading and for shipments transported under paragraph (c)(3) of the household goods commodity description (49 CFR 1056.1(a)(3)) consisting of articles, including objects of art, displays, and exhibits, which because of their unusual nature or value, require the specialized handling and equipment usually employed in moving household goods. (49 Stat. 546, as amended, 558, as amended, 560, as amended, 563, as amended, 565, as amended; 49 U.S.C. 304, 315, 317, 319, 320, and 323).

It is further ordered, That this order shall become effective on August 20, 1973, and shall continue in effect until further order of the Commission.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission, at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[FR Doc.73-13837 Filed 7-6-73;8:45 am]

[Ex Parte No. MC–1 (Sub-No. 4); Ex Parte No. MC–1 (Sub-No. 5)]

PART 1322—EXTENSION OF CREDIT TO SHIPPERS BY MOTOR CARRIERS

Payment of Rates and Charges of Motor Carriers Credit Regulations—Oilfield Carriers; Payment of Rates and Charges of Motor Carriers to Shippers

Order. At a general session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 11th day of June 1973.

It appearing, that on May 8, 1972, the Commission entered an order instituting a rulemaking proceeding to determine whether rules and regulations governing the extension of credit by motor common carriers to shippers (49 CFR 1322) prescribed pursuant to authority granted in section 223 of the Interstate Commerce Act, and published in the Code of Federal Regulations, were serving their purpose;

And it further appearing, that the Commission, on the date hereof, has made and filed its report herein setting forth the basis for its conclusions and findings, which report and prior reports in 2 M.C.C. 365, as modified and amended by subsequent reports and orders, including those of the entire Commission in 105 M.C.C. 460 and 326 I.C.C. 483, are hereby referred to and made a part hereof:

It is ordered, That the following section of part 1322, be, and it is hereby, revised and modified as follows:

Amend § 1322.3 to read as follows:

§ 1322.3 Period of credit following delivery of freight.

Freight bills for all transportation charges shall be presented to the shippers within 7 calendar days from the first 12 o'clock midnight following delivery of the freight except that motor common carriers of household goods and motor common carriers of oilfield equipment shall present their freight bills for all transportation charges to the shipper within 15 calendar days, excluding Saturdays, Sundays, and holidays, from the first 12 o'clock midnight following delivery of the freight.

It is further ordered, That this amendment shall become effective on August 15, 1973, and shall remain in effect until modified or revoked in whole or in part by further order of the Commission.

And it is further ordered, That notice of this order be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by filing with the Director, Office of the Federal Register (49 U.S.C. 301, 302, and 308, 5 U.S.C. 553 and 559).

By the Commission.

Proposed Rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Stabilization and Conservation Service

[7 CFR Part 725]

FLUE-CURED TOBACCO

Notice of Referendum

Notice is hereby given that on July 17, 1973, a referendum will be held at polling places of farmers engaged in the production of the 1973 flue-cured tobacco crop, pursuant to the provisions of the Agricultural Adjustment Act of 1938, as amended. In a notice (38 FR 13653), it was proposed that the referendum be held at polling places on July 17, 1973. The views and recommendations received pursuant to such notice have been considered within the limits permitted by the Act.

The purpose of the referendum is to determine whether the farmers voting favor or oppose the establishment of marketing quotas for the three marketing years beginning July 1, 1974, July 1, 1975, and July 1, 1976.

The referendum will be conducted in accordance with the provisions of the Act and the regulations governing the holding of referenda on Marketing quotas (33 FR 18345; 34 FR 12940; 36 FR 12730; 38 FR 12891) including any amendments made prior to the referendum.

Signed at Washington, D.C. on: July 3, 1973.

KENNETH E. FRICK,
Administrator, Agricultural Stabilization and Conservation Service.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Social and Rehabilitation Service

[45 CFR Part 233]

NEED AND AMOUNT OF ASSISTANCE RESOURCES LIMITATIONS

Notice of Proposed Rulemaking

Notice is hereby given that the regulations set forth in tentative form below are proposed by the Administrator, Social and Rehabilitation Service, with the approval of the Secretary of Health, Education, and Welfare. The proposed regulations establish limits on resources that may be retained or shall be considered.

For the adult categories, these limits are similar to those established by Public Law 92-603 for the new Supplemental Security Income program that will go into effect on January 1, 1974. For AFDC, there are variations based on family size and specific limitations on certain kinds of resources. The regulations would also clarify that available income and resources include those which are available to the client, e.g., through a legal interest in community property or a trust, even though he does not secure them.

Prior to the adoption of the proposed regulations, consideration will be given to any comments, suggestions, or objections thereto which are submitted in writing to the Administrator, Social and Rehabilitation Service, Department of Health, Education, and Welfare, 330 Independence Avenue S.W., Washington, D.C. 20201, on or before August 8, 1973. Comments received will be available for public inspection in Room 5121 of the Department's offices at 301 C Street SW., Washington, D.C., on Monday through Friday of each week from 8:30 a.m. to 5:00 p.m. (area code 202-963-7361).

(Section 1102, 49 Stat. 647 (42 U.S.C. 1302).)

Dated: April 23, 1973.

FRANCIS D. DEGEORGE,
Acting Administrator, Social and Rehabilitation Service.

Approved: July 2, 1973.

FRANK CARLUCCI,
Acting Secretary.

Section 233.20(a)(3)(i) and (ii) (a) through (c), part 233, chapter II, title 45 of the Code of Federal Regulations is revised to read as set forth below:

§ 233.20 Need and amount of assistance.

(a) *Requirements for State plans.* * * *

(3) *Income and resources; OAA, AFDC, AB, APTD, AABD.* (i) Specify the amount and types of real and personal property, including liquid assets, that may be reserved, i.e., retained to meet the current and future needs while assistance is received on a continuing basis, and the manner in which various types of real and personal property shall be evaluated for purposes of (*a*) establishing initial and continuing eligibility and (*b*) inclusion in such reserves and allowances as are provded for by the State plan. In addition to the home, personal effects, automobile and income producing property allowed by the agency, for applicants or recipients of OAA, AB, APTD, and AABD, the amount of real and personal property, including liquid assets, that can be reserved for each individual applicant or recipient of OAA, AB, APTD, or AABD shall not be in excess of $1500 or, in case such individual has a spouse with whom he is living, $2250. The amount which may be reserved by an AFDC family other than the reasonable value of a home as determined by the State agency, wedding and engagement rings, heirlooms, and equipment and material of reasonable value which are necessary to implement an employment, rehabilitation or self-support plan for the applicant or recipient, shall not be in excess of a market value of $2250, of which not more than $1200 shall consist of motor vehicles; the real and personal property shall be valued at their gross market value including encumbrances. Where there are more than three needy children in an eligible family an additional $100 in personal property reserves above the $2250 limit shall be permitted for each needy child in excess of three children. Policies may allow reasonable proportions of income from businesses or farms to be used to increase capital assets, so that income may be increased.

(ii) Provide that, in establishing financial eligibility and the amount of the assistance payment, after policies governing the reserves and allowances referred to in paragraph (a)(3)(i) of this section have been applied: (*a*) All income and resources, after policies governing the disregard or setting aside of income and resources have been applied, will be considered in relation to the State's standard of assistance, and will first be applied to maintenance costs; (*b*) if agency policies provide for allocation of the individual's income as necessary for the support of his dependents, such allocation shall not exceed the total amount of their needs as determined by the statewide standard; (*c*) net income available for current use and currently available resources shall be considered; income and resources are considered available both when actually available and when the applicant or recipient has a legal interest therein and has the legal ability to make them available but does not do so;

* * * * *

2. Section 233.90, chapter II, title 45 of the Code of Federal Regulations is revised to read as set forth below:

§ 233.90 Factors specific to AFDC.

(a) *State plan requirement.* A State plan under title IV-A of the Social Security Act must provide that the determination whether a child has been deprived of parental support or care by reason of the death, continued absence from the home, or physical or mental incapacity of a parent, or (if the State plan includes such cases) the unemployment of his father, will be made only in relation to the child's natural or adoptive parent, or in relation to the child's stepparent who is ceremonially married to the child's natural or adoptive parent and is legally obligated to support the child under State law of general applicability which requires stepparents to support stepchildren to the same extent that natural or adoptive parents are required to support their children. Under this requirement, the inclusion in the family, or the presence in the home, of a "substitute parent" or "man-in-the-house" or any individual other than one described in this paragraph is not an acceptable basis for a finding of ineligibility or for assuming the availability of income by the State. In establishing financial eligibility and the amount of the assistance payment, the income only of the parent described in the first sentence of this paragraph will be considered available for children in the household in the absence of proof of actual contributions.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 73-SO-25]

CONTROL ZONE AND TRANSITION AREA

Proposed Redesignation and Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would redesignate the Biloxi, Miss., control zone and alter the Gulfport, Miss., transition area.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Federal Aviation Administration, Southern Region, Air Traffic Division, P.O. Box 20636, Atlanta, Ga. 30320. All communications received on or before August 8, 1973, will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in light of comments received.

The official docket will be available for examination by interested persons at the Federal Aviation Administration, Southern Region, Room 724, 3400 Whipple Street, East Point, Ga.

The Biloxi control zone described in § 71.171 (38 FR 351) would be amended as follows:

"* * * This control zone is effective from 0600 to 2200 hours, local time, daily * * *" would be deleted.

The Gulfport transition area described in § 71.181 (38 FR 435) would be amended as follows:

"* * * within 3 miles each side of the 036° bearing from Keesler RBN, extending from the 8.5-mile radius area to 8.5 miles northeast of the RBN * * *" would be deleted.

The proposed redesignation is required to make the control zone effective 24 hours per day in lieu of 16 hours. This is required to accommodate the operation of the 53rd Weather Reconnaissance Squadron and the Fleet Aerospace Cartographic and Geodetic Squadron. The proposed alteration of the transition area is required to revoke the extension predicated on the 036° bearing from Keesler RBN which was designated to provide controlled airspace protection for IFR aircraft executing the NDB RWY 21 Instrument Approach Procedure during the time the control zone was not in effect.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in East Point, Ga., on June 27, 1973.

PHILLIP M. SWATEK,
Director, Southern Region.

[FR Doc.73-13785 Filed 7-6-73;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 73-SO-41]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Anniston, Ala., transition area.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Federal Aviation Administration, Southern Region, Air Traffic Division, P.O. Box 20636, Atlanta, Ga. 30320. All communications received on or before August 8, 1973, will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in light of comments received.

The official docket will be available for examination by interested persons at the Federal Aviation Administration, Southern Region, Room 724, 3400 Whipple Street, East Point, Ga.

The Anniston transition area described in § 71.181 (38 FR 435) would be amended as follows:

"* * * longitude 86°03'36" W) * * *" would be deleted and "* * * longitude 86°03'36" W); within 9.5 miles southeast and 4.5 miles northwest of Talladega VORTAC 233° radial, extending from the 12-mile radius area to 18.5 miles southwest of the VORTAC; within 9.5 miles south and 4.5 miles north of the Talladega VORTAC 252° radial, extending from the 12-mile radius area to 18.5 miles west of the VORTAC * * *" would be substituted therefor.

The proposed alteration is required to provide controlled airspace protection for IFR aircraft executing the revised VOR-A and VOR/DME RWY 3 Instrument Approach Procedures to Talladega Municipal Airport. The procedure turn altitude for these two approach procedures is being lowered from 3,000 to 2,700 feet MSL to comply with Terminal Instrument Procedures (TERPs) criteria.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in East Point, Ga., on June 27, 1973.

PHILLIP M. SWATEK,
Director, Southern Region.

[Docket No. 12198; Reference Notice No. 72-23]

AVIATION SECURITY: FOREIGN AIR CARRIERS

Withdrawal of Notice of Proposed Rule Making

The purpose of this notice is to withdraw Notice No. 72-23, published in the FEDERAL REGISTER September 2, 1972 (37 FR 17979), in which the FAA proposed to amend Part 129 of the Federal Aviation regulations to provide aviation security standards for foreign air carriers while operating within the United States.

Most of the comments received from interested persons in response to the notice were opposed to the proposal because it could conflict with security standards adopted by various states of aircraft registry or the International Civil Aviation Organization (ICAO). In this regard, it is noted that ICAO, by resolution of its Council on June 19,

V 38 130 JUL 9 73 XUM

1972, is currently refining "recommended standards and practices" to ensure the security of aircraft.

In light of all the comments received in response to Notice 72–23, the FAA has determined that the proposal is not appropriate and that Notice 72–23 should be withdrawn.

Withdrawal of this notice constitutes only such action and does not preclude the FAA from issuing other notices in the future or commit the FAA to any course of action in the future.

This withdrawal is issued under the authority of sections 313(a) and 601 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a) and 1421), and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, the notice of proposed rule making published in the FEDERAL REGISTER September 2, 1972 (37 FR 17979), and circulated as Notice No. 72–23 entitled "Aviation Security: Foreign Air Carriers" is hereby withdrawn.

Issued in Washington, D.C., on June 29, 1973.

JAMES T. MURPHY,
Director, Office of Air Transportation Security.

[Docket No. 19528]

MTS AND WATS SERVICES

Proposed New or Revised Classes; Order Extending Time

In the matter of proposals for new or revised classes of Interstate and Foreign Message Toll Telephone Service (MTS) and Wide Area Telephone Service (WATS), Docket No. 19528.

1. We have before us a Motion for Extension of Time in this proceeding filed by the Association of American Railroads (AAR) which requests that the time for filing of comments and reply comments herein be extended for ninety days, respectively. In support of its motion AAR states: (1) That there is a considerable volume of material to be reviewed in order to prepare meaningful comments, (2) that not all of the advisory committee reports have yet been released and that if past experience is a guide, may not become readily available for a significant time after their release date, (3) that petitions regarding possible consolidation with Docket 19691 remained pending until June 13, 1973, and that (4) in order to provide comments and proposals in the same detail as the proposals of the PBX Committee and the Office of the Chief Engineer, extensive preparation, discussion and internal review within AAR will be required.

2. Although we have previously granted a thirty day extension upon the request of the Ad Hoc Telecommunications Committee (38 FR 13663, May 24, 1973), it appears that AAR has shown good cause for further extension of time. However, considering that the First Supplemental Notice herein was released April 3, 1973 (40 FCC 2d 315), and the previous extension, the full ninety days requested do not appear warranted. *Therefore, it is ordered,* That, pursuant to authority delegated by § 0.303(c) of the Commission's rules, the time for filing of comments in this proceeding is extended until September 17, 1973 and the time for filing of reply comments to November 16, 1973.

Adopted: June 29, 1973.

Released: July 2, 1973.

[SEAL] BERNARD STRASSBURG,
Chief, Common Carrier Bureau.

[Docket No. 19741]

SCHEDULES FOR NEW OR REVISED CLASSIFICATIONS OF SERVICE

Proposed Requirements; Order Extending Time for Filing Comments

In the matter of amendment of Part 61 of the Commission's rules relative to Notice requirements for schedules for new or revised classifications of service, Docket No. 19741.

1. We have before us a telegraphic request for extension of time in this proceeding filed by ITT World Communications, Inc. (ITT World Com). The request is that the time for filing comments pursuant to the notice of proposed rule making in the above-captioned proceeding released May 21, 1973, FCC 73–513, (38 FR 13657), 40 FCC 2d 1099 (1973) be extended two weeks. In support of its request ITT World Com cites press of other matters rendering it impossible to prepare the requisite comments by June 28, 1973.

2. Therefore, good cause having been shown: *It is ordered,* That pursuant to the authority delegated by § 0.303(c) of the Commission's rules, the time for filing of comments in this proceeding is extended until July 12, 1973 and the time for filing reply comments is extended until July 23, 1973.

Adopted: June 28, 1973.

Released: June 29, 1973.

[SEAL] BERNARD STRASSBURG,
Chief, Common Carrier Bureau.

[FR Doc.73–13824 Filed 7–6–73;8:45 am]

[47 CFR Part 73]

[Docket No. 19727]

FM BROADCAST STATIONS IN NEW BERN AND MOREHEAD CITY, BEAUFORT, N.C.

Order Extending Time for Filing Reply Comments

In the matter of amendment of § 73.202(b), *Table of assignments,* FM Broadcast Stations. (New Bern and Morehead City-Beaufort, North Carolina), Docket No. 19727, RM–1981.

1. On April 25, 1973, the Commission adopted a notice of proposed rule making in the above-captioned proceeding. Publication was given in the FEDERAL REGISTER on May 3, 1973, 38 F.R. 10968. By subsequent Order, the dates for comments and reply comments were specified as June 20 and June 29, 1973, respectively.

2. On June 26, 1973 (38 FR 14970) counsel for New Bern Broadcasting, Inc., petitioner in this proceeding, filed a request for an extension of time in which to file reply comments to and including July 31, 1973. Counsel states that the requested extension is necessary due to the press of preexisting commitments which require counsel to be out of town and the significant amount of legal and engineering preparation necessary to respond to the comments filed herein. Counsel further states that the other parties to this proceeding have stated no objection to this extension.

3. It appears that the requested extension is warranted. *Accordingly, it is ordered,* that the date for filing reply comments is extended to and including July 31, 1973.

4. This action is taken pursuant to authority found in sections 4(i), 5(d)(1), and 303(r) of the Communications Act of 1934, as amended, and § 0.281(d)(8) of the Commission's rules.

Adopted: June 29, 1973.

Released: July 2, 1973.

[SEAL] HAROLD L. KASSENS,
Acting Chief, Broadcast Bureau.

[FR Doc.73–13826 Filed 7–6–73;8:45 am]

[47 CFR Part 83]

[Docket No. 19776; FCC 73–687]

IDENTIFICATION OF STATIONS

Notice of Proposed Rule Making

In the matter of amendment of §§ 83.326(a) and 83.364(a)(3) to allow ships and survival craft engaged in public correspondence to defer the 15-minute identification requirement until the end of a message or the end of a telephone conversation, Docket No. 19776.

1. Notice is hereby given of a proposed rule making in the above-captioned matter.

2. Sections 83.326(a) and 83.364(a)(3) require operators of ship and survival craft telegraphy and telephony stations to identify by call sign at intervals not exceeding 15 minutes whenever transmission is sustained for a period exceeding 15 minutes.

3. A review of violation notices issued for violation of these two sections shows that practically all of these involve stations handling public correspondence with public coast stations. The violations occurred because the operator failed to interrupt the transmission of a message or a telephone conversation at the 15-minute interval to identify by call sign.

4. We believe that the rules should be amended to allow operation of ship stations engaged in public correspondence to defer station identification until the end of an exchange of communications when the transmission of station identification would interrupt a telephone conversation or a message.

5. The proposed amendments, as set forth below, are issued pursuant to the authority contained in section 4(i) and sections 303(e), (f) and (r) of the Communications Act of 1934, as amended.

6. Pursuant to the applicable procedures set forth in § 1.415 of the Commission's rules, interested persons may file comments on or before August 13, 1973, and reply comments on or before August 22, 1973. All relevant and timely comments will be considered by the Commission before final action is taken in this proceeding. In reaching its decision in this proceeding, the Commission may also take into consideration other relevant information before it, in addition to the specific comments invited by this notice.

7. In accordance with the provisions set forth in Section 1.419 of the Commission's rules, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission. Responses will be available for public inspection during regular business hours in the Commission's Broadcast and Docket Reference Room at its Headquarters in Washington, D.C.

Adopted: June 27, 1973.

Released: July 2, 1973.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

Part 83 of Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

1. Section 83.326(a) is amended to read as follows:

§ 83.326 Identification of stations.

(a) All radiotelegraph emissions of a ship station or a survival craft station shall be clearly identified by transmission therefrom of the official call letters assigned to that station for telegraphy by the Commission. These call letters shall be transmitted by telegraphy in accordance with § 83.325 and the procedure set forth in the International Radio Regulations and by means of the class of emission normally used by the station for telegraphy: Provided, That they shall be transmitted at intervals not exceeding 15 minutes whenever transmission is sustained for a period exceeding 15 minutes, except when such station is engaged in transmitting public correspondence communications the identification may be deferred until completion of each communication with any other station.

* * * * * *

2. Section 83.364(a)(3) is amended to read as follows:

§ 83.364 Identification of station.

(a) * * *

(3) At intervals not exceeding 15 minutes whenever transmission is sustained for a period exceeding 15 minutes, except when a station is engaged in transmitting public correspondence communications in which case the identification may be deferred until completion of each communication with any other station.

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 1106]

[Ex Parte No. 296]

PROCEDURES FOR PARTIAL RECOUPMENT OF INCREASED CARRIER LABOR COSTS

Proposed Rulemaking and Order

At a genreal session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 15th day of June, 1973.

Our procedures for handling general rate increase proposals have been under constant review and revision through the years in an effort to balance the interest of the carriers, shippers, and the public generally. By order served August 17, 1970, we established revised procedures governing rail general rate increase proceedings to "make possible prompt disposition of such cases, reduce the volume of submitted material and the cost of participation by carriers, shippers, and other interested parties, and aid in the elimination of uncertainty among users of the service as to future transportation costs." We required that railroads seeking increases in rates or charges on a national or territorial basis should file, concurrently with the tariff schedules containing such rates or charges, or petitions seeking authority to file the schedules, verified statements presenting and comprising the entire evidential case relied on in support of the proposal. In addition, the carriers were required to serve on each party of record in the last prior general rate increase proceeding, a copy of their evidence. The proceeding in which the most recent general increase was authorized, Ex Parte No. 281, *Increased Freight Rates and Charges, 1972,* 341 I.C.C. 290, was governed by that order. The report therein discussed the evidentiary deficiency of the record with respect to individual commodities, and under the heading "Future evidential requirements," we stated:

> Looking beyond the exigencies of this proceeding, respondents are advised and forewarned that our acceptance of annualized costs and other data of a type submitted in this and in prior general revenue proceedings is not an irrevocable commitment; and that, in the future, we will require a much more variable data base to support an application for revenue relief. To this end, we intend promptly to institute a rulemaking proceeding looking toward prescription of minimum evidentiary requirements in railroad general increase cases to supplement the regulations in 49 CFR 1102. We realize, however, that the process leading to a ultimate determination of such requirements will consume considerable time, based on our experience in Ex Parte No. MC–82, *New Procedures in Motor Carrier Rev. Proc.,* 339 I.C.C. 324, and 340 I.C.C. 1.

Accordingly, as an interim measure, we have determined to indicate the evidentiary showing which should be made in any rail revenue proceeding which might be instituted prior to the promulgation of specific procedures. Provisions relevant to such an evidentiary showing are set forth in appendix B and will be referred to as "interim procedures." They include the provisions regarding application, service, and verification previously promulgated in our procedural order of August 13, 1970, *supra.* We wish to make it clear, however, that respondents are not precluded from submitting additional evidence to support their proposals.

Shortly thereafter, by notice of proposed rulemaking and order entered on December 1, 1972, in Ex Parte No. 290, Procedures Governing Rail Carrier General Increase Proceedings, we proposed the detailed rules set forth in the appendix thereto. That notice and order was served on all railroads and on each party to the proceeding in Ex Parte No. 281, and it was published in the FEDERAL REGISTER as general public notice. Verified initial statements of facts and argument were due on or before May 28 and reply statements are due on or before June 29, 1973. While we have expedited all general revenue proceedings consistent with affording all parties equal opportunity to participate, it is believed that the proposed procedures, or those ultimately adopted, will shorten the time necessary to dispose of such proceedings, will achieve greater uniformity and reliability in the data submitted, and will provide adequate notice to the carriers and the public of the minimum evidence deemed necessary to render a decision in furtherance of the public interest.

Among the responses received to our order instituting the pending proceeding in Ex Parte No. 270, Investigation of Railroad Freight Rate Structure, were those of the eastern railroads suggesting for consideration the question of "whether expedited procedures can be devised to permit prompt adjustment in rates to offset increased costs." The western and southern railroads expressed similar interest in the development of more expeditious rate procedures. As previously indicated, we have revised procedures from time to time, always with the view of balancing the interests of all concerned in the performance and use of transportation services.

Labor costs represent a relatively high proportion of total operating revenues in the transportation industry. In recognition of the fact that the payment of higher negotiated labor costs cannot be immediately offset by increasing rates and charges, and that carriers could be financially disadvantaged and their service to the public adversely affected in the time required for normal disposition of revenue proceedings, we propose to institute this rulemaking proceeding for the purpose of enunciating a procedure for partial recoupment of increased labor costs where an urgent need exists therefor under sections 15a(2), 216(f), 307(f), and 406(d) considered in conjunction with the national transportation policy "to promote safe, adequate, economical, and efficient service and foster sound economic conditions in transportation * * *—all to the end of developing, coordinating, and preserving a national transportation system."

The proposed procedure with respect to each regulated mode follows:

It is proposed that a new part 1106 be added as follows:

V 38 130 JUL 9 73 XUM

PART 1106—PROCEDURE FOR PARTIAL RECOUPMENT OF INCREASED CARRIER LABOR COSTS

Sec.
1106.1 Application.
1106.2 Notice.

AUTHORITY: Sec. 15a(2), 216(i), 307(f) and 406(d) of Interstate Commerce Commission Act.

§ 1106.1 Application.

Where the total negotiated labor costs of the carriers, on a national or regional basis or by carrier members of major tariff publishing agencies, have increased 5 percent or more within any calendar year, and (1) where the total actual labor costs of the carriers for the calendar year immediately preceding the effective date of the increased negotiated labor costs, equal or exceed:[1] (a) 50 percent of operating revenues for the corresponding period in the case of railroads, (b) 50 percent of operating revenues for the corresponding period in the case of motor carriers, (c) 20 percent of operating revenues for the corresponding period in the case of Class A water carriers, (d) 15 percent of operating revenues for the corresponding period in the case of coastwise and intercoastal maritime carriers, and, (e) 20 percent of operating revenues for the corresponding period in the case of freight forwarders; and (2) where the average rate of return on shareholders' equity of the carriers (ratio of ordinary income to total of capital stock and surplus accounts, average of beginning and end of the calendar year immediately preceding the effective date of the negotiated increased labor costs) is less than[2] (a) 3 percent in the eastern district; 6 percent in the southern district; 5 percent in the western district; or 3 percent nationwide; in the case of railroads; (b) 16 percent in the case of motor carriers; (c) 10 percent in the case of Class A water carriers; (d) 2 percent in the case of coastwise and intercoastal maritime carriers; and (e) 18 percent in the case of freight forwarders; the Commission will consider such showing, upon verification, as establishing an urgent need of the carriers to recoup such negotiated labor costs in part and as establishing a prima facie case for granting the carriers authority to increase their rates and charges by amounts necessary to obtain revenues which would recoup 50 percent of the increased negotiated labor costs, but in no case to exceed an increase of 2.5 percent in their rates and charges, giving appropriate recognition to the extent practicable to the increased labor costs on various traffic, subject to conditions, such as those necessary to protect port and commodity relationships, as the Commission may deem appropriate.

[1] The relationships of labor costs to operating revenues were those experienced by the respective modes in 1971, expressed in the nearest round figure.

[2] These represent the approximate average rates of return experienced by the respective modes in 1971, except that those for the railroads were in 1972.

§ 1106.2 Notice.

The detailed information called for herein shall be in writing and shall be verified by a person or persons having knowledge thereof. The original and 16 copies of each verified statement for the use of the Commission shall be filed with the Secretary, Interstate Commerce Commission, Washington, D.C. 20423. One copy of each statement shall be sent by first-class mail to each of the Regional Offices of the Commission in the area affected by the proposed increase, where it will be open to public inspection. A notice of the filing of a request for such relief, and a summary statement of the justification therefor, shall be served upon each party of record in the last formal proceeding concerning a general rate increase, and that fact shall be evidenced by a certificate of service filed with the request for relief.

Accordingly, *It is ordered*, That a proceeding be, and it is hereby, instituted with the objective of promulgating the special procedure set forth above, but that any procedures ultimately promulgated will be consistent with wage and price regulations then in effect.

It is further ordered, That all carriers by rail, motor, and water, and freight forwarders subject to the jurisdiction of this Commission be, and they are hereby, made respondents in this proceeding.

It is further ordered, That no oral hearing be scheduled for the receiving of testimony unless a need therefor should later appear, but that respondents or any other interested parties may participate in this proceeding by submitting for consideration written statements of verified facts, views, and arguments regarding the proposed procedures, including whether or not the proposed procedure is a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969.

It is further ordered, That any person interested in this proceeding shall notify this Commission, by filing with the Interstate Commerce Commission, Office of Proceedings, Room 5354, Washington, D.C. 20423, on or before August 3, 1973, the original and one copy of a statement of his interest. Inasmuch as the Commission desires wherever possible (a) to conserve time, (b) to avoid unnecessary expense to the public, and (c) the service of pleadings by parties in proceedings of this type only upon those who intend to take an active part in the proceeding, the statement of intention to participate shall include a detailed specification of the extent of such person's interest, including (1) whether such interest extends merely to receiving Commission releases in this proceeding, (2) whether he genuinely wishes to participate by receiving or filing initial and/or reply statements, (3) if he so desires to participate as described in (2), whether he will consolidate or is capable of consolidating his interests with those of other interested parties by filing joint statements in order to limit the number of copies of pleadings that need be served, such consolidation of interests being strongly urged by the Commission, and (4) any other pertinent information which will aid in limiting the service list to be used in this proceeding; that this Commission shall then prepare and make available to all such persons a list containing the names and addresses of all parties desiring to participate in this proceeding and upon whom copies of all statements must be filed; and that at the time of service of this service list the Commission will fix the time within which initial statements and replies must be filed.

And it is further ordered, That a copy of this notice and order be served on each respondent and on each party to the proceeding in Ex Parte No. 281 *supra*, that a copy be deposited in the office of the Secretary, Interstate Commerce Commission, Washington, D.C., for public inspection, and that statutory notice of the institution of this proceeding be given to the general public by delivering a copy thereof to the Director, Office of the Federal Register, for publication therein.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

Redesignation

Correction

In FR Doc 73-9916 appearing on page 13037 of the issue for Friday, May 18, 1973, in the second line of the paragraph numbered "1", "U.S. Customs Service" should read "United States Customs Service".

DEPARTMENT OF THE INTERIOR

Office of Hearings and Appeals

[Docket No. M73-63]

USIBELLI COAL MINE, INC.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301 (c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. 861(c) (1970), Usibelli Coal Mine, Incorporated, has filed a petition to modify the application of 30 CFR 77.1605(k) to its Usibelli Mine.

30 CFR 77.1605(k) reads as follows:

(k) Berms or guards shall be provided on the outer bank of elevated roadways.

Petitioner states that its mine is located in the foothills of the Alaska Range, an area which is noted for strong winds and snow and that it believes that guardrails and berms are not feasible in these climatic conditions. Petitioner contends that the majority of the road system is perpendicular to prevailing winds and that its experience shows that obstructions along the road cause drifting of snow and the formation of ice on the road's surface, thereby creating serious hazards to driving.

As an alternative method, petitioner intends to use the currently existing roads and methods of road maintenance. Petitioner states that roadside obstructions also can be detrimental to road maintenance.

Petitioner avers that the implementation of the mandatory safety standard would result in a diminution of safety to the miners in the affected area because it would create hazardous driving conditions and prevent road maintenance. Petitioner contends that the Department of Highways of the State of Alaska concurs with petitioner's position concerning the construction of berms or guardrails.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before August 8, 1973. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 6432 Federal Building, Salt Lake City, Utah 84111. Copies of the petition are available for inspection at that address.

GILBERT O. LOCKWOOD, *Acting Director, Office of Hearings and Appeals.*

Forest Service

COMMUNICATION SITES ON TONGASS AND CHUGACH NATIONAL FORESTS

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for Communication Sites on the Tongass and Chugach National Forests, Forest Service Report Number USDA-FS-DES (Adm) 73-74.

The environmental statement concerns a proposed action to construct communication facilities at twenty-two (22) locations on the Tongass and Chugach National Forests in Alaska. The facilities will serve seven communication modes with the majority of sites serving two or more systems.

This draft environmental statement was filed with CEQ on June 12, 1973.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service
South Agriculture Bldg., Room 3230
12th St. & Independence Ave., SW
Washington, D.C. 20250

V 38-130
JUL 9 73
XUM

USDA, Forest Service
P.O. Box 1628
Juneau, Alaska 99801

and also at Forest Service offices in Alaska at the following locations: Juneau, Sitka, Petersburg, Ketchikan, Yakutat, Anchorage, Cordova, and Kenai.

A limited number of single copies are available upon request to Regional Forester, U.S. Forest Service, Box 1628, Juneau, Alaska 99801.

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151. Please refer to the name and number of the environmental statement above when ordering.

Copies of the environmental statement have been sent to various Federal, State and local agencies as outlined in the Council on Environmental Quality Guidelines.

Comments are invited from the public and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Regional Forester, U.S. Forest Service, Box 1628, Juneau, Alaska 99801. Comments must be received by July 15, 1973 in order to be considered in the preparation of the final environmental statement.

PHILIP L. THORNTON,
Deputy Chief, Forest Service.

Office of the Secretary

ADMINISTRATOR, HEALTH RESOURCES ADMINISTRATION

Delegation of Authority

I hereby revoke the delegations previously made by me to the Administrator, Health Services and Mental Health Administration and the Director, National Institutes of Health, insofar as such delegations pertain to the functions assigned to the Health Resources Administration in the Reorganization Order effective July 1, 1973.

I hereby delegate to the Administrator, Health Resources Administration, all authority delegated to me by the Secretary of Health, Education, and Welfare which pertains to the functions assigned to the Health Resources Administration by the Reorganization Order effective July 1, 1973.

These authorities may be redelegated.

Pending issuances of redelegations, all delegations or redelegations to any other officer or employee of any office, bureau, division, center or other organizational unit which were in effect immediately prior to July 1, 1973, shall continue in effect in them or their successors.

This delegation becomes effective July 1, 1973.

Dated June 18, 1973.

CHARLES C. EDWARDS,
Assistant Secretary for Health.

[FR Doc.73-13792 Filed 7-6-73;8:45 am]

ADMINISTRATOR, HEALTH RESOURCES ADMINISTRATION

Delegation of Authority

I hereby delegate to the Commissioner of Food and Drugs and the Director, National Institutes of Health all those administrative management and financial management authorities previously delegated to them by the Assistant Secretary for Administration and Management and the Assistant Secretary Comptroller and which pertain to those functions assigned to their respective organizations by the Reorganization Order effective July 1, 1973.

I hereby delegate to the Administrator, Health Resources Administration, the Administrator, Health Services Administration, and the Director, Center for Disease Control the authority to exercise for their respective agencies all those administrative management and financial management authorities pertaining to those functions assigned to their respective organizations by the Reorganization Order effective July 1, 1973, which were formerly specifically delegated to the Administrator, Health Services and Mental Health Administration and the Director, National Institutes of Health.

Pending issuance of redelegations, all delegations or redelegations to any officer or employee of any office, bureau, division, center, or other organizational unit which were in effect immediately prior to July 1, 1973, shall continue in effect in them or their successors.

This delegation becomes effective July 1, 1973.

Dated July 2, 1973.

CHARLES C. EDWARDS,
Assistant Secretary for Health.

[FR Doc.73-13799 Filed 7-6-73;8:45 am]

ADMINISTRATOR, HEALTH SERVICES ADMINISTRATION

Delegation of Authority

I hereby revoke the delegations previously made by me to the Administrator, Health Services and Mental Health Administration, insofar as such delegations pertain to the functions assigned to the Health Services Administration in the Reorganization Order effective July 1, 1973.

I hereby delegate to the Administrator, Health Services Administration, all authority delegated to me by the Secretary of Health, Education, and Welfare which pertains to the functions assigned to the Health Services Administration by the Reorganization Order effective July 1, 1973.

These authorities may be redelegated.

Pending issuances of redelegations, all delegations or redelegations to any other officer or employee of any office, bureau, division, center or other organizational unit which were in effect immediately prior to July 1, 1973, shall continue in effect in them or their successors.

This delegation becomes effective July 1, 1973.

Dated June 18, 1973.

CHARLES C. EDWARD,
Assistant Secretary for Health.

[FR Doc.73-13791 Filed 7-6-73;8:45 am]

ASSISTANT SECRETARY FOR HEALTH

Delegation of Authority

I hereby revoke the current delegations of those Administrative Management authorities previously made by me to the Administrator, Health Services and Mental Health Administration, the Director, National Institutes of Health and the Commissioner of Food and Drugs.

I hereby delegate to the Assistant Secretary for Health all the aforementioned administrative management authorities previously delegated to the Administrator, HSMHA, the Director, NIH, and the Commissioner of Food and Drugs within the Public Health Service, Department of Health, Education, and Welfare.

These authorities may be redelegated within the restrictions specified within pertinent DHEW manual instructions or other issuances.

Pending issuance of redelegations by the Assistant Secretary for Health, all delegations or redelegations to any other officer or employee of any office, bureau, division, center or other organizational unit which were in effect immediately prior to July 1, 1973, shall continue in them or their successors.

This delegation becomes effective July 1, 1973.

Dated June 29, 1973.

ROBERT H. MARIK,
Assistant Secretary for Administration and Management.

ASSISTANT SECRETARY FOR HEALTH

Delegation of Authority

I hereby revoke the delegations previously made by me to the Administrator, Health Services and Mental Health Administration, insofar as such delegations pertain to the functions assigned to the Center for Disease Control in the Reorganization Order effective July 1, 1973.

I hereby delegate to the Director, Center for Disease Control, all authority delegated to me by the Secretary of Health, Education, and Welfare which pertains to the functions assigned to the Center for Disease Control by the Reorganization Order effective July 1, 1973.

These authorities may be redelegated.

Pending issuances of redelegations, all delegations or redelegations to any other officer or employee of any office, bureau, division, center or other organizational unit which were in effect immediately prior to July 1, 1973, shall continue in effect in them or their successors.

This delegation becomes effective July 1, 1973.

Dated June 18, 1973.

CHARLES C. EDWARD,
Assistant Secretary for Health.

[FR Doc.73-13790 Filed 6-7-73;8:45 am]

PUBLIC HEALTH SERVICE

Reorganization Order

Under the authority of section 6 of Reorganization Plan No. 1 of 1953 and section 2 of reorganization Plan No. 3 of 1966, and pursuant to the authorities vested in me as Secretary of Health, Education, and Welfare, I hereby order the reorganization of the Public Health Service which shall consist of five health agencies as hereinafter provided. The Health Services and Mental Health Administration is hereby abolished. Its functions shall be performed by three separate health agencies which are hereby established: the Center for Disease Control, the Health Resources Administration, and the Health Services Administration. There are hereby transferred: To the National Institutes of Health, the National Institute of Mental Health, formerly a part of HSMHA; to the new Health Resources Administration the Bureau of Health Manpower Education formerly a part of the National Institutes of Health; to the Center for Disease Control the National Institute for Occupational Safety and Health, formerly a part of HSMHA. The lead-based paint poisoning and rat control functions formerly in the Bureau of Community Environmental Management, HSMHA will be performed by the Center for Disease Control.

SECTION 1. *Organization.* The Public Health Service shall consist of the Office of the Assistant Secretary for Health and the following health agencies:

(1) Center for Disease Control;
(2) Food and Drug Administration;
(3) Health Resources Administration;
(4) Health Services Administration;
(5) National Institutes of Health.

The restructured Public Health Service shall be under the direction and control of the Assistant Secretary for Health, who shall also serve as the principal Health Officer of the Department, and within the Office of the Secretary serves as principal advisor to the Secretary on all health matters.

FUNCTIONS AND RESPONSIBILITIES

Office of the Assistant Secretary for Health. The Assistant Secretary for Health shall be responsible for the direction and control of the functions herein assigned to the restructured Public Health Service. The Assistant Secretary for Health is also responsible for providing leadership and guidance for health-related activities throughout the Department and for maintaining relationships with other governmental and private agencies concerned with health.

Center for Disease Control. The Center for Disease Control shall be responsible for all of the functions presently assigned to it and to the National Institute for Occupational Safety and Health, as well as the functions for the prevention of lead-based paint poisoning, the rat control programs, and the Arctic Health Services Research Centers assigned to the former Bureau of Community Environmental Management.

The Center for Disease Control shall be headed by a Director who reports to the Assistant Secretary for Health. The Center for Disease Control shall carry out its responsibilities through the following Office of the Director and the newly established bureau-level organizations which shall perform those functions formerly carried out by those organizational units listed thereunder:

Office of Director
National Institute for Occupational Safety and Health
(All of the presently assigned functions)
Bureau of Epidemiology
Epidemiology Program
Bureau of Laboratories
Laboratory Division
Bureau of State Services
State and Community Services Division
Bureau of Community Environmental Management (only lead-based paint poisoning, rat control, and the Arctic Health Services Research Center functions)
Smallpox Eradication Program
(All of the presently assigned functions)
Training Program
(All of the presently assigned functions)
Tropical Disease Program
Malaria Program
National Clearinghouse for Smoking and Health
(All of the presently assigned functions)
Ecological Investigations Program
(All of the presently assigned functions)

Food and Drug Administration. The Food and Drug Administration shall be responsible for all of the functions presently assigned to the Food and Drug Administration. The Food and Drug Administration shall continue to be headed by a Commissioner who reports to the Assistant Secretary for Health.

Health Resources Administration. The Health Resources Administration shall be responsible for a monitoring, intelligence, assessment function on health status and the performance of the health delivery system; health services research and evaluation; development and testing of health delivery innovations; and development, testing and dissemination of methods for measuring and assuring the quality of health care; supporting recruitment and training of professional and non-professional personnel. Consistent with these functions, the Health Resources Administration will be a primary source of technical and professional assistance to the Assistant Secretary for Health and to the Department of Health, Education, and Welfare in policy analysis and policy research.

The Health Resources Administration shall be headed by an Administrator, who reports to the Assistant Secretary for Health. The Health Resources Administration shall carry out its responsibilities

These authorities may be redelegated within the restrictions specified within pertinent DHEW manual instructions or other issuances.

Pending issuance of redelegations by the Assistant Secretary for Health, all delegations or redelegation to any other officer or employee of any office, bureau, division, center or other organizational unit which were in effect immediately prior to July 1, 1973, shall continue in effect in them or their successors.

This delegation becomes effective July 1, 1973.

JAMES B. CARDWELL,
Assistant Secretary, Comptroller.

Dated June 27, 1973.

[FR Doc.73-13793 Filed 7-6-73;8:45 am]

DIRECTOR, CENTER FOR DISEASE CONTROL

Delegation of Authority

I hereby revoke the delegations previously made by me to the Administrator, Health Services and Mental Health Administration, insofar as such delegations pertain to the functions assigned to the Center for Disease Control in the Reorganization Order effective July 1, 1973.

I hereby delegate to the Director, Center for Disease Control, all authority delegated to me by the Secretary of Health, Education, and Welfare which pertains to the functions assigned to the Center for Disease Control by the Reorganization Order effective July 1, 1973.

These authorities may be redelegated.

Pending issuances of redelegations, all delegations or redelegations to any other officer or employee of any office, bureau, division, center or other organizational unit which were in effect immediately prior to July 1, 1973, shall continue in effect in them or their successors.

This delegation becomes effective July 1, 1973.

Dated June 18, 1973.

CHARLES C. EDWARD,
Assistant Secretary for Health.

[FR Doc.73-13789 Filed 7-6-73;8:45 am]

DIRECTOR, NATIONAL INSTITUTES OF HEALTH

Delegation of Authority

I hereby revoke the delegations previously made by me to the Administrator, Health Services and Mental Health Administration, insofar as such delegations pertain to the functions assigned to the National Institutes of Health in the Reorganization Order effective July 1, 1973.

I hereby delegate to the Director, National Institutes of Health, all authority delegated to me by the Secretary of Health, Education, and Welfare which pertains to the functions assigned to the National Institutes of Health by the Reorganization Order effective July 1, 1973.

These authorities may be redelegated.

Pending issuances of redelegations, all delegations or redelegations to any other officer or employee of any office, bureau, division, center or other organizational

V 38 I 130
JUL 9 73
XUM

through the following Office of the Administrator and the newly established bureau-level organizations which shall perform those functions formerly carried out by those organizational units listed thereunder:

Office of the Administrator
National Center for Health Statistics
National Center for Health Statistics
Bureau of Health Services Research and Evaluation
National Center for Health Services Research and Development
Regional Medical Programs Service
Bureau of Health Resources Development
Bureau of Health Manpower Education
Comprehensive Health Planning Service
Health Care Facilities Service
Office of Long-Term Care Services

Health Services Administration. The Health Services Administration shall be responsible for providing and financing the delivery of health services through grants, contracts, and direct delivery; for integrating service delivery programs with public and private health financing programs; for administering State formula grant-supported health service programs; and for assuring quality and containing costs of services provided through the public financing programs.

The Health Services Administration shall be headed by an Administrator, who reports to the Assistant Secretary for Health. The Health Services Administration shall carry out its responsibilities through the Office of the Administrator and the following newly established bureaus and services which shall perform those functions formerly carried out by those organizational units listed thereunder:

Office of the Administrator
Indian Health Service
(All of the presently assigned functions)
Federal Health Programs Service
(All of the presently assigned functions)
Bureau of Community Health Services
National Center for Family Planning Service
Maternal and Child Health Service
Community Health Service (except for the Office of Long-Term Care Services and the Division of Medical Care Standards)
National Health Service Corps
Health Maintenance Organization Service
Bureau of Quality Assurance
Division of Medical Care Standards

National Institutes of Health. The National Institutes of Health shall be responsible for all of the functions previously assigned to the National Institute of Mental Health as well as the functions presently assigned to the National Institutes of Health, including the National Library of Medicine, but excluding those functions previously assigned to the Bureau of Health Manpower Education.

The National Institutes of Health shall continue to be headed by a Director, who reports to the Assistant Secretary for Health.

SEC. 2. *Continuation of regulations.* Except as inconsistent with this Reorganization Order, all regulations, rules, orders, statements of policy, or interpretations with respect to the Public Health Service heretofore issued and in effect prior to the date of this Reorganization Order or to become effective subsequent to said date, are continued in full force and effect.

SEC. 3. *Prior statements of organization, functions, and delegations of authority.* To the extent inconsistent with this Reorganization Order all previous statements of organization, functions, and delegations of authority, as well as applicable present chapters of the Department's Organization Manual, are hereby superseded by this Reorganization Order, except that, pending further redelegations, respectively, by the Assistant Secretary for Health, the Assistant Secretary for Administration and Management, and the Assistant Secretary, Comptroller, all delegations to the Administrator of the former Health Services and Mental Health Administration are vested, for their respective organizational components, in the Director, Center for Disease Control; the Administrator, Health Resources Administration; the Administrator, Health Services Administration; and the Director, National Institutes of Health, with authority to redelegate, consistent with this Reorganization Order and the provisions of the respective delegation. All redelegations made by the Administrator of the former Health Services and Mental Health Administration or the Director, National Institutes of Health, to any other officer or employee of any office, institute, bureau, division, center, regional office, or other organizational unit in effect immediately prior to the effective date of this Reorganization Order shall continue in effect in them or their successors pending further redelegation.

SEC. 4. *Redelegations of authority.* The authorities delegated, respectively, to the Assistant Secretary for Health, the Assistant Secretary for Administration and Management, and the Assistant Secretary, Comptroller, may be redelegated as deemed appropriate. Such redelegations may be successively redelegated, except as any delegation may be explicitly limited.

SEC. 5. *Funds, personnel, and equipment.* Transfer of organizations and functions effected by this Reorganization Order shall be accompanied in each instance by direct and supporting funds, positions, personnel, records, equipment, supplies, and other resources.

Effective date. This reorganization Order shall be effective July 1, 1973.

FRANK CARLUCCI,
Acting Secretary.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for Housing Production and Mortgage Credit

[Docket No. N-73-180]

RELOCATION COSTS FOR LEASED HOUSING PROJECTS

Notice of Unavailability of Funds

The purpose of this notice is to make it clear that, subject to the detailed provisions set forth below, no local housing authority (LHA) is authorized to enter into any leasing arrangement as part of a HUD assisted leased housing project under the United States Housing Act of 1937, unless the dwelling units are vacant or unless the owner voluntarily undertakes liability for any relocation costs and provides assurance of funding for such purpose.

There is no available source of HUD funds which can be programmed for leased housing projects assisted under the United States Housing Act of 1937 for the payment of relocation costs, including costs of relocation assistance and payments, under the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970. It is therefore a matter of urgency that this notice be issued and become effective at the earliest possible date. For these reasons, it has been found to be impractical and contrary to the public interest to publish this notice for comment by the public, and it has further been found to be necessary that this notice shall take effect upon publication.

LEASING OF EXISTING HOUSING

1. Except as provided below, no LHA is authorized to enter into an agreement to lease or a lease for any dwelling unit which is occupied on the date the agreement to lease or lease is entered into unless the occupant will continue to reside in the same unit under the LHA's leased housing program. In the case of a unit alleged to be vacant, the agreement to lease or the lease, as the case may be, shall contain a certification by the owner substantially as follows:

The owner certifies that this unit is vacant and has been vacant since before the date of execution of this document. This certification is made subject to penalty under 18 U.S.C. 1001, which provides, among other things, that whoever knowingly and willfully makes or uses a document or writing containing any false, fictitious, or fraudulent statement or entry, in any matter within the jurisdiction of any department or agency of the United States, shall be fined not more than $10,000 or imprisoned for not more than five years, or both.

2. (a) Where an agreement is entered into for the leasing of units as they become vacant through normal turnover (or a lease which contains provisions to the same effect), the procedures in (b) and (c) of this paragraph shall be complied with. Normal turnover as used herein means that there is no fixed date by which the owner must make the units available, and that the units have been vacated only as a result of (1) voluntary decision of occupant, (2) action by landlord for cause, or (3) other action by landlord clearly unrelated to leasing of the unit to the LHA.

(b) The agreement to lease shall contain a provision that before a lease becomes effective with respect to any unit, the lease shall contain substantially the following provisions (in the case of a lease which provides for future renting of units made available through normal turnover, these provisions shall be made an addendum to the lease):

(i) The Owner certifies that _____ (identify the unit) has been vacated as a result of: ☐ voluntary decision of occupant ☐ action by landlord for cause or ☐ other action by landlord clearly unrelated to leasing of the unit to the LHA [check box which is applicable], and the owner further certifies that the specific circumstances were as follows:

_____. This certification is made subject to penalty under 18 U.S.C. 1001, which provides, among other things, that whoever knowingly and willfully makes or uses a document or writing containing any false, fictitious, or fraudulent statement or entry, in any matter within the jurisdiction of any department or agency of the United States, shall be fined not more than $10,000 or imprisoned for not more than five years, or both.

(ii) The owner agrees to hold harmless and to indemnify the LHA for any costs incurred under the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 in connection with the vacation of said unit, and the owner further agrees that the LHA shall have the right to be reimbursed for any such costs by withholding from rents payable to the owner.

(c) The LHA shall review the Certificate and the facts stated therein, make such additional investigations as it deems necessary, and determine to its satisfaction that the unit was vacated as a result of one of the three categories mentioned in (a) above.

3. In the case of occupied units which involve repair, alteration or rehabilitation which requires that the units be vacated to accomplish the necessary work, an agreement to lease such occupied units (or a lease which provides for the future renting of such occupied units) may be entered into provided that the owner is apprised prior to the execution of the agreement to lease of all relocation requirements set forth in HUD's Codified Regulations dealing with relocation (24 CFR Part 42), in the HUD Relocation Handbook 1371-1, and other appropriate HUD issuances, and provided further that the owner voluntarily undertakes liability for and provides for the funding of all relocation costs as follows:

(a) The maximum potential amount of all relocation costs shall be calculated by the LHA and approved by HUD, and the owner shall deposit such amount in an escrow account under the terms of which payments may be made only upon presentation of written authorization by the LHA for the purpose of meeting relocation costs; and

(b) The owner shall agree that if the funds in the escrow account shall prove to be insufficient to meet all such relocation costs, he will deposit such additional amounts as the LHA determines to be necessary for such purpose.

CONSTRUCTION FOR LEASING

In the case of an agreement to lease housing which is to be constructed on a site which has occupants, no such agreement shall be entered into unless the owner voluntarily undertakes liability for and provides for the funding of all relocation costs as provided in paragraph 3 above.

This notice is issued pursuant to section 7(d) of the Department of Housing and Urban Development Act, 42 U.S.C. 3535(d).

Effective date. This Notice shall become effective July 9, 1973.

WOODWARD KINGMAN,
Acting Assistant Secretary for Housing Production and Mortgage Credit.

NATIONAL COMMITTEE FOR PREVENTION OF MARINE POLLUTION

Notice of Open Meeting

This is to give notice pursuant to section 10(a) of the Federal Advisory Committee Act, Public Law 92-463, approved October 6, 1972, that the National Committee for Prevention of Marine Pollution will conduct an open meeting on Thursday, 12 July 1973, in room 3442, 400 Seventh St., SW, Washington, D.C., beginning at 1000.

The summarized agenda for this meeting consists of:

To discuss the reconstruction of the Inter-Governmental Maritime Consultative Organization (IMCO) to be more responsive to pollution problems.

The National Committee for Prevention of Marine Pollution was established by the Department of State to advise on the best information available to achieve the U.S. goal of complete elimination of willful discharge of oil (and noxious substances) by 1975, or the end of the decade at latest. Public members of the Committee serve voluntarily without compensation from the Federal Government, either travel or per diem.

Interested persons may seek additional information by writing:

[Docket No. 23333; Order 73-6-73]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Relating to Specific Commodity Rates

JUNE 18, 1973.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations, between various air carriers, foreign air carriers, and other carriers embodied in the resolutions of the Joint Traffic Conferences of the International Air Transport Association (IATA), and adopted pursuant to the provisions of Resolution 590 dealing with specific commodity rates.

The agreement names an additional specific commodity rate, as set forth below, reflecting a reduction from general cargo rates; and was adopted pursuant to unprotested notices to the carriers and promulgated in an IATA letter dated June 12, 1973. No rate increases are involved.

Specific Commodity Item No.	*Description and Rate*
0785------	Vegetable Roots 53 cents per kg., minimum weight 1000 kgs. From Nandi to West Coast

Pursuant to authority duly delegated by the Board in the Board's Regulations, 14 CFR 385.14, it is not found that the subject agreement is adverse to the public interest or in violation of the Act, provided that approval is subject to the condition hereinafter ordered.

Accordingly, *It is ordered*, That:

Agreement C.A.B. 23734 be and hereby is approved, provided that approval shall not constitute approval of the specific commodity description contained therein for purposes of tariff publication; provided further that tariff filings shall be marked to become effective on not less than 30 days' notice from the date of filing.

Persons entitled to petition the Board for review of this order, pursuant to the Board's Regulations, 14 CFR 385.50, may file such petitions within ten days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period, unless within such period a petition for review thereof is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

ENVIRONMENTAL PROTECTION AGENCY

RELATIONSHIP OF AUTOMOTIVE AFTERMARKET PARTS AND AUTOMOTIVE SERVICE TO THE CLEAN AIR ACT AMENDMENTS OF 1970

Notice of Questionnaire

Notice is hereby given that on June 29, 1973, the Environmental Protection Agency mailed a voluntary Questionnaire (with forwarding letter) regarding the relationship of automotive aftermarket parts and automotive service to the Clean Air Act Amendments of 1970. The Questionnaire was sent to approximately 150 addressees including automobile manufacturers, aftermarket parts manufacturers and trade associations, automotive service companies and trade associations, selected State governments, and citizens organizations. The Questionnaire (with forwarding letter) is printed in its entirety below. Any person not receiving a Questionnaire, but desiring to respond to or comment on the Questionnaire may do so either directly from this notice or by obtaining a copy of the Questionnaire from the U.S. Environmental Protection Agency, Mobile Source Enforcement Division, Office of Enforcement and General Counsel, 401 M St. SW., Washington, D.C. 20460. All responses should be submitted by August 31, 1973.

Date: July 3, 1973.

ROBERT W. FRI,
Acting Administrator.

Dear Sir:

The Environmental Protection Agency is currently developing its policy with respect to implementation and enforcement of § 203(a)(3), § 207(a), § 207(b), § 207(c), and § 207(c)(3) of the Clean Air Act Amendments of 1970. The policy adopted regarding these provisions could have a major impact on the entire automotive industry and the automobile consumer. In order to develop a fair, balanced policy in this area, while pursuing the Agency's mandate to enhance air quality, EPA is soliciting comments from interested parties. Of primary interest is the interrelationship of the above provisions of the Amendments with automotive parts (especially "aftermarket" parts) and automotive service. To provide some background, the relevant provisions of the Amendments are outlined briefly below (and in more detail in enclosure 1). This is followed by a definition of "aftermarket" parts and a discussion of some of the issues raised in the

parts and service areas. Finally, a Questionnaire designed to organize and expedite our review of your comments is included as an enclosure.

RELEVANT PROVISIONS OF THE CLEAN AIR ACT AMENDMENTS OF 1970

In order to reduce substantially the amount of air pollution contributed by motor vehicles, Congress, by the 1970 Amendments, directed that the Administrator of EPA establish standards strictly controlling emissions from new vehicles and engines to determine whether they meet standards; only those which pass are certified for sale. Furthermore, under certain conditions, vehicle and engine manufacturers are required to warrant that vehicles and engines will not exceed emission standards for their useful life and to recall any class of vehicles or engines in which a substantial number is found not to comply. Vehicle and engine manufacturers also are required to provide maintenance instructions to the purchaser to assure the proper functioning of the emssion controls over the useful life of the vehicle or engine. Interference with the emission controls ("tampering") is also prohibited in certain instances. Enclosure 1 summarizes the relevant provisions of the law.

AUTOMOTIVE AFTERMARKET PARTS

Automotive parts installed on a certified vehicle or engine at the time of its production are known as "OEM" parts (original equipment manufacturer) as are identical parts made by the same manufacturer and used to replace original parts. Presumably, replacement of OEM parts with OEM parts does not affect emissions.

Parts which are not both identical to OEM parts and made by the same manufacturer as OEM parts are non-OEM parts and are known as either "replacement parts" or "add-on parts". Replacement parts include those non-OEM parts designed to perform the same function as the OEM parts which they are intended to replace. If a replacement part performs exactly the same function as the OEM part replaced, it presumably does not affect emissions. Add-on parts include those parts designed to perform functions beyond or different from OEM parts. The effect on emissions of many add-on parts is very speculative without testing.

Replacement parts and add-on parts are known in the automotive industry as "aftermarket parts". Although some of these aftermarket parts are manufactured by vehicle and engine manufacturers, the bulk of them are manufactured by what is known in the U.S. as the automotive aftermarket parts industry. This industry is quite competitive, consisting of over 1500 manufacturers and a vast system of distribution. Approximately three-fourths of all parts installed on used vehicles are aftermarket parts. Many aftermarket parts are sold and/or installed by franchised dealers of vehicle manufacturers as well as by chain and independent service stations and garages, automotive parts shops, and mass merchandisers.

The aftermarket parts industry has expressed concern that they might be excluded from a large portion of the automotive parts market as a result of interpretation of the warranty, recall, maintenance instructions and tampering provisions of the Clean Air Act Amendments. On the other hand, vehicle and engine manufacturers are concerned that they might be subjected unjustly to potential liability under the warranty and recall provisions because of use of inferior aftermarket parts. They may believe that the Clean Air Act allows them to protect themselves by the use of § 207(c)(3) "maintenance instructions" which suggests that the use of aftermarket parts may void the warranty or possibility of recall.

The automobile owner needs to know exactly what he must do in order to obtain maximum protection under the § 207 warranty and recall provisions; he should not inadvertently jeopardize his warranty or recall protection because he has used aftermarket parts which the vehicle manufacturer may at a later date claim to have damaged the emission control system. In addition, clean air goals require that automotive parts do not cause vehicles or engines to fail to meet emission standards.

A program designed to resolve the potential problems raised by aftermarket parts could be a substantial undertaking. Perhaps some sort of voluntary or mandatory parts certification or registration procedure by either the parts manufacturer or the government is necessary. Given the large number of parts involved and the fact that prototype vehicles and engines must be tested over their useful life (50,000 miles in the case of light duty vehicles and engines; 100,000 miles for heavy duty diesel), it might prove very expensive and time consuming to test parts in the same way vehicles and engines are tested. EPA has made no determination as to what, if any, long range control over aftermarket parts is necessary.

AUTOMOTIVE SERVICE

Automotive service is conducted by approximately 750,000 mechanics in the United States who are self-employed or who work for independent and chain garages and service stations, for mass merchandisers, or for franchised dealers of automobile manufacturers.

Potential emissions problems arising from service per se can be distinguished from problems arising from the use of aftermarket parts per se. In many instances, no aftermarket part is involved. For example, mechanics may inadvertently or intentionally interfere with properly functioning emission controls (as by removing, blocking, or bypassing such controls). Or they may simply fail to diagnose and correct emission related malfunctions. Where aftermarket parts are involved, such parts may not be the cause of failure to meet emission standards. For example, an aftermarket part may be improperly installed or incorrectly adjusted. The caliber of automotive service may have a significant effect on emissions, especially in future years as emission standards are lowered and proper maintenance becomes more critical.

The automotive service industry has expressed concern that interpretation and implementation of the Amendments may discourage vehicle owners from having maintenance performed except by franchised dealers of vehicle manufacturers.

The vehicle and engine manufacturers believe that they need to protect themselves from potential warranty or recall liability for emissions problems which are caused by improper service.

Automobile owners should be protected from loss, or threatened loss, of warranty and recall protection due to automotive service over which they have little control. And proper maintenance and service are clearly essential to protection of air quality. As in the aftermarket parts area, a program designed to resolve the potential problems raised by automotive service could be a substantial undertaking. Automobile mechanics and/or garages could, if necessary, be licensed or certified by state or local governments or by the Federal government. However, EPA has made no determination that any such program is necessary or desirable.

THE QUESTIONNAIRE

EPA would like to receive your comments regarding automotive aftermarket parts and service and their relationship to the Clean Air Act Amendments of 1970. Enclosure 2 is a voluntary Questionnaire which we believe will help us to expedite our review of the responses received. If you reply, please answer the questions applicable to your organization.

RELEVANT PROVISIONS OF THE CLEAN AIR ACT AMENDMENTS OF 1970

1. *Standards and Testing.* The 1970 Amendments to the Clean Air Act greatly strengthened federal control over mobile source emissions. Section 202(a) requires the Administrator of the Environmental Protection Agency to establish emission standards for new motor vehicles. Section 202(b) of the Act further requires that hydrocarbon and carbon monoxide emissions from light duty vehicles and engines be reduced by 90 percent for the 1975 model year compared with allowable emissions for the 1970 model year. (However, on April 11, 1973, the Administrator exercised his statutory authority by extending the 1975 deadline until 1976 model year for several manufacturers while simultaneously establishing interim emission standards for 1975. Additional manufacturers may be granted extensions if they satisfy the statutory criteria.) Oxides of nitrogen emissions must be reduced by 90% for the 1976 model year compared with emissions from 1971 model year vehicles. Section 206(a) mandates that the Administrator test or require to be tested prototypes of new vehicles and engines to determine whether they meet emission standards and to issue certificates of conformity to those which pass.

2. *Production Warranties—§ 207(a).* Section 207(a) of the Act requires that the manufacturer of a vehicle or engine warrant "to the ultimate purchaser and each subsequent purchaser that such vehicle or engine is (1) designed, built, and equipped so as to conform at the time of sale with applicable regulations (including emission standards) under § 202, and (2) free from defects in materials and workmanship which cause such vehicle or engine to fail to conform with applicable regulations (including emission standards) for its useful life (50,000 miles or 5 years for light duty vehicles)". These section 207(a) "production" warranties are in effect for 1972 and later model year vehicles and engines and are included in the information given to the purchaser of a new vehicle or engine.

3. *Performance Warranty—§ 207(b).* Section 207(b) of the Act requires that, when the Administrator of EPA determines that a test is available which "correlates" with the certification test conducted under § 206(a) and is suitable for testing vehicles and engines in use, he shall prescribe regulations requiring manufacturers "to warrant the emission control device or system" of each new vehicle or engine. This warranty runs to the ultimate purchaser and each subsequent purchaser and provides that if "(A) the vehicle or engine is maintained and operated in accordance with instructions under subsection (c)(3), (B) it fails to conform at any time during its useful life (50,000 miles or 5 years for light duty vehicles) to the regulations prescribed under section 202 (including emission standards), and (C) such nonconformity results in the ultimate purchaser (or any subsequent purchaser) of such vehicle or engine having to bear any penalty or other sanction (including the denial of the right to use such vehicle or engine) under State or Federal law, then such manufacturer shall remedy such nonconformity under such warranty with the cost to be borne by the manufacturer." This

V 38 I 130
JUL 9 73
XUM

"performance" warranty is not yet in effect due to the difficulty in developing a reliable, economical, short test that exhibits the requisite degree of correlation with the certification test.

4. Recall—§ 207(c). Section 207(c) of the Act provides for "recall" of vehicles or engines at the manufacturer's expense when the "Administrator determines that a substantial number of any class or category of vehicles or engines, although properly maintained and used, do not conform to the regulations prescribed under § 202 (including emission standards), when in actual use throughout their useful life (50,000 miles or 5 years for light duty vehicles)." Federal surveillance testing of 1972 model year vehicles, the first model year for which § 207(c) applies, has already commenced to determine whether vehicles in use conform to emission standards.

5. Maintenance Instructions—§ 207(c)(3). Section 207(c)(3) provides that "the manufacturer shall furnish with each new motor vehicle or motor vehicle engine such written instructions for the maintenance and use of the vehicle or engine by the ultimate purchaser as may be reasonable and necessary to assure the proper functioning of emission control devices and systems." These "maintenance instructions" are reviewed by EPA to determine whether they are "reasonable and necessary".

6. Tampering—§ 203(a)(3). By § 203(a)(3) it is prohibited "for any person to remove or render inoperative any device or element of design installed on or in a motor vehicle or motor vehicle engine in compliance with regulations (including emission standards) • • • prior to its sale and delivery to the ultimate purchaser, or for any manufacturer or dealer knowingly to remove or render inoperative any such device or element of design after such sale and delivery to the ultimate purchaser." This provision is known as the "tampering" provision and section 205 provides for a maximum $10,000 civil penalty for any person subject to this provision who tampers.

Questionnaire: The Clean Air Act and Automotive Aftermarket Parts and Service

(Note: If there is not adequate space to answer any question on this form, please complete the answer on a separate page and attach it to this form.)

1. Identification of respondent. Please indicate your mailing address, telephone number, and names, titles, and responsibilities of officials or other parties whom EPA might wish to contact later concerning this Questionnaire or related matters.

2. If you represent an association, please attach to your response a mailing list of your member organizations.

3. Indicate whether your interest is primarily (more than one response may be appropriate)—

a. new vehicles or engines
b OEM parts
c. aftermarket parts
d. franchised dealer
e. chain service
f. independent service
g. consumers
h. other (specify)

4. Are the issues in the letter accurately stated? If your answer is no, please explain briefly.

5. Briefly indicate how the issues affect you or your constituents.

6. *Aftermarket parts*

a. Do you believe that some regulatory control of aftermarket parts is necessary—

(1) to ensure that used vehicles and engines meet emission standards?

(2) to safeguard the warranty and recall coverage given to vehicle owners?

(3) in order to protect the aftermarket parts industry from loss of business?

(4) to make more definite the prohibition against tampering?

Please furnish EPA with any objective information you have to support the above answers.

b. If you believe that some regulatory control of aftermarket parts is necessary, please outline your suggestions for such regulations.

c. Which aftermarket parts affecting emissions do you believe can be tested from a technically feasible and economic standpoint? (In answering this question it should be understood that new light duty vehicles and engines must meet emission standards for 50,000 miles or 5 years (100,000 miles for heavy duty diesel vehicles) and that many aftermarket parts are often intended for use in numerous makes or classes of vehicles or engines.)

d. Design specifications:

(1) What does the term "design specifications" mean to you in considering automotive parts in relation to the Clean Air Act?

(2) Are design specifications for individual parts generally available to the aftermarket parts industry?

(3) Would the general availability of design specifications for individual parts be desirable?

e. Performance specifications:

(1) What does the term "performance specifications" mean to you in considering automotive parts in relation to the Clean Air Act?

(2) Are performance specifications for individual parts generally available to the aftermarket parts industry?

(3) Would the availability of performance specifications for individual parts be desirable?

7. *Automotive Service*

a. Do you believe that some regulatory control of automotive service is necessary—

(1) to ensure that used vehicles and engines meet emission standards?

(2) to safeguard the warranty and recall coverage given to vehicle owners?

(3) to protect the automotive service industry from loss of business?

(4) to make more definite the prohibitions against tampering?

Please furnish EPA with any objective information you have to support the above answers.

b. If you believe that some regulatory control of automotive service is necessary, please outline your suggestions for such regulations.

8. Do you believe that new legislation is needed to resolve problems raised by the provisions of the Clean Air Act relating to automotive parts and service? If your answer is yes, briefly outline suggestions for such legislation including whether the enactment and enforcement should be primarily by state or federal government.

9. Other comments. Indicate your views or suggestions not previously expressed keeping in mind that EPA is searching for positive approaches allowing action within existing legislation, if this is practical.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 19774-19775; FCC 73-672]

BLACKSTONE BROADCASTING CORP.

Order Designating Applications for Consolidated Hearing on Stated Issues; Notice of Apparent Liability

In regard applications of Blackstone Broadcasting Corporation, Blackstone, Virginia, Docket No. 19774, File No. BR-1676, for renewal of license for Station WKLV, Blackstone Broadcasting Corporation, Blackstone, Virginia, Docket No. 19775, File No. BPH-7891, for a construction permit.

1. The Commission has before it for consideration (a) the captioned applications and (b) its inquiries into the operations of Station WKLV, Blackstone, Virginia.

2. Information before the Commission raises serious questions as to whether the applicant possesses the qualifications to be or to remain licensee of WKLV or to be the permittee of a new FM station in Blackstone. In view of these questions, the Commission is unable to find that a grant of the applications would serve the public interest, convenience and necessity, and must, therefore, designate the applications for hearing.

3. *Accordingly, it is ordered,* That pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

(a) To determine whether, and, if so, the extent to which the applicant knowingly engaged in fraudulent billing practices in the operation of Station WKLV in violation of § 73.1205 of the Commission's rules;

(b) To determine whether, in the light of evidence adduced under the foregoing issue, the applicant possesses the requisite qualifications to remain a licensee of the Commission or to hold a construction permit and whether the grant of the captioned applications would serve the public interest, convenience and necessity.

4. *It is further ordered,* That if it is determined that the hearing record does not warrant an order denying the captioned application for renewal, it shall also be determined whether the applicant has willfully violated § 73.1205 of the Commission's rules,[1] and, if so, whether an Order of Forfeiture pursuant to section 503(b) of the Communications Act of 1934, as amended, in the amount of $10,000 or some lesser amount should be issued for violations which occurred within one year of the issuance of the Bill of Particulars in this matter.

5. *It is further ordered,* That this document constitutes a Notice of Apparent Liability for forfeiture for violations of the Commission's Rules set out in the preceding paragraph. The Commission has determined that, in every case designated for hearing involving revocation or denial of renewal of license for alleged violations which also come within the purview of section 503(b) of the Act, it shall, as a matter of course, include this forfeiture notice so as to maintain the fullest possible flexibility of action. Since the procedure is thus a routine or standard one, we *stress* that inclusion of this Notice is not to be taken as in any way indicating what the initial or final disposition of the case should be; that judgment is, of course, to be made on the facts of each case.

6. *It is further ordered,* That the Chief of the Broadcast Bureau is directed to serve upon the captioned applicant within thirty (30) days of the release of this Order, a Bill of Particulars with respect to issue (a).

7. *It is further ordered,* That the Broadcast Bureau proceed with the initial presentation of the evidence with respect to issue (a), and applicant then proceed with its evidence and have the burden of establishing that it possesses the requisite qualifications to be and to remain licensee of Station WKLV and to hold a construction permit and that a grant of either of its applications would serve the public interest, convenience and necessity.

8. *It is further ordered,* That to avail itself of the opportunity to be heard, the applicant, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall, within twenty (20) days of the mailing of this order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

9. *It is further ordered,* That the applicant herein, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, shall give notice of the hearing within the time and in the manner prescribed in such rule and shall advise the Commission thereof as required by § 1.594(g) of the rules.

10. *It is further ordered,* That the Secretary of the Commission send a copy of this order by Certified Mail—Return Receipt Requested to Blackstone Broadcasting Corporation.

Adopted: June 21, 1973.

Released: June 28, 1973.

FEDERAL COMMUNICATIONS COMMISSION,[1]
[SEAL] BEN F. WAPLE,
Secretary,

[1] See Bill of Particulars for specific dates and details of each alleged violation.

[1] Commissioner Hooks absent.

[FR Doc.73-13818 Filed 7-6-73;8:45 am]

[Docket Nos. 16928, etc.; FCC 73-711]

CALIFORNIA WATER AND TELEPHONE CO. ET AL.

Order Extending Time for Filing Comments

In the matter of California Water and Telephone Company, Tariff F.C.C. No. 1 and Tariff F.C.C. No. 2 Applicable to Channel Service for Use by Community Antenna Television Systems, Docket No. 16928; In the matter of the Associated Bell System Companies, Tariffs for Channel Service for Use by Community Antenna Television Systems, Docket No. 16943; In the matter of the General Telephone System and United Utilities, Inc. Companies, Tariffs for Channel Service for Use by Community Antenna Television Systems, Docket No. 17098.

1. By our Memorandum Opinion and Order, FCC 73-541, released May 23, 1973, and published at 38 FR 14188 we ordered that oral argument would be held on July 24, 1973 on the issue of whether the Commission has jurisdiction over the agreements or arrangements of telephone companies, electric utilities, and others with respect to pole line attachment of conduit agreements or arrangements with CATV operators beyond that exercised in our decision in Docket 18509 and, if so, the extent and nature of such jurisdiction and what action, if any, we should take with respect thereto. We further ordered that each participant in the oral argument must file a brief directed to this issue on or before July 2, 1973. Our order further provided for the filing of replies on or before July 16, 1973.

2. Now before us is a motion filed on June 26, 1973 by the National Cable Television Association, Inc. (NCTA) requesting that the time for filing briefs and comments be extended from July 2, 1973 until July 6, 1973. NCTA states that counsel for the Associated Bell System Companies, the General Telephone System, United Utilities, Inc., Utilities Telecommunications Council, and the California Community Television Association have stated that they would have no objection to such extension if applicable to all parties to this proceeding.

3. In view of the foregoing, we will grant the relief requested. Furthermore, since we previously have provided for a two-week period for the filing of replies and believe that such replies will materially aid our resolution of the issues in this proceeding, we will on our own motion extend the date for filing replies for approximately the same period.

Accordingly, it is ordered, That the time for filing briefs or other written comments, and for filing replies herein is extended to July 6, 1973 and to July 18, 1973, respectively.

Adopted: June 28, 1973.

Released: July 2, 1973.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary

[FR Doc.73-13820 Filed 7-6-73;8:45 am]

[Docket No. 16070; FCC 73-648]

COMMUNICATIONS SATELLITE CORP.

Memorandum Opinion and Order Enlarging Investigation[1]

In the matter of Communications Satellite Corporation, Docket No. 16070, investigation into charges, practices, classifications, rates and regulations.

1. The Commission has before it: (a) Tariff F.C.C. No. 7 filed by the Communications Satellite Corporation (Comsat) under Transmittal 210 on May 22, 1973 and currently scheduled to become effective June 26, 1973; (b) a petition filed by RCA Global Communications, Inc. (RCA) on June 13, 1973 which seeks a one-day suspension of the above-referenced tariff to permit the imposition of an accounting order covering any charges made by Comsat thereunder; and (c) a petition filed on June 19, 1973 by the Secretary of Defense on behalf of the United States Department of Defense (DOD) requesting the Commission to investigate the lawfulness of the rates set out in the tariff and to establish just and reasonable rates.

2. Under this tariff, Comsat offers leased voice-grade channels to authorized common carriers for use in establishing communications paths, via an appropriate communications satellite, between the Comsat earth station at Jamesburg, California and an earth station on Kwajalein, Marshalls Islands District, Trust Territory of the Pacific Islands (Kwajalein). In developing the rates set out in the tariff, Comsat applied its "guideline" rates applicable to Western Pacific points.[2] For the uplink (between Comsat's Jamesburg earth station and a Pacific basin satellite) the guideline rate is $4,900 per month. For the downlink (between the satellite and Kwajalein), the guideline rate was allegedly adjusted to reflect the fact that RCA will provide the earth station on Kwajalein. Comsat allocates .6666 of its guideline rates to the space segment and the balance to the earth station. Further, Comsat applies a "rate adjustment factor" of 2.5 to the space segment to compensate for the fact that

[1] First published at 37 FR 4742, March 4, 1972.

[2] *See* Comsat Tariff F.C.C. No. 1.

V 38 130 JUL 9 73 XUM

the RCA earth station is of less than standard size and therefore requires a greater portion of available satellite capacity. The resulting tariff rate for both links is $13,050 per month. The present rate structure is based on the determination by the Common Carrier Bureau that Kwajalein should be regarded as a United States point since, although it is a trust territory, it has been placed under U.S. administration by a United Nations Security Council mandate.

3. The DOD petition raises several challenges to the reasonableness of the Comsat rates in Tariff No. 7 and asserts that investigation will prove the rates to be unjustified. First, DOD attacks the reasonableness of the guideline rate as it is applied to the Kwajalein route. DOD states that this rate does not accurately reflect Comsat's cost for either the uplink or the downlink. Second, DOD asserts that the Comsat rate base is inflated by the inclusion of some high-value items which should not be included therein. If these items were removed, DOD believes the resulting rate of return (estimated by DOD to be 22 percent) would be unconsciously high. DOD then requests the Commission to institute an investigation into the reasonableness of the rates, to make DOD a party to that investigation, and, after hearing, to set reasonable charges for the service.

4. RCA's petition requests the Commission to suspend the Comsat tariff for one day to permit an accounting order to be imposed so that, in the event the Commission determines that the rate is excessive, it can order a refund of the overcharges. Primarily, RCA attacks the determination of the Common Carrier Bureau, acting under authority delegated by the Commission, that Kwajalein should be treated as a United States point for Comsat rate-making purposes. RCA believes that this determination was erroneous and states that it intends to seek Commission review of it. The carrier believes that Kwajalein should be regarded as a foreign point to which the INTELSAT utilization charge applies. The purpose of the accounting order is to permit RCA to recover overcharges, in the event its petition for review is granted, and to pass those refunds on to its customer. Without this relief, RCA contends that its only other remedy, an action at law for damages, is inadequate since the outcome would not be known until after the tariff had expired by its own terms.

5. The rate-making principles and assumptions used by Comsat in constructing the subject tariff rates are, in large measure, the same as those used in developing other Comsat rates which are currently under investigation in Docket No. 16070. Indeed, Comsat's Transmittal specifically bases its rate on the provisions of its Tariff F.C.C. No. 1. In view of this, we believe that the question of the reasonableness and lawfulness of these rates should, just as those in its Tariff F.C.C. No. 1, be included in the investigation in Docket No. 16070. We shall therefore enlarge that proceeding to include consideration of the charges, practices, classifications, rates and regulations contained in Tariff F.C.C. No. 7. Among the issues to be investigated in connection with this tariff are: (a) whether Comsat, which will furnish the space segment capacity between the satellite and the RCA Kwajalein earth station, should separately tariff such charges, and if so, at what rate (in this regard see Establishment of Regulatory Policies Relating to Authorizations under Section 214 of the Communications Act of 1934, 23 F.C.C. 2d 9 (1970) as clarified by Memorandum Opinion and Order, 30 F.C.C. 2d 513 (1971); (b) whether RCA should be authorized to acquire such units of satellite utilization relating to the link between the satellite and Kwajalein at the INTELSAT charge or at another charge, and if so, what that charge should be; and (c) what, if anything, should be ordered with respect to the charge for the downlink, in light of the Commission's decision, if any shall have been issued, on the question whether Kwajalein is a United States point for the purposes of this tariff (See Paragraph 6, infra.)

6. The course of action taken herein will safeguard the interests of all interested entities by enabling us to investigate the lawfulness, ab initio, of the rates contained in Tariff No. 7. We will then be in a position to make appropriate findings as to what is the proper rate that should have been charged.[3] This action will not disrupt the orderly prosecution of Docket No. 16070, since the evidence already taken on the reasonableness of the rate-making principles employed by Comsat will be equally applicable to Tariff No. 7. The issue of whether Kwajalein is a United States point for the purposes of the tariff can be resolved when RCA files the petition for review, and therefore need not be addressed herein. Any findings we make or conclusions we reach on this issue upon such petition will of course be applicable herein insofar as relevant.

7. We turn now to RCA's petition for suspension and accounting order. We note at the outset that RCA seeks what we believe to be an inappropriate remedy. Section 204 of the Act provides that the Commission may order carriers to account for amounts they receive by reason of an increase in tariff rates. The section is silent as to the question of accounting orders when there is a new rate rather than an increase in an existing rate. We do not think that, in the present situation, it is necessary for us to decide whether the statute covers new rates as well. The purpose of an accounting order is to assure that, in the event the Commission were to find all or any part of a rate increase to be unjustified, the persons who would be entitled to a refund would receive the amount to which the Commission finds they would be entitled. In the present case, since RCA is the only customer for the service, we can accomplish the same end by determining whether the rates set forth in Tariff No. 7 have been just and reasonable, and therefore lawful, from the effective date of the tariff. If we find that they were not, we shall be in a position, as we are with respect to all tariff schedules at issue herein, to order appropriate refunds. Since RCA's interests will receive the same protection under this procedure that they would receive under an accounting order, there is no need to grant the relief in the form requested or to address ourselves in the present factual context to the question of the scope of section 204. We shall therefore order that RCA's petition be denied.

Accordingly, it is ordered, That the investigation herein is enlarged, pursuant to sections 203, 205, and 403 of the Communications Act of 1934, to include consideration of the investigation into the lawfulness under sections 201 and 202 of the Communications Act of 1934 and sections 201(c)(2) and 201(c)(5) of the Communications Satellite Act of 1962, of Communications Satellite Corporation's Tariff F.C.C. No. 7 and any amendments thereof, as well as any successive issues of such tariff, as may hereafter be made until the close of the record herein.

It is further ordered, That the petition to suspend the above tariff and to institute an accounting order filed by RCA Global Communications, Inc. is hereby denied; and

It is further ordered, That, to the extent provided for herein, the petition filed by the United States Department of Defense seeking investigation of the above-referenced tariff is granted.

Adopted: June 25, 1973.

Released: June 27, 1973.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

[FR Doc.73-13821 Filed 7-6-73;8:45 am]

[3] In this respect, this matter is no different from the other rates under investigation herein where we reserve the right to order refunds. Comsat Tariff F.C.C. No. 1, 38 F.C.C. 1288, 1294-5 (1965). We of course expect the Administrative Law Judge to address himself to this matter and to afford us the benefit of his conclusions.

RADIO BROADCAST STATIONS AND MUSICAL FORMAT SERVICE COS.

Order Extending Time for Filing Comments and Reply Comments Regarding Inquiry

In the matter of inquiry into subscription agreements between radio broadcast stations and musical format service companies, Docket No. 19743.

1. On May 17, 1973, the Commission adopted a Notice of Inquiry in the above-captioned proceeding. Publication was given in the FEDERAL REGISTER on May 29, 1973, 38 FR 14124. Comment and reply comment dates are presently designated as June 28 and July 10, 1973, respectively.

2. The law firm of Wilkinson, Cragun & Barker filed a request for an extension of time to July 5, 1973, for the filing of comments. It states that it is in the process of assisting in the compilation and preparation of detailed comments on the issues raised in the Notice of Inquiry and finds that the task is requiring more time than anticipated. It therefore requests the additional time in order to submit a more helpful response.

3. We are of the view that the requested extension of time is warranted and would serve the public interest. *Accordingly, it is ordered*, That the time for filing comments and reply comments are extended to and including July 5 and July 19, 1973, respectively.

4. This action is taken pursuant to authority found in sections 4(i), 5(d)(1), and 303(r) of the Communications Act of 1934, as amended, and § 0.281(d)(8) of the Commission's rules.

Adopted: June 26, 1973.

Released: June 29, 1973.

[SEAL] MARTIN I. LEVY,
Acting Chief, Broadcast Bureau.

DIALER SUBCOMMITTEE REPORT

Availability and Inquiry

JUNE 29, 1973.

In the First Supplemental Notice in Docket No. 19528, In the Matter of Proposals for new or revised classes of Interstate and Foreign Message Toll Telephone Service (MTS) and Wide Area Service (WATS), released April 3, 1973, the Commission announced that further proposals would be forthcoming from the Dialer and Answering Devices Advisory Committee and that such proposals would be the subject of comments submitted on or before the due date for reply comments, now filed at September 17, 1973.

The Commission has received the report of the Dialer Subcommittee of the Dialer and Answering (D&A) Devices Advisory Committee, and by this notice the Commission is advising interested parties of the availability of the report and that any comments on the report should be submitted to the Commission on or before the date filed for reply comments.

Copies of the Subcommittee's report—FCC-CC-INTCN-D/A-73-1 Report of the FCC Dialer Advisory Subcommittee on DC Pulse Dialers, June 1973, may be obtained from Information Planning Associates, Inc., 310 Maple Drive, Rockville, Maryland 20850, Telephone—(301) 340-0250.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

[FR Doc.73-13827 Filed 7-6-73;8:45 am]

FEDERAL MARITIME COMMISSION

ALABAMA STATE DOCKS DEPT. AND OSBORNE TRUCK LINE, INC.

Notice of Agreements Filed

Notice is hereby given that the following agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreements at the Washington office of the Federal Maritime Commission, 1405 I Street, NW., Room 1015; or may inspect the agreements at the Field Offices located at New York, NY., New Orleans, Louisiana, and San Francisco, California. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before July 30, 1973. Any person desiring a hearing on the proposed agreements shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreements (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreements filed by:

Mr. C. D. Haig, Jr.
General Traffic Manager
Alabama State Docks Department
P.O. Box 1588
Mobile, Alabama 36601

Agreements Nos. T-2775 and T-2776, between the Alabama State Docks Department (State) and Osborne Truck Line, Inc. (Osborne), are identical non-exclusive agency agreements providing for Osborne's operation of the State's public docks and warehouses at Cordova (T-2775) and Decatur (T-2776), Alabama. Under these agreements, Osborne will, under the control and direction of the State, act as the State's agent in operating these facilities for a five-year term (with renewal options). Osborne will collect and pay the State (a) all State Docks charges made to the public for storage; (b) all State Docks charges made to the public for wharfage for rail and/or terminal use and such other charges as assessed by the State as set forth in its tariffs; and (c) one-half of all charges assessed against the public for use of the State's truck scales. Osborne's compensation for its services will be (a) one-half of all charges assessed against the public for the use of the State's truck scales; (b) the difference between its tariff charges and the State's tariff charges against the public for storage; and (c) retaining all charges for handling cargo and freight at the facilities. Osborne is to operate the facilities on a nondiscriminatory public basis, with all charges assessed against the public subject to the State's approval.

Dated: June 29, 1973.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

[FR Doc.73-13815 Filed 7-6-73;8:45 am]

[Docket No. 73-37; Independent Ocean Freight Forwarder License No. 1328]

FREDERICK D. HANNON

Order of Investigation and Hearing

Inasmuch as Frederick D. Hannon, FMC Licensee No. 1328, has failed to timely and fully comply with the terms and conditions under which his license was issued, it is hereby ordered pursuant to Section 44, Shipping Act, 1916 (46 U.S.C. 841b), to demonstrate at a hearing to be set at a later date, why the Federal Maritime Commission should not suspend or revoke his independent ocean freight forwarder license.

The license was issued on the condition that in view of the fact licensee personally lacked the necessary forwarding training and experience to qualify, it would employ, subject to Commission approval, experienced personnel to handle the technical operations of the firm. Moreover, licensee agreed that in the event the approved employee ceased to be an active participant in its business, such fact would be immediately reported to the Commission, and a person meeting Commission standards would be employed as a replacement.

Section 44(d) of the Shipping Act, 1916, (46 U.S.C. 841b) provides that licenses may, after notice and hearing, be suspended or revoked for willful failure to comply with any provision of the Act, or with any lawful order, rule or regulation of the Commission promulgated thereunder.

The grounds for the intended revocation or suspension of the license are:

1. Licensee knowingly and willfully failed to comply with the condition of its licensing by failing to continue in its employ Vincent W. Vegnani, upon whose experience it relied for licensing, in violation of section 44(b), Shipping Act, 1916, (46 U.S.C. 841(b)).

2. Licensee knowingly and willfully disregarded notifying the Commission of its failure to employ or keep employed personnel experienced and trained in ocean freight forwarding, in violation of § 510.9(d) of Commission General Order 4.

3. Licensee knowingly and willfully altered its mode of operation from a sole proprietorship to a corporate entity without prior Commission approval in violation of § 510.8(d) of Commission General Order 4.

4. Licensee knowingly and willfully invalidated its $10,000 surety bond, necessary to continue licensing, by altering its mode of operation from a sole proprietorship to a corporation without prior Commission approval in violation of section 44(c), Shipping Act, 1916 (46 U.S.C. 841(b)).

5. Licensee knowingly and willfully failed to notify the Commission that it has been dormant since its inception as a licensee; has no qualified personnel; and, is unable to conduct operations in violation of § 510.9(d) of Commission General Order 4.

Therefore, it is ordered, That pursuant to sections 22 and 44 of the Shipping Act, 1916 (46 U.S.C. 821, 841b) that a proceeding is hereby instituted at a time and place to be set to determine whether Frederick D. Hannon possesses the necessary qualifications to remain licensed or whether Frederick D. Hannon's license should be suspended or revoked.

It is further ordered, That Frederick D. Hannon is made a respondent in this proceeding and that the matter be assigned for hearing before an Administrative Law Judge at a date and place to be announced by the Chief Administrative Law Judge.

It is further ordered, That notice of this order be published in the FEDERAL REGISTER and a copy thereof and notice of hearing be served upon Respondent, Frederick D. Hannon.

It is further ordered, That any person (including individuals, corporations, associations, firms, partnerships and public bodies) having an interest in this proceeding, and desiring to intervene herein, shall file a petition to intervene in accordance with Rule 5(1) (46 CFR 502.72) of the Commission's rules of practice and procedure.

It is further ordered, That all future notices issued by or on behalf of the Commission in this proceeding, including notice of time and place of hearing or prehearing conference, shall be mailed directly to all parties of record.

By the Commission.

[SEAL] FRANCIS C. HURNEY,
Secretary.

HAPAG-LLOYD AG

Order of Revocation

Certificate of financial responsibility for indemnification of passengers for nonperformance of transportation no. P-91 and certificate of financial responsibility to meet liability incurred for death or injury to passengers or other persons on voyages no. C-1,087.

Hapag-Lloyd AG, c/o North German Lloyd, Passenger Agency, Inc., 277 Park Avenue, New York, New York 10017.

Whereas, Hapag-Lloyd AG has ceased to operate the passenger vessel MS EUROPA to and from United States ports; and

Whereas, Hapag-Lloyd AG has returned Certificate (Performance) No. P-91 and Certificate (Casualty) No. C-1,087 for revocation.

It is ordered, That Certificate (Performance) No. P-91 and Certificate (Casualty) No. C-1,087 covering the MS EUROPA be and are hereby revoked effective June 27, 1973.

It is further ordered, That a copy of this order be published in the FEDERAL REGISTER and served on the Certificant.

By the Commission.

FRANCIS C. HURNEY,
Secretary.

SEA-LAND SERVICE, INC., AND SEATRAIN LINES INTERCARIBBEAN, S.A.

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street, NW., Room 1015; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, and San Francisco, California. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before July 30, 1973. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

F. Hiljer, Jr., Commerce Manager
Sea-Land Service, Inc.
Corbin & Fleet Streets
P. O. Box 1050
Elizabeth, New Jersey 07207

Agreement No. 10063, between Sea-Land Service, Inc. and Seatrain Lines Intercaribbean S.A., would permit the establishment of a rate agreement applicable to and restricted to the trades between ports in Puerto Rico and the Virgin Islands, and ports of the Dominican Republic, Haiti, and Jamaica. Each carrier would be responsible for maintaining and filing its own tariffs with the Commission, and to each is reserved the right to act independently of the other upon forty-eight hours notice.

Dated: July 3, 1973.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

[FR Doc.73-13812 Filed 7-6-73;8:45 am]

If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Mr. E. Alvey Wright
Acting Director
State of Hawaii
Department of Transportation
869 Punchbowl Street
Honolulu, Hawaii 96813

Agreement No. T-2812, between the State of Hawaii (State) and United States Lines, Inc. (USL), provides for the 20-year lease of certain terminal facilities at San Island, Honolulu Harbor, Hawaii, for use as a container facility and purposes related thereto. As compensation for the above, USL will pay the State a total of $35,343.00 annually for the facilities plus all tariff charges derived from the operation of the facility, subject to a minimum of $520,000 for the first 2 years of operations, $260,000 for the third year and $291,000 per year for the fourth through the 15th years. USL is required by the agreement to make certain improvements to portions of the facility. In addition, State is to increase the length of the wharf space available, at which time, the annual minimums will increase as further provided for in the basic agreement. USL is also required to allow use of its container cranes at the facility by the State or other common carriers when circumstances allow at rates, terms, and conditions set by USL, subject to approval by State.

Dated: June 29, 1973.

By order of the Federal Maritime Commission.

FEDERAL POWER COMMISSION

[Docket No. E-8255]

ALABAMA POWER CO.

Notice of Revision to Tariff

JUNE 29, 1973.

Take notice that on June 8, 1973, Alabama Power Company (Alabama) tendered for filing an unsigned Agreement dated May 2, 1973, with the City of Alexander City expressing Alabama's intent to convert the three delivery points of Alexander City to Alabama's filed tariff as of July 31, 1973, when the existing electric service contract with Alexander City expires. Alabama also submits for filing a Third Revised Sheet No. 34 to the Index of Purchasers section of its tariff filed on November 1, 1971. The company states that a copy of this filing has been sent to Alexander City.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 12, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13755 Filed 7-6-73;8:45 am]

ALABAMA-TENNESSEE NATURAL GAS CO.

Notice of Purchased Gas Cost Adjustment Rate Change

JUNE 29, 1973.

Take notice that on June 15, 1973, Alabama-Tennessee Natural Gas Company (Alatenn) tendered for filing First Revised Sheet No. 3-A Superseding Original Sheet No. 3-A to Alatenn FPC Gas Tariff, Third Revised Volume No. 1. Alatenn states that the filing is submitted in conformity with the Purchased Gas Cost Adjustment Clause contained in section 20 of the General Terms and Conditions of Alatenn's effective FPC Gas Tariff.

Alatenn submits that the revised rates are designed solely to reflect an increase in the cost of gas purchased from Alatenn's sole supplier, Tennessee Gas Pipeline Company. An effective date of August 1, 1973, is proposed.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 12, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13743 Filed 7-6-73;8:45 am]

[Docket Nos. CP72-35, CP69-41]

ALGONQUIN GAS TRANSMISSION CO.

Notice of Proposed Initial Rate Schedule

JUNE 28, 1973.

Take notice that Algonquin Gas Transmission Company (Algonquin) on June 8, 1973, tendered for filing an initial rate schedule for Synthetic Gas Sales pursuant to Commission Opinion Nos. 637 and 637-A. Algonquin states that this filing is necessitated by the Commission's order of June 5, 1973, rejecting proposed rate schedules for Synthetic Gas Sales filed on April 16, 1973, which the Commission found did not conform to the aforementioned opinions.

The proposed rate is described by the Company as being a one part rate of $1.80 per Mcf, which rate was found by the Commission in its order of June 5, 1973, as being the most appropriate in this case. Algonquin estimates service under the proposed schedule will commence October 16, 1973. Finally, Algonquin requests a waiver of the 6 months notice requirement set out in Opinion No. 637 due to the fact that the previously tendered sheets were timely filed in compliance with that opinion.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 11, 1973.

Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13756 Filed 7-6-73;8:45 am]

[Docket No. E-8267]

ALLEGHENY POWER SERVICE CORP.

Notice of Modification to Tariffs

JUNE 29, 1973.

Take notice that on June 11, 1973, Allegheny Power Service Corporation (Allegheny) tendered for filing on behalf of West Penn Power Company (West Penn), Monongahela Power Company (Monongahela), Pennsylvania Power Company (Penn Power) and Ohio Edison Company (Ohio Edison) an Amendment, dated as of June 1, 1973, to the Interchange Agreement among the aforesaid companies, designated West Penn's FPC Tariff No. 27, Monongahela's FPC Tariff No. 29, Penn Power's FPC Tariff No. 20 and Ohio Edison's FPC Tariff No. 69. Allegheny states that the amendment modifies "Schedule A-Emergency Service" to increase the minimum charge per KWH for emergency service which is not paid for by return of equivalent ("banked") energy from 7 mills per KWH on-peak and 4 mills per KWH off-peak to 17.5 mills per KWH for both periods. The company contends that the effect of this Amendment for emergency service not "banked" is to establish the per KWH price as the out-of-pocket cost thereof plus 10 percent or 17.5 mills, whichever is higher.

Allegheny states that the purpose of the proposed change is to enhance the availability of emergency energy and lessen the possibility of economic hardship on supplying parties. An effective date of June 15, 1973 is requested.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D. C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 20, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI73-889]

CORPENING, A. V., JR., AND CORPENING ENTERPRISES

Notice of Application

JUNE 29, 1973.

Take notice that on June 14, 1973, A. V. Corpening, Jr., d/b/a Corpening Enterprises (Applicant, 1308 Continental National Bank Building, Fort Worth, Texas 76102, filed in Docket No. CI73-889 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Cities Service Gas Company from Applicant's gathering system in Payne County, Oklahoma, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell approximately 90,000 Mcf of gas per month at 50.0 cents per Mcf at 14.65 psia, subject to upward and downward Btu adjustment. Applicant intends to commence the sale of gas within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale for two years from the end of the sixty-day emergency period within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70).

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore,

Any person desiring to be heard or to make any protest with reference to said application should on or before July 16, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13745 Filed 7-6-73;8:45 am]

[Docket Nos. RP69-6 etc.] [1]

EL PASO NATURAL GAS CO.

Notice of Certification of Proposed Stipulation and Agreement

JUNE 29, 1973.

Take notice that on June 15, 1973, the Presiding Administrative Law Judge certified to the Commission a proposed Stipulation and Agreement which would dispose of all issues in the above-captioned rate proceedings of El Paso Natural Gas Company's (El Paso) Southern Division System, with the exception of the rate design issue and a tax depreciation issue, as described therein. There was also certified by the Presiding Judge a motion of El Paso for approval of the Stipulation and Agreement and the record of the hearing relating to the issues which would be disposed of by the proposed settlement, as described in the certification.

The Stipulation and Agreement, inter alia, (1) provides for rate reductions and refunds on the basis of the settlement rates specified for the periods involved in the various dockets; (2) provides for refunds due to sales in excess of test period volumes during the twelve month period ending December 31, 1973; (3) requires El Paso to flow-through the jurisdictional portion of producer-supplier refunds in accordance with the provisions of prior settlement agreements, tracking orders and El Paso's Purchase Gas Adjustment clause for its Southern Division System; (4) includes in the cost of service in Docket No. RP71-13 an allowance for exploration expense which equates to 1.28 cents per Mcf and provides a reserve for exploration; (5) provides for the withdrawal of El Paso's

[1] The "*et al.*" proceedings are those pending in Docket Nos. RP72-130, RP72-153, RP73-15, RP73-19, RP73-20, RP73-21, RP73-44 and RP73-75.

V 38 130 JUL 9 73 XUM

outstanding petitions for court review related to certain of the pending rate proceedings; and (6) indicates justification for final approval of El Paso's Southern Division System Purchase Gas Adjustment clause in Docket No. RP72–155.

The Agreement reserves the rate design issue for trial and decision in Docket No. RP72–150 and provides the procedure for trial of that issue and reserves for decision in Docket No. RP71–13 the issue of El Paso's use of liberalized tax depreciation with normalization for accounting and rate purposes, with respect to pre-1970 property and post-1969 non-expansion property.

Comments relating to the proposed Stipulation and Agreement may be filed with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, on or before July 13, 1973. The proposed Stipulation and Agreement and related record are on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E–7798]

CENTRAL VERMONT PUBLIC SERVICE CORP.

Notice of Further Extension of Time and Postponement of Hearing

JUNE 27, 1973.

On June 22, 1973, Vermont Electric Cooperative, Inc., filed a motion for a change in dates for filing testimony and the date for commencement of cross-examination. The motion states that all parties agree to the postponement.

Upon consideration, notice is hereby given that the procedural dates are further modified as follows:

Service of Intervener Evidence	September 10, 1973
Service of Company rebuttal evidence	October 1, 1973
Cross-examination	October 16, 1973 (10 am., e.d.t.)

KENNETH F. PLUMB,
Secretary.

[FR Doc 73–13766 Filed 7–6–73;8:45 am]

[Docket No. RP73–107]

CONSOLIDATED GAS SUPPLY CORP.

Filing and Suspending Proposed Rate Increase and Granting Intervention

JUNE 29, 1973.

On May 15, 1973, Consolidated Gas Supply Corporation (Consolidated) tendered for filing proposed changes in its FPC Gas Tariff, First Revised Volume No. 1 and Original Volume No. 2, providing for a general increase in rates to its jurisdictional customers. The filing consists of Original Sheet No. 260–A, First Revised Sheets Nos. 255, 257, and 272–B, Second Revised Sheet Nos. 260, 265, and 272–A, Third Revised Sheet Nos. 266 and 270, Fifth Revised Sheet Nos. 271 and 272, and Nineteenth Revised Sheet No. 8. The proposed rate change would increase Consolidated's revenues from jurisdictional sales and service by $16,852,465. Consolidated requests an effective date of July 1, 1973.

Consolidated states that the increase in jurisdictional costs of service is for a test year based on the twelve month period ending January 31, 1973, adjusted for known and measurable changes which will become effective by October 1, 1973. The company further states that the principal increased costs result from increased costs of transportation by others, increased costs of capital, increased depreciation rate from 3.5 percent to 4 percent, and the proposed rate of return of 9.5 percent.

The filing was noticed on May 23, 1973, with letters of protest and petition to intervene due on or before June 8, 1973. On June 8, and 11, 1973, various petitions to intervene were received from the following: (1) Iroquois Gas Corporation, (2) New York State Electric & Gas Corporation, (3) Niagara Mohawk Power Corporation, (4) North Penn Gas Company, (5) The Pavilion Natural Gas Company, (6) Pennsylvania Gas Co., (7) Rochester Gas and Electric Corporation, (8) United Natural Gas Company, and (9) Southern Tier Gas Corporation. Notices of intervention were filed by the Public Service Commission of West Virginia on June 8, 1973, and by the Public Service Commission for the State of New York on May 30, 1973.

Our review of the filing indicates that it raises certain issues which may require development in an evidentiary hearing. The proposed increases in rates and charges have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory or preferential or otherwise unlawful. We shall therefore order a suspension of the rates proposed herein for the full statutory period.

Many issues raised by the subject filing are presently pending before the Commission in exceptions filed to the Administrative Law Judge's Decision in Docket No. RP71–77. In order to avoid relitigation of issues which may be substantially the same, we shall withhold establishing procedural dates in the instant case pending our action in the underlying case.

The Commission finds

(1) The proposed tariff sheets should be suspended and the use thereof deferred for five months until December 1, 1973, and until such time they are made effective in the manner provided in the Natural Gas Act.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the rates and charges contained in Consolidated's FPC Gas Tariff, First Revised Volume No. 1 and Original Volume No. 2, as proposed to be amended in this docket.

(3) Good cause exists to permit the above-named petitioners for intervention to intervene.

The Commission orders

(A) The tariff sheets filed by Consolidated on May 15, 1973, are accepted for filing and suspended until December 1, 1973, and until such time as they are made effective in the manner provided in the Natural Gas Act.

(B) The above-named petitioners are hereby permitted to intervene in this proceeding, subject to the Rules and Regulations of the Commission: Provided, however, that the participation of such intervenors shall be limited to matters affecting the rights and interests specifically set forth in their petition to intervene; and Provided, further, that the admission of such intervenors shall not be construed as recognitions that they or any of them might be aggrieved because of any order issued by the Commission in this proceeding.

(C) Nothing contained in this order shall relieve the applicant of any responsibility imposed by the Economic Stabilization Act of 1970, (Public Law 91–379, 84 Stat. 799, as amended by Public Law 92–15, 85 Stat. 38), or by any Executive Order or rules and regulations promulgated pursuant to such Act.

(D) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.73–13859 Filed 7–6–73;8:45 am]

[Docket No. CP73–336]

EAST TENNESSEE NATURAL GAS CO.

Notice of Application

JUNE 29, 1973.

Take notice that on June 18, 1973, East Tennessee Gas Company (Applicant), P.O. Box 2511, Houston, Texas 77001, filed in Docket No. CP73–336 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of a liquefied natural gas (LNG) plant with appurtenant facilities in Sullivan County, Tennessee, and authorizing supplemental winter sales for resale of natural gas through the storage of LNG at Chattanooga Gas Company (Chattanooga) LNG plant, pending completion of its own LNG plant, and thereafter at its own LNG plant, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it receives its basic supply of natural gas from Tennessee Gas Pipeline Company, a Division of Tenneco Inc., and has a total daily availability of 333,065 Mcf of gas. It is stated that Applicant has been unable to provide additional volumes of gas to its customers for resale, and presently has unsolicited, written requests for an additional 58,000 Mcf of firm gas per day during the 1973–74 winter season, which it cannot satisfy.

In order to be able to render the proposed supplemental winter service Applicant proposes to construct and operate an LNG plant and appurtenant facilities in Sullivan County, Tennessee, with a designed capacity to liquefy 5,500 Mcf of gas per day and have a storage capacity of 341,000 barrels of LNG equivalent to 1,200,000 Mcf of vaporous gas. The plant will have re-gasification facilities for a vaporization of 100,000 Mcf of vaporous gas per day. Applicant also proposes to construct and operate a 1,100 horsepower gas compressor station located near Bristol, Tennessee, to be used in connection with the proposed sales of regasified LNG.

The total estimated cost of the proposed facilities is $10,045,000 which will be financed from general available funds and/or loans from affiliated companies.

Applicant also proposes to store up to 10,000 Mcf of vaporous gas equivalent per day and up to 500,000 Mcf of vaporous gas equivalent per year at Chattanooga's LNG plant near Chattanooga, Tennessee, at $1.73 per Mcf of gas at 14.73 psia. Applicant states that it would store the gas during the period of April through October of 1973 and 1974 and withdraw up to 23,000 Mcf of gas per day during the period of November through March of 1973–1974 and 1974–75 for supplemental winter sales of its customers. Applicant states that this interim storage service would be undertaken pending completion of its LNG plant. The application indicates that the interim service can be provided with no additional facilities except the compressor for which authorization is sought herein.

Applicant states that it intends to file Revised Tariff Sheet No. 4 to its FPC Gas Tariff, Sixth Revised Volume No. 1, providing for a rate of $2.35 per Mcf of gas at 14.73 psia, subject to Btu adjustment, for gas sold in connection with its supplemental winter sales of LNG.

The purpose of Applicant's proposals is to convert, by use of the LNG facilities, summer valley gas into LNG that can be readily stored during the summer months for subsequent regasification and delivery during the winter heating season when such gas can be made available for high priority uses by its customers. It is stated that these proposals result in economies of scale which cannot be achieved by each customer constructing its separate peaking facility.

Any person desiring to be heard or to make protest with reference to said application should on or before July 24, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73–13768 Filed 7–6–73;8:45 am]

[Docket No. RP72–140]

GREAT LAKES GAS TRANSMISSION CO.

Notice of Change in Tariff

JUNE 28, 1973.

Take notice that on June 15, 1973, Great Lakes Gas Transmission Company (Great Lakes) tendered for filing Fifth Revised Sheet No. 57 (Fourth Revised PGA–1) to Great Lake's FPC Gas Tariff, First Revised Volume No. 1. Great Lakes states that the change in tariff is to reflect a decrease in the cost of gas purchased by Great Lakes from TransCanada Pipe Lines. An effective date of August 1, 1973, is proposed.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 16, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of the filing are on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73–13758 Filed 7–6–73;8:45 am]

[Docket No. CP66–110]

GREAT LAKES TRANSMISSION CO.

Petition To Amend Certificate or for Declaratory Order

JUNE 29, 1973.

Take notice that on May 23, 1973, Great Lakes Transmission Company (Petitioner), One Woodward Avenue, Detroit, Michigan 48226, filed in Docket No. CP66–110 a petition to amend the order issuing a certificate of public convenience and necessity in said docket pursuant to section 7(c) of the Natural Gas Act so as to delete authorization to construct certain delivery points to serve Michigan Consolidated Gas Company (Michigan Consolidated), all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Petitioner was authorized by the order of June 20, 1967, in said docket (37 FPC 1070) to construct a new pipeline across northern Minnesota and the Upper and Lower Peninsulas of Michigan in order to transport gas imported from Canada into the United States and to sell up to 57,000 Mcf of gas per day to Michigan Consolidated for resale in six communities in Michigan including Manistique, Newberry, Rudyard, and St. Ignace. After Michigan Consolidated failed to initiate service to Manistique, Michigan, Petitioner was ordered by the Commission in Opinion No. 640 issued December 13, 1972, in Docket No. CP72–68 to sell approximately 3,000 Mcf of gas to the Michigan Power Company (Michigan Power) for resale in the town of Manistique and to construct a delivery point to facilitate said sale, and to sell up to 57,000 Mcf per day of gas to Michigan Consolidated less the volume sold to Michigan Power. In the order of April 9, 1973, in Docket No. CP72–68 the Commission approved the settlement between Petitioner, Michigan Consolidated, and Michigan Power providing for sales by Petitioner to Michigan Power at a straight commodity rate, and a demand charge credit to Michigan Consolidated to the extent that Petitioner's deliveries be less than 57,000 Mcf of gas, computed on an annual basis.

Petitioner states that, in addition to Manistique, Michigan Consolidated has not yet requested Petitioner to install metering facilities or to deliver gas to it for resale to Newberry, St. Ignace, or Rudyard, Michigan. It is stated that Michigan Consolidated intends to request installation of facilities and commencement of deliveries for service to Rudyard within the foreseeable future, but does not intend to make such a request for service to Newberry and St. Ignace. Therefore, Petitioner requests that the authorization be deleted for the construction of delivery facilities necessary for Michigan Consolidated to sell gas to Newberry and St. Ignace, Michigan. In the alternative to amendment of the order issuing the certificate, Petitioner

V 38 I 130 JUL 9 73 XUM

requests the Commission issue a declaratory order clarifying Petitioner's obligations under the certificate issued in Docket No. CP66–110 respecting installation of delivery points and initiation of service which Michigan Consolidated has informed Petitioner will not be required.

Any person desiring to be heard or to make any protest with reference to said petition should on or before July 23, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73–13860 Filed 7–6–73;8:45 am]

[Docket No. E–8197]

GULF STATES UTILITIES CO.

Change in Delivery Points

JUNE 18, 1973.

Take notice that on May 11, 1973, Gulf States Utilities Company (Applicant) filed with the Federal Power Commission an application for changes in points of delivery under Agreements with Sam Rayburn Dam Electric Cooperative, Inc., designated in Rate Schedule FPC No. 98, and with Sam Houston Electric Cooperative, Inc., designated in Rate Schedule FPC No. 69.

Applicant states that it is constructing two new facilities:

(A) A new 3 phase, 13.8 Kv metering point, designated Hardin Substation delivery point, located one mile east of Hardin, Texas off FM Road 834.

(B) A new 3 phase, 13.8 Kv metering point, designated Spurger delivery point, located four miles west of Spurger, Texas on FM Road 1013.

These facilities will have an effective date of approximately June 1, 1973.

The application states that temporary service is being provided under the Agreements at a 3-phase, 13.8 Kv metering point, designated the North Hardin Temporary Delivery Point, located one mile north of Hardin on State Highway 146, effective March 29, 1973. This temporary delivery point and the temporary delivery point, designated Liberty in Docket No. E–8077, will be removed when Hardin Substation is completed.

Any person desiring to be heard or to make any protest with reference to said applications should, on or before July 6, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. C173–901]

HUGHES & HUGHES

Notice of Application

JUNE 29, 1973.

Take notice that on June 18, 1973, Hughes & Hughes (Applicant), P.O. Drawer 669, Beeville, Texas 78102, filed in Docket No. C173–901 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Florida Gas Transmission Company from the Potrero Lopeno Field, Kenedy County, Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell up to 5,000 Mcf of gas per day for one year at 42.5 cents per Mcf at 14.65 psia, subject to upward and downward Btu adjustment, within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70).

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before July 16, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by section 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[Docket No. E–8205]

INTERSTATE POWER CO.

Notice of Initial Rate Schedule

JUNE 28, 1973.

Take notice that on April 30, 1973, Interstate Power Company (Interstate) tendered for filing an Electric Service Agreement with the City of Independence, Iowa (City) as an initial rate schedule. Interstate states that the Agreement provides that City will construct a 12.5KV interconnection and pay all expenses incidental to providing the interconnection and that the term of the Agreement is for three months from January 23, 1973, with provision for month-to-month extension if mutually agreed upon. Interstate submits that charges for service under the Agreement are identical to the charges approved by the Commission for Interstate's service to a number of municipal systems in Iowa, Illinois, and Minnesota by order issued May 9, 1972, in Docket No. E–7692.

An effective date of January 23, 1973, is requested.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 12, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of the filing are on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73–13769 Filed 7–6–73;8:45 am]

[Docket No. E–8172]

KENTUCKY UTILITIES CO.

Order Rejecting in Part Proposed Increased in Rates, Filing in Part and Suspending Proposed Increases in Rates, Providing for Hearing, Establishing Procedures and Permitting Interventions

JUNE 29, 1973.

On May 1, 1973, Kentucky Utilities Company filed in Docket No. E–8172 a proposed increased rate, designated WPS–73, applicable to service provided by Kentucky to eleven all-requirements municipal customers in Kentucky[1] and to its wholly-owned subsidiary Old Dominion Power Company.[2] In addition Kentucky submitted as a part of its filing a proposed increase in rates for service to its partial requirements customer, the City of Paris.[3] The proposed increases in rates amount in total to approximately $733,000 annually, based on a 12-month test period ended July 31, 1972. Kentucky states that the purpose of its filing is to bring the company's wholesale rates to a level more nearly reflecting increases in costs which it has experienced in recent years. Kentucky requested the proposed increase be permitted to become effective on July 1, 1973.

Notice of Kentucky's filing was issued on May 30, 1973, providing for comments thereon to be filed on or before June 15, 1973. In response to the notice the eleven municipal wholesale customers filed, on June 14, 1973, a motion to reject the filing and a petition to intervene. On June 15, 1973, a similar request for rejection and petition to intervene was filed by the City of Paris. The above customers allege that their contracts with Kentucky are fixed-rate contracts, and that unilateral increases in rates thereunder, as proposed by Kentucky, are proscribed by the rule of law established in the Mobile and Sierra cases.[4]

A review of the contracts between Kentucky and the municipal all-requirements customers reveals that they are in fact fixed-rate contracts without any provision for unilateral changes in the specified rates during the term of the contracts. Under the Mobile-Sierra doctrine, a utility may not increase its contractually established rates by means of unilateral rate increase applications under section 205 of the Federal Power Act or section 4 of the Natural Gas Act. Under these circumstances, and in the absence of the concurrence of the customers, this Commission is without authority to entertain Kentucky's rate increase application as to the all-requirements municipal customers and accordingly it must be rejected.

Paris also argues that its contract with Kentucky likewise prohibits unilateral rate filings. We cannot agree. Paris relies on section 8.01 of the subject contract, which provides, in pertinent part, as follows:

8.01 Each party shall designate an Operating Representative and an alternate who shall be fully authorized to:

* * * * * *

(C) To cooperate and arrange for the interchange of power and energy, and to agree upon the charges for such power and energy or other items of value furnished incident thereto by one party to the other.

Paris takes the position that under the above provision no rate increase is permitted except as agreed to by it, and that not having agreed to the proposed increase by Kentucky, that increase must be rejected. The contract, however, also provides, in section 7.06, that:

In the event there should be substantial changes in the economic conditions which would substantially affect the cost of providing generating capacity or the cost of production of electric energy, it is the intention of the parties hereto that a revision in rates should be considered and effected.

We find this latter provision to be controlling. The rates in question are subject to the exclusive jurisdiction of this Commission, and even if Kentucky and Paris were to agree upon a new rate, such new rate would be subject to FPC approval. Where no such agreement is reached, the just and reasonable rate must be established by this Commission in order to give meaning to the express terms of the contract. Accordingly, the proposed increase in rates for service to Paris will be accepted for filing. Since the proposed rates for both Paris and Old Dominion may be excessive, such rates will be suspended, set for hearing, and permitted to become effective after suspension subject to refund.

The petitions to intervene appear reasonable and will be granted.

The Commission orders

(A) Pursuant to the authority of the Federal Power Act, particularly sections 205, 206, 301, 308, and 309 thereof, and the Commission's rules and regulations, a public hearing shall be held concerning the lawfulness of Kentucky's proposed increase in rates for jurisdictional service to the City of Paris and Old Dominion Power Company, commencing with a prehearing conference to be held on November 9, 1973.

(B) Pending such hearing and decision thereon, Kentucky's proposed increase in its rates to Paris and Old Dominion are hereby accepted for filing, suspended for a period of two months, and the effectiveness thereof deferred until September 1, 1973.

(C) The proposed increase in rates to Kentucky's above-mentioned all requirements municipal customers is rejected.

(D)) At the prehearing conference on November 9, 1973, the direct evidence of the company and the staff shall be admitted into the record, and procedures adopted for an orderly and expeditious hearing.

(E) On or before November 2, 1973, the Commission's staff shall serve its prepared testimony and exhibits, if any. The prepared testimony and exhibits of other parties, if any, shall be served on or before November 23, 1973. Any rebuttal evidence by Kentucky shall be served on or before December 14, 1973. Cross-examination of the evidence filed shall commence at 10;00 a.m., e.s.t. on December 17, 1973, in a hearing room of the Federal Power Commission.

(F) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose shall preside at the hearing initiated by this order, and shall conduct such hearing in accordance with the Federal Power Act, the Commission's rules and regulations, and the terms of this order.

(G) The above-named petitioners are hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervenors shall be limited to matters affecting the rights and interests specifically set forth in their petitions to intervene; and *Provided, further,* That the admission of such intervenors shall not be construed as recognition that they or any of them might be aggrieved because of any order issued by the Commission in this proceeding.

(H) Nothing contained in this order shall relieve the applicant of any responsibility imposed by the Economic Stabilization Act of 1970, (Public Law 91–379, 84 Stat. 799, as amended by Public Law 92–15, 85 Stat. 38), or by any Executive Order or rules and regulations promulgated pursuant to such Act.

(I) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

KENTUCKY WEST VIRGINIA GAS CO.

Notice of Change in Tariff

JUNE 28, 1973.

Take notice that on June 8, 1973, Kentucky West Virginia Gas Company (Kentucky) tendered for filing the following tariff sheet for Kentucky's FPC Gas Tariff Original Volume No. 1:

Third Revised Sheet No. 12–A, Superseding Second Revised Sheet No. 12–A, per Order dated May 31, 1973, in Docket No. RP73–97

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 10, 1973. Protests will be

V 38 I 130 JUL 9 73 XUM

considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI73-844]

LACY ARMOUR AND ARMOUR PROPERTIES

Notice of Amendment to Application

JUNE 28, 1973.

Take notice that on June 22, 1973, Lacy Armour, d/b/a Armour Properties (Applicant), 1107 Oil and Gas Building, Wichita Falls, Texas 76301, filed in Docket No. CI73-844 and amendment to the application filed on June 4, 1973, in said docket pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to United Gas Pipe Line Company from the Manahulla Field, Goliad County, Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

In its application of June 4, 1973, Applicant stated that it commenced the sale of natural gas on May 25, 1973, within the contemplation of § 157.29 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale for one year from the end of the sixty-day emergency period within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70). Applicant proposes in its application to sell up to 2,000 Mcf of gas per day at 50.0 cents per Mcf at 14.65 psia. Applicant now proposes to sell said gas at 45.0 cents per Mcf at 14.65 psia.

Any person desiring to be heard or to make any protest with reference to said application should on or before July 23, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules. Persons who have heretofore filed protests and petitions to intervene need not file again.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13771 Filed 7-6-73;8:45 am]

LAWRENCEBURG GAS TRANSMISSION CORP.

Notice of Change in Tariff

JUNE 29, 1973.

Take notice that on June 20, 1973, Lawrenceburg Gas Transmission Corporation (Lawrenceburg) tendered for filing the following revisions to its FPC Gas Tariff, Original Volume No. 1:

(1) Second Revised Sheet No. 3-A, superseding Substitute First Revised Sheet No. 3-A

(2) Second Revised Sheet No. 18-B, superseding First Revised Sheet No. 18-B

Lawrenceburg states that the revised gas tariff sheets are being filed to reflect a change in the cost of gas purchased from Texas Gas Transmission Corporation, pursuant to the provisions of Lawrenceburg's Purchased Gas Adjustment Clause in its FPC Tariff, Original Volume No. 1, approved by Commission Order issued February 5, 1973, in Docket No. RP73-23. The company estimates the change will generate an additional annual revenue of $50,708. An effective date of August 1, 1973, is proposed.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 16, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of the filing are on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13747 Filed 7-6-73;8:45 am]

[Docket No. CI73-904]

LOGUE AND PATTERSON, ET AL.

Notice of Application

JUNE 29, 1973.

Take notice that on June 20, 1973, Logue and Patterson, et al. (Applicant), 628 Meadows Building, Dallas, Texas 75206, filed in Docket No. CI73-904 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to United Gas Pipe Line Company from the McFaddin Field, Victoria County, Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it commenced the sale of natural gas on June 1, 1973, within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue such sale for one year from the end of the sixty-day emergency period within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70). Applicant proposes to sell approximately 37,500 Mcf of gas per month under a contract which provides for a rate of 50.0 cents per Mcf at 14.65 psia. Applicant is willing to accept a certificate conditioned to an initial rate of 45.0 cents but reserves its right to file for its full contractual entitlement.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before July 16, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by section 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13748 Filed 7-6-73;8:45 am]

[Docket No. CI73-903]

MARSHALL, DOUGLAS B., ET AL.

Notice of Application

JULY 2, 1973.

Take notice that on June 20, 1973, Douglas B. Marshall, et al. (Applicants), 500 Jefferson Building, Houston, Texas 77002, filed in Docket No. CI73-903 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas to Transcontinental Gas Pipe Line Corporation (Transco) from the South Gibson Area and Humphreys Area, Terrebonne Parish, Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicants were authorized by the Commission's order of March 2, 1973, in Docket No. CI73-498 to sell up to 70,000 Mcf of gas per day at 45.0 cents per Mcf at 15.025 psia to Transco from said areas of Terrebonne Parish for a term expiring on July 24, 1973. Applicants propose to continue said sale within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70) for a period commencing on July 24, 1973, and not to exceed six months with the right of Applicants to terminate said sale upon 30 days notice to Transco after Octobr 23, 1973, so that Applicants may sell the gas under a long term contract to Northern Michigan Exploration Company. Applicants propose to sell approximately 1,500,000 Mcf of gas per month at 50.0 cents per Mcf at 15.025 psia.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before July 12, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by section 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8284]

MISSISSIPPI POWER & LIGHT CO.

Notice of Application

JULY 2, 1973.

Take notice that on June 13, 1973, Mississippi Power & Light Company (Applicant) filed an application seeking an order pursuant to section 203 of the Federal Power Act authorizing it to acquire certain electric transmission facilities from Delta Electric Power Association (Association).

Applicant is incorporated under the laws of the State of Mississippi with its principal business office at Jackson, Mississippi and is engaged in the electric utility business in parts of 45 of the 82 counties in the State.

The Association is an electric power association organized under the laws of Mississippi and owns and operates other facilities for the distribution and sale of electric energy in 13 counties of Western Mississippi.

The Applicant proposes, subject to regulatory approval, to perform its agreement of April 21, 1972 with the Association to lease, operate, maintain and to purchase at the end of ten (10) years (or earlier) approximately 2.5 miles of 115 KV transmission line to be located in Carroll County, Mississippi.

Applicant will pay an annual lease rental equal to 2½ percent of the original cost of said line and will make ten (10) annual payments equal to 7½ percent of said cost toward the purchase of the line. Upon completion of said payment, Delta will convey title of said line to Applicant. The cost of the facilities to be leased and purchased is estimated at $155,000.

Any person desiring to be heard or to make any protest with reference to said application should, on or before July 10, 1973, file with the Federal Power Commission, Washington, D.C., 20426, petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP72-132]

NATURAL GAS PIPELINE COMPANY OF AMERICA

Notice of Rate Changes Pursuant to Amended Settlement Agreement

JUNE 29, 1973.

Take notice that on June 15, 1973, Natural Gas Pipeline Company of America (Natural) tendered for filing to be a part of its FPC Gas Tariff, Third Revised Volume No. 1:

Substitute Ninth Revised Sheet No. 5
Second Substitute Ninth Revised Sheet No. 5

Natural states that the purpose of the filing is to give effect to a unit adjustment effective August 1, 1973, applicable to its base rates to reflect the cost of service effect for advance payments for gas made by June 15, 1973, that are in excess of the amount for such expenditures stipulated in its amended stipulation and agreement at Docket No. RP72-132 presently pending before the Commission.

Natural further states that it recognizes that the rate changes as filed will not become effective unless the Commission approves the amended stipulation and agreement and that the filing was made to comply with the 45 day notice of rate change as required by the amended settlement agreement.

Natural states that copies of the filing have been mailed to its customers and all interested parties to Docket No. RP72-132.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 16, 1973.

Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8225]

NIAGARA MOHAWK POWER CORP.

Notice of Filing of Proposed Transmission Agreement

JULY 2, 1973.

Take notice that Niagara Mohawk Power Corporation (Niagara) on May 23, 1973, tendered for filing a Transmission agreement dated April 12, 1973, between Niagara and Rochester Gas & Electric Corporation (RG&E) which provides for the transmission of power and energy to and from the New York State Power Authority's (Power Authority) Blenheim-Gilboa Pumped-Storage Plant for the account of RG&E, to become effective on the date when the first unit of the Gilboa Plant is placed in commercial operation. Niagara states that a copy of this filing has been sent to RG&E.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in

V 38 130 JUL 9 73 XUM

accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 10, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of the filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13752 Filed 7-6-73;8:45 am]

[Docket No. E-8130]

MIDDLE SOUTH SERVICES, INC.

Filing and Suspending Proposed Interconnection Agreement, Providing for Limited Hearing, and Establishing Procedures

JUNE 29, 1973.

On April 16, 1973, Middle South Services, Inc., on behalf of Arkansas Power and Light Company, Arkansas-Missouri Power Company, Louisiana Power and Light Company, Mississippi Power and Light Company, and New Orleans Public Service, Inc., tendered for filing in Docket No. E-8130 a proposed agreement governing the interconnection and sale and exchange of power between and among the participating utilities. These utilities are affiliates of the integrated Middle South Utilities, Inc., system. The proposed agreement supersedes various existing agreements between the participating companies. Middle South requests that the proposed new agreement be permitted to become effective on July 1, 1973.

Notice of the filing of the subject agreement was issued on April 25, 1973, providing for protests or petitions to intervene to be filed on or before May 10, 1973. No responses to the notice have been received.

Based on a review of the proposed agreement and the data submitted in support thereof, we find that, except as noted below, the agreement is reasonable and in the public interest and should be accepted for filing and approved.

The proposed agreement provides a formula for determining capability equalization charges and charges for equalization of transmission costs. The formula proposed to be used by the parties in determining equalization payments for capability and for ownership costs associated with inter-transmission investment utilize a return on common equity of 14 percent with incremental debt cost used in determining the capability equalization charges and embedded debt cost used in determining the equalization of transmission facility charges. We approve the formula except for the use of the 14 percent equity return. Such return appears to be excessive. We will therefore suspend operation of the proposed agreement for one day, and permit it to become effective thereafter subject to refund. We will provide for a limited hearing solely on the issue of the proper equity return to be used in the formula for determining charges under the agreement. In all other respects the agreement will be approved, provided that Middle South file a report of the operation and maintenance expenses incurred in the first year of actual experience under the proposed rates.

Middle South requests waiver of § 35.13(b)(5)(i) of the Commission's regulations requiring the submission of a formal case-in-chief in support of the proposed agreement. In view of the action taken herein with respect to the agreement, it appears that waiver of the regulation should be granted.

The Commission finds

(1) It is necessary and proper in the public interest and in carrying out the provisions of the Federal Power Act, that the Commission enter onto a hearing concerning the lawfulness of the proposed interconnection agreement, subject to the limitations hereinbefore described, and that the proposed agreement be suspended for one day as hereinafter ordered.

(2) The proposed increased rate and charges have not been shown to be justified and may be unjust, unreasonable, unduly discriminatory, preferential, or otherwise unlawful.

The Commission orders

(A) Pursuant to the authority of the Federal Power Act, particularly sections 205, 206, 301, 308, and 309 thereof, and the Commission's Rules and Regulations, a public hearing shall be held concerning the lawfulness of the proposed interconnection agreement submitted in this docket, commencing with a prehearing conference on July 27, 1973.

(B) The hearing ordered by paragraph (A) above shall be limited to the issue of the proper equity return to be utilized in the formulae used to determine charges under the agreement. In all other respects the agreement is approved, provided that Middle South file a timely report of the operation and maintenance expenses incurred in the first year of actual experience under the rates to be established herein.

(C) Pending hearing and decision thereon, the proposed agreement is hereby accepted for filing, suspended for one day, and the use thereof deferred until July 2, 1973.

(D) At the prehearing conference on July 27, 1973, the Presiding Judge shall determine the need for the filing of evidence by any party to the proceeding, and shall provide for the submission and cross-examination thereof as may be required.

(E) Section 35.13(b)(5)(i) of the Commission's regulations under the Federal Power Act is waived.

(F) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose shall preside at the hearing initiated by this order, and shall conduct such hearing in accordance with the Federal Power Act, the Commission's rules and regulations, and the terms of this order.

(G) Nothing contained in this order shall relieve the applicant of any responsibility imposed by the Economic Stabilization Act of 1970 (Public Law 91-379, 84 Stat. 799, as amended by Public Law 92-15, 85 Stat. 38), or by any Executive Order or rules and regulations promulgated pursuant to such Act.

(H) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13862 Filed 7-6-73;8:45 am]

[Project No. 407]

MINERAL RANGE POWER CO.

Order Vacating Land Withdrawal

JUNE 27, 1973.

Application has been filed by the U.S. Department of Agriculture for vacation in its entirety of the Land Withdrawal for Project No. 407, thereby requiring Commission consideration under section 24 of the Federal Power Act.

The following described lands are variously withdrawn pursuant to filings by the Mineral Range Power Company on April 12, 1923, and February 1, 1926, of original and amended applications for preliminary permit for Project No. 407 for which the Commission gave notices of land withdrawal to the General Land Office (now Bureau of Land Management) by letters dated May 22, 1923, and March 26, 1926.

PRINCIPAL MERIDIAN, MONTANA

T. 5 S., R. 15 E., sec. 32, S½NE¼, SE¼, and unsurveyed E½SW¼;
sec. 33, SW¼NW¼, SW¼, W½SE¼.
T. 6 S., R. 15 E., (unsurveyed)
sec. 4, N½NW¼, SW¼NW¼;
sec. 5, N½, SW¼, N½SE¼, SW¼SE¼;
sec. 6, SE¼NE¼, NE¼SW¼, S½SW¼, SE¼;
sec. 7, N½N½;
sec. 8, NW¼NW¼.

(approximately 1,840 acres)

The lands lie within the Custer National Forest and are located along the Stillwater River, a tributary of the Yellowstone River.

Project No. 407 (estimated potential 1,600 horsepower) contemplated construction of a diversion dam on the Stillwater River below Sioux Charley Lake with a conduit leading to a powerhouse near the mouth of Woodbine Creek. Diversion of flows from Woodbine Creek to the same powerhouse was also contemplated. A three-year preliminary permit for the project expired on February 7, 1927, and an application for license was not filed.

An engineering analysis of the project conducted in 1923 by the District Engineer of the U.S. Forest Service indicated that development of the site was economically infeasible. A recent analysis by our staff concluded that the lands do not offer opportunity for the economical development of hydroelectric power.

The U.S. Geological Survey has reported that the lands have negligible power value and recommended that the withdrawal for Project No. 407 be vacated in its entirety.

The Commission's current inventory of developed and undeveloped hydroelectric sites does not include any sites in this reach of the Stillwater River.

The Commission finds.

The withdrawal for Project No. 407 serves no useful purpose and should be vacated.

The Commission orders.

The withdrawal of the subject lands pursuant to the applications for Project No. 407 is hereby vacated in its entirety.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

NATIONAL POWER SURVEY TECHNICAL ADVISORY COMMITTEE ON RESEARCH AND DEVELOPMENT TASK FORCE ON ENERGY CONVERSION RESEARCH

Agenda and Notice of Meeting

Agenda For a meeting of the TECHNICAL ADVISORY COMMITTEE ON RESEARCH AND DEVELOPMENT TASK FORCE ON ENERGY CONVERSION RESEARCH, to be held at the Federal Power Commission Offices, 825 North Capitol Street, NE., Washington, D.C., 1:00 p.m., July 10, 1973, 9:30 a.m., July 11, 1973, Room 5200.

1. Meeting called to order by FPC Coordinating Representative.
2. Approval of minutes of previous meeting.
3. Objectives and purposes of meeting.
A. Review status of the reports on individual energy conversion technologies.
B. Review progress in editing of the Task Force report to the TAC on R&D.
C. Discussion of R&D priorities and budgets.
D. Other business.
E. Dates for future meetings.
4. Adjournment.

This meeting is open to the public. Any interested person may attend, appear before, or file statements with the committee—which statements, if in written form, may be filed before or after the meeting, or, if oral, at the time and in the manner permitted by the committee.

KENNETH F. PLUMB,
Secretary.

NATIONAL POWER SURVEY TECHNICAL ADVISORY COMMITTEE ON CONSERVATION OF ENERGY TASK FORCE ON ENVIRONMENTAL ASPECTS

Agenda and Notice of Meeting

Agenda For a Meeting of the Technical Advisory Committee on Conservation of Energy Task Force on Environmental Aspects, To be held at the Federal Power Commission Offices, 825 North Capitol Street, NE., Washington, D.C., 1:30 p.m., July 9, 1973, Room 5200.

1. Meeting called to order by the FPC Coordinating Representative.
2. Objectives and purposes of meeting.
A. Review Task Force progress in development of Econometric Model.
B. Prepare Task Force report to TAC on finance.
C. Discussion of other business.
D. Schedule date of next meeting.
3. Adjournment.

This meeting is open to the public. Any interested person may attend, appear before, or file statements with the Task Force—which statements, if in written form, may be filed before or after the meeting, or, if oral, at the time and in the manner permitted by the Task Force.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13853 Filed 7-6-73;8:45 am]

NATIONAL POWER SURVEY TECHNICAL ADVISORY COMMITTEE ON FINANCE

Agenda and Notice of Meeting

Agenda for Fourth Meeting of the TECHNICAL ADVISORY COMMITTEE ON FINANCE TASK FORCE—FUTURE FINANCIAL REQUIREMENTS to be held at the Federal Power Commission Offices, 825 North Capitol Street, NE., Washington, D.C., 10 a.m., July 20, 1973, Room 5200.

1. Meeting called to order by FPC Coordinating Representative.
2. Objectives and purposes of meeting.
A. Approval of minutes of May 29, 1973 meeting.
B. Review fourth draft of Jim MacKenzie's study entitled "Some Adverse Environmental Effects of Energy Consumption through the Year 2000".
C. Review the second draft of Fred Lawrence's study entitled "The Impact of Environmental Protection Legislation on Energy Use".
D. Review the first draft of Marc Roberts' study on economic and policy aspects of conservation of energy.
E. Other Business
3. Adjournment

This meeting is open to the public. Any interested person may attend, appear before, or file statements with the committee—which statements, if in written form, may be filed before or after the meeting, or, if oral, at the time and in the manner permitted by the committee.

KENNETH F. PLUMB,
Secretary.

NATIONAL POWER SURVEY TECHNICAL ADVISORY COMMITTEE ON POWER SUPPLY

Agenda and Notice of Meeting

Agenda For a Meeting of the TECHNICAL ADVISORY COMMITTEE ON POWER SUPPLY to be held at the Federal Power Commission Offices; 825 North Capitol Street, NE., Washington, D.C., 8:30 a.m., July 24, 1973, Room 5200.

1. Meeting opened by FPC Coordinating Representative.

V 38 I 130 JUL 9 73 XUM

2. Objectives and purposes of meeting.
A. Additions and corrections to minutes of meeting of April 10, 1973.
B. Discussion of Generation Installations Study Area (Mr. Hanrahan).
C. Discussion of Power Operations Study Area (Mr. Dille).
D. Interim report on Contingency Planning (Mr. Biggerstaff).
E. Report on Task Force on Forecast Review (Mr. Lloyd).
F. Other Business.
G. Date of Next Meeting.
3. Adjournment.

This meeting is open to the public. Any interested person may attend, appear before, or file statements with the committee—which statements, if in written form, may be filed before or after the meeting, or, if oral, at the time and in the manner permitted by the committee.

KENNETH F. PLUMB,
Secretary.

NATURAL GAS PIPE LINE CO. OF AMERICA AND TEXACO INC.

Amended Notice of Further Postponement of Procedural Dates

JUNE 28, 1973.

Notice is hereby given that the procedural dates set by the order issued May 23, 1973, as modified by the notices issued June 13, 1973, and June 22, 1973, are further modified as follows:

Service of evidence by applicants and persons in support of the application, July 5, 1973
Service of answering evidence by applicants and interveners, July 16, 1973
Commencement of hearing, July 31, 1973 (10 am., e.d.t.)

Action on the request for a prehearing conference will be by subsequent order.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13773 Filed 7-6-73;8:45 am]

[Docket No. E-8169]

NEW ENGLAND POWER CO.

Filing and Suspending Proposed Rate Schedule Amendment, Providing for Hearing, and Establishing Procedures

JUNE 29, 1973.

On April 30, 1973, New England Power Company (NEPCO) filed in Docket No. E-8169 an amendment to NEPCO's contract for primary service for resale to its affiliate, Narragansett Electric Company.[1] Narragansett's concurrence in the amendment was included in NEPCO's filing.[2] The proposed amendment provides for an increase in the credits allowed to Narragansett for the integration of its generation and transmission facilities into the NEPCO system. The proposed new generation credit amounts to $631,333 monthly exclusive of municipal taxes, and the proposed monthly transmission credit amounts to $291,450. NEPCO requests waiver of the Commission's regulations to permit the proposed contract amendment to become effective as of January 1, 1973.

Notice of NEPCO's filing was issued on May 15, 1973, providing for protests or petitions to intervene to be filed on or before May 23, 1973. In response to the notice a late petition to intervene was filed on June 8, 1973, by the NEPCO Municipal Customer Rate Committee, consisting of twenty-seven municipal electric plants and departments who are customers of NEPCO. These petitioners request that NEPCO's filing be suspended for at least one day, and that this proceeding be consolidated with NEPCO's recently filed wholesale rate proposal. NEPCO filed for a general rate increase on June 1, 1973, in Docket No. E-8251. Petitioners requests appear reasonable and will be granted with the exception of their request for consolidation. The Commission has not had an opportunity to review NEPCO's filing in Docket No. E-8251, and has taken no action with respect to it. The request for consolidation will therefore be denied as premature without prejudice, however, to a renewal of the request at a later date.

Our review of NEPCO's filing indicates the issues raised therein require development in an evidentiary hearing. The proposed credits to Narragansett have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, preferential or otherwise unlawful. Additionally the filing does not present grounds which are in our view adequate to support waiver of the applicable Regulations to permit a retroactive effective date. Accordingly, the proposed contract amendment will be suspended and set for hearing.

The Commission finds

(1) It is necessary and proper in the public interest and in carrying out the provisions of the Federal Power Act, that the Commission enter upon a hearing concerning the lawfulness of NEPCO's proposed contract amendment, and that such amendment be suspended as hereinafter provided.

(2) The proposed increased rate and charges have not been shown to be justified and may be unjust, unreasonable, unduly discriminatory, preferential, or otherwise unlawful.

The Commission orders

(A) Pursuant to the authority of the Federal Power Act, particularly sections 205, 206, 301, 308, and 309 thereof, and the Commission's rules and regulations, a public hearing shall be held concerning the lawfulness of NEPCO's proposed contract amendment herein, commencing with a prehearing conference to be held on November 6, 1973.

(B) Pending such hearing and decision thereon, NEPCO's proposed amendment of its contract with Narragansett is hereby accepted for filing, suspended for one day, and the use thereof deferred until July 1, 1973.

(C) The rates permitted to become effective herein, after suspension, shall be subjected to Executive Order No. 11723 and regulations promulgated thereunder.

(D) At the prehearing conference on November 6, 1973, the direct evidence of the company and the staff shall be admitted into the record, and procedures adopted for an orderly and expeditious hearing.

(E) On or before October 30, 1973, the Commission's staff shall serve its prepared testimony and exhibits, if any. The prepared testimony and exhibits of other parties, if any, shall be served on or before November 14, 1973. Any rebuttal evidence by NEPCO shall be served on or before November 28, 1973. Cross-examination of the evidence filed shall commence at 10:00 A.M. on December 6, 1973, in a hearing room of the Federal Power Commission.

(F) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose shall preside at the hearing initiated by this order, and shall conduct such hearing in accordance with the Federal Power Act, the Commission's Rules and Regulations, and the terms of this order.

(G) The above-named petitioners are hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervenors shall be limited to matters affecting the rights and interests specifically set forth in their petition to intervene; and *Provided, further,* That the admission of such intervenors shall not be construed as recognitions that they or any of them might be aggrieved because of any order issued by the Commission in this proceeding.

(H) The request of the NEPCO Municipal Customer Rate Committee for consolidation of this proceeding with NEPCO's wholesale rate increase proposal in Docket No. E-8251 is denied, without prejudice however, to its renewal at a later date.

(I) Nothing contained in this order shall relieve the applicant of any responsibility imposed by the Economic Stabilization Act of 1970, (Public Law 91-379, 84 Stat. 799, as amended by Public Law 92-15, 85 Stat. 38), or by any Executive Order or rules and regulations promulgated pursuant to such Act.

(J) The secretary shall order prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

PACIFIC GAS TRANSMISSION CO.

Notice of Extension of Time and Postponement of Prehearing Conference and Hearing

JUNE 28, 1973.

On June 22, 1973, Pacific Gas Transmission Company filed a motion for continuance of the procedural dates fixed by the order issued June 4, 1973, in the above-designated matter. The motion states that staff counsel is not opposed to the request.

Upon consideration, notice is hereby given that the procedural dates are modified as follows:

Service of testimony and exhibits by Pacific Gas Transmission Company, July 25, 1973
Service of testimony and exhibits by Staff, August 16, 1973
Prehearing Conference, August 23, 1973 (10 am., e.d.t.)
Service of testimony and exhibits by interveners, August 30, 1973
Service of Rebuttal evidence by Pacific Gas Transmission Company, September 13, 1973
Cross-examination, September 27, 1973 (10 am., e.d.t.)

KENNETH F. PLUMB,
Secretary.

[FR Doc. 73-13774 Filed 7-6-73;8:45 am]

[Docket No. E-8159]

PENNSYLVANIA POWER CO.

Order Accepting and Suspending Proposed Tariff Sheets, Denying Motion To Reject, Establishing Hearing Procedures, and Permitting Intervention

JUNE 29, 1973.

On April 30, 1973, Pennsylvania Power Company (PPC) tendered for filing new PPC rate schedules for its municipal wholesale customers. The affected municipalities and the FPC rate schedules in effect for each are as follows:

New Wilmington	No. 14
Wampum	No. 15
Zelienople	No. 16
Ellwood City	No. 17
Grove City	No. 19

PPC stated that the proposed rate schedules would provide for an increase in rates of $539,719 (54.62 percent) and the addition of a fuel cost adjustment clause and a load shedding clause. PPC explained that the proposed rate increase is necessary because its return is declining and is no longer just and reasonable. PPC claimed that its present rate of return related to the sales herein is 6.39 percent.

PPC said the fuel adjustment clause is necessary because of increased fuel costs and perhaps by a price decline. PPC stated that the purpose of the load shedding provision is to shift to the municipalities a commensurate share of the burden that PPC has undertaken in agreement with other interconnected systems to shed load in underfrequency system conditions to enhance reliability of the coordinated systems network by reducing the impact of widespread system operating problems.

PPC asked for an effective date of July 1, 1973.

Notice of the filing was issued on May 8, 1973, with protests and petitions to intervene due on or before May 24, 1973. A timely Protest was filed May 24, 1973, by the Borough of New Wilmington. A Protest, Motion To Reject and Petition To Intervene was timely filed by the Boroughs of Ellwood City, Grove City, Zelienople, New Wilmington, and Wampum, Pennsylvania (Boroughs). Boroughs protests the proposed rate as being in violation of sections 205 (a) and (b) of the Federal Power Act. Boroughs also moves to have the filing rejected as not in accordance with the Commission's Rules. In support of its motion to reject, Boroughs first argues that PPC failed to comply with § 35.13 (iv) of the regulations under the Federal Power Act in that PPC's Statement G fails to show the precise rate of return required. Our review of the filing indicates that PPC's filing is in substantial compliance with requirements of § 35.13 (iv) because a specific rate of return is set for on Schedule 13 of Exhibit 4 filed simultaneously with the rate filing.

Boroughs also alleges that FPC's rates contain a restrictive clause prohibiting Boroughs' from attaching load already served by the Company, a unique load shedding provision, and improperly force Boroughs to spend more for new equipment. These allegations cannot be dealt with summarily but rather need development at an evidentiary hearing.

In the event that the filing is not rejected, Boroughs strongly urges the Commission to suspend the proposed rate schedule changes for the full five month statutory period provided for in section 205(e) of the Federal Power Act, set the matter for hearing, and requests permission to intervene in these proceedings. On June 4, 1973, PPC filed an answer that refuted many of Boroughs' arguments, and asked that the Commission deny Boroughs' allegations.

Our review of PPC's filing, Boroughs' motion to reject the filing, and PPC's answer, indicates that issues are raised that may require a full evidentiary hearing.

The Commission finds

(1) The proposed rate schedules tendered for filing should be accepted for filing.

(2) The proposed increased rate and charges have not been shown to be justified and may be unjust, unreasonable, unduly discriminatory, preferential, or otherwise unlawful.

(3) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Federal Power Act that the Commission enter upon a hearing concerning the lawfulness of the rates and charges contained in above-enumerated rate schedules, and that the tendered rate schedules be suspended as hereinafter

The Commission orders

(4) The disposition of this proceeding should be expedited in accordance with the procedure set forth below.

(5) Participation of Boroughs may be in the public interest.

(6) The petition to reject by Boroughs should be denied.

(A) The above enumerated rate schedules are accepted for filing and their effectiveness suspended until December 1, 1973, or until such other time as they are made effective in the manner provided in the Federal Power Act.

(B) Boroughs' motion to reject is denied for the reasons heretofore stated.

(C) Pursuant to the authority of the Federal Power Act, including sections 205, 206, 308, and 309 thereof, the Commission's rules of practice and Procedure, and the Regulations under the Federal Power Act, a pubilc hearing shall be held commencing with a pre-hearing conference on November 13, 1973, at 10:00 a.m. e.s.t. in a hearing room of the Federal Power Commission, Washington, D.C. 20426, concerning the lawfulness of the rate increase as set forth above.

(D) On or before November 1, 1973, the Commission Staff shall serve its prepared testimony and exhibits. The prepared testimony and exhibits of any or all intervenors shall be served on or before November 20, 1973. Any rebuttal evidence by FPL shall be served on or before December 7, 1973. Cross-examination on the evidence filed will commence on December 18, 1973.

(E) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5(d)), shall preside at the hearing in this proceeding, and shall prescribe relevant procedural matters not herein provided, and shall control the proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure.

(F) Boroughs is hereby permitted to intervene in this proceeding, subject to the Rules and Regulations of the Commission: *Provided, however,* that the participation of Boroughs shall be limited to matters affecting the rights and interests specifically set forth in the respective petitions to intervene; and *Provided, further,* That the admission of Boroughs shall not be construed as recognition that they or any of them might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(G) Nothing contained in this order shall relieve the applicant of any responsibility imposed by the Economic Stabilization Act of 1970, (Public Law 91-379, 84 Stat. 799, as amended by Public Law 92-15, 85 Stat. 38), or by any Executive Order or rules and regulations promulgated pursuant to such Act.

(H) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13864 Filed 7-6-73;8:45 am]

V 38 I 130 JUL 9 73 XUM

[Docket No. E-8280]

PUBLIC SERVICE COMPANY OF NEW HAMPSHIRE

Notice of Initial Rate Schedule

JUNE 28, 1973.

Take notice that on June 15, 1973, Public Service Company of New Hampshire (Public) tendered for filing an agreement with New Hampshire Electric Cooperative, Inc. (the Cooperative) for subtransmission service for power from the Maine Yankee Atomic Power Company, dated December 1, 1972, as an initial rate schedule. On its contention that a projection of the amount of power to be transmitted in the future is unfeasible, Public has omitted an estimate of revenues from the billing charge on a per entitlement kilowatt basis but states that subtransmission charges for the first four months of operation have totaled $4871.28. Public states that copies of this filing have been sent to the Cooperative and the New Hampshire Public Utilities Commission. An effective date of December 1, 1972, is requested.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 12, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of the filing are on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13761 Filed 7-6-73;8:45 am]

[Docket No. E-8207 etc.]

RATE SCHEDULE

Notice of Application

JUNE 29, 1973.

Take notice that each of the Applicants listed herein filed an application pursuant to section 205 of the Federal Power Act and Part 35 of the regulations issued thereunder.

Any person desiring to be heard or to make any protest with reference to said applications should on or before July 20, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The applications are on file with the Commission and available for public inspection.

Docket No.	Filing Date	Name of Applicant
E-8207	May 1, 1973	Kentucky Utilities Co.

Applicant filed a contract for Electric Service, dated December 15, 1972, between Kentucky Utilities Company and the City of Providence, Kentucky. The contract states that service will be on Rate Schedule WPS-3R, which is on file with the Commission. Kentucky Utilities Company filed with this Commission on May 1, 1973, Rate Schedule WPS-73 which is proposed to become effective July 1, 1973 and is to supersede WPS-3R. In case of suspension of WPS-73 by the Commission, service will be rendered on WPS-3R during the suspension. Service is expected to begin on July 1, 1973.

Docket No.	Filing Date	Name of Applicant
E-8206	May 15, 1973	Pennsylvania Power and Light Company

Applicant filed a Supplement dated May 1, 1973, to the interconnection operation principles and practices effective June 1, 1960, issued in accordance with the interconnection agreement dated August 1, 1935, between United Gas Improvement Corporation (formerly Luzerne Electric Division of the United Gas Improvement Company, formerly Luzerne County Gas and Electric Corporation) and Pennsylvania Power and Light Company (United Gas Improvement Corporation Rate Schedule FPC No. 3 and Pennsylvania Power and Light Company Rate Schedule FPC No. 46).

The supplement provides for: (a) Classification of the supply by Pennsylvania Power and Light Company to United Gas Improvement Corporation under the rate schedule into two categories, supplemental supply and interchange; (b) an increase in the rate for transmission services, which is part of the rate for installed capacity purchases by United Gas Improvement Corporation and is also applicable to delivery of United Gas Improvement Corporation's apportionment of Conemaugh output through the Pennsylvania Power and Light Company system; (c) changes in the interchange accounting with respect to transactions which directly involve only United Gas Improvement Corporation and PJM other than Pennsylvania Power and Light Company; and (d) payment by United Gas Improvement Corporation of a portion of the monthly costs to operate the PJM Control Center. It is estimated that the overall effect of these changes would have been a reduction in net payments by United Gas Improvement Corporation to Pennsylvania Power and Light Company of $87,800 in the twelve month period from June, 1972 through May, 1973, and will be 71,300 in the twelve month period from June, 1973 through May, 1974.

Docket No.	Filing Date	Name of Applicant
E-8234	May 28, 1973	Carolina Power and Light Company

Applicant filed May 24, 1973, Supplement to the Contract dated April 4, 1938, between the Town of Pikeville, North Carolina and the Carolina Power and Light Company. The supplement provides for the removal of certain restrictions on sizes of loads to be resold and areas of resale with the Town of Pikeville, which Carolina Power and Light Company serves at wholesale. The supplement eliminates part of Paragraph 4 and the last sentence of Paragraph 7(b) of the agreement between Customer and the Company. The supplement filed herewith is to become effective 30 days after filing.

Docket No.	Filing Date	Name of Applicant
E-8239	May 29, 1973	Gulf States Utilities Company

Applicant filed a service agreement dated May 23, 1973, with Mid-South Electric Cooperative, Inc., pursuant to Rate Schedule FPC No. 76. The service agreement which becomes effective June 15, 1973, provides that an additional point of service has been provided on an emergency basis at Diamond Head, SW. Diamond Head Subdivision near Lake Conroe, Conroe, Texas.

Docket No.	Filing Date	Name of Applicant
E-8211	May 30, 1973	Kentucky Utilities Co.

Applicant filed a Service agreement dated May 25, 1973, between the Tennessee Valley Authority, Hickman-Fulton Counties Rural Electric Cooperative Corporation and Kentucky Utilities Company which amends the present contract between the three parties, dated September 29, 1953. This contract was filed with the Commission on July 31, 1972 and designated by the Commission as Company Rate Schedule FPC No. 93, Supplement No. 6.

Docket No.	Filing Date	Name of Applicant
E-8211	May 30, 1973	Kentucky Utilities Co.

The primary reason for changing the above contract is to reflect changes in delivery voltages and required changes in metering due to conversion to higher voltage.

Docket No.	Filing Date	Name of Applicant
E-8258	June 6, 1973	American Electric Power Service Corp.

Applicant filed May 31, 1973, amendment on behalf of Indiana & Michigan Electric Company to the operating Agreement dated March 1, 1966 among Consumers Power Company, The Detroit Edison Company, and Indiana & Michigan Electric Company. The amendment, effective July 1, 1973, modifies the agreement to provide for a new interconnection service under a new Service Schedule E—off Peak Power. The proposed rate for the service consists of a demand charges $0.25 per Kilowatt of billing demand for each month and an energy charge at a rate per kilowatt-hour equal to the out-of-pocket cost of the energy supplied plus 10 percent thereof. This off Peak Power Service is aimed towards optimizing the economic use of fuel resources during off peak hours by allowing one party during periods of one or more months when its operating costs of producing energy are high to displace such energy with energy from the other party which may be produced at a substantially lower cost.

Docket No.	Filing Date	Name of Applicant
E-8260	June 7, 1973	Interstate Power Co.

Applicant filed May 17, 1973, amendment to the Transmission Utilization Agreement dated May 1, 1968, between Cooperative Power Association and Interstate Power Company and designated as Interstate Power Company's Rate Schedule FPC No. 88. The amendment to the Transmission Utilization Agreement provides for an additional delivery point at Easton, Minnesota.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13770 Filed 7-6-73;8:45 am]

[Docket No. R-462; Order No. 483]

RESEARCH AND DEVELOPMENT, ACCOUNTING AND REPORTING

Order Denying Rehearing

JUNE 28, 1973.

On May 29, 1973, Northern Natural Gas Company (Northern) filed an application for rehearing of Order No. 483, issued April 30, 1973, in Docket No. R-462, which order, inter alia, broadened the definition of Research and Development (R & D) expenditures, provided for advance rate assurance for certain R & D projects and provided for rate adjustment provisions to track R & D expenditures.

Northern alleges that Order No. 483 does not permit a pipeline to match costs and revenues "to the extent possible" because it does not provide for deferral and later recovery of costs not immediately subject to tracking as was provided for purchased gas costs in Order Nos. 452 and 452-A issued in Docket No. R-406. Northern's allegation is without foundation. § 154.38(d)(5)(b)(iii) and (iv) provide that an R & D tracking provision rate adjustment shall be computed based on the experience of the pipeline during the twelve month period ending three months prior to the proposed rate adjustment both as to currently expensed items (subsection (iii)) and rate base items (subsection (iv)). This provision allows a pipeline to recover all amounts associated with a legitimate R & D project above those amounts included in its existing rates.

Northern also objects to the "requirement" of prior Commission approval for rate base inclusion of R & D expenditures of $50,000 or more on a given project or group of projects and foresees an administrative breakdown in our Staff's effort to review an increasing number of such projects. Northern proposes a cure for this undesirable situation which promises "to forestall the backlog of filings and to optimize the use of the Commission's Staff" by limiting the "requirement" of prior approval to projects of $1,000,000 or more.

We agree with Northern that it is in the public interest to expedite Commission review of all findings submitted to us and to optimize the use of our trained and expert Staff personnel. For these reasons, we did not make prior approval of R & D projects a prerequisite to their inclusion in rates. Subsection 154.38(d)(5)(a)(v) of the Commission's Regulations under the Natural Gas Act provides that all R & D rate adjustments take effect on the proposed effective date "subject to reduction and refund of any portion found after hearing to be unjustified by a final and nonappealable Commission order". The purpose of the prior approval provision for rate base treatment of projects or groups of projects costing $50,000 or more is to assure the pipeline in advance that such project(s), *per se*, fall within the definition of R & D expenditures in the Commission's Uniform Systems of Accounts for Class A and Class B Natural Gas Companies, rather than forcing the pipeline to wait until such project(s) is (are) examined in a rate proceeding after the pipeline has expended much money and has possibly collected increased rates related to such project(s). Therefore, the prior approval provision is not a requirement, but merely an option available to the pipeline to eliminate the uncertainty of rate treatment of such projects.

In a related matter, Northern complains about "the double barreled requirement" of prior approval of a project and collection of amounts related to such projects subject to refund. As noted above, the "prior approval" provision is not a requirement but an alternative option available to a pipeline to eliminate the uncertainty of rate treatment of certain projects. Amounts included in an R & D rate adjustment which relate to such prior-approved projects shall, of course, not be made subject to refund and shall not be reviewed a second time in a future rate proceeding.

Northern also requests a waiver of such provisions of Order No. 483 as "may be inconsistent with an R & D 'tracking' proposal which does not conform with all of strictures of said Order". We note that Order No. 483 represents our policy and the guidelines to implement such policy. Waiver of the provisions of that order will only be considered upon individual requests and for good cause shown.

The Commission finds

It is necessary and proper in the public interest and to aid in the enforcement of the Natural Gas Act that Northern's application for rehearing of Order No. 483 be denied as hereinafter ordered.

The Commission orders

Northern's application for rehearing of Order No. 483 filed May 29, 1973, is denied.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. RP72-156]

TEXAS GAS TRANSMISSION CORP.

Notice of Proposed Changes in FPC Gas Tariff

JUNE 28, 1973.

Take notice that Texas Gas Transmission Corporation (Texas Gas) on June 15, 1973, tendered for filing as part of its FPC Gas Tariff, Third Revised Volume No. 1, the following sheet:

Seventh Revised Sheet No. 7

Texas Gas states that this sheet is being issued pursuant to Texas Gas' Purchased Gas Cost Adjustment Provision contained in section 23 of the General Terms and Conditions of its FPC Gas Tariff, Third Revised Volume No. 1 and that this provision was approved by order of the Federal Power Commission, dated July 31, 1972, in Docket No. RP72-156. The company submits that this change in Texas Gas' rates reflects a cost of gas adjustment to track increased purchased gas costs and to recover the balance in Account 191, "Unrecovered Purchased Gas Costs," and the increased

V 38 130 JUL 9 73 XUM

cost of offshore transportation. The proposed effective date of this filing is August 1, 1973.

Texas Gas states that copies of the filing were served upon the company's jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8, 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 16, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP73-69]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Notice Deferring Procedural Dates

JUNE 27, 1973.

On June 5, 1973, Staff Counsel filed a motion for postponement of the procedural dates set by the order issued January 31, 1973, in the above-designated matter. The motion states that the parties attending the prehearing conference on June 1, 1973, had no objection to the motion.

Upon consideration, notice is hereby given that the procedural dates are deferred pending disposition of the settlement proposal submitted at the prehearing conference held on June 26, 1973.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13775 Filed 7-6-73;8:45 am]

[Docket No. CP73-337]

TRANSWESTERN PIPELINE CO.

Notice of Application

JULY 2, 1973.

Take notice that on June 19, 1973, Transwestern Pipeline Company (Applicant), P.O. Box 2521, Houston, Texas 77001, filed in Docket No. CP73-337 an application pursuant to section 7 of the Natural Gas Act and § 157.7(g) of the regulations thereunder (18 CFR 157.7 (g)) for a certificate of public convenience and necessity authorizing the construction and for permission and approval for the abandonment, for a 12-month period commencing on July 1, 1973, of field gas compression and related metering and appurtenant facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in the construction and abandonment of facilities which will not result in changing Applicant's system salable capacity or service from that authorized prior to the filing of the instant application.

Applicant states that the total cost of the proposed construction and abandonment will not exceed $3,000,000 and the cost for any single project will not exceed $500,000. These costs will be financed from available funds and may at some later date be financed through the issuance of long term debt or additional equity.

Any person desiring to be heard or to make any protest with reference to said application should on or before July 25, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CRF 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by section 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13866 Filed 7-6-73;8:45 am]

[Docket No. RI73-268]

UNION OIL CO.

Notice of Petition for Special Relief From Area Rate Ceiling (Texas Gulf Coast Area)

JUNE 28, 1973.

Take notice that on April 17, 1973, Union Oil Company of California (Petitioner) P.O. Box. 7600, Los Angeles, California 90051, filed a petition for special relief in Docket No. RI73-268 pursuant to section 4 of the Natural Gas Act, § 1.7 (b) of the Commission's Rules of Practice and Procedure, and Commission Order No. 481, issued April 12, 1973. Petitioner requests the Commission to waive the January 1, 1976, moratorium date for filing for a rate increase in excess of the applicable area rate prescribed in Opinion No. 595, Area Rate Proceeding, et al. (Texas Gulf Coast Area), Docket Nos. AR64-2, et al., 45 F.P.C. 674 (1971), appeal pending sub nom. Public Service Commission for the State of New York, et al. v. F.P.C., No. 71-1828, (D.C. Cir.).

On April 12, 1973, the Commission issued Order No. 481, in Docket No. R-458, amending the general rules of practice and procedure by adding § 2.76. This section provides for examination of applications by independent producers for special relief from area rates with respect to sales of natural gas from reservoirs where reduced pressure, the need for reconditioning, or deeper drilling makes further production uneconomically at existing area rates. In March 1973 Union reports that one compressor was installed to compress filed gas. Petitioner alleges that this was done in reliance on the November 8, 1972, notice of proposed rulemaking in Docket No. R-458.

Petitioner claims that without compression facilities only one billion of the estimated three to four billion cubic feet of natural gas can be recovered economically. It avers that two compressors will be required to offset pressure declines. Petitioner's request is based on installation of the compressor placed in operation in March 1973, plus one additional compressor to be installed if this petition is granted.

Additional costs resulting from the installation of two compressors is stated to be $19,345 per year for each compressor, or a total cost of $38,690 per year for rental, maintenance, operating, and overhead expenses. If, as requested, Petitioner is authorized to collect 2.5¢ per Mcf over and above the rate presently authorized in Opinion No. 595 (Texas Gulf Coast Area), an additional $100,000 will be collected over the life of the compression operation.

Any person desiring to be heard or to make any protest with reference to said petition should on or before July 16, 1973, file with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C., 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding.

Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13779 Filed 7-6-73;8:45 am]

VALLEY GAS TRANSMISSION, INC.

[Docket No. RP73-94]

Notice of Revisions to Tariff

JUNE 28, 1973.

Take notice that on June 11, 1973, Valley Gas Transmission, Inc. (Valley Gas) tendered for filing the following tariff sheets:

Second Revised Sheet No. 3A
First Revised Sheet No. 14
First Revised Sheet No. 15
Second Revised Sheet No. 25A
First Revised Sheet No. 39
First Revised Sheet No. 40
Second Revised Sheet No. 52A
Third Revised Sheet No. 107A
First Revised Sheet No. 120
First Revised Sheet No. 121
Third Revised Sheet No. 138A
First Revised Sheet No. 150
First Revised Sheet No. 151
First Revised Sheet No. 152
Second Substitute Original Sheet No. 178
Second Substitute Original Sheet No. 179
Second Substitute Original Sheet No. 180

Valley Gas states that First Revised Sheet Nos. 14, 15, 39, 40, 120, 121, 150, 151 and 152 are all filed to restate its existing tariff in the manner required by § 154.52 of the regulations under the Natural Gas Act. The sheets are intended to incorporate within the pertinent rate schedule price provisions which are presently on file as supplement to such rate schedules. The company submits that Second Substitute Original Sheet Nos. 178, 179 and 180 effect certain minor changes in Valley Gas' proposed purchased gas adjustment clause. Valley Gas states that Second Revised Sheet Nos. 3A, 24A and 52A and Third Revised Sheet Nos. 170A and 138A are filed merely to refer a reader to the currently effective Sheet No. 2A for a statement of the currently effective rate.

Valley Gas proposes an effective date of May 16, 1973.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE, Washington, D. C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 12, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of the filing are on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13764 Filed 7-6-73;8:45 am]

[Docket No. CI71-882]

WENERT TRICH, ET AL.

Notice of Petition To Amend

JUNE 29, 1973.

Take notice that on June 18, 1973, Wenert Trich, *et al.*, (Applicant), P. O. Box 1408, Longview, Texas 75601, filed in Docket No. CI71-882 a petition to amend the orders issued in said docket pursuant to section 7(c) of the Natural Gas Act and § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70) by authorizing Petitioner to continue the sale of natural gas in interstate commerce for an additional year to Texas Eastern Tranmission Corporation (Texas Eastern) from the Woodlawn Field, Harrison County, Texas, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Petitioner was authorized by the order of August 12, 1971, in said docket to sell gas to Texas Eastern for one year at 35.0 cents per Mcf at 14.65 psia and was authorized to continue said sale for an additional year by the Commission's order of August 23, 1972, in said docket.

Petitioner proposes to continue said sale within the contemplation of § 2.70 of the Commission's General Policy and Interpretations for one year commencing on August 12, 1973, and sell approximately 3,000 Mcf of gas per day at 45.0 cents per Mcf at 14.65 psia.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before July 13, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8271]

WISCONSIN ELECTRIC POWER CO.

Notice of Letter Agreement

JUNE 28, 1973.

Take notice that on June 11, 1973, Wisconsin Electric Power Company (WEP) tendered for filing a letter agreement dated May 2, 1973, between WEP, Wisconsin Public Service Corporation (WPS), Wisconsin Power and Light Company (WPL), and Madison Gas and Electric Company (MGE). WEP states that the agreement is in respect to WPS, WPL, and MGE, collectively, purchasing 150,000 Kilowatts of Limited Term Power for a period of six months beginning June 1, 1973, and ending November 30, 1973. WEP further states that the agreement is under the provisions of Service Schedule A, which is part of an amendment made effective May 1, 1973, to the Interconnection Agreement between WEP and individually with WPS (Rate Schedule FPC No. 30), WPL (Rate Schedule FPC No. 31), and MGE (Rate Schedule FPC No. 27). WEP maintains that it is not practical to estimate with any degree of accuracy the quantities of energy which will be delivered. An effective date of June 1, 1973, is requested.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 20, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13777 Filed 7-6-73;8:45 am]

[Docket No. CI73-902]

SKELLY OIL CO.

Notice of Application

JUNE 29, 1973.

Take notice that on June 18, 1973, Skelly Oil Company (Applicant), P.O. Box 1650, Tulsa, Oklahoma 74102, filed in Docket No. CI73-902 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to El Paso Natural Gas Company from the No. 1 Oasis Ranch "4" Strawn Gas Well, Terrell County, Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it intends to commence the sale of natural gas, upon completion of certain production and gathering facilities adjacent to the well site, within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale for two years from the end of the sixty-day emergency period within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70). Applicant proposes to sell approximately 30,000 Mcf of gas per month at 45.0 cents per Mcf of gas at 14.65 psia, subject to upward and downward Btu adjustment.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before July 16, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to

V 38 I 130 JUL 9 73 XUM

intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13753 Filed 7-6-73;8:45 am]

[Docket No. CI73-891]

WALLACE, E. R., AND LAQUEY, E. C.

Notice of Application

JUNE 29, 1973.

Take notice that on June 14, 1973, E. R. Wallace and E. C. Laquey (Applicants), P.O. Box 746, Refugio, Texas 78377, filed in Docket No. CI73-891 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to United Gas Pipeline Company from the Old Refugio Field, Refugio County, Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicants state that they will commence the sale of natural gas on June 20, 1972, within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and propose to continue said sale for one year from the end of the sixty-day emergency period within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70). Applicants propose to sell approximately 15,000 Mcf of gas per month at 45.0 cents per Mcf at 14.65 psia.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore,

Any person desiring to be heard or to make any protest with reference to said application should on or before July 16, 1973 file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirement of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13754 Filed 7-6-73;8:45 am]

[Docket No. E-7994]

DUKE POWER CO.

Order Denying Motion for Extension of Procedural Dates, and Denying Motion To Permit Certain Discovery Without Prejudice

JUNE 27, 1973.

By order of March 23, 1973, the rate increase proposed in this docket by Duke Power Company (Duke) was suspended for thirty days, the matter was set for hearing, and all petitions to intervene were granted.

On May 29, 1973, ElectriCities of North Carolina, Piedmont Municipal Power Systems, and the municipalities of Easley, Gaffney, Greenwood, Greer, Laurens, Newberry, Prosperity, and Rock Hill, all of South Carolina (Municipal Intervenors) filed a motion to: Revise the procedural schedule herein by extending by 120 days each deadline set in the Commission's Order of March 23, 1973; permit utilization of discovery materials obtained in an Atomic Energy Commission (AEC) proceeding; and clarify or revise the order of March 23 to permit use of certain evidence which originated prior to the close of the record in Commission Docket No. E-7557.

The Municipal Intervenors state that seven North Carolina municipalities, all of which are represented in this proceeding by Intervenor ElectriCities of North Carolina, are presently party to an AEC proceeding involving issuance of certain nuclear facility licenses to Duke Power Company. In the course of that AEC proceeding those municipalities, according to the Municipal Intervenors, have had access to discovery which is purportedly relevant to allegations made in this docket of anticompetitive conduct and possible antitrust violations by Duke.

As the Municipal Intervenors point out in their motion, certain discovery related to anti-competitive or antitrust issues was requested in an earlier proceeding before this Commission in Docket No. E-7557 by the intervenors in that proceeding, many of whom are intervenors in the present proceeding. The Presiding Administrative Law Judge in Docket No. E-7557 denied those discovery requests, and that case is now on appeal to the United States Court of Appeals for the District of Columbia Circuit. The Municipal Intervenors state that they recognize the impropriety of attempting to relitigate issues concerning Duke's alleged conduct prior to the close of the record in Docket No. E-7557. The Commission's Order of March 23, 1973, in this proceeding stated in this regard that "• • • the proceeding herein instituted shall be limited to facts and circumstances with respect to alleged antitrust violations by Duke arising after the close of the record in that case (Docket No. E-7557)."[1] The Municipal Intervenors nonetheless claim to now have access to many documents which, while originating prior to the close of the record in Docket No. E-7557, may be relevant to what Municipal Intervenors see as an anticompetitive situation and anticompetitive conduct by Duke since 1971, when the record in that earlier proceeding was closed. In requesting time and leave to make use of evidence discovered or to be discovered in the near future through depositions and interrogatories in the AEC proceeding, the Municipal Intervenors further ask that this Commission interpret the above-quoted language in its March 23, 1973, order issued in this docket to mean that, while no anticompetitive situation prior to 1971 is relevant to this proceeding, evidence which originated prior to 1971 and is relevant to an anticompetitive situation arising or existing after 1971 may be relevant to the present proceeding.

On June 8, 1973, a response to the Municipal Intervenor's motion was filed by Duke.

We recognize our responsibilities under the Federal Power Act in antitrust matters, but the motion of Municipal Intervenors does not indicate to us exactly what they seek from this Commission. In their motion, Municipal

[1] Commission order of March 23, 1973, page 2, Docket No. E-7994.

Intervenors petition the Commission to "• • • direct that materials discovered in the present AEC anti-trust proceeding involving Duke be treated as responsive to identical discovery requests in the present proceeding; • • •". We find it impossible to grant such an open ended request when petitioners fail to specify the data or material sought to be discovered and introduced in this proceeding. We have no accurate indication of the scope of that request. Furthermore, we fail to see how the Municipal Intervenors motion qualifies as a discovery motion in this proceeding. Municipal Intervenors have only provided us with a copy of a discovery request presented to Duke at the AEC which they admit "• • • has been limited by a number of orders • • •". Finally, the motion is unclear as to whether or not any or all of this evidence was available to petitioners in Docket No. E-7557, or whether it is the subject of the discovery motion under appeal in that proceeding.

The Commission finds.

The motion of Municipal Intervenors should be denied.

The Commission orders.

The Motion of Municipal Intervenors is denied without prejudice to the Municipal Intervenors right to make appropriate discovery requests before the Administrative Law Judge in this proceeding.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

GENERAL SERVICES ADMINISTRATION

[GSA Bulletin FPMR A-43]

GASOLINE SHORTAGES AND OFFICIAL GOVERNMENT TRAVEL

Reduction of Consumption

To: Heads of Federal agencies.

1. *Purpose.* This bulletin encourages Federal agencies to reduce motor vehicle fuel consumption for official Government travel to the maximum extent feasible.

2. *Expiration date.* This bulletin contains information of a continuing nature and will remain in effect until canceled.

3. *Background.* Travelers in many areas of the United States have experienced gasoline shortages. During periods of restricted supplies, it is appropriate that the Government reduce the consumption of gasoline in connection with official travel. Although the Federal Travel Regulations (FTR) authorizes the use of privately owned automobiles and Government-owned or commercially rented automobiles, paragraph 1-2.2c(1) states that "Since travel by common carrier will generally result in the least costly and most expeditious performance of travel, this method shall be used unless the circumstances involved make travel by Government, privately owned, or special conveyance preferred for reasons of cost, efficiency, or work requirements. The advantages which may result from common carrier transportation must be fully considered by the agency before it is determined that some other method of transportation should be used."

4. *Recommended interim measures.* Agency officials are requested to instruct personnel who authorize travel and officials needing to travel to take the following actions:

a. Use common carriers whenever practicable; and

b. Reduce travel in Government-owned, commercially rented, or privately owned automobiles to a minimum by:

(1) Using communication facilities, such as telephone, including conference calls;

(2) Postponing travel not of immediate importance, such as periodic routine inspection trips; and

(3) Reviewing travel itineraries in order to:

(i) Combine functions that can be carried out by one employee or by fewer employees than originally scheduled;

(ii) Accomplish in one trip several assignments at facilities in one geographical area instead of making several trips; and

(iii) Coordinate the schedules for trips of various employees so that they can use one automobile rather than several.

ARTHUR F. SAMPSON,
Administrator of General Services.

JULY 5, 1973.

[FR Doc.73-14054 Filed 7-6-73;8:45 am]

[GSA Bulletin FPMR G-82]

TRANSPORTATION AND MOTOR VEHICLES

Conservation of Motor Vehicle Fuels

To: Heads of Federal agencies.

1. *Purpose.* This bulletin sets forth a program for the conservation of motor vehicle fuels through proper driving techniques and recommended service and operating procedures.

2. *Expiration date.* This bulletin provides information of a continuing nature and will remain in effect until revised or canceled.

3. *Background.* The national situation concerning availability of motor vehicle fuels has reached such proportions that every citizen should join in a concerted effort to conserve fuels to ease the shortage.

4. *Suggested action.* a. The Federal Government should take the lead in conserving fuels by ensuring that motor vehicle travel is curtailed to the maximum extent practicable without jeopardizing essential business.

b. Each agency should take positive action to conserve fuels by giving wide publication to the driving techniques listed below and requiring that all vehicle operators diligently follow them.

(1) Travel at reduced speeds. Limit maximum speed to 60 miles per hour. Fuel consumption generally increases significantly above 60 miles per hour. A bright-colored sticker on the dash may be used as a reminder.

(2) Avoid sudden bursts of speed and pumping the accelerator pedal while the vehicle is not in motion.

(3) Avoid sudden stops; plan ahead.

(4) Do not idle engine for long periods of time.

(5) Use routes with a minimum number of traffic signals and stop signs.

(6) Eliminate weight unnecessary to the particular trip; empty trunk and storage compartments of excess tires, chains, tools, etc.

(7) Minimize air resistance; remove any unneeded appurtenances such as hang-on type luggage racks.

(8) Refuel vehicle during the early part of the day.

(9) Avoid over-filling the fuel tank to allow for fuel expansion.

(10) Use the air-conditioner sparingly (disconnecting will damage seals and cause excess maintenance), but operate at least once each week during the year.

(11) Avoid one-person trips. Try to use one vehicle for several passengers traveling in the same general area. Always consider, "Is this trip necessary?" "Can the job be accomplished by some other means?" Use the telephone when practicable.

(12) Travel during off-peak traffic times.

(13) Rent appropriate size vehicle to accommodate the number of passengers and luggage when using authorized commercial rental vehicles.

(14) Use the smallest size vehicle feasible for the job.

c. Each agency should take positive action by enforcing the following service and operating procedures:

(1) Tune the engine, following the manufacturer's latest specifications with special attention to these items:

(a) Check the air cleaner and replace if necessary.

(b) Inspect and adjust the choke to specifications.

(c) Clean or replace the PCV valve; remove gum or sludge from hoses with approved cleaning solutions.

(d) Check all electrical ignition circuits and connections for voltage drop and resistance. Clean, tighten, and replace as necessary.

(e) Inspect ignition points and replace if necessary. Check the condenser.

(f) Set the timing to the manufacturer's specifications.

(g) Check the ignition advance mechanism (mechanical and vacuum).

(h) Purge foreign matter from the exhaust gas recirculatory valve and hoses. Check controls.

(i) Check the cooling system. Flush and replace the antifreeze if it is contaminated. Remove bugs and foreign matter from front of radiator and air-conditioner.

(j) Check the muffler for clogging or restrictions.

V 38 130 JUL 9 73 XUM

(k) Check the exhaust and tailpipes for kinks or restrictions that would impede the flow of exhaust.

(2) Maintain tire pressures to tire manufacturer's recommendations to reduce rolling resistance.

(3) Check and adjust wheel alignment to manufacturer's specifications. This will also reduce rolling resistance.

ARTHUR F. SAMPSON,
Administrator
of General Services.

INTERIM COMPLIANCE PANEL (COAL MINE HEALTH AND SAFETY)

PEABODY COAL CO.

Application for Renewal Permit; Notice of Opportunity for Public Hearing

Application for Renewal Permit for Noncompliance with the Interim Mandatory Dust Standard (2.0 mg/m³) has been received as follows:

ICP Docket No. 20246, Peabody Coal Company, Star Underground
Mine, USBM ID No. 15 03161 0, Central City, Kentucky
Section ID No. 009-0 (2nd North West off 1st South East Sub Main)
Section ID No. 005-0 (2nd South East Main (Spare))
Section ID No. 012-0 (4th North West off North East Main)
Section ID No. 011-0 (6th North West off South West)
Section ID No. 007-0 (3rd South East off South West Main)
Section ID No. 008-0 (3rd North West Sub off North East Main)
Section ID No. 010-0 (1st North West off 1st North East Sub Main)

In accordance with the provisions of section 202(b)(4) (30 U.S.C. 842(b)(4)) of the Federal Coal Mine Health and Safety Act of 1969 (83 Stat. 742, et seq., Public Law 91-173), notice is hereby given that requests for public hearing as to an application for renewal may be filed within 15 days after publication of this notice. Requests for public hearing must be filed in accordance with 30 CFR Part 505 (35 FR 11296, July 15, 1970), as amended, copies of which may be obtained from the Panel on request.

A copy of the application is available for inspection and requests for public hearing may be filed in the Office of the Correspondence Control Officer, Interim Compliance Panel, Room 800, 1730 K Street, NW., Washington, D.C. 20006.

GEORGE A. HORNBECK,
Chairman,

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

THEATRE ADVISORY PANEL

Notice of Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Public Law 92-463), notice is hereby given that a closed meeting of the Theatre Advisory Panel to the National Endowment for the Arts will be held at 9:30 am. on July 10, 1973, and 9:30 am. on July 11, 1973, in New York City.

This meeting is for the purpose of Panel review, discussion, and evaluation of grant applications. In accordance with section 10(d) of the Act it has been determined by the Chairman, by notice published in the FEDERAL REGISTER of January 10, 1973, that the meeting involves matters exempt from the requirements of public disclosure under the provisions of the Freedom of Information Act (5 U.S.C. 552(b)).

Further information with reference to this meeting can be obtained from Mrs. Eleanor A. Snyder, Advisory Committee Management Officer, National Endowment for the Arts, 806-15th Street, NW., Washington, D.C. 20506, or call Area Code 202-382-2854.

PAUL BERMAN,
Director of Administration, National Foundation on the Arts and the Humanities.

ATOMIC ENERGY COMMISSION

ACRS SUBCOMMITTEE MEETING ON OCONEE NUCLEAR STATION

Notice of Meeting

JULY 5, 1973.

In accordance with the purposes of Sections 29 and 182b. of the Atomic Energy Act (42 U.S.C. 2039, 2232b.), the Advisory Committee on Reactor Safeguards' Subcommittee on the Oconee Nuclear Station will hold a meeting on July 23 and 24, 1973, in the Holiday Inn, Intersection of U.S. Routes 123 and 76, Clemson, South Carolina. The purpose of this meeting will be to review the application of the Duke Power Company for a license to operate Units 2 and 3 which are located in Oconee County, approximately 21 miles north of Anderson, South Carolina.

The following constitutes those portions of the Subcommittee's agenda for the above meeting which will be open to the public:

Monday, July 23, 1973, 1:30 p.m.-4:30 p.m.—Review of the application for an operating license (presentations by the AEC Regulatory Staff and Duke Power Company and its consultants, and discussions with these groups).

Tuesday, July 24, 1973, 9:00 a.m.-3:30 p.m.—Review of the application for an operating license (presentations by the AEC Regulatory Staff and Duke Power Company and its consultants, and discussions with these groups).

In connection with the above agenda, the Subcommittee will hold an executive session at 1 pm on July 23, and 8:30 am on July 24 which will involve a discussion of its preliminary views, and an executive session at the end of the day on July 24, consisting of an exchange of opinions of the Subcommittee members and internal deliberations and formulation of recommendations to the full ACRS. In addition, prior to the executive session at the end of the day, the Subcommittee may hold a closed session with the Regulatory Staff and applicant to discuss privileged information relating to plant security and nuclear fuel design, if necessary.

I have determined, in accordance with subsection 10(d) of Public Law 92-463, that the executive sessions at the beginning of the meeting on July 23 and the beginning and end of the meeting on July 24 will consist of an exchange of opinions and formulation of recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b); and that a closed session may be held, if necessary, to discuss certain documents which are privileged, and fall within exemption (4) of 5 U.S.C. 552(b). It is essential to close such portions of the meeting to protect such privileged information and protect the free interchange of internal views and to avoid undue interference with Committee operation.

Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that, in his judgment, will facilitate the orderly conduct of business.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda item may do so by mailing 25 copies thereof, postmarked no later than July 16, 1973, to the Executive Secretary, Advisory Committee on Reactor Safeguards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Such comments shall be based upon the application for an operating license and related documents which are on file and available for public inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545, and through the Librarian, Oconee County Library, 201 S. Spring Street, Walhalla, South Carolina 29691.

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statement and its usefulness to the Subcommittee. To the extent that the time available for the meeting permits, the Subcommittee will receive oral satements during a period of no more than 30 minutes at an appropriate time, chosen by the Chairman of the Subcommittee, between the hours of 1 pm and 3 pm on July 24, 1973.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Subcommittee, who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting has been cancelled or rescheduled, and in regard to the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted, can be obtained by a prepaid telephone call on July 20, 1973, to the Office of the Executive Secretary of the Committee (telephone: 301-973-5651) between 8:30 am and 5:15 pm local time.

(e) Questions may be propounded only by members of the Subcommittee and its consultants.

(f) Seating for the public will be available on a first-come, first-served basis.

(g) Copies of a transcript of the public sessions will be made available within approximately 24 hours of the meeting and copies of the official minutes of the public sessions will be made available for inspection on or after September 24, 1973, at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. Copies may be obtained upon payment of appropriate charges.

JOHN C. RYAN,
Acting Advisory Committee
Management Officer.

[FR Doc.73-13994 Filed 7-6-73;8:45 am]

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS

Combined Environmental and Waste Management Subcommittees Meeting

JULY 5, 1973.

In accordance with the purposes of Sections 29 and 182 b. of the Atomic Energy Act (42 USC 2039, 2232 b.), the Advisory Committee on Reactor Safeguards Combined Environmental and Waste Management Subcommittees will hold a meeting on July 18-19, 1973, in Room 1046, 1717 H Street, NW., Washington, D. C. The purpose of the meeting will be to consider a variety of subjects and programs pertaining to protection of the environment and to the handling of radioactive waste.

The following constitutes that portion of the Subcommittee's agenda for the above meeting which will be open to the public:

Wednesday, July 18, 1973, 9 am-5 pm Review of Environmental Protection Agency's programs, radiation safety in transportation, criteria involved in achieving as low as practicable release of radioactive materials, and environmental surveillance programs.

Thursday, July 19, 1973, 8:30 am-4:30 pm. Review of probabilities and consequences of transportation accidents, research and development programs for transportation safety, current status of ANSI proposed standard, "On-Site Instrumentation for Continuously Monitoring Radioactivity in Effluents," and management of radioactive wastes.

In connection with the above agenda items, the Subcommittees will hold an executive session at 8:30 am on July 18 which will involve a discussion of their preliminary views, and an executive session at the end of the day (4:30 pm) on July 19, consisting of an exchange of opinions of the Subcommittees members and internal deliberations and formulation of recommendations to the ACRS.

I have determined, in accordance with subsection 10(d) of Public Law 92-463, that the executive sessions at the beginning and end of the meeting will consist of an exchange of opinions and formulation of recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b). It is essential to close such portions of the meeting to protect such privileged information and to protect the free interchange of internal views and to avoid undue interference with Agency or Committee operation.

Practical considerations may dictate alterations in the above agenda or schedule.

The acting Chairman of the combined Subcommittees is empowered to conduct the meeting in a manner that, in his judgment, will facilitate the orderly conduct of business.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda items may do so by mailing 25 copies thereof, postmarked no later than July 13, 1973, to the Executive Secretary, Advisory Committee on Reactor Safeguards, U.S. Atomic Energy Commission, Washington, D.C. 20545.

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statement and its usefulness to the combined Subcommittees. To the extent that the time available for the meeting permits, the combined Subcommittees will receive oral statements during a period of no more than 30 minutes at an appropriate time, chosen by the acting Chairman of the combined Subcommittees, between the hours of 11 am and 3 pm on the second day of the meeting, July 19, 1973.

(c) Requests for the opportunity to make oral statements shall be ruled on by the acting Chairman of the combined Subcommittees, who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting has been cancelled or rescheduled, and in regard to the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted, can be obtained by a prepaid telephone call on July 16, 1973, to the Office of the Executive Secretary of the Committee (telephone: 301-973-5651) between 8:30 am and 5:15 pm local time.

(e) Questions may be asked only by members of the Subcommittees and their consultants.

(f) Seating for the public will be available on a first-come, first-served basis.

(g) Copies of a transcript of the public sessions will be made available within approximately 24 hours of the meeting and copies of the minutes of the meeting will be made available, on request, for inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. on or after September 19, 1973. Copies may be obtainct upon payment of appropriate charges.

JOHN C. RYAN,
Acting Advisory Committee
Management Officer.

[Ex Parte 241; Rule 19, Exemption 44]

CAR UTILIZATION MAP

Exemption From Mandatory Car Service Rules

It appearing, that Car Service Rule 2 authorizes the loading of cars owned by indirect connections of the lines having physical possession of the cars to destinations closer to the car owner than is the point of loading; that there is need for a quick reference guide to enable shippers and carriers to make a selection of the proper car for loading to remote destinations; and that the Car Service Division of the Association of American Railroads has prepared a Car Utilization Map which will enable shippers and carriers to determine whether or not such cars owned by indirect connections properly may be used for transporting the traffic available.

It is ordered, That, under authority vested in me by Car Service Rule 19, cars loaded in conformity with the Car Utilization Map issued by the Car Service Division of the Association of American Railroads, dated July 1, 1973, and attached hereto,[1] shall be deemed to be in compliance with the provisions of Car Service Rule 2(b).

Effective July 1, 1973.

Expires July 31, 1974.

Issued at Washington, D.C., June 27, 1973.

[I.C.C. ORDER NO. 102

Under Revised Service Order No. 994]

CHICAGO, ROCK ISLAND AND PACIFIC RAILROAD CO.

Notice of Rerouting Traffic

To all railroads: In the opinion of R. D. Pfahler, Agent, the Chicago, Rock Island and Pacific Railroad Company is unable to transport traffic over its line between St. Joseph, Missouri, and Atchison, Kansas, because of damage to its bridge over the Missouri River.

It is ordered, That: (a) The Chicago, Rock Island and Pacific Railroad Company, being unable to transport traffic over its line between St. Joseph, Missouri, and Atchison, Kansas, because of damage to its bridge over the Missouri River, that carrier is hereby authorized to reroute or divert such traffic via any available route to expedite the movement. The billing covering all such cars rerouted shall carry a reference to this order as authority for the rerouting.

(b) *Concurrence of receiving roads to be obtained.* The railroad desiring to divert or reroute traffic under this order shall receive the concurrence of other railroads to which such traffic is to be diverted or rerouted, before the rerouting or diversion is ordered.

(c) *Notification to shippers.* Each carrier rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

(d) Inasmuch as the diversion or rerouting of traffic is deemed to be due to carrier disability, the rates applicable to traffic diverted or rerouted by said Agent shall be the rates which were applicable at the time of shipment on the shipments as originally routed.

(e) In executing the directions of the Commission and of such Agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the division of the rates of transportation applicable to said traffic. Divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(f) *Effective date.* This order shall become effective at 5 pm, June 22, 1973.

(g) *Expiration date.* This order shall expire at 11:59 pm, July 8, 1973, unless otherwise modified, changed, or suspended.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that it be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., June 22, 1973.

[Notice 89]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JUNE 29, 1973.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67, (49 CFR Part 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

ELECTION OF OFFICERS OF LABOR ORGANIZATIONS

Revision of Regulations

No. 130—Pt. II——1

V 38-130 JUL 9 73 XUM

Title 29—Labor

CHAPTER IV—OFFICE OF LABOR-MANAGEMENT AND WELFARE-PENSION REPORTS, DEPARTMENT OF LABOR

SUBCHAPTER A—LABOR-MANAGEMENT REPORTS

PART 452—GENERAL STATEMENT CONCERNING THE ELECTION PROVISIONS OF THE LABOR-MANAGEMENT REPORTING AND DISCLOSURE ACT OF 1959

Title IV of the Labor-Management Reporting and Disclosure Act of 1959 (73 Stat. 532, 534, 29 U.S.C. 481–484) provides standards for the election of officers of labor organizations, and assigns enforcement of the standards to the Secretary of Labor through litigation, after complaint and exhaustion of internal remedies, in the federal courts. Shortly after enactment of the statute the Department promulgated an interpretative regulation (29 CFR Part 452) for the purpose of setting out the Department's interpretations or position with respect to many of the provisions of Title IV.

Since the original publication of the regulation the Department of Labor has litigated innumerable election cases under Title IV and has considered and reacted to many diverse problems in connection with elections of union officers. Accordingly, it is appropriate in the light of this experience to expand, revise and update the interpretative regulation.

Therefore, pursuant to sections 401, 402, 73 Stat. 532, 534, 29 U.S.C. 481, 482, Secretary's Order No. 11–72 (May 12, 1972), Part 452 of Chapter IV of Title 29 of the Code of Federal Regulations is revised to read as follows:

Subpart A—General Considerations

Sec.
452.1 Introductory statement.
452.2 Application of union constitution and bylaws.
452.3 Interpretations of constitution and bylaws.
452.4 Investigatory provision — application.
452.5 Effect of violation on outcome.
452.6 Delegation of enforcement authority.

Subpart B—Other Provisions of the Act Affecting Title IV

452.7 Bill of Rights, Title I.
452.8 Trusteeship provisions, Title III.
452.9 Prohibition against certain persons holding office; Section 504.
452.10 Retaliation for exercising rights.

Subpart C—Coverage of Election Provisions

452.11 Organizations to which election provisions apply.
452.12 Organizations comprised of government employees.
452.13 Extraterritorial application.
452.14 Newly formed or merged labor organizations.
452.15 Effect of trusteeship.
452.16 Offices which must be filled by election.
452.17 Officer.
452.18 Constitutional officers.
452.19 Executive functions.
452.20 Nature of executive functions.
452.21 Members of executive board.
452.22 Delegates to a convention.

Subpart D—Frequency and Kinds of Elections

Sec.
452.23 Frequency of elections.
452.24 Terms of office.
452.25 Vacancies in office.
452.26 Elections in local labor organizations.
452.27 National, international organizations, and intermediate bodies.
452.28 Unopposed candidates.
452.29 Primary elections.
452.30 Run-off elections.
452.31 One candidate for several offices.

Subpart E—Candidacy for Office; Reasonable Qualifications

452.32 Persons who may be candidates and hold office; secret ballot elections.
452.33 Persons who may be candidates and hold office; elections at conventions.
452.34 Application of section 504, LMRDA.
452.35 Qualifications for candidacy.
452.36 Reasonableness of qualifications.
452.37 Types of qualifications.
452.38 Meeting attendance requirements.
452.39 Participation in insurance plan
452.40 Prior office holding.
452.41 Working at the trade.
452.42 Membership in particular branch or segment of the union.
452.43 Representative categories.
452.44 Dual unionism.
452.45 Multiple office holding.
452.46 Characteristics of candidate.
452.47 Employer or supervisor members.
452.48 Employees of union.
452.49 Other union rules.
452.50 Disqualification as a result of disciplinary action.
452.51 Declaration of candidacy.
452.52 Filing fee.
452.53 Application of qualifications for office.
452.54 Retroactive rules.

Subpart F—Nominations for Office

452.55 Statutory provisions concerning nomination.
452.56 Notice.
452.57 Procedures for nomination.
452.58 Self-nomination.
452.59 Presence of nominee.
452.60 Nominations for national, international, or intermediate body offices.
452.61 Elimination costs—local unions.
452.62 Disqualifications of candidates; procedural reasons.
452.63 Nominations at conventions.
452.64 Write-in votes.
452.65 Interval between nominations and election.

Subpart G—Campaign Safeguards

452.66 Statutory provisions.
452.67 Distribution of campaign literature.
452.68 Distribution to less than full membership.
452.69 Expenses of campaign literature.
452.70 Contents of literature.
452.71 Inspection of membership lists.
452.72 Period of inspection.
452.73 Use of union funds.
452.74 Expenditures permitted.
452.75 Union newspapers.
452.76 Campaigning by union officers.
452.77 Permissive use of union funds.
452.78 Expenditures by employers.
452.79 Opportunity to campaign.
452.80 Bona fide candidates.
452.81 Rights in intermediate body elections.
452.82 Reprisal for exercising rights.
452.83 Enforcement of campaign safeguards.

Subpart H—Right to Vote

Sec.
452.84 General.
452.85 Reasonable qualifications on right to vote.
452.86 Vote conditioned on payment of dues.
452.87 Dues paid by checkoff.
452.88 Resumption of good standing.
452.89 Apprentices.
452.90 Visiting members.
452.91 Voting by employers, supervisors.
452.92 Unemployed members.
452.93 Retired members.
452.94 Reasonable opportunity to vote.
452.95 Absentee ballots.

Subpart I—Election Procedures; Rights of Members

452.96 General:
452.97 Secret ballot.
452.98 Outside agencies.
452.99 Notice of election.
452.100 Use of union newspaper as notice.
452.101 Sample ballots as notice.
452.102 Notice in mail ballot election.
452.103 Primary elections.
452.104 Proximity of notice to election.
452.105 Interference or reprisal.
452.106 Preservation of records.
452.107 Observers.
452.108 Publication of results.
452.109 Constitution of labor organization.
452.110 Adequate safeguards.
452.111 Campaigning in polling places.
452.112 Form of ballot; slate voting.
452.113 Sectional balloting.
452.114 Write-in votes.
452.115 Distribution of ballots.
452.116 Determining validity of ballots.
452.117 Majority of votes not required for election.
452.118 Local union agents in international elections.
452.119 Indirect elections.
452.120 Officers as delegates.
452.121 Limitations on national or international officers serving as delegates.
452.122 Delegates from intermediate bodies; method of election.
452.123 Elections of intermediate body officers.
452.124 Delegates from units which are not labor organizations.
452.125 Delegates from labor organizations under trusteeship.
452.126 Delegates to conventions which do not elect officers.
452.127 Proportionate representation.
452.128 Under strength representation.
452.129 Non-discrimination.
452.130 Expenses of delegates.
452.131 Casting of ballots; delegate elections.
452.132 Proxy voting.
452.133 Election of delegates not members of the labor organization.
452.134 Preservation of records.

Subpart J—Special Enforcement Provisions

452.135 Complaints of members.
452.136 Investigation of complaint by Director, Office of Labor-Management and Welfare-Pension Reports, and court action by the Secretary.

Subpart K—Dates and Scope of Application

452.137 Effective dates.
452.138 Application of other laws.

AUTHORITY: Secs. 401, 402, 73 Stat. 532, 534, 29 U.S.C. 481, 482, Secretary's Order No. 11–72 (May 12, 1972).

Subpart A—General Considerations

§ 452.1 Introductory statement.

(a) This part discusses the meaning and scope of the provisions of Title IV of the Labor-Management Reporting and Disclosure Act[1] (hereinafter referred to as the Act), which deal with the election of officers of labor organizations. These provisions require periodic election of union officers, and prescribe minimum standards to insure that such elections will be fairly conducted. Specific provisions are included to assure the right of union members to participate in selecting their officers without fear of interference or reprisal, and to protect the right to nominate candidates, run for office, and vote in officer elections. Title IV also sets forth the rights of candidates, provides for secret ballots in appropriate cases, and requires notice of nominations and elections, preservation of election records, and other safeguards to insure fair elections. However, the Act does not prescribe complete, detailed procedures for the nomination and election of union officers.

(b) Interpretations of the Labor-Management Services Administrator with respect to the election provisions of Title IV are set forth in this part to provide those affected by these provisions of the Act with "a practical guide * * * as to how the office representing the public interest in its enforcement will seek to apply it."[2] The correctness of an interpretation can be determined finally and authoritatively only by the courts. It is necessary, however, for the Labor-Management Services Administrator to reach informed conclusions as to the meaning of the law to enable him to carry out his statutory duties of administration and enforcement. The interpretations of the Labor-Management Services Administrator contained in this part, which are issued upon the advice of the Solicitor of Labor, indicate the construction of the law which will guide him in performing his duties unless and until he is directed otherwise by authoritative rulings of the courts or unless and until he subsequently announces that a prior interpretation is incorrect. However, the fact that a particular problem is not discussed in this part, or in interpretations supplementing it, should not be taken to indicate the adoption of any position by the Labor-Management Services Administrator with respect to such problem or to constitute an administrative interpretation or practice.

(c) To the extent that prior opinions and interpretations relating to the election of officers of labor organizations under the Act are inconsistent or in conflict with the principles stated in this part, they are hereby rescinded and withdrawn.

§ 452.2 Application of union constitution and bylaws.

Elections required to be held as provided in the title are to be conducted in accordance with the validly adopted constitution and bylaws of the labor organizations insofar as they are not inconsistent with the provisions of the Act.

§ 452.3 Interpretations of constitution and bylaws.

The interpretation consistently placed on a union's constitution by the responsible union official or governing body will be accepted unless the interpretation is clearly unreasonable.[3]

§ 452.4 Investigatory provision—application.

The provisions of section 601 of the Act provide general investigatory authority to investigate alleged violations of the Act including violations of Title IV. However, section 601 in and of itself provides no remedy, and the section must be read in conjunction with the remedy and statutory scheme of section 402, i.e., exhaustion of internal union remedies and a complaint to the Secretary following completion of the election before suit can be filed. In view of the remedy provided, an investigation prior to completion of an election may have the effect of publicizing the activities or unsubstantiated allegations of one faction to the prejudice of the opposition. To avoid this result, and as a matter of sound statutory construction, the Department will exercise its investigatory authority only in circumstances in which the outcome of the election could not be affected by the investigation.[4] Thus, the Department ordinarily will employ its investigatory authority only where the procedural requirements for a Title IV investigation have been met; but in unusual circumstances or where necessary to collect or preserve evidence an investigation may be conducted after the conclusion of balloting.

§ 452.5 Effect of violation on outcome.

Since the remedy under section 402 is contingent upon a finding by the court, among other things, that the violation "may have affected the outcome of an election"[5] the Secretary as a matter of policy will not file suit to enforce the election provisions unless the violations found are such that the outcome may have been affected.[6]

§ 452.6 Delegation of enforcement authority.

The authority of the Secretary under the Act has been delegated in part to the Labor-Management Services Administrator and to the Director, Office of Labor-Management and Welfare-Pension Reports.

Subpart B—Other Provisions of the Act Affecting Title IV

§ 452.7 Bill of Rights, Title I.

The provisions of Title I, "Bill of Rights of Members of Labor Organizations"[7] (particularly section 101(a) (1) "Equal Rights," section 101(a) (2) "Freedom of Speech and Assembly," and section 101(a) (5) "Safeguards against Improper Disciplinary Action") are related to the rights pertaining to elections. Direct enforcement of Title I rights, as such, is limited to civil suit in a district court of the United States by the person whose rights have been infringed.[8] The exercise of particular rights of members is subject to reasonable rules and regulations in the labor organization's constitution and bylaws.[9]

§ 452.8 Trusteeship provisions, Title III.

Placing a labor organization under trusteeship consistent with Title III, may have the effect of suspending the application of Title IV to the trusteed organization (see § 452.15).

§ 452.9 Prohibition against certain persons holding office; Sec. 504.

Among the safeguards for labor organizations provided in Title V is a prohibition against the holding of office by certain classes of persons.[10] This provision makes it a crime for any person willfully to serve as an officer or employee of a labor organization (other than exclusively as a clerical or custodial employee) within five years after conviction or imprisonment for the commission of specified offenses, including violation of Titles II or III of the Act, or consipiracy to commit such offenses. It is likewise a crime for any labor organization or officer knowingly to permit such a person to serve in such positions. Persons subject to the prohibition applicable to convicted criminals may serve if their citizenship rights have been fully restored after being taken away by reason of the conviction, or if the United States Board of Parole determines that their service would not be contrary to the purposes of the Act.

§ 452.10 Retaliation for exercising rights.

Section 609, which prohibits labor organizations or their officials from disciplining members for exercising their rights under the Act, and section 610, which makes it a crime for any person to use or threaten force or violence for the purpose of interfering with or preventing the exercise of any rights protected under the Act, apply to rights relating to the election of officers under Title IV.

V 38 130 JUL 9 73 XUM

Subpart C—Coverage of Election Provisions

§ 452.11 Organizations to which election provisions apply.

Title IV of the Act contains election provisions applicable to national and international labor organizations, except federations of such organizations, to intermediate bodies such as general committees, conferences, system boards, joint boards, or joint councils, certain districts, district councils and similar organizations and to local labor organizations.[11] The provisions do not apply to State and local central bodies, which are explicitly excluded from the definition of "labor organization."[12] The characterization of a particular organizational unit as a "local," "intermediate," etc., is determined by its functions and purposes rather than the formal title by which it is known or how it classifies itself.

§ 452.12 Organizations comprised of government employees.

An organization composed entirely of government employees (other than employees of the United States Postal Service) is not subject to the election provisions of the Act. Section 3(e) of the Act, defining the term "employer," specifically excludes the United States Government, is wholly owned corporations, and the States and their political subdivisions from the scope of that term, and section 3(f) defines an "employee" as an individual employed by an "employer." Since a "labor organization" is defined in section 3(i) as one in which "employees" participate and which exists in whole or in part for the purpose of "dealing with employers," an organization composed entirely of government employees would not be a "labor organization"[13] as that term is defined in the Act. However, section 1209 of the Postal Reorganization Act provides that organizations of employees of the United States Postal Service shall be subject to the Labor-Management Reporting and Disclosure Act. An international or national labor organization which has some locals of government employees not covered by the Act and other locals which are mixed or are composed entirely of employees covered by the Act would be subject to the election requirements of the Act. Its mixed locals would also be subject to the Act. The requirements would not apply to locals composed entirely of government employees not covered by the Act, except with respect to the election of officers of a parent organization which is subject to those requirements or the election of delegates to a convention of such parent organization, or to an intermediate body to which the requirements apply.

[11] For the scope of the term "labor organization," see Part 451 of this chapter.

[12] See § 451.5 of this chapter for a definition of "State or local central body."

[13] Most labor organizations composed of Federal Government employees are subject to Executive Order 11491 and the Regulations issued pursuant thereto.

§ 452.13 Extraterritorial application.

Although the application of the Act is limited to the activities of persons and organizations within the territorial jurisdiction of the United States,[14] an international, national or intermediate body is not exempted from the requirements of the Act by virtue of the participation of its foreign locals or foreign membership in its elections. For example, votes received from Canadian members in referendum elections held by an international must have been cast under procedures meeting the minimum requirements of the Act, and Canadian delegates participating at conventions of the international at which officers are elected must have been elected by secret ballot.

§ 452.14 Newly formed or merged labor organizations.

The initial selection of officers by newly formed or merged labor organizations is not subject to the requirements of Title IV.[15] Such labor organizations may have temporary or provisional officers serve until a regular election subject to the Act can be scheduled. An election under all the safeguards prescribed in these regulations must be held within a reasonable period after the organization begins to function. What would be a reasonable time for this purpose depends on the circumstances, but after the formation or consolidation of the labor organization, a regular election subject to Title IV may not be deferred longer than the statutory period provided for that type of organization. However, when a pre-existing labor organization changes its affiliation without substantially altering its basic structure or identity the terms of its officers may not be extended beyond the maximum period specified by the Act for the type of labor organization involved.

§ 452.15 Effect of trusteeship.

Establishment of a valid trusteeship may have the effect of suspending the operation of the election provisions of the Act. When the autonomy otherwise available to a subordinate labor organization has been suspended consistent with the provisions of Title III of the Act, officers of the organization under trusteeship may be relieved of their duties and temporary officers appointed by the trustee if necessary to assist him in carrying out the purposes for which the trusteeship was established. However, when a regular election of officers or an election for purposes of terminating the trusteeship is being held during the trusteeship, Title IV would apply.

§ 452.16 Offices which must be filled by election.

Section 401 of the Act identifies the types of labor organizations whose officers must be elected and prescribes minimum standards and procedures for the conduct of such elections. Under that section officers of national or international labor organizations (except federations of such organizations), local labor organizations, and intermediate bodies such as general committees, system boards, joint boards, joint councils, conferences, certain districts, district councils and similar organizations must be elected.[16]

§ 452.17 Officer.

Section 3(n) of the Act defines the word "officer" and it is this definition which must be used as a guide in determining what particular positions in a labor organization are to be filled in the manner prescribed in the Act. For purposes of the Act, "officer" means "any constitutional officer, any person authorized to perform the functions of president, vice president, secretary, treasurer, or other executive functions of a labor organization, and any member of its executive board or similar governing body."

§ 452.18 Constitutional officers.

A constitutional officer refers to a person holding a position identified as an officer by the constitution and bylaws of the labor organization. Thus, for example, a legislative representative of a labor organization who performs no executive functions and whose duties are confined to promoting the interests of members in legislative matters is nevertheless an officer who is required to be elected where the labor organization's constitution identifies the holder of such a position as an officer. On the other hand, legislative representatives who are required to be elected by the constitution and bylaws of a labor organization are not considered to be officers within the meaning of the Act if they are not designated as such by the constitution, are not members of any executive board or similar governing body, and do not perform executive functions. As defined in the Act, however, the term "officer" is not limited to individuals in positions identified as such or provided for in the constitution or other organic law of the labor organization.[17] The post of Honorary President, President Emeritus or Past President that is to be assumed by the retiring chief executive officer of a union would not be an officer position unless it is designated as an officer position by the union's constitution, or the holder of the position performs executive functions or serves on an executive board or similar governing body.

§ 452.19 Executive functions.

The definitional phrase "a person authorized to perform the functions of president, vice president, secretary, treasurer, or other executive functions

[14] See § 451.6 of this chapter.

[15] However, the other provisions of the Act are applicable immediately upon such formation or merger.

[16] See § 452.23 for a discussion of the frequency with which the different types of labor organizations must conduct elections of officers. See Part 451 of this chapter for the scope of the term "labor organization."

[17] Cf. NLRB v. Coca-Cola Bottling Co., 350 U.S. 264 (1956). See also, Daily Cong. Rec. 5867, Sen., Apr. 23, 1959.

of a labor organization" brings within the term "officer" any person who in fact has executive or policy-making authority or responsibility, although he may not occupy a position identified as an officer under the constitution and bylaws of the organization. Authorization to perform such functions need not be contained in any provision of the constitution or bylaws or other document but may be inferred from actual practices or conduct. On the other hand, a person is not an officer merely because he performs ministerial acts for a designated officer who alone has responsibility. The normal functions performed by business agents and shop stewards, such as soliciting memberships, presenting or negotiating employee grievances within the work place, and negotiating contracts are not "other executive functions" as that phrase is used in section 3(n) of the Act. However, a directing business representative or a business manager usually exercises such a degree of executive authority as to be considered an officer and, therefore, must be elected. The duties normally pertaining to membership on a bargaining committee do not come within the phrase "other executive functions." However, persons occupying such non-executive positions may be "officers" if they are ex officio members of the organization's executive board (or similar governing body) or if the constitution or bylaws of the union designate such positions as officers.

§ 452.20 Nature of executive functions.

(a) The functions that will bring a particular position with a title other than president, vice-president, secretary-treasurer, or executive board member within the definition of "officer" cannot be precisely defined. They are the functions typically performed by officers holding these titles in current labor union practice. Decisions in each case will require a practical judgment. As a general rule, a person will be regarded as being authorized to perform the functions of president if he is the chief or principal executive officer of the labor organization. Similarly, he will be regarded as being authorized to perform the functions of treasurer if he has principal responsibility for control and management of the organization's funds and fiscal operation. A member of any group, committee, or board which is vested with broad governing or policymaking authority will be regarded as a member of an "executive board or similar governing body." The name or title that the labor organization assigns to the position is not controlling.

(b) The purpose of the election requirement of the Act is to assure that persons in positions of control in labor organizations will be responsive to the desires of the members.[18] Professional and other staff members of the labor organization who do not determine the organization's policies or carry on its executive functions and who are employed merely to implement policy decisions and managerial directives established by the governing officials of the organization are not officers and are not required to be elected.

[18] See, for example, S. Rept. 187, 86th Cong., 1st sess., p. 7.

§ 452.21 Members of executive board.

The phrase "a member of its executive board or similar governing body" refers to a member of a unit identified as an executive board or a body, whatever its title, which is vested with functions normally performed by an executive board. Members of a committee which is actually the executive board or similar governing body of the union are considered officers within the meaning of section 3(n) of the Act even if they are not so designated by the union's constitution and bylaws. For example, members of an "Executive-Grievance Committee" which exercises real governing powers are officers under the Act. However, it should be noted that committee membership alone will not ordinarily be regarded as an indication of officer status, unless the committee or its members meet the requirements contained in section 3(n) of the Act.

§ 452.22 Delegates to a convention.

Under certain circumstances, delegates to a convention of a national or international labor organization, or to an intermediate body, must be elected by secret ballot among the members in good standing of the labor organization they represent even though such delegates are not "officers" of the organization. Such election is required by the Act[19] when the delegates are to nominate or elect officers of a national or international labor organization, or of an intermediate body. There is, of course, no requirement that delegates be elected in accordance with the provisions of Title IV if they do not nominate or elect officers, unless delegates are designated as "officers" in the union's constitution and bylaws or unless, by virtue of their position, they serve as members of the executive board or similar governing body of the union.

Subpart D—Frequency and Kinds of Elections

§ 452.23 Frequency of elections.

The Act requires that all national and international labor organizations (other than federations of such labor organizations) elect their officers not less often than every five years. Officers of intermediate bodies, such as general committees, system boards, joint boards, joint councils, conferences, and certain districts, district councils and similar organizations, must be elected at least every four years, and officers of local labor organizations not less often than every three years.

§ 452.24 Terms of office.

The prescribed maximum period of three, four, or five years is measured from the date of the last election.[20] It would not be consistent with these provisions of the Act for officers elected for the maximum terms allowable under the statute to remain in office after the expiration of their terms without a new election. Failure to hold an election for any office after the statutory period has expired constitutes a continuing violation of the Act, which may be brought to the attention of the Secretary in the form of a complaint filed in accordance with the appropriate procedure. Title IV establishes only maximum time intervals between elections for officers. Labor organizations covered by these provisions may hold elections of officers with greater frequency than the specified maximum period. For example, a local labor organization is required to hold an election of officers at least once every three years, but it must hold an election every year if its governing rules so provide. It should be noted, moreover, that the provisions of Title IV apply to all regular elections of officers in labor organizations subject to the Act. Thus, if a labor organization chooses to hold elections of officers more frequently than the statutory maximum intervals, it must observe the minimum standards set forth in Title IV for the conduct of such elections.

[19] Act, sec. 401(a) and 401(d) (29 U.S.C. 481).

[20] See § 452.14 for a discussion of the selection of officers in a new or newly-merged labor organization.

§ 452.25 Vacancies in office.

Title IV governs the regular periodic elections of officers in labor organizations subject to the Act. No requirements are imposed with respect to the filling by election or other method of any particular office which may become vacant between such regular elections. If, for example, a vacancy in office occurs in a local labor organization, it may be filled by appointment, by automatic succession, or by a special election which need not conform to the provisions of Title IV. The provisions of section 504 of the Act, which prohibit certain persons from holding office, are applicable to such situations. While the enforcement procedures of section 402 are not available to a member in connection with the filling of an interim vacancy, remedies may be available to an aggrieved member under section 102 of the LMRDA or under any pertinent State or local law.

§ 452.26 Elections in local labor organizations.

Local labor organizations must conduct their regular elections of officers by secret ballot among the members in good standing. All members in good standing of the local labor organization must be given an opportunity to vote directly for candidates to fill the offices that serve them. Indirect election of officers of a local labor organization would violate section 401(b) of the Act. For example, a procedure whereby the local's membership elects an executive board or some similar body by secret ballot which in turn selects (either from among its own membership or from the local's membership at large) the persons to fill specific offices would not comply with the Act.[21]

[21] Wirtz v. Independent Petroleum Workers of America, 75 LRRM 2340, 63 L.C. ¶ 11,190 (N.D. Ind. 1970).

V 38 130 JUL 9 73 XUM

Similarly, the election of a chief steward by the shop stewards would violate the Act if the chief steward, by virtue of that position, aso serves as a member of the executive board, since members of the executive board must be elected directly by secret ballot among the members in good standing.

§ 452.27 National, international organizations, and intermediate bodies.

The officers of a national or international labor organization or of an intermediate body must be elected either directly by secret ballot among the members in good standing or indirectly by persons acting in a representative capacity who have been elected by secret ballot among all members in good standing.[23]

§ 452.28 Unopposed candidates.

An election of officers or delegates that would otherwise be required by the Act to be held by secret ballot need not be held by secret ballot when all candidates are unopposed and the following conditions are met: (1) The union provides a reasonable opportunity for nominations; (2) write-in votes are not permitted, as evidenced by provisions in the constitution and bylaws, by an official interpretation fairly placed on such documents, or by established union practice; and (3) the union complies with all other provisions of Title IV.

§ 452.29 Primary elections.

Where a union holds primary elections or similar procedures for eliminating candidates prior to the final vote in connection with regular elections subject to these provisions, the primary election or other procdeure must be conducted in accordance with the same standards required under the Act for the final election.

§ 452.30 Run-off elections.

A run-off election must meet the standards set forth in Title IV if the original election was subject to the requirements of the Act. For example, if the run-off is to be held at the same meeting as the original election, the original notice of election must have so stated and all records pertaining to the run-off must be retained.

§ 452.31 One candidate for several offices.

Where a union constitution or other validly adopted rule provides that a single elected officer will perform the functions of more than one office, a separate election need not be held for each office.

Subpart E—Candidacy for Office; Reasonable Qualifications

§ 452.32 Persons who may be candidates and hold office; secret ballot elections.

Section 401(e) provides that in any election of officers required by the Act which is held by secret ballot, every member in good standing with the exceptions explained in sections following shall be eligible to be a candidate and to hold office. This provision is applicable not only to the election of officers in local labor organizations, but also to elections of officers in national or international and intermediate labor organizations where those elections are held by secret ballot referedum among the members, and to the election of delegates to conventions at which officers will be elected.

§ 452.33 Persons who may be candidates and hold office; elections at conventions.

Where elections of national or international labor organizations or of intermediate bodies are held at a convention of delegates elected by secret ballot, protection of the right to be a candidate and to hold office is afforded by the requirement in section 401(f) that the convention be conducted in accordance with the constitution and bylaws of the labor organization insofar as they are not inconsistent with the provisions of Title IV. If members in good standing are denied the right to be candidates by the imposition of unreasonable qualifications on eligibility for office such qualifications would be inconsistent with the provisons of Title IV.

§ 452.34 Application of section 504, LMRDA.

The eligibility of members of labor organizations to be candidates and to hold office in such organizations is subject only to the provisions of section 504(a), which bars certain individuals from holding office in labor organizations[24] and to reasonable qualifications uniformly imposed. A person who is barred from serving in union office by section 504(a) is not eligible to be a candidate. However, a labor organization may permit a person who is barred from holding union office by section 504(a) to be a candidate for office if the section 504 disability will terminate by the customary date for the installation of officers. A labor organization may within reasonable limits adopt stricter standards than those contained in section 504(a) by extending the period of disability beyond 5 years or by barring from union office persons who have been convicted of crimes other than those specified.

§ 452.35 Qualifications for candidacy.

It is recognized that labor organizations may have a legitimate institutional interest in prescribing minimum standards for candidacy and officeholding in the organization. On the other hand, a dominant purpose of the Act is to ensure the right of members to participate fully in governing their union and to make its officers responsive to the members. A basic assumption underlying the concept of "free and democratic elections," is that voters will exercise common sense and good judgment in casting their ballots. In union elections as in political elections, the good judgment of the members in casting their votes should be the primary determinant of whether a candidate is qualified to hold office. Therefore, restrictions placed on the right of members to be candidates must be closely scrutinized to determine whether they serve union purposes of such importance, in terms of protecting the union as an institution, as to justify subordinating the right of the individual member to seek office and the interest of the membership in a free, democratic choice of leaders.

§ 452.36 Reasonableness of qualifications.

(a) The question of whether a qualification is reasonable is a matter which is not susceptible of precise definition, and will ordinarily turn on the facts in each case. However, court decisions in deciding particular cases have furnished some general guidelines. The Supreme Court in Wirtz v. Hotel, Motel and Club Employees Union, Local 6, 391 U.S. 492 at 499 (1968) held that

> Congress plainly did not intend that the authorization in section 401(e) of 'reasonable qualifications uniformly imposed' should be given a broad reach. The contrary is implicit in the legislative history of the section and in its wording that 'every member in good standing shall be eligible to be a candidate and to hold office * * *.' This conclusion is buttressed by other provisions of the Act which stress freedom of members to nominate candidates for office. Unduly restrictive candidacy qualifications can result in the abuses of entrenched leadership that the LMRDA was expressly enacted to curb. The check of democratic elections as a preventive measure is seriously impaired by candidacy qualifications which substantially deplete the ranks of those who might run in opposition to incumbents.

Union qualifications for office should not be based on assumptions that certain experience or qualifications are necessary. Rather it must be assumed that the labor organization members will exercise common sense and judgment in casting their ballots. "Congress' model of democratic elections was political elections in this country" (Wirtz v. Local 6, 391 U.S. at 502) and a qualification may not be required without a showing that citizens assumed to make discriminating judgments in public elections cannot be relied on to make such judgments when voting as union members.

(b) Some factors to be considered, therefore, in assessing the reasonableness of a qualification for union office are

1. The relationship of the qualification to the legitimate needs and interests of the union;
2. The relationship of the qualification to the demands of union office;
3. The impact of the qualification, in the light of the Congressional purpose of fostering the broadest possible participation in union affairs;
4. A comparison of the particular qualification with the requirements for holding office generally prescribed by other labor organizations; and
5. The degree of difficulty in meeting a qualification by union members.

§ 452.37 Types of qualifications.

Ordinarily the following types of requirements may be considered reasonable, depending on the circumstances in which they are applied and the effect of their application:

(a) *Period of prior membership.* It would ordinarily be reasonable for a local union to require a candidate to have been a member of the organization for a reasonable period of time, not exceeding two years, before the election. However, if a member is involuntarily compelled to transfer from one local to another, such a requirement would not be reasonable if he is not given credit for his prior period of membership.

(b) *Continuity of good standing.* A requirement of continuous good standing based on punctual payment of dues will be considered a reasonable qualification only if (1) it provides a reasonable grade period during which members may make up missed payments without loss of eligibility for office,[24] and (2) the period of time involved is reasonable. What are reasonable periods of time for these purposes will depend upon the circumstances. Section 401(e) of the Act provides that a member whose dues have been withheld by the employer for payment to the labor organization pursuant to his voluntary authorization provided for in a collective bargaining agreement may not be declared ineligible to vote or be a candidate for office by reason of alleged delay or default in the payment of dues. If during the period allowed for payment of dues in order to remain in good standing, a member on a dues checkoff system has no earnings from which dues can be withheld, section 401(e) does not relieve the member of the responsibility of paying his dues in order to remain in good standing.

§ 452.38 Meeting attendance requirements.

(a) It may be reasonable for a labor organization to establish a requirement of attendance at a specified number of its regular meetings during the period immediately preceding an election, in order to insure that candidates have a demonstrated interest in and familiarity with the affairs of the organization. In the past, it was ordinarily considered reasonable to require attendance at no more than 50 percent of the meetings over a period not exceeding two years. Experience has demonstrated that it is not feasible to establish arbitrary guidelines for judging the reasonableness of such a qualification. Its reasonableness must be gauged in the light of all the circumstances of the particular case, including not only the frequency of meetings, the number of meetings which must be attended and the period of time over which the requirement extends, but also such factors as the nature, availability and extent of excuse provisions, whether all or most members have the opportunity to attend meetings, and the impact of the rule, i.e., the number or percentage of members who would be rendered ineligible by its application.[25]

(b) Some guidance is furnished by court decisions which have held particular meeting attendance requirements to be unreasonable under the following circumstances: one meeting during each quarter for the three years preceding nomination, where the effect was to disqualify 99 percent of the membership (Wirtz v. Independent Workers Union of Florida, 65 LRRM 2104, 55 L.C. ¶11,857 (M.D. Fla. 1967)); 75 percent of the meetings held over a two-year period, with absence excused only for work or illness, where over 97 percent of the members were ineligible (Wirtz v. Local 153, Glass Bottle Blowers Ass'n., 244 F.Supp. 745 (W.D. Pa. 1965), order vacating decision as moot, 372 F.2d 86 (C.A. 3 1966), reversed 389 U.S. 463; decision on remand, 405 F.2d 176 (C.A. 3 1968)); Wirtz v. Local 262, Glass Bottle Blowers Ass'n., 290 F.Supp. 965 (N.D. Cal., 1968)); attendance at each of eight meetings in the two months between nomination and election, where the meetings were held at widely scattered locations within the state (Hodgson v. Local Union No. 624 A–B, International Union of Operating Engineers, 80 LRRM 3049, 68 L.C. ¶12,816 (S.D. Miss. Feb. 19, 1972)).

§ 452.39 Participation in insurance plan.

In certain circumstances, in which the duties of a particular office require supervision of an insurance plan in more than the formal sense, a union may require candidates for such office to belong to the plan.

§ 452.40 Prior office holding.

A requirement that candidates for office have some prior service in a lower office is not considered reasonable.[26]

§ 452.41 Working at the trade.

(a) It would ordinarily be reasonable for a union to require candidates to be employed at the trade or even to have been so employed for a reasonable period. In applying such a rule an unemployed member is considered to be working at the trade if he is actively seeking such employment. Such a requirement should

---

[23] See § 452.119 and following for discussion of indirect elections.

[24] Section 504(a) (29 U.S.C. 504) of the Act reads: "No person who is or has been a member of the Communist Party or has been convicted of, or served any part of a prison term resulting from this conviction of, robbery, bribery, extortion, embezzlement, grand larceny, burglary, arson, violation of narcotics laws, murder, rape, assault with intent to kill, assault which inflicts grievous bodily injury, or a violation of title II or III of this Act, or conspiracy to commit any such crimes, shall serve—

(1) As an officer, director, trustee, member of any executive board or similar governing body, business agent, manager, organizer, or other employee (other than as an employee performing exclusively clerical or custodial duties) of any labor organization, or

(2) As a labor relations consultant to a person engaged in an industry or activity affecting commerce, or as an officer, director, agent, or employee (other than as an employee performing exclusively clerical or custodial duties) of any group or association of employers dealing with any labor organization,

during or for five years after the termination of his membership in the Communist Party, or for five years after such conviction or after the end of such imprisonment, unless prior to the end of such five-year period, in the case of a person so convicted or imprisoned, (A) his citizenship rights, having been revoked as a result of such conviction, have been fully restored, or (B) the Board of Parole of the United States Department of Justice determines that such person's service in any capacity referred to in clause (1) or (2) would not be contrary to the purposes of this Act. Prior to making any such determination the Board shall hold an administrative hearing and shall give notice of such proceeding by certified mail to the State, county, and Federal prosecuting officials in the jurisdiction or jurisdictions in which such person was convicted. The Board's determination in any such proceeding shall be final. No labor organization or officer thereof shall knowingly permit any person to assume or hold any office or paid position in violation of this subsection."

NOTE: The U.S. Supreme Court, on June 7, 1965, held unconstitutional as a bill of attainder the section 504 provision which imposes criminal sanctions on Communist Party members for holding union office; U.S. v. Brown, 381 U.S. 437.

[24] In Goldberg v. Amarillo General Drivers, Teamsters Local 577, 214 F. Supp. 74 (N.D. Tex. 1963), the disqualification of five nominees for union office for failure to satisfy a constitutional provision requiring candidates for office to have maintained continuous good standing for two years by paying their dues on or before the first business day of the current month, in advance, was held to be unreasonable. See also Wirtz v. Local Unions No. 9, 9–A and 9–B, International Union of Operating Engineers, 254 F. Supp. 980 (D. Colo. 1965), aff'd. 366 F. 2d 911 (CA 10 1966), vacated as moot 387 U.S. 96 (1967).

[25] Cf. Writz v. Hotel, Motel and Club Employees Union, Local 6, 391 U.S. 492, at 502: "Plainly, given the objective of Title IV, a candidacy limitation which renders 93% of union members ineligible for office can hardly claim to be a 'reasonable qualification.'"

[26] Wirtz v. Hotel, Motel and Club Employees Union, Local 6, 391 U.S. 492 at 504. The Court stated that the union, in applying such a rule, "* * * assumes that rank and file union members are unable to distinguish qualified from unqualified candidates for particular offices without a demonstration of a candidate's performance in other offices. But Congress' model of democratic elections was political elections in this Country, and they are not based on any such assumption. Rather, in those elections the assumption is that voters will exercise common sense and judgment in casting their ballots. Local 6 made no showing that citizens assumed to make discriminating judgments in public elections cannot be relied on to make such judgments when voting as union members * * *."

V 38 130 JUL 9 73 XUM

not be so inflexible as to disqualify those members who are familiar with the trade but who because of illness, economic conditions, or other good reasons are temporarily not working.

(b) It would be unreasonable for a union to prevent a person from continuing his membership rights on the basis of failure to meet a qualification which the union itself arbitrarily prevents the member from satisfying. If a member is willing and able to pay his union dues to maintain his good standing and his right to run for office, it would be unreasonable for the union to refuse to accept such dues merely because the person is temporarily unemployed. Where a union constitution requires applicants for membership to be actively employed in the industry served by the union, a person who becomes a member would not be considered to forfeit his membership in the union or any of the attendant rights of membership merely because he is discharged or laid off.

(c) Ordinarily members working part-time at the trade may not for that reason alone be denied the right to run for office.

(d) A labor organization may postpone the right to run for office of members enrolled in a bona fide apprenticeship program until such members complete their apprenticeship.

§ 452.42 Membership in particular branch or segment of the union.

A labor organization may not limit eligibility for office to particular branches or segments of the union where such restriction has the effect of depriving those members who are not in such branch or segment of the right to become officers of the union.[27]

§ 452.43 Representative categories.

In the case of a position which is representative of a unit defined on a geographic, craft, shift, or similar basis, a labor organization may by its constitution or bylaws limit eligibility for candidacy and for holding office to members of the represented unit. For example, a national or international labor organization may establish regional vice-presidencies and require that each vice-president be a member of his respective region. This kind of limitation would not be considered reasonable, however, if applied to general officers such as the president, vice-president, recording secretary, financial secretary, and treasurer. If eligibility of delegates to a convention which will elect general officers is limited to special categories of members, all such categories within the organization must be represented.

§ 452.44 Dual unionism.

While the Act does not prohibit a person from maintaining membership or holding office in more than one labor organization, it would be considered reasonable for a union to bar from candidacy for office persons who hold membership in a rival labor organization.

§ 452.45 Multiple officeholding.

An officer may hold more than one office in a labor organization so long as this is consistent with the constitution and bylaws of the organization.

§ 452.46 Characteristics of candidate.

Where personal characteristics have a direct bearing on fitness for office, a labor organization may establish certain restrictions on the right to be a candidate. For example, it may require a minimum age for candidacy or it may establish a compulsory retirement age for officers. A union may not, however, establish such rules if they would be inconsistent with any other Federal law. Thus, it ordinarily may not limit eligibility for office to persons of any particular race, color, religion, sex, or national origin since this would be inconsistent with the Civil Rights Act of 1964.[28] A union may not require candidates for office to be registered voters and to have voted in public elections during the year preceding their nomination. Similarly, it cannot require that candidates have voted in the previous union election to be eligible. Such restrictions may not be said to be relevant to the member's fitness for office.

§ 452.47 Employer or supervisor members.

Inasmuch as it is an unfair labor practice under the Labor-Management Relations Act (LMRA) for any employer (including persons acting in that capacity) to dominate or interfere with the administration of any labor organization, it follows that employers, while they may be members, may not be candidates for office or serve as officers. Thus, while it is recognized that in some industries, particularly construction, members who become foremen, supervisors, or contractors traditionally keep their union membership as a form of job security or as a means of retaining union benefits, such persons may not be candidates for or hold office.[29] Whether a restriction on officeholding by members who are group leaders or others performing some supervisory duties is reasonable depends on the particular circumstances. For instance, if such persons might be considered "supervisors" [30] under the LMRA, their right to be candidates under the Act may be limited. Another factor in determining the reasonableness of a ban on such persons is the position (if any) of the NLRB on the status of the particular employees involved. If, for example, the NLRB has determined that certain group leaders are part of the bargaining unit, it might be unreasonable for the union to prohibit them from running for office. An overall consideration in determining whether a member may fairly be denied the right to be a candidate for union office as an employer or supervisor is whether there is a reasonable basis for assuming that the person involved would be subject to a conflict of interest in carrying out his representative duties for employees and rank and file union members.

§ 452.48 Employees of union.

A labor organization may in its Constitution and By-Laws prohibit members who are also its full-time non-elective employees from being candidates for union office, because of the potential conflict of interest arising from the employment relationship which could be detrimental to the union as an institution.

§ 452.49 Other union rules.

(a) Unions may establish such other reasonable rules as are necessary to protect the members against leaders who may have committed serious offenses against the union. For example, a union may, after appropriate proceedings, bar from office persons who have misappropriated union funds, even if such persons were never indicted and convicted in a court of law for their offenses. Of course, the union would have to provide reasonable precautions to insure that no member is made ineligible to hold office on the basis of unsupported allegations and that any rights guaranteed him by the constitution and bylaws are protected. Similarly, a union may require an elected officer to sign an affidavit averring that he is not barred from serving as an officer by the provisions of section 504 of the Act since the union and its officers may not permit a person to serve as an officer if he is so barred (see footnote 24).

(b) It would not violate the Act for a union to prohibit successive terms in office or to limit the number of years an officer may serve. Such rules are intended to encourage as many members as possible to seek positions of leadership in the organization.

§ 452.50 Disqualification as a result of disciplinary action.

Section 401(e) was not intended to limit the right of a labor organization to take disciplinary action against members guilty of misconduct. So long as such action is conducted in accordance with section 101(a)(5), a union may, for example, if its constitution and bylaws so provide, bar from office for a period of time any member who is guilty of specific acts, such as strikebreaking, detrimental to the union as an institution. However, if a union has improperly disciplined a member and barred him from candidacy, the Secretary may, in an appropriate case, treat him as a member in good standing entitled to all of the rights of members guaranteed by Title IV.

[27] Hodgson v. Local Unions No. 18, etc., IUOE, 440 F. 2d 485 (C.A. 6), cert. den. 404 U.S. 852 (1971); Hodgson v. Local 610, Unit. Elec. Radio & Mach. Work. of Am., 342 F. Supp. 1344 (W.D. Pa. 1972).

[28] Shultz v. Local 1291, International Longshoremen's Association, 338 F. Supp. 1204 (E.D. Pa.), aff'd. 461 F.2d 1262 (C.A. 3, July 20, 1972).

[29] See Nassau and Suffolk Contractors' Association, 118 NLRB No. 19 (1957). See also Local 636, Plumbers v. NLRB, 287 F.2d 354 (C.A. D.C. 1961).

[30] Under section 2(11) of the Labor Management Relations Act, supervisors include individuals "having authority, in the interest of the employer, to hire, transfer, suspend, lay off, recall, promote, discharge, assign, reward, or discipline other employees, or responsibly to direct them, or to adjust their grievances, or effectively to recommend such action, if in connection with the foregoing the exercise of such authority is not of a merely routine or clerical nature, but requires the use of independent judgment."

§ 452.51 Declaration of candidacy.

A union may not adopt rules which in their effect discourage or paralyze any opposition to the incumbent officers. Therefore, it would not be a reasonable qualification to require members to file a declaration of candidacy several months in advance of the nomination meeting since such a requirement would have such effect and "serves no reasonable purpose which cannot otherwise be satisfied without resort to this procedure." [31]

§ 452.52 Filing fee.

It would be unreasonable to require candidates for office to pay a filing fee because a fee limits the right of members to a reasonable opportunity to nominate the candidates of their choice and there is no objective relationship between the requirement and the ability to perform the duties of the office.

§ 452.53 Application of qualifications for office.

Qualifications for office which may seem reasonable on their face may not be proper if they are applied in an unreasonable manner or if they are not applied in a uniform way. An essential element of reasonableness is adequate advance notice to the membership of the precise terms of the requirement. A qualification which is not part of the constitution and bylaws or other duly enacted rules of the organization may not be the basis for denial of the right to run for office, unless required by Federal or State law.[32] Qualifications must be specific and objective. They must contain specific standards of eligibility by which any member can determine in advance whether or not he is qualified to be a candidate. For example, a constitutional provision which states that "a candidate shall not be eligible to run for office who intends to use his office as a cloak to effect purposes inimical to the scope and policies of the union" would not be a reasonable qualification within the meaning of section 401(e) because it is so general as to preclude a candidate from ascertaining whether he is eligible and would permit determinations of eligibility based on subjective judgments. Further, such a requirement is by its nature not capable of being uniformly imposed as required by section 401(e).

§ 452.54 Retroactive rules.

(a) The reasonableness of applying a newly adopted restriction on candidacy retroactively depends in part upon the nature of the requirement. It would be unreasonable for a labor organization to enforce eligibility requirements which the members had no opportunity to satisfy. For example, it would not be reasonable for a union to apply a newly adopted meeting attendance requirement retroactively since members would have no opportunity to comply with such requirement prior to its effective date.[33] When such a rule is in effect the membership is entitled to advance notice of the requirements of the rule and of the means to be used in verifying attendance. It would not be unreasonable, however, for a union to adopt and enforce a rule disqualifying persons convicted of a felony from being candidates or holding office.

(b) It would not be proper for a labor organization to amend its constitution after an election to make eligible a person who had been elected but who was not eligible at the time of the election.

Subpart F—Nominations for Office

§ 452.55 Statutory provisions concerning nomination.

In elections subject to the provisions of Title IV a reasonable opportunity must be afforded for the nomination of candidates. Although the Act does not prescribe particular forms of nomination procedures, it does require that the procedures employed be reasonable and that they conform to the provisions of the labor organization's constitution and bylaws insofar as they are not inconsistent with the provisions of Title IV.

§ 452.56 Notice.

(a) To meet this requirement, the labor organization must give timely notice reasonably calculated to inform all members of the offices to be filled in the election as well as the time, place, and form for submitting nominations. Such notice should be distinguished from the notice of election, discussed in § 452.99. Notice of nominations need not necessarily be given at least 15 days before nominations are held, nor is it required to be given by mail. In an election which is to be held by secret ballot, accordingly, notice of nominations may be given in any manner reasonably calculated to reach all members in good standing and in sufficient time to permit such members to nominate the candidates of their choice, so long as it is in accordance with the provisions of the labor organization's constitution or bylaws. Mailing such notice to the last known address of each member within a reasonable time prior to the date for making nominations would satisfy this requirement. Likewise, timely publication in the union newspaper with sufficient prominence to be seen by all members would be adequate notice. The method of making nominations, whether by mail, petition, or at meetings, could affect the determination of the timeliness of the notice. The nomination notice may be combined with the election notice if the requirements of both are met. Posting of a nomination notice may satisfy the requirement of a reasonable opportunity for making nominations if such posting is reasonably calculated to inform all members in good standing in sufficient time to permit such members to nominate the candidates of their choice.

(b) The requirement of a reasonable opportunity for the nomination of candidates has been met only when the members of a labor organizations are fully informed of the proper method of making such nominations.

§ 452.57 Procedures for nomination.

(a) Since the Act does not prescribe particular procedures for the nomination of candidates, the labor organization is free to employ any method that will provide a reasonable opportunity for making nominations. There are various methods which, if properly and fairly employed, would be considered reasonable under the Act. For example, nominations may be by petition, or from the floor at a nomination meeting.

(b) Whether a particular procedure is sufficient to satisfy the requirements of the Act is a question which will depend upon the particular facts in each case. While a particular procedure may not on its face violate the requirements of the Act, its application in a given instance may make nomination so difficult as to deny the members a reasonable opportunity to nominate.

§ 452.58 Self-nomination.

A system of self-nomination, if this is the only method for making nominations, deprives union members of a reasonable opportunity to nominate candidates and thus is inconsistent with the provisions of Title IV.[34] Self-nomination is permissible only if the members are afforded additional methods whereby they may nominate the candidates of their choice.

§ 452.59 Presence of nominee.

A requirement that members must be present at the nomination meeting in order to be nominated for office might be considered unreasonable in certain circumstances; for example, in the absence of a provision for an alternative method under which a member who is unavoidably absent from the nomination meeting may be nominated, such a restriction might be regarded as inconsistent with the requirement in section 401(e) that there be a reasonable opportunity to nominate and to be a candidate.

§ 452.60 Nominations for national, international or intermediate body office.

(a) When officers of a national or international labor organization or of an

[31] Wirtz v. Local 30, IUOE, 242 F. Supp. 631 (S.D. N.Y. 1965) reversed as moot 366 F.2d 438 (C.A. 2, 1966), reh. den. 366 F.2d 438.

[32] Wirtz v. Local Union 559, United Brotherhood of Carpenters and Joiners of America, 61 LRRM 2618, 53 L.C. ¶ 11.044 (W.D. Ky. 1966); Hodgson v. Longshoremen's Local 1655 New Orleans Dray Clerks, 79 LRRM 2893, 67 L.C. ¶ 12,466 (E.D. La. January 5, 1972).

[33] Hodgson v. Longshoremen's Local 1655, New Orleans Dray Clerks, 79 LRRM 2693, 67 L.C. ¶12,466 (E.D. La. January 5, 1972)

[34] See Wirtz v. National Maritime Union of America, 399 F.2d 544 (C.A. 2 1968).

V 38 1130 JUL 9 73 XUM

intermediate body are to be elected by secret ballot among the members of the constituent local unions, it is not unreasonable for the organization to employ a nominating procedure whereby each local may nominate only one candidate for each office. When such a procedure is employed the organization may require that each candidate be nominated by a certain number of locals before his name will appear on the ballot. The reasonableness of the number of local union nominations or endorsements required depends upon the size and dispersion of the organization.

(b) Nominations for national, international or intermediate body office by locals or other subordinate organizations differ from primary elections in that they are not subject to all the technical requirements of secret ballot elections.[34] However, where nominations are made by locals or other subordinate organizations fundamental safeguards must be observed including the right of members to vote for and support the candidates of their choice without improper interference.

§ 452.61 Elimination contests—local unions.

(a) A procedure in a local under which nominees compete in an elimination process to reduce the number of candidates in the final balloting is also part of the election process and must be conducted by secret ballot.

(b) When such an elimination process is used it would be unreasonable for some nominees, such as those selected by a nominating committee, to be exempt from the process since they would thus be given an unfair advantage over other nominees.

§ 452.62 Disqualification of candidates: procedural reasons.

A candidate who is otherwise eligible for office may not be disqualified because of the failure of a union officer to perform his duties which are beyond the candidate's control. For example, the failure of a local recording secretary to perform his duty to complete and forward a candidate's nomination certificate to the district may not be used as the basis for disqualifying the candidate.

§ 452.63 Nominations at conventions.

In elections at conventions at which nominations are also made, delegates who have been elected by secret ballot must be given ample opportunity to nominate candidates on behalf of themselves or the members they represent. A union may adopt a rule limiting access to the convention floor to delegates. However, once the candidates have been nominated, they must be accorded equal opportunity to campaign.[35] Where delegates are instructed by locals to nominate candidates, the constitution of the organization or the convention rules should provide a specific procedure for the implementation of nominating instructions issued by any local to its delegate.

§ 452.64 Write-in votes.

The Act neither requires nor prohibits write-in candidacy or write-in votes. These matters are governed by appropriate provisions of the union's constitution and bylaws, applicable resolutions, or the established practice of the union.

§ 452.65 Interval between nominations and election.

The Act specifies no time interval between nominations and election. Thus, both may be scheduled to be held at the same meeting if, during a reasonable period prior to such nomination-election meeting, every member eligible to hold office who intends to run for office is afforded the protection provided in section 401(c), including sufficient opportunity to campaign for office.

Subpart G—Campaign Safeguards

§ 452.66 Statutory provisions.

The opportunity for members to have a free, fair, and informed expression of their choices among candidates seeking union office is a prime objective of Title IV of the Act. Voters can best be assured opportunity for an informed choice if certain campaign rights are guaranteed to candidates and their supporters. To this end, the statute provides that adequate safeguards to insure a fair election shall be provided, and states certain specific safeguards. These safeguards apply not only to candidates for officer positions as defined in the Act but also to candidates for delegate posts. If the delegates are to nominate or elect officers.

§ 452.67 Distribution of campaign literature.

The Act imposes the duty on the union and its officers to comply with all reasonable requests of any candidate to distribute his campaign literature to the membership at his expense. When the organization or its officers authorize distribution of campaign literature on behalf of any candidate, similar distribution under the same conditions must be made for any other candidate, if he requests it. In order to avoid charges of disparity of treatment among candidates, it is advised that a union inform all candidates in advance of the conditions under which distribution will be made and promptly advise them of any change in those conditions.

§ 452.68 Distribution to less than full membership.

Although section 401(c) specifies distribution to "all members in good standing," a labor organization must also honor requests for distribution of literature to only a portion of the membership if such distribution is practicable. Each candidate may choose his own ways of campaigning for election according to his own ingenuity and resources. For example, some candidates for national or international union office may desire to limit distribution to delegates, but others may want to appeal directly to the membership or parts thereof in an effort to influence particular constituencies to choose delegates favorable to their candidacy.

§ 452.69 Expenses of campaign literature.

Each candidate must be treated equally with respect to the expense of such distribution. Thus, a union and its officers must honor a candidate's request for distribution where the candidate is willing and able to bear the expense of such distribution. However, should the candidate be unable to bear such expense, there is no requirement that the union distribute the literature of the candidate free of charge. In the event the union distributes any candidate's literature without charge, however, all other candidates are entitled to have their literature distributed on the same basis. Since labor organizations have an affirmative duty to comply with all reasonable requests of any candidate to distribute campaign literature (at the candidate's expense), a union rule refusing all such distributions would not be proper, even though applied in a nondiscriminatory fashion. In view of the fact that expenses of distribution are to be borne by the candidate a labor organization may not refuse to distribute campaign literature merely because it may have a small staff which cannot handle such distribution for all candidates. If this is the case, the organization may employ additional temporary staff or contract the job to a professional mailer and charge the expense incurred to the candidates for whom the service is being rendered. The organization may require candidates to tender in advance the estimated costs of distributing their literature, if such requirement is applied uniformly.

§ 452.70 Contents of literature.

The Act does not and unions may not regulate the contents of campaign literature which candidates may wish to have distributed by the union. This is left to the discretion of each candidate. The labor organization may not require that it be permitted to read a copy of the literature before it is sent out, nor may it censor the statements of the candidates in any way, even though the statement may include derogatory remarks about other candidates. Furthermore, a union's contention that mailing of certain campaign literature may constitute libel for which it may be sued has been held not to justify its refusal to distribute the literature, since the union is under a statutory duty to distribute the material.[37]

[34] In Hodgson v. United Mine Workers of America, the Court directed that the nomination proceedings within the local unions be conducted by secret ballot and in accordance with the provisions of Title IV. [80 LRRM 3451, 68 L.C. ¶ 12,786 (D.D.C. June 15, 1972)]. This Order indicates that the use of secret ballot nominating procedures may be an appropriate remedial measure in a supervised election.

[35] See § 452.79.

[37] See Philo v. Stellato, (E.D. Mich. Civil No. 21244, May 24, 1961); Ansley v. Fulco, (Calif. Ct. of Appeal, First App. District, Div. Three, 1 Civil No. 29483, May 31, 1972).

§ 452.71 Inspection of membership lists.

(a) Each bona fide candidate for office has a right, once within 30 days prior to any election in which he is a candidate, to inspect a list containing the names and last known addresses of all members of the labor organization who are subject to a collective bargaining agreement requiring membership therein as a condition of employment. The right of inspection does not include the right to copy the list but does include the right to compare it with a personal list of members. It is the intent of the Act that such membership lists be made available for inspection at the candidates' option any time within the 30-day period. The list is not required to be maintained continuously and may be compiled immediately before each election. The form in which the list is to be maintained is not specified by the Act, Thus, a card index system may satisfy the requirements of the Act. The list may be organized alphabetically or geographically, or by local in a national or international labor organization.

(b) It is the duty of the labor organization and its officers to refrain from discrimination in favor of or against any candidate with respect to the use of lists of members. Thus, if a union permits any candidate to use such lists in any way other than the right of inspection granted by the Act, it must inform all candidates of the availability of the list for that purpose and accord the same privilege to all candidates who request it. Such privileges may include permitting inspection of the list where members are not subject to a collective bargaining agreement requiring membership as a condition of employment, inspecting the list more than once, or copying the list.

§ 452.72 Period of inspection.

The Act specifies the maximum period during which the right of inspection of membership lists is to be granted. The opportunity to inspect the lists must be granted once during the 30-day period prior to the casting of ballots in the election. Thus, where a mail ballot system is employed under which ballots are returnable as soon as received by members, the right to inspect must be accorded within the 30-day period prior to the mailing of the ballot to members. It would be an unreasonable restriction to permit inspection of lists only after the ballots have been mailed or the balloting has commenced.

§ 452.73 Use of union funds.

In the interest of fair union elections, section 401(g) of the Act places two limitations upon the use of labor organization funds derived from dues, assessments, or similar levy. These limitations are: (a) No such funds may be contributed or applied to promote the candidacy of any person in an election subject to Title IV, either in an election within the organization expending the funds or in any other labor organization; and (b) no such funds may be used for issuing statements involving candidates in the election. This section is not intended to prohibit a union from assuming the cost of distributing to the membership on an equal basis campaign literature submitted to the union by the candidates pursuant to the rights granted by section 401(c), as previously discussed, nor does it prohibit the expenditure of such funds for notices, factual statements of issues not involving candidates, and other expenses necessary for the holding of the election.

§ 452.74 Expenditures permitted.

The Act does not prohibit impartial publication of election information. Thus, it would not be improper for a union to sponsor a debate at which all candidates for a particular office are afforded equal opportunity to express their views to the membership prior to an election. Similarly, a union may issue information sheets containing biographical data on all candidates so long as all candidates are given equal opportunity to submit such data.

§ 452.75 Union newspapers.

The provisions of section 401(g) prohibit any showing of preference by a labor organization or its officers which is advanced through the use of union funds to criticize or praise any candidate. Thus, a union may neither attack a candidate in a union-financed publication nor urge the nomination or election of a candidate in a union-financed letter to the members. Any such expenditure regardless of the amount, constitutes a violation of section 401(g).[38]

§ 452.76 Campaigning by union officers.

Unless restricted by constitutional provisions to the contrary, union officers and employes retain their rights as members to participate in the affairs of the union, including campaigning activities on behalf of either faction in an election. However, such campaigning must not involve the expenditure of funds in violation of section 401(g). Accordingly, officers and employees may not campaign on time that is paid for by the union, nor use union funds, facilities, equipment, stationery, etc., to assist them in such campaigning. Campaigning incidental to regular union business would not be a violation.

§ 452.77 Permissible use of union funds.

Certain uses of union funds are considered permissible under section 401(g). For example, a court ruled that money of a subordinate union may be contributed to a committee formed to challenge the results of a national union election under Title IV when such contributions are properly authorized by the members in an effort to pursue election remedies both within and outside the union. In holding such activity to be outside the prohibitions of section 401(g), although the committee was formed by defeated candidates and their supporters, the court stated that ". . . It does not promote the candidacy of any person if an election is declared invalid by a court under Title IV's procedure despite the fact that in the rerun election the candidates may be identical. Neither the winner nor the loser of the disputed election gains votes by the setting aside of the election. Such action is not a vote-getting device but merely returns the parties to their pre-election status; it does not place any candidate into office." [39]

§ 452.78 Expenditures by employers.

(a) As an additional safeguard, section 401(g) provides that no money of an employer is to be contributed or applied to promote the candidacy of any person in an election subject to the provisions of Title IV. This includes indirect as well as direct expenditures. Thus, for example, campaigning by union stewards on company time with the approval of the employer would violate section 401(g) unless it can be shown that they are on legitimate work assignments, and that their campaign activities are only incidental to the performance of their assigned task and do not interfere with its performance. This prohibition againt the use of employer money includes any costs incurred by an employer, or anything of value contributed by an employer, in order to support the candidacy of any individual in an election. It would not, however, extend to ordinary business practices which result in conferring a benefit, such as, for example, a discount on the cost of printing campaign literature which is made available on the same terms to other customers.

(b) The prohibition against the use of employer money to support the candidacy of a person in any election subject to the provisions of Title IV is not restricted to employers who employ members of the labor organization in which the election is being conducted, or who have any business or contractual relationship with the labor organization.

§ 452.79 Opportunity to campaign.

There must be a reasonable period prior to the election during which office-seekers and their supporters may engage in the campaigning that the Act contemplates and guarantees. What is a reasonable period of time would depend upon the circumstances, including the method of nomination and the size of the union holding the election, both in terms of the number of members and the geographic area in which it operates. For example, a candidate for office in a local labor organization was improperly disqualified and then appealed to the international union which directed that his name be placed on the ballot. A complaint was considered properly filed alleging election violations because the candidate's name was restored to the

[38] Hodgson v. Liquor Salesmen's Union, Local No. 2, 334 F.Supp. 1369 (S.D. N.Y.) aff'd 449 F.2d 1344 (C.A. 2 1971); Shultz v. Local Union 6799, United Steelworkers, 426 F.2d 969 (C.A. 9 1970).

[39] Retail Clerks Union, Local 648 v. Retail Clerks International Association, 299 F.Supp. 1012, 1024 (D.D.C. 1969).

V 38 130 JUL 9 73 XUM

ballot two days prior to the election so that he was denied an equal opportunity to campaign. Similarly, in a mail ballot election a union's delay in the distribution of campaign literature until after the ballots have been distributed and some have been cast would not satisfy the requirement to distribute such literature in compliance with a reasonable request.[40] Such a delay would deny the candidate a reasonable opportunity to campaign prior to the election and would thus not meet the requirement for adequate safeguards to insure a fair election. Where access to the convention floor is limited exclusively to delegates at a convention at which officers are to be elected, there must, nevertheless, be equal opportunity for all nominees to campaign. Thus, if the privilege of addressing the convention is accorded to any of the nominees, it must be accorded to all nominees who request it, whether they are delegates or not.

§ 452.80 Bona fide candidates.

A person need not be formally nominated in order to be a bona fide candidate entitled to exercise the rights mentioned in § 452.67 and § 452.71.[41] Thus, any qualified member seeking to be nominated and elected at a convention would be table to take advantage of the distribution rights even before the convention meets and thus attempt to influence members to select delegates favorable to his candidacy or to persuade the delegates to support his candidacy. A union may reasonably require that a person be nominated in order to be elected, but many not prevent a member who actively seeks office and is otherwise qualified from taking advantage of the campaign safeguards in the Act in an effort to gain the support necessary to be nominated.

§ 452.81 Rights in intermediate body elections.

While the literal language in section 401(c) relating to distribution of campaign literature and to discrimination with respect to the use of membership lists would seem to apply only to national, international and local labor organizations, two United States District Courts have held that these provisions also apply to intermediate bodies.[42] The Department of Labor considers these rulings to be consistent with the intent of Congress and, therefore, has adopted this position.

§ 452.82 Reprisal for exercising rights.

A member has a right to support the candidate of his choice without being subject to penalty, discipline, or improper interference or reprisal of any kind by the labor organization conducting the election or any member thereof.

[40] Wirtz v. American Guild of Variety Artists, 267 F. Supp. 527 (S.D.N.Y. 1967).
[41] Yablonski v. United Mine Workers, 71 LRRM 2606, 60 L.C. 10,204 (D.D.C 1969).
[42] Antal v. UMW District 5, 64 LRRM 2222, 54 L.C. 11,621 (W.D. Pa. 1966); Schonfeld v. Rarback, 49 L.C. 19,039 (S.D.N.Y. 1964).

§ 452.83 Enforcement of campaign safeguards.

Certain of the safeguards of section 401(c) are enforceable at the suit of any bona fide candidate. This special statutory right to sue is limited to the distribution of campaign literature by the labor organization and the forbearance of such organization from discrimination among candidates with respect to the use of membership lists. Of course, all Title IV safeguards, including those discussed in this paragraph, are subject to enforcement as provided in section 402. It should be noted that the right of a bona fide candidate to sue in the circumstances described herein is limited to the period prior to election. After the election, the only remedy would be through a suit by the Secretary under section 402.

Subpart H—Right to Vote

§ 452.84 General.

Under the provisions of section 401(e), every member in good standing is entitled to vote in elections required under Title IV which are to be held by secret ballot. The phrase "member in good standing" includes any person who has fulfilled the requirements for membership and who neither has withdrawn from membership nor has been expelled or suspended from membership after appropriate proceedings consistent with lawful provisions of the constitution and bylaws of the organization.[43]

§ 452.85 Reasonable qualifications on right to vote.

The basic right of members to vote in elections of the labor organization may be qualified by reasonable rules and regulations in its constitution and bylaws.[44]

§ 452.86 Vote conditioned on payment of dues.

A labor organization may condition the exercise of the right to vote upon the payment of dues, which is a basic obligation of membership. Such a rule must be applied uniformly. If a member has not paid his dues as required by the labor organization's constitution or bylaws he may not be allowed to vote. Thus, a rule which suspends a member's right to vote in an election of officers while the member is laid off and is not paying dues would not, in ordinary circumstances, be considered unreasonable, so long as it is applied in a nondiscriminatory manner. However, members must be afforded a reasonable opportunity to pay dues, including a grace period during which dues may be paid without any loss of rights. In the case where a member is laid off but desires to maintain his good standing and thus his membership rights by continuing to pay dues, it would be clearly unreasonable for the labor organization to refuse to accept his payment.

§ 452.87 Dues paid by checkoff.

A member in good standing whose dues are checked off by his employer pursuant to his voluntary authorization provided for in a collective bargaining agreement may not be disqualified from voting by reason of alleged delay or default in the payment of dues. For example, the constitution and bylaws of a labor organization call for suspension of members whose dues are three months in arrears. Dues to be paid directly by a member are two months in arrears when the union changes to a checkoff system. The member may not be denied the right to vote merely because the employer is late in submitting the checked off dues for the first month. It would not be inconsistent with the Act, however, for a union to require a new member who executes a checkoff authorization to pay one month's dues in advance on the date he becomes a member in order to be in good standing for the current month.

[43] Act, sec. 3(o).
[44] Act, sec. 101(a)(1).

§ 452.88 Resumption of good standing.

While it is permissible for a labor organization to deny the right to vote to those delinquent in paying their dues (with the exceptions noted) or to those who have been suspended or disciplined in accordance with section 101(a)(5) of the Act, a provision under which such persons are disqualified from voting for unextended period of time after payment of back dues or after reinstatement would not be considered reasonable. After a member has resumed his good-standing status, it would be unreasonable to continue to deprive him of his right to vote for a period longer than that for a new member. A new member may reasonably be required to establish a relationship with the union by remaining in good standing for a continuous period of time, e.g., 6 months or a year, before being permitted to vote in an election of officers. However, while the right to vote may be deferred within reasonable limits, a union may not create special classes of nonvoting members.

§ 452.89 Apprentices.

A labor organization may condition the right to vote upon completion of a bona fide program of apprenticeship training which is designed to produce competent tradesmen in the industry the union serves.

§ 452.90 Visiting members.

A decision about the voting rights of visiting members is properly one for resolution by the union in accordance with the organization's constitution and bylaws or applicable resolutions. For purposes of the Act, a person is ordinarily considered to be a member of the local to which he pays his dues.

§ 452.91 Voting by employers, supervisors.

Voting in union elections by employers, self-employed persons, supervisors or other persons who are considered to be part of management is not precluded by Title IV of the Act even if they are not required to maintain union membership as a condition of employment. However, as mentioned in the discussion of qualifications for candidacy (see § 452.47), such persons may not dominate or interfere with the administration of any labor organization.

§ 452.92 Unemployed members.

Members who are otherwise qualified to vote may not be disqualified from voting merely because they are currently unemployed or are employed on a part-time basis in the industry served by the union, provided, of course, that such members are paying dues.

§ 452.93 Retired members.

The right of retirees to vote may be restricted to the extent provided by the constitution and bylaws of the labor organization.

§ 452.94 Reasonable opportunity to vote.

The statutory protection of the right to vote implies that there must be a reasonable opportunity to vote. Thus, there is an obligation on the labor organization to conduct its periodic election of officers in such a way as to afford all its members a reasonable opportunity to cast ballots. A union may meet this obligation in a variety of ways, depending on factors such as the distance between the members' work site or homes and the polling place, the means of transportation available, the nature of the members' occupations, and their hours of work. A reasonable opportunity to vote may require establishing multiple polling places or the use of a mail ballot referendum when the members are widely dispersed. It would also be reasonable for the time period for voting to be extended to accomodate members who might otherwise be prevented from voting due to conflicting work schedules. Shortening the voting period by a late opening of the polls would not, in itself, be improper unless the intent or practical effect of such action is to deprive members of their right to vote.

§ 452.95 Absentee ballots.

Where the union knows in advance that a substantial number or a particular segment of the members will not be able to exercise their right to vote in person, as, for example, when access to a polling place is impracticable for many members because of shipping assignments, absentee ballots or other means of voting must be made available.[45] In the event absentee ballots are necessary the organization must give its members reasonable notice of the availability of such ballots.[46]

Subpart I—Election Procedures; Rights of Members

§ 452.96 General.

The Act safeguards democratic processes by prescribing, in section 401, minimum standards for the regular periodic election of officers in labor organizations subject to its provisions. It does not, however, prescribe in detail election procedures which must be followed. Labor organizations are free to establish procedures for elections as long as they are fair to all members and are consistent with lawful provisions of the organization's constitution and bylaws and with section 401. The rights granted to members in section 401(e) refer to individuals, not labor organizations. For example, while locals may be members of an intermediate body, they are not entitled to the rights granted "members" in section 401(e).

§ 452.97 Secret ballot.

(a) A prime requisite of elections regulated by Title IV is that they be held by secret ballot among the members or in appropriate cases by representatives who themselves have been elected by secret ballot among the members. A secret ballot under the Act is "the expression by ballot, voting machine, or otherwise, but in no event by proxy, of a choice * * * cast in such a manner that the person expressing such choice cannot be identified with the choice expressed."[47] Secrecy may be assured by the use of voting machines or, if paper ballots are used, by providing voting booths, partitions, or other physical arrangements permitting privacy for the voter while he is marking his ballot. The ballot must not contain any markings which upon examination would enable one to identify it with the voter. Balloting by mail presents special problems in assuring secrecy. Although no particular method of assuring such secrecy is prescribed, secrecy may be assured by the use of a double envelope system for return of the voted ballots with the necessary voter identification appearing only on the outer envelope.

(b) Should any voters be challenged as they are casting their ballots, there should be some means of setting aside the challenged ballots until a decision regarding their validity is reached without compromising the secrecy requirement. For example, each such ballot might be placed in an envelope with the voter's name on the outside. Of course, it would be a violation of the secrecy requirement to open these envelopes and count the ballots one at a time in such a way that each vote could be identified with a voter.

(c) In a mail ballot election, a union may require members to sign the return envelope if the signatures may be used in determining eligibility. However, it would be unreasonable for a union to void an otherwise valid ballot merely because a member printed rather than signed his name if the union does not use the signatures to determine voter eligibility.

§ 452.98 Outside agencies.

There is nothing in the Act to prevent a union from employing an independent organization as its agent to handle the printing, mailing, and counting of ballots in such elections if all the standards of the Act are met.

[45] Goldberg v. Marine Cooks and Stewards Union, 204 F. Supp. 844 (N.D. Cal. 1962).
[46] Wirtz v. Local Union 262, Glass Bottle Blowers Association, 290 F. Supp. 965 (N.D. Calif. 1968).
[47] Act, sec. 3(k).

§ 452.99 Notice of election.

Elections required by Title IV to be held by secret ballot must be preceded by a notice of election mailed to each member at his last known home address not less than fifteen days prior to the election.[48] For purposes of computing the fifteen day period, the day on which the notices are mailed is not counted whereas the day of the election is counted. For example, if the election is to be held on the 20th day of the month, the notices must be mailed no later than the 5th day. The notice must include a specification of the date, time and place of the election and of the offices to be filled, and it must be in such form as to be reasonably calculated to inform the members of the impending election. Specification of the offices to be filled would not be necessary if it is a regular, periodic election of all officers and the notice so indicates. A statement in the union bylaws that an election will be held at a certain time does not constitute the notice required by the statute. Since the Act specifies that the notice must be mailed, other means of transmission such as posting on a bulletin board or hand delivery will not satisfy the requirement. A notice of election must be sent to every member as defined in section 3(o) of the Act, not only to members who are eligible to vote in the election. Where the notice, if mailed to the last known permanent or legal residents of the member, would not be likely to reach him because of a known extended absence from that place, the statutory phrase "last known home address" may reasonably be interpreted to refer to the last known temporary address of definite duration. A single notice for both nominations and election may be used if it meets the requirements of both such notices.[49]

§ 452.100 Use of union newspaper as notice.

A labor organization may comply with the election notice requirement by publishing the notice in the organization's newspaper which is mailed to the last known home address of each member not less than fifteen days prior to the election. Where this procedure is used (a) the notice should be conspicuously placed on the front page of the newspaper, or the front page should have a conspicuous reference to the inside page where the notice appears, so that the inclusion of the election notice in a particular issue is readily apparent to each member; (b) the notice should clearly identify the particular labor organization holding the election; (c) the notice should specify the time and place of the election and the offices to be filled; and (d) a reasonable effort must be made to keep the mailing list of the publication current.

§ 452.101 Sample ballots as notice.

Sample ballots together with information as to the time and place of the

[48] Act, sec. 401(e).
[49] See § 452.56 for a discussion of the requirements for notices of nomination.

V 38 130 JUL 9 73 XUM

election and the offices to be filled, if mailed fifteen days prior to the election, will fulfill the election notice requirements.

§ 452.102 Notice in mail ballot election.

If the election is conducted by mail and no separate notice is mailed to the members, the ballots must be mailed to the members no later than fifteen days prior to the date when they must be mailed back in order to be counted.

§ 452.103 Primary elections.

The fifteen-day election notice provision applies to a "primary election" at which nominees are chosen. Likewise, the fifteen-day election notice requirement applies to any runoff election which may be held after an inconclusive election. However, a separate notice would not be necessary if the election notice for the first election advises the members of the possibility of a runoff election and specifies such details as the time and place of such runoff election as may be necessary.

§ 452.104 Proximity of notice to election.

(a) The statutory requirement for giving fifteen days' notice of election is a minimum standard. There is no objection to giving more notice than is required by law. However, it was clearly the intent of Congress to have members notified at a time which reasonably precedes the date of the election. For example, notice in a union publication which is expected to cover elections to be held six months later would not be considered reasonable.

(b) Should a union change the date of an election from the date originally announced in the mail notice to the members, it must mail a second notice, containing the corrected date, at least fifteen days before the election.

§ 452.105 Interference or reprisal.

Title IV expressly provides for the right of a member to vote for and otherwise support the candidates of his choice without being subject to penalty, discipline, or improper interference or reprisal of any kind by the labor organization conducting the election or any officer or member thereof.[50]

§ 452.106 Preservation of records.

In every secret ballot election which is subject to the Act, the ballots and all other records pertaining to the election must be preserved for one year.[51] The responsibility for preserving the records is that of the election officials designated in the constitution and bylaws of the labor organization or, if none is so designated, its secretary. Since the Act specifies that ballots must be retained, all ballots, marked or unmarked, must be preserved. Independent certification as to the number and kind of ballots destroyed may not be substituted for preservation. In addition, ballots which have been voided, for example, because they were received late or because they were cast for an ineligible candidate, must also be preserved.

§ 452.107 Observers.

(a) Under the provisions of section 401(c), each candidate must be permitted to have an observer (1) at the polls and (2) at the counting of the ballots. This right encompasses every phase and level of the counting and tallying process, including the counting and tallying of the ballots and the totaling, recording, and reporting of tally sheets. If there is more than one polling place, the candidate may have an observer at each location. If ballots are being counted at more than one location or at more than one table at a single location, a candidate is entitled to as many observers as necessary to observe the actual counting of ballots. The observer may note the names of those voting so that the candidates may be able to ascertain whether unauthorized persons voted in the election. The observers should be placed so that they do not compromise, or give the appearance of compromising, the secrecy of the ballot. The observer is not required to be a member of the labor organization unless the union's constitution and bylaws require him to be a member. There is no prohibition on the use of alternate observers, when necessary, or on a candidate serving as his own observer. Observers do not have the right to count the ballots.

(b) The right to have an observer at the polls and at the counting of the ballots extends to all candidates for office in an election subject to Title IV, i.e., this includes elections in intermediate bodies as well as elections in locals and national and international labor organizations.

(c) In any secret ballot election which is conducted by mail, regardless of whether the ballots are returned by members to the labor organization office, to a mail box, or to an independent agency such as a firm of certified public accountants, candidates must be permitted to have an observer present at the preparation and mailing of the ballots, their receipt by the counting agency and at the opening and counting of the ballots.

(d) Paying election observers is the responsibility of the candidate they represent unless the union has a rule providing for the payment of observers. If the union does have such a rule, it must be uniformly applied to all candidates.

§ 452.108 Publication of results.

In any election which is required by the Act to be held by secret ballot, the votes cast by members of each local labor organization must be counted, and the results published, separately.[52] For example, where officers of an intermediate body are elected directly by members, the votes of each local must be tabulated and published separately. The publishing requirement is to assure that the results of the voting in each local are made known to all interested members. Thus, the presentation of the election report at a regular local membership meeting, and the entry of the report in the minutes, would normally accomplish this purpose in a local election. Such minutes would have to be available for inspection by members at reasonable times, unless copies of the report are made available. In an election that encompasses more than one local, publication may be accomplished by posting on appropriate bulletin boards, or in a union newspaper, or by any procedure which allows any member to obtain the information without unusual effort. Of course, the counting and reporting should account for all ballots cast in the election, although only valid votes will be counted in determining the successful candidates.

§ 452.109 Constitution of labor organization.

Elections must be conducted in accordance with the constitution and bylaws of the organization insofar as they are not inconsistent with the provisions of Title IV.[53]

§ 452.110 Adequate safeguards.

(a) In addition to the election safeguards discussed in this Part, the Act contains a general mandate in section 401(c), that adequate safeguards to insure a fair election shall be provided. Such safeguards are not required to be included in the union's constitution and bylaws, but they must be observed. A labor organization's wide range of discretion regarding the conduct of elections is thus circumscribed by a general rule of fairness. For example, if one candidate is permitted to have his nickname appear on the ballot, his opponent should enjoy the same privilege.

(b) A union's failure to provide voters with adequate instructions for properly casting their ballots may violate the requirement of adequate safeguards to insure a fair election.

§ 452.111 Campaigning in polling places.

There must not be any campaigning within a polling place[54] and a union may forbid any campaigning within a specified distance of a polling place.

§ 452.112 Form of ballot, slate voting.

The form of the ballot is not prescribed by the Act. Thus, a union may, if it so

[50] Act, section 401(e). In Wirtz v. Local 1752, ILA, 56 LRRM 2303, 49 L.C. ¶18,998 (S.D. Miss. 1963), the court, under its equitable jurisdiction, granted a preliminary injunction on the motion of the Secretary to enjoin a union from taking disciplinary action against a member. The member had filed a complaint with the Secretary under section 402(a) that resulted in the Secretary filing suit under 402(b).

[51] Act, section 401(e).

[52] Act, sec. 401(e). See also Senate Report 187, 86th Cong. 1st sess., p. 47; Daily Cong. Rec. p. 13682, Aug. 3, 1959, and p. A6573, July 29, 1959.

[53] Act, sec. 401(e). Under 29 CFR 402.10, a labor organization is required to make available to all members a copy of its constitution and bylaws.

[54] See Hodgson v. UMW, 344 F.Supp. 17 (D.D.C. 1972).

desires, include a proposed bylaw change or other similar proposal on a ballot along with the candidates for office so long as this is permissible under the union's constitution and bylaws. A determination as to the position of a candidate's name on the ballot may be made by the union in any reasonable manner permitted by its constitution and bylaws, consistent with the requirement of fairness and the other provisions of the Act. For example, candidates may be listed according to their affiliation with a particular slate. However, while "slate voting" is permissible, the balloting must be consistent with the right of members to vote for the candidates of their choice. Thus, there must be provision for the voter to choose among individual candidates if he does not wish to vote for an entire slate. To avoid any misunderstand in this regard, the voting instructions should specifically inform the voter that he need not vote for an entire slate.

§ 452.113 Sectional balloting.

The ballots may be prepared so that the names of candidates for positions representative of a particular area appear only on the ballots received by members living in that area.

§ 452.114 Write-in votes.

Where write-in votes are permitted in an election subject to Title IV, details of the format of the ballot are left to the discretion of the union. Ordinarily, the Secretary would become involved in such matters only in the context of an election complaint under section 402 and then only if the arrangements for write-in votes were so unreasonable that the outcome of the election may have been affected. Of course, a union may, in accordance with its constitution and bylaws or as a matter of stated policy, refuse to permit write-in votes.

§ 452.115 Distribution of ballots.

So long as secrecy of the ballot is maintained, there is no restriction on how the ballots are distributed to the voters. Any method which actually provides each eligible voter with one blank ballot would be in conformance with the law.

§ 452.116 Determining validity of ballots.

Generally, a labor organization has a right to establish reasonable rules for determining the validity of ballots cast in an election. However, where the union has no published guides for determining the validity of a voted ballot, it must count any ballot voted in such a way as to indicate fairly the intention of the voter. An entire ballot may not be voided because of a mistake made in voting for one of the offices on the ballot.

§ 452.117 Majority of votes not required for election.

A labor organization may by its constitution and bylaws provide for the election of the candidate who receives the greatest number of votes, although he does not have a majority of all the votes cast. Alternatively, it may provide that where no candidate receives a majority of all the votes cast, a run-off election be held between the two candidates having the highest vote. Similarly, a labor organization conducting an election to choose five members of an executive board may designate as elected from among all the nominees the five candidates who receive the highest vote.

§ 452.118 Local unions agents in international elections.

An international union may establish internal rules which require local or intermediate union officials to act as agents of the international in conducting designated aspects of the international referendum election of officers. The consequences of the failure to perform as directed by such officials will, of course, depend on the totality of the circumstances involved.

§ 452.119 Indirect elections.

National or international labor organizations subject to the Act have the option of electing officers either directly by secret ballot among the members in good standing or at a convention of delegates or other representatives who have been elected by secret ballot among the members. Intermediate labor organizations subject to the Act have the option of electing officers either directly by secret ballot among the members in good standing or by labor organization officers or delegates elected by secret ballot vote of the members they represent. Local unions, in contrast, do not have the option of conducting their periodic elections of officers indirectly through representatives.

§ 452.120 Officers as delegates.

Officers of labor organizations who have been elected by secret ballot vote of their respective memberships may, by virtue of their election to office, serve as delegates to conventions at which officers will be elected, if the constitution and bylaws of the labor organization so provide. In such cases it is advisable to have a statement to this effect included on the ballots. Persons who have been appointed to serve unexpired terms of officers who are ex officio delegates to a convention at which officers will be elected may not vote for officers in such election.

§ 452.121 Limitations on national or international officers serving as delegates.

While officers of national or international labor organizations or of intermediate bodies who have been elected by a vote of the delegates to a convention may serve as delegates to conventions of their respective labor organizations if the constitution and bylaws so provide, they may not vote in officer elections at such conventions unless they have also been elected as delegates by a secret ballot vote of the members they are to represent. Of course, such officers may participate in the convention, i.e., they may preside over the convention, be nominated as candidates, or act in other capacities permitted under the organization's constitution and bylaws.

§ 452.122 Delegates from intermediate bodies; method of election.

A delegate from an intermediate body who participates in the election of officers at a national or international convention must have been elected by a secret ballot vote of the individual members of the constituent units of that body. He may not participate if he was elected by the delegates who make up the intermediate body. The secret ballot election required by the Act is an election among the general membership and not an election of delegates by other delegates.

§ 452.123 Elections of intermediate body officers.

Section 401(d) states that officers of intermediate bodies shall be elected either by secret ballot among the members in good standing or by labor organization officers representative of such members who have been elected by secret ballot. The phrase "officers representative of such members" includes delegates who have been elected by secret ballot to represent labor organizations in intermediate bodies. Such delegates may therefore participate in the election of officers of intermediate bodies regardless of whether they are characterized as officers of the labor organization they represent.

§ 452.124 Delegates from units which are not labor organizations.

To the extent that units, such as committees, which do not meet the definition of a labor organization under the Act[55] participate in the election of officers of a national or international labor organization or an intermediate body, through delegates to the convention or otherwise, the provisions of Title IV are, nevertheless, applicable to the election of such delegates. The following example is typical in organizations of railway employees. The chairman of a local grievance committee, which is not a labor organization under the Act, is not an officer within the meaning of the Act. If such a local chairman is a delegate to the general grievance committee, which is considered to be an intermediate body under the Act, however, he must be elected by secret ballot vote of the members he represents, if he votes for officers of the general grievance committee.

§ 452.125 Delegates from labor organizations under trusteeship.

It would be unlawful under section 303(a)(1) of the Act to count the votes of delegates from a labor organization under trusteeship in any convention or election of officers of the organization imposing the trusteeship unless such delegates were chosen by secret ballot

[55] Act, sec. 3 (i) and (j) and Part 451 of this chapter.

V 38 130 JUL 9 73 XUM

vote in an election in which all the members in good standing of the subordinate organization were eligible to participate.[54]

§ 452.126 Delegates to conventions which do not elect officers.

Delegates to conventions need not be elected by secret ballot when officers of the organization are elected by a secret ballot vote of the entire membership. However, if the only method of making nominations is by delegates, then the delegates must be elected by secret ballot.

§ 452.127 Proportionate representation.

When officers of a national, international or intermediate labor organization are elected at a convention of delegates who have been chosen by secret ballot, the structure of representation of the membership is a matter for the union to determine in accordance with its constitution and bylaws. There is no indication that Congress intended, in enacting Title IV of the Act, to require representation in delegate bodies of labor organizations to reflect the proportionate number of members in each subordinate labor organization represented in such bodies. Questions of such proportionate representation are determined in accordance with the labor organization's constitution and bylaws insofar as they are not inconsistent with the election provisions of the Act. Congress did not attempt to specify the organizational structure or the system of representation which unions must adopt. However, all members must be represented; the union may not deny representation to locals below a certain size.

§ 452.128 Under-strength representation.

A local union may elect fewer delegates than it is permitted under the union constitution as long as the local is allowed to determine for itself whether or not it will send its full quota of delegates to the union convention. The delegates present from a local may cast the entire vote allotted to that local if this is permitted by the constitution and bylaws.

§ 452.129 Non-discrimination.

Further, distinctions in representational strength among or within locals may not be based on arbitrary and unreasonable factors such as race, sex, or class of membership based on type of employment.

§ 452.130 Expenses of delegates.

A local may elect two groups—one which would receive expenses while the other would be required to pay its own way, provided each member has an equal opportunity to run for the expense-paid as well as the non-expense-paid positions.

[54] Section 303(b) of the LMRDA provides criminal penalties for violation of section 303(a)(1).

§ 452.131 Casting of ballots; delegate elections.

The manner in which the votes of the representatives are cast in the convention is not subject to special limitations. For example, the voting may be by secret ballot, by show of hands, by oral roll call vote, or if only one candidate is nominated for an office, by acclamation or by a motion authorizing the convention chairman to cast a unanimous vote of the delegates present.

§ 452.132 Proxy voting.

There is no prohibition on delegates in a convention voting by proxy, if the constitution and bylaws permit.

§ 452.133 Election of delegates not members of the labor organization.

A labor organization's constitution and bylaws may authorize the election of delegates who are not members of the subordinate labor organization they represent, provided the members of the subordinate organization are also eligible to be candidates.

§ 452.134 Preservation of records.

The credentials of delegates, and all minutes and other records pertaining to the election of officers at conventions, must be preserved for one year by the officials designated in the constitution and bylaws or by the secretary if no other officer is designated. This requirement applies not only to conventions of national or international labor organizations, but also to representative bodies of intermediate labor organizations.

Subpart J—Special Enforcement Provisions

§ 452.135 Complaints of members.

(a) Any member of a labor organization may file a complaint with the Director, Office of Labor-Management and Welfare-Pension Reports, alleging that there have been violations of requirements of the Act concerning the election of officers, delegates, and representatives (including violations of election provisions of the organization's constitution and bylaws that are not inconsistent with the Act).[57] The complaint may not be filed until one of the two following conditions has been met: (1) The member must have exhausted the remedies available to him under the constitution and bylaws of the organization and its parent body, or (2) he must have invoked such remedies without obtaining a final decision within three calendar months after invoking them.

(b) If the member obtains an unfavorable final decision within three calendar months after invoking his available remedies, he must file his complaint within one calendar month after obtaining the decision. If he has not obtained a final decision within three calendar months, he has the option of filing his complaint or of waiting until he has exhausted the available remedies within the organization. In the latter case, if the final decision is ultimately unfavorable, he will have one month in which to file his complaint.

[57] Act, sec. 402(a).

§ 452.136 Investigation of complaint by Director, Office of Labor-Management and Welfare-Pension Reports and court action by the Secretary.

(a) The Director, Office of Labor-Management and Welfare-Pension Reports is required to investigate each complaint of a violation filed in accordance with the requirements of the Act and, if the Secretary finds probable cause to believe that a violation has occurred and has not been remedied, he is directed to bring within 60 days after the complaint has been filed a civil action against the labor organization in a Federal district court. In any such action brought by the Secretary the statute provides that if, upon a preponderance of the evidence after a trial upon the merits, the court finds (1) that an election has not been held within the time prescribed by the election provisions of the Act or (2) that a violation of these provisions "may have affected the outcome of an election", the court shall declare the election, if any, to be void and direct the conduct of an election under the supervision of the Secretary, and, so far as is lawful and practicable, in conformity with the constitution and bylaws of the labor organization.

(b) Violations of the election provisions of the Act which occurred in the conduct of elections held within the prescribed time are not grounds for setting aside an election unless they "may have affected the outcome." The Secretary, therefore, will not institute court proceedings upon the basis of a complaint alleging such violations unless he finds probable cause to believe that they "may have affected the outcome of an election."

(c) Elections challenged by a member are presumed valid pending a final decision. The statute provides that until such time, the affairs of the labor organization shall be conducted by the elected officers or in such other manner as the union constitution and bylaws provide. However, after suit is filed by the Secretary the court has power to take appropriate action to preserve the labor organization's assets.

Subpart K—Dates and Scope of Application

§ 452.137 Effective dates.

(a) Section 404 states when the election provisions of the Act become applicable.[58] In the case of labor organizations whose constitution and bylaws can be lawfully modified or amended by action of the organization's "constitutional officers or governing body," the election provisions become applicable 90 days after the enactment of the statute (December 14, 1959). Where the modification of the constitution and bylaws of a local labor organization requires action by the membership at a general meeting or by referendum, the general membership would be a "governing body" within the meaning of this provision. In the cases where any necessary modification of the constitution and bylaws can be made only by a constitutional convention of the labor organization, the election provisions become applicable not later than the next constitutional convention after the enactment of the statute, or one year after the enactment of the statute, whichever is sooner.

(b) The statute does not require the calling of a special constitutional convention to make such modifications. However, if no convention is held within the one-year period, the executive board or similar governing body that has the power to act for the labor organization between conventions is empowered by the statute to make such interim constitutional changes as are necessary to carry out the provisions of Title IV of the Act. Any election held thereafter would have to comply with the requirements of the Act.

[58] Act, sec. 404.

§ 452.138 Application of other laws.

(a) Section 403[59] provides that no labor organization shall be required by law to conduct elections of officers with greater frequency or in a different form or manner than is required by its own constitution or bylaws, except as otherwise provided by the election provisions of the Act.

(b) The remedy[60] provided in the Act for challenging an election already conducted is exclusive.[61] However, existing rights and remedies to enforce the constitutions and bylaws of such organizations before an election has been held are unaffected by the election provisions. Section 603[62] which applies to the entire Act, states that except where explicitly provided to the contrary, nothing in the Act shall take away any right or bar any remedy of any union member under other Federal law or law of any State.

This revision shall take effect on July 9, 1973.

Signed at Washington, D.C., this 27th day of June 1973.

PAUL J. FASSER, JR.,
Assistant Secretary for Labor-Management Relations.

Surety Companies Acceptable on Federal Bonds

No. 130—Pt. III——1

V 38 - 130 JUL 9 73 XUM

DEPARTMENT OF THE TREASURY

Fiscal Service, Bureau of Accounts

[Dept. Circular 570; 1973 Rev.]

COMPANIES HOLDING CERTIFICATES OF AUTHORITY AS ACCEPTABLE SURETIES ON FEDERAL BONDS AND AS ACCEPTABLE REINSURING COMPANIES

JULY 1, 1973.

This circular is published annually, as of July 1, solely for the information of Federal bond-approving officers and persons required to give bonds to the United States. Copies of this circular may be obtained from: Audit Staff, Bureau of Accounts, Treasury Department, Washington, D.C. 20226. Telephone: (202) 964–5284. Interim changes in this circular are published in the Federal Register as they occur.

The following companies, except where otherwise noted, have complied with the law and the regulations of the Treasury Department and are acceptable as sureties on Federal bonds, to the extent and with respect to the localities indicated opposite their respective names.

[SEAL]

JOHN K. CARLOCK,
Fiscal Assistant Secretary.

COMPANIES HOLDING CERTIFICATES OF AUTHORITY FROM SECRETARY OF THE TREASURY UNDER SECTIONS 6 TO 13 OF TITLE 6 OF THE UNITED STATES CODE AS ACCEPTABLE SURETIES ON FEDERAL BONDS (A)

Zurich Insurance Company, Zurich, Switzerland (U.S. Office, Chicago, Ill.)	10,602	D.C.

NOTES

(a) All certificates of authority expire June 30, and are renewable July 1, annually. Companies holding certificates of authority as acceptable sureties on Federal bonds are also acceptable as reinsuring companies.

(b) Treasury requirements do not limit the penal sum of bonds which surety companies may execute. The net retention, however, cannot exceed the underwriting limitation and excess risks must be protected by coinsurance, reinsurance, or other methods in accordance with Treasury Circular 297, Revised January 20, 1972 (31 CFR § 223.10, § 223.11). When excess risks on bonds in favor of the United States are protected by reinsurance, such reinsurance is to be effected by use of a Treasury reinsurance form to be filed with the bond or within 45 days thereafter. Risks in excess of limit fixed herein must be reported for quarter in which they are executed. In protecting such excess, the rating in force on the date of the execution of the risk will govern absolutely. This limit applies until a new rating is established by the Treasury Department.

(c) A surety company must be licensed in the State or other area in which it executes (signs) the bond, but need not be licensed in the State or other area in which the principal resides or where the contract is to be performed (28 Op. Atty. Gen. 127, Dec. 24, 1909; 31 CFR § 223.5(b)). The term "other areas" includes the Canal Zone, District of Columbia, Guam, Puerto Rico, and the Virgin Islands.

(d) Abbreviated capital letters preceding judicial districts indicate State or other area in which the company is incorporated. Process agents are required in the following districts: Where principal resides; where obligation is to be performed; and where the bond is returnable or filed. No process agent required in State or other area wherein company is incorporated. Letters "n, s, e, m, c, and w" preceding names of States indicate respectively the Northern, Southern, Eastern, Middle Central, and Western judicial districts of States indicated. If letters do not precede names of States, process agents have been appointed in all judicial districts of such States.

Current White House Releases

WEEKLY COMPILATION OF PRESIDENTIAL DOCUMENTS

This unique service makes available transcripts of the President's news conferences; messages to Congress; public speeches, remarks, and statements; and other Presidential materials released by the White House.

The Weekly Compilation carries a Monday dateline and covers materials released during the preceding week. It includes an Index of Contents and a system of cumulative indexes. Other finding aids include lists of laws approved by the President and of nominations submitted to the Senate, a checklist of White House releases, and a digest of other White House announcements.

This systematic publication of Presidential items provides users with up-to-date information and a permanent reference source concerning Presidential policies and pronouncements.

Subscription Price: $9.00 per year

FDA—Child Protection Packaging Standards for oven cleaners containing sodium and/or potassium hydroxide in special containers .. 37 FR 21633; 10–13–72

federal register

Area Code 202 Phone 962-8626

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by the Executive Branch of the Federal Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

Title 3—The President

EXECUTIVE ORDER 11727

Drug Law Enforcement

Reorganization Plan No. 2 of 1973, which becomes effective on July 1, 1973, among other things establishes a Drug Enforcement Administration in the Department of Justice. In my message to the Congress transmitting that plan, I stated that all functions of the Office for Drug Abuse Law Enforcement (established pursuant to Executive Order No. 11641 of January 28, 1972) and the Office of National Narcotics Intelligence (established pursuant to Executive Order No. 11676 of July 27, 1972) would, together with other related functions, be merged in the new Drug Enforcement Administration.

NOW, THEREFORE, by virtue of the authority vested in me by the Constitution and laws of the United States, including section 5317 of title 5 of the United States Code, as amended, it is hereby ordered as follows:

SECTION 1. The Attorney General, to the extent permitted by law, is authorized to coordinate all activities of executive branch departments and agencies which are directly related to the enforcement of laws respecting narcotics and dangerous drugs. Each department and agency of the Federal Government shall, upon request and to the extent permitted by law, assist the Attorney General in the performance of functions assigned to him pursuant to this order, and the Attorney General may, in carrying out those functions, utilize the services of any other agencies, Federal and State, as may be available and appropriate.

SEC. 2. Executive Order No. 11641 of January 28, 1972, is revoked and the Attorney General shall provide for the reassignment of the functions of the Office for Drug Abuse Law Enforcement and for the abolishment of that Office.

SEC. 3. Executive Order No. 11676 of July 27, 1972, is hereby revoked and the Attorney General shall provide for the reassignment of the functions of the Office of National Narcotics Intelligence and for the abolishment of that Office.

V 38-131 JUL 10 73 XUM

SEC. 4. Section 1 of Executive Order No. 11708 of March 23, 1973, as amended, placing certain positions in level IV of the Executive Schedule is hereby further amended by deleting—

(1) "(6) Director, Office for Drug Abuse Law Enforcement, Department of Justice."; and

(2) "(7) Director, Office of National Narcotics Intelligence, Department of Justice."

SEC. 5. The Attorney General shall provide for the winding up of the affairs of the two offices and for the reassignment of their functions.

SEC. 6. This order shall be effective as of July 1, 1973.

Richard Nixon

THE WHITE HOUSE,
July 6, 1973.

[FR Doc.73-14120 Filed 7-6-73;4:24 pm]

Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION
PART 213—EXCEPTED SERVICE
Department of State

Section 213.3304 is amended to show that the following positions are no longer excepted under Schedule C: one Special Assistant to the Assistant Secretary, Bureau of Economic Affairs, and one Private Secretary to the Assistant Secretary, Bureau of European Affairs.

Effective on July 10, 1973, § 213.3304 (e) (2) and § 213.3304(i) are revoked.

(5 U.S.C. secs. 3301, 3302; E.O. 10577, 3 CFR 1954–58 Comp. p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.73-13954 Filed 7-9-73;8:45 am]

PART 213—EXCEPTED SERVICE
Environmental Protection Agency

Section 213.3318 is amended to show that one position of Special Assistant for Public Interest Group Liaison to the Assistant Administrator for Categorical Programs is excepted under Schedule C.

Effective July 10, 1973, § 213.3318(i) is added as set out below.

§ 213.3318 Environmental Protection Agency.

* * * * *

(i) *Office of the Assistant Administrator for Categorical Programs.* (1) One Special Assistant for Public Interest Group Liaison to the Assistant Administrator.

(5 U.S.C. secs. 3301, 3302; E.O. 10577, 3 CFR 1954–58, Comp. p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.73-13951 Filed 7-9-73;8:45 am]

PART 213—EXCEPTED SERVICE
Selective Service System

Section 213.3346 is amended to show that one position of Confidential Assistant to the Director of Selective Service is no longer excepted under Schedule C, and one position of Private Secretary to the Director of Selective Service is excepted under Schedule C.

Effective on July 10, 1973, § 213.3346 (a) is revoked and § 213.3346(g) is added as set out below.

§ 213.3346 Selective Service System.

(a) [Revoked]

* * * * *

(g) One Private Secretary to the Director of Selective Service.

(5 U.S.C. secs. 3301, 3302; E.O. 10577, 3 CFR 1954–58, Comp. p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

Title 6—Economic Stabilization

CHAPTER I—COST OF LIVING COUNCIL
PART 140—COST OF LIVING COUNCIL FREEZE REGULATIONS
Special Freeze Group Questions and Answers No. 14

These "Questions and Answers", which are issued by the Cost of Living Council's Freeze Group, are designed to provide immediate guidance in understanding and applying the new freeze regulations (Part 140 of Title 6 of the Code of Federal Regulations). To achieve the broadest publication, these are hereby added to Appendix A of Part 140. Since they provide guidance of general applicability and are subject to clarification, revision or revocation, they do not constitute legal rulings with respect to specific fact situations.

(Economic Stabilization Act of 1970, as amended, Pub. L. 92–210, 85 Stat. 743; Pub. L. 93–28, 87 Stat. 27; E.O. 11723, 38 FR 15765; Cost of Living Council Order No. 30, 38 FR 16267)

Issued in Washington, D.C., on July 2, 1973.

ANDREW T. H. MUNROE,
General Counsel,
Special Freeze Group.

Appendix A of Part 140 is amended by adding the following:

SPECIAL FREEZE GROUP

QUESTIONS AND ANSWERS
NO. 14

1. Q. If a seller in Puerto Rico increases his price after June 12, 1973, to a purchaser in the several States, may the purchaser pass through the price increase as an increased price of an import?

A. Yes. The sale of a product by a firm located in Puerto Rico to a purchaser in the several States is an import sale for purposes of the freeze.

2. Q. Are sales by a firm located in the several States to a purchaser in the Commonwealth of Puetro Rico considered exports and thus exempt from the freeze?

A. No. Sales by firms in the several States to purchasers in Puerto Rico are not export sales for purposes of the freeze. The sale of the commodity or service, therefore, is subject to the price freeze rules.

3. Q. In applying the substantial number of transactions test to determine the freeze price for its goods, may a firm include prices of goods which are exported during the freeze base period?

A. No.

[FR Doc.73-13881 Filed 7-5-73;9:53 am]

PART 140—COST OF LIVING COUNCIL FREEZE REGULATIONS
Special Freeze Group Questions and Answers No. 15

These "Questions and Answers", which are issued by the Cost of Living Council's Freeze Group, are designed to provide immediate guidance in understanding and applying the new freeze regulations (Part 140 of Title 6 of the Code of Federal Regulations). To achieve the broadest publication, these are hereby added to Appendix A of Part 140. Since they provide guidance of general applicability and are subject to clarification, revision or revocation, they do not constitute legal rulings with respect to specific fact situations.

(Economic Stabilization Act of 1970, as amended, Pub. L. 92–210, 85 Stat. 743; Pub. L. 93–28, 87 Stat. 27; E.O. 11723, 38 FR 15765; Cost of Living Council Order No. 30, 38 FR 16267)

Issued in Washington, D.C., on July 3, 1973.

ANDREW T. H. MUNROE,
General Counsel,
Special Freeze Group.

Appendix A of Part 140 is amended by adding the following:

SPECIAL FREEZE GROUP

QUESTIONS AND ANSWERS
NO. 15

1. Q. A firm imports 98 octane gasoline, the cost of which has increased 2¢ per barrel since June 12, 1973. The firm commingles this gasoline with naphtha and adds lead. The octane rating remains unchanged. May the firm pass through the increased cost of the 98 octane unleaded gasoline?

A. Increases in the landed costs of imports incurred after June 12, 1973 may be passed through on a dollar-for-dollar basis provided that the import is not physically transformed or used as a component of another product. The addition of lead to imported gasoline does not physically transform the gasoline nor make the gasoline a component of another product. The question of whether naphtha physically changes the imported gasoline depends upon whether the additives change the octane rating of the gasoline. In this case, the naphtha did not change the 98 octane rating of the imported

V 38 I 131 JUL 10 73 XUM

gasoline. Therefore, the 2¢ per barrel increase in the cost of the imported 98 octane rating unleaded gasoline may be passed through on a penny-for-penny basis.

2. Q. Seller sold to a particular class of purchasers 98 octane rating gasoline for 43.9¢ per gallon during the freeze base period. On June 20, 1973, seller substituted 96 octane gasoline and is charging 43.9¢ to the same class of purchasers. Does the substitution of 96 octane for 98 octane gasoline sold at the same price constitute a price increase in violation of the freeze regulations?

A. Yes. The 96 octane gasoline is of lower quality than 98 octane gasoline and generally less expensive to produce. The substitution of a lower octane for a higher octane gasoline without a proportional price decrease is a price increase and is in violation of the freeze rules. The seller would compute his freeze price for a class of purchasers for the 96 octane gasoline as the price charged that class of purchasers during the period June 1 through 8, 1973. If the seller did not sell 96 octane during that period, he would use the price charged during the most recent 7-day period preceding June 1 through 8, 1973, when he sold 96 octane gasoline. If he has not sold 96 octane during the one year period immediately preceding June 20, 1973, he may use the new commodities rule to compute the freeze price.

3. Q. In Freeze Group Questions and Answers No. 3, Question 1 makes clear that a buyer and seller are obligated to adhere to the freeze prices and may not perform at a contract price above the freeze price. Therefore, a seller may decline to perform completely if he wishes when the contract requires a selling price above the freeze price. How is this ruling applied to the contract sale of petroleum under an allocation system?

A. As set forth in the prior Q&A, the seller may be excused from his contractual obligations. However, a seller of petroleum may have noncontractual obligations to a particular buyer under an allocation program. The price freeze rules may excuse the seller from his contractual obligations, but nothing in the freeze rules releases the seller from his noncontractual obligations under an allocation program.

4. Q. Is the freeze price for crude petroleum determined by the producer or the purchaser?

A. The freeze price for crude petroleum is determined by the producer as the highest price at or above which at least 10% of the transactions from that field and for that grade of crude, and with the class of purchaser concerned were priced during the period June 1 through 8, 1973. In many cases this freeze price may be less than the prices posted by purchasers of that particular crude from that particular field.

5. Q. After June 13, 1973, a firm purchases 2,000 gallons of imported gasoline at 21¢, an increase of 1¢ per gallon over the price the firm was paying for the same gasoline on June 10. The firm also purchased 8,000 gallons of domestic gasoline of the same octane which it commingled with the imported gasoline. The freeze price for the domestic and imported gasoline is 19¢ per gallon. At what price can the firm sell the gasoline?

A. Subject to the limitations of Special Rule No. 1, of the Phase III regulations which is still in effect during the freeze, the firm has two choices. (1) It may sell the 10,000 gallons of gasoline at 19.2¢ per gallon. This figure is derived by calculating the increased cost incurred (1¢×2,000 = $20.00), averaging the increase over all 10,000 gallons of

$$\text{gasoline purchased } \frac{\$20.00}{10{,}000} = .2¢$$

and adding the average increase to the freeze price (19¢ +.2¢ = 19.2¢). (2) Instead of averaging, the firm may alternatively add the 1¢ per gallon increase to the 19¢ freeze price of the imported gasoline. If the firm chose this method, it would sell 2,000 gallons of imported gasoline at 20¢ per gallon.

6. Q. During the freeze base period, a producer sold to a single class of purchaser 5% of his crude oil with a specific gravity of 40 degrees from a particular field at $4.00 per barrel, 5% at $3.75 and 90% at $3.50. What is the freeze price?

A. The freeze price with respect to this class of purchaser is defined as the highest price at or above which at least 10% of the transactions with that class of purchaser during the period June 1 through 8, 1973, took place. Here, the highest price at or above which 10% of the transactions took place is $3.75.

7. Q. A company which derives revenues in excess of $250 million from the sale of petroleum products and crude petroleum imports petroleum products for resale. The company passes through increased costs of those imports by commingling the imports with the domestic product and averaging the price increase over the imported and domestic product. Is this company subject to prenotification and profit margin constraints if it has reached a weighted annual average price increase level of 1.5%?

A. Yes. If a company which refines and imports gasoline commingles the domestic and imported gasoline and sells it all at one price, it may increase that price to reflect increases in the landed cost of the imported gasoline incurred after June 12, 1973.

However, the freeze regulations are in addition to the Phase III regulations and do not supersede those regulations. The freeze regulations will not operate to permit prices higher than permitted under Phase III regulations. Special Rule No. 1 of the Phase III regulations requires a firm which derives $250 million from the sale of covered products to prenotify price increases which exceed 1.5% on a weighted annual basis. An increase in the selling price of domestically refined gasoline to reflect increases in the cost of imported gasoline which is commingled with the domestic gasoline is a price increase for purposes of Special Rule No. 1. Therefore, a firm which has increased prices on a weighted annual average basis of 1.5% may not pass through the increased cost of imports by averaging unless the firm has prenotified and received approval for the price increase from the Cost of Living Council. For purposes of prenotification under Special Rule No. 1, the firm must show that the price increase above 1.5% will not cause the firm to exceed its base period profit margin.

8. Q. The posting for crude in X field was $3.50 from June 1 through June 10. On June 11, 1973, the posting was increased to $3.60, retroactive to June 1, 1973. What is the freeze price?

A. $3.50. The freeze price is the highest price at or above which crude was priced in 10% of the transactions during the period June 1 through 8, 1973. A transaction in oil occurs when the oil enters the pipeline. In this case the posting, effective for the oil entering the pipeline on June 1 through 8, 1973, was $3.50. The freeze rules prohibit a producer from charging and a purchaser from paying more than $3.50 per barrel for crude entering the pipeline after 9:00 p.m., e.s.t., June 13, 1973.

9. Q. A product was shipped on June 10, 1973 at a price which exceeds the freeze price. The product and the bill were received by the purchaser on June 15, 1973. Must the customer pay the higher price which exceeds the freeze price?

A. Yes. The freeze applies only to transactions occurring on or after 9 p.m., e.s.t., on June 13, 1973. A transaction occurs when a product is shipped or a service is performed. This transaction occurred on June 10, 1973 prior to the freeze. Therefore, the price charged is not subject to the freeze.

10. Q. A wholesaler sells gasoline in City X and City Y. The wholesaler has established freeze prices at each city, but recently has been cut off by its supplier at City X. The wholesaler can offer gasoline to all its customers from terminals at City Y. May the wholesaler charge his customers at City X the freeze price at City Y plus transportation charges to bring the product from City Y to City X?

A. No. The seller has a freeze price with respect to the customers in each city. He has never charged for the transportation cost in transporting the gasoline and may not now charge for transportation.

11. Q. An importer of crude, has incurred a 10¢ increase in the cost of the crude over the June 12 cost. Pursuant to the import cost pass on rule, the importer increased his selling price of crude by 10¢. The importer sells this crude to a refiner. May the refiner increase the product price on a dollar-for-dollar basis for products refined from the higher priced imported crude?

A. No. The import cost pass on rule allows any person who imports or resells an imported commodity to pass on, dollar-for-dollar, increases in the landed cost of an import incurred after June 12, 1973 only so long as the commodity is neither physically transformed by the seller nor becomes a component of another product. The refiner has physically transformed the imported crude by refining it. Therefore, he may not use the dollar-for-dollar pass through rule to increase the price of products refined from the imported crude.

[FR Doc.73-13882 Filed 7-5-73;9:53 am]

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Orange Reg. 71, Amdt. 11; Export Reg. 22, Amdt. 2]

PART 905—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

Grade Regulations

These amendments lower the minimum grade requirements for oranges, other than Navel, Temple, and Murcott Honey oranges shipped from the production area in Florida. The specification of such lower minimum grades for Florida oranges is necessary to satisfy the demand for oranges during the period of seasonally reduced supply. The amended regulations recognize the lesser quality of much of the oranges remaining from the 1972–73 Florida orange crop. The regulations will permit shipment of such lesser quality and increase the supply to domestic consumers and for export.

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 905, as amended (7 CFR Part 905), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of oranges, except Navel, Temple, and Murcott Honey oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) Less restrictive grade limitations on domestic and export shipments of oranges, other than Navel, Temple, and Murcott Honey oranges, are consistent with the external appearance and remaining supply of such oranges in the production area and the current and prospective demand for such fruit by fresh market outlets. Fresh shipments of Florida oranges for the season through June 24, 1973, totaled 19,529 carlots, and there were an estimated 671 carlots remaining for shipment.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of these amendments until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which these amendments are based became available and the time when these amendments must become effective in order to effectuate the declared policy of the act is insufficient; and these amendments relieve restrictions on the handling of certain varieties of oranges grown in Florida.

Order. 1. The provisions of paragraph (a)(1) of § 905.545 (Orange Regulation 71; 37 FR 21799, 24432, 25036, 27619, 28606; 38 FR 3396, 4569, 7565, 8169, 9075, 10151) are amended to read as follows:

§ 905.545 Orange Regulation 71.

(a) • • •

(1) Any oranges, except Navel, Temple, and Murcott Honey oranges, grown in the production area, which do not grade at least U.S. No. 2;

• • • • • •

2. In § 905.549 (Export Regulation 22; 37 FR 20036; 38 FR 1354) the provisions of paragraph (a)(1) are amended to read as follows:

§ 905.549 Export Regulation 22.

(a) • • •

(1) Any oranges, other than Navel, Temple, and Murcott Honey oranges, grown in the production area, which do not grade at least U.S. No. 2;

• • • • • •

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated July 5, 1973, to become effective July 16, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73-13997 Filed 7-9-73;8:45 am]

Title 8—Aliens and Nationality

CHAPTER I—IMMIGRATION AND NATURALIZATION SERVICE, DEPARTMENT OF JUSTICE

PART 214—NONIMMIGRANT CLASSES

PART 245—ADJUSTMENT OF STATUS TO THAT OF PERSON ADMITTED FOR PERMANENT RESIDENCE

Miscellaneous Amendments

Pursuant to 5 U.S.C. 552 and the authority contained in 8 U.S.C. 1103 and 8 CFR 2.1, miscellaneous amendments, as set forth herein, are prescribed in Parts 214 and 245 of Chapter I of Title 8 of the Code of Federal Regulations.

In Part 214, § 214.2(c)(1) is amended to delete Rouses Point, New York, as a port of entry for aliens in transit without visa privilege. Since Rouses Point, New York, was originally so designated for passengers traveling by rail to embark foreign by sea at New York City, and since trains are no longer operating through that port, the designation is accordingly revoked.

In Part 245, § 245.1(g)(1) is amended to clarify that an immigrant visa is considered available for accepting and processing an application for adjustment of status under section 245 of the Act filed by a preference or nonpreference alien only if the applicant has a priority date as specified therein in the preference or nonpreference category to which he is chargeable. Section 245.2(a)(2) is amended to clarify that an application for adjustment of status under section 245 of the Act filed by a nonpreference alien claiming an exemption from the labor certification requirement as an investor shall not be considered as having been properly filed unless it is accompanied by Form I–526.

The following amendments to Chapter I of Title 8, Code of Federal Regulations, are hereby prescribed:

In § 214.2(c), the second sentence of subparagraph (1) is amended by deleting therefrom "Rouses Point, N.Y." As amended, § 214.2(c)(1) reads as follows:

§ 214.2 Special requirements for admission, extension, and maintenance of status.

• • • • • •

(c) *Transits*—(1) *Without visas.* An applicant for admission under the transit without visa privilege must establish that he is admissible under the immigration laws; that he has confirmed and onward reservations to at least the next country beyond the United States, and that his departure from the United States will be accomplished within 8 hours after his arrival (except that, if seeking to join a vessel in the United States as a crewman, he must be in possession of a valid "D" visa and a letter from the owner or agent of the vessel he seeks to join, he will proceed directly to the vessel and upon joining the vessel, will remain aboard at all times until it departs from the United States): *Provided,* That until his departure from the United States he shall be in the custody of the carrier which brought him to the United States; *And provided further,* That departure from the United States must be effected from the same port at which he arrived. Except for transit from one part of foreign contiguous territory to another part of the same territory, application for direct transit without a visa must be made at one of the following ports of entry: Buffalo, N.Y.; Niagara Falls, N.Y.; Boston, Mass.; New York, N.Y.; Philadelphia, Pa.; Baltimore, Md.; Washington, D.C.; Norfolk, Va.; Atlanta, Ga.; Miami, Fla.; Port Everglades, Fla.; Tampa, Fla.; New Orleans, La.; San Antonio, Tex.; Dallas, Tex.; Houston, Tex.; Brownsville, Tex.; San Diego, Calif.; Los Angeles, Calif.; San Francisco, Calif.; Honolulu, Hawaii; Seattle, Wash.; Portland, Oreg.; Great Falls, Mont.; St. Paul, Minn.; Chicago, Ill.; Detroit, Mich.; Denver, Colo.; Anchorage, Alaska; Fairbanks, Alaska; San Juan, P.R.; Ponce, P.R.; Charlotte Amalie, V.I.; Christiansted, V.I.; Agana, Guam. The privilege of transit without a visa may be authorized only under the conditions that the carrier, without the prior consent of the Service, will not refund the ticket which was presented to the Service as evidence of the alien's confirmed and onward reservation and that the alien will not apply for extension of temporary stay or for adjustment of status under section 245 of the Act.

1. In § 245.1(g)(1), the second sentence is revised. As amended, § 245.1(g)(1) reads as follows:

§ 245.1 Eligibility.

• • • • • •

(g) *Availability of immigrant visas under section 245 and priority dates*—(1) *Availability of immigrant visas under section 245.* If the applicant for adjustment of status under section 245 of the Act is a preference or nonpreference alien, the current Department of State Visa Office Bulletin on Availability of Immigrant Visa Numbers will be consulted to determine whether an immigrant visa is immediately available. An immigrant visa is considered available for accepting and processing the application Form I–485 if the preference or nonpreference category applicant has a priority date on the waiting list which is not more than 90 days later than the date shown in the Bulletin or the Bulletin shows that numbers for visa applicants in his category are current. Information as to the immediate availability of an immigrant visa may be obtained at the nearest Service office.

• • • • • •

(2) In § 245.2(a)(2), a new sentence is added between the existing fourth and fifth sentences. As amended, § 245.2(a)(2) reads as follows:

§ 245.2 Application.

(a) *General*—(1) *Jurisdiction.* • • •

(2) *Filing application.* Before an application for adjustment of status under section 245 of the Act may be considered properly filed, a visa must be immediately available. If a visa would be im-

V38-131 JUL 10 73 XUM

mediately available only upon approval of a visa petition, the application will not be considered properly filed unless such petition has first been approved. If a visa petition is submitted simultaneously with the adjustment application, the adjustment application shall be retained and processed only if the petition is found to be in order for approval upon initial review by an immigration officer, is approved, and approval makes a visa immediately available. If the petition is returned to the petitioner for any reason, or decision thereon is deferred for investigation, interview, labor certification or consultation with another Government agency, or if the petition is denied, the adjustment application shall not be considered as having been properly filed. If the applicant is claiming that the provisions of section 212(a)(14) of the Act do not apply to him because he is within the exemption described in § 212.8(b)(4) of this chapter, the application shall not be considered properly filed unless it is acompanied by Form I–526. An application for adjustment of status under section 245 of the Act as a nonpreference alien shall not be considered properly filed unless the applicant establishes that he is entitled to a priority date for allotment of a nonpreference visa number in accordance with § 245.1(g)(2) and that a visa is immediately available within the contemplation of § 245.1(g)(1). A nonpreference alien for whom a visa is not immediately available may not file an application for adjustment of status, but may seek to establish a nonpreference priority date through an application for an immigrant visa at a United States consular office. The application under section 245 of the Act shall be made on Form I–485, while the application under section I of the Act of November 2, 1966, shall be made on Form I–485A. Each application shall be accompanied by executed Form G–325A, if the applicant has reached his 14th birthday, which shall be considered as part of the application. An application under this subparagraph shall be accompanied by the documents specified in the instructions which are attached to the application.

* * * * *

Compliance with the provisions of 5 U.S.C. (80 Stat. 383) as to notice of proposed rule making and delayed effective date is unnecessary in this instance and would serve no useful purpose because the amendments to § 214.2(c)(1) deletes an inoperative port of entry and the amendments to §§ 245.1(g)(1) and 245.2(a)(2) are clarifying in nature.

Effective date. This order shall be effective on July 10, 1973.

Dated: July 5, 1973.

JAMES F. GREENE,
Acting Commissioner of Immigration and Naturalization.

[FR Doc.73-13996 Filed 7-9-73;8:45 am]

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS; EXTRAORDINARY EMERGENCY REGULATION OF INTRASTATE ACTIVITIES

PART 82—EXOTIC NEWCASTLE DISEASE; AND PSITTACOSIS OR ORNITHOSIS IN POULTRY

Area Quarantined

This amendment quarantines an additional portion of Riverside County in California because of the existence of exotic Newcastle disease. Therefore, the restrictions pertaining to the interstate movement of poultry, mynah and psittacine birds, and birds of all other species under any form of confinement, and their carcasses and parts thereof, and certain other articles from quarantined areas, as contained in 9 CFR Part 82, as amended, apply to the quarantined area.

Pursuant to the provisions of sections 1, 2, 3, and 4 of the Act of March 3, 1905, as amended, sections 1 and 2 of the Act of February 2, 1903, as amended, sections 4, 5, 6, and 7 of the Act of May 29, 1884, as amended, and sections 3 and 11 of the Act of July 2, 1962 (21 U.S.C. 111, 112, 113, 115, 117, 120, 123, 124, 125, 126, 134b, 134f), Part 82, Title 9, Code of Federal Regulations, is hereby amended in the following respects:

In § 82.3, in paragraph (a)(1) relating to the State of California, a new subdivision (iv) relating to Riverside County is added to read:

§ 82.3 Areas quarantined.

(a) * * *

(1) *California.* * * *

(iv) The premises of D & W Ranch, 23840 Juniper Flats Road, City of Romoland in Riverside County, located on portions of Government lots 4 and 5 and lying north and east of Juniper Flats Road in the southwest one-half of section 34, T. 4 S., R. 2 W.

* * * * *

(Secs. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791, as amended; secs. 1–4, 33 Stat. 1264, 1265, as amended; secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111–113, 115, 117, 120, 123–126, 134b, 134f; 37 FR 28464, 28477)

Effective date. The foregoing amendment shall become effective July 3, 1973.

The amendment imposes certain restrictions necessary to prevent the interstate spread of exotic Newcastle disease, a communicable disease of poultry, and must be made effective immediately to accomplish its purpose in the public interest. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 3d day of July, 1973.

G. H. WISE,
Acting Administrator, Animal and Plant Health Inspection Service.

[FR Doc.73-14000 Filed 7-9-73;8:45 am]

PART 82—EXOTIC NEWCASTLE DISEASE; AND PSITTACOSIS OR ORNITHOSIS IN POULTRY

Areas Released From Quarantine

This amendment excludes portions of Riverside County in California from the areas quarantined because of exotic Newcastle disease. Therefore, the restrictions pertaining to the interstate movement of poultry, mynah and psittacine birds, and birds of all other species under any form of confinement, and their carcasses and parts thereof, and certain other articles from quarantined areas, as contained in 9 CFR Part 82, as amended, will not apply to the excluded areas.

Pursuant to the provisions of sections 1, 2, 3, and 4 of the Act of March 3, 1905, as amended, sections 1 and 2 of the Act of February 2, 1903, as amended, sections 4, 5, 6, and 7 of the Act of May 29, 1884, as amended, and sections 3 and 11 of the Act of July 2, 1962 (21 U.S.C. 111, 112, 113, 115, 117, 120, 123, 124, 125, 126, 134b, 134f), Part 82, Title 9, Code of Federal Regulations is hereby amended in the following respects:

In § 82.3, in paragraph (a)(1) relating to the State of California, subdivisions (iv) and (vi) relating to Riverside County are deleted.

(Secs. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; secs. 1–4, 33 Stat 1264, 1265, as amended; secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111–113, 115, 117, 120, 123–126, 134b, 134f; 37 FR 28464, 28477)

Effective date. The foregoing amendment shall become effective July 2, 1973.

The amendment relieves certain restrictions presently imposed but no longer deemed necessary to prevent the spread of exotic Newcastle disease, and must be made effective immediately to be of maximum benefit to affected persons. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and unnecessary, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 2nd day of July, 1973.

F. J. MULHERN,
Administrator, Animal and Plant Health Inspection Service.

Title 12—Banks and Banking

CHAPTER II—FEDERAL RESERVE SYSTEM

PART 221—CREDIT BY BANKS FOR THE PURPOSE OF PURCHASING OR CARRYING MARGIN STOCKS

CFR Correction

In § 221.3 (w) appearing on page 534 of Title 12, revised as of January 1, 1973, paragraphs (w)(2) and (3) were inadvertently dropped from the text. As corrected, paragraph (w) of § 221.3 reads as set forth below.

§ 221.3 Miscellaneous provisions.

* * * * * *

(w) *OTC market maker exemption.* (1) In the case of credit extended to an OTC market maker, as defined in subparagraph (2) of this paragraph (w), for the purpose of purchasing or carrying an OTC margin stock in order to conduct the market making activity of such a market maker, the maximum loan value of any OTC margin stock (except stock that has been identified as a security held for investment pursuant to a rule of the Commissioner of Internal Revenue (Regs. sec. 1–1236–1(d)) shall be determined by the bank in good faith: *Provided*, That in respect of each such stock he shall have filed with the Securities and Exchange Commission a notice of his intent to begin or continue such market making activity (Securities and Exchange Commission Form X–17A–12(1)) and all other reports required to be filed by market makers in OTC margin stocks pursuant to a rule of the Commission (Rule 17a–12 (17 CFR 240.17a–12)) and shall not have ceased to engage in such market making activity: *And provided further*, That the bank shall obtain and retain in its records for at least 3 years after such credit is extinguished a statement in conformity with the requirements of Federal Reserve Form U–2, executed by the OTC market maker who is the recipient of such credit and executed and accepted in good faith by a duly authorized officer of the bank prior to such extension. In determining whether or not an extension of credit is for the purpose of conducting such market making activity, a bank may rely on such a statement if executed and accepted in accordance with the requirements of this paragraph (w) and paragraph (a) of this section.

(2) An OTC market maker with respect to an OTC margin stock is a dealer who has and maintains minimum net capital, as defined in a rule of the Securities and Exchange Commission (Rule 15c3–1 (17 CFR 240.15c3–1)) or in the capital rules of an exchange of which he is a member if the members thereof are exempt therefrom by Rule 15c3–1(b)(2) of the Commission (17 CFR 15c3–1(b)(2)) of $25,000 plus $5,000 for each such stock in excess of 5 in respect of which he has filed and not withdrawn the notice on Commission Form X–17A–12(1) (but in no case does this subparagraph (2) require net capital of more than $250,000), who is in compliance with such rule of the Commission or exchange, and who, except when such activity is unlawful, meets all of the following conditions with respect to such stock: (i) He regularly publishes bona fide, competitive bid and offer quotations in a recognized interdealer quotation system. (ii) he furnishes bona fide, competitive bid and offer quotations to other brokers and dealers on request, (iii) he is ready, willing, and able to effect transactions in reasonable amounts, and at his quoted prices, with other brokers and dealers, (iv) he has a reasonable average rate of inventory turnover.

(3) If all or a portion of the credit extended pursuant to this paragraph (w) ceases to be for the purpose specified in subparagraph (1) of this paragraph or the dealer to whom the credit is extended ceases to be an OTC market maker as defined in subparagraph (2) of this paragraph, the credit or such portion thereof shall thereupon be treated as "a credit subject to § 221.1."

* * * * *

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airspace Docket No. 73–GL–19]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On page 10462 of the FEDERAL REGISTER dated April 27, 1973, the Federal Aviation Administration published a notice of proposed rule making which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a transition area at Greenwood, Illinois.

Interested persons were given 30 days to submit written comments, suggestions or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective 0901 G.m.t., September 13, 1973.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Des Plaines, Ill., on June 22, 1973.

H. W. POGGEMEYER,
Acting Director, Great Lakes Region.

In § 71.181 (38 FR 435), the following transition area is added:

GREENWOOD, ILL.

That airspace extending upward from 700 feet above the surface within a 6-mile radius of the Galt Airport (lat. 43°24'09" N., long. 88°22'33" W.).

[FR Doc.73-13874 Filed 7-9-73;8:45 am]

[Airspace Docket No. 73–SW–19]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of VOR Federal Airways

On April 26, 1973, a notice of proposed rule making (NPRM) was published in the FEDERAL REGISTER (38 FR 10276) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would realign several airways in the vicinity of Monroe, La., simultaneously with the relocation of the Monroe VORTAC.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. All comments received were favorable.

The Air Transport Association of America (ATA) suggested that V94 be extended beyond Lambert, Miss., to Memphis, Tenn. The FAA agrees with this suggestion and such action is taken herein. Since this segment between Lamberta and Memphis will be codesignated with V9W, notice and public procedure thereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., November 8, 1973, as hereinafter set forth.

Section 71.123 (37 FR 22972 and 38 FR 307) is amended as follows:

1. In V–18 "Monroe, La., including a N alternate and also a S alternate via INT Shreveport 117° and Monroe 268° radials;" is deleted and "Monroe, La., including a N alternate and also a S alternate;" is substituted therefor.

2. In V–71 all before "Hot Springs, Ark.;" is deleted and "From Baton Rouge, La.; Natchez, Miss., including an E alternate via INT Baton Rouge 026° and Natchez 156° radials; Monroe, La., including a W alternate and also an E alternate via INT Natchez 341° and Monroe 105° radials; El Dorado, Ark;" is substituted therefor.

3. In V–94 all after "Elm Grove, La.;" is deleted and "Monroe, La.; Greenville, Miss., including a W alternate; INT Greenville 036° and Memphis, Tenn., 205° radials; to Memphis. The airspace within R–5103A is excluded," is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 13348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on July 2, 1973.

CHARLES H. NEWPOL,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.73-13875 Filed 7-9-73;8:45 a.m.]

[Airspace Docket No. 72–WA–13]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Terminal Control Area; Correction

On May 24, 1973, FR Doc. 73–10331 was published in the FEDERAL REGISTER

V 38 131 JUL 10 73 XUM

(38 FR 13635), designating the Dallas-Fort Worth, Tex., Group I Terminal Control Area (TCA) effective September 30, 1973.

In the description of Area B, a longitudinal coordinate was incorrectly identified as "• • • 96°53'30" W • • •" The correct entry should have been "• • • 96°54'30" W • • •" Action is taken herein to correct the error.

Since this amendment is editorial in nature and no substantive change in the regulation is effected, notice and public procedure thereon are unnecessary, and good cause exists for making this amendment effective on less than 30-days notice.

In consideration of the foregoing, FR Doc. 73-10331 (38 FR 13635) is amended, effective upon publication in the FEDERAL REGISTER, as hereinafter set forth.

In Area B, line 13, delete "longitude 96°53'30" W.," and substitute "longitude 96°54'30" W.," therefor.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on June 29, 1973.

CHARLES H. NEWPOL,
Acting Chief, Airspace and Air Traffic Rules Division.

[Cease and desist order, Gary R. Greene trading as Green's Jewelers, Cleveland, Ohio, Docket No. C-2405, May 25, 1973]

In the matter of Gary R. Greene, an individual trading and doing business as Green's Jewelers.

Consent order requiring a Cleveland, Ohio, seller and distributor of jewelry, household furnishings and other merchandise, among other things to cease violating the Truth in Lending Act by failing to disclose to consumers, in connection with the extension of consumer credit, such information as required by Regulation Z of the said Act.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondent, Gary R. Greene, an individual trading and doing business as Green's Jewelers, or any other name or names, his successors and assigns, and respondent's agents, representatives and employees, directly or through any corporation, subsidiary, division or other device, in connection with any extension of consumer credit or advertisement to aid, promote or assist, directly or indirectly, any extension of consumer credit, as "consumer credit" and "advertisement" are defined in Regulation Z (12 CFR Part 226) of the Truth In Lending Act (P.L. 90–321, 15 U.S.C. 1601 et seq.), do forthwith cease and desist from:

(1) Failing to disclose the annual percentage rate, computed in accordance with § 226.5 of Regulation Z, as prescribed by §226.8(b)(2) of Regulation Z;

(2) Failing to disclose the number, amount, and due dates or periods of payments scheduled to repay the indebtedness, as prescribed by § 226.8(b)(3) of Regulation Z;

(3) Failing to disclose the cash price of the property or service purchased, and to describe that amount as the "cash price", as defined in § 226.2(i) of Regulation Z, as prescribed by § 226.8(c)(1) of Regulation Z;

(4) Failing to disclose the downpayment in money made in connection with the credit sale, and to describe that amount as the "cash downpayment", as prescribed by § 226.8(c)(2) of Regulation Z;

(5) Failing to disclose the downpayment in property made in connection with the credit sale, and to describe that amount as the "trade-in", as prescribed by § 226.8(c)(2) of Regulation Z;

(6) Failing to disclose the sum of the "cash downpayment" and "trade-in", and to describe that sum as the "total downpayment", as prescribed by § 226.8(c)(2) of Regulation Z;

(7) Failing to disclose the difference between the "cash price" and the "total downpayment", and to describe that amount as the "unpaid balance of cash price", as prescribed by § 226.8(c)(3) of Regulation Z;

(8) Failing to disclose all charges which are not part of the "finance charge", but are included in the amount financed and to itemize each such charge individually, as prescribed by § 226.8(c)(4) of Regulation Z;

(9) Failing to disclose the sum of the "unpaid balance of cash price" and all other amounts itemized individually which are part of the amount financed, but which are not included in the "finance charge" and to describe that amount as the "unpaid balance", as prescribed by § 226.8(c)(5) of Regulation Z;

(10) Failing to disclose the amount of credit extended, and to describe that amount as the "amount financed", as prescribed by § 226.8(c)(7) of Regulation Z;

(11) Failing to disclose the sum of all charges required by § 226.4 of Regulation Z to be included therein, and to describe that sum as the "finance charge", as prescribed by § 226.8(c)(8)(i) of Regulation Z;

(12) Failing to disclose the sum of the "cash price", all charges which are included in the amount financed but which are not part of the finance charge, and the "finance charge", and to describe that sum as the "deferred payment price", as prescribed by § 226.8(c)(8)(ii) of Regulation Z;

(13) Failing to make consumer credit cost disclosures when any existing extension of credit is refinanced, or two or more existing extensions of credit are consolidated, or an existing obligation is increased, as prescribed by § 226.8(j) of Regulation Z;

(14) Failing to make consumer credit cost disclosures clearly, conspicuously, and in meaningful sequence, as prescribed by § 226.6(a) of Regulation Z;

(15) Failing to make consumer credit cost disclosures before consummation of the transaction, and to furnish the customer with a duplicate of the instrument or a statement by which the disclosures required by § 226.8 are made, as prescribed by § 226.8(a) of Regulation Z;

(16) Failing, in any consumer credit transaction or advertisement, to make all disclosures determined in accordance with §§ 226.4 and 226.5 of Regulation Z, at the time and in the manner, form and amount required by §§ 226.6, 226.7, 226.8, 226.9 and 226.10 of Regulation Z.

It is further ordered, That respondent prominently display no less than two signs on the premises which will clearly and conspicuously state that a customer must receive a complete copy of the consumer credit cost disclosures, as required by the Truth in Lending Act, in any transaction which is financed, before the transaction is consummated.

It is further ordered, That respondent deliver a copy of this order to cease and desist to each operating division and to all present and future personnel of respondent engaged in the consummation of any extension of consumer credit, and that respondent secure a signed statement acknowledging receipt of said order from each such person.

It is further ordered, That the respondent named herein promptly notify the Commission of the discontinuance of his present business or employment and of his affiliation with a new business or employment. Such notice shall include respondent's current business address and a statement as to the nature of the business or employment in which he is engaged, as well as a description of his duties and responsibilities.

It is further ordered, That respondent shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing setting forth, in detail, the manner and form in which he has complied with the order to cease and desist contained herein.

Issued: May 25, 1973.

By the Commission.

VIRGINIA M. HARDING,
Acting Director.

[Docket No. C-2395]

PART 13—PROHIBITED TRADE PRACTICES

Leron, Inc., and Norman D. Forster

Correction

In FR Doc. 73-11141 appearing on page 14749 of the issue for Tuesday, June 5, 1973, in the eighth line of the third ordering paragraph the comma after "fabrics and/or products" should be a period, and the following text inserted immediately thereafter:

It is further ordered, that the respondents herein shall, within ten (10) days after service upon them of this Order, file with the Commission an interim special report in writing setting forth the respondents' intentions as to compliance with this Order. This special report shall also advise the Commission fully and specifically concerning (1) the identity of the fabrics and/or products which gave rise to the complaint, (2) the amount and number of said fabrics and/or products in inventory, (3) any action taken and any further actions proposed to be taken to notify customers of the flammability of said fabrics and/or products and effect the recall of said fabrics and/or products from customers, and of the results thereof, (4) any disposition of said fabrics and/or products since September 15, 1970 and (5) any action taken or proposed to be taken to bring said fabrics and/or products into conformance with the applicable standard of flammability under the Flammable Fabrics Act, as amended, or destroy said fabrics and/or products, and the results of such action. Such report shall further inform the Commission as to whether or not respondents have in inventory any product, fabric, or related material having a plain surface and made of paper, silk, rayon and acetate, nylon and acetate, rayon, cotton or any other material or combinations thereof in a weight of two ounces or less per square yard, or any product, fabric, or related material having a raised fiber surface. Respondents shall submit samples of not less than one square yard in size of any such product, fabric or related material with this report.

It is further ordered, That respondents notify the Commission at least 30 days prior to any proposed change in the corporate respondent, such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of

Richard Weitz, individually and as an officer of B. W. & W., Inc., and Myron Weissman, individually and as an officer of B. W. & W., Inc.

Consent order requiring two related Cleveland, Ohio, sellers and distributors of furniture, among other things to cease violating the Truth in Lending Act by failing to disclose to consumers, in connection with the extension of consumer credit, such information as required by Regulation Z of the said Act.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondents Relyon, Inc., a corporation, B. W. & W., Inc., a corporation, trading and doing business as Relyon, Inc., and their officers, and respondent Gerald Blank, individually and as an officer of said corporations, and respondents E. Richard Weitz and Myron Weissman, individually and as officers of B. W. & W., Inc., respondents' successors and assigns and respondents' agents, representatives and employees, directly or through any corporation, subsidiary, division or other device, in connection with any extension of consumer credit or advertisement to aid, promote or assist, directly or indirectly, any extension of consumer credit, as "consumer credit" and "advertisement" are defined in Regulation Z (12 CFR Part 226) of the Truth In Lending Act (P.L. 90–321, 15 U.S.C. 1601 et seq.), do forthwith cease and desist from:

(1) Failing to disclose the annual percentage rate, computed in accordance with § 226.5 of Regulation Z, as prescribed by § 226.8(b)(2) of Regulation Z;

(2) Failing to disclose the number, amount, and due dates or periods of payments scheduled to repay the indebtedness, as prescribed by § 226.8(b)(3) of Regulation Z;

(3) Failing to disclose the cash price of the property or service purchased and to describe that amount as the "cash price", as defined in § 226.2(i) of Regulation Z, as prescribed by § 226.8(c)(1) of Regulation Z;

(4) Failing to disclose the downpayment in money made in connection with the credit sale, and to describe that amount as the "cash downpayment", as prescribed by § 226.8(c)(2) of Regulation Z;

(5) Failing to disclose the downpayment in property made in connection with the credit sale, and to describe that amount as the "trade-in", as prescribed by § 226.8(c)(2) of Regulation Z;

(6) Fail to disclose the sum of the "cash downpayment" and "trade-in" and to describe that sum as the "total downpayment", as prescribed by § 226.8(c)(2) of Regulation Z;

(7) Fail to disclose the difference between the "cash price" and the "total downpayment", and to describe that amount as the "unpaid balance of cash price", as prescribed by § 226.8(c)(3) of Regulation Z;

(8) Fail to disclose all charges which are not part of the "finance charge", but are included in the amount financed and to itemize each such charge individually, as prescribed by § 226.8(c)(4) of Regulation Z;

(9) Fail to disclose the sum of the "unpaid balance of cash price" and all other amounts itemized individually which are part of the amount financed, but which are not included in the "finance charge" and to describe that amount as the "unpaid balance", as prescribed by § 226.8(c)(5) of Regulation Z;

(10) Fail to disclose the amount of credit extended and to describe that amount as the "amount financed", as prescribed by § 226.8(c)(7) of Regulation Z;

(11) Fail to disclose the sum of all charges required by § 226.4 of Regulation Z to be included therein, and to describe that sum as the "finance charge", as prescribed by § 226.8(c)(8)(i) of Regulation Z;

(12) Fail to disclose the sum of the "cash price", all charges which are included in the amount financed but which are not part of the finance charge, and the "finance charge", and to describe that sum as the "deferred payment price", as prescribed by § 226.8(c)(8)(ii) of Regulation Z;

(13) Failing to make consumer credit cost disclosures before consummation of the transaction, and to furnish the customer with a duplicate of the instrument or a statement by which the disclosures required by § 226.8 are made, as prescribed by § 226.8(a) of Regulation Z;

(14) Failing, in any consumer credit transaction or advertisement, to make all disclosures determined in accordance with § 226.4 and § 226.5 of Regulation Z, at the time and in the manner, form, and amount required by §§ 226.6, 226.7, 226.8, 226.9, and 226.10 of Regulation Z.

It is further ordered, That respondents prominently display no less than two

V 38 131 JUL 10 73 XUM

signs on the premises which will clearly and conspicuously state that a customer must receive a completed copy of the consumer credit cost disclosures, as required by the Truth In Lending Act, in any transaction which is financed, before the transaction is consummated.

It is further ordered, That respondents deliver a copy of this order to cease and desist to each operating division and to all present and future personnel of respondents engaged in the consummation of any extension of consumer credit, and that respondents secure a signed statement acknowledging receipt of said order from each such person.

It is further ordered, That the individual respondents named herein promptly notify the Commission of the discontinuance of their present business or employment and of their affiliation with a new business or employment. Such notice shall include respondents' current business address and a statement as to the nature of the business or employment in which they are engaged, as well as a description of their duties and responsibilities.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed changes in the corporate respondents, such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or disolution of subsidiaries or any other changes in the corporations which may affect compliance obligations arising out of this order.

It is further ordered, That respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth, in detail, the manner and form in which they have complied with the order to cease and desist contained herein.

Issued: May 22, 1973.

By the Commission.

[SEAL] VIRGINIA M. HARDING, *Acting Secretary.*

[Docket No. C-2408]

PART 13—PROHIBITED TRADE PRACTICES

Thomas J. Lipton, Inc., and Knox Gelatine, Inc.

Subpart—Advertising falsely or misleadingly: § 13.170 *Qualities or properties of product or service*: 13.170-52 Medicinal, therapeutic, healthful, etc.; 13.170-64 Nutritive; § 13.205 *Scientific or other relevant facts*. Subpart—Misrepresenting oneself and goods—Goods: § 13.1710 Qualities or properties; § 13.1740 Scientific or other relevant facts.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46 Interprets or applies sec 5, 38 Stat 719, as amended; 15 USC 45) [Cease and desist order, Thomas J. Lipton, Inc., et al., Johnstown, N.Y., Docket No. C-2408, May 29, 1973]

In the Matter of Thomas J. Lipton, Inc., a corporation, and Knox Gelatine, Inc., a corporation.

Consent order requiring a Johnstown, New York, manufacturer, seller and distributor of a multi-flavored dry preparation, Knox Gelatine Drink, among other things to cease advertising that its product makes a substantial contribution to general health or to nutritional needs.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

I. *It is ordered*, That respondent Thomas J. Lipton, Inc., a corporation, and respondent Knox Gelatine, Inc., a corporation their successors and assigns and their officers, agents, representatives and employees directly or through any corporate or other device, in connection with the advertising, offering for sale, sale or distribution of Knox Gelatine Drink or any other food product hereinafter described forthwith cease and desist from:

1. Disseminating, or causing the dissemination of, any advertisement by means of the United States mails or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act that

A. Represents, directly or by implication, that gelatine protein is a high quality protein or provides nutritional benefit to individuals.

B. Represents, directly or by implication, that the consumption of Knox Gelatine Drink makes a substantial contribution to the general health of individuals or to the nutritional needs of individuals.

C. Represents, directly or by implication, that the consumption of any gelatine food product, which relies primarily on gelatine to produce a jelled condition in the food as prepared, makes a contribution to good health of individuals or is nutritious.

D. Misrepresents, directly or by implication, in any manner the benefit to the health of the consumer resulting from consumption of any gelatine drink or gelatine food product which relies primarily on gelatine to produce a jelled condition in the food as prepared.

Provided, That nothing herein shall preclude respondents from representing that gelatine protein is a high quality protein, if respondents can demonstrate by competent and reliable scientific evidence that such gelatine protein has been supplemented with essential amino acids or those amino acids necessary to convert gelatine protein into a high quality protein, as the highest biological quality protein is described by the Food and Drug Administration Proposed Food Nutrition Labeling Regulaions, or any such regulations promulgated or superseding regulations.

Provided further, That nothing herein shall preclude respondents from making representations, if supported by competent and reliable scientific evidence, regarding the effect of gelatine protein as an aid to dieting.

2. Disseminating, or causing to be disseminated by any means, for the purpose of inducing, or which is likely to induce, directly or indirectly, the purchase of products subject to this order in commerce, as "commerce" is defined in the Federal Trade Commission Act, any advertisement which contains any of the representations or misrepresentations prohibited in Paragraph 1 hereof.

II. *It is further ordered*, That respondents Thomas J. Lipton, Inc., a corporation, and Knox Gelatine, Inc., a corporation, their successors and assigns and their officers, agents, representatives and employees, directly or through any other device, in connection with the advertising, labeling, offering for sale, sale or distribution of Knox Gelatin Drink or any other food product described in Part I hereof in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from making, directly or by implication, any of the representations or misrepresentations prohibited in Part I hereof.

The provisos to Part I hereof are applicable to this Part II of the order.

It is further ordered, That respondents shall forthwith distribute a copy of this order to each of their operating divisions.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondents such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporations which may affect compliance obligations arising out of the order.

It is further ordered, That each respondent shall, within sixty (60) days and at the end of six (6) months after the effective date of the order served upon it, file with the Commission a report in writing, signed by each respondent, setting forth in detail the manner and form of its compliance with the order to cease and desist.

Issued: May 29, 1973.

By the Commission.

Title 17—Commodity and Securities Exchanges

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release Nos. 33-5402, 34-10214, IC-7856]

PART 231—INTERPRETATIVE RELEASES RELATING TO THE SECURITIES ACT OF 1933 AND GENERAL RULES AND REGULATIONS THEREUNDER

PART 241—INTERPRETATIVE RELEASES RELATING TO THE SECURITIES EXCHANGE ACT OF 1934 AND GENERAL RULES AND REGULATIONS THEREUNDER

PART 271—INTERPRETATIVE RELEASES RELATING TO THE INVESTMENT COMPANY ACT OF 1940 AND GENERAL RULES AND REGULATIONS THEREUNDER

Commission Expresses Concern With Failure of Issuers to Timely and Properly File Periodic and Current Reports

The Securities and Exchange Commission today expressed its concern with the failure by many issuers who are subject to the periodic reporting requirements of the federal securities laws to comply with those requirements. The reporting requirements, which are designed to provide public investors with the financial and other information necessary to make informed investment decisions, are among the most important elements of the full disclosure policy of the federal securities laws.

The Commission believes that strict compliance with these requirements is essential to the maintenance of fair and orderly trading markets. For this reason, the Commission has directed its staff to monitor closely compliance with these reporting provisions. In appropriate instances, the Commission will consider temporarily suspending trading in securities of delinquent issuers, in order to alert the public to the lack of adequate, accurate and current information concerning such issuers. Brokers and dealers are reminded that no quotation may be entered at the conclusion of such a temporary suspension without strict compliance with the provisions of Securities Exchange Act Rule 15c2-11 (17 CFR 240.-15c2-11) requiring the availability of specified financial and other information. In addition, the Commission may institute court actions or administrative proceedings to compel the filing of delinquent reports and/or to enjoin future violations of the reporting requirements. Further, the Commission may refer appropriate cases to the Department of Justice for criminal prosecution.

The Commission reminds issuers that reports are deemed filed with the Commission upon receipt at the Commission's headquarters in Washington, D.C. In order to assist the Commission in processing these reports, it is requested that they be delivered or mailed to Room 130, 500 North Capitol Street, NW., Washington, D.C. 20549, which is the Commission's central receiving facility.

The Commission also reminds issuers that there are provisions under the federal securities laws relating to requests for extensions of time within which to file reports. Issuers having questions relating to requests for such extensions of time should communicate with the Commission's Division of Corporation Finance.

By the Commission.

PART 121—FOOD ADDITIVES

Subpart D—Food Additives Permitted in Food for Human Consumption

COPOLYMER CONDENSATES OF ETHYLENE OXIDE AND PROPYLENE OXIDE

The Commissioner of Food and Drugs, having evaluated data in a petition (FAP 1A2608) filed by Wyandotte Chemicals Corp., 1609 Biddle Ave., Wyandotte, MI 48192, and other relevant material, concludes that the food additive regulations should be amended, as set forth below, to provide for the safe use of α-Hydro-*omega*-hydroxy-poly (oxyethylene)/(oxypropylene) (minimum 15 moles)/poly(oxyethylene) block copolymer, having a minimum average molecular weight of 1900 and a minimum cloud point of 9° C.-12° C. in 10 percent aqueous solution, as a surfactant and defoaming agent in poultry scald baths.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under authority delegated to the Commissioner (21 CFR 2.120), § 121.1235 is amended in paragraphs (a) by adding a new subparagraph (3) thereto, and in paragraph (b) by adding a new subparagraph (3) thereto, to read as follows:

§ 121.1235 Copolymer condensates of ethylene oxide and propylene oxide.

• • • • • •

(a) • • •

(3) α-Hydro-*omega*-hydroxy-poly(oxyethylene) / poly(oxypropylene) (minimum 15 moles)/poly(oxyethylene) block copolymer, having a minimum average molecular weight of 1900 and a minimum cloud point of 9° C.-12° C. in 10 percent aqueous solution.

(b) • • •

(3) The additive identified in paragraph (a)(3) of this section is used as a surfactant and defoaming agent, at levels not to exceed 0.05 percent by weight, in scald baths for poultry defeathering, followed by potable water rinse. The temperatures of the scald baths shall be not less than 125° F.

Any person who will be adversely affected by the foregoing order may at any time on or before August 9, 1973, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order, specify with particularity the provisions of the order deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections shall state the issues for the hearing, shall be supported by grounds factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event a hearing is held. Objections may be accompanied by a memorandum or brief in support thereof. Six copies of all documents shall be filed. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date. This order shall become effective July 10, 1973.

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: June 27, 1973.

SAM D. FINE, *Associate Commissioner for Compliance.*

[FR Doc.73-13883 Filed 7-9-73;8:45 am]

PART 121—FOOD ADDITIVES

Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

ADHESIVES

In the FEDERAL REGISTER of April 11, 1973 (38 FR 9176), notice was given that a petition (FAP 3B2893) had been filed by Alcolac, Inc., 3440 Fairfield Rd., Baltimore, MD 21226, proposing that § 121.2520 *Adhesives* (21 CFR 121.2520) be amended to provide for the safe use of polyethylene glycol mono(hydrogen sulfate) dodecyl ether, ammonium salt, as a component of adhesives intended for use in food-contact articles.

The Commissioner of Food and Drugs, having evaluated data in the petition and other relevant material, concludes that the food additive regulations should be amended to provide for the safe use of the above-named additive under the preferred chemical nomenclature set forth below.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)), and under authority delegated to the Commissioner (21 CFR 2.120), § 121.2520(c)(5) is amended by alphabetically inserting in the list of substances a new item, as follows:

§ 121.2520 Adhesives.

• • • • • •

(c) • • •

(5) • • •

COMPONENTS OF ADHESIVES

Substances	*Limitations*
• • •	• • •
α-Sulfo-*omega*-(dodecyloxy) poly (oxyethylene), ammonium salt.	
• • •	• • •

Any person who will be adversely affected by the foregoing order may at any time on or before August 9, 1973, file with the Hearing Clerk, Department

V 38 131 JUL 10 73 XUM

of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order, specify with particularity the provisions of the order deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections shall state the issues for the hearing, shall be supported by grounds factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event that a hearing is held. Objections may be accompanied by a memorandum or brief in support thereof. Six copies of all documents shall be filed. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date. This order shall become effective on July 10, 1973.

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: June 27, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

Title 23—Highways

CHAPTER I—FEDERAL HIGHWAY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

PART 1—ADMINISTRATION OF FEDERAL AID FOR HIGHWAYS

Federal Participation in Costs Incurred

The purpose of this amendment is to incorporate in Part 1 of Title 23, Code of Federal Regulations, material contained in Instructional Memorandum 21-3-64. The amendment provides that the Administrator may allow Federal participation in costs not incurred in accordance with certain administrative requirements when he finds among other things, that such action is in the public interest and will not increase the cost to the Federal Government.

In consideration of the foregoing, § 1.9 of Title 23, Code of Federal Regulations, is amended by designating the first paragraph of § 1.9 as (a) and deleting the word "part" and inserting the word "title" as it appears in paragraph (a), and by adding new paragraphs (b) and (c) as follows:

§ 1.9 Limitation on Federal participation.

(a) Federal-aid funds shall not participate in any cost which is not incurred in conformity with applicable Federal and State law, the regulations in this title, and policies and procedures prescribed by the Administrator. Federal funds shall not be paid on account of any cost incurred prior to authorization by the Administrator to the State highway department to proceed with the project or part thereof involving such cost.

(b) Notwithstanding the provisions of paragraph (a) of this section the Administrator may, upon the request of a State highway department, approve the participation of Federal-aid funds in a previously incurred cost if he finds:

(1) That his approval will not adversely affect the public,

(2) That the State highway department has acted in good faith, and that there has been no willful violation of Federal requirements,

(3) That there has been substantial compliance with all other requirements prescribed by the Administrator, and full compliance with requirements mandated by Federal statute,

(4) That the cost to the United States will not be in excess of the cost which it would have incurred had there been full compliance, and

(5) That the quality of work undertaken has not been impaired.

(c) Any request submitted under paragraph (b) of this section shall be accompanied by a detailed description of the relevant circumstances and facts, and shall explain the necessity for incurring the costs in question.

(23 U.S.C. 315, delgations of authority in, 49 CFR 1.48(b))

Issued on July 3, 1973.

NORBERT T. TIEMANN,
Federal Highway Administrator.

[FR Doc.73-13966 Filed 7-9-73;8:45 am]

Title 26—Internal Revenue

CHAPTER I—INTERNAL REVENUE SERVICE, DEPARTMENT OF THE TREASURY

SUBCHAPTER C—EMPLOYMENT TAXES

[T.D. 7280]

PART 31—EMPLOYMENT TAXES; APPLICABLE ON AND AFTER JANUARY 1, 1955

Elective Social Security Coverage for Vow-of-Poverty Members of Religious Orders

By a notice of proposed rule making appearing in the FEDERAL REGISTER on March 19, 1973 (38 FR 7230), and corrected in the FEDERAL REGISTER for March 23, 1973 (38 FR 7570), amendments to the Employment Tax Regulations (26 CFR Part 31) were proposed in order to conform such regulations to the provisions of section 123 of the Social Security Amendments of 1972 (86 Stat. 1354), relating to elective social security coverage for vow-of-poverty members of religious orders. After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, certain changes were made, and the proposed amendments of the regulations, as revised, are adopted by this document.

Under prior law, the services performed by a member of a religious order who is subject to a vow of poverty which were in the exercise of the duties required by the order were excluded from coverage under social security. Under section 123 such service will be covered under social security if the order (or an autonomous subdivision of the order) irrevocably elects coverage for its members subject to a vow of poverty, and if the order also makes an irrevocable election (or makes irrevocable a previous election) to cover its lay employees. The election may be made retroactive for up to 20 calendar quarters preceding the quarter in which the certificate of election is filed.

The regulations as proposed have been revised to make it clear that services performed by a member of a religious order, or a subdivision of a religious order, which has elected coverage under section 3121 (r) are included in employment and are subject to social security coverage even though they are performed for an employer other than the religious order or subdivision. The proposals have also been revised to clarify that cash received from an outside employer and not required to be remitted to the religious order or subdivision is included in "wages".

The final regulations contain a revised definition of an autonomous subdivision of a religious order. This revision takes account of the fact that some such groups elect their religious superiors while other groups have them appointed by higher authority.

Under the proposed rules, an electing religious order or subdivision which determines that a member has retired must submit with its employment tax return a summary of the facts upon which the determination has been made. The final regulations specify that each such summary shall contain the name and social security number of each such retired member as well as the date of his retirement.

Adoption of amendments to the regulations. On March 19, 1973, a notice of proposed rule making with respect to the Employment Tax Regulations (26 CFR Part 31) under section 3121 of the Internal Revenue Code of 1954 to conform such regulations to section 123 of the Social Security Amendments of 1972 (86 Stat. 1354) was published in the FEDERAL REGISTER (38 FR 7230). On March 23, 1973, a notice of correction of such notice of proposed rulemaking was published in the FEDERAL REGISTER (38 FR 7570). After consideration of all relevant matter presented by interested persons regarding the proposed rules, the amendment of the Employment Tax Regulations under section 3121 is hereby adopted, subject to the following changes:

PARAGRAPH 1. Section 31.3121(b)(8)-1, as set forth in paragraph 3 of the appendix to the notice of proposed rule making, is amended by revising paragraph (a) thereof to read as set forth below.

PAR. 2. Section 31.3121(i)-4, as set forth in paragraph 6 of the appendix to the notice of proposed rule making, is amended by revising so much thereof as precedes example (1), and by revising examples (4) and (5) thereof, to read as set forth below.

PAR. 3. Section 31.3121(r)-1, as set forth in paragraph 7 of the appendix to the notice of proposed rule making, is amended by revising paragraphs (a) and (b) (4) thereof to read as set forth below.

(Sec. 7805, Internal Revenue Code of 1954, 68A Stat. 917; 26 U.S.C. 7805)

[SEAL] DONALD C. ALEXANDER,
Commissioner of Internal Revenue.

Approved July 3, 1973.

JOHN H. HALL,
Deputy Assistant Secretary of the Treasury.

In order to conform the Employment Tax Regulations (26 CFR Part 31) under section 3121 of the Internal Revenue Code of 1954 to the provisions of section 123 of the Social Security Amendments of 1972 (86 Stat. 1354), such regulations are amended as follows:

PARAGRAPH 1. Paragraph (a)(5) of § 31.0-2 is amended by adding subdivision (viii) at the end thereof to read as follows:

§ 31.0-2 General definitions and use of terms.

(a) *In general.* As used in the regulations in this part, unless otherwise expressly indicated—

• • • • • •

(5) • • •

(viii) The Social Security Amendments of 1972 means the act approved October 30, 1972 (86 Stat. 1329).

• • • • • •

PAR. 2. Section 31.3121(b)(8) is amended by revising § 31.3121(b)(8)(A) and the historical note to read as follows:

§ 31.3121(b)(8) Statutory provisions; definitions; employment; services performed by a minister of a church or a member of a religious order; services in employ of religious, charitable, educational, or certain other organizations exempt from income tax.

SEC. 3121. *Definitions.* • • •

(b) *Employment.* For purposes of this chapter, the term "employment" means • • • any service, of whatever nature, performed after 1954 • • •; except that • • • such term shall not include—

• • • • • •

(8) (A) Service performed by a duly ordained, commissioned, or licensed minister of a church in the exercise of his ministry or by a member of a religious order in the exercise of duties required by such order, except that this subparagraph shall not apply to service performed by a member of such an order in the exercise of such duties, if an election of coverage under subsection (r) is in effect with respect to such order, or with respect to the autonomous subdivision thereof to which such member belongs;

• • • • • •

[Paragraph (9), sec. 3121(b) redesignated paragraph (8) by sec. 205(b), Social Security Amendments 1954; as amended by sec. 405 (b), Social Security Amendments 1958; sec. 123(a)(2), Social Security Amendments 1972]

PAR. 3. Section 31.3121(b)(8)-1 is amended by revising paragraph (a) thereof to read as follows:

§ 31.3121(b)(8)-1 Services performed by a minister of a church or a member of a religious order.

(a) *In general.* Services performed by a duly ordained, commissioned, or licensed minister of a church in the exercise of his ministry, or by a member of a religious order in the exercise of his duties required by such order, are excluded from employment, except that services performed by a member of such an order in the exercise of such duties (whether performed for the order or for another employer) are included in employment if an election of coverage under section 3121(r) and § 31.3121(r)-1 is in effect with respect to such order or with respect to the autonomous subdivision thereof to which such member belongs. For provisions relating to the election available to certain ministers and members of religious orders with respect to the extension of the Federal old-age, survivors, and disability insurance system established by title II of the Social Security Act to certain services performed by them, see Part 1 of this chapter (Income Tax Regulations).

• • • • • •

PAR. 4. Section 31.3121(b)(8)-2 is amended by revising paragraph (a) thereof to read as follows:

§ 31.3121(b)(8)-2 Services in employ of religious, charitable, educational, or certain other organizations exempt from income tax.

(a) Services performed by an employee in the employ of a religious, charitable, educational, or other organization described in section 501(c)(3) which is exempt from income tax under section 501(a) are excepted from employment. However, this exception does not apply to services with respect to which a certificate, filed pursuant to section 3121 (k) or (r), or section 1426(l) of the Internal Revenue Code of 1939, is in effect. For provisions relating to the services with respect to which such a certificate is in effect, see §§ 31.3121(k)-1 and 31.3121(r)-1.

• • • • • •

PAR. 5. Section 31.3121(i) is amended by adding a new paragraph (4) to the end thereof and by revising the historical note. These added and revised provisions read as follows:

§ 31.3121(i) Statutory provisions; definitions; computation of wages in certain cases.

SEC. 3121. *Definitions.* • • •

(i) *Computation of wages in certain cases.* • • •

(4) *Service performed by certain members of religious orders.* For purposes of this chapter, in any case where an individual is a member of a religious order (as defined in subsection (r)(2)) performing service in the exercise of duties required by such order, and an election of coverage under subsection (r) is in effect with respect to such order or with respect to the autonomous subdivision thereof to which such member belongs, the term "wages" shall, subject to the provisions of subsection (a)(1), include as such individual's remuneration for such service the fair market value of any board, lodging, clothing, and other perquisites furnished to such member by such order or subdivision thereof or by any other person or organization pursuant to an agreement with such order or subdivision, except that the amount included as such individual's remuneration under this paragraph shall not be less than $100 a month.

[Sec. 3121(i) as amended by sec. 410, Servicemen's and Veterans' Survivor Benefits Act (70 Stat. 878); sec. 202(a)(1), Peace Corps Act (75 Stat. 626); sec. 123(c)(2), Social Security Amendments 1972]

PAR. 6. There is inserted immediately after § 31.3121(i)-3 a new § 31.3121(i)-4 to read as follows:

§ 31.3121(i)-4 Computation of remuneration for service performed by certain members of religious orders.

In any case where an individual is a member of a religious order (as defined in section 3121(r)(2) and paragraph (b) of § 31.3121(r)-1) performing service in the exercise of duties required by such order, and an election of coverage under section 3121(r) and § 31.3121(r)-1 is in effect with respect to such order or the autonomous subdivision thereof to which such member belongs, the term "wages" shall, subject to the provisions of section 3121(a)(1) (relating to definition of wages), include as such individual's remuneration for such service the fair market value of any board, lodging, clothing, and other perquisites furnished to such member by such order or subdivision or by any other person or organization pursuant to an agreement (whether written or oral) with such order or subdivision. Such other perquisites shall include any cash either paid by such order or subdivision or paid by another employer and not required by such order or subdivision to be remitted to it. For purposes of this section, perquisites shall be considered to be furnished over the period during which the member receives the benefit of them. (See example (4) of this section.) In no case shall the amount included as such individual's remuneration under this paragraph be less than $100 a month. All relevant facts and elements of value shall be considered in every case. Where the fair market value of any board, lodging, clothing, and other perquisites furnished to all members of an electing religious order or autonomous subdivision (or to all in a group of members) does not vary significantly, such order or subdivision may treat all of its members (or all in such group of members) as having a uniform wage. The provisions of this section may be illustrated by the following examples of the treatment of particular perquisites:

Example (1). M is a religious order which requires its members to take a vow of poverty and which has made an election under section 3121(r). Under section 3121(i)(4), M must include in the wages of its members the fair market value of the clothing it provides for its members. M and several other religious orders using essentially the same type of religious habit purchase clothing for

V 38-131 JUL 10 73 XUM

their members from either of two suppliers in arms-length transactions. The fair market value of such clothing (i.e., the price at which such items would change hands between a willing buyer and a willing seller, neither being under any compulsion to buy or to sell) is determined by reference to the actual sales price of these suppliers to the religious orders.

Example (2). N is a religious order which requires its members to take a vow of poverty and which has made an election under section 3121(r). N operates a seminary adjacent to a university. Students at the university obtain lodging and board on campus from the university for its fair market value of $2,000 for the school year. Such lodging and board is essentially the same as that provided by N at its seminary to N's members subject to a vow of poverty. Accordingly, the amount to be included in the "wages" of such members with respect to lodging and board for the same period of time is $2,000.

Example (3). O is a religious order which requires its members to take a vow of poverty and to observe silence, and which has made an election under section 3121(r). O operates a monastery in a remote rural area. Under section 3121(i)(4), O must include in the wages of its members assigned to this monastery the fair market value of the board and lodging furnished to them. In making a determination of the fair market value of such board and lodging, the remoteness of the monastery, as well as the smallness of the rooms and the simplicity of their furnishings, affect this determination. However, the facts that the facility is used by a religious order as a monastery and that the order's members maintain silence do not affect the fair market value of such items.

Example (4). P is a religious order which requires its members to take a vow of poverty and which has made an election under section 3121(r). Several of P's members are attending a university on a full-time basis. The fair market value of the board and lodging of each of such members at the university is $1,000 per semester. P pays the university $1,000 at the beginning of each semester for the board and lodging of each of such members. In addition, P gives each such member a $400 cash advance to cover his miscellaneous expenses during the semester. Under section 3121(i)(4), P must prorate the fair market value of such members' board and lodging, as well as the miscellaneous items, over the semester and include such value in the determination of "wages".

Example (5). Q is a religious order which is a corporation organized under the laws of Wisconsin, which requires its members to take a vow of poverty, and which has made an election under section 3121(r). Q has convents in rural South America and in suburbs and central city areas of the United States. Characteristically, in the United States its suburban convents provide somewhat larger and newer rooms for its members than do its convents in city areas. Moreover, its suburban convents have more extensive grounds and somewhat more elaborate facilities than do its older convents in city areas. However, both types of convents limit resident members to a single, plainly furnished room and provide them meals which are comparable. Q's members in South America live in extremely primitive dwellings and otherwise have extremely modest perquisites. Under section 3121(i)(4), Q may report a uniform wage for its members who live in suburban convents and city convents in the United States, as the board, lodging, and perquisites furnished these members do not vary significantly from one convent to the other. Q may report another uniform wage (but not less than $100 per month apiece) for its members who are citizens of the United States and who reside in South America based on the fair market value of the perquisites furnished these individuals, as the fair market value of the perquisites furnished these individuals varies significantly from that of those furnished its members who live in its domestic convents but does not vary significantly among members in South America whose wages are subject to tax.

PAR. 7. Immediately after § 31.3121(q)–1 there are inserted the following new sections:

§ 31.3121(r) Statutory provisions; definitions; election of coverage by religious orders.

SEC. 3121. *Definitions.* • • •

(r) *Election of coverage by religious orders*—(1) *Certificate of election by order.* A religious order whose members are required to take a vow of poverty, or any autonomous subdivision of such order, may file a certificate (in such form and manner, and with such official, as may be prescribed by regulations under this chapter) electing to have the insurance system established by title II of the Social Security Act extended to services performed by its members in the exercise of duties required by such order or such subdivision thereof. Such certificate of election shall provide that—

(A) Such election of coverage by such order or subdivision shall be irrevocable;

(B) Such election shall apply to all current and future members of such order, or in the case of a subdivision thereof to all current and future members of such order who belong to such subdivision;

(C) All services performed by a member of such an order or subdivision in the exercise of duties required by such order or subdivision shall be deemed to have been performed by such member as an employee of such order or subdivision; and

(D) The wages of each member, upon which such order or subdivision shall pay the taxes imposed by sections 3101 and 3111, will be determined as provided in subsection (i)(4).

(2) *Definition of member.* For purposes of this subsection, a member of a religious order means any individual who is subject to a vow of poverty as a member of such order and who performs tasks usually required (and to the extent usually required) of an active member of such order and who is not considered retired because of old age or total disability.

(3) *Effective date for election.* (A) A certificate of election of coverage shall be in effect, for purposes of subsection (b)(8)(A) and for purposes of section 210(a)(8)(A) of the Social Security Act, for the period beginning with whichever of the following may be designated by the order or subdivision thereof:

(i) The first day of the calendar quarter in which the certificate is filed,

(ii) The first day of the calendar quarter succeeding such quarter, or

(iii) The first day of any calendar quarter preceding the calendar quarter in which the certificate is filed, except that such date may not be earlier than the first day of the twentieth calendar quarter preceding the quarter in which such certificate is filed.

Whenever a date is designated under clause (iii), the election shall apply to services performed before the quarter in which the certificate is filed only if the member performing such services was a member at the time such services were performed and is living on the first day of the quarter in which such certificate is filed.

(B) If a certificate of election filed pursuant to this subsection is effective for one or more calendar quarters prior to the quarter in which such certificate is filed, then—

(i) For the purposes of computing interest and for purposes of section 6651 (relating to addition to tax for failure to file tax return), the due date for the return and payment of the tax for such prior calendar quarters resulting from the filing of such certificate shall be the last day of the calendar month following the calendar quarter in which the certificate is filed; and

(ii) The statutory period for the assessment of such tax shall not expire before the expiration of 3 years from such due date.

(4) *Coordination with coverage of lay employees.* Notwithstanding the preceding provisions of this subsection, no certificate of election shall become effective with respect to an order or subdivision thereof, unless—

(A) If at the time the certificate of election is filed a certificate of waiver of exemption under subsection (k) is in effect with respect to such order or subdivision, such order or subdivision amends such certificate of waiver of exemption (in such form and manner as may be prescribed by regulations made under this chapter) to provide that it may not be revoked, or

(B) If at the time the certificate of election is filed a certificate of waiver of exemption under such subsection is not in effect with respect to such order or subdivision, such order or subdivision files such certificate of waiver of exemption under the provisions of such subsection except that such certificate of waiver of exemption cannot become effective at a later date than the certificate of election and such certificate of waiver of exemption must specify that such certificate of waiver of exemption may not be revoked. The certificate of waiver of exemption required under this subparagraph shall be filed notwithstanding the provisions of subsection (k)(3).

[Sec. 3121(r) as added by sec. 123(b), Social Security Amendments 1972]

§ 31.3121(r)–1 Election of coverage by religious orders.

(a) *In general.* A religious order whose members are required to take a vow of poverty, or any autonomous subdivision of such an order, may elect to have the Federal old-age, survivors, and disability insurance system established by title II of the Social Security Act extended to services performed by its members in the exercise of duties required by such order or subdivision. See section 3121(i)(4) and § 31.3121(j)–4 for provisions relating to the computation of the amount of remuneration of such members. For purposes of this section, a subdivision of a religious order is autonomous if it directs and governs its members, if it is responsible for its members' care and maintenance, if it is responsible for the members' support and maintenance in retirement, and if the members live under the authority of a religious superior who is elected by them or appointed by higher authority.

(b) *Definition of member*—(1) *In general.* For purposes of section 3121(r) and this section, a member of a religious order means any individual who is subject to a vow of poverty as a member of such order, who performs tasks usually required (and to the extent usually required) of an active member of such order, and who is not considered retired because of old age or total disability.

(2) *Retirement because of old age*—(i) *In general.* For purposes of section 3121(r)(2) and this paragraph, an individual is considered retired because of old age if (A) in view of all the services performed by the individual and the surrounding circumstances it is reasonable to consider him to be retired, and (B) his retirement occurred by reason of old age. Even though an individual performs some services in the exercise of duties required by the religious order, the first test (the retirement test) is met where it is reasonable to consider the individual to be retired.

(ii) *Factors to be considered.* In determining whether it is reasonable to consider an individual to be retired, consideration is first to be given to all of the following factors:

(A) *Nature of services.* Consideration is given to the nature of the services performed by the individual in the exercise of duties required by his religious order. The more highly skilled and valuable such services are, the more likely the individual rendering such services is not reasonably considered retired. Also, whether such services are of a type performed principally by retired members of the individual's religious order may be significant.

(B) *Amount of time.* Consideration is also given to the amount of time the individual devotes to the performance of services in the exercise of duties required by his religious order. This time includes all the time spent by him in any activity in connection with services which might appropriately be performed in the exercise of duties required of active members by the order. Normally, an individual who, solely by reason of his advanced age, performs services of less than 45 hours per month shall be considered retired. In no event shall an individual who, solely by reason of his advanced age, performs services of less than 15 hours per month not be considered retired.

(C) *Comparison of services rendered before and after retirement.* In addition, consideration is given to the nature and extent of the services rendered by the individual before he "retired," as compared with the services performed thereafter. A large reduction in the importance or amount of services performed by the individual in the exercise of duties required by his religious order tends to show that the individual is retired; absence of such reduction tends to show that the individual is not retired. Normally, an individual who reduces by at least 75 percent the amount of services performed shall be considered retired.

Where consideration of the factors described in paragraph (b)(2)(ii) of this section does not establish whether an individual is or is not reasonably considered retired, all other factors are considered.

(iii) *Examples.* The rules of this subparagraph may be illustrated by the following examples:

Example (1). A is a member of a religious order who is subject to a vow of poverty. A's religious order is principally engaged in providing nursing services, and A has been fully trained in the nursing profession. In accordance with the practices of her order, upon attaining the age of 65, A is relieved of her nursing duties by reason of her age, and is assigned to a mother house where she is required to perform only such duties as light housekeeping and ordinary gardening. A is reasonably considered retired since the services she is performing are simple in nature, are markedly less skilled than those professional services which she previously performed, are of a type performed principally by retired members of her order, and are performed at a location to which members frequently retire.

Example (2). Assume the same facts as in example (1) except that A is not reassigned to a mother house. Instead, she is reassigned to full-time duties in a hospital not utilizing her nursing skills. Whether A has met the retirement test requires consideration of the nature of her work. If A's new duties are almost entirely of a make-work nature primarily to occupy her body and mind, she is reasonably considered retired. However, if they are essential to the operation of the hospital, she is not reasonably considered retired.

Example (3). B is a member of a religious order who is subject to a vow of poverty. As such, he provides supportive services to his order, such as housekeeping, cooking, and gardening. By reason of having attained the age of 62, he reduces the number of hours spent per day in these services from 8 hours to 2 hours. B is reasonably considered retired in view of the large reduction in the amount of time he devotes to his duties.

Example (4). C is a member of a religious order who is subject to a vow of poverty. In his capacity as a member of the order, he performs duties as president of a university. Upon attaining the age of 65, C is relieved of his duties as president of the university and instead becomes a member of its faculty, teaching two courses whereas full-time members of the faculty normally teach four comparable courses. Although C's duties are no longer as demanding as those he previously performed, and although the amount of his time required for them is less than full time, he is nonetheless performing duties requiring a high degree of skill for a substantial amount of time. Accordingly, C is not reasonably considered retired.

Example (5). Assume the same facts as in example (4), except that C teaches only one course upon being relieved of his position as president by reason of age. C is reasonably considered retired.

Example (6). D is a member of a contemplative order who is subject to a vow of poverty. In accordance with the practices of his order, upon attaining the age of 70, D reduces by 50 percent the amount of time spent performing the normal duties of active members of his order. D is not reasonably considered retired.

Example (7). Assume the same facts as in example (6), except that because of his age D no longer participates in the more rigorous liturgical services of the order and that the amount of time which he spends in all duties which might appropriately be performed by active members of his order is reduced by 75 percent. D is reasonably considered retired in view of the large reduction in his participation in the usual devotional routine of his order.

(3) *Retirement because of total disability.* For purposes of section 3121(r)(2) and this paragraph, an individual is considered retired because of total disability (i) if he is unable, by reason of a medically determinable physical or mental impairment, to perform the tasks usually required of an active member of his order to the extent necessary to maintain his status as an active member, and (ii) if such impairment is reasonably expected to prevent his resumption of the performance of such tasks to such extent. A physical or mental impairment is an impairment that results from anatomical, physiological, or psychological abnormalities which are demonstrable by medically acceptable clinical and laboratory diagnostic techniques. Statements of the individual, including his own description of his impairment (symptoms), are, alone, insufficient to establish the presence of a physical or mental impairment.

(4) *Evidentiary requirements with respect to retirement.* There shall be attached to the return of taxes paid pursuant to an election under section 3121(r) a summary of the facts upon which any determination has been made by the religious order or autonomous subdivision that one or more of its members retired during the period covered by such return. Each summary shall contain the name and social security number of each such retired member as well as the date of his retirement. Such order or subdivision shall maintain records of the details relating to each such "retirement" sufficient to show whether or not such member or members has in fact retired.

(c) *Certificates of election*—(1) *In general.* A religious order or an autonomous subdivision of such an order desiring to make an election of coverage pursuant to section 3121(r) and this section shall file a certificate of election on Form SS–16 in accordance with the instructions thereto. However, in the case of an election made before August 9, 1973, a document other than Form SS–16 shall constitute a certificate of election if it purports to be a binding election of coverage and if it is filed with an appropriate official of the Internal Revenue Service. Such a document shall be given the effect it would have if it were a certificate of election containing the provisions required by subparagraph (2) of this paragraph. However, it should subsequently be supplemented by a Form SS–16.

(2) *Provisions of certificates.* Each certificate of election shall provide that—

(i) Such election of coverage by such order or subdivision shall be irrevocable,

(ii) Such election shall apply to all current and future members of such order, or in the case of a subdivision thereof to all current and future members of such order who belong to such subdivision,

(iii) All services performed by a member of such order or subdivision in the exercise of duties required by such order or subdivision shall be deemed to have been performed by such member as an employee of such order or subdivision, and

(iv) The wages of each member, upon which such order or subdivision shall pay the taxes imposed on employees and employers by sections 3101 and 3111, will be determined as provided in section 3121(i)(4).

(d) *Effective date of election*—(1) *In general.* Except as provided in paragraph (e) of this section, a certificate of election of coverage filed by a religious order or its subdivision pursuant to section

V 38-131
JUL 10 73
XUM

3121(r) and this section shall be in effect, for purposes of section 3121(b)(8)(A) and for purposes of section 210(a)(8)(A) of the Social Security Act, for the period beginning with whichever of the following may be designated by the electing religious order or subdivision:

(i) The first day of the calendar quarter in which the certificate is filed,

(ii) The first day of the calendar quarter immediately following the quarter in which the certificate is filed, or

(iii) The first day of any calendar quarter preceding the calendar quarter in which the certificate is filed, except that such date may not be earlier than the first day of the 20th calendar quarter preceding the quarter in which such certificate is filed.

(2) *Retroactive elections.* Whenever a date is designated as provided in paragraph (d)(1)(iii) of this section, the election shall apply to services performed before the quarter in which the certificate is filed only if the member performing such services was a member at the time such services were performed and is living on the first day of the quarter in which such certificate is filed. Thus, the election applies to an individual who is no longer a member of a religious order on the first day of such quarter if he performed services as a member at any time on or after the date so designated and is living on the first day of the quarter in which such certificate is filed. For purposes of computing interest and for purposes of section 6651 (relating to additions to tax for failure to file tax return or to pay tax), in any case in which such a date is designated the due date for the return and payment of the tax, for calendar quarters prior to the quarter in which the certificate is filed, resulting from the filing of such certificate shall be the last day of the calendar month following the calendar quarter in which the certificate is filed. The statutory period for the assessment of the tax for such prior calendar quarters shall not expire before the expiration of 3 years from such due date.

(e) *Coordination with coverage of lay employees.* If at the time the certificate of election of coverage is filed by a religious order or autonomous subdivision, a certificate of waiver of exemption under section 3121(k) (extending coverage to any lay employees) is not in effect, the certificate of election shall not become effective unless the order or subdivision files a Form SS–15, and a Form SS–15a to accompany the certificate on Form SS–15, as provided by section 3121(k) and §§ 31.3121(k)–1 through 31.3121(k)–3. The preceding sentence applies even though an order or subdivision has no lay employees at the time it files a certificate of election of coverage. The effective date of the certificate of waiver of exemption must be no later than the date on which the certificate of election becomes effective, and it must be specified on the certificate of waiver of exemption that such certificate is irrevocable. The certificate of waiver of exemption required under this paragraph shall be filed notwithstanding the provisions of section 3121(k)(3) (relating to no renewal of the waiver of exemption) which otherwise would prohibit the filing of a waiver of exemption if an earlier waiver of exemption had previously been terminated. If at the time the certificate of election of coverage is filed a certificate of waiver of exemption is in effect with respect to the electing religious order or autonomous subdivision, the filing of the certificate of election shall constitute an amendment of the certificate of waiver of exemption making the latter certificate irrevocable.

Title 31—Money and Finance: Treasury

CHAPTER II—FISCAL SERVICE, DEPARTMENT OF THE TREASURY

SUBCHAPTER A—BUREAU OF ACCOUNTS

PART 260—SHIPMENT OF VALUABLES PURSUANT TO THE GOVERNMENT LOSSES IN SHIPMENT ACT

Revocation

The Department of the Treasury has determined to revoke its regulations governing the Shipment of Valuables Pursuant to the Government Losses in Shipment Act, at 31 CFR Part 260 (also appearing as Treasury Department Circular 576, as amended), which were stated to be provisional upon their 1937 promulgation. The regulations are now in part inconsistent with the act, as amended, and have caused confusion as a result. Further, regulations properly reflecting the current meaning and intent of the Government Losses in Shipment Act appear at 31 CFR Parts 261 and 262.

31 CFR 260.2, the only substantive provision, will be restated as 31 CFR 261.2.

Since the revocation concerns matters which are at this date essentially intragovernmental and have minimal public effect, notice and public procedure respecting this action is neither appropriate nor needed. Accordingly, Subchapter A, Chapter II of Title 31 of the Code of Federal Regulations is hereby amended by revoking Part 260.

(50 Stat. 479, 480; 40 U.S.C. 721, 728)

[SEAL] JOHN K. CARLOCK,
Fiscal Assistant Secretary.

Dated: July 2, 1973.

[FR Doc.73-13981 Filed 7-9-73;8:45 am]

PART 261—CLAIMS FOR REPLACEMENT OF VALUABLES, OR THE VALUE THEREOF, SHIPPED PURSUANT TO THE GOVERNMENT LOSSES IN SHIPMENT ACT

Shipping Procedure

The Department of the Treasury finds it necessary to amend its regulations governing Claims for Replacement of Valuables, or the Value Thereof, Shipped Pursuant to the Government Losses in Shipment Act, at 31 CFR Part 261 (also appearing as Treasury Department Circular 577, as supplemented), by (1) revoking § 261.2 because Part 260, referred to therein, has been revoked, and (2) by adding a new § 261.2, a restatement of the revoked § 260.2.

Since the amendments concern matters which are at this date essentially intragovernmental and have minimal public effect, notice and public procedure respecting this action is neither appropriate nor needed. Accordingly, Subchapter A, Chapter II of Title 31 of the Code of Federal Regulations is hereby amended by revoking the present § 261.2, and by adding a new 261.2 to read:

§ 261.2 Shipping procedure.

Shipments of valuables shall be made in such manner and at such time consonant with the greatest possible protection against risk of loss and destruction of and damage to such valuables as the respective heads of the various executive departments, independent establishments, agencies and wholly-owned corporations of the United States may from time to time direct, after notice to the Secretary of the Treasury.

(50 Stat. 480; 40 U.S.C. 728)

Dated: July 2, 1973.

[SEAL] JOHN K. CARLOCK,
Fiscal Assistant Secretary.

Title 32—National Defense

CHAPTER XVIII—DEFENSE CIVIL PREPAREDNESS AGENCY

PART 1812—FEDERALLY ASSISTED CONSTRUCTION

Corrective Amendment

Section 1812.3 of Part 1812 of Chapter XVIII of Title 32 of the Code of Federal Regulations is amended by substituting, in the first sentence thereof, "OMB Circular A–102" in place of "OMB Circular A–120."

(Sec. 401(g), 201(i) 205, 64 Stat. 1245–1257, 50 U.S.C. App. 2251–2297; Reorganization Plan No. 1 of 1958, 72 Stat. 1799; Executive Order 10952, "Assigning Civil Defense Responsibilities to the Secretary of Defense and Others," July 20, 1961; order of the Secretary of Defense establishing the Defense Civil Preparedness Agency as an agency of the Department of Defense, FR Doc. 72–15636, filed September 13, 1972, 37 FR 18636.)

Effective date. This corrective amendment is effective immediately.

Dated: June 29, 1973.

JOHN E. DAVIS,
Director,
Defense Civil Preparedness Agency.

Title 33—Navigation and Navigable Waters

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

SUBCHAPTER I—ANCHORAGES

[CGD 72-232 R]

PART 110—ANCHORAGE REGULATIONS

Subpart B—Anchorage Grounds

HAMPTON ROADS, VA. AND ADJACENT WATERS

This amendment to the anchorage regulations applicable to Hampton Roads, Virginia, and adjacent waters reduces the size of anchorage ground H–1, located on the Elizabeth River, south of Craney Island.

This amendment is based on a notice of proposed rulemaking published in the Wednesday, December 6, 1972, issue of the FEDERAL REGISTER (37 FR 25956) and on Public Notice No. 5–209 issued by the Commander, Fifth Coast Guard District.

Only one comment was received concerning the proposal. The commenter explained that a plot of the bounds of the anchorage using Lambert grid coordinates discloses, after conversion of these coordinates into geographic coordinates, that the plot of the northwest corner of the anchorage is in error. The geographic coordinates of the northwest corner of the anchorage are latitude 36° 52′ 39.5″ N., longitude 76° 20′ 37.8″ W., rather than latitude 36° 52′ 39.5″ N., longitude 76° 20′ 39.0″ W. as contained in the description of the anchorage in the notice of proposed rule making. The final rule corrects this error in the description of the anchorage.

In consideration of the foregoing, Part 110 of Chapter I of Title 33 of the Code of Federal Regulations is amended by revising § 110.168(d)(1) to read as follows:

§ 110.168 Hampton Roads, Va., and adjacent waters.

* * * * *

(d) *Elizabeth River*—(1) *Anchorage H–1, West Norfolk.* The water area on the west side of Norfolk Harbor Channel, south of Craney Island enclosed by a line beginning at a point on the western edge of the Norfolk Harbor Channel at latitude 36°52′41″ N., longitude 76°20′07″ W.; thence westerly to latitude 36°52′39.5″ N., longitude 76°20′37.8″ W.; thence southerly to latitude 36°52′18.8″ N., longitude 76°20′34.3″ W.; thence easterly to latitude 36°52′22.2″ N., longitude 76°20′03.8″ W.; thence northerly along the western boundary of the Norfolk Harbor Channel to the point of beginning.

* * * * *

Title 38—Pensions, Bonuses, and Veterans' Relief

CHAPTER I—VETERANS ADMINISTRATION

PART 36—LOAN GUARANTY

Interest Rate Changes

The Veterans Administration is amending §§ 36.4311 and 36.4503, title 38 of the Code of Federal Regulations to decrease the maximum allowable interest rate on guaranteed, insured, and direct home loans to 6 percent.

Section 1803(c)(1) of title 38, United States Code provides that the maximum interest rate applicable to loans, guaranteed or insured, under chapter 37 of title 38 shall be established by the Administrator from time to time as he finds the loan market demands, except that the rate in no event shall exceed that in effect under the provisions of section 203(b)(5) of the National Housing Act. The maximum interest rate authorized by section 203(b)(5) of the National Housing Act is 6 percent. Public Law 92–335 (86 Stat. 405) granted temporary authority to establish interest rates in excess of the 6 percent maximum set forth in section 203(b)(5) of the National Housing Act. This temporary authority expires on June 30, 1973.

Compliance with the provisions of § 1.12 of this Chapter, as to notice of proposed regulatory development, is waived because publishing of notice and requesting comments would serve no useful purpose in light of the expiration of statutory authority to continue a maximum interest rate in excess of 6 percent.

1. In § 36.4311, paragraph (a) is amended to read as follows:

§ 36.4311 Interest rates.

(a) Excepting non-real-estate loans insured under 38 U.S.C. 1815 and loans guaranteed or insured pursuant to guaranty or insurance commitments issued by the Veterans Administration which specify an interest rate in excess of 6 per centum per annum, effective July 1, 1973, the interest rate on any loan guaranteed or insured wholly or in part on or after such date may not exceed 6 per centum per annum on the unpaid principal balance.

* * * * *

2. In § 36.4503, paragraph (a) is amended to read as follows:

§ 36.4503 Amount and amortization.

(a) The original principal amount of any loan made on or after May 7, 1968, shall not exceed an amount which bears the same ratio to $21,000 (or to such increased maximum as the Administrator may from time to time specify for the area in which the loan is made pursuant to section 1811(d) of title 38, United States Code) as the amount of the guaranty to which the veteran is entitled under 38 U.S.C. 1810 at the time the loan is made bears to $12,500. This limitation shall not preclude the making of advances, otherwise proper, subsequent to the making of the loan pursuant to the provisions of § 36.4511. Effective July 1, 1973, loans made by the Veterans Administration shall bear interest at the rate of 6 percent per annum.

* * * * *

These VA regulations are effective July 1, 1973.

Approved: June 29, 1973.

By direction of the Administrator.

[SEAL] FRED B. RHODES,
Deputy Administrator.

Title 39—Postal Service

CHAPTER I—U.S. POSTAL SERVICE

PART 126—MAIL ADDRESSED TO MILITARY POST OFFICES OVERSEAS

General Prohibitions

Regulations dealing with general prohibitions as to mailings to, from, and between overseas military post offices are amended with respect to magnetic materials shipped by air.

Accordingly, paragraph (f)(i)(ii) *General prohibitions* of § 126.1 is amended, effective on July 10, 1973, to read as follows:

* * * * * *

§ 126.1 Preparation and handling.

(f) * * * (ii) Magnetic material shipped by air having sufficient magnetic field to cause a compass deviation at 15 feet or more. Magnetic material causing a compass deviation at less than 15 feet shall have the required magnetic equipment caution label affixed. This does not apply to magnetic material sent by surface equipment.

* * * * * *

(39 U.S.C. 401)

ROGER P. CRAIG,
Deputy General Counsel.

Title 41—Public Contracts and Property Management

CHAPTER 5A—FEDERAL SUPPLY SERVICE, GENERAL SERVICES ADMINISTRATION

MISCELLANEOUS AMENDMENTS TO CHAPTER

The following is to (i) provide additional instructions on the handling of bids after they are opened, (ii) add a Prompt Payment Discount clause, (iii) revise the Source Inspection clause, (iv) provide additional instructions for establishing price reasonableness when only one bid is received, and (v) delete Part 5A–75 as review committees and teams are discontinued.

The table of parts for Chapter 5A is revised by deleting Part 5A–75.

PART 5A–2—PROCUREMENT BY FORMAL ADVERTISING

The table of contents for Part 5A–2 is amended by addition of the following new entry:

Sec.
5A–2.402 Opening of bids.

Subpart 5A–2.2—Solicitation of Bids

1. Section 5A–2.201–77 is amended by adding a paragraph (c) as follows:

§ 5A–2.201–77 Discount provision.

* * * * *

(c) The following clause shall be included in all solicitations for offers and resultant contracts.

PROMPT PAYMENT DISCOUNT

For the purpose of bid evaluation, any prompt payment discount which is eligible (i.e. for a period of 20 days or more) for con-

V 38 I 131 J
JUL 10 73
XUM

sideration in the evaluation of offers pursuant to Article 9(a) of SF 33A will be applied directly to the price offered. Where a single percentage either as a deduction from or as an addition to the prices is offered under the price-list method of making awards, such percentage will be applied first to determine the evaluated price offered, then that price will be reduced by any eligible prompt payment discount offered. For the purpose of payment, when the prompt payment discount is earned, the full discount will be deducted, otherwise any prompt payment discount in excess of 5 percent will be considered by the Government only as a prompt payment discount of 5 percent, and any percentage in excess of 5 percent will be considered as a special discount, which the bidder or offeror agrees that the Government will be entitled to regardless of when payment is made.

2. Section 5A–2.201–78 is amended as follows:

§ 5A–2.201–78 Inspection at source.

* * * * *

(c) * * *

SOURCE INSPECTION

(1) Supplies to be furnished under this contract ordinarily will be inspected at source by the Government prior to shipment from the manufacturing plant or other facility designated by the Contractor, unless (a) the Contractor is notified otherwise in writing by the Contracting Officer or his designated representative or (b) the Contractor or his subcontractor, pursuant to a Quality Assurance or Quality Approved Manufacturer Agreement with the General Services Administration, is authorized to issue a certificate covering such supplies at the time of shipment. Notwithstanding the foregoing, the Government may perform any or all tests contained in the contract specifications at a Government facility without prior written notice by the Contracting Officer before release of the supplies for shipment.

(2) Offerors will be required to specify the name and address (including county) of each manufacturing plant or other facility where supplies will be available for inspection, indicating the item number(s) to which each applies. A contract will be awarded only to the responsible offeror (i) who agrees to deliver the item(s) specified by the contract from a plant or warehouse within the United States (including Puerto Rico and the Virgin Islands) that is equipped to perform all tests required by the contract and specifications, to evidence conformance therewith, or (ii) who will arrange with a testing laboratory in the United States, acceptable to the Government, to perform the required tests.

(3) Inspection responsibility will be assigned to the Quality Control Division of the GSA regional office having jurisdiction over the State in which the Contractor's or subcontractor's plant or other designated point for source inspection is located (addresses and States covered for each Quality Control Division are shown on GSA Form 2022, copy of which, if not previously furnished, is obtainable upon request). The Contractor shall notify, or arrange for his subcontractor to notify, that office at least 10 days prior to the date when supplies will be ready for inspection. Shipments shall not be made until released by the Quality Control Division unless release is otherwise authorized under terms of a currently applicable Quality Assurance or Quality Approved Manufacturer Agreement.

Subpart 5A–2.4—Opening of Bids and Award of Contract

1. Section 5A–2.402 is added as follows:

§ 5A–2.402 Opening of bids.

Under no circumstances shall anyone tamper with any bid after it has been formally opened. This includes making any alterations or notations with pencil or ink, or disassembling, or withdrawing pages or adding pages not submitted with the bid.

2. Section 5A–2.407–3 is amended as follows:

§ 5A–2.407–3 Discounts.

* * * * *

(c) All solicitations for offers shall contain the Prompt Payment Discount clause set forth in § 5A–2.201–77(c).

3. Section 5A–2.407–70 is revised as follows:

§ 5A–2.407–70 Award when only one bid is received.

(a) When only one bid is received in response to an invitation for bids, such bid may be considered and accepted if (i) the specifications used in the invitation were not restrictive, (ii) adequate competition was solicited, (iii) the price is reasonable, and (iv) the bid is otherwise in accordance with the invitation for bids.

(b) The responsible contracting officer shall ensure that the contract file contains complete documentation that an award to the only offeror is in the best interest of the Government, particularly with regard to price reasonableness. If the basis for price reasonableness cannot be established from data or information which is available to the contracting officer, other than by contacting the offeror, the offeror may be contacted but only after all other information sources have been explored and found inadequate, and readvertising or negotiating with other sources of supply has been determined not feasible.

PART 5A–16—PROCUREMENT FORMS

The table of contents for Part 5A–16 is amended to add the following new entries:

Sec.	
5A–16.950–1679	GSA Form 1679, Contract Administration.
5A–16.950–1950	GSA Form 1950, Transmittal of Contract Award.
5A–16.950–1950B	GSA Form 1950B, Equal Employment Opportunity Program Review.

PART 5A–75—REVIEW COMMITTEES AND TEAMS

Part 5A–75 is deleted in its entirety.

NOTE: Copies of the forms illustrated in §§ 5A–16.950–1679, 5A–16.950–1950, and 5A–16.950–1950B are filed with the original document.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c); 41 CFR 5–1.101(c))

Effective date. This regulation is effective on the date shown below.

Dated: June 26, 1973.

M. J. TIMBERS,
Commissioner,
Federal Supply Service.

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 19078; FCC 73–692]

PART 73—RADIO BROADCAST SERVICES

Subsidiary Communications Authorizations

In the matter of amendment of § 73.593 of the Commission's rules with respect to uses of FM multiplex channels of noncommercial educational FM stations involving a charge to the audience, Docket No. 19078, RM–1623.

Report and order.

1. On November 4, 1970, responding to a petition filed by Educasting Systems, Inc. (Educasting), we issued a notice of proposed rule making in the above-entitled proceeding, (see 35 FR 17357) in which we proposed to amend § 73.593 of our rules to permit a noncommercial educational FM broadcast station, subject to appropriate safeguards, to accept payment of tuition fees for educational courses and other appropriate material broadcast on a multiplex basis pursuant to a Subsidiary Communications Authorization.

2. The petitioner was particularly interested in furthering the use of an instructional system utilizing multiple subcarriers, which it had developed and tested on an experimental basis, in which students with especially equipped receivers might listen to an instructor on one subcarrier and choose answers to questions posed by the instructor by depressing one of several buttons, each of which select other subcarriers carrying material appropriate to the correctness of the chosen answer. However, the proposition presented is of general application—whether a noncommercial educational FM station appropriately may charge "tuition or course fees" in connection with the kind of program material authorized to be broadcast over its subcarrier.

3. The Commission made a tentative finding "that to some degree the type of operation proposed by Educasting, or the transmission of instructional types of programs on one or more subcarriers by a noncommercial educational FM station for a fee, could be conducted without undue "commercialization" of the educational FM service, and would be in the public interest; and offered for comment an amendment to § 73.593 of its rules. The amendment to subparagraph (a)(1) of this section, with new or modified provisions italicized is set forth below:

Section 73.593 *Subsidiary communications Authorizations.* (a) * * * (1) Transmission of programs which are noncommercial and in furtherance of an educational purpose, and which are of a broadcast nature but of interest primarily to limited segments of the station's audience. Illustrative services include: programs for presentation in classrooms; programs designed for special professional groups such as doctors, *lawyers and engineers; materials designed for special interest groups, including those of ethnic, safety and technical orientations and the handicapped;* and any use which would be permitted for a commercial FM station under § 73.293(a)(1), subject to the prohibitions against commercial operations and limitations as to purpose contained in this section and in § 73.503. *Uses under this subparagraph will not be considered "commercial" if there is charged either a per-course or per-pupil fee, where: (i) the material is presented by or for a bona fide educational institution; or if it is not, the licensee of the noncommercial educational FM station has investigated the material and deems it to be clearly of educational or public service value; (ii) the payment is made to the educational institution or the noncommercial educational FM stations; and (iii) the payments retained by the station licensee total no more than the approximate cost of conducting the SCA operation (including purchase or lease of equipment, course material, etc.) and general overhead and operational costs incidental to it. Where the material is presented by or for the educational institution, or other entity, the payments made to the station or directly to the institution or entry may also include the usual tuition fees charged for similar material presented otherwise.*

The modifications incorporated in the rule are for the purpose of insuring that the material broadcast for a fee, whether prepared by an educational institution, or not, is of an appropriate nature for educational SCA transmission, that the fee payment is made to the educational institution or other entity or to the station, and that the funds retained by the station licensee will not exceed the actual costs incurred by the station in the presentation of the program material.

4. Comments and reply comments, timely filed within the specified deadlines for those pleadings, of December 16, 1970, and January 6, 1971, respectively, were submitted by the following parties:

Comments. Bay Area Educational Television Association (KQED–FM) Corporation for Public Broadcasting (CPB) West Virginia Educational Broadcasting Authority National Association of Educational Broadcasters (NAEB) Educasting Systems, Inc.

Reply comments. Educasting Systems, Inc.

5. All of those commenting support an amendment of the rules of the nature proposed, but certain of the parties take some exception to the specific language employed.

6. CPB notes that in stipulating that fees may be charged "per course or per pupil" the proposed rule may be interpreted as allowing such fee imposition only "for SCA services constituting formal instruction", even though other language in the rule which requires that program material be "clearly of educational or public service value" suggests that the charging of fees for a broader range of services is permitted. It is CPB's conviction that SCA operation has great potential for the provision of program services designed for special interest groups, such as the blind, the aged, or other social, ethnic or minority groups, but that the potential is unlikely to be realized fully unless licensees are able to recover the costs incidental to SCA operation.

7. To clarify what it believes to be the intention of the proposed rule, to which it subscribes, CPB suggests that the portion of the text of the rule which states that "Uses under this subparagraph will not be considered 'commercial' if there is charged either a per-course or per-pupil fee * * *" be revised to read "Uses under this subparagraph will not be considered 'commercial' if there is charged a per-course, per-pupil or other fee * * *".

8. NAEB notes that while the last sentence of the proposed rule recognizes that the broadcast material may be presented by or for an educational institution or other entity, and payments may be made to the institution or entity, the alternative represented by the underlined language is omitted from paragraph (b) of the proposed rule, i.e., for consistency's sake, that (b) should be made to read "the payment is made to an educational institution or other entity or to the noncommercial educational FM station * * *".

9. The modifications suggested by CPB and NAEB are for the purpose of making more clear that the SCA program material for which a fee is charged need not necessarily be prepared by an "educational institution" if it is of educational or "public service value." The latter term causes the West Virginia Educational Broadcasting Authority some difficulty. It believes that while the educational station licensee would have little difficulty in determining whether a program offering has "educational value", "public service value" is an ill-defined term, and its employment as an alternative test of the eligibility of particular course material for the imposition of fees "could well be a source of abuse". It therefore suggests that this term be stricken, so that the sole criterion to be applied in determining whether a fee may be charged for program or course material, whether furnished by an educational institution or not, will involve the assessment of its "educational" value.

10. The comments strongly support rule amendments which would permit the imposition of charges for a rather broad range of services presented over the subcarrier of the noncommercial educational FM station. The rule which we are adopting is framed in accordance with this approach. However, on further consideration of all of the factors involved, we have found it necessary, if the public is not to be misled as to basic nature of the program material for which it is being asked to pay, that a clear distinction be drawn between those offerings prepared, sponsored, and supervised by an educational institution, constituting formal instructional or institutional credit material, and those programs which, while they may be of considerable value to their intended audience, do not have the imprimatur of an educational institution.

11. Accordingly, without limiting the freedom of action of the station to make charges for appropriate program material, we have redrafted the proposed rule to establish the distinction described above, and to require that the noncommercial educational FM station make clear for prospective subscribers to a program series or course of instruction the instrumentality primarily responsible for its preparation and presentation.

12. Since the rule which we are adopting differs substantially in structure from the one we had proposed, the specific changes in wording in the proposed rule suggested by the parties no longer has pertinence. However, we believe that the rule, as now revised, by establishing a separate category of programs, not presented under the auspices of an educational institution for which a charge may be made, provides the clarification of intent which the parties sought to achieve by their suggested changes.

13. *Accordingly, it is ordered,* That, effective August 13, 1973, Part 73 of the rules and regulations is amended as set forth in the Appendix below. Authority for this action is found in sections 4(i) and 303(r) of the Communications Act of 1934, as amended.

14. *It is further ordered,* That this proceeding is terminated.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Adopted: June 27, 1973.

Released: July 2, 1973.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

1. Section 73.593(a)(1) is amended to read as follows:

§ 73.593 Subsidiary communications authorizations.

(a) * * *.

(1) Transmission of programs which are noncommercial and in furtherance of an educational purpose, and which are of a broadcast nature but of interest primarily to limited segments of the station's audience. Typical services may include: programs for presentation in classrooms; programs designed for specific professional groups, such as doctors, lawyers, and engineers; programs intended to serve the special needs and interests of the aged, the handicapped, particular social and ethnic groups, and for those in a specific trade or sharing a common interest or hobby; programs for individualized remedial or advanced learning needs; and any use permitted for a commercial FM station under § 73.293(a)(1), subject to the prohibition against commercial operation and the limitation as to purpose contained in this section and in § 73.503, such limitation especially including those non-instructional services customarily provided by commercial firms. Uses permitted under this subparagraph will not be considered "commercial," when charges are made for the service rendered, under the circumstances and subject to the conditions set forth hereunder:

(i) A per-course, per-session, per-seminar, per-pupil or other appropriate fee is charged for formal or informal instructional material, presented by, with or for a bona fide educational institution. Payment of the fee shall be made to the noncommercial educational FM station or to the educational insti-

V 38-131 JUL 10 73 XUM

tution; such fee may include, in addition to the station expenses detailed in subdivision (iii), of this subparagraph, the usual tuition charged for similar material presented by other means.

(ii) A charge is made for a program or series of programs, informational or generally instructional in nature, intended to meet the special needs and interests of one or more of the groups the station is authorized to serve under its SCA. Payment of the charge shall be made to the noncommercial educational FM station.

(iii) Payments retained by the station shall total no more than the approximate cost of conducting the SCA operation (including purchase or lease of equipment, course material, personnel services, etc.) and the general overhead and operational costs attributable to such operation.

(iv) A noncommercial educational FM station offering program material subject to fee or other charge shall clearly indicate in any broadcast or printed solicitation to prospective enrollees whether the material falls into category subdivision (i) or (ii), of this subparagraph, so that informational and general educational materials are not represented as formal instructional or institutional credit programs.

* * * * *

[FR Doc.73-13976 Filed 7-9-73;8:45 am]

[Docket No. 19587; FCC 73-693]

PART 73—RADIO BROADCAST SERVICES

FM Broadcast Stations in Wellsboro, Pa.

Report and order. In the matter of amendment of § 73.202(b), *Table of assignments*, FM Broadcast Stations. (Wellsboro, Pennsylvania), Docket No. 19587, RM-1807.

1. The Commission here considers the notice of proposed rule making, adopted September 13, 1972 (FCC 72-817; 37 FR 19651), in this docket concerning possible amendment of the FM Table of Assignments (§ 73.202(b) of the Commission's rules and regulations) by substituting Class B Channel 283 for Channel 249A at Wellsboro, Pennsylvania. The only party commenting is the petitioner, Farm and Home Broadcasting Company (Farm and Home), licensee of AM Station WNBT (Class IV) and Station WGCR-FM, Wellsboro, Pennsylvania, which has also indicated its desire for modification of its license for WGCR-FM to specify operation on Channel 283 instead of 249A.

2. Wellsboro, population 4,003 [1], is the seat of Tioga County, Pennsylvania, population 39,691. Farm and Home's broadcast facilities at Wellsboro are the only ones licensed in Tioga County, which, as pointed out in the Notice, is a more or less isolated area made up of rural dwellings and small communities. The nearest substantial concentrations of population are Williamsport, Pennsylvania, 38 miles to the southeast, and three communities in New York—Elmira, 35 miles to the northeast; Corning, 30 miles north; and Olean 63 miles to the northwest. Petitioner asserts that Wellsboro, because of its central location, is the hub of commercial, governmental, and social activity of Tioga County and the general area. This includes seven employers with at least 150 employees; 77 retail establishments with sales of over $15 million of the total in Tioga County (381 with about $47 million)[2]; and Commonwealth Bank and Trust Company (assets in excess of $76 million) and Citizens and Northern National Bank & Trust Co. (over $54 million of assets) with multiple branches elsewhere are based there. Other economic data is set forth in the Notice, but we need not detail it here.

3. As pointed out in the Notice, the petitioner's principal contention is that Station WGCR-FM could serve substantially greater population than with its present maximum Class A facility. With a facility of 20 kw E.R.P. and 480 ft. A.A.T., Farm and Home showed that there would be a gain of service of 70,457 persons in an area of 1,888 square miles, in fact providing a first FM service to 3,750 persons in 176 square mile area and a second FM service to 15,922 persons in an area of 720 square miles.[3] Channel 283 may be assigned only to a small area including Wellsboro without changes elsewhere; if assigned there, preclusion to communities not already having FM assignments would occur on only Channels 280A and 285A, but Channels 249A or 261A may be assigned to such communities.

4. It would appear that the public interest, convenience and necessity would be served by assigning Channel 283 in lieu of 249A at Wellsboro, Pennsylvania. As indicated above, Channel 283 would be put to use whereas it might otherwise remain fallow; and its use can provide substantial additional service. In the latter respect, in order to assure a reasonable amount of first and second FM service, we are conditioning operation of a station on Channel 283 with 30 kw E.R.P. and 300 A.A.T. antenna height or equivalent[4]; see and compare Roanoke Rapids and Goldsboro, 9 F.C.C. 2d 672 (1967). The Canadian Department of Communications has agreed to this change pursuant to the Working Arrangement under the Canadian-U.S.A. FM Agreement of 1947. Assignment of the channel meets our spacing requirements.

5. Authority for the actions proposed herein is contained in sections 4(i), 303(g) and (r), 307(b), and 316 of the Communications Act of 1934, as amended.

6. In accordance with the foregoing: *It is ordered*, That the FM Table of Assignments (§ 73.202(b) of the Commission's Rules and Regulations) is amended, effective August 13, 1973, as concerns Wellsboro, Pennsylvania, as shown below:

City	Channel No.
Wellsboro, Pennsylvania	283*

*Any application for this channel must specify at least an effective radiated power of 30 kW and antenna height of 300 feet above average terrain or equivalent.

7. Farm and Home Broadcasting Company, having indicated its consent thereto: *It is further ordered*, That effective August 13, 1973, and pursuant to section 316(a) of the Communications Act of 1934, as amended, the outstanding license held by Farm and Home Broadcasting Company for Station WGCR-FM, Wellsboro, Pennsylvania, is modified to specify operation on Channel 283 in lieu of Channel 249A, subject to the following conditions:

(a) The licensee shall inform the Commission in writing by no later than July 23, 1973, of its acceptance of this modification.

(b) The licensee shall submit to the Commission by September 17, 1973, all necessary information complying with the applicable technical rules for modification of authorization to cover the operation of Station WGCR-FM on Channel 283 at Wellsboro, Pennsylvania.

(c) The licensee may continue to operate on Channel 249A under its outstanding authorization until it is ready to operate on Channel 283. Ten days prior to commencing operation on Channel 283, the licensee shall submit the same measurement data normally required in an application for an FM broadcast station license.

(d) Farm and Home Broadcasting Company shall not commence operation on Channel 283 until the Commission specifically authorizes it to do so.

8. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; 47 U.S.C. 154, 303, 307)

Adopted: June 27, 1973.

Released: July 2, 1973.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

[FR Doc.73-13977 Filed 7-9-73;8:45 am]

[73-694]

PART 73—RADIO BROADCAST SERVICES

PART 74—EXPERIMENTAL, AUXILIARY, AND SPECIAL BROADCAST AND OTHER PROGRAM DISTRIBUTIONAL SERVICES

Re-regulation of Radio Television Broadcasting

In the matter of Re-regulation of radio and television broadcasting.

[1] Population information is from the 1970 Census unless otherwise specified.

[2] For 1967.

[3] Farm and Home made another showing based on maximum facilities—a gain of service of 107,079 persons in a 2,816 square mile area with first and second service to 4,129 persons in a 272 square mile area and 29,904 persons in an area of 1,152 square miles, respectively. That showing was referred to in Paragraph 4 of the Notice.

[4] While Farm and Home made a showing based on a facility with 20 kw power and 480 feet antenna height, it did not commit itself to building at that height and power. We note that the latter would limit 1 mv/m service to an area slightly greater than the stated minimum; considering uniform terrain distance from the transmitter would be about 27 and 25 miles, respectively.

1. As a result of the continuing study by its Task Force on re-regulation of broadcasting, the Commission has under consideration the matter of amending certain provisions in Parts 73 and 74 of its rules and regulations.

2. The amendments up-date a number of rules, delete parts of others which are no longer applicable, and eliminate various requirements which are no longer necessary.

3. The following changes are made for the reasons indicated:

(a) Section 73.23(c) is amended to delete the provision for 250 watt daytime stations on local channels to operate beyond the hours specified in their licenses (upon notification to the Commission and its district Engineer in Charge).

(1) No such stations are currently licensed. It appears that none would be sought because an applicant would not restrict himself to daytime operation when he can operate unlimited time with 250 watts on a local channel.

(b) Section 73.23(e) is amended to permit any specified hours station operating on a local channel, except one which shares time, to operate beyond the hours specified in its license in order to carry special events programming. Such extended operation has been limited to specified hours stations on local channels with a power of not in excess of 250 watts.

(1) Since specified hours stations on local channels are engineered for nighttime operation, no objectionable interference would result from such extended operation.

(c) Section 73.23 (e) is amended also to make clear that a specified-hours station which operates nighttime beyond the hours specified in its license must use the station's authorized nighttime facilities.

(1) Previously, such provision was not expressly stated in the rule but was necessarily implied because prohibited interference could result from operating otherwise.

(d) Section 73.23(e) is amended also to delete the requirement that notification must be made to the Commission and its District Engineer in Charge when a specified hours station operates beyond the hours specified in its license.

(1) The station's operating and program logs are an adequate record of the carrying of this type of extended special-events programming.

(e) For clarification purposes, the phrase "to carry special events programming" is added to § 73.23(e) to define the programming which may be carried beyond the hours specified in such station's license.

(1) The rule has been administered in this context and is understood by the industry to mean programming of a special events nature.

(f) Each of the "Program Log" rules for AM, FM, Ed. FM and TV is amended to correct the reference therein to the number of the "Mechanical Reproduction" rule in accordance with which an entry must be made in the program log.

(1) By previous Order of November 1, 1972 (FCC 72-967), the "Mechanical Reproduction" rule for each of those services was deleted and a new rule, Section 73.1208, "Broadcast of Taped, Filmed or Recorded Material", was added to Subpart H, which is applicable to all broadcast services. Thus, in §§ 73.112(a)(4)(iv), 73.282(a)(4)(iv), 73.582(a)(2), and 73.670(a)(4)(iv) concerning program logs, the reference to §§ 73.118, 73.288, 73.588 and 73.653 is changed to 73.1208.

(g) Section 73.51(c)(2)(ii) is amended to make clear that the equipment performance measurements required therein are to be made at each power level at which the transmitter will be operated.

(1) As amended, the rule will reflect the manner in which it is administered, and any uncertainty generated by the cross-reference to § 73.47, contained therein, is eliminated.

(h) The provision in § 73.582(a)(2) for entry of the "sponsor's name" in the program log of noncommercial educational stations is changed to the "name of any donor announced pursuant to § 73.289."

(1) The term "donor" is more appropriate for noncommercial educational FM stations. Section 73.503(d) provides that such stations are subject to the provisions of § 73.289 (announcement of sponsored programs) to the extent that they are applicable to the broadcast of programs produced by, or at the expense of, or furnished by, others. The name of the donor announced pursuant to § 73.289 would be entered in the program log.

(i) References to political editorials in the title of § 73.598 and in the provisions of § 73.598(b) pertaining to Noncommercial Educational FM stations are deleted.

(1) Section 399 of the Communications Act of 1934, as amended, (added by Public Law 90-129, November 7, 1967), provides that "No noncommercial educational broadcasting station may engage in editorializing or may support or oppose any candidate for political office."

(j) Section 73.1207(c)(6) concerning prior approval of the Commission for rebroadcast of point-to-point messages originated by government and privately-owned non-broadcast stations is amended to provide for informal requests by telephone, followed within one week by written request and confirmation of consent by the originating station.

(1) The need to make provision for telephone requests for prior Commission approval was recently underscored by the earthquake in Nicaragua. During that disaster, a number of broadcast licensees and networks requested authority to rebroadcast point-to-point messages originated by privately-owned non-broadcast stations. In situations of this type, the time element frequently precludes the submission of written requests for prior approval of the Commission heretofore required by the rule.

(k) Section 73.935(b) concerning Emergency Broadcast System operation is amended to correct references therein to number of the rules regarding rebroadcasts of programs.

(1) The rebroadcast rules for each of the services, AM, FM, Ed. FM and TV, were deleted by previous Order of November 1, 1972, and a new rule § 73.1207 was added to Subpart H, which is applicable to all such stations. Thus, references in 73.935(b) to §§ 73.121(b) and (d), 73.219(b) and (d), 73.591(b) and (c), and 73.655(b) and (c) are changed to § 73.1207.

(1) Sections 74.13 and 74.14 are amended to delete the requirements that notification must be given to the Commission and its District Engineer in Charge when a permittee begins equipment tests (§ 74.13(a), (b), (c), (d)) or program tests (§ 74.14(a), (b), (c), (d)) on any class of broadcast station listed in Part 74 (Experimental TV, Experimental Facsimile, Developmental, Remote Pickup, Aural STL and Intercity Relay, TV Auxillary, TV Translators, Instructional Fixed, FM Translators and Boosters).

(1) Such notifications are no longer needed or useful for administrative purposes, and elimination of the requirement relieves both the permittee and the Commission of an unnecessary paperwork burden.

4. Amendments hereby adopted are editorial revisions, deletions, corrections and relaxations of existing rule provisions which we consider no longer necessary. They also conform language of certain rule provisions to established Commission policy and practice. We believe that they will inure to the benefit of many and to the detriment of none. We conclude that adoption of the amendments will better serve the public interest. Therefore, prior notice of rule making and public procedure thereon are unnecessary, pursuant to the Administrative Procedure and Judicial Review provisions of 5 U.S.C. 533(b)(3)(B).

5. *Therefore, it is ordered*, That, pursuant to sections 4(i) and 303 (j) and (r) of the Communications Act of 1934, as amended, Parts 73 and 74 of the Commission's rules and regulations are amended as set forth in the attached Appendix below, effective August 13, 1973.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Adopted: June 27, 1973.

Released: July 2, 1973.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

1. Section 73.23(c) and (e) are amended to read as follows:

§ 73.23 Time of operation of the several classes of stations.

* * * * *

(c) Daytime permits operation during the hours between average monthly local sunrise and average monthly local sunset.

* * * * *

(e) Specified hours means that the exact operating hours are specified in the license. (The minimum hours that any station shall operate are specified in § 73.71.) Specified hours stations operat-

V38-131-JUL 10 73 XUM

ing on local channels, except those sharing time with other stations may operate at hours beyond those specified in their licenses to carry special events programing. To the extent that such operation is conducted during the nighttime hours, the station's authorized nighttime facilities must be used.

2. Section 73.51(c)(2)(ii) is amended to read as follows:

§ 73.51 Antenna input power: how determined.

. . . . . .

(c) * * *

(2) * * *

(ii) Where the proposed transmitter power output level(s) is less than 90 percent of nominal power, equipment performance measurements, as specified in § 73.47, conducted at each proposed power output level; in addition, the measurements and observations required by § 73.47(a)(1), (2), (3) and (5) for power output levels 10 percent above, and 10 percent below, the proposed output level(s), but at a modulation level of 95 to 100 percent only. Such measurements must demonstrate that, operating at the proposed power output level(s), the transmitter meets the performance requirements of § 73.40.

. . . . . .

3. Section 73.112 is amended to read as follows:

§ 73.112 Program log.

(a) * * *

(4) * * *

(iv) An entry showing that broadcast of taped, filmed, or recorded material has been made in accordance with the provisions of § 73.1208.

. . . . . .

4. Section 73.282 is amended to read as follows:

§ 73.282 Program log.

(a) * * *

(4) * * *

(iv) An entry showing that broadcast of taped, filmed, or recorded material has been made in accordance with the provisions of § 73.1208.

. . . . . .

5. Section 73.582 is amended to read as follows:

§ 73.582 Program log.

(a) * * *

(2) An entry briefly describing each program broadcast, such as "music", "drama", "speech", etc. together with the name or title thereof and the name of any donor announced pursuant to Section 73.289, with the time of the beginning and ending of the complete program. In addition, an entry reflecting the use of any taped, filmed, or recorded material, in accordance with the provisions of § 73.1208. If a speech is made by a political candidate, the name and political affiliations of such speaker shall be entered.

. . . . . .

6. Section 73.598 and headnote are amended to read as follows:

§ 73.598 Personal attacks.

. . . . . .

(b) The provisions of paragraph (a) of this section shall not be applicable (1) to attacks on foreign groups or foreign public figures; (2) to personal attacks which are made by legally qualified candidates, their authorized spokesmen, or those associated with them in the campaign, on other such candidates, their authorized spokesmen, or persons associated with the candidates in the campaign; and (3) to bona fide newscasts, bona fide news interviews, and on-the-spot coverage of a bona fide news event (including commentary or analysis contained in the foregoing programs).

. . . . . .

7. Section 73.670 is amended to read as follows:

§ 73.670 Program log.

. . . . . .

(a) * * *

(4) * * *

(iv) An entry showing that broadcast of taped, filmed, or recorded material has been made in accordance with the provisions of § 73.1208.

. . . . . .

8. Section 73.935(b) is amended to read as follows:

§ 73.935 Day-to-day emergencies posing a threat to the safety of life and property; State-Level and Operational (local) Area-Level Emergency Action Notification.

. . . . . .

(b) Stations originating emergency communications under this section shall be deemed to have conferred rebroadcast authority, as required by section 325(a) of the Communications Act, and § 73.1207 (a) and (b) of the Commission's rules and regulations.

9. Section 73.1207 is amended to read as follows:

§ 73.1207 Rebroadcast.

. . . . . .

(b) No broadcasting station shall rebroadcast the program, or any part thereof of another U.S. broadcasting station without the express authority of the originating station. A copy of the written consent of the licensee originating the program shall be kept by the licensee of the station rebroadcasting such program and shall be made available to the Commission upon request. Stations originating emergency communications under a Detailed State EBS Operational Plan, shall be deemed to have conferred rebroadcast authority on other participating stations. The broadcasting of a program relayed by a remote pickup broadcast station (§ 74.401 of this chapter) is not considered a rebroadcast.

(c) The rebroadcast of time signals originated by the Naval Observatory and the National Bureau of Standards is permitted without further Commission authorization under the conditions set forth in Note 1 to this paragraph. The rebroadcast of National Weather Service (NWS) transmissions is permitted without further Commission authorization under the conditions set forth in Note 2 to this paragraph. Programs originated by the Voice of America (VOA) and the American Forces Radio and Television Service (AFRTS) cannot, in general, be cleared for domestic rebroadcast, and may therefore be rebroadcast only by special arrangement among the parties concerned. Except as otherwise provided by international agreement, programs originated by foreign broadcasting stations may be rebroadcast without the consent of the originating station. In the case of retransmissions of subcarrier background music and other FM multiplex subscription services, permission must first be obtained from the originating station. The retransmission of point-to-point messages originated by government and privately owned non-broadcast stations must be authorized by the Commission prior to retransmission; such authority may be requested informally by telephone, to be followed within one week with a written confirmation accompanied by the written consent of the originating station.

. . . . . .

10. Section 74.13 is amended to read as follows:

§ 74.13 Equipment tests.

(a) During the process of construction of any class of radio station listed in this part, the permittee, without further authority of the Commission, may conduct equipment tests for the purpose of such adjustments and measurements as may be necessary to assure compliance with the terms of the construction permit, the technical provisions of the application therefor, the technical requirements of this chapter, and the applicable engineering standards.

(b) Equipment tests may be continued so long as the construction permit shall remain valid.

(c) The authorization for tests embodied in this section shall not be construed as constituting a license to operate.

11. Section 74.14 is amended to read as follows:

§ 74.14 Service or program tests.

(a) Upon completion of construction of a radio station in accordance with the terms of the construction permit, the technical provisions of this chapter, and applicable engineering standards, and when an application for station license has been filed showing the station to be in satisfactory operating condition, the permittee of any class of station listed in this part may, without further authority of the Commission, conduct service or program tests.

(b) Program test authority for stations authorized under this Part will continue valid during Commission consideration of the application for license and during this period further extension of the construction permit is not required. Program test authority shall be automatically terminated with final action on the application for station license.

(c) The authorization for tests embodied in this section shall not be construed as approval by the Commission of the application for station license.

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[Ex Parte No. 246 (Sub-No. 1)]

PART 1002—FEES

Regulations Governing Fees for Services Performed in Connection With Licensing and Related Activities

At a General Session of the INTERSTATE COMMERCE COMMISSION, held at its offices in Washington, D.C., on the 3rd day of July, 1973.

Upon consideration of section 11 of Public Law 92-463, Federal Advisory Committee Act of 1972, 86 Stat. 770 which requires, as pertinent, that except in described situations Federal agencies and advisory committees make available at actual cost of duplication copies of transcripts of agency proceedings or advisory committee meetings; of the draft guidelines implementing the above described statutory requirements circulated by the Office of Management and Budget on May 14, 1973; of the Commission's notice of proposed rulemaking issued in this proceeding on May 11, 1973, 38 FR 13032, promulgating regulations to implement the Commission's responsibilities under the newly enacted statute; and of the comments submitted in response to said notice by the Department of Transportation on June 15, 1973, and by the Maryland Port Administration and The Chicago Board of Trade, each submitted on June 20, 1973; and

It appearing that the Department of Transportation has suggested (1) that in determining the amount to be charged by the Commission's official reporter for copies of transcripts, a maximum amount per page of copy should be established; (2) that certain amendments should be made in that portion of the proposed regulation dealing with requests for expedited delivery of transcript copies; (3) that procedures for obtaining copies of non-current transcripts and those prepared prior to July 1, 1973, should be established; (4) that interested persons should be allowed, as a minimum, to duplicate portions of transcript on the coin-operated copying machine available at the Commission's offices; and (5) that the time for delivery of "regular" or non-expedited transcript copies should be reduced from 10 to 5 days;

It further appearing that section 11(a) of the Federal Advisory Committee Act of 1972 provides that "Except where prohibited by contractual agreements entered into prior to the effective date of this Act, agencies and advisory committees shall make available to any person, at actual cost of duplication, copies of transcripts of agency proceedings or advisory committee meetings." (Emphasis supplied.); and that the regulation proposed by the aforementioned notice of proposed rulemaking is entirely consistent with section 11(a) and with the pertinent implementing guidelines drafted by the Office of Management and Budget;

It further appearing, that the specificity sought by the Department of Transportation will be achieved by the addition to this Commission's fee regulation, of § 1002.1(1) hereinafter set forth;

It further appearing, that there is no current Commission policy which discourages the reproduction of current transcripts or portions thereof through use of coin operated machines, and that provision for reproduction of non-current transcripts is made in § 1002.1(d), (e), and (f) of this Commission's existing fee regulations;

And it further appearing that further public procedures on the revisions proposed by the Department of Transportation in this proceeding are unnecessary under section 553(b) of the Administrative Procedure Act, 5 U.S.C. 553, because due to the exigencies of time, the public interest requires that the regulations set forth below become effective on July 1, 1973.

Wherefore, and good cause appearing therefor:

It is ordered, That part 1002 of Chapter X of Title 49 of the Code of Federal Regulations be, and it is hereby, amended as follows:

(1) Section 1002.1(h) is revised to read as follows, and paragraph (i) is added to read as set forth below:

§ 1002.1 Fees for copying, certification, and services in connection therewith.

. . . . . .

(h) Transcript of testimony and of oral argument, or extracts therefrom, may be purchased by the public from the Commission's official reporter. Transcript will be furnished to the public at actual cost to the official reporter for making copies of the original transcript. This amount may include reasonable overhead and profit but may not include any of the original cost of the transcription. Transcript will be delivered within 14 calendar days after the close of each day's proceeding in Washington, D.C., and within 21 calendar days after the close of each day's proceeding held outside Washington, D.C. Any person seeking transcript on an expedited basis must file a petition with the Commission not later than 10 calendar days prior to the date of the hearing setting forth the pertinent information which necessitates expedited delivery. If a petition is granted, the transcript will be made available at actual cost of duplication to all interested members of the public. If, however, all petitions are denied, any person desiring "daily copy" will have to negotiate directly with the official reporter. The Commission will insure by contract that daily copy will be provided and that the rate charged will not exceed that applicable to the Commission for original transcript if such demand is made at least three days prior to the date of the hearing.

(i) Transcript of testimony and of oral argument, or extracts therefrom, may be purchased by the public from the Commission's official reporter, the Metropolitan Reporting Service, Inc., Suite 210, 7676 New Hampshire Avenue, Langley Park, Md. 20783. Transcripts will be furnished to the public at the following maximum rates per page of approximately 200 words:

18 cents per page for regular copy, 24¢ per page for daily copy, if approved by the Commission, and $5.25 per page for daily copy, if not approved by the Commission but three days' notice is given, for hearings or arguments held at Washington, D.C., and 30 cents per page for regular copy, 33¢ per age for daily copy, if approved by the Commission, and $6.75 for daily copy not approved by the Commission, for hearings or arguments held at points in the United States other than Washington, D.C., and other than the States of Alaska and Hawaii.

Application for copies and payment therefor should be made directly to the official reporter.

It is further ordered, That this order, to be effective on July 1, 1973, shall remain in effect until modified or revoked in whole or in part by further order of the Commission;

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Interstate Commerce Commission, Washington, D.C., and by filing a copy with the Director, Office of the Federal Register.

[Sec. 11, 86 Stat. 767, U.S.C.]

Also considered in the disposition of this matter was the petition filed by the Motor Carrier Lawyers Association.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

NOTE: This decision is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969.

[FR Doc.73-13993 Filed 7-9-73;8:45 am]

Title 50—Wildlife and Fisheries

CHAPTER I—BUREAU OF SPORT FISHERIES AND WILDLIFE, FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 32—HUNTING

Ravalli National Wildlife Refuge, Montana

The following special regulations are issued and are effective on July 10, 1973.

32.5 Special regulations; migratory game birds.

MONTANA

RAVALLI NATIONAL WILDLIFE REFUGE

The hunting of ducks, geese and coot will be permitted on portions of the Ravalli National Wildlife Refuge in accordance with the following additional special conditions:

V38-131-JUL 10 73 XUM

1. Boats are not permitted.
2. All hunters much check in and out at checking stations.
3. Hunters must be within ten feet of designated blind sites while attempting to take and taking of waterfowl game birds.
4. Blind sites will be limited to five hunters each.
5. A designated area will be open to the taking of ducks, geese and coot by means of falconry from the opening of the migratory waterfowl season through November 25. No firearms may be carried in this area.

The hunting area is designated by signs and delineated on maps available at refuge headquarters, No. 5 Third Street, Stevensville, Montana, and from the Area Manager, Bureau of Sport Fisheries and Wildlife, 711 Central Avenue, Billings, Montana.

MONTANA

RAVALLI NATIONAL WILDLIFE REFUGE

The taking of white-tailed deer by bow and arrow will be permitted on designated areas by means of archery only from September 8 through November 25 in accordance with all applicable state regulations, and with the following additional special conditions:

1. All hunters must check in and out at checking stations.
2. No firearms may be carried in this area.

This hunting area will be designated by signs and delineated on maps available at refuge headquarters, No. 5 Third Street, Stevensville, Montana, and from the Area Manager, Bureau of Sport Fisheries and Wildlife, 711 Central Avenue, Billings, Montana.

The provisions of these special regulations supplement the regulations which govern hunting on wildlife refuge areas generally and which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through June 30, 1974.

R. C. TWIST,
Refuge Manager, Ravalli National Wildlife Refuge, Stevensville, Montana.

JULY 2, 1973.

[FR Doc.73-13964 Filed 7-9-73;8:45 am]

Title 28—Judicial Administration

CHAPTER I—DEPARTMENT OF JUSTICE

[Order 520-73]

DRUG ENFORCEMENT ADMINISTRATION

Reorganization Plan No. 2 of 1973, which becomes effective on July 1, 1973, provides for the strengthening and streamlining of the Federal drug law enforcement effort. It establishes within the Department of Justice a Drug Enforcement Administration and abolishes the Bureau of Narcotics and Dangerous Drugs, Executive Order No. 11727 of July 6, 1973, authorizes the Attorney General to reassign the functions of the Office for Drug Abuse Law Enforcement and the Office of National Narcotics Intelligence and to provide for the abolishment of those Offices. The purpose of this order is to implement the Reorganization Plan and the Executive order.

By virtue of the authority vested in me by 28 U.S.C. 509, 510, 5 U.S.C. 301, Reorganization Plan No. 1 of 1968, Reorganization Plan No. 2 of 1973, and the Comprehensive Drug Abuse Prevention and Control Act of 1970, *it is hereby ordered*, That 28 CFR chapter I be amended as follows:

PART 0—ORGANIZATION OF THE DEPARTMENT OF JUSTICE

§ 0.1 [Amended]

1. Section 0.1 of Subpart A of Part 0 of Chapter 1 of Title 28, Code of Federal Regulations, which lists the organizational units of the Department, is amended by substituting "Drug Enforcement Administration" for "Bureau of Narcotics and Dangerous Drugs."

§§ 0.11, 0.12 [Revoked]

2. Section 0.11 of Subpart B, relating to the Office for Drug Abuse Law Enforcement, is revoked.

3. Section 0.12 of Subpart B, relating to the Office of National Narcotics Intelligence, is revoked.

§ 0.55 [Amended]

4. Section 0.55 of Subpart K, which sets forth functions of the Criminal Division, is amended by adding the following paragraph (s) at the end thereof:

(s) All legal functions performed by the Office for Drug Abuse Law Enforcement prior to its abolishment.

§ 0.76 [Amended]

5. Section 0.76 of Subpart 0 is amended by substituting "Drug Enforcement Administration" for "Bureau of Narcotics and Dangerous Drugs" in paragraphs (a)(7), (c)(2) and (4), and (h).

6. The heading and text of Subpart R are revised to read as follows:

Subpart R—Drug Enforcement Administration

Sec.
0.100 General functions.
0.101 Specific functions.
0.103 Release of information.
0.104 Redelegation of authority.

AUTHORITY: 5 U.S.C. 301, 28 U.S.C. 509, 510.

§ 0.100 General functions.

Subject to the general supervision and direction of the Attorney General, the following described matters are assigned to, and shall be conducted, handled, or supervised by, the Administrator of the Drug Enforcement Administration:

(a) Functions vested in the Attorney General by sections 1 and 2 of Reorganization Plan No. 1 of 1968.

(b) Functions vested in the Attorney General by the Comprehensive Drug Abuse Prevention and Control Act of 1970.

(c) Functions vested in the Attorney General by section 1 of Reorganization Plan No. 2 of 1973 and not otherwise specifically assigned.

§ 0.101 Specific functions.

Subject to the general supervision and direction of the Attorney General, the Administrator shall be responsible for:

(a) The development and implementation of a concentrated program throughout the Federal Government for the enforcement of Federal drug laws and for cooperation with State and local governments in the enforcement of their drug abuse laws.

(b) The development and maintenance of a National Narcotics Intelligence System in cooperation with Federal, State, and local officials, and the provision of narcotics intelligence to any Federal, State, or local official that the Administrator determines has a legitimate official need to have access to such intelligence.

§ 0.103 Release of information.

(a) The Administrator of DEA is authorized—

(1) To release information obtained by DEA and DEA investigative reports to Federal, State, and local officials engaged in the enforcement of laws related to controlled substances.

(2) To release information obtained by DEA and DEA investigative reports to Federal, State, and local prosecutors, and State licensing boards, engaged in the institution and prosecution of cases before courts and licensing boards related to controlled substances.

(3) To authorize the testimony of DEA officials in response to subpoenas issued by the prosecution in Federal, State, or local criminal cases involving controlled substances.

(b) Except as provided in paragraph (a) of this section, all other production of information or testimony of DEA officials in response to subpoenas or demands of courts or other authorities is governed by Subpart B of Part 16 of this chapter. However, it should be recognized that Subpart B is not intended to restrict the release of noninvestigative information and reports as deemed appropriate by the Administrator of DEA. For example, it does not inhibit the exchange of information between governmental officials concerning the use and abuse of controlled substances as provided for by section 503(a)(1) of the Controlled Substances Act (21 U.S.C. 873(a)(1)).

§ 0.104 Redelegation of authority.

The Administrator of the Drug Enforcement Administration is authorized to redelegate to any of his subordinates any of the powers and functions vested in him by this Subpart R.

§ 0.132 [Amended]

7. Paragraph (c) of § 0.132 of Subpart W is revoked.

§§ 0.138—0.146, §§ 0.149—0.155 and § 0.159 [Amended]

8. Subpart X is amended by substituting "Administrator of the Drug Enforcement Administration" for "Director of the Bureau of Narcotics and Dangerous Drugs" each place the latter appears in §§ 0.138, 0.139, 0.140, 0.141, 0.142, 0.143, 0.144, 0.145, 0.146, 0.149, 0.150, 0.151, 0.152, 0.153, 0.154, 0.155, and 0.159.

§ 0.147 [Amended]

9. Section 0.147 of Subpart X is amended by substituting "for the Drug Enforcement Administration, the Director of Administration and Management" for "for the Bureau of Narcotics and Dangerous Drugs, the Assistant Director for Administration."

§ 0.148 [Amended]

10. Section 0.148 of Subpart X is amended by substituting "for the Drug Enforcement Administration, the Administrator" for "for the Bureau of Narcotics and Dangerous Drugs, the Director."

§ 0.172 [Amended]

11. Section 0.172 of Subpart Y is amended by substituting "Administrator of the Drug Enforcement Administration" for "Director of the Bureau of Narcotics for Dangerous Drugs," and by substituting "Drug Enforcement Administration" for "Bureau of Narcotics and Dangerous Drugs."

§ 0.175 [Amended]

12. Paragraph (a) § 0.175 of Subpart Z is amended by substituting the word "Administration" for "Bureau."

13. Paragraph (c) of § 0.175 is amended by substituting "Administrator of the Drug Enforcement Administration" for "Director of the Bureau of Narcotics and Dangerous Drugs," and by substituting the word "Administration" for "Bureau."

§ 0.176 [Amended]

14. Paragraph (a) of § 0.176 of Subpart Z is amended by substituting "Administrator of the Administration" for "Director of the Bureau."

§ 0.178 [Amended]

15. Paragraph (b) of § 0.178 of Subpart Z is revised to read as follows:

(b) The Administrator of the Drug Enforcement Administration is authorized to redelegate the authority delegated by this subpart to the Deputy Administrator of DEA, to be exercised solely during the absence of the Administrator from the City of Washington.

PART 9—REMISSION OR MITIGATION OF CIVIL FORFEITURES

§ 9.1 [Amended]

16. Section 9.1 of Part 9 of Chapter I of Title 28, Code of Federal Regulations, is amended by substituting "Drug Enforcement Administration" for "Bureau of Narcotics and Dangerous Drugs."

§ 9.4 [Amended]

17. Paragraph (a) of § 9.4 is amended by substituting "Administrator of the Drug Enforcement Administration, (DEA)" for "Director of the Bureau of Narcotics and Dangerous Drugs (BNDD)," and by substituting "regional administrator of DEA" for "regional director of BNDD."

18. Paragraph (b) of § 9.4 is amended by substituting "regional administrator of DEA" for "regional director of BNDD," and by substituting "Administrator of DEA" for "Director of BNDD."

19. Paragraph (c) of § 9.4 is amended by substituting "Administrator of DEA" for "Director of BNDD" and by substituting "DEA" for "BNDD."

20. Paragraph (e) of § 9.4 is amended by substituting "Administrator of DEA" for "Director of BNDD."

PART 9a—CONFISCATION OF PROPERTY, INCLUDING MONEY, USED IN AN ILLEGAL GAMBLING BUSINESS

§ 9a.7 [Amended]

21. Paragraph (b) of § 9a.7 of Part 9a, relating to confiscation of property, including money, used in an illegal gambling business, is amended by substituting the following for the list of officials under "Duties comparable to those of—

Administrator of the Drug Enforcement Administration.
Regional Administrator of the Drug Enforcement Administration.
Office of the Chief Counsel, Drug Enforcement Administration.
Chief Counsel or Deputy Chief Counsel, Drug Enforcement Administration.

22. All internal delegations, regulations, directives, and instructions in effect on June 30, 1973, with respect to the Bureau of Narcotics and Dangerous Drugs, the Office for Drug Abuse Law Enforcement and the Office of National Narcotics Intelligence shall remain in effect until revoked or modified by the Administrator of the Drug Enforcement Administration or other responsible Department official.

This order shall be effective as of July 1, 1973.

Dated: June 29, 1973.

ELLIOTT RICHARDSON,
Attorney General.

[FR Doc.73-13644 Filed 7-9-73;8:45 am]

[Directive 73-1]

PART 0—ORGANIZATION OF THE DEPARTMENT OF JUSTICE

Subpart R—Drug Enforcement Administration

APPENDIX; REDELEGATION OF FUNCTIONS

By virtue of the authority vested in me by the Attorney General in Order 520-73, the Appendix to Subpart R is hereby rescinded and replaced with the following:

Appendix to Subpart R

[Directive 73-1]

REDELEGATION OF FUNCTIONS

SEC. 1. *Scope of authority.* The authority delegated by this Directive is applicable to all officers and employees of the Drug Enforcement Administration. All regulations or other action made, prescribed, issued, granted or performed in respect of or by the agencies or functions affected by section 1 of Reorganization Plan No. 2 of 1973 shall, until rescinded, modified, superceded, or made inapplicable, have the same effect as if the reorganization had not been made. Except, that until further consideration may be given to establishing the course and methods by which the Drug Enforcement Administration's procedural, administrative and operational functions are channeled and carried out, all of the procedures, guidelines, regulations, manuals, papers, documents, forms, and reports previously utilized by the former Bureau of Narcotics and Dangerous Drugs shall be applicable to the functions of all units and employees of the Drug Enforcement Administration.

SEC. 2. *Supervisors and administrators.* All persons having supervisory and administrative authority in the agencies from which functions were transferred to the Drug Enforcement Administration by Order 520-73, will continue to exercise those authorities with full force and effect until further notified.

SEC. 3. *Enforcement officers.*

(a) All criminal investigators (series 1811 under Civil Service Commission regulations) are authorized to exercise all of the powers of enforcement personnel granted by 21 U.S.C. 876, 878 and 879; to serve subpoenas, administer oaths, examine witnesses, and receive evidence under 21 U.S.C. 875; to execute administrative inspection warrants under 21 U.S.C. 880; and to seize property under 21 U.S.C. 881.

(b) All compliance investigators (series 1810 under Civil Service Commission regulations) are authorized to administer oaths and serve subpoenas under 21 U.S.C. 875; to execute administrative inspection warrants under 21 U.S.C. 878(2) and 880; and to seize property incident to compliance and registration inspections and investigations under 21 U.S.C. 881.

(c) All Regional Administrators are authorized to sign and issue subpoenas under 21 U.S.C. 875 and 876; to conduct enforcement hearings under 21 U.S.C. 883 with the concurrence of the Acting Chief Counsel; and to take custody of and dispose of seized property in accordance with directions from the Administrator under 21 U.S.C. 881.

SEC. 4. *Legal functions.* The Acting Chief Counsel is authorized to exercise all necessary functions with respect to decisions on petitions under 19 U.S.C. 1618 for remission or mitigation of forfeitures incurred under 21 U.S.C. 881; to execute under seal any certification required to authenticate any documents pursuant to § 0.146 of title 28, Code of Federal Regulations; to adjust, determine, compromise, and settle any claims involving the Drug Enforcement Administration under 28 U.S.C. 2672, relating to tort claims where the amount of the proposed adjustment, compromise, settlement or award does not exceed $2,500; to formulate and coordinate the proceedings relating to the conduct of hearings under 21 U.S.C. 875, including the signing and issuance of subpoenas, examining of witnesses and receiving evidence; and to conduct enforcement hearings under 21 U.S.C. 883.

SEC. 5. *Import and export permits.* The Acting Chief, Registration and Audit Division is authorized to perform all

V 38 - 131 JUL 10 73 XUM

functions with respect to the issuance of importation and exportation permits for controlled substances under 21 U.S.C. 952 and 953, and all functions in regard to transshipments and in-transit shipments of controlled substances under 21 U.S.C. 954.

Dated July 1, 1973.

JOHN R. BARTELS, JR.,
Acting Administrator,
Drug Enforcement Administration.

Title 19—Customs Duties

CHAPTER I—BUREAU OF CUSTOMS, DEPARTMENT OF THE TREASURY

[T.D. 73-188]

PART 153—ANTIDUMPING

Synthetic Methionine from Japan

JULY 3, 1973.

Section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), gives the Secretary of the Treasury responsibility for determination of sales at less than fair value. Pursuant to this authority the Secretary of the Treasury has determined that synthetic methionine from Japan is being, or is likely to be, sold at less than fair value within the meaning of section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)). (Published in the FEDERAL REGISTER of February 15, 1973 (38 FR 4525).)

Section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), gives the United States Tariff Commission responsibility for determination of injury or likelihood of injury. The United States Tariff Commission has determined, and on May 14, 1973, it notified the Secretary of the Treasury that an industry in the United States is being injured by reason of the importation of synthetic methionine from Japan sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended. (Published in the FEDERAL REGISTER of May 18, 1973 (38 FR 13065).)

On behalf of the Secretary of the Treasury, I hereby make public these determinations, which constitute a finding of dumping with respect to synthetic methionine from Japan.

Section 153.43 of the Customs Regulations is amended by adding the following to the list of findings of dumping currently in effect:

Merchandise	Country	T.D.
Synthetic Methionine	Japan	73-188

(Secs. 201, 407, 42 Stat. 11, as amended, 18; 19 U.S.C. 160, 173.)

[SEAL] EDWARD L. MORGAN,
Assistant Secretary of the Treasury.

[FR Doc.73-14122 Filed 7-9-73;8:45 am]

Proposed Rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Rural Electrification Administration

[7 CFR Part 1701]

RURAL TELEPHONE FACILITIES

Proposed Revision in Specification for Telephone Station Protectors

Notice is hereby given that, pursuant to the Rural Electrification Act, as amended (7 U.S.C. 901 et seq.), including the amendment thereto enacted by P.L. 93-32, REA proposes to issue REA Bulletin 345-39 to announce a revision in REA Specification PE-42 for telephone station protectors. On issuance of REA Bulletin 345-39, Appendix A to Part 1701 will be modified accordingly.

Persons interested in the revision of PE-42 may submit written data, views or comments to the Director, Telephone Operations and Standards Division, Rural Electrification Administration, Room 1355, South Building, U.S. Department of Agriculture, Washington, D.C. 20250, on or before August 9, 1973. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Director, Telephone Operations and Standards Division during regular business hours.

A copy of the revision of REA Specification PE-42 may be secured in person or by written request from the Director, Telephone Operations and Standards Division.

The text of REA Bulletin 345-39 announcing the revision of the specification is as follows:

REA BULLETIN 345-39

SUBJECT: REA SPECIFICATION FOR TELEPHONE STATION PROTECTORS, PE-42

I. *Purpose.* To announce a revision in Paragraph 3.01 *Arrester Breakdown* of REA Specification for Telephone Station Protectors, PE-42.

II. *General.* The basic changes to the specification include the addition of surge voltage breakdown test requirements and a circuit diagram for use in dc breakdown tests.

III. *Availability of specification.* Copies of the revision of PE-42 will be furnished by REA upon request. Questions concerning the revision may be referred to the Chief, Station Equipment and Protection Branch, Telephone Operations and Standards Division, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250, telephone number 202 447-3173.

Dated: July 3, 1973.

H. A. SCHAFER, JR.,
Acting Assistant Administrator—Telephone.

Correction

In FR Doc. 73-12917 appearing at page 16911 in the issue of Wednesday, June 27, 1973, the effective date in the last line of the second paragraph, now reading "June 27, 1973", should read "July 27, 1973".

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 73-GL-27]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to designate a transition area at Hartford, Wisconsin.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018. All Communications received on or before August 9, 1973, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

A new public use instrument approach procedure has been developed for the Hartford Municipal Airport, Hartford, Wisconsin. Consequently, it is necessary to provide controlled airspace protection for aircraft executing this new approach procedure by designating a transition area at Hartford, Wisconsin. The new procedure will become effective concurrently with the designation of the transition area.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (38 FR 435), the following transition area is added:

HARTFORD, WISC.

That airspace extending upward from 700 feet above the surface within a 6.5 mile radius of the Hartford Airport (latitude 43°20'55"N., longitude 88°23'30"W.).

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Des Plaines, Ill., on June 12, 1973.

R. O. ZIEGLER,
Acting Director,
Great Lakes Region.

[FR Doc.73-13872 Filed 7-9-73;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 73-SW-36]

VOR AIRWAYS AND REPORTING POINTS

Proposed Alteration

The Federal Aviation Administration (FAA) is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter several VOR Federal Airways in the vicinity of Oklahoma City, Okla., and revoke those airways determined to be unnecessary.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southwest Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, P. O. Box 1689, Fort Worth, Tex. 76101. All communications received on or before August 9, 1973, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

V 38 I 131 JUL 10 73 XUM

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue, SW., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The proposed amendment would:

1. Realign V–272 in part from Oklahoma City, Okla., direct to McAlester, Okla.

2. Extend V–210 from Oklahoma City to Okmulgee, Okla., via INT Oklahoma City 109°T (100°M) and Okmulgee 244°T (236°M) radials.

3. Revoke V–15W between Ardmore, Okla., and Okmulgee.

4. Revoke V–163E between Ardmore and Oklahoma City.

Modification of the airway structure in the Oklahoma City Terminal Area will permit more flexible air traffic control, simplify flight planning and increase safety.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348 (a)) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D. C., on June 29, 1973.

CHARLES H. NEWPOL,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.73–13877 Filed 7–9–73;8:43 am]

[14 CFR Part 71]

[Airspace Docket No. 72–GL–54]

TRANSITION AREA

Withdrawal of Designation

On page 21855 of the FEDERAL REGISTER dated October 14, 1972, the Federal Aviation Administration published a notice of proposed rule making which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a transition area at Monticello, Indiana.

The proponent of the non-federal NDB is not able to establish the facility at this time. Consequently, the proposed designation is withdrawn.

Issued in Des Plaines, Ill., on June 22, 1973.

H. W. POGGEMEYER,
Acting Director, Great Lakes Region.

[FR Doc.73–13873 Filed 7–9–73;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 73–WA–14]

LAS VEGAS, NEVADA, TERMINAL CONTROL AREA

Proposed Establishment

The Federal Aviation Administration (FAA) is considering the adoption of a Group II terminal control area for Las Vegas, Nev. Rules for the control and segregation of all aircraft operated within terminal control areas are contained in Part 91, §§ 91.70 and 91.90 of the Federal Aviation Regulations. Further information concerning flight within TCAs is contained in FAA Advisory Circular AC No. 91–30 dated 6/11/70, Subject: Terminal Control Areas (TCAs).

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Western Region, Chief, Air Traffic Division, 1500 Aviation Boulevard, P.O. Box 92007, Worldway Postal Center, Los Angeles, Calif. 90009. All communications received on or before September 10, 1973, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue, SW., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The establishment of terminal control areas at 22 large hub airports was proposed in Notice 69–41 and supplemental notices thereto, and adopted on May 20, 1970 (35 FR 7782), to create a safer environment in those congested terminal areas. The need for TCAs has been well established, and a priority implementation schedule has been developed which is based on the air traffic congestion at each location, the capability of the terminal air traffic control facility to provide separation service to VFR aircraft, the experience gained from earlier established TCAs, and the publication dates of associated aeronautical charts.

The issue of whether or not to establish a TCA at each of the specified locations was decided as a result of Notice 69–41 and is not within the scope of this Notice. This Notice is intended to produce the input necessary to design an appropriate airspace configuration that can provide the safest environment with the least impact on the airspace users. TCAs have now been designated at all Group I locations, and this Notice proposes a configuration for a Group II TCA at Las Vegas, Nev.

On March 13, 1973, the Federal Aviation Administration held a meeting in Las Vegas with airspace user group representatives to consider their operational requirements. There were many objections expressed concerning Nellis AFB activity, the desire for a VFR corridor to provide free transit between North Las Vegas Airport and Lake Mead, possible future changes in transponder requirements, and the need for a TCA at Las Vegas. After considerable discussion on individual user objections and requirements, it was evident that an acceptable compromise on the TCA configuration could not be reached at this meeting. It was concluded that the Las Vegas TRACON, Nellis AFB, and other airspace users should each review their airspace requirements and attempt to develop changes that would be acceptable to all concerned. As a result of these reviews, the TRACON developed a revised proposal which reduced the size of the TCA by eliminating several portions along the perimeter, thus providing additional free airspace near North Las Vegas and Sky Harbor Airports.

A profile of approach and departure procedures at McCarran Airport and Nellis AFB was prepared to evaluate the feasibility of a VFR corridor. However, due to the runway configuration, the concentration of arrival and departure routes, and the altitudes involved, it is not practical nor realistic to include a VFR corridor through the Las Vegas TCA.

The local user groups held two meetings—March 20 and March 29, 1973—to discuss the TCA. At the March 29 meeting they discussed in detail the TRACON's revised proposal. The chairman of the group advised that the new proposal was acceptable. Subsequent to the meetings, it was determined that the high terrain north of Las Vegas made it impractical to include the area around Hayford Peak within the TCA. Therefore, this area has been deleted from the proposal submitted to the user groups.

In consideration of the foregoing and for reasons stated in Docket No. 9880 (35 FR 7782), it is proposed to amend Part 71 of the Federal Aviation Regulations by adding the following to 71.401 (b) Group II Terminal Control Areas.

LAS VEGAS, NEV., TERMINAL CONTROL AREA

PRIMARY AIRPORT

McCarran International Airport (Latitude 36°04'48"N., Longitude 115°09'08"W.).

Las Vegas VORTAC (Latitude 36°04'48" N., Longitude 115°09'08"W.)

Boundaries (Based on Las Vegas VORTAC (LAS) arcs, DME distances, and radials).

1. *Area A.* That airspace extending upward from the surface to and including 9,000 feet MSL within an area bounded by a line beginning at the 15-mile DME point on the LAS 005°T (350°M) radial, thence clockwise via the 15-mile arc to the 022°T (007°M) radial, thence direct to the 20-mile DME point on the 033°T (018°M) radial, thence northeast along the 033°T (018°M) radial to and southeast along the 22-mile arc to and southwest along the 046°T (031°M) radial to and south along the 10-mile arc to and northwest along the 150°T (135°M) radial to and counterclockwise along the 2-mile radius circle of Henderson Sky Harbor Airport (Lat. 35°58'35"N., Long. 115°07'55" W.) to and south along the 180°T (165°M) radial to and north along the 8-mile arc to and counterclockwise along the 2.5-mile radius circle of North Las Vegas Air Terminal (Lat. 36°12'17"N., Long. 115°11'42"W.) to and north along the 005°T (350°M) radial to the point of beginning.

2. *Area B.* That airspace extending upward from 4,500 feet MSL to and including 9,000 feet MSL within an area bounded by a line beginning at the 15-mile DME point on the LAS 075°T (060°M) radial thence clockwise along the 15-mile arc to and northwest along the 115°T (100°M) radial to and counterclockwise along the 10-mile arc to and east along the 075°T (060°M) radial to the point of beginning.

3. *Area C.* That airspace extending upward from 5,500 feet MSL to and including 9,000 feet MSL within an area bounded by a line beginning at the 15-mile point on the LAS 046°T (031°M) radial thence clockwise along the 15-mile arc to and west along the 075°T (060°M) radial to and counterclockwise along the 10-mile arc to and northeast along the 046°T (031°M) radial to the point of beginning.

4. *Area D.* That airspace extending upward from 6,500 feet MSL to and including 9,000 feet MSL bounded by a line beginning at the 20-mile DME point on the LAS 055°T (040°M) radial thence clockwise along the 20-mile arc to and west along the 115°T (100°M) radial to and counterclockwise along the 15-mile arc to and northeast along the 055°T (040°M) radial to the point of beginning.

5. *Area E.* That airspace extending upward from 6,000 feet MSL to and including 9,000 feet MSL bounded by a line beginning at the 10-mile DME point on the LAS 150°T (135°M) radial thence northwest along the 150°T (135°M) radial to and counterclockwise along the 2-mile radius circle of the Henderson Sky Harbor Airport to and south along the 180°T (165°M) radial to and counterclockwise along 15-mile arc to and northwest along the 115°T (100°M) radial to and clockwise along the 10-mile arc to the point of beginning.

6. *Area F.* That airspace extending upward from 7,000 feet MSL to and including 9,000 feet MSL within an area bounded by a line beginning at the 15-mile DME point on the LAS 155°T (140°M) radial thence southeast along the 155°T (140°M) radial to and clockwise along the 20-mile arc to and north along the 200°T (185°M) radial to and counterclockwise along the 15-mile arc to the point of beginning.

7. *Area G.* That airspace extending upward from 5,000 feet MSL to and including 9,000 feet MSL within an area bounded by a line beginning at the 8-mile DME point on the LAS 180°T (165°M) radial thence south along the 180°T (165°M) radial to and clockwise along the 15-mile arc to and northeast along the 235°T (220°M) radial to and counterclockwise along the 8-mile arc to the point of beginning.

8. *Area H.* That airspace extending upward from 5,500 feet MSL to and including 9,000 feet MSL within an area bounded by a line beginning at the 8-mile DME point on the LAS 275°T (260°M) radial thence counterclockwise along the 8-mile arc to and southwest along the 235°T (220°M) radial to and clockwise along the 15-mile arc to and east along the 275°T (260°M) radial to the point of beginning.

9. *Area I.* That airspace extending upward from 4,000 feet MSL to and including 9,000 feet MSL within an area bounded by a line beginning at the 15-mile DME point on the LAS 005°T (350°M) radial thence south along the 005°T (350°M) radial to and clockwise along the 2.5-mile radius circle of North Las Vegas Air Terminal to a point on U.S. Highway 95 2.5 miles northwest of North Las Vegas Air Terminal thence northwest along U.S. Highway 95 to and clockwise along a 15-mile arc to the point of beginning.

10. *Area J.* That airspace extending upward from 6,500 feet MSL to and including 9,000 feet MSL within an area bounded by a line beginning at the 20-mile DME point on the LAS 033°T (018°M) radial thence direct to the 15-mile DME point on the LAS 022°T (007°M) radial thence west along the 15-mile arc to and northwest along U.S. Highway 95 to and clockwise along the 20-mile arc to the point of beginning.

11. *Area K.* That airspace extending upward from 7,500 feet MSL to and including 9,000 feet MSL bounded by a line beginning at the 36-mile DME point on the LAS 033°T (018°M) radial thence southwest along the LAS 033°T (018°M) radial to and counterclockwise along the 20-mile arc to U.S. Highway 95 direct to the 36-mile DME point on the 005°T (350°M) radial thence clockwise along the 36-mile arc to the point of beginning.

12. *Area L.* That airspace extending upward from 7,000 feet MSL to and including 9,000 feet MSL within an area bounded by a line beginning at the 36-mile DME point on the LAS 055°T (040°M) radial thence southwest along the 055°T (040°M) radial to and counterclockwise along the 15-mile arc to and northeast along the 046°T (031°M) radial to and counterclockwise along the 28-mile arc to and northeast along the 033°T (018°M) radial to and clockwise along the 36-mile arc to the point of beginning.

13. *Area M.* That airspace extending upward from 5,000 feet MSL to and including 9,000 feet MSL within an area bounded by a line beginning at the 28-mile DME point on the LAS 046°T (031°M) radial thence southwest along the 046°T (031°M) radial to and counterclockwise along the 22-mile arc to and northeast along the 033°T (018°M) radial to and clockwise along the 28-mile arc to the point of beginning.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U. S. C. 1348(a)) and section 6(c) of the Department of Transportation Act (49 U. S. C. 1655(c)).

Issued in Washington, D.C., on July 2, 1973.

CHARLES H. NEWPOL,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.73–13878 Filed 7–9–73;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 73–EA–50]

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending §§ 71.171 and 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the Bradford, Pa., control zone (38 FR 360) and transition area (38 FR 453).

Revision of the NDB and ILS instrument approach procedures for Bradford Regional Airport and a review of the terminal airspace requirements for the Bradford, Pa. terminal area indicates that alteration of the control zone and transition area will be required to provide controlled airspace in consonance with Terminal Instrument procedures (TERPS).

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attn: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York 11430. All communications received on or before August 9, 1973, will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Bradford, Pennsylvania, proposes the airspace action hereinafter set forth:

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations by deleting the description of the Bradford, Pa. control zone and by substituting the following in lieu thereof:

Within a 5-mile radius of the center 41°-48'09" N., 78°38'27" W. of Bradford Regional Airport, Bradford, Pa.; within 3.5 miles each side of the Bradford, Pa. VORTAC 139° radial, extending from the VORTAC to 10 miles southeast of the VORTAC.

2. Amend § 71.181 of Part 71 of the Federal Aviation Regulations by deleting the description of the Bradford, Pa. transition area and by substituting the following in lieu thereof:

That airspace extending upward from 700 feet above the surface within a 12-mile radius of the center, 41°48'09" N., 78°38'27" W., of Bradford Regional Airport, Bradford, Pa.; within 3.5 miles each side of the Bradford Regional Airport ILS localizer southeast course, extending from the OM to 11.5 miles southeast of the OM; within 5 miles each side of the Bradford, Pa. VORTAC 139° radial, extending from the VORTAC to 11.5 miles southeast of the VORTAC; within 5 miles each side of the Bradford, Pa. VORTAC 316° radial, extending from the VORTAC to 18.5 miles northwest of the VORTAC.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Jamaica, N.Y., on June 20, 1973.

R. M. BROWN,
Acting Director, Eastern Region.

[Airspace Docket No. 73–SO–6]

CONTROL AREAS AND JET ROUTES

Proposed Designation

The Federal Aviation Administration (FAA) is considering amendments to Parts 71 and 75 of the Federal Aviation Regulations that would designate three new over-water jet routes within the offshore area along the Atlantic Coast between North Carolina and southern Florida.

Interested persons are invited to participate in the proposed rule making by submitting such written data, views, and arguments as they may desire. Communications should identify the airspace docket number and be submitted in trip-

V 38-131 JUL 10 73 XUM

licate to the Director, Southern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Ga. 30320. All communications received on or before August 9, 1973 will be considered before action is taken on the proposed amendments. The proposals contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue, SW., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

As parts of these proposals relate to the navigable airspace outside the United States, this notice is submitted in consonance with the ICAO International Standards and Recommended Practices.

Applicability of International Standards and Recommended Practices, by the Air Traffic Service, FAA, in areas outside domestic airspace of the U.S. is governed by Article 12 of and Annex 11 to the Convention on International Civil Aviation, which pertain to the establishment of air navigation facilities and services necessary to promoting the safe, orderly and expeditious flow of civil air traffic. Their purpose is to insure that civil flying on international air routes is carried out under uniform conditions designed to improve the safety and efficiency of air operations.

The International Standards and Recommended Practices in Annex 11 apply in those parts of the airspace under the jurisdiction of a contracting state, derived from ICAO, wherein air traffic services are provided and also whenever a contracting state accepts the responsibility of providing air traffic services over high seas or in airspace of undetermined sovereignty. A contracting state accepting such responsibility may apply the International Standards and Recommended Practices to civil aircraft in a manner consistent with that adopted for airspace under its domestic jurisdiction.

In accordance with Article 3 of the Convention on International Civil Aviation, Chicago, 1944, state aircraft are exempt from the provisions of Annex 11 and its Standards and Recommended Practices. As a contracting state, the U.S. agreed by Article 3(d) that its state aircraft will be operated in international airspace with due regard for the safety of civil aircraft.

Since these actions involve, in part, the designation of navigable airspace outside the United States, the Administrator has consulted with the Secretary of State and the Secretary of Defense in accordance with the provisions of Executive Order 10854.

The FAA proposes the following airspace rule making actions:

1. a. Designate a numbered control area from the Carolina Beach, N.C., radio beacon direct to the Rubin radio beacon at Palm Beach, Fla., including the airspace within parallel lines 5 nautical miles each side of the centerline and the airspace between lines diverging at 5 degree angles from the centerline from each side of the radio beacons, extending to their point of intersection 300 NM south-southwest of the Carolina NDB; excluding the airspace at and below 23,000 feet MSL north of—and below 2,000 feet south of—the Orlando, Fla., VORTAC 071°T (071°M) radial, and above FL 450.

b. Designate Jet Route No. 141 from the Rubin radio beacon at Palm Beach, Fla., to the Carolina Beach, N.C., radio beacon to the Wilmington, N.C. VORTAC.

c. Use of this route will be based on military/Federal Aviation Administration agreements (joint-use airspace concept), since a portion of the route is within parts of several warning areas.

2. a. Designate a numbered control area from Bimini, Bahamas NDB direct toward Lat. 34°42'28'' N., Long. 77°08'11'' W. (approximate location of proposed NDB) until intercepting a 290°T bearing to the Ashley, S.C., NDB, thence direct to Lat. 34°44'00'' N., Long. 77°36'00'' W. (approximate location of proposed VORTAC); including the airspace within 5 nautical miles each side of the centerline and the airspace between lines diverging at 5 degree angles from the centerline from the Bimini NDB extending northward to the point of intersection of 5 degree angle lines from the proposed NDB at Lat. 34°42'28'' N., Long. 77°08'11'' W., and the airspace between these lines northward to the point of intersection of a 290°T bearing to the Ashley NDB, and the airspace between 4.5 degree lines projected southward from the proposed VORTAC location at Lat. 34°44'00'' N., Long. 77°36'00'' W., and the airspace between these lines northward to a point 51 nautical miles south of the proposed VORTAC, and from this point the airspace 4 nautical miles each side of the route centerline to the proposed VORTAC. Exclude the airspace below 7,000 feet MSL within the Nassau, Bahamas, control area and at and below 23,000 feet MSL north of—and below 2,000 feet MSL south of—the Orlando, Fla., VORTAC 071°T (071°M) radial, and above FL 450.

b. Designate a jet route that begins at Lat. 27°00'00''N., on a line direct between the Bimini NDB toward the proposed NDB location to a point 290°T bearing to Ashley NDB; then direct to the proposed VORTAC location in N.C.

c. Use of altitudes FL 300 and below on this route north of the 290°T bearing to Ashley NDB will be based on military/Federal Aviation Administration agreement (joint-use airspace concept), since a portion of this route segment is within W–122.

3.a. Designate a numbered control area that begins at Lat. 27°00'00''N., extending north along a line direct between the Nassau, Bahamas NDB and Lat. 34°42'28''N., Long. 77°08'11''W. (approximate location of proposed NDB) until intercepting a 290°T bearing to the Ashley, S.C. NDB, thence direct to Lat. 34°44'00''N., Long. 77°36'00''W. (approximate location of proposed VORTAC); including the airspace between lines diverging at 5 degree angles from the centerline from the Nassau NDB extending northward to the point of intersection of 5 degree angle lines extending south from the proposed NDB at Lat. 34°42'00''N., Long. 77°07'30''W., and the airspace between these lines northward to the point of intersection of a 290°T bearing to the Ashley NDB and the airspace between 4.5 degree lines projected southward from the proposed VORTAC location at Lat. 34°44'00''N., Long. 77°36'00''W. and the airspace between these lines northward to a point 51 nautical miles south of the proposed VORTAC, and from this point the airspace 4 nautical miles each side of the route centerline to the proposed VORTAC. Exclude the airspace at and below 23,000 feet MSL north of—and below 2000 feet MSL south of—the Orlando, Fla., VORTAC 071°T (071°M) radial, and above FL 450.

b. Designate a jet route that begins at Lat. 27°00'00''N., extending north along a line direct between the Nassau NDB and the proposed NDB location, and north along that line to a point 290°T bearing to Ashley NDB; then direct to the proposed VORTAC location in N.C.

c. Use of altitudes FL 300 and below on this route north of the 290°T bearing to Ashley NDB will be based on military/Federal Aviation Administration agreement (joint-use airspace concept), since a portion of this route segment is within W–122.

4. Redesignate a portion of Jet Route No. 79 to align it from Norfolk, Va., VORTAC direct to the proposed VORTAC at Lat. 34°44'00''N., Long. 77°36'-00''W., direct to the Wilmington, N.C. VORTAC.

The proposed airspace actions are designed to improve and expedite movement of the increased volume of high altitude air traffic operating between southern Florida and northern terminals. The route proposed between Palm Beach, Fla., and Wilmington, N.C., would be used in conjunction with the route proposed between Bimini, Bahamas, the proposed VORTAC (east of Wilmington, N.C.) and would provide dual segregated routes from southern Florida to North Carolina. When the first route of this pair is not available, then the route between Nassau, Bahamas and the proposed VORTAC (east of Wilmington, N.C.) would be used in conjunction with present route Control 1150. This will provide dual segregated routes from southern Florida to North Carolina and serve as an alternative pair of routes.

Related nonrulemaking actions proposed would:

1. Establish on-request reporting points, as necessary, on the three routes proposed.

2. Establish appropriate radar/nonradar jet advisory service areas to serve the three routes when affected portion(s) of a route(s) are not being used by the military users.

3. Redefine W–122B, and W–122C to exclude—from the surface to unlimited—the airspace overlapped by the two proposed routes that would be based on the proposed VORTAC (east of Wilmington, N.C.).

4. Establish new W–122D, from the surface to and including FL 300, using airspace identical to the airspace proposed for exclusion from W–122B and W–122C.

5. Extend the eastern boundaries of W–122A, W–122B, and W–122C ten nautical miles to the southeast.

6. Establish new W–177B as the airspace bounded on the north by existing W–177; on the east by Control 1150; on the south by existing warning areas W–132, W–133 and W–134; on the west by a line 3 nautical miles from and parallel to the shoreline and extending vertically from the surface to and including FL 500.

7. Change existing W–177 to W–177A.

8. Move the New York and Miami Oceanic CTA/FIR boundaries (on the 77° meridian) eastward so as to include the numbered control area portion lying east of the 77° meridian of the proposed route between Nassau NDB and the proposed VORTAC in N. C.

Proposed nonrulemaking actions 3, 4, and 5 will not be made effective until the proposed new NDB and VORTAC facilities have been flight checked and commissioned, and the new routes have been established.

The two routes based on the proposed VORTAC would use appropriate altitudes above FL 300 up to and including FL 450 on a full-time basis. Altitudes FL 240–FL 300, inclusive, would be used consistent with the military/Federal Aviation Administration joint-use airspace concept.

Proposed W–177B will be operated similar to existing military/Federal Aviation Administration joint-use agreements for operation of W–158B and coinciding Control 1153.

Transition routes will be developed by air traffic control to shorten the southern portion of the route based on Bimini NDB and also for the route based on Nassau NDB. These transition routes will effect reductions in overall route distance for flights operating on these routes.

These amendments are proposed under the authority of sections 307(a) and 1110 of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1510), Executive Order 10854 (24 FR 9565) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on July 2, 1973.

CHARLES H. NEWPOL,
Acting Chief, Airspace and Air Traffic Rules Division.

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 1107]

[Ex. Parte No. 298]

RAILROAD RATE ADJUSTMENT ACT OF 1973

Requirements and Procedures

Notice of proposed rulemaking and order.[1] At a general session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 3d day of July 1973.

This proceeding is instituted in accordance with the provisions of subsection (4)(a) of section 15a of the Interstate Commerce Act (the act), added by the Railroad Rate Adjustment Act of 1973. Thereunder this Commission is directed to establish on or before August 1, 1973, requirements for the filing of petitions for adjustment of interstate rates of common carriers subject to part I of the Interstate Commerce Act to reflect increases in the expenses of such carriers resulting from any increases in taxes under the Railroad Retirement Tax Act, as amended, which occur on or before January 1, 1975, or as the result of the enactment of the Railroad Retirement Amendments of 1973. Such requirements are to be established pursuant to section 553 of the Administrative Procedure Act (5 USC 553), regarding notice and opportunity to participate, with time for comment limited so as to meet the required date for establishment of such requirements, and subject to future amendment or revocation.

Accordingly, the following requirements and procedures are proposed: That a new part 1107 be added as follows:

PART 1107—REQUIREMENTS AND PROCEDURES RELATING TO RAILROAD RATE ADJUSTMENT ACT OF 1973

Sec.
1107.1 Requirements.
1107.2 Notice.
1107.3 Commission order.

§ 1107.1 Requirements.

Petition or petitions filed by common carriers subject to part I of the Interstate Commerce Act under the provisions of subsection (4)(a) of section 15a of the act, for adjustment of their interstate rates when increases in the expenses of such carriers have or will result from any increases in taxes under the Railroad Retirement Tax Act, as amended, occurring on or before January 1, 1975, or as the result of the enactment of the Railroad Retirement amendments of 1973, shall be verified and shall disclose[2]:

(a) The amount of increases in expenses of such carriers resulting from any increases in taxes under the Railroad Retirement Tax Act, as amended, occurring on or before January 1, 1975, or as a result of the enactment of the Railroad Retirement Amendments of 1973, by showing—

(1) For the 12-month period ending sixty (60) days prior to the filing date of the petition, separated between freight and passenger operations, with the further separation between intercity and commutation service,

(i) The mid-month number of employees,

(ii) The total service hours by operating and other employees, as reported in I.C.C. Wage Statistics, Forms A and B,

(iii) The total compensation paid for operating and other employees, as reported in I.C.C. Wage Statistics, Forms A and B,

(iv) The retirement tax rates, and

(v) Retirement taxes paid;

(2) For the last quarter of 1973 and for each quarter of 1974, separated between freight and passenger operations, with the further separation between intercity and commutation service,

(i) The estimated mid-month number of employees,

(ii) The estimated total service hours by operating and other employees, as reported in I.C.C. Wage Statistics, Forms A and B,

(iii) The estimated total compensation paid for operating and other employees, as reported in I.C.C. Wage Statistics, Forms A and B,

(iv) The retirement tax rates,

(v) The estimated retirement taxes paid, and, in addition,

(vi) The dollar amount of tax increase resulting from the increased tax rates.

(b) The amount needed in increases in the general level of interstate rates by showing—

(1) For the 12-month period ending sixty (60) days prior to the filing of the petition, and separated between interstate and intrastate traffic, with the in-

[1] This notice and order of proposed rulemaking has been prepared although the Railroad Rate Adjustment Act of 1973 had not at the time been signed by the President. As indicated in the notice and order, under the terms of that Act, this Commission must establish on or before August 1, 1973, the requirements which are the subject of this proceeding.

[2] The data furnished should be individually by carrier, summarized by district, and nationwide; the methods used to derive the estimates must be reflected, including assumptions used, and all underlying work papers must be made available to the Commission upon request.

V 38 I 131 JUL 10 73 XUM

terstate traffic summarized by interterritorial and territorial movements (official, southern, and western), and the intrastate traffic summarized by State,

(i) The freight revenue ton-miles,

(ii) The freight revenues based on rate levels in effect at the time of the filing of the petition:

(2) For the last quarter of 1973 and for each quarter of 1974, separated between interstate and intrastate traffic, with the interstate traffic summarized by interterritorial and territorial movements (official, southern, and western), and the intrastate traffic summarized by State.

(i) The estimated freight revenue ton-miles.

(ii) The estimated freight revenues based on rate levels in effect at the time of the filing of the petition, and

(iii) The estimated freight revenues to be obtained from the increases proposed, including the effect on the movement of the traffic.

(c) The availability of means other than a rate increase by which carriers might absorb or offset such increases in expenses, identifying the means considered.

§ 1107.2 Notice.

Notice of the filing of such a petition will be given to the general public by publication of such a notice in the Federal Register.

§ 1107.3 Commission order.

Upon consideration of the evidence presented in such a verified petition, and in accordance with the provisions of subsection (4)(b) of section 15a, within 30 days of the filing of the petition, the Commission shall issue an order (a) permitting the establishment of interim increases in the general level of the interstate rates (across-the-board) in an amount approximating that needed to offset the increases in expenses attributable to the increases in taxes referred to above, (b) requiring the publication in the tariffs establishing the interim increase of a rule requiring the carriers to pay refunds, with interest, to the extent that the increase ultimately approved under the provisions of subsection (4)(c) of section 15a is less than that approved on an interim basis, (c) requiring publication of the said order in the FEDERAL REGISTER, and (d) providing for notification to this Commission by all persons who are interested in participating in the subsequent hearings to be held under the provisions of subsection (4)(c) of section 15a.

It is ordered, That a proceeding be, and it is hereby, instituted with the objective of establishing the above requirements and procedures.

It is further ordered, That all common carriers subject to part I of the act be, and they are hereby, made respondents in this proceeding.

It is further ordered, That no oral hearing be scheduled for the receiving of testimony, but that the respondents or any other interested parties may participate in this proceeding by submitting written statements of verified facts, views, or arguments regarding the proposed requirements and procedures.

It is further ordered, That the said statements shall be filed on or before July 18, 1973, and that no requests for extension of that date will be entertained, and that no reply statements will be permitted, in cognizance of the statutory requirement that such requirements be established no later than August 1, 1973.

And it is further ordered, That a copy of this notice and order be served on each respondent, each party to the proceeding in Ex Parte No. 281, and all known consumer groups and environmental groups, that a copy be deposited in the office of the Secretary, Interstate Commerce Commission, Washington, D.C., for public inspection, and that statutory notice of the institution of this proceeding be given by delivering a copy thereof to the Director, Office of the Federal Register, for publication therein.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

NATURAL RUBBER THREAD FROM ITALY

Amendment of Antidumping Proceeding Notice

JULY 3, 1973.

An "Antidumping Proceeding Notice" with respect to natural rubber thread from Italy was published in the FEDERAL REGISTER of February 26, 1973 (38 FR 5195, FR Doc. 73-3627).

That notice is hereby amended to include synthetic rubber thread from Italy within the scope of the investigation.

Accordingly, the "Antidumping Proceeding Notice" referred to above is amended by changing the caption to read "Rubber Thread from Italy" and by deleting the word "natural" in the fifth line of the first paragraph.

[SEAL] EDWARD L. MORGAN,
Assistant Secretary of the Treasury.

DEPARTMENT OF JUSTICE

[Order 521-73]

FEDERAL LAW ENFORCEMENT OFFICERS

Authorization To Request the Issuance of Search Warrants

On March 19, 1973, a list of agencies with law enforcement personnel authorized to request the issuance of a search warrant was published in the FEDERAL REGISTER. (38 FR 7244). The list included the Bureau of Narcotics and Dangerous Drugs, which agency is abolished effective July 1, 1973, and its functions transferred to the Drug Enforcement Administration.

Accordingly, effective July 1, 1973, Order No. 510-73 of March 12, 1973, listing agencies with law enforcement personnel authorized to request the issuance of a search warrant, is amended by substituting "Drug Enforcement Administration" for "Bureau of Narcotics and Dangerous Drugs."

Dated: June 29, 1973.

ELLIOT RICHARDSON,
Attorney General.

DEPARTMENT OF THE INTERIOR

Office of the Secretary

NATIONAL CAPITAL MEMORIAL ADVISORY COMMITTEE

Establishment and Charter

This notice is published in accordance with the provisions of section 9(a)(2) of the Federal Advisory Committee Act (Public Law 92-463), and advises of the establishment of the National Capital Memorial Advisory Committee. The Charter for the committee containing information prescribed by section 9(c) of Public Law 92-463 is published below.

CHARTER

NATIONAL CAPITAL MEMORIAL ADVISORY COMMITTEE

A. The official designation of the committee is the National Capital Memorial Advisory Committee.

B. The purposes of the committee are as follows: Prepare and recommend to the Secretary broad criteria, guidelines, and policies for memorializing persons and events on Federal lands in the National Capital region (as defined in the National Capital Planning Act of 1952, as amended) through the media of monuments, memorials, and statues.

Examine each memorial proposal for adequacy and appropriateness, and make recommendations to the Secretary with respect to site location on Federal land in the National Capital region.

Serve as an information focal point for those seeking to erect memorials on Federal land in the National Capital region.

In order to effectuate its purposes, the committee will be composed of seven *ex officio* members as follows:

Director, National Park Service
Architect of the Capitol
Chairman, American Battle Monuments Commission
Chairman, Commission of Fine Arts
Chairman, National Capital Planning Commission
Mayor-Commissioner of the District of Columbia
Commissioner, Public Buildings Service

Each of the foregoing *ex officio* members may designate an alternate to attend meetings and vote in his place. The Director of the National Park Service or his designee shall serve as Chairman.

In view of the fact that the vast majority of Federal lands within the National Capital region which may be deemed suitable for memorialization are under the jurisdiction of the National Park Service, this committee will render advice and assistance in connection with the performance of duties imposed on the Department of the Interior by law, and

V 38 I 131 JUL 10 73 XUM

it is in the public interest to obtain the advice of this committee.

C. In view of the goals and purposes of the committee, it will be expected to continue beyond the foreseeable future. However, its continuation will be subject to biennial review and renewal as required by section 14 of Public Law 92–463.

D. The committee will file its reports and minutes with the Secretary of the Interior, Washington, D.C.

E. Support for the committee is provided by the National Park Service, Department of the Interior.

F. The duties of the committee are solely advisory and are as stated in "B" above.

G. The estimated annual operating costs for the committee are approximately $100, and involve approximately one-twelfth man-year of time.

H. The committee will meet approximately four times a year.

I. The committee will terminate on December 31, 1974 unless prior to that date renewal action is taken as described in paragraph "C" above.

The Secretary of the Interior has made a written determination that creation of this advisory committee is in the public interest. The committee is established effective 30 days after publication of this notice in the FEDERAL REGISTER. Additional information regarding the National Capital Memorial Advisory Committee may be obtained from Mr. Robert M. Landau, National Park Service, U.S. Department of the Interior, Washington, D.C. 20240, telephone—202/343–8953.

RICHARD R. HITE,
Deputy Assistant Secretary of the Interior.

JULY 2, 1973.

[FR Doc.73-13893 Filed 7-9-73;8:45 am]

OUTER CONTINENTAL SHELF OFF FLORIDA

Request for Comments Regarding Possible Oil and Gas Leasing

The Department of the Interior is preparing a draft environmental impact statement concerning possible oil and gas leasing under the Outer Continental Shelf Lands Act (43 U.S.C. 1331–1343) of certain tracts lying seaward of Mississippi, Alabama, and Florida. No determination can be made to offer these tracts for leasing until completion of all procedures required by the National Environmental Policy Act of 1969 (42 U.S.C. 4321–4347). In addition, certain of the tracts lying in two specific areas off Florida discussed below are in areas where critical Department of Defense high and low level air test and training activities are carried out. In the interest of national defense, it is important that any lease of these tracts be on a basis of minimizing interference with these critical Defense activities by limiting the density of surface structures (rigs or platforms) simultaneously in the areas concerned. Interior desires, therefore, to secure information as to means and impact of accomplishing such minimization in the areas concerned.

LEASING MAP PENSACOLA SOUTH NO. 1
(NH 16–8)

N682–E115; N682–E116; N682–E117; N683–E115; N683–E116; N683–E117; N684–E115; N684–E116; N684–E117; N685–E115; N685–E116; N685–E117

Any leasing in this area will be on the basis of compulsory unitization of the entire area. Leases may not be issued on the above-named 12 tracts unless development is determined to be technologically and economically feasible and unless essential defense testing can continue under the following conditions: (a) Use of not more than one fixed or mobile surface structure for exploration, development, or production for each twenty-seven square miles of the leased area; (b) all other development by subsea well completion techniques.

For this area, therefore, the Department of the Interior wishes to obtain the views of all interested parties on the technological and economic aspects of this proposal. Any comments on the environmental aspects of the proposal should be submitted to the Director, Bureau of Land Management, (Attn: 390), Washington, D.C. 20240, only in conjunction with the draft environmental impact statement which will describe the environment of the area and the defense activities. Comments on the technological and economic aspects of the proposal should be sent to the Director, Geological Survey, Washington, D.C. 20244, with copies to the Director, Bureau of Land Management (Attn: 390), Washington, D.C. 20240, to be received not later than the close of business on Monday, August 6, 1973.

In particular, attention is directed to the following questions:

1. Is efficient development of oil and gas deposits underlying the described tracts by the use of subsea well completion techniques feasible at the present time? If it is not feasible at the present time, when is it expected to become feasible?

2. Is the technology needed to implement such development currently available throughout the industry? How many potential lessees or operators have the necessary technology at the present time? How many have access to it?

3. How many mobile and fixed exploration, development, and production structures would be needed for efficient development under the methods usually employed on the OCS?

4. Within how many years after the issuance of a lease (a) can initial production be achieved (i) under the proposed conditions? (ii) under similar conditions, but with a requirement of not more than one surface structure for each thirteen and one-half square miles? (iii) using methods usually employed on the OCS? (b) can peak production be obtained (i) under the proposed conditions? (ii) under similar conditions, but with a requirement of not more than one surface structure for each thirteen and one-half square miles? (iii) using the methods usually employed on the OCS? (c) would production terminate (i) under the proposed conditions? (ii) under similar conditions, but with a requirement of not more than one surface structure for each thirteen and one-half square miles? (iii) using methods usually employed on the OCS?

5. What are the comparative costs of exploration, development, and production in the area of the twelve tracts by using (a) one surface structure for each twenty-seven square miles and subsea well completion techniques, (b) one surface structure for each thirteen and one-half square miles and subsea well completion techniques, and (c) methods usually employed on the OCS?

6. Can as much oil and gas be ultimately produced economically under the proposed conditions as by methods usually employed on the OCS? What would be the proportionate difference in ultimate production between the two methods?

7. What other technological and economic information should be considered in order to determine the feasibility of offering the twelve tracts for lease under the proposed conditions?

In responding to the seven questions, it should be considered that the proposed conditions contemplate a limitation of the size of each surface structure to a horizontal area no larger than 200′ by 200′ and a vertical limit no higher than 400′ above the surface of the water.

LEASING MAP PENSACOLA SOUTH NO. 1
(NH 16–8)

N681–E123; N681–E124; N682–E118; N682–E119; N682–E120; N682–E121; N682–E122; N682–E123; N682–E124; N683–E118; N683–E119; N683–E120; N683–E121; N683–E122; N683–E123; N683–E124; N684–E118; N684–E119; N684–E120; N684–E121; N684–E122; N684–E123; N684–E124; N685–E118; N685–E119; N685–E120; N685–E121; N685–E122; N685–E123; N686–E118; N686–E119; N686–E120; N686–E121; N687–E118; N687–E119.

Any leases which may be offered for the above-named tracts will be on the basis of taking all reasonable measures to minimize the number of surface structures (rigs or platforms) simultaneously in the area concerned. It is expected that such development may also involve unitization and undersea well completion techniques, as well as any other procedures for accomplishing the objective of effecting minimization. The Department of the Interior wishes to receive recommendations as to the development of these tracts. If it is required that a surface structure exceed 200′ by 200′ in horizontal area or a height greater than 400′, this should be indicated.

Interested parties are requested to submit their comments as soon as possible and in any event by the close of business on August 6, 1973. Any proprietary information submitted, and so identified by the respondent, will be treated on a confidential basis.

JOHN P. WHITAKER,
Under Secretary of the Interior.

JULY 9, 1973.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

IOWA INSPECTION POINT

Grain Standards

Statement of considerations. On April 23, 1973, there was published in the FEDERAL REGISTER (38 FR 10028) a notice announcing that: (1) The Davenport Grain Exchange, Inc., Davenport, Iowa, had requested that its designation under section 3(m) of the U.S. Grain Standards Act (sec. 3, 39 Stat. 482, as amended, 82 Stat. 762; 7 U.S.C. 75(m)) to operate as an official grain inspection agency in Dubuque, Iowa, be transferred to another agency or person; and (2) that applications for the designation had been received from the following agencies:

Cedar Rapids Chamber of Commerce Grain Service, Inc. Cedar Rapids, Iowa
Dubuque Area Chamber of Commerce Dubuque, Iowa
Eastern Iowa Grain Inspection Service, Inc. Muscatine, Iowa

The three agencies are located in eastern Iowa.

Interested persons were given until May 23, 1973, to submit application for the designation, and to submit written data, views, or arguments as to which agency or person the designation should be transferred.

No further applications were submitted. A total of 20 comments were submitted as to which agency the designation should be transferred.

Seven of the comments recommended that the designation be transferred to the Cedar Rapids Chamber of Commerce Grain Service, Inc. The seven comments were from users of the grain inspection service in the Cedar Rapids grain market. The Cedar Rapids Chamber of Commerce Grain Service, Inc., is currently designated to operate as an official grain inspection agency in Cedar Rapids, Iowa.

Ten of the comments recommended that the designation be transferred to the Dubuque Area Chamber of Commerce. The ten comments were from nonusers of the grain inspection service in the Dubuque grain market. The Dubuque Area Chamber of Commerce is not currently designated to operate as an official grain inspection agency in any location.

Two of the comments recommended that the designation be transferred to the Eastern Iowa Grain Inspection Service, Inc. Both comments were from one of the principal users of the grain inspection service in the Dubuque grain market. No comments were submitted by the other users of the service in Dubuque. The Eastern Iowa Grain Inspection Service, Inc., is currently designated to operate as an official grain inspection agency in Muscatine, Iowa. (Note: The chief grain inspector for the Eastern Iowa Grain Inspection Service, Inc., is also the chief grain inspector for the Davenport Grain Exchange, Inc., in Davenport, Iowa and in Dubuque, Iowa.)

One of the comments did not recommend that the transfer be made to a particular agency or person, but it did recommend that the transfer be based on experience and competency.

It is the Department's policy, in designating an agency or person to operate as an official grain inspection agency, to give priority first to State grain inspection agencies and then to currently operative grain inspection agencies. None of the applicants is a State agency. Two of the applicants, as indicated above, are currently operative.

All applicants for the transfer were found to have met the prerequisites for designation set forth in § 26.96 of the regulations (7 CFR 26.96), and to have filed a proper application for designation as specified in § 26.97 of the regulations (7 CFR 26.97). The Eastern Iowa Grain Inspection Service, Inc., was found to be qualified and competent. In addition, its application for the transfer was supported by one of the principal users of the service in Dubuque. Therefore, after due consideration of all submissions made pursuant to the notice of April 23, 1973, and all other relevant matters, the designation to operate as an official grain inspection agency in Dubuque is hereby transferred from the Davenport Grain Exchange, Inc., Davenport, Iowa, to the Eastern Iowa Grain Inspection Service, Inc., Muscatine, Iowa.

(Secs. 3 and 7, 39 Stat. 482, as amended, 82 Stat. 762 and 764; 7 U.S.C. 75(m) and 79(f); 37 F.R. 28464 and 28476)

Effective date. This notice shall become effective July 10, 1973.

E. L. PETERSON,
Administrator, Agricultural Marketing Service.

JULY 3, 1973.

[FR Doc.73-13998 Filed 7-9-73;8:45 am]

RICE STANDARDS

Proposed Changes

Statement of considerations. Notice is hereby given that the Agricultural Marketing Service is considering changing the United States grade standards for rough rice so the standards will better reflect the presence of "weed seeds" and "heat-damaged kernels" in the total milled rice produced from the rough rice, and so the standards will better correlate with the United States grade standards for milled rice.

This notice identifies the changes that are being considered in the United States standards for rough rice, and invites interested persons to review the proposed changes, submit comments and recommendations on the proposed changes, and submit other suggested changes in the standards.

Background. In determining the grade of rough rice under the United States standards, a sample of the rice is cleaned, hulled, and milled. In the cleaning process, three sieves are used to separate the readily removable foreign material, including the weed seeds, if any, from the rough rice. The foreign material that is separated is called dockage and is discarded.

In the hulling process, the outer hull or husk is removed from the kernels. The removed hulls, or husks, are discarded.

In the milling process, practically all of the germs and the bran layers are removed from the kernels, and whole kernels, large broken kernels, and medium and small broken kernels are produced. The removed germs and bran layers are discarded.

Whole kernels, large broken kernels, and medium and small broken kernels are defined as follows:

Whole kernels are unbroken kernels of rice and broken kernels of rice which are at least three-fourths of an unbroken kernel.

Large broken kernels (commonly referred to as "second head") are broken kernels that pass over a 6 plate (southern production) or broken kernels remaining on a 6 sieve (western production).

Medium and small broken kernels (commonly referred to as "screenings and brewers") are broken kernels removed by a 6 plate (southern production) or broken kernels that pass through a 6 sieve (western production).

In the grading process the percentage of whole kernels, and the total milled rice (milling yield) is determined. After the milling yield is determined, the large broken kernels and the medium and small broken kernels are discarded and the grade of the rough rice is determined on the basis of the whole kernel portion only.

In the commercial milling process the large broken kernels and the medium and small broken kernels are removed for blending with the whole kernels according to grade or contract specifications, or are removed and retained for sale.

The recommendations that have been received indicate that by using three sieves for cleaning, and by determining the grade of the rough rice on the whole kernel portion only, the resulting grades do not accurately reflect the quality of the rough rice, especially when the rough rice contains weed seeds or heat-damaged kernels. It is also indicated that since the grades do not reflect the true quality of the rough rice, the grades do not correlate with the grades for the rice which is produced from the rough rice in commercial milling.

Proposed changes. Three recommendations to correct the situation have been received:

Proposal 1. A. Use only one sieve instead of three sieves in the laboratory cleaning of the rough rice. This could result in less weed seeds being removed as dockage and in an increase in milling yield.

B. Determine the number of weed seeds and heat-damaged kernels in a combination of the whole kernel and the large broken kernel portions, instead of the whole kernel portion only. This could result in a finding of more weed seeds and heat-damaged kernels. It could also increase inspection time and costs.

C. Increase the limits for objectionable seeds and heat-damaged kernels per 500 grams of sample from 1, 2, 5, 15, 25, 75, and over 75 in grades Nos. 1 through Sample grade to 10, 25, 40, 65, 95, 95, and over 95, respectively. This increase would

V 38 131 JUL 10 73 XUM

tend to offset the increase in weed seeds and heat-damaged kernels resulting from item "A" and "B" above.

Proposal 2. Determine the grade of the whole kernel, the large broken kernel, and the medium and small broken kernel portions separately; using the present grade limits for the classes of rough rice and the classes Second Head Milled Rice and Brewers Milled Rice, respectively, instead of grading the whole kernel portion only. This would involve separating each portion mechanically, and could result in a finding of more weed seeds and heat-damaged kernels. It would increase inspection time and costs.

Proposal 3. A. Determine the number of weed seeds and heat-damaged kernels in a combination of the whole kernel and the large broken kernel portions, instead of on the whole kernel portion only. This could result in a finding of more weed seeds and heat-damaged kernels. It could also increase inspection time and costs.

B. Mechanize the grading by defining "whole and large broken kernels" as kernels and all other material that (1) passes over a 6 plate (southern production) or (2) remains on top of a 6 sieve (western production), and provide that no handpicking of the separations shall be performed. This would make the determination of whole kernels and large broken kernels more objective and would help minimize a possible increase in inspection time and costs.

C. Delete the heading "Seeds and heat-damaged kernels" and the subheadings "Total (singly or combined)" and "Heat-damaged kernels and objectionable seed (singly or combined)" in the present grade table for rough rice and provide one heading for "Seeds" and one heading for "Heat-damaged kernels." Establish limits per 500 grams for both factors, as follows: "Seeds"—1, 5, 15, 25, 40, 60, and over 60 in grades Nos. 1 through Sample grade. "Heat-damaged kernels"—1, 2, 5, 15, 25, 75, and over 75 in grades Nos. 1 through Sample grade. These limits would tend to offset the increase in weed seeds and heat-damaged kernels resulting from item "A" above.

Comments. The Agricultural Marketing Service intends to study the three proposals during the 1973 rice marketing season and to obtain data and comments in anticipation of proposing a specific revision of the rough rice standards. Such a revision would be contingent, in part, upon a "typical" 1973 rice growing season. Interested persons are invited to study the three proposals and submit comments to the Hearing Clerk on the following:

1. Do the present rough rice standards accurately reflect the quality of rough rice with respect to "seeds" and "heat-damaged" kernels?
2. Do the present rough rice standards correlate with the present "milled" rice standards with respect to "seeds" and "heat-damaged" kernels?
3. Do the present rough rice standards correlate with the present "milled" rice standards with respect to other grading factors such as "red rice," "damaged kernels," and "chalky kernels"?
4. If changes are desired and needed in the rough rice standards, which of the three proposals would be most practicable and meaningful to producers, driers, millers, merchandisers, and consumers?
5. Are other changes in the rough, brown rice for processing, or milled rice standards desired and needed?

Interested persons are invited to submit written data, views, comments or recommendations concerning proposed changes in the standards for rough rice, in duplicate, to the Hearing Clerk, U.S. Department of Agriculture, room 112, Administration Building, Washington, D.C. 20250. Any person who wishes to present oral comments should notify the Director, Grain Division, Agricultural Marketing Service, U.S. Department of Agriculture, 6525 Belcrest Road, Hyattsville, Maryland 20782 [telephone (301) 436-87761 so that arrangements may be made for such presentations. Copies of the current rice standards may also be obtained through the Director, Communications should be received by December 1, 1973, to assure proper consideration.

Done at Washington, D.C., on: July 3, 1973.

E. L. PETERSON,
Administrator,

TEXAS SUGARCANE AREA

Notice of Hearing on Sugarcane Wages in Texas and Designation of Presiding Officers

Correction

In FR Doc. 73-12091 appearing on page 15859 of the issue for Monday, June 18, 1973 the third line, reading "of section 301(c)(1) of the act, whether", should be deleted and "of 1948, as amended (61 Stat. 929; 7" substituted therefor.

Forest Service

COMBINED TIMBER MANAGEMENT PLAN AND FOREST ROAD PROGRAM

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the Combined Timber Management Plan & Forest Road Program, Forest Service Report Number USDA-FS-DES (Adm) 73-76.

The environmental statement concerns the general effects of two interrelated and strongly dependent proposals on the Nezperce National Forest: (1) The interim adjustment to the Forest Timber Management Program, (2) the Forest Three Year Road Program. A draft statement on the Three Year Road Program was first submitted on May 25, 1972. A final statement will not be submitted. This statement will take its place. The change has been necessitated by the responses to the first draft which questioned the relationship of the road program to the timber management program, and also by recent agency restriction in "Forest, Roads and Trails Funding" which on this Forest will limit all new construction and reconstruction to timber access roads.

This draft environmental statement was filed with CEQ on July 2, 1973.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service
South Agriculture Bldg., Room 3230
12th St. & Independence Ave., S.W.
Washington, D.C. 20250

USDA, Forest Service
Northern Region
200 East Broadway, Room 3077
Missoula, Montana 59801.

USDA, Forest Service
Nezperce National Forest
319 East Main
Grangeville, Idaho 83530

A limited number of single copies are available upon request to:

Robert O. Rehfeld, Forest Supervisor
Nezperce National Forest
319 East Main
Grangeville, Idaho 83530

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151. Please refer to the name and number of the environmental statement above when ordering.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the Council on Environmental Quality Guidelines.

Comments are invited from the public and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal Agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Robert O. Rehfeld, Forest Supervisor, Nezperce National Forest, 319 East Main, Grangeville, Idaho 83530. Comments must be received by Aug. 16, 1973 in order to be considered in the preparation of the final environmental statement.

PHILIP L. THORNTON,
Deputy Chief, Forest Service.

JULY 3, 1973.

LITTLE SLATE CREEK UNIT PLAN

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the Little Slate Creek Unit Plan, Forest Service Report Number USDA-FS-DES(Adm) 7378.

The environmental statement concerns the proposed action to implement the Little Slate Creek Unit Plan which calls for multiple use management of 43,690 acres of National Forest land in the Little Slate Creek Drainage, Slate Creek Ranger District, Nezperce National Forest, Idaho County, Idaho. The Little Slate Creek Unit Plan identifies alternatives and specifies management guidance for key values of timber management, historic and recreational interest, elk calving and breeding grounds and high areas. It specifies access road location and probable timber sale development while outlining numerous guidelines for the protection and/or development of other resources.

This draft environmental statement was filed with CEQ on July 2, 1973.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service
South Agriculture Bldg., Room 3230
12th St. & Independence Ave., S.W.

MULTIPLE USE PLAN—NORTH BRIDGER PLANNING UNIT

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the Multiple Use Plan—North Bridger Planning Unit, Forest Service Report Number USDA-FS-DES (Adm) 73-77.

The environmental statement concerns a proposed Multiple Use Management Plan for the North Bridger Mountains, Bozeman Ranger District, Gallatin National Forest, in Gallatin County, Montana. The total area is about 60,000 acres, 42,000 of which are National Forest land. The plan calls for building a new road, a trail, improving other roads, harvesting timber on some areas, and maintaining other areas in a roadless condition. The plan also outlines direction for managing domestic livestock wildlife populations and ranges, and the Fairy Lake area.

This draft environmental statement was filed with CEQ on July 2, 1973.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service
South Agriculture Bldg., Room 3230
12th St. & Independence Ave., S.W.

Packers and Stockyards Administration

NELSON LIVESTOCK AUCTIONS, INC.; PRESCOTT, ARIZ., ET AL.

Proposed Posting of Stockyards

The Chief, Registrations, Bonds, and Reports Branch, Packers and Stockyards Administration, United States Department of Agriculture, has information that the livestock markets named below are stockyards as defined in Section 302 of the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 202), and should be made subject to the provisions of the Act.

AZ-105 Nelson Livestock Auctions, Inc., Prescott, Arizona
MS-150 Prentiss Stockyards, Prentiss, Mississippi
MO-233 McDonald County Livestock Market, Jane, Missouri
NC-143 Union County Livestock Auction, Inc., Monroe, North Carolina
NC-144 Carolina Stock Yards Co., Silver City, North Carolina

Notice is hereby given, therefore, that the said Chief, pursuant to authority delegated under the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 181 et seq.), proposes to issue a rule designating the stockyards named above as posted stockyards subject to the provisions of the Act as provided in section 302 thereof.

Any person who wishes to submit written data, views, or arguments concerning the proposed rule, may do so by filing them with the Chief, Registrations, Bonds, and Reports Branch, Packers and Stockyards Administration, United States Department of Agriculture, Washington, D.C. 20250, on or before July 25, 1973.

All written submissions made pursuant to this notice shall be made available for public inspection at such times and places in a manner convenient to the public business (7 U.S.C. 1.27(b)).

Done at Washington, D.C., this 5th day of July, 1973.

EDWARD L. THOMPSON,
Chief, Registrations, Bonds, and Reports Branch, Livestock Marketing Division.

DEPARTMENT OF COMMERCE

Bureau of East-West Trade

DIETER BUSCH AND DIETER BUSCH INDUSTRIEVERTRETUNGEN

[File No. 23(72)-14]

Order Denying Export Privileges for an Indefinite Period

In the matter of Dieter Busch and Dieter Busch Industrievertretungen D8 Munich 23 Trautenwolfstrasse 6 Federal Republic of Germany.

The Director, Compliance Division, Office of Export Control, Bureau of East-West Trade, U.S. Department of Commerce, has applied for an order denying to the above named respondents, all export privileges for an indefinite period because the said respondents, without good cause being shown, failed to furnish answers to interrogatories and failed to furnish certain records and other writings specifically requested. This application was made pursuant to § 388.15 of the Export Control Regulations. (Title 15, Chapter III, Subchapter B, Code of Federal Regulations).

In accordance with the usual practice, the application for an Indefinite Denial Order was referred to the Hearing Commissioner, Bureau of East-West Trade, who, after consideration of the evidence, has recommended that the application be granted. The report of the Hearing Commissioner and the evidence in support of the application have been considered.

The evidence presented shows that the respondent Deiter Busch owns and operates the firm Dieter Busch Industrievertretungen, in Munich, Federal Republic of Germany; the firm is engaged in trading in electronic testing equipment and electronic components; its activities include importing and exporting such commodities. The evidence further shows that in December 1971 and April 1972 respondents received from a U.S. supplier strategic electronic items (transistors and diodes) valued in excess of $5000. The respondents have acknowledged that they reexported these items to Austria.

The Compliance Division is conducting an investigation to ascertain to whom respondents exported the above mentioned commodities and to learn what was their end-use. It is impracticable to subpoena the respondents and, pursuant to § 388.15 of the Export Control Regulations, relevant and material interrogatories were served on them inquiring as to the names of the party or parties to whom they sold the commodities and also requesting respondents to furnish pertinent documents regarding the sales and deliveries. The respondents failed to answer the interrogatories or to furnish the documents requested. They have not shown good cause for such failure.

I find that an order denying export privileges to said respondents for an indefinite period may properly be entered under § 388.15 of the Export Control Regulations and that such an order is reasonably necessary to protect the public interest and to achieve effective enforcement of the Export Administration Act of 1969, as amended.

Accordingly, *It is hereby ordered*

I. All outstanding validated export licenses in which respondents appear or participate, in any manner or capacity, are hereby revoked and shall be returned forthwith to the Bureau of East-West Trade for cancellation.

II. The respondents are denied all privileges of participating, directly or indirectly, in any manner or capacity, in any transaction involving commodities or technical data exported from the United States, in whole or in part, or to be exported, or which are otherwise subject to the Export Control Regulations. Without limitation of the generality of the foregoing, participation prohibited in any such transaction, either in the United States or abroad, shall include participation, directly or indirectly, in any manner or capacity: (a) As a party or as a representative of a party to any validated export license application; (b) in the preparation or filing of any export license application or reexportation authorization, or any document to be submitted therewith; (c) in the obtaining or using of any validated or general export license or other export control document; (d) in the carrying on of negotiations with respect to, or in the receiving, ordering, buying, selling, delivering, storing, using, or disposing of any commodities or technical data, in whole or in part, exported or to be exported from the United States; and (e) in the financing, forwarding, transporting, or other servicing of such commodities or technical data.

III. Such denial of export privileges shall extend not only to the respondents but also to their agents, employees, representatives, and partners and to any other person, firm, corporation, or business organization with which the respondents now or hereafter may be related by affiliation, ownership, control, position of responsibility, or other connection in the conduct of trade or services connected therewith.

IV. This order shall remain in effect until the respondents provide responsive answers, written information and documents in response to the interrogatories heretofore served upon them or give adequate reasons for failure to do so, except insofar as this order may be amended or modified hereafter in accordance with the Export Control Regulations.

V. No person, firm, corporation, partnership or other business organization, whether in the United States or elsewhere, without prior disclosure to and specific authorization from the Bureau of East-West Trade, shall do any of the following acts, directly or indirectly, or carry on negotiations with respect thereto, in any manner or capacity, on behalf of or in any association with the respondents or any related party, or whereby the respondents or any related party may obtain any benefit therefrom or have any interest or participation therein, directly or indirectly: (a) apply for, obtain, transfer, or use any license, Shipper's Export Declaration, bill of lading, or other export control document relating to any exportation, reexportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States, by, to, or for said respondents or related party denied export privileges; or (b) order, buy, receive, use, sell, deliver, store, dispose of, forward, transport, finance, or otherwise service or participate in any exportation, reexportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States.

VI. A copy of this order shall be served on respondents.

VII. In accordance with the provisions of Section 388.15 of the Export Control Regulations, the respondents may move at any time to vacate or modify this Indefinite Denial Order by filing with the Hearing Commissioner, Bureau of East-West Trade, U.S. Department of Commerce, Washington, D.C., 20230, an appropriate motion for relief, supported by substantial evidence, and may also request an oral hearing thereon, which, if requested shall be held before the Hearing Commissioner, at Washington, D.C., at the earliest convenient date.

This order shall become effective on June 15, 1973.

RAUER H. MEYER,
Director, Office of Export Control Bureau of East-West Trade.

Dated May 15, 1973.

LOUISIANA STATE UNIVERSITY

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket number: 72-00254-01-77095. Applicant: Louisiana State University, Department of Chemistry, Baton Rouge, La. 70803. Article: Spectrophotometer, Model JRS-S1. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used in studies of the following materials:

a. Pure solid, liquid and gaseous organic compounds,
b. Solid ionic and covalent inorganic and organometallic compounds,
c. Transition metal organometallic and coordination complexes,
d. Gaseous molecular compounds (e.g. PF_5), and
e. Aqueous solutions of ionic salts.

Experiments to be conducted involve routine spectral analysis, temperature variation of band intensities, pressure broadening in gaseous samples, solvent-solute interactions and depolarization measurements. The article will also be utilized to teach undergraduates the use of analytical instruments and the design of sophisticated analytical experiments.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article is capable of automatic depolarization measurement. The most closely comparable domestic instrument is the Model 700 Raman spectrometer manufactured by Beckman Instruments, Inc. (Beckman). The Beckman Model 700 does not provide automatic depolarization measurement. Non-automatic depolarization ratio measurements conventionally require the observation of two spectra with different polarizations and a calculation of the depolarization ratio from the observed intensities of the two spectra. This is a time-consuming and difficult procedure that limits the number of measurements that can be made. The automatic feature permits the student to make useful measurements without requiring an excessively long time for him to become accustomed to using the spectrometer; further, many more students may be accommodated. Accordingly, the National Bureau of Standards (NBS) advises in its memorandum dated June 15, 1973 that the automatic depolarization measurement feature of the foreign article is pertinent to the applicant's educational purposes. We, therefore, find that the Model 700 is not of equivalent scientific value to the foreign article for such purposes as this article is intended to be used. NBS further advises that it knows of no domestically manufactured instrument of equivalent scientific value to the foreign article for the applicant's intended use.

A. H. STUART,
Director,
Special Import Programs Division.

N.Y. LEAGUE FOR THE HARD OF HEARING

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

DOCKET NUMBER: 73-00441-99-03400. APPLICANT: New York League for the Hard of Hearing, 71 West 23rd Street, New York, N.Y. 10010. ARTICLE: Seven Suvag Vibar, Model 73, 16 OHMS with holders and three extra holders. MANUFACTURER: SEDI, France. INTENDED USE OF ARTICLE: The article is intended to be used in a research project involving the aural health care and educational training of hearing impaired people.

COMMENTS: No comments have been received with respect to this application.

DECISION: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

REASONS: The foreign article has the capacity for extended low frequency response. We are advised by the Department of Health, Education, and Welfare (HEW) in its memorandum dated June 14, 1973 that this characteristic is pertinent to the purposes for which the article is intended to be used. HEW further advises that it knows of no comparable domestic instrument matching the pertinent characteristic of the foreign article.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

A. H. STUART,
Director,
Special Import Programs Division.

N.Y. LEAGUE FOR THE HARD OF HEARING

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

DOCKET NUMBER: 73-00440-99-03400. APPLICANT: New York League for the Hard of Hearing, 71 West 23rd Street, New York, N.Y. 10010. ARTICLE: Three Suvag II (Auditory trainers) and One Suvag II (Auditory trainer). MANUFACTURER: SEDI, France. INTENDED USE OF ARTICLE: The article is intended to be used in a research project involving the aural health care and educational training of hearing impaired people.

COMMENTS: No comments have been received with respect to this application.

DECISION: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

REASONS: The foreign article provides an operating frequency range of 0.5 to 500 cycles. The Department of Health, Education, and Welfare (HEW) advised in its memorandum dated June 14, 1973, that the capability described above is pertinent to the purposes for which the article is intended to be used. HEW also advised that it knows of no domestic instrument of equivalent scientific value to the foreign article for the applicant's intended purposes.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

A. H. STUART,
Director,
Special Import Programs Division.

UNIVERSITY OF ILLINOIS ET AL.

Notice of Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry

V38-131 JUL 10 73 XUM

of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89–651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, on or before July 30, 1973.

Amended regulations issued under cited Act, as published in the February 24, 1972 issue of the FEDERAL REGISTER, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C. 20230.

DOCKET NUMBER: 73–00557–00–77040. APPLICANT: University of Illinois-Urbana-Champaign, Purchasing Division, 223 Administration Building, Urbana, Illinois 61801. ARTICLE: Combination Field Desorption-Field Ionization-Electron Impact Ion Source Device. MANUFACTURER: Varian MAT GmBH, West Germany. INTENDED USE OF ARTICLE: The articles are accessories to an existing mass spectrometer to be used for studies of organic compounds and mixtures of interest in biology and medicine to determine their molecular weights and molecular formulas. The article will also be used for educational purposes in various Chemistry courses. APPLICATION RECEIVED BY COMMISSIONER OF CUSTOMS: May 25, 1973.

DOCKET NUMBER: 73–00558–33–46040. APPLICANT: V.A. Hospital, Holland Avenue, Albany, N.Y. 12208. ARTICLE: Electron Microscope, Model EM 300. MANUFACTURER: Philips Electronic Instruments NVD, The Netherlands. INTENDED USE OF ARTICLE: The article is intended to be used for the training of post-doctoral personnel, resident pathologists, medical students and Ph.D. candidates and college students aspiring to the bachelor's degree in biology in electron microscopy techniques. The article will also be used to provide a diagnostic service in electron microscopy on specimens derived from surgical and autopsy specimens from patients at the Hospital. In addition the article will be used for research in blood vessel pathology. APPLICATION RECEIVED BY COMMISSIONER OF CUSTOMS: June 8, 1973.

DOCKET NUMBER: 73–00559–01–09500. APPLICANT: Environmental Protection Agency, Transportation Section, Research Triangle Park, N.C. 27711. ARTICLE: Type 350 Centrifuge. MANUFACTURER: I. Kruger A/S, Denmark. INTENDED USE OF ARTICLE: The article is intended to be used for studies of waste sludges from wastewater treatment plants to ascertain the suitability of centrifugal processing of sludges. APPLICATION RECEIVED BY COMMISSIONER OF CUSTOMS: June 8, 1973.

DOCKET NUMBER: 73–00560–33–46040. APPLICANT: University of California, School of Medicine, Department of Human Anatomy TB 171, Davis, California 95616. ARTICLE: Electron Microscope, Model Corinth 275. MANUFACTURER: AEI Scientific Apparatus Inc., United Kingdom. INTENDED USE OF ARTICLE: The article is intended to be used for several projects which include the following:

(1) Study of the ultrastructures of breast tumor from women cancer patients.

(2) Cardiovascular Research.

(a) Study of the developing and differentiating tissue elements from the ultrastructural point of view.

(b) Study of the heart muscle to determine the effect of alcohol and other drugs on the structural integrity of the heart muscle, and

(c) Hypertension studies.

(3) Fundamental research in Muscular Dystrophy in man and animals, and

(4) Investigation of the effect of some commonly used pesticides on the brain tissue and other neural elements.

In addition, the article will be used (1) to teach graduate students its use as an aid to research and (2) in introductory courses in electron microscopy. APPLICATION RECEIVED BY COMMISSIONER OF CUSTOMS: MAY 29, 1973.

DOCKET NUMBER: 73–00561–90–73610. APPLICANT: Cornell University, NYS Agricultural Experiment Station, Department of Plant Pathology, Geneva, New York 14456. ARTICLE: Recording Volumetric Spore Trap. MANUFACTURER: Burkard Manufacturing Co. Ltd., United Kingdom. INTENDED USE OF ARTICLE: The article is intended to be used in studies of fungus spores to determine the type and quantity of spores in the air in relation to weather conditions. APPLICATION RECEIVED BY COMMISSIONER OF CUSTOMS: June 8, 1973.

DOCKET NUMBER: 73–00564–33–46040. APPLICANT: California Institute of Technology, 1201 E. California Blvd., Pasadena, California 91109. ARTICLE: Electron Microscope, Model EM 201. MANUFACTURER: Philips Electronic Instruments, NVD., The Netherlands. INTENDED USE OF ARTICLE: The article is intended to be used for investigations of cellular membranes and research on the organization of genetic material in various organisms. The following projects will be carried out with this instrument:

(1) Studies on the structure of cellular membranes,

(2) Studies on the organization of the nervous system,

(3) Investigations of the mode of formation of intercellular contacts in hepatoma cells, and

(4) Investigations of the arrangement of genes on DNA molecules will be carried out by electron microscope methods.

In addition, the article is intended to be used in the courses: *Bi 133—Biophysics of macromolecules laboratory*, designed to provide an intensive training in the techniques for the characterization of biological macromolecules, and *Bi 136—Optical Methods in biology laboratory* which presents the practice of operation of various types of light and electron microscopes. APPLICATION RECEIVED BY COMMISSIONER OF CUSTOMS: June 11, 1973.

DOCKET NUMBER: 73–00565–33–46500. APPLICANT: University of Wisconsin-Madison, Madison, Wisconsin 53706. ARTICLE: Ultramicrotome, Model LKB 8800–NM.

MANUFACTURER: LKB Produkter AB, Sweden. INTENDED USE OF ARTICLE: The article is intended to be used to prepare sections of laboratory animal tissues for purposes of studying spontaneous diseases of laboratory animals. Experiments will be on lungs of rabbits and upper respiratory tract tissues of laboratory rats to detect, and determine location of, mycoplasma organisms. The article will also be used as a teaching aid in Veterinary Science 350 (Diseases of Fishes), Veterinary Science 360 (Laboratory Animal Diseases) and Veterinary Science 760 (Advanced Veterinary Pathology) to acquaint graduate students with the mechanisms of actions of the agents causative of disease. APPLICATION RECEIVED BY COMMISSIONER OF CUSTOMS: June 13, 1973.

DOCKET NUMBER: 73–00566–33–46500. APPLICANT: Mayo Foundation, 200 First Street Southwest, Rochester, Minnesota 55901. ARTICLE: Ultramicrotome, Model LKB 8800A.

MANUFACTURER: LKB Produkter AB, Sweden. INTENDED USE OF ARTICLE: The article is intended for studies of biological materials consisting of human and experimental animal tissues both normal and pathological as well as mammalian cells grown in tissue culture under a variety of experimental conditions. The experiments to be conducted will include an examination of the normal behavior and structure of cells in culture and tissues; the localization of specific subcellular sites of interaction of inducing or transforming chemicals; and an examination of the induced acute and long-term functional and structural alterations. APPLICATION RECEIVED BY COMMISSIONER OF CUSTOMS: June 13, 1973.

DOCKET NUMBER: 73–00567–99–46500. APPLICANT: San Joaquin Delta College, 3301 Kensington Way, Stockton, California 95204. ARTICLE: Ultramicrotome, Model LKB 8800A. MANUFACTURER: LKB Produkter, Sweden. INTENDED USE OF ARTICLE: The article is intended to be used in a program in electron microscopy to train electron microscopy technicians. Students will be trained in all phases of biological specimen preparation for the EM including fixation, embedding, staining and thin sectioning of samples. APPLICATION RECEIVED BY COMMISSIONER OF CUSTOMS: June 13, 1973.

DOCKET NUMBER: 73–00568–33–46500. APPLICANT: Mayo Foundation, Department of Physiology, Rochester, Minnesota 55901. ARTICLE: Ultramicrotome, Model LKB 8800A. MANUFACTURER: LKB Produkter AB, Sweden. INTENDED USE OF ARTICLE: The article is intended to be used for studies of jellyfish tissue, mammalian muscle and nerve preparations, amphibian muscle preparations plus isolated subcellular particles from various tissues of these organisms to determine the structural correlates of various features of the function of excitable tissues. APPLICATION RECEIVED BY COMMISSIONER OF CUSTOMS: June 13, 1973.

DOCKET NUMBER: 73–00569–01–01100. APPLICANT: Yale University School of Medicine, 333 Cedar Street, New Haven, Conn. 06510. ARTICLE: Sequence Analyzer, Model JAS–47K. MANUFACTURER: JEOL Ltd., Japan. INTENDED USE OF ARTICLE: The article is intended to be used to determine the sequence of peptides associated with the active binding site of various immunoglobulins such as MOPC 315 and MOPC 460, among others, using the subtractive Edman-Dansyl method of detection. The active peptides will be separated from the whole molecule using affinity labelling techniques. The end result will be determination of the sequential arrangement of the amino acids involved in the active binding site of these immunoglobulins. APPLICATION RECEIVED BY COMMISSIONER OF CUSTOMS: June 13, 1973.

DOCKET NUMBER: 73–00571–75–47500. APPLICANT: University of California, Lawrence Livermore Laboratory, P.O. Box 808, Livermore, California 94550. ARTICLE: Two (2) Monochrometers type THRP with Photomultiplier attachment type PMB 6256.

MANUFACTURER: Jobin - Yvon, France. INTENDED USE OF ARTICLE: The article is intended to be used in a laser isotope separation program to make spectroscopic measurements on atomic and molecular vapor samples. The materials to be studied include europium and other rare metals, uranium, uranium hexafluoride and other uranium compounds. APPLICATION RECEIVED BY COMMISSIONER OF CUSTOMS: June 11, 1973.

DOCKET NUMBER: 73–00572–33–46070. APPLICANT: Children's Hospital Medical Center, 300 Longwood Avenue, Boston, Massachusetts 02115. ARTICLE: Scanning Electron Microscope, Model JSM 50A. MANUFACTURER: JEOL Ltd., Japan.

INTENDED USE OF ARTICLE: The article is intended to be used in a system which is to be used to perform high spatial resolution microanalysis of calcifying tissues obtained from mammalian species such as the rat and rabbit and from embryonic chick. Analysis of intracellular structures, extracellular matrixes and macromolecular aggregations located in thin sections of developing bones, cartilage and teeth will be performed for the presence of calcium, phosphorous and other biologically important inorganic elements. In addition, the article will be available to selected postdoctoral and research fellows for training in the proper applications of the techniques used in the above research. APPLICATION RECEIVED BY COMMISSIONER OF CUSTOMS: June 14, 1973.

A. H. STUART,
Director,
Special Import Programs Division.

UNIVERSITY OF NEBRASKA

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89–651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number 73–00448–60–02300. Applicant: University of Nebraska North Platte Station, Route No. 4, Box 429, North Platte, Nebr. 69101. Article: Electronic individual animal feeder. Manufacturer: Calan Electronics Ltd., United Kingdom. Intended use of article: The article is intended to be used to study the effect of supplementing energy to yearling cattle grazing pasture and measurement of the ad libitum intake of supplement consumed by individual animals.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article is capable of allowing individual animals to feed at their own feeding station without interference or use by other members of the herd. We are advised by the Department of Health, Education, and Welfare (HEW) in its memorandum dated June 14, 1973 that this capability is pertinent to the applicant's feeding experiments. HEW further advises that it knows of no domestic instrument or apparatus which provides the pertinent characteristic of the article.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

A. H. STUART,
Director,
Special Import Programs Division.

Maritime Administration

CONSTRUCTION OF TWO 265,000 DWT TANKERS

Filing of Application for Construction-Differential Subsidy

Notice is hereby given pursuant to title V of the Merchant Marine Act, 1936, as amended, that First Pennsylvania Tanker I, Inc. and First Pennsylvania Tanker II, Inc. Filed on June 19, 1973, applications for construction-differential subsidy to aid in the construction of two 265,000 deadweight ton tankers to be operated in the worldwide liquid bulk trade carrying crude oil throughout the world.

The vessels will be constructed in accordance with the plans and specifications previously approved by the Maritime Administration for the three vessels presently under construction for the MFC-Boston Tanker Companies, Inc., which plans and specifications are described in the material prepared by Bethleham Steel Corporation and titled "Specifications—265,000 DWT Tanker, Design PR–2856, Edition Av, June 1972."

Interested parties may inspect this proposal in the Office of the Secretary, Room 3099–B, Maritime Administration, Commerce Department Building, Fourteenth and E Streets, N.W., Washington, D.C. 20230.

Date: July 3, 1973.

By order of the Maritime Subsidy Board, Maritime Administration.

JAMES S. DAWSON, Jr.,
Secretary.

[Docket No. S-365]

PACIFIC FAR EAST LINE, INC.

Notice of Application for Approval of Certain Cruises

Notice is hereby given that Pacific Far East Line, Inc. has applied for approval, pursuant to Section 613 of the Merchant Marine Act, 1936, as amended, of the following cruises:

Ship	Approximate Cruise Dates 1974	Itinerary
SS MARIPOSA.	Mar. 22-May 5...	San Francisco, Los Angeles, Honolulu, Yokohoma, Kobe, Chilung (Keelung), Hong Kong, Manila, Guam, Honolulu, San Francisco, Los Angeles
	May 6-May 26...	San Francisco, Los Angeles, Honolulu, Hilo, Lahaina, Nawiliwili, Honolulu, San Francisco, Los Angeles
	May 27-June 17..	San Francisco, Los Angeles, San Diego, Honolulu, Hilo, Lahaina, Nawiliwili, Honolulu, San Francisco, Los Angeles
	June 18-July 1..	San Francisco, Los Angeles, Vancouver, Juneau, Skagway, Sitka, Victoria, San Francisco, Los Angeles
	July 2-July 19...	San Francisco, Los Angeles, Honolulu, Hilo, Lahaina, Nawiliwili, Honolulu, San Francisco, Los Angeles
	July 20-July 30..	San Francisco, Los Angeles, Honolulu, San Francisco, Los Angeles
	July 31-Aug. 17..	San Francisco, Los Angeles, Honolulu, Hilo, Lahaina, Nawiliwili, Honolulu, San Francisco, Los Angeles
	Aug. 18-Aug. 29..	San Francisco, Los Angeles, Honolulu San Francisco, Los, Angeles
	Aug. 30-Oct. 12..	San Francisco, Los Angeles, Honolulu, Yokohoma, Kobe, Chilung (Keelung), Hong Kong, Manila, Guam, Honolulu, San Francisco, Los Angeles
	Oct. 13-Nov. 1..	San Francisco, Los Angeles, Honolulu, Hilo, Lahaina, Nawiliwili, Honolulu, San Francisco, Los Angeles
	Dec. 14-Jan. 3 1975.	San Francisco, Los Angeles, Honolulu, Hilo, Lahaina, Nawiliwili, Honolulu, San Francisco, Los Angeles
SS MONTEREY.	Apr. 6-Apr. 26..	Los Angeles, San Francisco, Honolulu, Hilo, Lahaina, Nawiliwili, Honolulu, Los Angeles, San Francisco
	May 3-July 13...	San Francisco, Los Angeles, San Diego, Puerto Vallarta, Balboa, Cristobal, Port-au-Prince (Haiti), Hamilton (Bermuda), Southampton (London), Zeebrugge (Belgium), Amsterdam, Hamburg, Kiel Canal, Gdynia, Leningrad, Helsinki, Stockholm, Kobenhavn (Copenhagen), Oslo, Bergen, Geiranger, Trondheim, Hammerfest (Norway), Nordkapp (North Cape), Edinburgh (Scotland), Ponta Delgada (Azores), St. Thomas (Virgin Islands), Cristobal, Balboa, Los Angeles, San Francisco (each cruise)
SS MONTEREY—Continued	July 14-July 27..	San Francisco, Los Angeles, Vancouver, Juneau, Skagway, Sitka, Victoria, San Francisco, Los Angeles
	July 28-Aug. 10	
	Aug. 11-Aug. 23	
	Aug. 24-Sept. 6	
	Sept. 7-Sept. 26..	San Francisco, Los Angeles, Honolulu, Hilo, Lahaina, Nawiliwili, Honolulu, San Francisco, Los Angeles
	Nov. 14-Dec. 1..	San Francisco, Los Angeles, Honolulu, Hilo, Lahaina, Nawiliwili, Honolulu, San Francisco, Los Angeles

Any person, firm or corporation having any interest, within the meaning of section 613 of the Merchant Marine Act, 1936, as amended, in the foregoing who desires to offer data, views, or arguments should submit the same in writing, in triplicate, to the Secretary, Maritime Subsidy Board, Washington, D.C. 20230, by the close of business on July 23, 1973.

In the event an opportunity to present oral argument is also desired, specific reason for such request should be included. The Maritime Subsidy Board will consider these comments and views and take such action with respect thereto as in its discretion it deems warranted.

By order of the Maritime Subsidy Board/Maritime Administration.

Dated: July 5, 1973.

JAMES S. DAWSON, Jr.,
Secretary.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Health Services and Mental Health Administration

NATIONAL ADVISORY COMMITTEE

Notice of Meeting

The Administrator, Health Services and Mental Health Administration, announces the meeting date and other required information for the following National Advisory body scheduled to assemble the month of July 1973:

Committee Name	Date/Time/ Place	Type of Meeting and/or Contact Person
National Advisory Council on Regional Medical Programs	7/17, 9:00 a.m.... Parklawn Building Conference Room G 5600 Fishers Lane Rockville, Maryland	Open Contact Mr. Kenneth Baum Room 11-19 Parklawn Building 5600 Fishers Lane Rockville, Maryland Code 301-443-1511

Purpose. The Council advises and assists the Secretary in the preparation of regulations for, and as to policy matters arising with respect for grants under Title IX, and recommends to the Secretary with respect to approval of applications for, and the amounts of, grants under this Title.

Agenda. The Council will discuss policy matters and conduct other business, and the meeting shall be open to the public.

Agenda items are subject to change as priorities dictate.

A roster of members and other relevant information regarding the open session may be obtained from the contact person listed above.

Dated: June 29, 1973.

ANDREW J. CARDINAL,
Acting Associate Administrator for Management Health Services and Mental Health Administration.

Office of Education

NATIONAL ADVISORY COUNCIL ON VOCATIONAL EDUCATION

Public Meeting

Notice is hereby given, pursuant to PL-92-463, that the next meeting of the National Advisory Council on Vocational Education will be held on July 26, 1973, from 8:00 p.m. to 10:00 p.m., local time, and on July 27, 1973, from 9:00 a.m. to 5:00 p.m., local time, at the L'enfant Plaza Hotel, Washington, D.C.

The National Advisory Council on Vocational Education is established under section 104 of the Vocational Education Amendments of 1968 (20 U.S.C. 1244). The Council is directed to advise the Commissioner of Education concerning the administration of, preparation of general regulations for, and operation of, vocational education programs supported with assistance under the act; review the administration and operation of vocational education programs under the act, including the effectiveness of such programs in meeting the purposes for which they are established and operated, make recommendations with respect thereto, and make annual reports of its findings and recommendations to the Secretary of HEW for transmittal to the Congress; and conduct independent evaluation of programs carried out under the act and publish and distribute the results thereof.

The meetings of the Council shall be open to the public. The proposed agenda includes:

Report on response from the Government Accounting Office to NACVE requests for legal rulings.
Discussion of plans for public hearing in Pittsburgh, Pennsylvania.
Report on the implementation of guidelines for Title 10 of the Education Amendments of 1972.
Report on the staffing of the Bureau of Occupational and Adult Education, USOE.
Committee Reports.

Records shall be kept of all Council proceedings and shall be available for public inspection at the Office of the Council's Executive Director, located in Suite 852, 425-13th Street, NW., Washington, D.C. 20004.

Signed at Washington, D.C. on July 3, 1973.

CALVIN DELLEFIELD,
Executive Director.

Office of the Secretary

SOCIAL SECURITY ADMINISTRATION

Statement of Organization, Functions, and Delegations of Authority; Correction

In FR Doc. 73-11519 appearing at page 15379 in the issue of Monday, June 11, 1973, the functional statement for the Office of Research and Statistics, Social Security Administration, should read as follows: "*Office of Research and Statistics* (ORS). Conducts and directs SSA's research and statistical programs. Conducts research relating to retirement age, methods of financing, redistributional effects of social security and supplemental security payments, and adequacy of supplemental security, cash, and health benefits. Studies and makes recommendations concerning problems of poverty, insecurity, and health costs, and the contributions that social insurance, supplemental security income, and related programs can make toward their solution. Conducts national surveys of the aged, the disabled, and families with children. Provides continuing evaluation of national policies and procedures for effectiveness in meeting program goals. Publishes statistical data and research findings. Represents SSA on matters of research and statistics with DHEW, other agencies, universities, research centers, and international organizations."

Dated: July 2, 1973.

THOMAS S. MCFEE,
Deputy Assistant Secretary for Management Planning and Technology.

Office of Interstate Land Sales Registration

[Docket No. N-73-181; OILSR No. 0-1049-03-36; File No. Z-162]

LAKE FOREST ESTATES

Order of Suspension

Notice is hereby given that: On April 16, 1973, the Department of Housing and Urban Development, Office of Interstate Land Sales Registration, published in the FEDERAL REGISTER a Notice of Proceedings and Opportunity for Hearing, pursuant to 44 U.S.C. 1508, informing the Developer of alleged untrue statements or omissions of material facts in the Developer's Statement of Record. The Developer has failed to request a hearing pursuant to 24 CFR 1720.160 within 15 days of said notice. Accordingly, pursuant to 15 U.S.C. 1706(d) and 24 CFR 1710.45(b)(1), the Order of Suspension is being issued as follows:

1. Lake Forest Developers, Inc., hereinafter referred to as the Developer, being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Public Law 90-448) (15 U.S.C. 1701 et seq.) and the Rules and Regulations lawfully promulgated thereto pursuant to 15 U.S.C. 1718, has filed its Statement of Record covering its subdivision located in Arkansas (OILSR No. 0-1049-03-36), which became effective on April 13, 1970, pursuant to 24 CFR 1710.21 of the Interstate Land Sales Regulations. Said Statement is still in effect.

2. Pursuant to lawful delegation, as authorized by 15 U.S.C. 1715, the authority and responsibility for administration of the Interstate Land Sales Full Disclosure Act has been vested in the Interstate Land Sales Administrator.

3. Pursuant to 15 U.S.C. 1706(d) and 24 CFR 1710.45(b)(1), if it appears to the Interstate Land Sales Administrator at any time that a Statement of Record, which is in effect, includes any untrue statement of a material fact or omits to state any material fact required to be stated therein or necessary to make the statement therein not misleading, the Administrator may, after notice, and after an opportunity for a hearing requested within 15 days of receipt of such notice, issue an order suspending the Statement of Record.

4. A Notice of Proceedings and Opportunity for Hearing was published in the FEDERAL REGISTER on April 16, 1973, pursuant to 44 U.S.C. 1508, informing the Developer of information obtained by the Office of Interstate Land Sales Registration showing an untrue statement of a material fact or an omission of a material fact required to be stated therein or necessary to make the statements therein not misleading in the above-specified Statement of Record. The Developer was notified of his right to request a hearing and that if he failed to request a hearing he would be deemed in default and the proceedings would be determined against him, the allegations of which would be determined to be true. The Developer has failed to request a hearing pursuant to 24 CFR 1720.160 within 15 days of publication of said Notice of Proceedings and Opportunity for Hearing.

Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1710.45(b)(1), the Statement of Record filed by the Developer covering its subdivision is hereby suspended, effective as of July 10, 1973. This Order of Suspension shall remain in full force and effect until the Statement of Record has been properly amended as required by the Interstate Land Sales Full Disclosure Act and the implementing Regulations.

Any sales or offers to sell made by the Developer or its agents, successors, or assigns while this Order of Suspension is in effect will be in violation of the provisions of said Act.

Issued in Washington, D.C., July 5, 1973.

By the Secretary,

GEORGE K. BERNSTEIN,
Interstate Land Sales Administrator.

ATOMIC ENERGY COMMISSION

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS' WORKING GROUP ON PEAKING FACTORS

Notice of Meeting

JULY 6, 1973.

In accordance with the purposes of sections 29 and 182 b. of the Atomic Energy Act (42 U.S.C. 2039, 2232 b.), the Advisory Committee on Reactor Safe-

V 38 I 131 JUL 10 73 XUM

guards' Working Group on Peaking Factors will hold a meeting on July 17, 1973, in Room 1062, 1717 H Street, NW., Washington, DC. The subjects scheduled for discussion are calculational techniques and plant operating conditions related to peaking factors.

The Subcommittee is meeting to formulate recommendations to the full ACRS regarding the above subject.

I have determined, in accordance with subsection 10(d) of Public Law 92-463, that the meeting will consist of an exchange of opinions and formulation of recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b), and in addition, the discussion will involve information from certain documents which are privileged and fall within exemption (4) of 5 U.S.C. 552(b). It is essential to close the meeting to protect the free interchange of internal views and such privileged information and to avoid undue interference with agency or Committee operation.

JOHN C. RYAN,
Acting Advisory Committee Management Officer.

[Docket No. 25441; Order 73-7-7]

AIRLINE TARIFF PUBLISHERS, INC.

Application To Engage in Carrier Discussions on Joint Fares; Order Approving Discussions

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 3rd day of July 1973.

Airline Tariff Publishers, Inc. (ATP) as agent for carrier participants in its Joint Passenger Fares Tariff, C.A.B. No. 190, has filed an application requesting that the Board approve carrier discussions directed toward improving present procedures for filing joint fares, and developing standards to be applied in automating publication of joint fares.

In support of its petition, ATP states that the present joint fares tariff contains over 152,000 routings and, under present procedures, it is the individual carrier's responsibility to propose additions, deletions, or revisions in the tariff. Such proposals are submitted to other participants in the joint routing, who must concur in the proposal before it can be implemented by a tariff filing. ATP contends that the number of proposals, concurrences to proposals, counter-proposals and concurrences thereto is virtually endless and that, with each reissue of the tariff, it has received and acted upon up to ten thousand sheets of paper as a result of this procedure.

ATP contends that one purpose of the discussions is to eliminate as much of this paperwork as possible, and to automate at least the routine additions of, and adjustments to, joint fares. Far more important, however, is the alleged potential for improving the tariff itself through the elimination of errors and prompt publication of the latest revisions. ATP alleges that errors and omissions cannot be corrected in a timely fashion by a system which requires each carrier to review the 152,000 published fares and the thousands of potential fares, to submit proposals involving corrections and additions to other carriers, and to await their concurrences. A method of identifying these situations and of reacting to them through the use of computer facilities must be devised and, in order to do so, carriers must meet and agree upon the standards under which the computer is to function. ATP states that, if an agreement for the orderly publication and revision of joint fares can be reached by the carriers and approved by the Board, the public, the Board, and the carriers will all benefit.

The National Air Transportation Conferences, Inc. (NATC) has filed an answer in support of ATP's request, subject, however, to the condition that commuter air carrier representatives be given notice of and be provided an opportunity for participation in any such discussions.

Upon consideration of the application, the Board has decided to permit the carriers to meet for the purposes requested, subject to the conditions discussed below. As a matter of general policy, the Board permits carrier discussion of matters relating to domestic fares only when two basic considerations are met. First, the intended purpose of the discussions must appear, *per se*, in the public interest. Second, the intended result must be one that could not readily be achieved by individual carrier action. In our opinion, ATP's proposal meets both these tests.

Automation of the joint fares tariff should materially assist in achieving both an error free, up-to-date tariff, and publication of additional joint fares. To the extent this will in turn result in diminishing the incidence of fare misquotations, the discussions would appear clearly in the public interest. The Board has repeatedly urged the specific publication of additional joint fares as one of the more meaningful ways of alleviating the misquotation problem. Although the carriers have responded favorably, errors in quotation persist and more extensive publication of joint fares continues to be necessary. On the other hand, we are persuaded that individual carrier action cannot be relied upon to accomplish this objective on an expeditious basis. ATP has demonstrated the complex and time-consuming nature of present joint fare filing procedures, requiring as they do proposals by individual carriers and individual concurrences by the various other carriers concerned.

We note that the authority requested is rather broadly described, and that the application repeatedly speaks of revising existing joint fares. While the precise intention is not specifically set forth, it appears to contemplate adjustments to correct errors in publication and to keep revisions in competitive fares current. The effect would be to create a "clean" tariff, which would be kept up-to-date by the automated system that carriers seek to develop. It seems entirely probable that a limited number of fare increases will be the incidental result of implementing a uniform automated system, and we are not prepared to foreclose discussions on this account. However, we emphasize that the authority here granted does not extend to discussion of fare increases beyond this scope.

We will also limit the carriers' authority so as to preclude any discussion of modification in or cancellation of the fare construction rules as presently published. Finally, we will require that the discussions encompass at a minimum publication of the joint first-class, coach, and single-class fares for all routings which have appeared in three of the last four quarterly origin and destination surveys.[1]

We will deny, however, NATC's request that the discussion authority be granted subject to conditions requiring notice to and opportunity for participation by commuter air carrier representatives. At the present time no joint fares between commuter and certificated carriers are published by ATP, and whether or not they will be in the future is speculative. We are concerned that participation by the commuter carriers at this time may more likely result in unnecessary delay than improve the system.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 404, 412, and 414 thereof,

It is ordered, That: 1. Air Canada, Air West, Alaska Airlines, Inc., Alle-

[1] We would also urge the carriers to take this opportunity to discuss the complicated and confusing nature of tariffs in general. In our view, a great deal of the complexity is unnecessary and could be diminished with very little carrier effort. As an example, the fare designations for the same type fare often vary needlessly from carrier to carrier. Such discussions should, of course, not encompass matters pertaining to fare level.

V38-131 JUL 10 73 XUM

gheny Airlines, Inc., Aloha Airlines, Inc., American Airlines, Inc., Braniff Airways, Inc., Canadian Pacific Airlines Limited, Continental Air Lines, Inc., Delta Air Lines, Inc., Eastern Air Lines, Inc., Frontier Airlines, Inc., Hawaiian Airlines, Inc., National Airlines, Inc., North Central Airlines, Inc., Northwest Airlines, Inc., Ozark Air Lines, Inc., Piedmont Aviation, Inc., Southern Airways, Inc., Texas International Airlines, Inc., Trans World Airlines, Inc., United Air Lines, Inc., Wien Consolidated Airlines, Inc., and Western Air Lines, Inc., may engage in meetings at which the Board's representatives may be present, for a 90-day period extending from the date of this order to discuss subject to the limitations set forth above the joint fare matters set forth in the petition of Airline Tariff Publishers, Inc., in Docket 25441;

2. The request of the National Air Transportation Conferences, Inc., insofar as it would condition the discussions authorized in ordering paragraph 1 above on the opportunity for participation by commuter air carrier representatives is denied;

3. The Director of the Bureau of Economics shall be given at least 48 hours' notice of the time and place of meetings;

4. The carriers shall keep complete and accurate minutes of such discussions and a true copy of such minutes shall be filed with the Board's Docket Section not later than two weeks after the close of the discussions;

5. Any agreement or agreements reached as a result of such discussions shall be filed with the Board in accordance with section 412 of the Federal Aviation Act of 1958 and approved by the Board prior to being incorporated in a tariff filing or placed in effect; and

6. This order shall be served upon Air Canada, Air West, Alaska Airlines, Inc., Allegheny Airlines, Inc., Aloha Airlines, Inc., American Airlines, Inc., Braniff Airways, Inc., Canadian Pacific Airlines Limited, Continental Air Lines, Inc., Delta Air Lines, Inc., Eastern Air Lines, Inc., Frontier Airlines, Inc., Hawaiian Airlines, Inc., National Airlines, Inc., North Central Airlines, Inc., Northwest Airlines, Inc., Ozark Air Lines, Inc., Piedmont Aviation, Inc., Southern Airways, Inc., Texas International Airlines, Inc., Trans World Airlines, Inc., United Air Lines, Inc., Wien Consolidated Airlines, Inc., Western Air Lines, Inc., Airline Tariff Publishers, Inc., and the National Air Transportation Conference, Inc.

This order will be published in the FEDERAL REGISTER.

[Docket Nos. 21866-6A, 25587; Order 73-7-6]

CONTINENTAL AIR LINES, INC. AND UNITED AIR LINES, INC.

Order Regarding Fare Reductions in the Chicago-Los Angeles Market

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 3rd day of July, 1973.

By Order 73-6-4, June 1, 1973, the Board dismissed a complaint filed by Continental Air Lines, Inc. (Continental) and permitted United Air Lines, Inc. (United) to reduce by $10.00 (including tax) its coach and economy fares applicable on non-lounge wide-body aircraft between Chicago and Los Angeles. At the same time, the Board suspended Continental's companion proposal to match the fare reduction while retaining its lounges. On June 6, 1973, Continental filed a motion requesting the Board to reconsider its decision and permit the suspended fares to become effective pending investigation. Should the Board decline to grant that request, Continental requests the Board to stay that portion of Order 73-6-4, which ordered the suspension of its fares pending a decision by the court on an appeal Continental intends to file.[1]

Subsequent to the filing of Continental's petition and the answers thereto, described hereinafter, the Board issued its Opinion and Order on Reconsideration in Phase 6A of the *Domestic Passenger-Fare Investigation*, Docket 21866-6A.[2] With regard to coach lounges, the Board modified its previous findings (Order 72-5-101) to provide that "(1) any such carrier who converts from a lounge to a non-lounge service may do so at a lower fare which is reasonably related to the cost savings where it appears that the risk of adverse competitive impact would otherwise inhibit such conversion, and such lower fare may be matched by a lounge operator only upon a showing of special or unusual circumstances; and (2) upon a showing of adverse competitive impact, a non-lounge operator may establish a lower fare at the level necessary to meet such competition, and which may not be matched by a lounge operator except upon the showing enumerated in subparagraph (1) above."

In support of its petition Continental alleges that no carrier can afford to be frozen at a higher fare than that charged by its competitors for any period of time, much less the six months covered by the Board's suspension power. From this, Continental reasons that the practical effect of the Board's action is to prescribe the Chicago-Los Angeles fare without an investigation; that it is pointless to argue that the Board merely exercised its suspension power pending the outcome of the investigation; and that unless the Board permits Continental's fares to be effective pending investigation, it will suffer irreparable injury.

Continental further alleges that there is no evidence to support the Board's conclusion that other carriers would not have a reasonable opportunity to remain competitive with a lounge operator absent a price advantage; and that it would be impossible to find such evidence given the fact that the other carriers have so much more beyond traffic feed than does Continental. Continental also alleges that permitting its fares pending investigation will benefit the public at no cost to Continental; that although the lounge unquestionably offers a higher value of service there is no reason to force the public to pay more when it costs Continental nothing to offer the lounge; and finally, that the Board could cite no evidence bearing upon the cost of the lounge and its relation to the current fare.

The United States Department of Justice (Justice) has filed an answer in support of Continental's petition. Justice is concerned with what it believes to be anti-competitive implications of Order 73-6-4. Justice alleges that the arguments advanced by Continental's opponents, and the implicit reasoning of Order 73-6-4, lead to the conclusion that Continental is giving the public too much for its money, and must be forced to give less; that the Board's suspension of Continental's tariff is without any evidentiary basis and encroaches on Continental's individual competitive discretion.

The Puget Sound Traffic Association (Puget Sound) has answered the petition, alleging that application of a lower fare between Chicago-Los Angeles than between Chicago-Seattle is unjust, unreasonable and discriminatory. Puget Sound requests the Board to reconsider its decision in Order 73-6-4 and either require United to maintain its present level of coach fares between Chicago and Los Angeles or, in the alternative, require United to immediately publish a similar fare reduction between Chicago and Seattle.

American, TWA, and United have answered in opposition to Continental's petition. In summary, one or more of these carriers allege that Continental has not based its request on new matter but reargues earlier claims which have already been considered and rejected by the Board; that Continental's claim of irreparable injury is vitiated by its own admission that unquestionably a lounge offers a higher value of service to the public; and that it is entirely reasonable for the Board to allow a carrier providing a lesser value of service to charge less. It is contended that Continental's alleged inability to reduce its Chicago-Los Angeles frequency is destroyed by its admission that its current coach load factors are in the mid-30 percent range; that the claim that it should be protected by the Board when operating at such uneconomic load factors does not deserve serious consideration; and that it is the long term economic drain on other carriers from having to meet Continental's lounge competition that constitutes irreparable injury, not the alleged temporary competitive impact upon Continental.

The carriers go on to allege that the order in and of itself does not force Continental to remove its lounges as it contends, but merely permits a lower fare for non-lounge aircraft; and that if Continental as a matter of marketing judgment feels that the lounge is a significant marketing tool—rather than a wasteful frill, it now has the opportunity to test its theory in the market place. If Continental finds it necessary to remove the lounge, this will allegedly demonstrate that the traveling public itself, when given a free choice in the marketplace, concludes that it does not in fact place a sufficiently high value on the lounge to warrant paying for it. Finally, these carriers allege that the Board could not regulate the industry in any rational way if it were to let low load factors on one particular route determine whether or not such frills as lounges are indeed wasteful of the valuable resource of aircraft capacity; and that Continental's attempt to analogize the suspension of its tariff with the *Moss* case fails since there have been no *ex parte* meetings and the Board has made no proposal of its own with respect to fares. Rather, the Board has adhered to the statutory procedures, refusing to suspend one tariff, and suspending another pending investigation.

Upon consideration of the pleadings, the Board finds that the petition does not establish that the risk of adverse competitive impact is insufficient to inhibit United's conversion from a lounge to non-lounge service and does not show any special or unusual circumstances which warrant permitting Continental to match United's lower fare. Accordingly, the petition for reconsideration of Order 73-6-4 will be denied.[3] The Board further concludes, on the basis of the information before it, that a stay of Order 73-6-4 should not be granted.

The underlying basis of Continental's position is that, in view of facts peculiar to it in this particular market, there is no economic reason for it to discontinue its coach lounges. This may or may not be true. However, we believe the lounge must be treated within the framework of the industry as a whole. The Board's rate regulation is on the basis of industry needs and, while it may be true that Continental can provide the lounge without economic penalty to it at the present time, available data indicates that this is not or shortly will not be true in the case of other carriers.

Service segment data filed with the Board pursuant to ER-586 reveal that during the past year both American and United operated in the Chicago-Los Angeles market with average overall load factors on particular wide-body flights in excess of 60 percent during a number of months. In fact, United operated one flight with an average monthly overall load factor exceeding 70 percent in three months, and exceeding 80 percent in two other months. Such load factors suggest the likelihood of substantial traffic peaking on certain days of the week, and that the lounge may now be causing pressure on capacity. On the other hand, during this period Continental operated rather consistently at load factors in the low to mid 30's, and contends that this is due to its lack of traffic feeding into its Chicago-Los Angeles service from points east and its inability to reduce frequencies if it is to remain competitive in the market. In effect, Continental seems to be suggesting that it should be permitted a service advantage over its competitors to compensate for an alleged disadvantage in market opportunity. In our opinion, this has little if anything to do with the lawfulness of fares for a particular service, and does not constitute an unusual circumstance which would warrant permitting Continental to match United's lower fare for loungeless service. We do not disagree with Continental's allegation that it should be given leeway in tailoring its services to suit its particular route and operating circumstances. By the same token, however, other carriers whose circumstances are different should likewise be permitted to initiate a reasonable competitive response tailored to those circumstances. In a situation such as this, we believe the Board must opt in favor of the solution most economically favorable for the system as a whole.

We believe it pertinent in this connection to point out that Continental is not without the opportunity to tailor its capacity in this market more closely to traffic demand without reducing frequencies, by greater use of narrow-body aircraft. The traffic volume which generates a 30-percent load factor on a B-747 would provide an approximate 80-percent load factor on one of its B-707 aircraft. On the other hand, Continental provides all of its westbound nonstop service with wide-body equipment, the only carrier which does so. It operates the same number of such flights as United, and as many as American and TWA together. Whether or not Continental's service in the market is the result of an excess number of wide-body aircraft and an inability to utilize the fleet as efficiently elsewhere on its system need not be resolved here. The fact is, however, that for whatever reason the quantum of capacity appears excessive for the market and should not be allowed as a valid consideration in support of its petition.

Nor are we persuaded that the Board's action will cause Continental irreparable injury. The cost of reconversion, of course, need not be incurred at this time if, in fact, the seats would not be used by the public as alleged, since Continental could elect to simply rope-off its lounge pending investigation. On the other hand, at such time as the additional capacity could be used we would expect the carrier to willingly sustain the cost in its own self-interest and, indeed, Continental has so stated.

Continental alleges that it cannot compete effectively against a lower fare and that the result will be a loss in its market share. Whether or not this is true is, of course, a matter which can only be determined by actual test. To the extent this does prove to be the case, the Board's view that the lounge is a wasteful frill would be supported. It does not follow, however, that the Board would be forcing this result on Continental but rather that public demand, or more accurately the lack of it, caused elimination of lounges. Stated differently, grant of Continental's petition could likely impose a costly service upon the carriers which the public generally wants only if it can be had free of charge. For it seems clear that the carriers, if not wholly convinced, are sufficiently wary that it is an effective competitive device that lounge and non-lounge services will not be operated against each other at the same price. To the extent a question of irreparable injury is raised here, we believe it lies more in the long-term economic inefficiency of continued lounge service throughout the system, than in any possible short-term competitive impact upon Continental.

Continental argues that Order 73-6-4 is unlawful in that it has no meaningful choice but to eliminate its lounge service, and that the order therefore prescribed fares without a legally required hearing.[4]

The Board's decision to permit United to charge a lower fare for a lesser value of service was made in a manner wholly consistent with the statutory rate-making scheme. Thus, contrary to

[1] On June 26, 1973, Continental did file a petition in the Court of Appeals for the District of Columbia seeking review of Order 73-6-4.

[2] Order 73-6-102, June 26, 1973.

[3] Puget Sound's filing, which amounts to a late-filed petition for reconsideration, will be denied. Puget Sound is essentially concerned with the fact that the Board's action resulted in de-common faring Seattle and Los Angeles. While it is true that west coast points have historically been common fared to Chicago and points east, this has been permitted but not required. The question of common fares is at issue in Phase 9 of the *Domestic Passenger Fare Investigation*, Docket 21866-9, which is now before the Board for decision.

[4] Justice contends that Order 73-6-4 is inconsistent with Order 73-6-5, which suspended a proposal of American to reduce fares in markets where TWA provides a carry-on baggage service, reasoning that both TWA's baggage bin and Continental's lounge replaced slightly more than three percent of cabin capacity. A more appropriate comparison is the 37 seat (12 percent) difference between United's wide-body aircraft with and without lounges (United's loungeless configuration would have 47 seats more than Continental's lounge configured aircraft). Moreover, Justice fails to acknowledge the Board's conclusion that the TWA carry-on option is a means of satisfying the carriers' obligation to accommodate baggage, as opposed to a service having no direct connection with the provision of air transportation. Also, with the passengers carrying their own baggage aboard there should be some offsetting baggage handling cost savings to the carriers.

V 38 131 JUL 10 73 XUM

Justice's contention, the effect of the Board's action is to provide the public a choice of services depending upon its willingness to pay a reasonable price differential. As was stated in our previous order, the $10.00 differential proposed by United and permitted by the Board appears to be reasonable, notwithstanding that the same differential was earlier permitted in the longer haul New York-Los Angeles market (Order 73-1-69). The fare reduction involved is approximately eight percent. By comparison, the seating capacity of Continental's competitors will be increased something more than 10 percent as a result of eliminating the lounge. Nevertheless, because of the interrelationship between the filings of the two carriers, we will order United's fare reduction investigated along with Continental's.[5]

Accordingly, *it is ordered*, That: 1. The motion for stay and reconsideration of Order 73-6-4, filed by Continental Air Lines, Inc., be and it is hereby denied;

2. An investigation be instituted to determine whether the fares and provisions described in Appendix A filed as part of the original document, and rules, regulations, and practices affecting such fares and provisions, are or will be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful fares and provisions, and rules, regulations, or practices affecting such fares and provisions;

3. The proceeding ordered herein shall be consolidated into Docket 25587; and

4. This order shall be served upon American Airlines, Inc., Continental Air Lines, Inc., Trans World Airlines, Inc., United Air Lines, Inc., Department of Justice, and Puget Sound Traffic Association, which are hereby made parties to this proceeding.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.[6]

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[Docket No. 21950; Order 73-7-11]

UNITED AIR LINES, INC.

Order Authorizing Expanded Discussions on Petition Concerning Chicago Midway Airport

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 5th day of July, 1973.

In monitoring the discussions authorized in Order 72-10-85, the Board observers have noted that at least some of the discussants feel that among the mix of considerations that enters into the construction of a workable and useful pattern of service at Midway is the impact of the service to and from Chicago offered through O'Hare International Airport. Thus some discussants seek to explore in discussions the effect of a limitation or ceiling on total movements at O'Hare on the building of a viable service pattern at Midway. However, discussion of such carrier-imposed ceilings on O'Hare operations is prohibited by the last textual paragraph in Order 72-10-85.

It is apparent from the discussions held to date that the construction of a useful pattern of service at Midway is not going to be accomplished with ease. Yet, as the Board has stated several times in the past, the construction of a comprehensive service pattern at Midway is in the public interest. See Order 72-10-85 and orders cited therein. Without determining what action the Board might take in respect to an agreement which effects, through joint carrier action, a limitation of service at O'Hare, it appears desirable, and possibly necessary to fulfillment of the goals stated in Order 72-10-85, that the discussants be allowed to consider how such a limitation would or could be used as a tool in fashioning the desired improvement in the Midway pattern.

Accordingly, it is ordered, That Order 72-10-85 be and it hereby is amended to include within the authorized scope of the discussions matters which deal with the limitation of the quantity of service which the discussants will offer through O'Hare International Airport as a means to enhance the pattern of service which will be operated through Midway Airport.[1]

This order shall be served as stated in ordering paragraph 2 of Order 72-10-85, and shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board:

[SEAL] EDWIN Z. HOLLAND,
Secretary.

COST OF LIVING COUNCIL

[Cost of Living Council Order No. 25; Amdt. No. 1]

ADMINISTRATOR, OFFICE OF PRICE MONITORING, ET AL.

Delegation of Authority

On May 15, 1973 the Cost of Living Council published order No. 25 (38 FR 12775) which, among other things, delegated to the Administrator, Office of Price Monitoring, the authority to make decisions and issue orders with respect to individual requests for exception from the regulations and orders governing price matters. In order to effectively implement the price freeze established by Executive Order 11723 it is necessary that the authority to take action with respect to requests for relief from the provisions of the meat ceiling regulations be transferred to the Director, Special Freeze Group and a separate order is being issued to transfer this authority. To avoid any confusion as to the continuing authority of the Administrator, Office of Price Monitoring, in this connection, Cost of Living Council Order No. 25 is amended in section 1(d) to read as follows:

1(d) Make decisions and issue orders with respect to individual requests for exception from the regulations and orders governing price matters except this authority does not extend to the provisions of 6 CFR Part 130, Subpart M.

This amendment shall be effective June 14, 1973.

JOHN T. DUNLOP,
Director, Cost of Living Council.

[FR Doc.73-13985 Filed 7-5-73;3:49 pm]

[Cost of Living Council Order No. 32]

EXCEPTION REQUESTS WITH RESPECT TO SUBPART M

Delegation of Authority

Pursuant to the authority vested in me by Cost of Living Council Order No. 14 there is delegated to the Deputy Director of the Cost of Living Council/Director, Special Freeze Group (hereinafter, the Deputy Director) subject to the general policy guidance of and in coordination with the Director of the Cost of Living Council the authority to make decisions and issue orders with respect to individual requests for exception from the provisions of 6 CFR Part 130, Subpart M and authority to consider and decide requests for reconsideration of denials and partial approvals of such requests for exception.

The Deputy Director is authorized to redelegate any or all of the authorizations set out in this order that he deems necessary for the orderly and efficient exercise of the authority delegated to him.

This order is effective June 14, 1973.

JOHN T. DUNLOP,
Director, Cost of Living Council.

[FR Doc.73-13986 Filed 7-5-73;3:49 pm]

[Special Freeze Group Order No. 1]

ASSOCIATE DIRECTOR, OPERATIONS, ET AL.

Special Freeze Group; Delegations of Authority

Pursuant to the authority vested in me as Director of the Special Freeze Group by Cost of Living Council Order No. 30, and subject to the general policy guidance of and in coordination with the Director of the Special Freeze Group, and the regulations and rulings of the Special Freeze Group, it is hereby ordered as follows:

1. In implementing the price freeze established by Executive Order 11723 and the regulations issued thereunder in 6 CFR Part 140, there is delegated to the Associate Director, Operations, authority to direct the support operations of the Internal Revenue Service.

2. In implementing the price freeze established by Executive Order 11723 and the regulations issued thereunder in 6 CFR Part 140, there is delegated to the General Counsel, authority to:

(a) Represent the Special Freeze Group and make recommendations to the Department of Justice with respect to litigation in which the Special Freeze Group is a party;

(b) Make recommendations to the Department of Justice as to the prosecution of violations and the handling of all other court proceedings relating to the regulations and orders of the Special Freeze Group;

(c) Issue legal opinions and interpretations of the regulations, decisions, and orders of the Special Freeze Group and the laws relating thereto.

3. In implementing the price freeze established by Executive Order 11723 and the regulations issued thereunder in 6 CFR Part 140, there is delegated to the Associate Director, Policy Review, the authority to issue orders with respect to individual requests for exceptions from regulations and orders governing price freeze matters.

4. Each official to whom authority is delegated by this order may redelegate that authority upon approval of the Director, Special Freeze Group.

5. This order is effective June 14, 1973.

JAMES W. MCLANE,
Director, Special Freeze Group.

ENVIRONMENTAL PROTECTION AGENCY

WATER QUALITY PROGRAMS AND IMPLEMENTATION PLANS

Notice of Proposed Agreements

Notice is hereby given that the Administrator of the Environmental Protection Agency proposes to enter into agreements with the Secretary of Agriculture, the Secretary of the Army and the Secretary of the Interior pursuant to section 304(j) of the Federal Water Pollution Control Act Amendments of 1972. That section provides that the Administrator shall enter into agreements with those Secretaries to provide for maximum utilization of the appropriate programs authorized under other Federal law to be carried out by those Secretaries for the purpose of achieving and maintaining water quality through appropriate implementation of plans approved under section 208 of the Act. The proposed agreement provides that:

1. EPA will require recipients of planning grants under section 208 to provide for the creation of an advisory committee and recommend that the planning agency invite those Departments to participate if they deem appropriate.

2. Programs of the Departments which may implement portions of approved section 208 plans will be utilized as provided in the agreement.

3. The Administrator may employ funds authorized under section 304(j) to supplement related programs of the Departments as provided in the agreement.

[5] We are also ordering matching tariffs of American and TWA investigated.

[6] Dissent by member Murphy filed as part of original document.

[1] Any discussion on flight limitations at O'Hare shall deal only with aggregate movements, not focusing on any market or segment.

V 38 I 131 JUL 10 73 XUM

The agreement will be effective on the date of signature of the parties. Prior to signature, consideration will be given to comments, suggestions, or objections which may be submitted in writing within 30 days after the date of this notice to Chief, Planning and Standards Branch, Water Planning Division, Office of Air and Water Programs, Environmental Protection Agency, Washington, D.C. 20460.

Dated: July 5, 1973.

ROBERT W. FRI,
Acting Administrator.

AGREEMENT FOR IMPLEMENTATION OF SECTION 304(j) OF FEDERAL WATER POLLUTION CONTROL ACT AMENDMENTS OF 1972 (P.L. 92-500)

Purpose. Section 304(j) of P.L. 92-500 states that the Administrator of the Environmental Protection Agency, hereinafter identified as the Administrator, shall enter into agreements with the Secretary of Agriculture, the Secretary of the Army and the Secretary of the Interior to provide for maximum utilization of the appropriate programs authorized under other Federal law to be carried out by such Secretaries for the purpose of achieving and maintaining water quality through appropriate implementation of plans approved under Section 208 of this Act. It is understood that other agreements may be developed between the Administrator and the individual Secretaries delineating areas of mutual interest and specific agency responsibilities under this and other statutory authorities.

Goal. The goal of this Agreement is to implement the intent of Congress as expressed in section 304(j).

Planning assistance. In each planning area under section 208(a)(2) the EPA will, as a condition of the grant proposal under Section 208(f)(3), require that the planning agency provide for the creation of an advisory committee and recommend that the planning agency invite the Departments of Agriculture, Army and Interior to participate by designating representation. Each Department may or may not participate as it deems appropriate. Participation by these Departments will serve as a means of providing for the experience and programs of the individual Departments to be made available, as resources permit, to assist the areawide planning agency in plan development and to assure that relevant Federal and State agency programs and the areawide plan are compatible.

Implementation assistance. The Departments of Agriculture, Army and Interior have various authorized programs that can implement portions of plans approved under section 208. These programs extend to both private and Federal land ownership. These programs shall be utilized to the degree that resources may be available through the agency programs, or be made available supplementally through section 304(j) to achieve and maintain water quality as provided for in plans developed under section 208. The Environmental Protection Agency will coordinate with the appropriate Secretary or Secretaries to insure that their individual programs supplement and complement the implementation of approved section 208 plans. Where feasible the Secretaries of Agriculture, Army and Interior, or their representatives may enter into collective or individual agreements with the waste treatment management agencies designated under section 208(c) to implement provisions of the approved plan.

Fund transfer. The Administrator is authorized to supplement from funds available under section 304(j)(3) any otherwise appropriated funds available to Agriculture, Army and/or Interior to carry out programs provided for in approved section 208 plans. The Administrator can transfer funds to the Secretaries for individual program accelerations and/or modifications. Program accelerations and modifications will be conditioned upon implementation needs set forth in the approved section 208 plans. Arrangements for transfer of funds from EPA which may be appropriated under section 304(j)(2) will be developed as an amendment to this agreement at the time areawide plans are available for implementation.

Effective date. This agreement will be effective on signature of the parties. The parties to this agreement are the Administrator of the Environmental Protection Agency and the Secretaries of Agriculture, Army and the Interior.

Conditions. Nothing in this Agreement for implementation of section 304(j) is to be construed as intending to limit the activities of the Secretaries to only section 208 activities nor to relinquish any of the authorities and responsibilities granted to the Secretaries in the Federal Water Pollution Control Act Amendments of 1972. Failure of the Administrator to act under the authority of section 304(j)(2) will not be construed as affecting, other than by non-receipt of supplemental funds, the programs of the Departments of Agriculture, Army, or Interior.

Amendment of this Agreement will be possible by mutual consent of all parties, signatory of this document. Such amendments may be initiated by any signatory to the agreement.

Secretary of Agriculture	Secretary of the Interior
Secretary of the Army	Administrator, Environmental Protection Agency

FEDERAL DEPOSIT INSURANCE CORPORATION

INSURED BANKS

Joint Call for Report of Condition

Pursuant to the provisions of section 7(a)(3) of the Federal Deposit Insurance Act, as amended (12 U.S.C. 1817(a)(3)), each insured bank is required to make a Report of Conditions as of the close of business June 30, 1973, to the appropriate agency designated herein, within ten days after notice that such report shall be made: *Provided*, That if such reporting date is a nonbusiness day for any bank, the preceding business day shall be its reporting date.

Each national bank and each bank in the District of Columbia shall make its original Report of Condition on Office of the Comptroller Form, Call No. 486[1], and shall send the same to the Comptroller of the Currency and shall send a signed and attested copy thereof to the Federal Deposit Insurance Corporation. East insured State bank which is a member of the Federal Reserve System, except a bank in the District of Columbia, shall make its original Report of Condition on Federal Reserve Form 105—Call 208[1] and shall send the same to the Federal Reserve Bank of the District wherein the bank is located and shall send a signed and attested copy thereof to the Federal Deposit Insurance Corporation. Each insured State bank not a member of the Federal Reserve System, except a bank in the District of Columbia and a mutual savings bank, shall make its original Report of Condition and one copy thereof on FDIC Form 64—Call No. 104[1] and shall send the same to the Federal Deposit Insurance Corporation.

The original Report of Condition required to be furnished hereunder to the Comptroller of the Currency and the copy thereof required to be furnished to the Federal Deposit Insurance Corporation shall be prepared in accordance with "Instructions for Preparation of Consolidated Reports of Condition by National Banking Associations," dated November 1972.[1] The original Report of Condition required to be furnished hereunder to the Federal Reserve Bank of the District wherein the bank is located and the copy thereof required to be furnished to the Federal Deposit Insurance Corporation shall be prepared in accordance with "Instructions for the Preparation of Reports of Condition by State Member Banks of the Federal Reserve System," dated January 1973.[1] The original Report of Condition and the copy thereof required to be furnished hereunder to the Federal Deposit Insurance Corporation shall be prepared in accordance with "Instructions for the Preparation of Report of Condition on Form 64 by Insured State Banks Not Members of the Federal Reserve System," dated December 1970, and any amendments thereto.[1]

Each insured mutual savings bank not a member of the Federal Reserve System shall make its original Report of Condition and one copy thereof on FDIC Form 64 (Savings),[1] prepared in accordance with "Instructions for the Preparation of Report of Condition on Form 64 (Savings) and Report of Income on Form 73 (Savings) by Insured Mutual Savings Banks," dated December 1971, and any amendments thereto,[1] and shall send the same to the Federal Deposit Insurance Corporation.

FRANK WILLE,
Chairman,
Federal Deposit Insurance Corporation.

JUSTIN T. WATSON,
Acting Comptroller of the Currency.

GEORGE W. MITCHELL,
Vice Chairman, Board of Governors of the Federal Reserve System.

FEDERAL DISASTER ASSISTANCE ADMINISTRATION

[Docket No. NFD-101]

ALABAMA

Amendment to Notice of Major Disaster

Notice of Major Disaster for the State of Alabama, dated June 1, 1973, and published June 7, 1973 (38 FR 14987) and amended June 11, 1973, and published June 15, 1973 (38 FR 15748) is hereby further amended to include the following county among those counties determined to have been adversely affected by the catastrophe declared a major disaster by the President in his declaration of May 29, 1973:

The County of:
Etowah

(Catalog of Federal Domestic Assistance Program No. 50.002, Disaster Assistance)

Dated: July 3, 1973.

THOMAS P. DUNNE,
Administrator, Federal Disaster Assistance Administration.

[Docket No. NFD-102]

ALABAMA

Amendment to Notice of Major Disaster

Notice of Major Disaster for the State of Alabama, dated June 1, 1973, and published June 7, 1973 (38 FR 14987) and amended June 11, 1973, and published June 15, 1973 (38 FR 15748) is hereby further amended. Notice is hereby given that on June 29, 1973, the President amended his declaration of a major disaster of May 29, 1973, for Alabama, as follows:

I hereby amend my May 29, 1973, declaration of a "major disaster" in the State of Alabama to read as follows:

I have determined that the damage in certain areas of the State of Alabama from severe storms and flooding, beginning about May 8, 1973, is of sufficient severity and magnitude to warrant a major disaster declaration under Public Law 91-606. I therefore declare that such a major disaster exists in the State of Alabama. You are to determine the specific areas within the State eligible for Federal assistance under this declaration.

In order to provide Federal assistance, you are hereby authorized to allocate, from funds available for these purposes, such amounts as you find necessary for Federal disaster assistance and administrative expenses.

The purpose of this amendment is to authorize Federal assistance only for DeKalb County for damage on May 8; only for DeKalb, Jackson, and Marshall Counties for damage on May 19-20; and for DeKalb, Jackson, and Marshall Counties, as well as previously designated counties and those areas which you subsequently determine to be eligible for Federal disaster assistance, for damage during the period May 27-28.

(Catalog of Federal Domestic Assistance Program No. 50.002, Disaster Assistance)

Dated: July 3, 1973.

THOMAS P. DUNNE,
Administrator, Federal Disaster Assistance Administration.

[Docket No. NFD-103]

OKLAHOMA

Amendment to Notice of Major Disaster

Notice of Major Disaster for the State of Oklahoma, dated June 13, 1973, and published June 19, 1973 (38 FR 15995) and amended June 14, 1973, and published June 20, 1973 (38 FR 16113) and amended June 28, 1973, is hereby further amended. Notice is hereby given that on June 29, 1973, the President amended his declaration of a major disaster of June 13, 1973, for Oklahoma as follows:

I have determined that the damage in certain areas of the State of Oklahoma resulting from a tornado occurring on June 18, 1973, is of sufficient severity and magnitude to warrant amendment of my June 13, 1973, declaration of a major disaster. You are to determine the specific areas within the State eligible for Federal assistance under this amendment.

In order to provide Federal assistance, you are hereby authorized to extend the incidence period to include that time period, as requested by Governor Hall, and to allocate, from funds available for these purposes, such amounts as you find necessary for Federal disaster assistance and administrative expenses.

(Catalog of Federal Domestic Assistance Program No. 50.002, Disaster Assistance)

Dated: July 3, 1973.

THOMAS P. DUNNE,
Administrator, Federal Disaster Assistance Administration.

FEDERAL HOME LOAN BANK BOARD

GOLDEN WEST FINANCIAL CORP.

Notice of Receipt of Application for Approval of Acquisition of Control of Madera Guarantee Savings and Loan Association

JULY 5, 1973.

Notice is hereby given that the Federal Savings and Loan Insurance Corporation has received an application from the Golden West Financial Corporation, Oakland, California, a unitary savings and loan holding company, for approval of acquisition of control of the Madera Guarantee Savings and Loan Association, Madera, California, an insured institution under the provisions of section 408(e) of the National Housing Act, as amended (12 U.S.C. 1730a(e)), and § 584.4 of the Regulations for Savings and Loan Holding Companies, said acquisition to be effected by the acquisition of substantially all the assets and properties of Madera Guarantee Savings and Loan Association by Golden West Savings and Loan Association, an insured subsidiary of the applicant, in exchange for shares of Golden West Financial Corporation. Following said exchange Madera Guarantee Savings and Loan Association will be merged into Golden West Savings and Loan Association. Comments on the proposed acquisition should be submitted to the Director, Office of Examinations and Supervision, Federal Home Loan Bank Board, Washington, D.C. 20552, on or before August 9, 1973.

[SEAL] EUGENE M. HERRIN,
Assistant Secretary,
Federal Home Loan Bank Board.

CHEMICAL NEW YORK CORP.

Order Denying Acquisition of CNA Nuclear Leasing, Inc.

Chemical New York Corporation, New York, New York, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y, to acquire voting shares of CNA Nuclear Leasing, Inc. ("Company"), Boston, Massachusetts, a company that is engaged in full-payout leasing of personal property and equipment. Such activity has been determined by the Board to be closely related to the business of banking (12 CFR 225.4(a)(6)). Applicant has also applied for authority of Company to engage in financing the acquisition of coal piles and other natural resource financings as an activity closely related to the business of banking pursuant to 12 CFR 225.4(a)(1).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (29 F.R. 8099). The time for filing comments and views has expired, and all those received have been considered.

Applicant, the fourth largest banking organization in New York, controls four banks with aggregate domestic deposits of $9.8 billion, representing approximately 9 per cent of the total deposits in commercial banks in the State. (All banking data are as of December 31, 1972.) Applicant also has a nonbanking subsidiary engaged in extending short-term land development and construction loans to borrowers and providing advisory and loan servicing facilities to Applicant.

Company, organized in 1969, is presently engaged in leasing nuclear fuel cores and capital equipment, including production machinery, fleets of trucks and automobiles, electronic data processing equipment and noncommercial aircraft. Company generally leases such equipment for a noncancellable term of one year, with monthly renewals thereafter.[1] It appears that such leases would not be in compliance with the Board's leasing regulation and interpretation, which require the lessor to recover in full its acquisition cost of leased equipment through rentals, estimated salvage value, and estimated tax benefits during the

[1] No opinion has been obtained from the Internal Revenue Service that these leases would be characterized as a "lease" rather than a "conditional sale" for tax purposes. However, since Company does not take accelerated tax depreciation on its leased property and the investment tax credit for such property is passed through to the lessees, it is represented that the Company's federal income tax liability would appear to be substantially identical whatever the characterization. Furthermore, even if viewed as a "conditional sale" the activity would be permitted under § 225.4(a)(1) of Regulation Y.

[1] Filed as part of original document.

V 38 I 131 JUL 10 73 XUM

initial term of the lease (12 CFR 225.4 (c)(6) and 225.123(d). However, Company's leases further provide that in the event the lease is terminated prior to full-payout recovery, the equipment is sold and the lessee is obligated to reimburse Company for any deficiency between the sale price and the unrecovered portion of the acquisition cost of the leased equipment. Where there is such an unconditional obligation, guaranteeing full-payout recovery, by a bona-fide lessee which clearly has the financial resources to meet such obligation, as in the case of Company's lessees, the Board will permit reliance on such obligation in determining whether a lease transaction meets the full-payout requirement of the Board's leasing regulation and interpretation.

Company also proposes to engage in coal and other natural supply financing agreements whereby company would purchase coal or other natural resources at the direction of a utility company and the utility company would, each month, pay Company the amount of the acquisition cost of the coal or other natural resources estimated to be consumed by the utility during the month plus a financing charge, adjusted to reflect any excess or deficiency between the amount estimated to be consumed and the amount actually consumed in the preceding month. Based on the foregoing and other conditions contained in the agreement the Board considers such coal or other natural resource agreements to be a form of extension of credit permissible under § 225.4(a)(1) of Regulation Y.

Applicant, through its lead subsidiary bank, is engaged in personal property leasing activities primarily in the metropolitan New York area and also nationwide. Company is engaged in leasing equipment nationwide. Although there is some competitive overlap between Company's leasing business and that of Applicant's lead subsidiary bank, the Board finds that consummation of this proposal would not eliminate any significant existing or potential competition due to the somewhat different nature of the leasing activities engaged in by Applicant's lead subsidiary bank and Company, the relatively low barriers to entry into this business, the large number of competitors, and the small market shares held by Applicant and Company.

In its consideration of an application to acquire a nonbanking company under section 4(c)(8) of the Act, the Board is required to consider whether performance of the activity by an affiliate of a holding company can reasonably be expected to produce benefits to the public such as greater convenience, increased competition, or gains in efficiency that outweigh possible adverse effects such as undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices.

Company has grown rapidly since its inception, increasing its total assets from approximately $35 million at year-end 1970 to approximately $210 million at year-end 1972. However, Company has a very high level of debt in relation to equity capital. As of December 31, 1972 total liabilities were 74 times total equity. Because of its low equity capital base and consequent severe limitations on its capacity to absorb any losses, the investment community has apparently been unwilling to finance Company's operations at the prime commercial paper rate without the guarantee of its parent, CNA Financial Corporation.[2] As of December 31, 1972, the total amount of Company's outstanding commercial paper so guaranteed was $175 million. Upon acquisition by Applicant, Applicant would advance funds to Company to finance its existing lease portfolio as Company's outstanding commercial paper matures.

These advances would be financed on a short term basis by the issuance of Applicant's own commercial paper. Applicant estimates that Company's lease portfolio would grow from $205 million to $250–$300 million during 1973. By the end of 1974, at which time Company projects its lease portfolio will have grown to $350–$400 million, Applicant anticipates that it will reduce its direct financial support to Company. Applicant expects that Company will be free of all need for financial support from Applicant within eight years, by which time its lease portfolio could expand to as much as $750 million. Even assuming Applicant's favorable projections, it is clear that the acquisition of Company would require Applicant to commit substantial and continuing amounts of funds to support Company's growth.

The proposal involves a method of financing comparatively long-term assets with short-term debt. As discussed above, due to the low equity base of Company, the market will not finance its commercial paper obligations at a rate which makes the proposal economically viable without a guarantee. In fact, Company is being sold by its present parent due to the large amounts of financing required, limitations on the amount of commercial paper it could issue, and the cost of back-up bank lines of credit to support such paper. Thus, success of the proposal requires directly the backing of the assets of Applicant and indirectly the strength and reputation of its major subsidiary, Chemical Bank.

The Board has on numerous occasions stated that one of the primary purposes of a holding company is to serve as a source of financial strength for its subsidiary banks. In the Board's judgment a proposal such as the present to acquire an extremely leveraged company with very heavy requirements for funds could seriously impair that ability. With respect to the instant application, Company's need for funds, even assuming no growth, will require Applicant to increase its short-term borrowing by a substantial amount, i.e. to the point where Applicant's current liabilities would exceed current assets by a considerable margin if subsidiary banks are not consolidated. Chemical Bank has experienced rapid growth. Between year-end 1970 and year-end 1972 its assets increased from $11.0 billion to $15.3 billion. Even assuming that there is little growth in nonbanking activities in its system, such growth in the future will require Applicant to supply additional capital to its banks. An application such as the present, which substantially reduces the margin between debt use and debt capacity, would impair the ability to provide such capital.

The Board recognizes the public benefits that attach to the availability of suitable financing for nuclear fuel cores. However, the Board finds that there are a number of firms presently offering nuclear core financing and that there are no reasonably expected public benefits in this particular case such as greater convenience, increased competition, or gains in efficiency that outweigh the aforementioned possible adverse effects.

Based upon the foregoing and other considerations reflected in the record, the Board has determined that the public interest benefits that the Board is required to consider under section 4(c)(8) do not outweight possible adverse effects. Accordingly, the application is hereby denied.

By order of the Board of Governors,[3]

[SEAL] CHESTER B. FELDBERG,
Assistant Secretary of the Board.

[FR Doc.73-13967 Filed 7-9-73;8:45 am]

FIRST CITY BANCORPORATION OF TEXAS, INC.

Order Approving Acquisition of Bank

First City Bancorporation of Texas, Inc., Houston, Texas, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent of the voting shares (less directors' qualifying shares) of the successor to a merger of Texas Bank & Trust Company of Dallas, Dallas, Texas ("Texas Bank"), with New Texas Bank & Trust Company of Dallas, Dallas, Texas, a newly organized bank not in operation. The banks would merge under the charter and name of Texas Bank which is a member of the Federal Reserve System. Applicant has filed separate applications for approval to acquire a minority interest in each of the following banks in Texas: 24.2 percent of the voting shares of First Bank & Trust of Richardson, Richardson; 21.3 percent of the voting shares of First Bank & Trust Company, Cedar Hill; 18.1 percent of the voting shares of Central Bank and Trust Company, Farmers Branch; and 10 percent of the voting shares of Commercial National Bank of Dallas, Dallas (hereinafter referred to as "minority banks"). Each of said blocks of shares is presently held by

[2] The risk involved is that of default and liquidity since the payments on the leases vary with the interest rate on the commercial paper.

[3] Voting for this action: Chairman Burns and Governors Mitchell, Daane, Brimmer, Sheehan, Bucher and Holland.
effective June 29, 1973.

Texas Fiduciary, a trusteed affiliate of Texas Bank.

Notice of the applications, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the applications and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant controls 13 banks with aggregate deposits of approximately $1.7 billion, representing about 5.6 per cent of the aggregate deposits of commercial banks in Texas, and is the third largest banking organization and second largest multi-bank holding company in Texas.[1] Applicant also has interests in each of 13 other banks, ranging from .02 to 14.3 per cent of voting shares. Acquisition of control of Texas Bank ($239 million in deposits) and the interests in minority banks (whose deposits aggregate $57 million) would increase Applicant's share of Statewide deposits by only one percentage point and would not result in a significant increase in the concentration of banking resources in Texas. Applicant's ranking as a banking organization and bank holding company would remain unchanged.

Texas Bank is the fifth largest of 110 banks located in the Dallas banking market, which is approximated by the Dallas RMA,[2] and controls 3.7 per cent of the total deposits in commercial banks in that market. The percentage of deposits held by the minority banks is less than 1 per cent. There is no significant existing competition between Bank or any of the minority banks and any of Applicant's subsidiary offices. Applicant's banking subsidiary closest to downtown Dallas (First National Bank in Arlington) is 18 miles away in Arlington (Texas) which is between Dallas and Fort Worth, somewhat closer to Fort Worth, and that subsidiary controls less than 1 per cent of the market, on the basis of deposits. Upon consummation of the acquisition of control of Bank and the interests in minority banks,[3] Applicant's share of the Dallas RMA market would be increased to 5.6 per cent of deposits there. Applicant's lead bank is in Houston where Applicant controls 19 per cent of aggregate deposits in commercial banks.

Applicant's entry into the downtown Dallas area can be expected in view of Applicant's intention to expand into major markets across the State, and the existing ratio of persons per banking office and deposits per capita in the Dallas market, which conditions make this market attractive for expansion by Applicant. The method of entry to be used by Applicant can be either through acquisition of an existing bank or de novo. Applicant could enter the Dallas market through acquisition of a bank smaller than Texas Bank. Acquisition of a bank of the size of Texas Bank eliminates a possible vehicle for the formation of an additional Dallas-based bank holding company. Although these competitive considerations are not favorable to approval, other relevant considerations provide a basis for approval of the proposal herein.

The financial and managerial resources and future prospects of Applicant and its subsidiaries appear satisfactory. Concerning Texas Bank, however, in past years the financial condition and managerial resources of that bank have been cause for concern. Bank has a low liquidity position, and Bank's capital position lacks strength. Applicant has committed itself to an immediate injection of equity capital into Texas Bank, and the affiliation would make available to Bank a source of management personnel and expertise in banking services; and should enable Bank to provide more vigorous competition to the three largest banks in the Dallas market. Thus, consummation of the proposal herein should enhance substantially the prospects for Texas Bank and improve its financial conditions and competitive strength. It is the Board's judgment that considerations relating to the financial and managerial resources of Texas Bank lend substantial weight in favor of approval of the subject applications.

A strengthening of Bank through affiliation with Applicant should provide an additional source for sophisticated banking services in the Dallas area as well as added convenience for some customers in the area. Convenience and needs factors are consistent with and add some weight toward approval of the applications. It is the Board's judgment that consummation of the proposal would be in the public interest and the applications should be approved. However, the Board conditions its approval on Applicant's disposing of shares of Dart Oil (over 5 per cent) within two years from date of acquisition of shares of Texas Bank.

Consummation of its acquisition of Texas Bank would give Applicant control of all of the shares of Dart Oil, a wholly-owned subsidiary of Texas Bank's trusteed affiliate, Texas Fiduciary. The Board has been advised that Dart Oil shares originally were acquired by Texas Bank through a loan foreclosure. However, Dart Oil is engaged in an activity that is impermissible for a holding company under the provisions of the Bank Holding Company Act; and the Act does not provide for an indefinite holding of shares so acquired. Rather, the Act expressly provides for a limited period for holding shares acquired through a debt previously contracted. Accordingly, Applicant is required to dispose of the shares of Dart Oil (over 5 per cent) within the prescribed period.

On the basis of the record, the applications are approved for the reasons summarized above[4] and on condition that Applicant dispose of shares of Dart Oil (over 5 per cent) within two years from date of acquisition of shares of Texas Bank. The transaction shall not be consummated (a) before July 30, 1973, or (b) later than October 1, 1973, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Dallas pursuant to delegated authority.

By order of the Board of Governors,[5] effective June 29, 1973.

[SEAL] CHESTER B. FELDBERG,
Assistant Secretary of the Board.

[FR Doc.73-13972 Filed 7-9-73;8:45 am]

FIRST NATIONAL AGENCY OF AITKIN, INC.

Formation of Bank Holding Company and Proposed Retention of Insurance Agency

The First National Agency of Aitkin, Inc., Aitkin, Minnesota, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 80 percent of the voting shares of The First National Bank of Aitkin, Aitkin, Minnesota. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The First National Agency of Aitkin, Inc., has also applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to retain the assets of The First National Agency of Aitkin, Inc., Aitkin, Minnesota. Notice of the application was published on June 6, 1973, in the Aitkin Independent Age, a newspaper circulated in Aitkin, Minnesota.

Applicant states that it engages in the activities of a general insurance agency in a community of less than 5,000 people. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding com-

[1] All banking data are as of June 30, 1972, and reflect bank holding company formations and acquisitions approved by the Board through April 30, 1973.

[2] Dallas RMA is the Dallas Ranally Metro Area, which is defined as including all of Dallas County, the southwest portion of Collin County, the southeast portion of Denton County, the northern quarter of Ellis County, the eastern quarter of Tarrant County, and the northwest corner of Kaufman County.

[3] The Board's action herein does not constitute a determination that any of the minority banks is or may become a subsidiary of Applicant nor does the action herein indicate that the Board would in the future permit Applicant to acquire, directly or indirectly, any additional shares of any of said banks. Moreover, the determination herein does not preclude the Board from determining that Applicant exercises a controlling influence over the management or policies of any of said banks within the meaning of section 2(a) of the Act.

[4] Concurring Statement of Governor Brimmer filed as part of the original document. Copies available upon request to the Board of Governors of the Federal Reserve System or to the Federal Reserve Bank of Dallas.

panies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal under section 4(c)(8) can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The applications may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Minnesota.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than July 26, 1973.

Board of Governors of the Federal Reserve System, June 29, 1973.

Assistant Secretary of the Board.

[FR Doc.73-13975 Filed 7-9-73;8:45 am]

FIRST PENNSYLVANIA CORP.

Order Approving Acquisition of Aliquippa Finance Corp., Ellwood Finance Corp., and Beaver Falls Consumer Discount Company, Inc.

First Pennsylvania Corporation, Philadelphia, Pennsylvania, a bank holding company within the meaning of the Bank Holding Company Act, has applied in three separate applications for the Board's approval, under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y, to require all of the voting shares of (1) Aliquippa Finance Corporation, Aliquippa, Pennsylvania ("Aliquippa"); (2) Ellwood Finance Corporation, Ellwood City, Pennsylvania ("Ellwood"); and (3) Beaver Falls Consumer Discount Company Inc., Beaver Falls, Pennsylvania ("Beaver Falls"), companies held under common ownership and engaged in the activities of making, acquiring, and servicing consumer loans, and the sale of credit insurance directly related to such loans. Such activities have been determined by the Board to be closely related to the business of banking (12 CFR 225.4(a)(1), (3) and (9)).

Notice of these applications, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (38 FR 4368). The time for filing comments and views has expired, and none has been timely received.

Applicant (assets of $4.9 billion) controls one bank (First Pennsylvania Banking and Trust Company, Bala Cynwyd, Pennsylvania ($2.6 billion of deposits as of June 30, 1972), which is the second largest bank in Pennsylvania and the largest in the Philadelphia banking market, controlling approximately 8 per cent of the total deposits of commercial banks in the State. Applicant also has nonbanking subsidiaries engaged principally in mortgage banking, consumer financing, data processing, personal property and equipment leasing and in providing investment advisory services. The three finance companies Applicant proposes to acquire are all located in the far western portion of the State.

Aliquippa Finance Corporation and its subsidiary, Aliquippa Consumer Discount Company, Inc., operate one consumer finance office located in Aliquippa, Pennsylvania.

Aliquippa (assets of $830,000) operates in the Pittsburgh personal loan market, comprising all of Allegheny County and portions of Beaver, Westmoreland and Washington Counties. At least 48 consumer finance companies and approximately 40 commercial banks operate in this market.

Beaver Falls (assets of $671,000) operates a consumer finance business from one office located in Beaver Falls, Pennsylvania, also in the Pittsburgh personal loan market. Both Aliquippa and Beaver Falls finance companies have an insignificant share of the consumer loan business in this market.

Ellwood (assets of $1.1 million) and its subsidiary, Ellwood Consumer Discount Company, Inc. operate as consumer finance companies in Ellwood City, Pennsylvania. These companies operate in the New Castle, Pennsylvania personal loan market (which includes Lawrence County and portions of Beaver, Mercer and Butler Counties in Pennsylvania). At the present time, at least 10 consumer finance companies and nine commercial banks compete in this market with Ellwood for consumer loan business.

Neither of Applicant's finance company subsidiaries nor its banking subsidiary compete in either the Pittsburgh or New Castle personal loan markets. Therefore, consummation of these proposals will not eliminate any existing competition between Applicant and the companies sought to be acquired. In view of the large number of remaining competitors in the relevant markets, the many potential entrants in addition to Applicant, and the relevant case of entry into the consumer finance business, consummation of these transactions is not likely to have an adverse effect on future or potential competition. Moreover, because of the relatively small size and limited financial resources of the companies sought to be acquired, Applicant would not, upon consummation, have a significant share of either the Pittsburgh or New Castle markets. The proposed affiliations would make available to Beaver Falls, Aliquippa, and Ellwood finance companies Applicant's considerable financial resources, thereby permitting these companies to increase their lending activities—to the benefit of residents in their respective markets.

There is no evidence in the record that consummation of the proposed acquisitions would result in any undue concentration of resources, unfair competition, conflicts of interest, unsound banking practices, or other adverse effects.

The proposed transactions are expected to be consummated by means of an exchange by Applicant of its shares for all of the shares of the three finance companies. For the past few years, Applicant has engaged in a vigorous expansion program through the acquisition of many consumer finance companies throughout the United States. These acquisitions have been effected through acquisitions either by Applicant directly or by acquisition by one of Applicant's consumer finance subsidiaries. Two of Applicant's consumer finance subsidiaries, Investors Loan Corporation and Industrial Finance and Thrift Corporation were acquired by Applicant in 1970, and under the provisions of § 4(a)(2) of the Act, Applicant may not retain ownership of these companies beyond December 31, 1980, without Board approval. Applicant has not yet filed applications to retain shares of these companies, nor has the Board, in its consideration of the instant proposal, passed on the merits of such retention. Under these circumstances, the Board believes that it would be in the public interest to approve the acquisition of Beaver Falls, Ellwood, and Aliquippa finance companies on the condition that Applicant maintain the assets of these three consumer finance companies separate and apart from those of either Investors Loan Corporation or Industrial Finance & Thrift Corporation, and, upon consummation of these acquisitions, operate Beaver Falls, Ellwood and Aliquippa as separate business entities. This condition may be lifted at such time as the Board has an opportunity to make a determination on any application subsequently filed to retain the shares of Investors Loan or Industrial Finance corporations.

Accordingly, these applications are hereby approved on the condition that Applicant maintain the assets of Beaver Falls Consumer Discount Company, Inc., Aliquippa Finance Corporation, and Ellwood Finance Corporation, and their respective subsidiaries separate and apart from those of Investors Loan Corporation and Industrial Finance and Thrift Corporation and operate the companies sought to be acquired as separate business entities. This determination is further subject to the conditions as set forth in § 225.4(c) of Regulation Y and the Board's authority to require such modification or termination of the activities of the holding company or any of its subsidiaries as the Board finds necessary to insure compliance with the conditions and purposes of the Act and the Board's regulations and orders issued thereunder or to prevent evasion thereof.

By order of the Board of Governors,[1] effective June 29, 1973.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

[FR Doc.73-13973 Filed 7-9-73;8:45 am]

[1] Voting for this action: Chairman Burns and Governors Mitchell, Daane, Brimmer, Sheehan, Bucher, and Holland.

FIRST SECURITY CORP.

Order Approving Acquisition of Bank

First Security Corporation, Salt Lake City, Utah, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares (less directors' qualifying shares) of First Security Bank of Murray, N.A., Murray, Utah ("Bank"), a proposed new bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and none has been timely received. The Board has considered the application in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant is the largest banking organization in Utah with deposits of $620 million and controls 29.0 per cent of commercial bank deposits in the State. (All banking data are as of June 30, 1972.) Bank is a proposed de novo bank and its proposed office is on State Street and is the old downtown Murray branch of one of Applicant's subsidiaries. That subsidiary, First Security Bank of Utah, N.A., with approval from the Comptroller of the Currency, recently moved its downtown Murray office two miles south on State Street to a new shopping center.

Applicant controls $295 million, or 23 per cent, of the deposits in commercial banks in the relevant market area approximated by Salt Lake and Davis Counties, and thereby ranks first in size. Within a submarket encompassing the area within a two mile radius of Murray, Applicant is fourth in size and controls approximately 11 percent of the deposits in commercial banks in the submarket and operates two offices, one of which is two miles north of the proposed site of Bank, and the other of which is two miles south.

The town of Murray is situated three miles south of the city limits of Salt Lake City. The main street running north to Salt Lake is State Street. The present population of Murray is about 24,000 up from 21,000 at the 1970 census. The population is almost evenly divided between the north half (downtown Murray), and the south half (near the shopping center site of First Security Bank of Utah, N.A.). Murray is developing as a "bedroom community" along with the adjacent unincorporated area to the east. Commercial Security Bank, and Walker Bank and Trust Company, the seventh and second largest banking organizations in the State, respectively, compete in downtown Murray. Commercial Security controls approximately 40 percent of the deposits in commercial banks in the Murray submarket, and Walker Bank and Trust controls about 25 percent of deposits there. Valley Bank and Trust Company also competes in the submarket, and holds about 15 percent of the deposits there. Valley Bank has total Statewide deposits of about $88 million. In addition, a new unit bank, the United Bank of Utah, has been approved by the State Bank Commissioner and will be located about 1½ miles south of the proposed Murray Bank. If Applicant's proposal is granted, Applicant will operate three of the seven offices in the submarket (including the new United Bank). All of Applicant's offices will be on State Street, the main thoroughfare of Murray.

The Board notes that the three largest banks in Utah control 60 per cent of the commercial bank deposits in the State and 65 percent of the commercial bank deposits in the Salt Lake and Davis County market. In such markets, the Board is cognizant of the possibility that a holding company may be seeking to strengthen its position at the expense of a competitor, unduly raise the barriers to entry, or preempt a site. In this case, particularly in view of the expanding submarket in and around Murray, and the fact that at least one other bank has sought entry into the market, the Board is satisfied that such undesirable effects are unlikely to occur. Applicant's proposal to establish a new bank in Murray would eliminate no present or future competition between any of Applicant's subsidiaries and Bank, and there would be no immediate increase in banking concentration in the area. Based on the record, the Board finds that consummation of the proposal would have no adverse effects on competition in any relevant area.

The financial and managerial resources and future prospects of Applicant and its subsidiary banks appear satisfactory. Bank, which would at least initially be dependent upon assistance from Applicant, also has presented facts tending to show satisfactory financial and managerial resources and future prospects. Bank would serve as a more convenient source of banking for those residents who formerly banked downtown at the branch of First Security Bank of Utah, N.A. It is the Board's judgment that the proposed transaction would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before August 1, 1973, or (b) later than October 2, 1973, and (c) First Security Bank of Murray, N.A., Murray, Utah, shall be opened for business not later than January 2, 1973. Each of the periods described in (b) and (c) may be extended for good cause by the Board, or by the Federal Reserve Bank of San Francisco pursuant to delegated authority.

By order of the Board of Governors,[1] effective July 2, 1972.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

PATAGONIA CORPORATION

Determination Regarding "Grandfather" Privileges Under Bank Holding Company Act

Section 4 of the Bank Holding Company Act (12 U.S.C. 1843) provides certain privileges ("grandfather" privileges) with respect to nonbanking activities of a company that, by virtue of the 1970 Amendments of the Bank Holding Company Act, became subject to the Bank Holding Company Act. Pursuant to § 4(a)(2) of the Act, a "company covered in 1970" may continue to engage, either directly or through a subsidiary, in nonbanking activities that such a company was lawfully engaged in on June 30, 1968 (or on a date subsequent to June 30, 1968, in the case of activities carried on as a result of the acquisition by such company or subsidiary, pursuant to a binding written contract entered into on or before June 30, 1968, of another company engaged in such activities at the time of the acquisition), and has been continuously engaged in since June 30, 1968 (or such subsequent date).

Section 4(a)(2) of the Act provides, inter alia, that the Board of Governors of the Federal Reserve System may terminate such grandfather privileges if, having due regard to the purpose of the Act, the Board determines that such action is necessary to prevent an undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices. With respect to a company that controls a bank with assets in excess of $60 million on or after December 31, 1970, the Board is required to make such a determination within a two year period.

Notice of the Board's proposed review of the grandfather privileges of Patagonia Corporation, Tuscon, Arizona, and an opportunity for interested persons to submit comments and views or request a hearing, has been given (37 FR 22414). The time for filing comments, views, and requests has expired, and all those received have been considered by the Board in light of the factors set forth in § 4(a)(2) of the Act.

On the evidence before it, the Board makes the following findings. Patagonia Corporation ("Registrant"), Tucson, Arizona, became a bank holding company on December 31, 1970, as a result of the 1970 Amendments to the Act, by virtue of Registrant's ownership of all of the voting shares of Great Western Bank & Trust, ("Bank"), Phoenix, Arizona (assets of about $164 million, as of December 31, 1970). Registrant was a one-bank holding company prior to June 30, 1968. Bank had total deposits of approximately $177 million as of June 30, 1972, representing about 4 percent of the total deposits in commercial banks in Arizona and, in view of its size, Bank is not regarded as a significant competitor in the markets it serves.

Bank's management, financial condition, and prospects are regarded as satisfactory and the Board has found no evidence of unsound banking practices.

Registrant, a bank holding company

V38-131 JUL 10 73 XUM

with about $312 million in assets as of December 31, 1971, is engaged directly in no activity other than holding stock in its banking subsidiary and in nonbanking companies.[1] Registrant owns 100 per cent of the Navajo Insurance Agency, Inc. ("Agency"), Phoenix, Arizona, (acquired in October, 1968, pursuant to a binding written agreement entered into on February 28, 1968) a company offering insurance primarily in connection with loans made by Bank. As of December 31, 1970, Agency had $38,000 in assets and a net income of $1,600; and its present activities appear to be limited to servicing previously issued policies. The insurance activities of Agency appear to be eligible for grandfather benefits.

Registrant acquired (in December, 1969) 100 per cent of the voting shares of Pioneer Bancorporation ("Pioneer"), Phoenix, Arizona, a company engaged in acting as fire and casualty insurance underwriter and a lessor of office equipment to Bank. Since the interest in Pioneer was not acquired until after June 30, 1968, Registrant must reduce its holdings in Pioneer to 5 per cent or less of the outstanding voting shares by December 31, 1980, or secure Board approval under section 4(c)(8) to retain those shares.[2]

Registrant now owns 100 per cent of Pima Savings and Loan Association ("Prima"), Tucson, Arizona, the fifth largest savings and loan association in Arizona with savings deposits of about $101 million as of May 31, 1972. However, on June 30, 1968, Registrant held only 20.005 per cent of the stock of Pima; Registrant purchased the remaining shares of Pima during the period from June 30, 1968, to December 31, 1970. Accordingly, on the basis of grandfather benefits, Registrant may retain indefinitely its 20.005 per cent interest in Pima, and must reduce its holdings in Pima to that level by December 31, 1980, or secured Board approval under section 4(c)(8) of the Act to retain the additional shares of Pima.[3]

Registrant owns also 6.9 per cent of the voting shares of UB Financial Corporation, Phoenix, Arizona, a one-bank holding company that controls the United Bank of Arizona, Phoenix, Arizona, and was acquired after June 30, 1968. The activities of the company are limited to those of managing or controlling banks and other subsidiaries authorized under the Act or of furnishing services to or performing services for its subsidiaries. Registrant is not required to divest its interest in UB Financial.

Two indirect subsidiaries of Registrant, namely, Great Western Insurance Company, and Great Western Insurance Agency, both of Phoenix, are wholly-owned subsidiaries of Bank, but were acquired after June, 1968. On this basis, the companies are not entitled to indefinite grandfather benefits, but may be eligible for retention on the basis of being operation subsidiaries of the bank and § 225.4(e) of the Board's Regulation Y, provided they meet the definition of operation subsidiary.[4]

On the basis of the foregoing and all the facts before the Board, it appears that the volume, scope, and nature of the activities of Registrant and its grandfathered subsidiaries do not demonstrate an undue concentration of resources, decreased or unfair competition, conflicts of interest, nor unsound banking practices; and, accordingly, there appears to be no reason to require Registrant to terminate its grandfather interests. However, this determination is not authority to enter into any activity that was not engaged in on June 30, 1968, and continuously thereafter, nor any activity that is not the subject of this determination.

A significant alteration in the nature or extension of Registrant's activities or a change in location thereof (significantly different from any described in this determination) will be cause for a re-evaluation by the Board of Registrant's activities under the provisions of § 4(a)(2) of the Act, that is, whenever the alteration or change is such that the Board finds that a termination of the grandfather privileges is necessary to prevent an undue concentration of resources or any of the other evils at which the Act is directed. No merger, consolidation, acquisition of assets other than in the ordinary course of business, nor acquisition of any interest in a going concern, to which the Registrant or any nonbank subsidiary thereof is a party, may be consummated without prior approval of the Board. Further, the provision of any credit, property, or service by the Registrant or any subsidiary thereof shall not be subject to any condition which, if imposed by a bank, would constitute an unlawful tie-in arrangement under section 106 of the Bank Holding Company Act Amendments of 1970.

The determination herein does not preclude a later review by the Board of Registrant's nonbank activities and a future determination by the Board in favor of termination of grandfather benefits of Registrant.[5] The determination herein is subject to the Board's authority to require modification or termination of the activities of Registrant or any of its nonbanking subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasions thereof.

By determination of the Board of Governors,[6] effective June 29, 1973.

[SEAL] CHESTER B. FELDBERG,
Assistant Secretary of the Board.

[FR Doc.73-13968 Filed 7-9-73;8:45 am]

PATAGONIA CORP.

Order Approving Acquisition of Western American Mortgage Company

Patagonia Corporation, Tucson, Arizona, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y, to acquire all of the voting shares of Western American Mortgage Company, Phoenix, Arizona ("Western Mortgage"), a company that engages in the activities of originating residential mortgages and mortgages on commercial real estate for sale to permanent investors; servicing of mortgages for permanent investors; and interim lending for land development and construction financing where the loan will be sold to a permanent investor. Such activities have been determined by the Board to be closely related to the business of banking (12 CFR 225.4(a)(1) and (3)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (38 FR 3013). The time for filing comments and views has expired, and the Board has considered all comments received in the light of the public interest factors set forth in section 4(c)(8) of the Act (12 U.S.C. 1843(c)(8)).[1]

---

[1] The discussion herein relates only to Registrant's interests as of December 31, 1970, and does not include acquisitions that may have been consummated pursuant to a Board order under § 4(c)(8) of the Act.

[2] Leasing office equipment to Bank appears to be permissible on the basis of § 4(c)(1)(C) of the Act.

[3] Operation of a savings and loan association is not currently on the Board's list of permissible activities for a bank holding company.

[4] Section 225.4(e) of Regulation Y provides in part that, so far as Federal law is concerned, a State bank or a subsidiary thereof may ". . . acquire or retain all (but, except for directors' qualifying shares, not less than all) of the shares of a company that engages solely in activities in which the parent bank may engage, at locations at which the bank may engage in the activity, and subject to the same limitations as if the bank were engaging in the activity directly."

[5] Statement of Governor Brimmer Concurring in Part and Dissenting in Part filed as part of the original document. Copies available upon request to the Board of Governors of the Federal Reserve System, Washington, D.C. 20551, or to the Federal Reserve Bank of San Francisco.

[6] Voting for this action: Chairman Burns and Governors Mitchell, Daane, Sheehan, Bucher, and Holland. Concurring in part and dissenting in part: Governor Brimmer.

[1] The published notice of this application included notice of a related application to acquire Western American Insurance Agency, Phoenix, Arizona, and thereby to engage in certain insurance agency activities; however, in light of objections to these insurance activities, Applicant requested that the Board consider the applications separately. Accordingly, the Board's Order herein deals only with the proposed acquisition of Western American Mortgage Company. Applicant's request for Board approval to acquire Western American Insurance Agency is still pending.

Applicant's banking subsidiary, Great Western Bank & Trust ("Great Western"), is the fifth largest bank in Arizona with aggregate deposits of approximately $207 million representing 4 per cent of total commercial bank deposits in the State.[2] Applicant also has nonbanking subsidiaries engaged principally in consumer finance activities, leasing of personal property and equipment, and operating a savings and loan association. Great Western and Applicant's savings and loan association subsidiary, Pima Savings & Loan Association, Tucson, Arizona ("Pima") ($113 million in savings deposits as of December 31, 1972), are engaged in extending mortgage loans. Neither Great Western nor Pima services loans for others.

Western Mortgage originated approximately $29 million of mortgage loans during the first six months of 1972 and based upon a mortgage servicing portfolio of approximately $245 million (as of June 30, 1972), Western ranks as the 96th largest mortgage firm in the country. Consummation of the proposal will eliminate some existing competition between Applicant's subsidiaries (Great Western and Pima) and Western Mortgage in the one-four family residential mortgage origination product market in Maricopa and Pima Counties. In Maricopa County, Applicant's subsidiaries held 0.5 per cent of mortgage originations ($4 million) and Western Mortgage originated 3.3 per cent ($27.7 million) of such mortgages. In Pima County, Applicant's subsidiaries accounted for 3.5 per cent ($13.1 million) of such mortgages and Western Mortgage's share was 1.7 per cent ($6.3 million).[3]

There are over 40 mortgage lending and servicing competitors in Maricopa County; over 27 in Pima County. Included in both markets are offices of the four largest banks in Arizona. Also present in Maricopa County are offices of seven of the ten largest mortgage companies in the country, which companies have aggregate annual mortgage servicing volume in excess of $13 billion. Three of the ten largest mortgage companies in the country are represented in Pima County, including the largest in the country. Twenty-four of the over 40 mortgage banking competitors in Maricopa County also originate permanent one-four family residential mortgage loans; in Pima County, over 20 of the mortgage banking competitors also originate such mortgage loans. Due to the large number of competitors in both markets and the localized nature of Western Mortgage's business, it is concluded that consummation of the proposal would have no significant adverse effects on existing or potential competition.

Arizona's need for an increasing supply of mortgage funds, including financing of large scale developments, seems clear. During the decade of the '60's, Arizona's population increased approximately 36 per cent (against a national average of slightly more than 13 per cent), while Maricopa County's increase was about 45 per cent, and Pima County grew by 32 per cent. The rate in Arizona is expected to continue at high levels. Applicant proposes to immediately increase Western Mortgage's capital by about $700,000 and consummation of the proposed acquisition would provide Western Mortgage with continued access to financial and other resources of Applicant that would enable it to provide more effectively for those needs resulting from growth and at the same time enable it to compete more effectively for large commercial and construction loans in the State.

In its consideration of this case the Board has taken into account Applicant's commitment to increase the equity capital of its banking subsidiary. There is no evidence in the record indicating that consummation of the proposed acquisition would result in undue concentration of resources, unfair competition, conflicts of interest, unsound banking practices, or other adverse effects.

Based upon the foregoing and other considerations reflected in the record, the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable. Accordingly, the application is hereby approved.[4] This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

By order of the Board of Governors,[5] effective June 29, 1973.

[SEAL] CHESTER B. FELDBERG,
Assistant Secretary of the Board.

[FR Doc.73-13969 Filed 7-9-73;8:45 am]

STATE STREET BOSTON FINANCIAL CORPORATION

Order Approving Acquisition of Bank

State Street Boston Financial Corporation, Boston, Massachusetts, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 100 per cent of the voting shares (less directors' qualifying shares) of the successor by merger to Union National Bank, Lowell, Massachusetts ("Bank"). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant is a one-bank holding company and is the fourth largest banking organization and bank holding company in Massachusetts, with aggregate deposits of $988 million representing 8.5 per cent of total deposits of commercial banks in the State.[1] Consummation of the proposed acquistion of Bank (deposits of approximately $153 million) would increase Applicant's share of commercial bank deposits in Massachusetts by only 1.3 percentage points and its ranking would be unchanged. The proposed acquisition represents Applicant's initial move outside Suffolk County.

Bank is the largest of ten banks competing in the Lowell banking market which includes the Lowell SMSA and several surrounding towns, and controls 67.7 per cent of market deposits. Bank has six offices in the City of Lowell and an additional ten branches are scattered throughout its banking market. Bank's dominant share of deposits overstates its competitive position in the market. The second and third largest bank holding companies in the State have banking subsidiaries in the market accounting for ten banking offices. One of these, Baystate Corporation, has branch offices of two subsidiary banks represented in the market controlling in the aggregate 17 per cent of market deposits. Each of these banks is larger than Bank and the holding company subsidiaries in the market are clearly competitive with Bank. Additionally, taking into account particular product lines, Bank's competitive position is also overstated. For example, taking into account the savings banks in the market, Bank's market share of deposits is only approximately 29 per cent. Finally, as discussed later, considerations related to the financial and managerial resources of Bank diminish its competitive ability.

Applicant's present subsidiary bank's closest banking office to Bank is about 18 miles away. Applicant's present subsidiary operates 18 banking offices in the separate but adjoining Boston SMSA banking market. There is no significant existing competition between Bank and

---

[2] All banking data are as of December 31, 1972.

[3] Maricopa County and Pima County market share data are as of year-end 1972.

[4] Western American Realty & Investment Co. and Thunderbird Country Club, Inc., both wholly-owned subsidiaries of Western Mortgage, will not be acquired by Applicant, but will be spun off prior to Applicant's acquisition of Western Mortgage.

[5] Voting for this action: Chairman Burns and Governors Mitchell, Daane, Brimmer, Sheehan, Bucher, and Holland.

[1] All banking data are as of June 30, 1972, and reflect bank holding company formations and acquisitions approved by the Board through May 31, 1973.

V 38 131 JUL 10 73 XUM

any of Applicant's subsidiary offices. Applicant's banking subsidiary, State Street Bank and Trust Company ("State Street"), is primarily a wholesale bank, as evidenced by the fact that of its commercial and industrial loan accounts, 90 per cent are accounts over $100,000 and 70 per cent of its total deposits and 67 per cent of its total IPC demand deposits were comprised of accounts in excess of $100,000. Bank, on the other hand, is primarily a retail bank. State Street derives 2.6 per cent of its IPC demand deposits and 0.5 per cent of its savings deposits from the Lowell market. A similar insignificant amount of Bank's deposits are derived from the Boston SMSA. Accordingly, it is the Board's opinion that consummation of this proposal will not eliminate significant existing competition.

In its consideration of this matter, the Board has taken into account the comments of the United States Department of Justice, which concluded that the proposal would have a significantly adverse effect on potential competition in the Lowell banking market and in Massachusetts generally. This recommendation was due to the Department's view that the Lowell market is attractive for entry either de novo or by a foothold entry. The Department was also of the view that consummation of the proposal would eliminate the possibility that Bank would be a significant participant in a new Statewide holding company.

While the population of the Lowell market increased 30 per cent between 1960 and 1970 it is presently experiencing high levels of unemployment. This is due to a decline in the textile and aerospace industries and is expected to remain a problem in the near future. In view of this, the Board cannot conclude that the area is attractive enough for de novo entry so that Applicant is a probable de novo entrant. However, it does appear that there are two smaller organizations in the market which could provide foothold entry either for Applicant or the largest banking organization in the State and in the absence of the considerations related to Bank discussed below, the Board would consider the proposal as having an adverse effect on potential competition in the market. With respect to the effect on probable future competition in the Commonwealth of Massachusetts, the Board does not regard Bank, because of its condition, as a likely significant participant in a newly formed holding company.

The financial and managerial resources and prospects of Applicant and its existing subsidiary bank are satisfactory and consistent with approval of the application. The financial and managerial resources of Bank are considered to be poor. Bank has experienced substantial loan losses since 1967 and in every year except 1969 these losses have increased. Due to these losses and deposit growth over the five year period, Bank's capital to deposit ratio has declined and it is presently in need of capital. Bank's President is beyond retirement age and there does not appear to be a likely successor. Further, in view of Bank's recent difficulties, management is in need of strengthening. In view of Bank's present situation and the economic decline of the Lowell area, the Board regards Bank's prospects, absent the acquisition, as poor. The Comptroller of the Currency has advised that:

> It is clear that if Union National Bank is to solve its present problems it must merge or associate with a banking organization substantially larger than itself.

Applicant proposes to strengthen Bank's equity capital base by a minimum of $2.0 to $2.5 million within six months of consummation. Further, it will immediately strengthen management. Prospects of Bank with Applicant's assistance appear to be favorable and these considerations provide strong weight toward approval of the application.

There is no evidence on the record that any major banking needs of the market are presently going unserved. However, Bank is not presently competitive in providing many services. Bank has limited hours, does not offer credit cards, free checking accounts and certain forms of deposit accounts. It also does not seem to be seeking new business accounts. Applicant will update Bank's services, making them more responsive to the needs of its customers. These considerations provide weight toward approval. It is the Board's judgment that the proposed transaction is in the public interest and should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before July 30, 1973, or (b) later than October 1, 1973, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Boston pursuant to delegated authority.

By order of the Board of Governors,[2] effective June 29, 1973.

[SEAL] CHESTER B. FELDBERG,
Assistant Secretary of the Board.

[FR Doc.73-13970 Filed 7-9-73;8:45 am]

TEXAS BANK & TRUST COMPANY OF DALLAS

Order Approving Application for Merger of Banks

Texas Bank & Trust Company of Dallas, Dallas, Texas, a State member bank of the Federal Reserve System, has applied for the Board's approval pursuant to the Bank Merger Act (12 U.S.C. 1828 (c)) of the merger of that bank with New Texas Bank & Trust Company of Dallas, Dallas, Texas, under the charter and title of Texas Bank & Trust Company of Dallas.

As required by the Act, notice of the proposed merger, in form approved by the Board, has been published, and the Board has requested reports on competitive factors from the Attorney General, the Comptroller of the Currency, and the Federal Deposit Insurance Corporation. The Board has considered the application in light of the factors set forth in the Act.

On the basis of the record, the application is approved for the reasons summarized in the Board's Order of this date relating to the application of First City Bancorporation of Texas, Inc., to acquire Texas Bank & Trust Company of Dallas, provided that said merger shall not be consummated (a) before July 30, 1973, or (b) later than Oct. 1, 1973, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Dallas pursuant to delegated authority.

By order of the Board of Governors,[1] effective June 29, 1973.

[SEAL] CHESTER B. FELDBERG,
Assistant Secretary of the Board.

[License No. 03/03-5112]

GREATER PHILADELPHIA VENTURE CAPITAL CORPORATION, INC.

Filing of Application for Approval of Conflict of Interest Transaction

Notice is hereby given that Greater Philadelphia Venture Capital Corporation, Inc. (licensee), 225 South 15th Street, Philadelphia, Pennsylvania 19102, a small business investment company licensed under section 301(d) of the Small Business Investment Act of 1958, as amended (the Act), has filed with the Small Business Administration an application for exemption from the provisions of 13 CFR 107.1004 (1973).

Licensee proposes to make a 10-year loan in the principal amount of $150,000 to Broadcast Enterprises Network, Inc. (BENI), a corporation recently organized for the purpose of acquiring and operating radio and television stations. The loan will include warrants for licensee to acquire 10 percent of BENI's capital stock. Licensee's proposed loan is only a minor part of the total financing being raised, of which $2,525,000 will be from banks and approximately $375,000 from individual sources.

The proposed financing comes within the purview of 13 CFR 107.1004 (1973) by virtue of the fact that Mr. Ragan A. Henry, secretary and director of the licensee, will invest in and acquire approximately 51 percent of the common stock of BENI.

Notice is hereby given that any person may, not later than July 25, 1973, submit comments to SBA on the proposed transaction. Any such comments should be addressed to the Deputy Associate Administrator for Investment, Small Business Administration, 1441 L Street, NW., Washington, D.C. 20416.

Notice is further given that any time after said date, SBA may dispose of the application on the basis of the information set forth therein and other relevant data.

JAMES THOMAS PHELAN,
Deputy Associate Administrator for Investment.

Dated: June 28, 1973.

BGS SHOE CORP.

Petition for Determination; Notice of Investigation and Hearing

On the basis of a petition filed under section 301(a)(2) of the Trade Expansion Act of 1962 on behalf of the BGS Shoe Corporation, Manchester, New Hampshire, the United States Tariff Commission, on July 3, 1973, instituted an investigation under section 301(c)(1) of the said Act to determine whether, as a result in major part of concessions granted under trade agreements, articles like or directly competitive with footwear (of the types provided for in items 700.20, 700.43, 700.45, 700.53, and 700.55 of the Tariff Schedules of the United States) produced by the aforementioned firm, are being imported into the United States in such increased quantities as to cause, or threaten to cause, serious injury to such firm.

A public hearing in connection with this investigation will be held beginning at 10:00 a.m., e.d.t. on July 27, 1973, in the Hearing Room, U.S. Tariff Commission Building, 8th and E Streets, N.W., Washington, D.C. Requests for appear-

V 38 - 131 JUL 10 73 XUM

ances at the hearing should be received by the Secretary of the Tariff Commission, in writing, at his office in Washington, D.C., no later than noon, Friday, July 20, 1973.

The petition filed in this case is available for inspection at the Office of the Secretary, United States Tariff Commission, 8th and E Streets, N.W., Washington, D.C. 20436, and at the New York City office of the Tariff Commission located in Room 437 of the Customhouse.

Issued: July 5, 1973.

By order of the Commission.

[SEAL] KENNETH R. MASON, *Secretary.*

[FR Doc.73-14008 Filed 7-9-73;8:45 am]

DEPARTMENT OF LABOR

Office of the Secretary

JOHNSON SHOES, INC.; MANCHESTER, N.H.

Notice of Certification of Eligibility of Workers To Apply for Adjustment Assistance

Under date of April 20, 1973, the U. S. Tariff Commission made a report of the results of its investigation (TEA-W-186) under section 301(c)(2) of the Trade Expansion Act of 1962 (76 Stat. 884)in response to a petition for determination of eligibility to apply for adjustment assistance on behalf of the workers of Johnson Shoes, Inc., Manchester, New Hampshire. In this report, the Commission, being equally divided, made no finding with respect to whether articles like or directly competitive with the footwear for women produced by Johnson Shoes, Inc. are, as a result in major part of concessions granted under trade agreements, being imported into the United States in such increased quantities as to cause, or threaten to cause unemployment or underemployment of a significant number or proportion of the workers of such firm, or an appropriate subdivision thereof. The President subsequently decided, under the authority of section 330(d)(1) of the Tariff Act of 1930, as amended, to consider the findings of those Commissioners who found in the affirmative as the finding of the Commission.

Upon receipt of the President's authorization, the Department, through the Director of the Office of Foreign Economic Policy, Bureau of International Labor Affairs instituted an investigation.

Following this, the Director made a recommendation to me relating to the matter of certification (Notice of Delegation of Authority and Notice of Investigation, 34 FR 18342; 37 FR 2472; 38 FR 15484; 29 CFR Part 90). In the recommendation she noted that concession generated imports like or directly competitive with women's footwear produced by Johnson Shoes, Inc. increased substantially. Beginning in 1968 the exclusive buyer of Johnson Shoes Inc.'s output increased its imports of women's footwear and reduced purchases from Johnson Shoes, Inc. The company was able to offset to a large extent the loss of sales to its major buyer by aggressively seeking and obtaining new accounts. In the period 1969-72 Johnson Shoes, Inc.'s major buyer as well as some newer customers turned increasingly to imports. Selling and administrative expenses rose sharply and the company sustained increasing losses as a consequence of efforts to maintain sales levels through the servicing of many small accounts. Reductions in employment levels directly related to import competition began in the latter part of May 1972 and continued through October 1972 when the firm was liquidated. After due consideration I make the following certification:

All hourly, piecework, and salaried employees of Johnson Shoes, Inc., Manchester, New Hampshire, who became unemployed or underemployed after May 26, 1972 and before October 27, 1972 are eligible to apply for adjustment assistance under Title III, Chapter 3, of the Trade Expansion Act of 1962.

Signed at Washington, D.C. this 29th day of June 1973.

JOEL SEGALL, *Deputy Under Secretary for International Affairs.*

Occupational Safety and Health Administration

STANDARDS ADVISORY COMMITTEE ON NOISE

Notice of Meeting

Notice is hereby given that the Standards Advisory Committee on Noise, established under section 7(b) of the Williams-Steiger Occupational Safety and Health Act of 1970 (29 U.S.C. 656), will meet on Thursday, August 9, 1973, Friday, August 10, 1973, and Saturday August 11, 1973, starting at 9:00 a.m. each day in the Given Auditorium, Bixler Building, Colby College, Waterville, Maine.

The agenda provides for discussion of Working Draft II with a view towards making recommendations on the final draft of a revised occupational safety and health standard on noise.

The meeting shall be open to the public. Written data, views, or arguments concerning the subject to be considered may be filed, together with 20 copies thereof, with the Committee's Executive Secretary by August 1, 1973. Any such submissions, timely received, will be provided to the members of the committee and will be included in the record of the meeting.

Persons wishing to orally address the committee at the meeting should submit a written request to be heard, together with 20 copies thereof, no later than August 1, 1973. The request must contain a short summary of the intended presentation and an estimate of the amount of time that will be needed. At the meeting the chairman will announce whether oral presentations will be allowed, and, if so, under what conditions.

Communications should be addressed as follows:

Executive Secretary
Standards Advisory Committee on Noise, OSHA-OSMC
Railway Labor Building—Room 509
U.S. Department of Labor
Washington, D.C. 20210.

Signed at Washington, D.C. this 3rd day of July 1973.

JOHN STENDER, *Assistant Secretary of Labor.*

[FR Doc.73-14011 Filed 7-9-73;8:45 am]

CONSTRUCTION SAFETY ADVISORY COMMITTEE

Notice of Meeting

Notice is hereby given that the Construction Safety Advisory Committee, established under section 107(e) of the Contract Work Hours and Safety Standards Act (40 U.S.C. 333) and section 7(b) of the Williams-Steiger Occupational Safety and Health Act of 1970 (20 U.S.C. 656), will meet on Wednesday, July 25, 1973, starting at 9 a.m. in Room 216 A, B, C, and D, Main Labor Building, 14th and Constitution Avenue, NW., Washington, D.C. The meeting shall be open to the public.

The Committee will continue its consideration of proposed amendments to 29 CFR 1926.602(a)(5) and (8) that require the installation of fenders on pneumatic-tired earthmoving haulage equipment. The Committee will also continue its consideration of the proposed amendments to the standards for tunnels and shafts (subpart S, 29 CFR 1926.800) and proposed standards for personnel and material chimney hoists. Copies of the draft papers are available for inspection and copying in the Executive Secretary's office at the address given below.

Written comments in addition to those already submitted to the Committee in response to a previous notice (38 FR 14991, June 7, 1973) may be submitted to to the Executive Secretary not later than July 17, 1973.

No opportunity for oral comments will be provided in the scheduled meeting. Such an opportunity was provided in the Committee's June 19 meeting on these subjects.

Communications to the Executive Secretary should be addressed as follows:

Executive Secretary
Standards Advisory Committee, OSHA-OSMC
Railway Labor Building—Room 509
U.S. Department of Labor
Washington, D.C. 20210

Signed at Washington, DC. this 6th day of July, 1973.

JOHN STENDER, *Assistant Secretary of Labor.*

[FR Doc.73-14188 Filed 7-9-73;11:35 am]

STANDARDS ADVISORY COMMITTEE ON CARCINOGENS

Notice of Meetings

Notice is hereby given that the Standards Advisory Committee on Carcinogens, established under section 7(b) of the Williams-Steiger Occupational Safety and Health Act of 1970 (29 U.S.C. 656), will meet on the following dates: Thursday, July 12, 1973 and Friday, July 13, 1973; Thursday, July 19, 1973, and Friday, July 20, 1973; and Wednesday, July 25, 1973, and Thursday, July 26, 1973. All of the above listed meetings will be held in Hearing Room B, Interstate Commerce Commission, 12th & Constitution Avenue, NW., Washington, D.C. and starting time on each of these dates will be 9:00 a.m.

The Committee will hear from witnesses invited by the Occupational Safety and Health Administration at the request of the Committee to make oral presentations concerning their knowledge of carcinogens.

The agenda provides for further discussion by the committee of the development of recommendations for a standard on carcinogens.

The meetings shall be open to the public. Written data, views, or arguments concerning the subject to be considered may be filed, together with 20 copies thereof, with the Committee's Executive Secretary up to the close of business on July 25, 1973. Submissions timely received will be provided to the members of the Committee and will be included in the record of the meetings.

Oral comments from persons other than the invited witnesses may be made to the extent that the committee permits. Persons wishing to make oral comments should submit a written request to be heard, together with 20 copies thereof, to the Executive Secretary as soon as is practical before the beginning of the first day of each two-day meeting. The request must contain a short summary of the intended presentation and an estimate of the amount of time that will be needed. At the meeting the chairman will announce whether oral presentation will be allowed, and, if so, under what conditions.

All written communications should be addressed as follows:

Milton W. Umbenhouer, Acting Executive Secretary
Standards Advisory Committees, OSHA-OSMC
Railway Labor Building, Room 509
U.S. Department of Labor
Washington, D.C. 20210

Signed at Washington, D.C. this 9th day of July 1973.

JOHN STENDER, *Assistant Secretary of Labor.*

ASSIGNMENT OF HEARINGS

JULY 5, 1973.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after the date of this publication.

AB-1 Sub 11, Chicago & North Western Transportation Company Abandonment between Hayfield and Austin, In Dodge and Mower Counties Minnesota, now assigned July 12, 1973, at Austin, Minn., is postponed indefinitely.

AB-1 Sub 9, Chicago and North Western Transportation Company Abandonment Between Wren, Iowa, and Iroquois, South Dakota, in Sioux and Plymouth Counties, Iowa, and Union, Lincoln, Turner, McCook, Miner and Kingsbury Counties, South Dakota, now assigned continued hearings on July 17, 1973, at Salem, S. Dak., July 18, 1973, at Hawarden, Iowa, and July 19, 1973, at Beresford, S. Dak., all hearings postponed indefinitely.

AB-5 Sub 138, George P. Baker, Richard C. Bond, and Jervis Langdon, JR., Trustees of the Property of Penn Central Transportation Company, Debtor, Abandonment Operations Portion Fort Wayne Branch Between Lynn and Ridgeville, Randolph County, Indiana, AB-5 Sub 139, George P. Baker, Richard C. Bond, and Jervis Langdon, Jr., Trustees of the Property of Penn Central Transportation Company, Debtor, Abandonment Operations Portion Ridgeville, Secondary Track Between Portland and Monroe, Jay Adams Counties, Indiana, now assigned July 25, 1973, at Portland, Ind., is postponed indefinitely.

AB-1 Sub 6, Chicago and North Western Transportation Company Abandonment Between Tekamah and Lyons, Bert County, Nebraska, now assigned July 30, 1973, at Omaha, Nebr., is postponed indefinitely.

MC-138991 Sub 1, Southeastern Tank Lines, Inc., application is dismissed.

I&S-M-26629, Classification Ratings on Collapsible Metal Tubes, Nationwide, now assigned July 18, 1973, at Washington, D.C., is postponed to August 23, 1973, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC-C-8051, Larry M. Hays, DBA Larry Hays Trucking Company—Investigation and revocation of certificates—, now assigned September 6, 1973, at Oklahoma City, Okla., is cancelled.

FEDERAL POWER COMMISSION

[Docket No. ID-1596]

PUBLIC UTILITIES; MULTIPLE DIRECTORSHIPS

Notice of Applications

JULY 3, 1973.

Take notice that the following applications were filed on the stated dates, pursuant to section 305(b) of the Federal Power Act, for authority to hold the position of officer or director of more than one public utility, or the position of officer or director of a public utility and officer or director of a firm authorized to market utility securities, or the position of officer or director of a public utility and officer or director of a company supplying electric equipment to such public utility.

Any person desiring to be heard or to make any protest with reference to said applications should on or before July 16, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to the proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

[FR Doc.73-13916 Filed 7-9-73;8:45 am]

[Docket No. CI73-900]

ADOBE OIL CO.

Notice of Application

JULY 3, 1973.

Take notice that on June 18, 1973, Adobe Oil Company (Applicant), 601 Gihls Tower East, Midland, Texas 79701, filed in Docket No. CI73-900 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Transwestern Pipeline Company from the Rock Tank (Morrow) Field, Eddy County, New Mexico, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it will have commenced the sale of natural gas by June 20, 1973, within the contemplation of §157.29 of the Regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue such sale for one year from the end of the sixty-day emergency period within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70). Applicant proposes to sell up to 8,000 Mcf of gas per day at 54.25 cents per Mcf at 14.65 psia, subject to upward and downward Btu adjustment.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protest and petitions to intervene. Therefore,

Any person desiring to be heard or to make any protest with reference to said application should on or before July 16 file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13913 Filed 7-9-73;8:45 am]

[Docket No. E-8286]

ALCOA GENERATING CORP.

Notice of Amendment of Agreement

JULY 3, 1973.

Take notice that Alcoa Generating Corporation (Alcoa) on June 21, 1973, tendered for filing, proposed changes to Alcoa-Supplement No. 4 to Rate Schedule FPC No. 1. The proposal requests the changes be retroactively effective as of April 9, 1973.

Alcoa states that the proposal will extend the life of Supplement No. 4 of Rate Schedule FPC No. 1 from its prior expiration date of April 13, 1973, to run concurrently with the life of Alcoa-Rate Schedule FPC No. 2. The latter agreement is terminable at the will of any of the parties to it.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 19, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13941 Filed 7-9-73;8:45 am]

[Docket No. CI73-758]

BASIN PETROLEUM CORP.

Order Setting Matter for Hearing, Permitting Intervention, Prescribing Procedures and Fixing Date of Hearing

JUNE 26, 1973.

On April 15, 1971, the Commission, acting pursuant to the authority of the National Gas Act, as amended, particularly sections 4, 5, 7, 8, 10, and 16 thereof (52 Stat. 822, 823, 824, 825, 826, 830; 56 U.S.C. sections 717c, 717d, 717f, 717g, 717l, and 717), issued Order 431 promulgating a Statement of General Policy with respect to the establishment of measures to be taken for the protection of a reliable and adequate service as present natural gas supplies and capacities will permit.

Basin Petroleum Corporation (Basin) has filed, in the above-entitled Docket No. CI73-758, an application, pursuant to section 7(c) of the Natural Gas Act and Order No. 431 in Docket No. 418, for a limited-term certificate of public convenience and necessity with pregranted abandonment, authorizing the operation of certain facilities for the sale of emergency gas to Texas Eastern Transmission Corporation (Texas Eastern).

The limited-term certificate application provides that Basin sell approximately 5,000 Mcf per day for a term of six (6) months. The contractually agreed rate is 50.0¢ at 15.025 psia, subject to upward Btu adjustment from a base of 1000 Btu's.

In Order 431, the Commission amended part 2, subchapter A, General Rules, chapter I, title 18 of the Code of Federal Regulations by adding a new § 2.70, which reads:

(3) The Commission recognizing that additional short-term gas purchases may still be necessary to meet the 1971-1972 demands, will continue the emergency measures referred to earlier for the stated 60-day period. If the emergency purchases are to extend beyond the 60-day period, paragraph 12 in the Notice issued by the Commission on July 17, 1970, in Docket No. R-389-A should be utilized (35 FR 11638). The Commission will consider if the pipeline demonstrates emergency need . . .

Paragraph 12 of R-389-A provided, in part, that applicants, requesting certificates for sales of natural gas in excess of the ceiling or guideline rate, shall state the grounds for claiming that the present or future public convenience and necessity requires issuance of a certificate on the terms proposed in the application.

The application in this proceeding represents a sizable volume of gas potentially available to the interstate market. It is of critical importance that interstate pipelines procure emergency supplies of gas to avoid disruption of service to consumer nevertheless, we must determine whether the rate to be paid serves the public convenience and necessity. It is therefore necessary that this application be set for public hearing and expeditious determination. The hearing will be held to allow presentation, cross-examination, and rebuttal of evidence by any participant. This evidence should be directed to the issue of whether the present or future public convenience and necessity requires issuance of a limited-term certificate on the terms proposed in that application.

Pursuant to the notice of the instant application, Texas Eastern and Algonquin Gas Transmission Company (Algonquin) filed petitions to intervene.

The Commission finds: (1) Good cause exists to set for formal hearing the application for a limited-term certificate herein.

(2) It may be in the public interest to permit Texas Eastern and Algonquin, which filed timely petitions, to intervene in this proceeding.

The Commission orders: (A) The application for limited-term certificate for sale of natural gas filed in Docket No. CI73-758 is hereby set for hearing.

(B) Pursuant to the authority contained in and subject to the authority conferred upon the Federal Power Commission by the Natural Gas Act, including particularly sections 7, 15, and 16, and the Commission's rules and regulations under that Act, a public hearing shall be held commencing, July 26, 1973, at 10:00 a.m. (e.d.t.) at a hearing room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, concerning whether the present or future convenience and necessity requires the issuance of a limited-term certificate for the sale of natural gas on the terms proposed in this application and whether the issuance of said certificate should be conditioned in any way.

(C) Texas Eastern Transmission Corporation and Algonquin Gas Transmission are hereby permitted to become intervenors, subject to the Rules and Regulations of the Commission: *Provided, however*, That participation of such intervenors shall be limited to matters affecting asserted rights and interests as specifically set forth in the petitions to intervene; and, *Provided, further*, That the admission of such intervenors shall not be construed as recognition by the Commission that they or any of them might be aggrieved because of any order of the Commission entered in these proceedings.

(D) The applicant seeking the limited-term certificate and the supporting intervenors shall, on or before July 10, 1973, file with the Commission and serve on all parties to this proceeding, including Commission Staff, all testimony to be sponsored in support of the instant application.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. RI73-316]

BELCO PETROLEUM CORP.

Order Providing for Hearing on and Suspension of Proposed Change in Rate, and Allowing Rate Change To Become Effective Subject to Refund

JUNE 28, 1973.

Respondent has filed a proposed change in rate and charge for the jurisdictional sale of natural gas, as set forth in Appendix A below.

The proposed changed rate and charge may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds.

It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon a hearing regarding the lawfulness of the proposed change, and that the supplement herein be suspended and its use be deferred as ordered below.

The Commission orders.

(A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto (18 CFR Ch. I), and the Commission's rules of practice and procedure, a public hearing shall be held concerning the lawfulness of the proposed change.

(B) Pending hearing and decision thereon, the rate supplement herein is suspended and its use deferred until

V38-131 JUL 10 73 XUM

date shown in the "Date Suspended Until" column. This supplement shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the Regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplement, nor the rate schedule sought to be altered, shall be changed until disposition of this proceeding or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

		11	18		----------	5-29-73	6-29-73	Accepted [4]	----------	----------	
		13	16		----------	5-29-73	6-29-73	Accepted [4]	----------	----------	

[1] Unless otherwise stated, the pressure base is 15.025 psia.
[2] Contract agreement dated 12-26-72.
[3] Includes 1.0c per Mcf for delivery into an 860 lb. gathering system.
[4] Effective rate under Belco's Rate Schedule No. 11.
[5] Increase to contract rate under Belco's Rate Schedule No. 6.
[6] Effective rate under Belco's Rate Schedule No. 13.
[4] Accepted insofar as proposed rate does not exceed area ceiling rate established in Opinion No. 658.
[7] Date suspended until for portion of rate exceeding area ceiling rate in Opinion No. 658.
[5] Accepted to be effective as of the date shown in the "Effective Date" column.

By agreement dated December 26, 1972, between Belco Petroleum Corporation and El Paso Natural Gas Company, (Buyer), Belco proposes to cancel its FPC Gas Rate Schedule Nos. 11 and 13 and dedicate the acreage previously covered thereunder to its FPC Gas Rate Schedule No. 6 in addition to that previously dedicated under the latter rate schedule.

Belco also filed proposed rate increases with regard to sales previously made under FPC Gas Rate Schedule Nos. 11 and 13 to the 27.2025¢ per Mcf contract price under its FPC Gas Rate Schedule No. 6. The 27.2025¢ rate for sales currently being made under Belco's FPC Gas Rate Schedule No. 6 became effective subject to refund under Docket No. RI73-171 on June 1, 1973. Belco requests waiver of notice so that the instant increases can also become effective on the same date. Good cause has not been shown for granting such request and it is denied.

Since the current rates are below the area ceiling rate established in Opinion No. 658 and the proposed rates exceed that area ceiling rate as well as the rate limit for one day suspensions, that part exceeding the ceiling rate is suspended for five months and that part not exceeding ceiling rate is accepted.

FPC Gas Rate Schedule Nos. 11 and 13 are canceled, and all sales thereunder are deemed covered under FPC Gas Rate Schedule No. 6.

Belco's proposed increased rates and charges exceed the applicable area price level for increased rates as set forth in the Commission's Statement of General Policy No. 61-1, as amended (18 CFR 2.56).

Nothing contained in this order shall relieve the respondent of any responsibility imposed by the Economic Stabilization Act of 1970, (Public Law 91-379, 84 Stat. 799, as amended by Public Law 92-15, 85 Stat. 38), or by any Executive Order or rules and regulations promulgated pursuant to such Act.

[Project No. 2110]

CONSOLIDATED WATER POWER CO.

Notice of Issuance of Annual License

JUNE 18, 1973.

On February 10, 1969, Consolidated Water Power Company, Licensee for Stevens Point Project No. 2110 located in Portage County, Wisconsin, on the Wisconsin River filed an application for a new license under Section 15 of the Federal Power Act and Commission regulations thereunder (§§ 16.1–16.6). Licensee also made a supplemental filing pursuant to Commission Order No. 384 on February 27, 1970.

The license for Project No. 2110 was issued effective January 1, 1938, for a period ending June 30, 1970. Since the original date of expiration the project has been under annual license. In order to authorize the continued operation of the project pursuant to section 15 of the Act pending completion of Licensee's application and Commission action thereon it is appropriate and in the public interest to issue an annual license to Consolidated Water Power Company for continued operation and maintenance of Project No. 2110.

Take notice that an annual license is issued to Consolidated Water Power Company (Licensee) under Section 15 of the Federal Power Act for the period of July 1, 1973, to June 30, 1974, or until Federal takeover, or the issuance of a new license for the project, whichever comes first, for the continued operation and maintenance of the Stevens Point Project No. 2110, subject to the terms and conditions of its license.

[Docket No. E-7769]

DELMARVA POWER AND LIGHT CO.

Notice of Extension of Time

JULY 3, 1973.

On June 21, 1973, Staff Counsel filed a motion for an extension of the service dates fixed by the order issued March 2, 1973 in the above-designated matter. The motion states that Delmarva, the City of Seafood, Delaware, and Accomack-Northampton Electric Cooperative, et al. have no objection to the motion.

Upon consideration, notice is hereby given that the procedural dates are modified as follows:

Staff Service Date, July 6, 1973
Interveners' Service Date, July 20, 1973

KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-13918 Filed 7-9-73;8:45 am]

[Docket No. CP73-330]

DISTRIGAS CORP.

Notice of Application

JULY 2, 1973.

Take notice that on June 14, 1973, Distrigas Corporation (Applicant), 125 High Street, Boston, Massachusetts 02110, filed in Docket No. CP73-330 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of liquefied natural gas (LNG) in interstate commerce from Applicant's Everett, Massachusetts, deepwater terminal to 4 gas distribution companies, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell approximately 2.2 billion Btu equivalent of LNG imported from Algeria, as authorized by the Commission in Opinion No. 613, issued March 9, 1972, in Docket No. CP70-196, to The Brooklyn Union Gas Company over a period of 4 months commencing on July 1, 1973, at a rate of $1.052 per million Btu. Applicant also proposes to sell approximately 1.9 billion Btu equivalent of LNG from Algeria, upon receipt of import authorization in Docket No. CP73-78, to The Brooklyn Union Gas Company, Providence Gas Company, Southern Connecticut Gas Company, and Valley Gas Company over a 2-year period commencing July 1, 1973, at a rate of $1.014 per million Btu for LNG delivered in the summer months and $1.614 per million Btu for LNG delivered in the winter months. An additional charge is proposed for vaporization or barge delivery.

The stated purpose of the proposed sales is to meet the immediate needs of Applicant's customers for supplemental peak shaving supplies during the proposed period.

Deliveries to The Brooklyn Union Gas Company will be accomplished by cryogenic barge during the summer of 1973; to Providence Gas Company in vapor form by displacement, through the facilities of Algonquin Pipeline Company and Boston Gas Company during the winter heating season 1973–1974, and by cryogenic barge during the remainder of the term through 1975; and to Southern Connecticut Gas Company and Valley Gas Company by truck. Deliveries by truck will be FOB, the Everett terminal. Southern Connecticut Gas Company and Valley Gas Company will arrange for truck transportation from Everett to their own facilities at Milford, Connecticut, and Cumberland, Rhode Island, respectively. The delivery points by barge will be Green Point, Brooklyn, New York and Providence, Rhode Island. Applicant states that no certificate authority is requested respecting the barge deliveries since the Commission ruled in Docket No. R-377 on May 4, 1973, that it does not have jurisdiction over barge transportation of LNG. However, Applicant expresses its willingness to accept the certificate herein requested conditioned subject to the outcome of any application for rehearing or appeals from that May 4 order.

Any person desiring to be heard or to make any protest with reference to said application should on or before July 25, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-13932 Filed 7-9-73;8:45 am]

[Docket No. RP73-109]

EL PASO NATURAL GAS CO.

Order Accepting for Filing, and Suspending, Proposed Increased Rates, and Providing for Hearing Procedures

JUNE 22, 1973.

El Paso Natural Gas Company (El Paso) on May 25, 1973, tendered for filing Twelfth Revised Sheet No. 10 to its FPC Gas Tariff, First Revised Volume No. 3. The filing constitutes a proposed change in rates for natural gas service rendered by El Paso's Northwest Division. The proposed effective date of the increased rates is June 25, 1973.

El Paso maintains that the principal reason for the filing is to compensate it for increases in all items of cost, including increased costs of capital, labor, materials, supplies, and taxes. El Paso seeks a current overall rate of return of 9.15 percent. The company states that its current Northwest Division System jurisdictional rates, which became effective subject to refund as of April 1, 1973, are deficient by some $3,427,112 annually, based on a test year ended January 31, 1972, as adjusted for known and measurable changes through October 31, 1973.

The filing was noticed June 8, 1973, with protests and petitions to intervene due on or before June 18, 1973.

Our review of the subject rate filing indicates that the proposed rates have not been shown to be just and reasonable, and that they may be excessive, unduly discriminatory, or otherwise unjust and unreasonable. The proposed increase raises issues which may require development in a public hearing.

The Commission finds: (1) El Paso's above listed revised tariff sheet should be accepted for filing as hereinafter ordered.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the rates and charges contained in El Paso's FPC Gas Tariff, proposed to be amended in this docket and that the revised sheet be suspended as hereinafter provided.

(3) The disposition of this proceeding should be expedited in accordance with the procedure set forth below.

(4) In the event this proceeding is not concluded prior to the termination of the suspension period herein ordered, the placing of the tariff changes applied for in this proceeding into effect, subject to refund pending Commission determination as to their justness and reasonableness, is consistent with the purposes of the Economic Stabilization Act of 1970, as amended.

The Commission orders: (A) El Paso's above mentioned tariff sheets are accepted for filing and suspended for the full statutory period of five months until November 25, 1973, or until such time as they are made effective in the manner provided by the Natural Gas Act.

(B) Pursuant to the authority of the Natural Gas Act (particularly sections 4 and 5 thereof) the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR, Chapter 1), a public hearing shall be held, commencing with a prehearing conference on November 29, 1973, at 10:00 a.m., e.s.t., in a hearing room of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, concerning the lawfulness of the rates, charges, classifications, and service contained in El Paso's above mentioned proposed tariffs.

(C) At the prehearing conference on November 29, 1973, El Paso's prepared testimony (Statement P) together with its entire rate filing shall be submitted to the record as its complete case-in-chief subject to appropriate motions, if any, by parties to the proceeding. All parties will be expected to come to the conference prepared to effectuate the intent and purpose of §§ 1.18 and 2.59 of the Commission's rules of practice and procedure.

(D) On or before November 15, 1973, the Commission Staff shall serve its prepared testimony and exhibits. The prepared testimony and exhibits of all intervenors shall be served on or before December 12, 1973. Any rebuttal evidence by El Paso shall be served on or before December 21, 1973. The public hearing herein ordered shall convene on January 8, 1974, at 10:00 a.m., e.s.t.

(E) A Presiding Administrative Law Judge, to be designated by the Chief Administrative Law Judge for that purpose (see Delegation of Authority, 18 C.F.R. 3.5(d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided and shall control this proceeding in accordance with the policies expressed in § 2.59 of the Commission's rules of practice and procedure.

(F) Nothing contained in this order shall relieve the applicant of any responsibility imposed by the Economic Stabilization Act of 1970, (Public Law 91-379, 84 Stat. 799, as amended by Public Law 92-15, 85 Stat. 38), or by any Executive Order or rules and regulations promulgated pursuant to such Act.

(G) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-13929 Filed 7-9-73;8:45 am]

V 38 - 131 JUL 10 73 XUM

[Docket No. CI73-886]

EMERALD PRODUCING CORP., ET AL.

Notice of Application

JULY 3, 1973.

Take notice that on June 13, 1973, Emerald Producing Corporation (Applicant), P.O. Box 15325, Lafayette, Louisiana 70501, filed in Docket No. CI73-886 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Southern Natural Gas Company from the Diamond Field, Plaquemines Parish, Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell approximately 37,500 Mcf of gas per month for one year at 50.0 cents per Mcf at 15.025 psia, subject to upward and downward Btu adjustment, within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70).

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before July 16, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13910 Filed 7-9-73;8:45 am]

[Docket No. CP73-343]

GULF ENERGY & DEVELOPMENT CORP.

Notice of Application

JULY 3, 1973.

Take notice that on June 22, 1973, Gulf Energy & Development Corporation (Applicant), 508 Broadway National Bank Building, 1177 N. E. Loop 410, San Antonio, Texas 78209, filed in Docket No. CP73-343 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas from a point in Zapata County, Texas, to a point in Starr County, Texas, for United Gas Pipe Line Company (United), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it commenced the gathering and transportation of natural gas on May 10, 1973, within the contemplation of § 157.22 of the regulations under the Natural Gas Act (18 CFR 157.22) and proposes to continue said service, for the period in which United's gas purchase contracts for such gas with Pennzoil Producing Company and others are in effect, within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70).

It is stated that Applicant will gather and transport gas from the Haynes Estate Lease, Zapata County, Texas, to a point of interconnection between Applicant's facilities and Tennessee Gas Pipeline Company's (Tennessee) pipeline in Starr County, Texas. Tennessee will receive such gas for United and deliver equivalent volumes to United in St. Mary Parish, Louisiana. Applicant proposes to gather and transport approximately 6,000 Mcf of gas per day at 5.42 cents per Mcf at 14.65 psia, subject to a Btu adjustment of 45.0 cents per million Btu for the heat content variance between the gas delivered to Applicant and that received by Tennessee.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before July 16, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13917 Filed 7-9-73;8:45 am]

[Docket No. CI73-716]

GULF OIL CORP.

Order Granting Intervention, Setting Hearing Date and Prescribing Procedure

JUNE 29, 1973.

On April 26, 1973, Gulf Oil Corporation (Gulf) filed an application in Docket No. CP73-716 for a limited term certificate of public convenience and necessity with pregranted abandonment authority, pursuant to section 7(c) of the Natural Gas Act and the Commission's Regulations thereunder, for the sale of gas to Transwestern Pipeline Company (Transwestern) from Gulf's interest in the Burton Flats Well Nos. 1, 2 and 3 located in Eddy County, New Mexico (Permian Basin).

Specifically, Gulf proposes to sell approximately 300,000 Mcf of gas per month to Transwestern for twenty-two months pursuant to a letter agreement dated February 6, 1973. The proposed rate of 52¢ per million Btu for the first ten months and 54¢ per million Btu for the last twelve months exceeds the current ceiling price of 27¢ per Mcf for the area.

A timely petition to intervene in support of the application was filed by Transwestern on May 17, 1973.

The application in this proceeding represents a sizeable volume of gas potentially available to the interstate market. It is of critical importance that interstate pipelines procure emergency supplies of gas to avoid disruption of service to consumers; nevertheless, we must determine whether the rate to be paid serves the public convenience and necessity. It is therefore necessary that this application be set for public hearing and expeditious determination. The hearing will be held to allow presentation, cross-examination, and rebuttal of evidence by any participant. This evidence should be directed to the issue of whether the present or future public convenience and necessity requires issuance of a limited-term certificate on the terms proposed in that application.

The commission finds: (1) The intervention of Transwestern in this proceeding may be in the public interest.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the issues in this proceeding be scheduled for hearing in accordance with the procedures set forth below.

The Commission orders: (A) Transwestern is hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervener shall be limited to matters affecting asserted rights and interests as specifically set forth in said petition for leave to intervene; and *Provided, further,* That the admission of said intervener shall not be construed as recognition by the Commission that it might be aggrieved by any order or orders of the Commission entered in this proceeding.

(B) Pursuant to the authority of the Natural Gas Act, particularly sections 7 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act, a public hearing shall be held on August 6, 1973, at 10:00 a.m. (e.d.t.) in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, concerning the issue of whether a certificate of public convenience and necessity should be granted as requested by Gulf in the application filed April 26, 1973.

(C) On or before July 16, 1973, Gulf and any supporting party shall file with the Commission and serve upon all parties, including Commission Staff, their testimony and exhibits in support of their positions.

(D) An Administrative Law Judge to be designated by the Chief Administrative Law Judge—See Delegation of Authority, 18 CFR 3.5(d)—shall preside at, and control this proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure and the purposes expressed in this order.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13927 Filed 7-9-73;8:45 am]

[Docket Nos. RI71-961, RI71-962, RI71-1036, RI71-1037]

GULF OIL CORP. AND WARREN PETROLEUM CO.

Notice of Motion To Terminate Suspension Proceedings Pursuant to Commission's Opinion No. 639

JUNE 29, 1973.

Take notice that on June 11, 1973, Gulf Oil Corporation and Warren Petroleum Company filed a motion to terminate the above-entitled suspension proceedings which involve sales of gas to Tennessee Gas Pipeline Company, a Division of Tenneco Inc., from the Texas Gulf Coast area under Gulf's FPC Gas Rate Schedule No. 28 and Warren's FPC Gas Rate Schedule No. 49 at rates not in excess of the new gas ceiling prescribed in Opinion No. 595. The motion filed by Gulf and Warren is based on the interpretation of vintaging concepts set forth by the Commission in its Opinion No. 639 issued December 12, 1972.

Any person desiring to be heard or to make any protest with reference to said filings should on or before July 16, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. E-8243, E-8244, E-8245]

HARTFORD ELECTRIC LIGHT CO.

Notice of Proposed Purchase Agreement and Rate Schedule; Correction

JULY 2, 1973.

The notice issued June 13, 1973, for the Hartford Electric Light Company (HELCO) Docket No. E-8243, et al., appearing at 38 FR 16271, June 21, 1973, includes Docket Nos. E-8244 and E-8245.

In the notice issued June 13, 1973, two of the three proposed effective dates of HELCO's customer contracts, FPC Docket Nos. E-8243, E-8244, and E-8245 were incorrectly stated. Concerning the purchase agreement contracts with respect to Middletown Unit No. 4, the correct proposed effective dates are as follows:

United Illuminating Company, Docket No. E-8243—correct as originally stated.

Public Service Company of New Hampshire, Docket No. E-8244—HELCO states that the rate schedule is proposed to become effective at 11:59 on the last day of the month in which the Middletown Unit No. 4 is declared to be in commercial operation, which is expected to be June 30, 1973.

Vermont Electric Power Company, Docket No. E-8245—HELCO states that the rate schedule is proposed to become effective at 11:59 on the last day of the month in which the Middletown Unit No. 4 is declared to be in commercial operation, which is expected to be June 30, 1973.

Any person desiring to be heard or to protest Docket Nos. E-8243, E-8244, or E-8245 should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 6, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13934 Filed 7-9-73;8:45 am]

[Docket No. CI73-899]

H. L. HUNT, ET AL.

Notice of Application

JULY 3, 1973.

Take notice that on June 18, 1973, H. L. Hunt (Operator), et al. (Applicant), 1401 Elm Street, Dallas, Texas 75202, filed in Docket No. CI73-899 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Texas Gas Transmission Corporation from the Grosse Isle Field, Vermilion Parish, Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that he commenced the sale of gas on June 12, 1973, within the contemplation of § 157.29 of the Regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue such sale for one year from the end of the sixty-day emergency period within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70). Applicant proposes to sell up to 4,000 Mcf of gas per day at 50.0 cents per Mcf of gas at 15.025 psia, subject to upward and downward Btu adjustment. Estimated monthly sales are 124,000 Mcf of gas.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before July 16, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the

V38-131 JUL 10 73 XUM

public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13915 Filed 7-9-73;8:45 am]

[Docket No. CI73-66]

KERR-McGEE CORP.

Notice of Amendment to Application

JULY 3, 1973.

Take notice that on June 22, 1973, Kerr-McGee Corporation (Kerr-McGee) Kerr-McGee Building, Oklahoma City, Oklahoma 73102, filed in Docket No. CI73-66 an amendment to its pending application in said docket pursuant to section 7(c) of the Natural Gas Act by deleting therefrom and adding thereto requests for authorization to sell natural gas from certain acreage in the S. E. Buffalo Wallow Area, Hemphill and Wheeler Counties, Texas, to El Paso Natural Gas Company (El Paso), all as more fully set forth in the amendment to the application which is on file with the Commission and open to public inspection.

On July 26, 1972, Kerr-McGee filed an application in the subject docket for a certificate of public convenience and necessity authorizing the sale of natural gas from certain acreage in the SE. Buffalo Wallow Area and on October 30, 1972, was issued a temporary certificate for such sale. On March 29, 1973, Kerr-McGee filed a notice of withdrawal of its application in the subject docket and filed an application for a certificate in Docket No. CI73-653 authorizing the subject sale under the Commission's optional gas pricing procedure (18 CFR 2.75). On April 27, 1973, the Commission denied Kerr-McGee permission to withdraw its application with respect to the sale of gas from its Holt No. 1 Well.

Kerr-McGee states that inasmuch as it requested reconsideration of the Commission's order denying in part permission to withdraw its application and that said motion now appears to be denied since no action was taken thereon during the 30-day period following filing, Kerr-McGee has reconsidered its position and has filed concurrently with this amendment a notice of withdrawal of its optional gas pricing certificate application in Docket No. CI73-653.

Kerr-McGee seeks authorization herein for the sale of natural gas from the S. E. Buffalo Wallow Field from certain additional acreage and deletes certain properties from the originally proposed sale pursuant to an amendment dated April 3, 1973. Kerr-McGee states that the deletion results from a determination that certain properties described in Exhibit "A" to the July 19, 1972, basic contract are subject to prior contractual commitment and, therefore, were erroneously included.

Any person desiring to be heard or to make any protest with reference to said amendment should on or before July 17, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it, in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13914 Filed 7-9-73;8:45 am]

[Docket No. RP73-43]

MID LOUISIANA GAS CO.

Notice of Proposed Change in Rates

JULY 2, 1973.

Take notice that Mid Louisiana Gas Company (Mid Louisiana), on June 21, 1973, tendered for filing a proposed change in its FPC Gas Tariff, Original Volume No. 1, consisting of the following revised tariff sheet:

Fourth Revised Sheet No. 3a

Mid Louisiana states that purpose of the filing is to reflect a Purchased Gas Cost Adjustment to Mid Louisiana's E-1 rate effective July 1, 1973.

Sections 19.7 and 19.10 of Mid Louisiana's Tariff (PGA Clause—Rate Schedule E-1) provide that current adjustments to rate schedule E-1 shall be determined by the change in the unit cost of gas purchased from United Gas Pipe Line Company (United) and filed with an effective date which coincides with the effective date of the change by United. Mid Louisiana states that this filing is being made pursuant to these tariff provisions.

Mid Louisiana asserts that copies of this filing were served on interested customers and state commissions.

Any persons desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 17, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13942 Filed 7-9-73;8:45 am]

[Docket No. RP73-110]

NATURAL GAS PIPELINE COMPANY OF AMERICA

Order Accepting and Suspending Proposed Tariff Sheets, Providing for Hearing and Granting Interventions

JUNE 29, 1973.

On May 31, 1973, Natural Gas Pipeline Company of America (Natural) tendered for filing proposed changes in FPC Gas Tariff as follows:

Third Revised Volume No. 1
Tenth Revised Sheet No. 5
Third Revised Sheet No. 119
Second Revised Sheet No. 120-A
Second Revised Volume No. 2
Sixth Revised Sheet No. 220

The proposed increase in rates provide for an increase of $61,600,000 in jurisdictional revenues over the rates currently in effect subject to refund in Docket No. RP72-132 and an increase of $63,900,000 over proposed settlement rates in that docket.[1] The proposed increase in revenues is based on a test year ended February 28, 1973, as adjusted.

Natural states that the principal reason for its proposed rate increase is to recover the costs incurred above those included in its filing in Docket No. RP 72-132. In support of its proposed increase, Natural requests an overall rate of return of 9.14 percent which would permit a return on equity of 13 percent, and an increased depreciation rate from 3.5 percent to 4.28 percent.

Approximately $6.7 million of the proposed increase relates to Natural's pending petition for a Commission order in Docket No. RP73-63 under which it is proposed to price gas produced from leases acquired prior to October 7, 1970, at the applicable area rates instead of at the cost of service basis at which such gas is now priced. Natural states that in the event the filing at Docket No. RP73-63 has not been approved by December 1, 1973, the company will file alternate tariff sheets designed to eliminate the effect of methods proposed in that proceeding. Waiver of the Commission's regulations, to the extent necessary to permit this procedure, is requested.

Natural has also included approximately $14.3 million of facility costs in its rate base which were not certified at the time of filing, and therefore, requests waiver of § 154.63(c)(2)(ii) of the regulations to permit inclusion of such costs. Authorization for facilities in Docket Nos. CP73-217, CP73-222 and CP73-276 is still pending. In the event these facilities are not certified and placed in service prior to December 1, 1973, Natural shall file revised tariff sheets adjusting its rates to reflect elimination of such facilities and shall also file supplemental cost and revenue data which reflects the elimination of these non-certificated facilities from its section 4(e) application in these proceedings.

[1] Both the refund rates and proposed settlement rates include a Purchased Gas Adjustment filed to become effective June 1, 1973.

The filing was noticed on June 4, 1973, with letters of protest and petitions to intervene due on or before June 19, 1973. The following parties filed timely petitions to intervene or notices of intervention:

Iowa State Commerce Commission
City of Chicago
Illinois Power Company
Iowa Southern Utilities Company
Iowa Electric Light and Power Company
Iowa Power and Light Company
Mississippi River Transmission Corporation
North Central Public Service Company
Peoples Gas Light and Coke Company
North Shore Gas Company
Peoples Natural Gas Division of Northern Natural Gas Company
United Cities Gas Company
Northern Illinois Gas Company
Associated Natural Gas Company

Our review of the filing indicates that it raises certain issues which may require development in an evidentiary hearing. The proposed increase in rates and charges have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory or preferential or otherwise unlawful. We shall therefore order a suspension of the rates proposed herein for the full statutory period.

The Commission finds: (1) The proposed increased rates and charges have not been shown to be justified and may be unjust, unreasonable, unduly discriminatory or preferential, or otherwise unlawful.

(2) It is necessary and proper in the public interest and to the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the rates and charges contained in Natural's FPC Gas Tariff as proposed to be amended in this docket, and that the tendered tariff sheets be suspended as hereinafter provided.

(3) The disposition of this proceeding should be expedited in accordance with the procedure set forth below.

(4) Participation of the above named persons in this proceeding may be in the public interest.

(5) The requested waiver of § 154.63 (e)(2)(ii) of the regulations should be granted as conditioned below.

The Commission orders: (A) Natural's tariff sheets as filed May 31, 1973, are accepted for filing as hereinafter ordered.

(B) Pursuant to the authority of the Natural Gas Act, particularly section 4 and 5 thereof, the Commission's rules of practice and procedure and the regulation under the Natural Gas Act (18 CFR Chapter I), a public hearing shall be held commencing with a prehearing conference on November 6, 1973, at 10:00 a.m. (est), in a hearing room of the Federal Power Commission, 825 N. Capitol St., Washington, D.C. 20426, concerning the lawfulness of the rates, charges, classification, and service contained in Natural's FPC Gas Tariff, is proposed to be amended.

(C) At the prehearing conference on November 6, 1973, Natural's prepared testimony (Statement P) together with its entire rate filing shall be offered for admission to the record as its complete case-in-chief subject to appropriate motions, if any, by parties to the proceedings.

(D) On or before October 26, 1973, the Commission Staff shall serve its prepared testimony and exhibits. The prepared testimony and exhibits of any or all intervenors shall be served on or before November 15, 1973. Any rebuttal evidence by Natural shall be served on or before November 29, 1973. Cross examination on the evidence filed with commence December 11, 1973.

(E) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (see Delegation of Authority 18 CFR 3.5 (d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control this proceeding in accordance with the policies expressed in § 2.59 of the Commission's rules of practice and procedure.

(F) Pending such hearing and decision thereon Natural's proposed revised tariff sheets are hereby suspended and the use thereof is deferred until December 1, 1973, and until such time as they are made effective in the manner provided in the Natural Gas Act: *Provided*, That if approval in Docket No. RP73-63 has not been granted by December 1, 1973, Natural must file appropriate substitute rates to reflect the continuation of the cost of service basis for pricing gas, and appropriate rates reflecting only those facilities subject of Docket Nos. CP73-217, CP73-222, CP73-276 certified and in service on or before December 1, 1973.

(G) The above-named petitioners are hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission: *Provided, however*, That the participation of such intervenors shall be limited to matters affecting the rights and interests specifically set forth in their petition to intervene; and *Provided, further*, That the admission of such intervenors shall not be construed as recognitions that they or any of them might be aggrieved because of any order issued by the Commission in this proceeding.

(H) Waiver of § 154.63 (e)(2)(ii) of our regulations is hereby granted.

(I) Nothing contained in this order shall relieve the applicant of any responsibility imposed by the Economic Stabilization Act of 1970, (Public Law 91-379, 84 Stat. 799, as amended by Public Law 92-15, 85 Stat. 38), or by any Executive Order or rules and regulations promulgated pursuant to such Act.

(J) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13933 Filed 7-9-73;8:45 am]

NORTHERN NATURAL GAS CO.

Notice of Proposed Changes in Rates and Charges

JULY 2, 1973.

Take notice that Northern Natural Gas Company on May 29, 1973, tendered for filing proposed changes in its FPC Gas Tariff, Original Volume No. 2. The changes are incorporated in the following proposed revised tariff sheets:

Original Volume No. 2

Fifth Revised Sheet No. 1a Table of Contents
First Revised Sheet No. 369 Notice of Cancellation X-27
Original Sheet Nos. 509-521 Rate Schedule X-35
Original Sheet Nos. 522-532 Rate Schedule X-36

Third Revised Volume No. 1

Eighth Revised Sheet No. 3 Table of Contents

The filing is described in the company's transmittal letter as follows:

Fifth Revised Sheet No. 1a and Eighth Revised Sheet No. 3 contain revisions to the Table of Contents for Volumes 1 and 2 of Northern's Tariff to reflect the addition of Rate Schedules X-35 (Permian Area Service) and X-36 (Dumas Area Service) and the Cancellation of Rate Schedule X-27.

Rate Schedules X-35 and X-36 supersede and cancel Northern's currently effective Rate Schedule X-27 on file with the Federal Power Commission.

Original Sheet Nos. 509 through 521 contain Northern's Rate Schedule X-35. This Schedule consists of a true and complete copy of a Sales Agreement dated April 1, 1973 between Northern and Pioneer Natural Gas Company (Pioneer). This Agreement provides for the continuation of service as now provided in the "Permian Area" under Rate Schedule X-27 for a term of five years and thereafter until cancelled by either party on six months prior written notice.

This Agreement provides for the sale to Pioneer of a maximum daily "Firm" volume of 3,500 Mcf per day. During the period between April 1 and October 1 of each year, Northern will deliver up to 25,000 Mcf per day inclusive of the 3,500 Mcf of firm gas. Northern is not obligated to deliver an annual volume in excess of 2,500,000 Mcf.

The proposed effective date of Rate Schedules X-35 and X-36 and related tariff sheets is June 1, 1973. Pursuant to 18 CFR 154.51 of the Commission's Regulations, Northern respectfully requests the Commission to waive the notice requirements of 18 CFR 154.22 to permit the requested effective date.

Pioneer shall pay Northern twenty-nine and one-half cents (29.5¢) per Mcf for gas sold and delivered under Rate Schedule X-35 and X-36 which is the currently effective rate under Rate Schedule X-27.

V38-131 JUL 10 73 XUM

Northern states that a copy of this filing has been mailed to Pioneer Natural Gas Company and that a copy of this filing is also available for public inspection in a convenient form and place at Northern's office in Omaha, Nebraska.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 16, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of the filing are on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13931 Filed 7-9-73;8:45 am]

[Docket No. RP73-108]

PANHANDLE EASTERN PIPE LINE CO.

Order Accepting for Filing and Suspending Proposed Tariff Changes, Providing for Hearing, and Establishing Procedures

ISSUED JUNE 28, 1973

On May 15, 1973, Panhandle Eastern Pipe Line Company tendered for filing in Docket No. RP73-108 a proposed general increase in its rates for jurisdictional natural gas service amounting to $36,887,332 annually based on a test year ending January 31, 1973, as adjusted. The proposed rate increase is incorporated in Seventh Revised Sheet No. 3-A, and Second Revised Sheet Nos. 43-2, 43-3, and 43-4 to Panhandle's FPC Gas Tariff, Original Volume No. 1. Panhandle requests the proposed rate increase be permitted to become effective on July 1, 1973.

Panhandle states the principal reasons for the proposed rate increase are (1) increased costs associated with new gas supply facilities, (2) increased operating costs, (3) the need for higher depreciation rates, and (4) increased costs of capital and taxes.

Notice of Panhandle's filing was issued on May 23, 1973, providing for protests or petitions to intervene to be filed on or before June 15, 1973. Any action required in connection with comments filed in response to the notice will be taken by separate order.

Our review of Panhandle's rate increase filing indicates the issues raised therein require development in an evidentiary hearing. The proposed rates have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, preferential, or otherwise unlawful. Accordingly, the proposed increase in rates will be suspended for the full statutory period of five months and set for hearing.

The Commission finds: It is necessary and proper in the public interest and in carrying out the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the rates and charges contained in Panhandle's FPC Gas Tariff, as proposed to be amended in this docket, and that the revised tariff sheets filed herein be suspended, and the use thereof deferred as hereinafter ordered.

The Commission orders: (A) Pursuant to the authority of the Natural Gas Act, particularly sections 4, 5, and 15 thereof, and the Commission's rules and regulations a public hearing shall be held concerning the lawfulness of the rates, charges, classifications, and services contained in Panhandle's FPC Gas Tariff, as proposed to be amended herein, commencing with a prehearing conference to be held on November 20, 1973.

(B) Pending such hearing and decision thereon, Panhandle's revised tariff sheets as hereinbefore designated are suspended and the use thereof deferred until December 1, 1973, and until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(C) At the prehearing conference on November 20, 1973, the direct evidence of the company and the staff shall be admitted into the record, and procedures adopted for an orderly and expeditious hearing.

(D) On or before November 13, 1973, the Commission's staff shall serve its prepared testimony and exhibits. Any prepared testimony and exhibits of other parties shall be served on or before December 4, 1973. Any rebuttal evidence by Panhandle shall be served on or before December 21, 1973. Cross-examination of the evidence filed shall commence at 10:00 A.M. on January 7, 1974, in a hearing room of the Federal Power Commission.

(E) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose shall preside at the hearing initiated by this order, and shall conduct such hearing in accordance with the Natural Gas Act, the Commission's rules and regulations, are the terms of this order.

Nothing contained in this order shall relieve the applicant of any responsibility imposed by the Economic Stabilization Act of 1970 (Public Law 91-379, 84 Stat. 799, as amended by Public Law 92-15, 85 Stat. 38), or by any Executive Order or rules and regulations promulgated pursuant to such Act.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13930 Filed 7-9-73;8:45 am]

[Docket No. CI72-681]

PENNZOIL CO.

Notice of Petition To Amend

JULY 3, 1973.

Take notice that on June 22, 1973, Pennzoil Company (Petitioner), 900 Southwest Tower, Houston, Texas 77002, filed in Docket No. CI72-681 a petition to amend the Commission's order issuing a certificate of public convenience and necessity pursuant to section 7(c) of the Natural Gas Act in said docket by authorizing the sale for resale and delivery of natural gas in interstate commerce for one additional year to Texas Eastern Transmission Corporation from the Kildare Field Area, Cass County, Texas, all as more fully set forth in the petition which is on file with the Commission and open to public inspection.

By the order of May 26, 1972, in said docket, Petitioner's predecessor in interest, Pennzoil United, Inc., was authorized to sell approximately 75,000 Mcf of gas per month at 35.0 cents per Mcf at 14.65 psia for one year expiring on June 5, 1973. Petitioner states that it continued the sale of gas on June 6, 1973, within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale for one year after the expiration of the sixty-day emergency period within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70). Petitioner proposes to sell the same volumes of gas at the same rate as that previously authorized in said docket.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said petition to amend should on or before July 16, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13911 Filed 7-9-73;8:45 am]

[Docket No. CP73-338]

PROVIDENCE GAS CO.

Notice of Application

JULY 2, 1973.

Take notice that on May 25, 1973, The Providence Gas Company (Applicant), 100 Weybosset Street, Providence, Rhode Island 02903, filed in Docket No. CP73-338 an application pursuant to section 3 of the Natural Gas Act for authorization to import into the United States from Canada liquefied natural gas (LNG) purchased from Gaz Metropolitan, Inc., Montreal, P.Q., Canada, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that between July 15, 1973, and September 15, 1973, it intends to purchase from Gaz Metropolitan, Inc., 1,375,032 U.S. gallons of LNG at 13.09 cents per U.S. gallon, equivalent to approximately 120 billion Btu at a price of $1.50 U.S. per million Btu. Deliveries will be made to Applicant on a monthly basis, with each monthly delivery equal to the total contracted quantity divided by the number of months in the delivery period deemed to commence when LNG is first delivered but not later than July 15, 1973. Applicant proposes to transport the LNG from Montreal to its LNG storage facilities at Exeter, Rhode Island, by contract motor carrier in cryogenic trailers.

Applicant states that it is required to import LNG as proposed in the instant application as a result of curtailments of deliveries by Algonquin Gas Transmission Company, Applicant's supplier of vaporous gas. Applicant states further that it expects a gas deficiency of 600 to 800 million Mcf during the winter season of 1973-74 without the proposed importation.

Any person desiring to be heard or to make any protest with reference to said application should on or before July 12, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to the taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13944 Filed 7-9-73;8:45 am]

[Docket No. CI73-922]

SHENANDOAH OIL CORP.

Notice of Application

JULY 3, 1973.

Take notice that on June 25, 1973, Shenandoah Oil Corporation (Applicant), 1500 Commerce Building, Fort Worth, Texas 76102, filed in Docket No. CI73-922 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Panhandle Eastern Pipe Line Company from acreage in Cimarron County, Oklahoma, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell up to 500 Mcf of gas per day for one year at 50.0 cents per Mcf at 14.65 psia, subject to upward and downward Btu adjustment, within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70). Applicant states that it expects to sell approximately 15,000 Mcf of gas per month.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protests with reference to said application should on or before July 16, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP73-49]

SOUTH GEORGIA NATURAL GAS CO.

Notice of Proposed Changes in Rates and Charges

JULY 2, 1973.

Take notice that South Georgia Natural Gas Company (South Georgia) on June 7, 1973, tendered for filing substitute revised tariff sheets to its FPC Gas Tariff, Original Volume No. 1 to become effective July 1, 1973. The tendered tariff sheets are in substitution for revised tariff sheets tendered on May 15, as modified on May 21, 1973. Pursuant to the Purchased Gas Adjustment Clause (PGA Clause) provision contained in its tariff, South Georgia proposes to increase its rates $114,397 for the purpose of tracking a rate increase filing by Southern Natural Gas Company (Southern) by letter dated June 1, 1973, which would increase South Georgia's cost of gas $257,789, annually.

While Southern's filing increases South Georgia's total purchased gas costs, demand and commodity levels are changed substantially, with a resulting decrease in costs allocated to jurisdictional sales.

Copies of the June 7, 1973, filing have been mailed to jurisdictional customers and to interested parties and State commissions.

Any person desiring to comment or to protest said application should file such comment or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with § 1.10 of the Commission's rules of practice and procedure (18 CFR 1.10). Any such comments or protests should be filed on or before July 11, 1973. Copies of the filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP73-114]

TENNESSEE GAS PIPELINE CO.

Notice of Filing of Proposed Purchased Gas Adjustment Clause

JUNE 29, 1973.

Take notice that on June 15, 1973, Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee) tendered for filing proposed changes to Ninth Revised Volume No. 1 of its FPC Gas Tariff to be effective on July 16, 1973, consisting of the following revised tariff sheets:

Original Sheet Nos. 12A, 12B, 213A, 213B, 213C and 213D
First Revised Sheet Nos. 32 and 213
Second Revised Sheet Nos. 50, 52, 53 and 58
Fourth Revised Sheet Nos. 54 and 59
Sixth Revised Sheet Nos. 14, 20, 26, 30, 33, 36, 41, 46, 51, 56 and 57

Tennessee states that the sole purpose of such revised tariff sheets is to include a purchased gas adjustment (PGA) provision in Tennessee's tariff applicable to its jurisdictional sales and to make necessary conforming changes in related tariff provisions. Tennessee further states that the proposed PGA is in full compliance with § 154.38(d)(4) of the Commission's regulations and that copies of the filing were served on all affected customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.W., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 16, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing

V38-131 JUL 10 73 XUM

are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Project No. 20]

UTAH POWER & LIGHT CO.

Notice of Issuance of Annual License

JUNE 29, 1973.

On June 26, 1970, Utah Power and Light Company, Licensee for Soda Project No. 20 located on the Bear River in Caribou County, Idaho, filed an application for a new license under section 15 of the Federal Power Act and Commission regulations thereunder (§§ 16.1–16.6).

The license for Soda Project No. 20 was issued effective July 5, 1923, for a period ending July 4, 1973. The order to authorize the continued operation of the project pursuant to Section 15 of the Act pending completion of Licensee's application and Commission action thereon it is appropriate and in the public interest to issue an annual license to Utah Power and Light Company for continued operation and maintenance of Soda Project No. 20.

Take notice that an annual license is issued to Utah Power and Light Company (Licensee), under Section 15 of the Federal Power Act for the period July 5, 1973, to July 4, 1974, or until Federal takeover, or the issuance of a new license for the project, whichever comes first, for the continued operation and maintenance of the Soda Project No. 20 subject to the terms and conditions of its license.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI73-749]

WESTERN OIL PRODUCERS, INC.

Order Granting Intervention, Setting Hearing Date and Prescribing Procedure

JUNE 29, 1973.

On May 3, 1973, Western Oil Producers, Inc., (Western) filed an application in Docket No. CI73-749 for a limited term certificate of public convenience and necessity with pre-granted abandonment authority, pursuant to Order No. 431 and § 157.23 of the Commission's regulations under the Natural Gas Act, for the sale of gas to El Paso Natural Gas Company (El Paso) from the Osudo Morrow Field, Lea County, New Mexico (Permian Basin).

Specifically, Western and El Paso have entered into a letter agreement dated April 11, 1973, providing for delivery of an estimated 2,000 Mcf of gas per day from the subject Osudo Morrow Field at a price of 52.0 cents per Mcf at 14.65 psia subject to Btu adjustment. The justification for the rate, as well as other public interest issues should be presented on a full evidentiary record. Accordingly, we will set this matter for a formal expeditious hearing.

A timely petition to intervene in favor of the application was received from El Paso on May 23, 1973.

The application in this proceeding represents a sizeable volume of gas potentially available to the interstate market. It is of critical importance that interstate pipelines procure emergency supplies of gas to avoid disruption of service to consumers; nevertheless, we must determine whether the rate to be paid serves the public convenience and necessity. It is therefore necessary that this application be set for public hearing and expeditious determination. The hearing will be held to allow presentation, cross-examination, and rebuttal of evidence by any participant. This evidence should be directed to the issue of whether the present or future public convenience and necessity requires issuance of a limited-term certificate on the terms proposed in that application.

The Commission finds: (1) The intervention of El Paso in this proceeding may be in the public interest.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the issues in this proceeding be scheduled for hearing in accordance with the procedures set forth below.

The Commission orders: (A) El Paso is hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervener shall be limited to matters affecting asserted rights and interests as specifically set forth in said petition for leave to intervene; and *Provided, further,* That the admission of said intervener shall not be construed as recognition by the Commission that it might be aggrieved by any order or orders of the Commission entered in this proceeding.

(B) Pursuant to the authority of the Natural Gas Act, particularly sections 7 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act, a public hearing shall be held on July 17, 1973 at 10:00 a.m. (e.d.t.) in a hearing room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, concerning the issue of whether a certificate of public convenience and necessity should be granted as requested by Western in its application filed herein on May 3, 1973.

(C) On or before July 9, 1973, Western and any supporting party shall file with the Commission and serve upon all parties, including Commission Staff their testimony and exhibits in support of their positions.

(D) An Administrative Law Judge to be designated by the Chief Administrative Law Judge—See Delegation of Authority, 18 CFR 3.5(d)—shall preside at, and control this proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure and the purposes expressed in this order.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13935 Filed 7-9-73;8:45 am]

[Docket No. E-8158]

WISCONSIN POWER AND LIGHT COMPANY

Order Accepting for Filing and Suspending Proposed Increase in Rates, Providing for Hearing, Establishing Procedures, and Permitting Interventions

Issued June 26, 1973

On April 27, 1973, Wisconsin Power and Light Company, a public utility subject to the jurisdiction of this Commission, tendered for filing a proposed increase in its wholesale electric rates. The increase totals $926,000 annually based on test year 1972. Wisconsin requests that the increased rates be permitted to become effective on July 1, 1973.

Notice of Wisconsin's rate increase application was issued on May 10, 1973, providing for protests or petitions to intervene to be filed on or before May 22, 1973. This date was extended to and including June 5, 1973, by notice of the Commission's Secretary issued on May 23, 1973. On May 23, 1973, the Municipal Wholesale Power Group, an unincorporated association of municipal electric customers of Wisconsin, petitioned to intervene herein, and requested that the proposed increase in rates be suspended for the maximum statutory period and set for hearing. On May 24, 1973, a joint protest and petition to intervene was filed by Adams-Marquette Electric Cooperative, Central Wisconsin Electric Cooperate, Columbus Rural Electric Cooperative, Rock County Electric Cooperative, and Wanshara Electric Cooperative. The cooperatives also request that Wisconsin's proposed rate increase be suspended and set for hearing. On May 21, 1973, the City of Stoughton, Wisconsin filed a protest to the proposed increased rates, and stated its intention to intervene.

A review of Wisconsin's rate filing and the petitions to intervene indicates that the company's proposed rate increase should be accepted for filing and suspended, that the petitions to intervene should be granted, and that the issues raised by the pleadings should be resolved on the basis of an evidentiary hearing. Accordingly, the company's proposed rate increase will be suspended for a period of sixty days, and when placed into effect after the suspension period it will be subject to refund of all amounts found by the Commission after hearing not to be justified, together with interest on any amount refunded.

It appears that under Wisconsin's proposed fuel price adjustment clause, Wisconsin's own system fuel cost would be applied to power which it purchases. Such procedure is inconsistent with

Commission Opinion No. 633, "New England Power Company," Docket No. E-7541, issued October 30, 1972. Accordingly, this feature of the proposed fuel clause should be eliminated.

This Commission finds: (1) It is necessary and proper in the public interest and in carrying out the provisions of the Federal Power Act, that the Commission enter upon a hearing concerning the lawfulness of Wisconsin Power and Light Company's proposed rate schedules W-2 and W-3, and that such rate schedules be suspended as herein provided.

(2) The proposed increased rate and charges have not been shown to be justified and may be unjust, unreasonable, unduly discriminatory, preferential, or otherwise unlawful.

The Commission orders: (A) Pursuant to the authority of the Federal Power Act, particularly sections 205, 206, 301, 308, and 309 thereof, and the Commission's rules and regulations, a public hearing shall be held concerning the lawfulness of Wisconsin Power and Light Company's proposed rate schedules W-2 and W-3 commencing with a prehearing conference to be held on November 8, 1973.

(B) Pending such hearing and decision thereon, Wisconsin's proposed rate schedules W-2 and W-3 are hereby accepted for filing, suspended, and the use thereof deferred until September 1, 1973.

(C) At the prehearing conference on November 8, 1973, the direct evidence of the company and the staff shall be admitted into the record, and procedures adopted for an orderly and expeditious hearing.

(D) On or before November 1, 1973, the Commission's staff shall serve its prepared testimony and exhibits, if any. The prepared testimony and exhibits of the intervenors shall be served on or before November 23, 1973. Any rebuttal evidence by Wisconsin shall be served on or before December 13, 1973. Cross-examination of the evidence filed shall commence at 10:00 A.M. on December 18, 1973, in a hearing room of the Federal Power Commission.

(E) The above-named petitioners are hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission; *Provided, however,* That the participation of such intervenors shall be limited to matters affecting the rights and interests specifically set forth in the petitions to intervene; and *Provided further,* That the admission of such intervenors shall not be construed as recognition that they might be aggrieved because of any order issued by the Commission in this proceeding.

(F) Any future change in rates resulting from application of the tax clause of the proposed rate schedule W-2 shall be filed by Wisconsin as a change in rates pursuant to § 35.13 of the Commission's regulations under the Federal Power Act.

(G) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose shall preside at the hearing initiated by this order, and shall conduct such hearing in accordance with the Federal Power Act, the Commission's rules and regulations, and the terms of this order.

(H) Within 30 days from the date of this order, Wisconsin shall file an amendment to its fuel price adjustment clause in compliance with the requirements of Commission Opinion No. 633, as hereinbefore described.

(I) Nothing contained in this order shall relieve the applicant of any responsibility imposed by the Economic Stabilization Act of 1970, (Public Law 91-379, 84 Stat. 799, as amended by Public Law 92-15, 85 Stat. 38), or by any Executive Order or rules and regulations promulgated pursuant to such Act.

(J) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.73-13940 Filed 7-9-73;8:45 am]

[Docket No. CI73-898]

BALLARD & CORDELL CORP.

Notice of Application

JULY 3, 1973.

Take notice that on June 18, 1973, The Ballard & Cordell Corporation (Applicant), Box 52151-Oil Center Station, Lafayette Louisiana 70501, filed in Docket No. CI73-898 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Texas Eastern Transmission Corporation (Texas Eastern) from the Bonus Field Area, Wharton County, Texas all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant was authorized by the Commission's order of August 23, 1972, in Docket No. CI72-853 to sell gas to Texas Eastern for one year ending August 5, 1973, in volumes of up to 6,000 Mcf per day from said field at 35.0 cents per Mcf at 14.65 p.s.i.a. Applicant proposes to continue said sale for one year beginning August 5, 1973, within the contemplation of Section 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicant proposes to sell up to 3,000 Mcf of gas at 50.0 cents per Mcf at 14.65 p.s.i.a. Applicant estimates that monthly sales will total 90,000 Mcf of gas.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before July 16, 1973, file with the Federal Power Commission, Washington, D. C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-14017 Filed 7-9-73;8:45 am]

[Docket No. E-8282]

GULF STATES UTILITIES CO.

Notice of Application

JULY 5, 1973.

Take notice that on June 15, 1973, Gulf States Utilities Company (Applicant) filed an application seeking an order pursuant to section 204 of the Federal Power Act authorizing the issuance of $50,000,000 principal amount of First Mortgage Bonds.

Applicant is incorporated under the laws of Texas with its principal business office at Beaumont, Texas, and is engaged in the electric utility business in portions of Louisiana and Texas. Natural gas is purchased at wholesale and distributed at retail in the City of Baton Rouge and vicinity.

The Applicant proposes to sell the new securities at competitive bidding in accordance with the Commission's Regulations under the Federal Power Act. The Applicant proposes to invite bids on or about July 18, 1973, for the purchase of the new securities,

V 38 131 JUL 10 73 XUM

The proceeds from the sale of the new securities will be used to pay off part of the Company's outstanding commercial paper and short-term bank loans previously authorized by the Commission.

Any person desiring to be heard or to make any protest with reference to said application should on or before July 16, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10).

All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

MARY B. KIDD,
Acting Secretary.

[FR Doc.73-14018 Filed 7-9-73;8:45 am]

[Dockets Nos. RI73-317, etc.]

RATE CHANGES

Hearing on and Suspension of Proposed Changes, and Allowing Changes To Become Effective Subject to Refund [1]

JUNE 29, 1973.

Respondents have filed proposed changes in rates and charges for jurisdictional sales of natural gas, as set forth in Appendix A hereof.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds. It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the lawfulness of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

The Commission orders. (A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto [18 CFR Chapter I], and the Commission's rules of practice and procedure, public hearings shall be held concerning the lawfulness of the proposed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until date shown in the "Date Suspended Until" column. Each of these supplements shall become effective subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Each Respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period, whichever is earlier.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[1] Does not consolidate for hearing or dispose of the several matters herein.

[2] Unless otherwise stated, the pressure base is 14.65 psia.
[3] Subject to upward Btu adjustment.
[4] Subject to Btu adjustment.
[5] Amends pricing provisions for certain wells involved in recompletion and reworking program.
[6] Applicable to wells involved in recompletion and reworking program as set forth in Supp. No. 26.
[7] Not used.
[8] Accepted to be effective as of the date shown in the "Effective Date" column.

The proposed increases of Getty Oil Company, Midwest Oil Corporation and Mobil Oil Corporation do not exceed the rate limit for a one day suspension and, are, therefore, suspended for one day.

The proposed increase of Hunt Oil Company exceeds the rate limit for a one day suspension and is suspended for five months.

The producers' proposed increased rates and charges exceed the applicable area price levels for increased rates as set forth in the Commission's Statement of General Policy No. 61-1, as amended (18 CFR, Chapter I, Part 2, Section 2.56).

Nothing contained in this order shall relieve the respondents of any responsibility imposed by the Economic Stabilization Act of 1970. (Public Law 91-379, 84 Stat. 799, as amended by Public Law 92-15, 85 Stat. 38), or by any Executive Order or rules and regulations promulgated pursuant to such Act.

How To Find U.S. Statutes and United States Code Citations

[Second Revised Edition—1971]

This useful guide is designed to enable the user to obtain—quickly and easily—up-to-date and accurate citations to the United States Statutes at Large and the United States Code.

It contains typical legal references which require further citing. The official published volumes in which the citations may be found are shown alongside each reference—with suggestions as to the logical sequence to follow in using them. Additional finding aids, some especially useful in citing current legislation, also have been included. Examples are furnished at pertinent points and a list of references, with descriptions, is carried at the end.

Price: 10 cents

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

OIL AND GAS—Interior Department proposes schedule of provisional offshore lease sales 18473

CONTROLLED SUBSTANCES—Justice Dept. extends comment period on proposal to transfer nine derivatives of barbituric acid and their salts from Schedule III to Schedule II 18469

ECONOMIC STABILIZATION—
CLC redefines "securities" in the price freeze regulations; effective 6–13–73 18441
CLC issues Freeze Group No. 13 Questions and Answers 18441

PESTICIDES—
EPA calls hearing on ending registrations for aldrin and dieldrin, 8–7–73 18484
EPA extends tolerance of a plant regulator in or on sugarcane 18484
EPA establishes tolerance for plant regulator ethephon phosphonic in or on pineapples and apples; effective 7–11–73 18442

DRUGS—
FDA amends list of marketable substances pending completion of clinical studies 18477
FDA notice of approval, withdrawal of approval and adulteration finding on 3 animal drugs (3 documents) .. 18463, 18477

CROPS—
USDA support values and terms for 1973 peanut crop; effective 7–11–73 18453
USDA changes for 1973 extra long staple cotton and upland cotton set-aside programs (2 documents); effective 7–11–73 ..... 18451, 18452

COMMODITY EXCHANGES—USDA proposes requirements for contract market rule enforcement; comments by 8–27–73 18469

COWS HAVING ANAPLASMOSIS—USDA permits interstate movement for immediate slaughter under certain conditions; effective 7–11–73 18456

COTTON EXPORTS—Commerce Department requires reports from U.S. exporters by 7–13–73 18467

(Continued inside)

V 38 - 132 JUL 11 73 XUM

HIGHLIGHTS—Continued

HORSE RACING ADVERTISEMENTS—FCC clarifies guidelines on pari-mutuel betting 18487

SCRAP IRON AND STEEL FREIGHT—ICC proposes use of "net weight" in determining claims for losses; participation date 7–31–73 18471

TRUTH IN LENDING—
FRS clarifies advertising restrictions 18457
FRS clarifies use by creditors of "annual percentage rate" in oral communications with consumers 18458

ADULT EDUCATION—HEW proposals on assistance for special projects and teacher training; public hearing on 9–20–73 18517

NATIONWIDE FREIGHT RATE HIKES—ICC sets 7–17–73 cutoff date for public comment 18512

CIVIL SERVICE—Rules on promotions, performance evaluation, incentive awards, absence and leave, and resignations 18445

SAVINGS AND LOAN ASSOCIATIONS—
FHLBB amends requirements for fixed-rate, fixed-term accounts, and certificates evidencing other accounts (2 documents); effective 7–11–73 ..... 18460, 18461
FHLBB interest rates increased for member institutions; effective 7–6–73 18459
FHLBB processing procedures for establishing certain new member association offices are liberalized; effective 7–11–73 18461

MEETINGS—
Railroad Retirement Board: Actuarial Advisory Committee, 7–26 and 7–27–73 18495
Commission on Bankruptcy Laws, 7–16 and 7–17–73 18484
State Department: Study group 8 of the U.S. Committee for the International Radio Consultative Committee, 7–31–73 18473
FCC: Steering Committee of the Federal/State-Local Advisory Committee, 7–12 and 7–13–73 18488
HEW: National Advisory Council on Indian Education, 7–12 to 7–14–73 and 7–26 to 7–28–73 18478
Ohio State Advisory Committee to the U.S. Commission on Civil Rights, 7–13 and 7–14–73 18512
FPC: Schedule of pipeline company meetings on 1973–1974 operations; Group 1, 7–17–73; Group 2, 7–20–73; Group 3, 7–24–73; Group 4, 7–31–73; Group 5, 8–2–73 18489
AEC: Advisory Committees on Reactor Safeguards—Subcommittee on the Three Mile Island Nuclear Station, Unit 1, 7–25–73; Subcommittee on Arkansas Nuclear One, Unit One, 7–26–73; Subcommittee on LOFT, 7–25–73 (3 documents) 18479, 18480
CLC: Food Industry Wage and Salary Committee, 7–18–73 18512

federal register

Area Code 202 Phone 962–8626

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by the Executive Branch of the Federal Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Contents

Extra long staple cotton program 18451
Upland cotton set-aside program for 1971–1973 18452
Sugarcane; Louisiana; wage rates 18453

AGRICULTURE DEPARTMENT
See Agricultural Marketing Service; Agricultural Stabilization and Conservation Service; Animal Plant Health Inspection Service; Commodity Credit Corporation; Commodity Exchange Authority; Food and Nutrition Service; Soil Conservation Service.

ANIMAL AND PLANT HEALTH INSPECTION SERVICE
Rules and Regulations
Interstate movement of anaplasmosis reactor livestock 18456

ATOMIC ENERGY COMMISSION
Rules and Regulations
Revised fees for facilities and materials licenses 18443
Notices
Advisory Committee on Reactor Safeguards; meetings of certain subcommittees (3 documents) 18479, 18480
Carolina Power and Light Co.; availability of draft environmental statement and amendments; correction 18481
Duquesne Light Co. et al.; hearing on application for construction permits 18481
General Electric Co.; filing of petition for rulemaking 18483

CIVIL AERONAUTICS BOARD
Proposed Rules
Foreign air carriers priority rules, denied boarding, compensation tariffs and reports of unaccommodated passengers 18471
Notices
GAC Corp.; proposed approval on application 18483
Laker Airways Ltd.; postponement of hearing regarding enforcement proceeding 18484

CIVIL RIGHTS COMMISSION
Notices
Ohio State Advisory Committee; meeting 18512

CIVIL SERVICE COMMISSION
Rules and Regulations
Excepted service; Executive Office of the President and Commerce Department (2 documents) 18445
Promotion; evaluation; awards; absence and leave; separations, demotions, and furloughs; miscellaneous amendments 18445

COMMERCE DEPARTMENT
See also Domestic and International Business Administration; National Oceanic and Atmospheric Administration; National Technical Information Service.
Notices
Voting age population estimates as of July 1, 1972 18476

COMMISSION ON THE BANKRUPTCY LAWS OF THE UNITED STATES
Notices
Commission meeting 18484

COMMODITY CREDIT CORPORATION
Rules and Regulations
Peanuts, 1973 crop; warehouse storage loans 18453

COMMODITY EXCHANGE AUTHORITY
Proposed Rules
Contract market rule enforcement; requirements 18469

COST OF LIVING COUNCIL
Rules and Regulations
Freeze regulations:
Definition of security 18441
Freeze group questions and answers no. 13 18441
Notices
Food Industry Wage and Salary Committee; closed meeting 18512

DOMESTIC AND INTERNATIONAL BUSINESS ADMINISTRATION
Rules and Regulations
Cotton; monitoring exports and anticipated exports; special provisions and policies 18467
Notices
Decision on application for duty-free entry of scientific article:
Florida State University 18474
University of California 18475

DRUG ENFORCEMENT ADMINISTRATION
Proposed Rules
Barbituric acid derivatives and salts; transfer from Schedule III to Schedule II; correction and extension of comment period 18469

EDUCATION OFFICE
Proposed Rules
Adult education; special projects and teacher training 18517
Notices
National Advisory Council on Indian Education; meeting 18478

ENVIRONMENTAL PROTECTION AGENCY
Rules and Regulations
Ethephon; tolerances for residues 18442
Notices
Aldrin and dieldrin; registrations and tolerances; hearing 18484
N-N-bis-(phosphonomethyl) glycine; extension of temporary tolerance 18484

FEDERAL AVIATION ADMINISTRATION
Rules and Regulations
Grumman airplanes; airworthiness directive 18442
Transition area; designation 18442
Proposed Rules
Control zones and transition areas; alteration and designation (3 documents) 18468

FEDERAL COMMUNICATIONS COMMISSION
Rules and Regulations
Radio broadcast services; FM broadcast stations in Gregory, S. Dak 18464
Notices
Broadcasting of information concerning horse races; clarification 18487
Cable Television Federal/State-local Advisory Committee; meeting 18488
Common carrier services information; domestic public radio services applications accepted for filing 18485

FEDERAL DISASTER ASSISTANCE ADMINISTRATION
Notices
Illinois; amendment to major disaster notice 18479

FEDERAL HOME LOAN BANK BOARD
Rules and Regulations
Federal savings and loan association applications for branch offices, mobile facilities, or satellite offices; miscellaneous amendments 18461
Savings accounts, etc.; limitations on rate of return and miscellaneous amendments (3 documents) 18459–18461

(Continued on next page)

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

5 CFR

Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 6—Economic Stabilization

CHAPTER I—COST OF LIVING COUNCIL

PART 140—COST OF LIVING COUNCIL FREEZE REGULATIONS

Definition of "Security"

The purpose of this amendment is to redefine "securities" in the freeze regulations.

In the Special Freeze Group Questions and Answers No. 13, of June 29, 1973, it was explained that financial or net leases as defined in section 163(d)(4)(a) of the Internal Revenue Code have characteristics sufficiently similar to a security so that they, like securities, are exempt.

In order to make this clarification explicit in the regulations, the definition of "Security" in § 140.2 of the Cost of Living Council's freeze regulations is amended to include financial or net leases as defined in section 163(d)(4)(a) of the Internal Revenue Code.

Because the purpose of this amendment is to provide immediate guidance and information with respect to the current price freeze, the Council finds that publication in accordance with normal rule making procedure is impracticable and that good cause exists for making this amendment effective in less than 30 days.

(Economic Stabilization Act of 1970, as amended, Pub. L. 92-210, 85 Stat. 743; Pub. L. 92-28, 87 Stat. 27; E.O. 11723, 38 FR 15765; Cost of Living Council Order No. 30, 38 FR 16267)

In consideration of the foregoing, Part 140 of Chapter I of Title 6 of the Code of Federal Regulations is amended as set forth below, effective 9:00 p.m., e.d.t., June 13, 1973.

Issued in Washington, D.C., on July 6, 1973.

JAMES W. MCLANE,
Director,
Special Freeze Group.

The definition of "Security" in § 140.2 is amended by adding the words, "or any financial or net leases as defined in § 163(d)(4)(a) of the Internal Revenue Code," after the words, "or other mineral rights,".

[FR Doc.73-14074 Filed 7-6-73;1:32 pm]

PART 140—COST OF LIVING COUNCIL FREEZE REGULATIONS

Special Freeze Group Questions and Answers No. 13

These "Questions and Answers", which are issued by the Cost of Living Council's Freeze Group, are designed to provide immediate guidance in understanding and applying the new freeze regulations (Part 140 of Title 6 of the Code of Federal Regulations). To achieve the broadest publication, these are hereby added to Appendix A of Part 140. Since they provide guidance of general applicability and are subject to clarification, revision or revocation, they do not constitute legal rulings with respect to specific fact situations.

(Economic Stabilization Act of 1970, as amended, Pub. L. 92-210, 85 Stat. 743; Pub. L. 92-28, 87 Stat. 27; E.O. 11723, 38 FR 15765; Cost of Living Council Order No. 30, 38 FR 16267)

Issued in Washington, D.C., on June 29, 1973.

JAMES W. MCLANE,
Director,
Special Freeze Group.

Appendix A of Part 140 is amended by adding the following:

SPECIAL FREEZE GROUP QUESTIONS AND ANSWERS NO. 13

1. Q. A firm in the mail order business ordered the printing of a new catalog prior to the start of the freeze. The catalog will show many prices which are higher than freeze prices. What steps must the firm now take to comply with the freeze?

A. Because of the time required for printing new catalogs or inserts in contrast to the limited duration of the freeze, mail order retailers are not required to change their catalogs to conform the price lists with their freeze prices. However, these firms remain fully subject to the freeze. Whenever an order is received during the freeze for goods priced in the catalog higher than the freeze price, the firm may charge no more than the freeze price for goods shipped during the freeze and, if payment is included with the order, must refund to the purchaser the difference between the listed price and the freeze price.

2. Q. Are international air fares and other international transportation charges subject to the freeze?

A. When a U.S. purchaser contracts with a foreign flag air or ocean carrier the transaction is considered to be the import of a service. The foreign carrier may, therefore, increase its rates to U.S. purchasers. Transactions between U.S. carriers and U.S. purchasers are not imports of services and, therefore, are fully subject to the freeze.

3. Q. In Phase II and Phase III, "products sold to a domestic purchaser who certifies that the product is for export" were specifically included within the definition of exports and were therefore exempt. Under the new freeze regulations, the export exemption states that, "Prices charged for exports are exempt." Does the old "Products certified for Export" rule apply under the freeze?

A. No. Only the price charged in the actual export sale is exempt. The price charged to a domestic purchaser who subsequently exports the item is not exempt.

4. Q. "A" is a jeweler who sells and repairs jewelry in leased space in "B's" department store. Must "A" post a sign in his department stating that information on freeze prices is available by filling out a Freeze Price Information Request Form?

A. Yes. Each individual seller must post a sign at his place of business stating that freeze price information is available. He must also provide Freeze Price Information Request Forms and respond in writing to any request within 48 hours.

5. Q. Are financial or net leases as defined in section 163(d)(4)(a) of the Internal Revenue Code, subject to the freeze?

A. No. Net leases are defined in section 163(d)(4)(a) have characteristics sufficiently similar to a security so that they, like securities, are exempt.

6. Q. Can travel agents increase prices on tours abroad?

A. The travel agent can increase prices to the extent that the costs of foreign services are increased. The travel agent is considered to be an importer of services and can pass on the higher costs of foreign services on a dollar-for-dollar basis. These services include transportation purchased from a foreign firm, hotel rates, restaurant meals, etc. The agent cannot increase prices on any services provided by U.S. domestic firms nor can he consider the increased costs of foreign services in calculating his markup for overhead and profit. The agent's records must clearly establish that each increase meets this test and if he cannot so demonstrate, this exemption will not apply to his increase.

7. Q. During the freeze base period a company was selling its product at a reduced price pursuant to a Cost of Living Council order issued during Phase II or Phase III. The order expires during the freeze. Upon expiration of the order, may the company raise its prices to the level at which it was selling its product before the Cost of Living Council order was issued?

A. No. The company must sell its product during the freeze period at a price no higher than its freeze price. A discount in effect during the freeze base period may not be excluded from the calculation of the freeze price.

V 38-132 JUL 11 73 XUM

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 73-SO-47; Amdt. 39-1684]

PART 39—AIRWORTHINESS DIRECTIVES

Grumman Models G-159 and G-1159

There have been cracks of the aft fuselage pressure dome on a G-1159 airplane that could result in pressure dome rupture with attendant rapid decompressurization and possible serious consequences to both passengers and aircraft. Since this condition is likely to exist or develop in other airplanes of the same or similar type design, an airworthiness directive is being issued to require inspection for cracks and modification of the structure, as required, on Grumman Models G-159 and G-1159 airplanes.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator, (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

GRUMMAN AMERICAN AVIATION CORPORATION (GAAC). Applies to all G-159 airplanes, and to G-1159 airplanes, Serial Numbers 1 through 129 and 775, certificated in all categories.

Compliance required as indicated.

To detect fuselage aft section pressure dome cracks and prevent further cracking, accomplish the following:

(a) Within 200 hours time in service after the effective date of this AD or 90 days, whichever is the sooner, unless already accomplished, permanently remove all interior lining attachments other than fabric, carpeting, etc., from the fuselage aft section pressure dome assembly, Part No. 1159B21372 (G-1159), Part No. 159B10252 (G-159) and inspect for cracks in accordance with GAAC Customer Bulletins 167 (G-1159) or 240 (G-159), dated June 18, 1973 or later FAA approved revisions placing emphasis on those areas as defined in paragraph (b).

(b) Mark the exact location on the dome and record the geometric configuration of items removed in accordance with paragraph (a), noting the location of any discontinuities, particularly in radially running attachment strips. The FAA would appreciate receiving sketches and descriptive data of both the attachment location and geometric configurations. Sketches and descriptive data may be sent to the Chief, Engineering and Manufacturing Branch, Southern Region, P.O. Box 20636, Atlanta, Georgia 30320.

(c) For aircraft found to have no attachments on the dome, no further action is required.

(d) For aircraft having attachments, reinspect for cracks at intervals not to exceed 400 landings since the last inspection, in accordance with GAAC Customer Bulletins 167 (G-1159) or 240 (G-159).

(e) Repair all cracks detected during the inspections conducted in accordance with (a) or (d). Repair in accordance with GAAC Customer Bulletins 167 (G-1159) or 240 (G-159), before further flight.

(f) For the purpose of complying with paragraph (d) of this AD, subject to acceptance by the assigned FAA Maintenance Inspector, the number of landings may be determined by dividing each airplane's hour's time in service by the operator's fleet average time from takeoff to landing for the airplane type.

(g) Airplanes having cracked domes may be flown to a base for repairs in accordance with FAR 21.197 either:

(1) Unpressurized, or

(a) With limited pressurization with the concurrence of the FAA, Chief, Engineering and Manufacturing Branch, Southern Region.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

This amendment becomes effective July 16, 1973.

Issued in East Point, Ga. on June 29, 1973.

W. J. MCGILL,
Acting Director,
Southern Region.

[FR Doc.73-14026 Filed 7-10-73;8:45 am]

[Airspace Docket No. 73-RM-1]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On June 4, 1973, a notice of proposed rule making was published in the FEDERAL REGISTER (38 FR 14694) stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would designate a transition area at Conrad, Mont.

Interested persons were given 30 days in which to submit written comments, suggestions, or objections. No objections have been received and the proposed amendment is adopted without change.

Effective date. This amendment shall be effective 0901 G.m.t., September 13, 1973.

(Sec. 307(a), Federal Aviation Act of 1958, as amended, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Aurora, Colo., on July 3, 1973.

M. M. MARTIN,
Director, Rocky Mountain Region.

In § 71.181 (38 FR 435), add the following transition area.

CONRAD, MONT.

That airspace extending upward from 700 ft above the surface within a 9-mi radius of the Conrad Airport (lat. 48°10'10" N., long. 111°58'30" W.); within 3.5 mi each side of the 053° bearing from the Conrad RBN (lat. 48°11'12" N., long. 111°55'31" W.), extending from the 9-mile-radius area to 12 mi. northeast of the RBN, and that airspace extending upward from 1,200 ft above the surface within 9.5 mi northwest and 4.5 mi southeast of the 053° bearing from the Conrad RBN extending from the RBN to 18.5 mi northeast of the RBN.

[FR Doc.73-14027 Filed 7-10-73;8:45 am]

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER E—PESTICIDE PROGRAMS

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Ethephon

A petition (PP 3F1325) was filed by Amchem Products, Inc., Ambler, PA 19002, in accordance with provisions of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a), proposing establishment of tolerances for residues of the plant regulator ethephon ((2-chloroethyl) phosphonic acid) in or on the raw agricultural commodities apples and pineapple foliage at 6 parts per million and pineapples at 2 parts per million.

Subsequently, the petitioner amended the petition by (a) reducing the tolerances requested for residues of ethephon in or on apples and pineapple foliage from 6 parts per million to 5 parts per million and 3 parts per million respectively, and (b) changing "pineapple foliage" to read "pineapple fodder and forage."

Based on consideration given the data submitted in the petition and other relevant material, it is concluded that:

1. The plant regulator is useful for the purpose for which the tolerances are being established.

2. There is no reasonable expectation of residues in eggs, meat, milk, or poultry, and § 180.6(a)(3) applies.

3. The tolerances established by this order will protect the public health.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (36 FR 9038), § 180.300 is amended by (a) deleting the paragraph, "0.1 part per million • • •", (b) adding the new paragraph "3 parts per million • • •" after the paragraph "5 parts per million • • •", and (c) revising the paragraphs "5 parts per million • • •" and "2 parts per million • • •", as follows:

§ 180.300 Ethephon; tolerances for residues.

• • • • •

5 parts per million in or on apples and cranberries.

3 parts per million in or on pineapple fodder and forage.

2 parts per million in or on cantaloupes, pineapples, and tomatoes.

• • • • •

Any person who will be adversely affected by the foregoing order may at any time on or before August 10, 1973, file with the Hearing Clerk, Environmental Protection Agency, Room 3902A, 4th & M Streets, SW., Waterside Mall, Washington, D.C. 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on July 11, 1973.

(Sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2))

Dated: July 6, 1973.

HENRY J. KORP,
Deputy Assistant Administrator for Pesticide Programs.

[FR Doc.73-14098 Filed 7-10-73;8:45 am]

Title 10—Atomic Energy

CHAPTER I—ATOMIC ENERGY COMMISSION

PART 170—FEES FOR FACILITIES AND MATERIALS LICENSES UNDER THE ATOMIC ENERGY ACT OF 1954, AS AMENDED

Revised Fees

On February 12, 1973, the Atomic Energy Commission published in the FEDERAL REGISTER (38 FR 4272) proposed amendments to its regulations in 10 CFR Part 170 which would change fees charged for facilities and materials licenses. Interested persons were invited to submit written comments and suggestions for consideration in connection with the proposed amendments by April 13, 1973.

The fees set out in the notice of proposed rulemaking covered costs associated with the Commission's licensing and health and safety compliance and inspection program, taking into account additional costs incurred by the implementation of the National Environmental Policy Act of 1969 and by the antitrust review of nuclear power reactor applications. Costs related to rulemaking, development of standards, codes, criteria, and regulatory guides, safeguards activities and administration of the Agreement States program were not included in the proposed fee schedules. Costs associated with licenses exempt from fees were identified and excluded. The notice proposed to eliminate the exemption from payment of fees for licenses authorizing: (1) Possession, but not operation, of production or utilization facilities, (2) human use of byproduct material, source material, or special nuclear material, and (3) use of byproduct material, source material, or special nuclear material for civil defense purposes only.

The notice also proposed separate fee categories for certain types of licenses to provide a greater degree of equity in assessing fees. New fee categories include licenses for: (1) Byproduct material for processing or manufacturing quantities or items for commercial distribution where no product safety evaluation is required, (2) byproduct material for industrial radiography operations limited to one location, (3) byproduct material in quantities of less than 10,000 curies for irradiation of materials, (4) waste disposal where burial is not authorized, (5) distribution of exempt quantities of byproduct material, (6) distribution of exempt timepieces, hands and dials, containing hydrogen 3 or promethium 147, (7) byproduct material for research and development, and (8) uranium mills and uranium conversion plants.

After consideration of the comments received and other factors involved, the Commission has adopted the proposed Fee Category 5A has been modified to amendments with certain modifications discussed below.[1]

Paragraph 170.12(c) has been revised to clarify the due date for payment of license fees. Payment of prescribed fees for those licenses that have not been subject to fees prior to the amendments to Part 170 herein will be required within 30 days after the effective date. In the case of licenses that have been subject to fees prior to promulgation of these amendments, the next annual fee will be payable one year from the due date of the last fee payment and annually thereafter. In the case of licenses issued after the promulgation of these amendments, annual fees are payable one year following the date of issuance and annually thereafter.

Footnote 4 has been added to § 170.31 to provide for waiver of the annual fee where an application for license cancellation has been filed prior to the due date of the annual fee, and for reduction of the annual fee where an application to reduce the scope of the license has been filed prior to the due date of the annual fee. The fees will be affected only when the application contains adequate information to enable the Commission to complete the requested action.

[1] Commissioner William O. Doub's approval is based on the understanding that there is a legal question as to the scope of an agency's authority to impose certain fees under Title V of the Independent Offices Appropriation Act of 1952 (31 U.S.C. 483a), but that the Commission's imposition of the revised fees is consistent with Office of Management and Budget guidance in Circular A-25 pending resolution of the legal question in litigation now before the U.S. Supreme Court, whose decision may not be handed down until next spring.

Footnote 5 has been added to § 170.31 so that persons possessing special nuclear material in the form of sealed sources, in addition to other physical forms of special nuclear material, are not required to pay an additional fee under Category 1E when they have paid a fee under Categories 1A through 1D. make clear that it is intended to cover licenses for tracer studies and for all well logging and well surveys.

In addition, minor editorial revisions have been made in fee Categories 1D, 1E, 2C, 3I, 3K, and 3L.

Pursuant to the Atomic Energy Act of 1954, as amended, and sections 552 and 553 of Title 5 of the United States Code, the following amendments to Title 10, Chapter I, Code of Federal Regulations, Part 170, are published as a document subject to codification to be effective on August 10, 1973.

§ 170.11 [Amended]

1. Subparagraphs (6) and (7) of § 170.11(a) are deleted.

2. In § 170.12, paragraph (c) is revised to read as follows:

§ 170.12 Payment of fees.

• • • • •

(c) *Annual fees.* All licenses outstanding on August 10, 1973, are subject to payment of the annual fee prescribed by this Part 170, as amended, within 30 days after August 10 1973, and annually thereafter: *Provided however,* That in the case of licenses which have been subject to license fees prior to August 10, 1973, the next annual fee will be payable 1 year from the due date of the last fee payment and annually thereafter. In the case of licenses issued after August 10, 1973, annual fees are payable 1 year following the date of issuance of the license and annually thereafter.

• • • • •

3. Section 170.21 is revised to read as follows:

§ 170.21 Schedule of fees for production and utilization facilities.

Applicants for construction permits or operating licenses for production or utilization facilities and holders of construction permits or operating licenses for production or utilization facilities shall pay the fees set forth below.

SCHEDULE OF FEES

Facility (thermal megawatt values refer to maximum capacity stated in the permit or license as limited by license conditions or technical specifications) [1]	Application fee for construction permit	Construction [2] permit fee	Operating [4] license fee	Annual fee after issuance of operating license
(1) Power reactor [3]	$125,000	$250,000+ $170/Mw(t)	$250,000+ $185/Mw(t)	$65/Mw(t) [5] ($20,000 minimum)
(2) Testing facility	3,900	10,500	15,200	13,000
(3) Research reactor	600	2,300	3,500	5,500
(4) Other production or utilization facility	100,000	160,000	250,000	215,000
(5) Possession but not operation of production or utilization facility				600

[1] Amendments reducing capacity shall not entitle the applicant to a partial refund of any fee; applications or amendments increasing capacity requiring a higher fee will not be accepted for filing unless accompanied by the prescribed fee, which shall be determined by multiplication of the change in power level, expressed in megawatts thermal, by $185.

[2] Thermal megawatts.

[3] When construction permits are issued for two or more power reactors of the same design at a single power station that were subject to concurrent licensing review, the construction permit fee for the first reactor will be $250,000+ $170/Mw(t) and $50,000+$30/Mw(t) for each additional reactor.

[4] When operating licenses are issued for two or more power reactors of the same design at a single power station that were subject to concurrent licensing review, the operating license fee will be $250,000+$185/Mw(t) for the first reactor and $150,000+$120/Mw(t) for each additional reactor.

[5] For construction permits and operating licenses for power reactors with a capacity in excess of 3800 Mw(t), the fee will be computed on a maximum power level of 3800 Mw(t).

V38-132 JUL 11 73 XUM

4. Section 170.31 is revised to read as follows:

§ 170.31 Schedule of fees for materials licenses.

Applicants for materials licenses and holders of materials licenses shall pay the following fees:

SCHEDULE OF MATERIALS LICENSE FEES

Category of materials licenses [1]	Application fee [2]	Annual fee [2] [3]
1. Special nuclear material [4]:		
A. Licenses for quantities of five (5) kilograms or more of contained uranium 235, uranium 233, or plutonium, or any combination thereof, as defined in § 170.4(r) of this chapter, licenses for storage only, and licenses authorizing possession and use of special nuclear material in sealed sources excluding fuel elements.	$10,000+$10 per kilogram (maximum fee $85,000)	$10,000+$10 per kilogram (maximum fee $85,000)
B. Licenses for quantities of special nuclear material in plutonium processing and fuel fabrication plants as defined in § 70.4(r) of this chapter.	$135,250	$135,250
C. Licenses for quantities of five (5) kilograms or more of contained uranium 235, uranium 233, or plutonium, or any combination thereof, for licenses authorizing storage only of special nuclear material in sealed sources excluding fuel elements.	$2,440	$2,440
D. Licenses for quantities of 350 grams to five (5) kilograms of contained uranium 235, uranium 233, or plutonium, or any combination thereof, for storage only, licenses covered by Categories 4A, 4B, 5A, or 6A, and licenses authorizing possession and use of special nuclear material in sealed sources excluding fuel elements.	$3.50/gram (maximum fee $4,000)	$3.50/gram (maximum fee $4,000)
E. All other specific byproduct material licenses, except those in Categories 4F, 5A, 6A, 7A, 7B, 7C, and 9A.	$200	$200
2. Source material:		
A. Licenses for source material for use in milling operations and licenses for possession and use of source material in quantities greater than 15 tons (counted in any consecutive 12 month period) for use in research and development activities.	$10,000	$10,000
B. Licenses for source material in quantities greater than 15 tons except licenses for storage only and licenses for use only of source material in counterweights.	$150	$150
C. All other specific source material licenses, except those licenses covered by Categories 4A, 4B, 6A, 7A, 7B, 7C, or 9A.	$80	$80
3. Byproduct material:		
A. Licenses for possession and use of byproduct material issued pursuant to Parts 30 and 33 of this chapter for processing or manufacturing of items containing byproduct material for commercial distribution that require product safety evaluation.	$2,000	$2,000
B. Licenses for possession and use of byproduct material issued pursuant to Parts 30 and 33 of this chapter for processing, or manufacturing of items containing byproduct material, or for initial commercial distribution of byproduct material for commercial distribution except exempt quantities as defined in § 30.18 of Part 30 of this chapter.	$1,000	$1,000
C. Licenses for byproduct material issued pursuant to Part 34 of this chapter for industrial radiography operations.	$275	$275
D. Licenses for byproduct material issued pursuant to Part 34 of this chapter for industrial radiography operations at more than one location.	$550	$550
E. Licenses for possession and use of byproduct material in quantities of less than 10,000 curies in sealed sources for irradiation of materials.	$90	$90
F. Licenses for possession and use of byproduct material in quantities greater than 10,000 curies in sealed sources for irradiation of materials.	$150	$150
G. Licenses issued pursuant to Subpart B of Part 32 of this chapter to distribute items containing byproduct material or quantities of byproduct material to persons generally licensed under Parts 31 and 32 of this chapter, or equivalent regulations of an Agreement State, or to persons exempt from the licensing requirements of Part 30 of this chapter, except (1) §§ 32.11 and 32.18 of this chapter, (2) specific licenses authorizing redistribution of items listed in § 32.18 of this chapter to persons generally licensed under a specific license and licensed by the Commission for distribution to persons exempt from the licensing requirements of Part 30 of this chapter, and (3) specific licenses which authorize distribution of timepieces, hands and dials.	$335	$335
H. Licenses issued pursuant to Subpart A of Part 32 of this chapter to distribute items containing byproduct material or quantities of byproduct material to persons exempt from the licensing requirements of Part 30 of this chapter, except (1) §§ 32.11 and 32.18 of this chapter, (2) specific licenses authorizing redistribution of items listed in § 32.18 of this chapter to persons generally licensed under a specific license and licensed by the Commission for distribution to persons exempt from the licensing requirements of Part 30 of this chapter, and (3) specific licenses which authorize distribution of timepieces, hands and dials.	$510	$510

[1] Amendments based on applications filed after the due date of the annual license fee, reducing the scope of a licensee's program or cancelling a license, may entitle the licensee to a partial refund of an annual fee that has been paid by the licensee for the year in which such amendment or cancellation occurs; in such cases, the refund shall be computed on a quarterly basis, reflecting the quarter in which the application for amendment or cancellation is received. *Provided however*, That no refund will be made for $35 or less, and no partial payment of less than $35 will be accepted. The licensee must apply for the refund or reduced payment. Applications for amendments increasing the scope of a program to a higher fee category will not be accepted for filing unless accompanied by the prescribed fee for the higher fee category, less any annual fee already paid for the lower fee category.

[2] Applications for materials licenses covering more than one fee category shall be accompanied by the prescribed fee for each category.

[3] Payment of the prescribed annual fee does not automatically renew the license for which the fee is paid. Renewal applications must be filed in accordance with the requirements of Parts 30, 40, or 70 of this chapter. If the Commission's program or cancelling a license, may entitle the licensee to a partial refund of an annual fee that has been paid by the licensee for the year in which such amendment or cancellation occurs; in such cases, the refund shall be computed on a quarterly basis, reflecting the quarter in which the application for amendment or cancellation is received. *Provided however*, That no refund will be made for $35 or less, and no partial payment of less than $35 will be accepted. The licensee must apply for the refund or reduced payment. Applications for amendments increasing the scope of a program to a higher fee category will not be accepted for filing unless accompanied by the prescribed fee for the higher fee category, less any annual fee already paid for the lower fee category.

[4] Applications for materials licenses covering more than one fee category shall be accompanied by the prescribed fee for each category.

[5] Payment of the prescribed annual fee does not automatically renew the license for which the fee is paid. Renewal applications must be filed in accordance with the requirements of Parts 30, 40, or 70 of this chapter. If the Commission's program or cancelling a license, may entitle the licensee to a partial refund of an annual fee that has been paid by the licensee for the year in which such amendment or cancellation occurs; in such cases, the refund shall be computed on a quarterly basis, reflecting the quarter in which the application for amendment or cancellation is received. *Provided however*, That no refund will be made for $35 or less, and no partial payment of less than $35 will be accepted. The licensee must apply for the refund or reduced payment. Applications for amendments increasing the scope of a program to a higher fee category will not be accepted for filing unless accompanied by the prescribed fee for the higher fee category, less any annual fee already paid for the lower fee category.

[6] Applications for materials licenses covering more than one fee category shall be accompanied by the prescribed fee for each category.

[7] The annual fee will be waived where an application is filed to cancel the license prior to the due date of the annual fee, and the amount of the annual fee will be reduced where an application is filed to amend the license to reduce its scope of activity prior to the due date of the fee. This waiver or reduction of fee will be granted only if the request for the application filed prior to the due date of the fee contains all the information necessary to permit the Commission to complete the requested action.

[8] Licensees required to pay fees under Categories 1A through 1D are not required to pay a fee under Category 1E for sealed sources.

(Sec. 501, 65 Stat. 290; 31 U.S.C. 483a)

Dated at Germantown Md., this 3rd day of July 1973.

For the Atomic Energy Commission.

GORDON M. GRANT,
Acting Secretary of the Commission.

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION

PART 213—EXCEPTED SERVICE

Executive Office of the President

Section 213.3303 is amended to show that the following three positions in the Office of Management and Budget are excepted under Schedule C: One Secretary to the Assistant to the Director for Public Affairs and one Private Secretary to each of two Associate Directors.

Effective on July 11, 1973, paragraph (a) (6) is amended and paragraph (a) (14) is added under § 213.3303 as set out below.

§ 213.3303 Executive Office of the President.

(a) *Office of Management and Budget.* • • •

(6) One Private Secretary to each of three Associate Directors.

• • • • • •

(14) One Secretary to the Assistant to the Director for Public Affairs.

• • • • • •

PROMOTION, EVALUATION, AWARDS, ABSENCE AND LEAVE, AND SEPARATIONS, DEMOTIONS, AND FURLOUGHS

Miscellaneous Amendments

Part 335 is amended by deleting from § 335.103 certain specific requirements for inclusion in a promotion program.

Part 430 is amended by incorporating Subparts C and D into a revised Subpart B, deleting the requirement for approval of the Commission in establishing boards of review in revised § 430.201, deleting the requirement that members and alternate members of boards of review be members of the branch of Government in which the agency is located, deleting any reference to stenographic report of a hearing, and providing for rehearings when the board believes the correctness of its original decision is doubtful.

Part 451 is amended by deleting from § 451.201 the requirement that incentive awards be used as an integral part of supervision and management, deleting the standards for cash awards for tangible benefits from § 451.302, deleting § 451.303 which contained the standards for cash awards for intangible benefits, deleting § 451.303a which established an award scale for job performance and renumbering the remaining sections.

Part 630 is amended by providing in § 630.206 that a minimum charge of less than 1 hour may be established through negotiations and providing in § 630.506 for transfers of leave between agencies in whole hour units.

Part 715 is amended by deleting from § 715.202 the provision that a resignation once submitted is binding on the employee.

Chapter I of Title 5 of the Code of Federal Regulations is amended as set forth below:

PART 335—PROMOTION AND INTERNAL PLACEMENT

1. Part 335 is amended by revising § 335.103 as set out below:

§ 335.103 Agency promotion programs.

Except as otherwise specifically authorized by the Commission, an agency may make promotions under § 335.102 only to positions for which the agency has adopted and is administering a program designed to insure a systematic means of selection for promotion according to merit. The promotion program shall conform with the standards and requirements of the Commission.

(5 U.S.C. 3301, 3302; E.O. 10577, 3 CFR 1954–58 Comp., p. 218)

PART 430—PERFORMANCE EVALUATION

2. Part 430 is revised in its entirety as set out below:

Subpart A—General Provisions

Sec.
430.101 Definitions

Subpart B—Performance Rating Appeals

430.201 Establishment of boards of review
430.202 Members of boards
430.203 Appeals
430.204 Hearings
430.205 Board decisions

AUTHORITY: 5 U.S.C. 4308.

Subpart A—General Provisions

§ 430.101 Definitions.

In this part:

(a) "Agency" and "employee" have the meanings given them by section 4301 of title 5, United States Code;

(b) "Board" means Performance Rating Board of Review established under Subpart B of this part; and

(c) "Days" means calendar days and not workdays.

Subpart B—Performance Rating Appeals

§ 430.201 Establishment of boards of review.

The head of each agency shall establish one or more boards to consider and pass on the merits of performance ratings assigned under rating plans established under chapter 43 of title 5, United States Code. The boards may be established as standing boards and/or on a case by case basis. The jurisdiction of each board shall be specific and exclusive of that of any other board.

§ 430.202 Members of boards.

Each board is composed of a chairman designated by the Commission, an employee member designated in a manner approved by the Commission, and an agency member designated by authority of the agency head. Any alternate members are designated in the same manner as their principals.

§ 430.203 Appeals.

(a) *Unsatisfactory rating.* An employee with an unsatisfactory rating may obtain within his agency the one impartial review provided by law, or he may appeal directly to an appropriate board of review, or he may appeal to the board after obtaining the impartial review.

(b) *Satisfactory or better rating.* An employee with a satisfactory or better rating may obtain within his agency the one impartial review provided by law, or he may appeal to an appropriate board, but he may not do both.

(c) *Filing an appeal.* An appeal to a board shall be filed in writing in a manner designated in the applicable performance rating plan. The plan may specify that the appeal be filed directly to the chairman of the appropriate board or to an agency designee. If an agency designee receives the appeal, he shall promptly notify the chairman of the board that the appeal has been filed and shall submit all documents pertinent to the appeal.

(d) *Time limits on appeals.* Unless otherwise specified in the appropriate performance rating plan, the appeal shall be filed within:

(1) Thirty days after the employee receives notice of his rating; or

(2) Fifteen days after the employee withdraws his request for the impartial review within the agency, when more than thirty days have elapsed since he received notice of his rating; or

(3) Thirty days after the employee receives his agency's decision on the impartial review of an unsatisfactory rating.

(e) *Extension of time limits.* Boards may extend the time limits in paragraph (d) for good and sufficient reasons.

§ 430.204 Hearings.

(a) *Oral hearing.* The chairman of a board presides at an oral hearing held to obtain information needed to determine

V 38 I 132 PT I 7 3 JUL 11 XUM

the merits of an appealed rating, and rules on questions arising at the hearing.

(b) *Conduct of hearing.* The appellant and the representatives of the appellant and the agency, may attend the hearing. These parties may submit any information the board finds pertinent and may hear, examine, and reply to information received by the board. The board shall find pertinent the record of the impartial review of an appealed rating under paragraph (a) of section 430.203. The board may not consider information not directly related to the rating.

(c) *Hearing waived.* With the appellant's consent, the board may consider his appeal on the basis of written information submitted by both parties without oral hearing.

§ 430.205 Board decisions.

(a) *The decision.* The board shall consider the pertinent facts in an appeal and by majority vote either (1) increase the appealed rating or (2) sustain the rating without change.

(b) *Notice of decision.* The board's decision shall be in writing and contain a summary statement of the facts on which it is based. The board sends copies of the decision to the appellant and to the agency representative.

(c) *Effect of decision.* When an agency receives notice of a board's increase in an employee's rating, the agency shall correct all records of the original rating, reconsider any and all administrative actions based on the original rating, and insofar as possible under the law and regulations and in the public interest, redetermine and adjust those administrative actions to conform to the corrected rating.

(d) *Rehearings.* Rehearings on decided cases may be granted by a board, by majority vote, only on receipt from the party seeking a rehearing of information which convinces the board that the correctness of the decision is doubtful.

PART 451—INCENTIVE AWARDS

3. Part 451 is amended by revising § 451.201(a) and all of Subpart C as set out below:

§ 451.201 Agency plans.

(a) *Establishment and change.* The head of each agency shall establish and operate an incentive award plan, and shall submit any new plan or a change in a plan to the Commission within 30 days of the effective date of the plan or the change.

• • • • •

Subpart C—Awards

§ 451.301 Basic requirements.

An agency may not grant an incentive award before the contribution has been approved by the benefiting agency. The contribution must have been made while the contributor was a Government employee, and must be described in writing.

§ 451.302 Award over $5,000.

An agency head may not grant a cash award above $5,000 without prior approval of the Commission. The maximum award is $25,000.

§ 451.303 Effect of an award on pay.

(a) *Pay.* A cash award under this part is in addition to the regular pay of the recipient.

(b) *Further claim.* The acceptance of a cash award under this part constitutes an agreement that the use by the Government of a contribution, idea, method or device for which an incentive award is made does not form the basis of a further claim of any nature against the Government by the employee, his heirs, or his assigns.

§ 451.304 Honorary award.

An agency may grant an honorary award for a contribution. An honorary award may be granted in addition to a cash award.

§ 451.305 Group awards.

(a) *The award.* When a contribution is made by more than one employee, each contributing employee, including a supervisor, may share in the award.

(b) *Cash award shares.* An agency may grant the employees a cash award in equal shares, or in shares proportionate to each employee's participation in the contribution.

(c) *Amount of cash award.* The total amount of a cash award to a group may not exceed the amount that would be authorized if the contribution had been made by one individual, except that an agency head for special reasons may decide a different amount is justified. He must document his reasons in support of the different amount.

§ 451.306 Presidential award.

Each agency shall submit any recommendation for a Presidential award in accordance with instructions issued by the Distinguished Civilian Service Awards Board.

§ 451.307 Interagency award.

The head of an agency in which a contribution originates may grant an incentive award for a contribution that also may benefit another agency. The initial award is based on the benefit to the originating agency before consideration of additional benefits to another agency.

§ 451.308 Interagency referral.

(a) *Originating agency.* The head of each agency in which a contribution originates shall establish a procedure that requires that the contribution be referred to other agencies which may benefit from it. The referral to other agencies shall be made only after consideration of the applicability of the contribution in the originating agency.

(b) *Referral to one agency.* When the agency in which a contribution originates determines that only one other agency is responsible for acting on the contribution, it shall refer the contribution to that agency. The agency to which the contribution is referred shall notify the originating agency of the action on the contribution and shall send a copy of the notification to the Commission.

(c) *Referral to Commission.* When the originating agency determines that more than one other agency is responsible for acting on the contribution, it shall refer the file to the Commission, with information on the activities in other agencies that may benefit from the contribution.

(5 U.S.C. 4506)

PART 630—ABSENCE AND LEAVE

4. Part 630 is amended by revising § 630.206(a) and by adding a new § 630.506 as set out below:

§ 630.206 Minimum charge.

(a) Unless an agency establishes a minimum charge of less than one hour, or establishes a different minimum charge through negotiations, the minimum charge for leave is one hour, and additional charges are in multiples thereof. If an employee is unavoidably or necessarily absent for less than one hour, or tardy, the agency, for adequate reason, may excuse him without charge to leave.

• • • • •

§ 630.506 Minimum unit.

(a) When an employee moves between positions under subchapter I of chapter 63 of title 5, United States Code, in different agencies, only his leave in whole hour units may be transferred.

(b) When an employee moves between positions under subchapter I of chapter 63 of title 5, United States Code, covered by different leave charging systems within the same agency, his leave is transferable in accordance with paragraph (a) of this section, unless the agency establishes a different policy making fractions of an hour of leave transferable.

(5 U.S.C. 6311)

PART 715—NONDISCIPLINARY SEPARATIONS, DEMOTIONS, AND FURLOUGHS

5. Part 715 is amended by revising § 715.202(b) as set out below:

§ 715.202 Resignation.

• • • • •

(b) *Withdrawal of resignation.* An agency may permit an employee to withdraw his resignation at any time before it has become effective. An agency may decline a request to withdraw a resignation before its effective date only when the agency has a valid reason and explains that reason to the employee. A valid reason includes, but is not limited to, administrative disruption or the hiring or commitment to hire a replacement. Avoidance of adverse action proceedings is not a valid reason.

(5 U.S.C. 1302, 3301, 3302, 7301; E.O. 10577, 3 CFR 1954–58 Comp., p. 218; E.O. 11222, 3 CFR 1964–65 Comp., p. 306)

Title 7—Agriculture

CHAPTER II—FOOD AND NUTRITION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER A—SCHOOL LUNCH PROGRAM

PART 246—SPECIAL SUPPLEMENTAL FOOD PROGRAM FOR WOMEN, INFANTS AND CHILDREN

Pursuant to the authority contained in the Child Nutrition Act of 1966, as amended (42 U.S.C. 1771 et seq.) regulations for the operation of the Special Supplemental Food Program for Women, Infants and Children are hereby issued.

Public Law 92–433, approved September 26, 1972, added a new section 17 to the Child Nutrition Act of 1966 (86 Stat. 729). This section authorized the establishment of a Special Supplemental Food Program. The Department has chosen to call this the Special Supplemental Food Program for Women, Infants and Children (WIC program) to prevent confusion with the supplemental food program which is currently being operated as an adjunct of the Food Distribution Program (7 CFR 250.14).

The WIC program is established on a pilot basis through June 30, 1974. Although the WIC program will supply nutritious foods to participants, a major object of the program is the collection and evaluation of data which will medically identify benefits of this food intervention program. In addition, data will be collected and analyzed to measure the administrative efficiencies of various methods of making food available to participants.

To achieve the maximum amount of information in a minimum period of time, the Department is encouraging diversity in the design and operation of the WIC program in individual localities. A minimum number of requirements are imposed. Local health clinics are required to demonstrate that they serve low income populations considered to be at nutritional risk and that they have the necessary facilities and other resources to effectively carry out the WIC program. State departments of health (by whatever name identified) must accept the responsibility for the system of making foods available to participants and for supervising all participating health clinics in the State.

Interested health clinics must apply to their State department of health but FNS will select those which will participate in the WIC program. The criteria for selection fall in two general categories: Demonstrated need for the program and the ability to meet program objectives.

Pregnant or lactating women, infants and children under age four are eligible to participate if they live in an approved low income area served by an approved health clinic, are eligible for reduced cost medical treatment from that clinic and are determined by professionals on the staff of the clinic to need the supplemental foods.

The Department has prescribed the foods and the maximum monthly quantities of each food which are to be made available to participating individuals. These foods are intended to supplement the regular diet of participants—not to be a complete diet in themselves. However, they are nutritious and are especially high in those nutrients known to be lacking in diets of people who are eligible for the WIC program.

Infants can receive over 100 percent of the Recommended Dietary Allowances (RDA) of the National Research Council of the National Academy of Sciences for protein, calcium, iron and Vitamin C and about 90 percent of the RDA for Vitamin A from the authorized supplemental foods. Calories will also be fully supplied up to about age 3 months and will be about three-fourths of RDA thereafter. Children one year of age, but less than four years of age can receive more than 100 percent of RDA for protein, calcium, iron, and Vitamins A and C, and about two-thirds for calories. Pregnant or lactating women can receive about one-fourth of RDA for calories and between 60 percent to over 100 percent of RDA for the nutrients mentioned above.

It is the policy of the Department to publish a notice of proposed rulemaking and afford interested persons 30 days to submit comments before final rules and regulations are formulated for Food and Nutrition Service Programs. However, in view of the need for issuing final regulations for the WIC program on or before July 6, 1973, as ordered by the U.S. District Court for the District of Columbia on June 20, 1973, it is hereby determined that it is impractical, unnecessary and contrary to the public interest to give notice of proposed rulemaking. Although public comment was not solicited, these regulations were formulated after discussions with members of the Department of Health, Education and Welfare and with medical consultants.

Applications for participation in the pilot WIC program will be accepted immediately. Any inquiries should be directed to the appropriate FNS Regional Office listed in § 246.15 of this part.

AUTHORITY: Sec. 10, 80 Stat. 889, as amended; sec. 9, 86 Stat. 729; 42 U.S.C. 1786.

§ 246.1 General purpose and scope.

(a) This part announces the policies and prescribes the general regulations for a pilot Special Supplemental Food Program for Women, Infants and Children (WIC program). Under the WIC program the Department shall provide cash grants to the health department or comparable agency of a State to enable such agency to make nutritionally desirable foods available to pregnant or lactating women, infants and children through local public or nonprofit private health agencies. The WIC program shall operate through June 30, 1974, in selected States and areas.

(b) The Department shall also collect data to evaluate the effect of food intervention upon populations which are at nutritional risk. Further, the Department shall evaluate WIC program operations for administrative effectiveness and efficiency.

§ 246.2 Definitions.

For the purposes of this part and of all contracts, instructions, forms, and other documents related hereto, the term:

(a) "Adequate medical records" means those records listed under § 246.11(d).

(b) "Administrative costs" means all costs, except expenditures for food, directly attributable to WIC program operations and also means costs indirectly attributable to the WIC Program (those costs shared with other programs) if such costs are allocated under an approved cost allocation plan as described in the Office of Management and Budget Circular A–87.

(c) "Birth weight" means weight of an infant in grams determined within two hours of birth.

(d) "Children" means persons at least one year of age but less than four years of age.

(e) "Competent professionals" means physicians, nutritionists, registered nurses, dietitians, or State or local medically trained health officials, or persons designated by physicians or State or local medically trained health officials as being competent professionally to evaluate nutritional risk.

(f) "Department" means the United States Department of Agriculture.

(g) "Designated evaluation visit" means a visit to the local agency during which participants selected in accordance with FNS instructions will complete the tests needed to obtain the information required for the FNS evaluation of the effect of food intervention.

(h) "FNS" means the Food and Nutrition Service of the Department.

(i) "FNSRO" means the appropriate Food and Nutrition Service Regional Office.

(j) "Infants" means persons under one year of age.

(k) "Lactating women" means women for a period of six weeks post partum

V 38-132 JUL 11 73 XUM

and also means women who are breast-feeding an infant.

(l) "Local agency" means a health clinic which is operated by the State agency, a political subdivision of the State, or a private, nonprofit organization.

(m) "Low birth weight" means a birth weight less than 2,500 grams.

(n) "Low income" means an income below the poverty level as determined by the 1970 U.S. Census subject to annual revision for changes in the cost of living.

(o) "Nutritional risk" means one or more of the following:

(1) For pregnant or lactating women—

(i) Known inadequate nutritional patterns;

(ii) High incidence of anemia;

(iii) High rates of prematurity or miscarriage; or

(iv) Inadequate patterns of growth (underweight, obesity, or stunting).

(2) For infants and children—

(i) Deficient patterns of growth (when compared to the standards for height and weight established by H. C. Stuart and published by Waldo E. Nelson, et al., in the Textbook of Pediatrics, 9th Edition, 1969, W. B. Saunders Co., Phila., Pa.);

(ii) High incidence of nutritional anemia; or

(iii) Known inadequate nutritional patterns.

(p) "Participants" means persons to whom food is made available under the WIC program.

(q) "Pregnant women" means persons determined by competent professionals to have one or more fetuses *in utero*.

(r) "Project area" means a geographic subdivision within a State determined by the local agency as the area to be served by the WIC program.

(s) "Secretary" means the Secretary of the United States Department of Agriculture or his authorized representative.

(t) "State" means any one of the 50 States, the District of Columbia, Puerto Rico, the Virgin Islands, Guam or American Samoa.

(u) "State agency" means the State health department or comparable agency of the State government.

(v) "Supplemental food" means any food authorized to be made available under the WIC program.

(w) "WIC program" means the Special Supplemental Food Program for Women, Infants and Children authorized by section 17 of the Child Nutrition Act of 1966, as amended.

§ 246.3 Administration.

(a) Within the Department, FNS shall act on behalf of the Department in administering the WIC program.

(b) Within the States, the State agency shall be responsible for the operation of the WIC program within the State. The State agency shall accept applications from local agencies which desire to participate in the WIC program. The State agency shall be responsible for the design and operation of the system for making supplemental foods available to participants, including adequate safeguards against misuse. The State agency shall be responsible for forwarding to FNSRO those applications from local agencies which demonstrate the capability of operating under the WIC program in accordance with this part and all instructions issued hereinunder. The State agency shall monitor all program activities by local agencies and shall promptly notify FNSRO of any problems, program irregularities or illegal activity discovered thereby. The State agency shall account to FNSRO for all funds granted under the WIC program and shall be responsible for allocating the funds available for administrative costs between the State agency and local agencies.

§ 246.4 Use of funds.

(a) Federal funds made available to any State agency for the WIC program shall be used by the State agency or by local agencies either to purchase supplemental foods for participants or to redeem vouchers issued for that purpose, except that an amount not to exceed 10 per centum of the total funds so made available may be used for State and local agency administrative costs.

(b) The use of funds for administrative costs shall be subject to the following conditions:

(1) Applicant local agencies and State agencies shall submit budgets for administrative costs with the WIC program applications;

(2) The formula, if any, for allocating these funds between the State agency and local agencies shall be determined by the State agency;

(3) The aggregated administrative costs of the State agency and all local agencies shall not exceed 10 per centum of the total amount of the WIC program funds made available to the State agency.

(c) Funds shall not be used for any purposes by or on behalf of a local agency until a WIC program agreement has been completed between the State agency and such local agency.

(d) Upon demand by FNS, the State agency shall promptly return to FNS any funds which have not been used for the WIC program.

§ 246.5 Eligibility of local agencies.

A local agency is eligible to apply for participation in the WIC program if:

(a) It provides health services to residents of an area in which a substantial proportion of the persons have low incomes;

(b) It serves a population of women, infants or children which is at nutritional risk;

(c) Its staff includes competent professionals who interview or examine persons receiving health services;

(d) It has the personnel and expertise, and its facilities include the equipment necessary for performing the measurements, tests and data collection specified by FNS for the WIC program; and

(e) It maintains or is able to maintain adequate medical records.

§ 246.6 Application by local agencies.

Any eligible local agency interested in participating in the WIC program shall file a written application with its State agency. Applications need not be in any particular form, unless otherwise required by the State agency, but must include the following:

(a) The name, address and telephone number of the health clinic; the name of the official who shall be responsible for supervising WIC program operations at the local level; the name and address of the organization which sponsors the health clinic, if any, and the sources of funding for the health clinic. A private nonprofit organization must also include the number of the certificate issued by the Internal Revenue Service granting tax-exempt status.

(b) The types and numbers of competent professionals on the staff, by field of specialization, who will examine or interview persons to determine eligibility for the WIC program.

(c) The types of health services offered by the health clinic to pregnant or lactating women, infants and children; and a brief description of the financial, residential and other socio-economic criteria applied to determine the eligibility of such individuals for each type of health service, including treatment.

(d) Description of type of laboratory facilities available and a statement indicating whether or not blood, serum or plasma can be processed for transportation to a designee of FNS.

(e) A list specifying which of the following data are presently maintained on pregnant or lactating women, infants and children: height; weight; head circumference (infants only); hemoglobin; hematocrit; serum or plasma concentrations of iron, albumin, vitamin A, and ascorbic acid; and percent saturation of transferrin. Also, indicate any other laboratory tests routinely performed and any other pertinent medical data routinely recorded.

(f) The boundaries of the geographic subdivision which the local agency proposes as the project area.

(g) An estimate of the total population of the proposed project area.

(h) Data showing the percentage of the population of the proposed project area with low incomes and any other significant information on economic conditions affecting the proposed project area.

(i) Data which indicates the rate of nutritional risk within the proposed project area including information such as the incidence of nutritional anemia; the number and rate of pregnancies, especially teenage pregnancies; the incidences of prematurity and miscarriage; the percent of low birth weight infants, infant morbidity and mortality rates; and the incidence of any additional health problems known to exist among women, infants and children in the proposed project area.

(j) An estimate of the number of pregnant or lactating women, infants, or children which the local agency expects to serve monthly under the WIC program with an indication of the racial and ethnic composition of the expected participants.

(k) A brief description of the method which the local agency recommends to the State agency for making supplemental foods available to expected participants.

(l) A description of any feeding program of a similar nature which is already in operation. Include number of participants served by age group or other category, costs and items of food provided, delivery system used, administrative costs, and an explanation of the expected relationship between the current program and the WIC program.

(m) The estimated monthly cost of purchasing supplemental foods for expected participants and a brief description of the estimating techniques employed to calculate this figure;

(n) The estimated monthly administrative costs of the health clinic by general type of expenditure, a brief justification for each such budgeted expenditure and, if the total administrative costs exceed the funds which will be made available for such costs, the sources and amounts from each source which shall be used to fund such costs.

(o) A statement that the information furnished in the application is true and accurate to the knowledge of the signer.

(p) The signature of the official in the local agency who shall be responsible for supervising local WIC program operations.

§ 246.7 State agency action on applications.

(a) The State agency shall transmit to FNSRO each application from a health clinic which demonstrates the capability of operating under the WIC program. The transmittal shall include the following information:

(1) The name and address of the State agency and the name and telephone number of the person within the State agency who shall be responsible for the WIC program;

(2) A listing of the WIC program operation duties to be performed by the State agency and those to be performed by the local agency;

(3) A description of the techniques which shall be used to monitor the activities of the local agency and the frequency with which they shall be employed;

(4) The estimated administrative costs of the State agency and a brief justification for each of the budgeted expenditures;

(5) If the 10 per centum of the WIC program budget which may be used for administrative costs are to be divided between the State agency and local agency, specify the method by which these funds shall be allocated;

(6) If estimated administrative costs exceed 10 per centum of the estimated total WIC program budget, including such administrative costs, the source of additional funds above the 10 per centum shall be specified and the amounts to be provided by each source shall be indicated;

(7) A description of the method or delivery system selected by the State agency for making supplemental foods available to participants;

(8) A description of any activities which shall be carried out as an adjunct of or concomitant to the WIC program (for example, any nutrition education effort) and such activities shall be separately identified in the budget;

(9) Any other information which the State agency wishes to include; and

(10) The signature of the official in the State agency who shall be responsible for all WIC program operations within the State.

(b) The State agency shall promptly notify in writing each local agency whose application is not transmitted to FNSRO of the reasons therefor.

§ 246.8 Selection of local agencies.

(a) *General.* FNS shall select local agencies for participation in the WIC program on the basis of information contained in each application and in the accompanying transmittal of the State agency. Each application and the accompanying transmittal shall be thoroughly appraised and, for the initial selection, shall be ranked among all applications received by FNSRO as of August 15, 1973. Local agencies shall be selected which, in the judgment of FNS, are most suited to the accomplishment of the purposes of this part. The number of local agencies selected shall be dependent upon the funds available to FNS.

(b) *Criteria for selection.* In selecting local agencies for participation in the WIC program, FNS shall consider:

(1) The severity of nutritional risk and other health problems which affect residents of the proposed project area;

(2) The percentage of residents in the proposed project area with low incomes and other factors which could affect the ability of such residents to secure adequate nutrition;

(3) The number of expected participants in each category of eligible persons and any demographic characteristics which could affect the WIC program evaluation;

(4) The expertise which the health clinic has in conducting necessary anthropometric measurements, in performing hemoglobin tests, and in processing blood, serum, or plasma for transportation to a designee of FNS.

(5) The experience of the health clinic with similar feeding programs and the expertise of its staff in managing programs in addition to the normal health care programs.

(6) The feasibility of the proposed method of making food available to participants, the acceptability of the monitoring system, and the utility of both systems for program evaluation;

(7) The adequacy and suitability of the manner in which grant funds will be handled and administered and program activities monitored by the State agency.

(c) *Notification.* Each State agency shall be notified in writing by FNS of the action taken on each application transmitted by that State agency. The notification shall list the amount of funds which FNS shall make available to the State agency. In addition, FNS shall publicly announce all selected local agencies and the amount of funds made available to each State agency.

§ 246.9 Agreements.

(a) The State agency shall enter into a written agreement with the Department before any funds are made available by FNS under this part. The agreement shall incorporate, by reference or otherwise, the terms and conditions set forth in this part. The agreement shall be executed by the appropriate State agency official and by the Administrator of FNSRO on behalf of the Department. The original and two copies of the agreement shall be forwarded to FNS. The agreement shall include:

(1) *Opening statement.* An expression of the willingness of the State agency to administer the WIC program until June 30, 1974.

(2) *Identification.* The name of the State agency charged with primary responsibility for the WIC program.

(3) *Applications.* An assurance that the WIC program shall be operated only by local agencies selected by FNS and that such operations shall conform to the methods stated in applications and transmittals which were approved by FNS.

(4) *Records.* An assurance that all required records shall be maintained and retained in accordance with the requirements of this part and shall be made available as required by this part.

(5) *Reports.* An agreement to submit to FNS on a regular and timely basis any reports, including a report of expenditures, as required by this part and any instructions issued hereunder.

(6) *Safeguards of information.* An affirmation that information concerning individual participants will be released only to persons directly connected with the WIC program.

(7) *Public information.* A statement that WIC program regulations, instructions, and other documents which do not pertain to individual participants shall be made available to the public upon request.

(8) *Nondiscrimination.* An assurance that the State agency shall comply with the requirements of the Department's regulations respecting nondiscrimination (Part 15 of this title) to the end that no person shall, on the ground of race, color or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under the WIC program and a further assurance that no person shall

V 38 - 132 JUL 11 73 XUM

be subjected to any discrimination under the WIC program because of creed, political beliefs or sex.

(9) *Fair hearing.* An assurance that persons aggrieved by any determination of a local agency shall be afforded a prompt opportunity for a fair hearing as specified in this part.

(10) *Program promotion.* A guarantee of assistance to the Department in its efforts towards WIC program promotion and nutrition education.

(11) *Compliance.* An agreement to comply with the provisions of this part and the instructions issued hereunder including the requirement that WIC program funds be withdrawn from a Federal Reserve Bank only in amounts necessary to meet actual current disbursement needs.

(12) *Miscellaneous.* Any additional provisions that are required by law or may be necessary for WIC program administration, operation or evaluation.

(b) The State agency shall enter into an agreement with each local agency in the State selected for participation in the WIC program. The agreement shall be in writing and shall contain such terms as the State agency deems necessary to insure that:

(1) The local agency operates in conformity with the methods stated in the application and transmittal which were approved by FNS;

(2) The actions of the local agency will be in accordance with this part; and

(3) Data will be collected by the local agency and made available as required this part.

§ 246.10 Payments to States.

FNS will issue a Letter of Credit to the appropriate Federal Reserve Bank in favor of each State agency having an agreement with the Department under this part to administer the WIC program. The State agency shall obtain funds needed through presentation by designated officials of a Payment Voucher on Letter of Credit to a local commercial bank for transmission to the appropriate Federal Reserve Bank, in accordance with procedures prescribed by FNS and approved by the U.S. Treasury Department. Withdrawals (advances) against the Letter of Credit shall be made only in amounts necessary to meet actual current disbursement needs. The advanced funds shall be used without delay to pay the currently approved costs. Advances made by the State agency to local agencies shall conform to the same standards of timing and amount as apply to advances by FNS to the State agency.

§ 246.11 Records and reports.

(a) *General.* All records relating to the WIC program shall be retained for three years following the end of the applicable Federal fiscal year or the termination of the program, whichever is sooner. However, the Department may, by written notice, require retention of any records deemed by it to be necessary for resolution of an audit or of any litigation. If the Department deems any of the program records to be of historical interest, it may require the State or local agency to forward such records to the Department whenever such agency is disposing of them. All food records, fiscal records and medical records shall be available during normal business hours for representatives of the Department and of the General Accounting Office of the United States to inspect, audit and copy, provided that medical case records of individual participants shall remain confidential.

(b) *Financial records.* Each State and local agency shall keep complete and accurate records of all amounts received and disbursed for the WIC program. All of the cost allocation data shall also be maintained.

(c) *Food records.* Each local agency shall keep a file of the food authorizations issued each month to each participant. If a local agency actually dispenses food to participants, the agency shall keep accurate and complete records of the receipt, disposal and inventory of such foods.

(d) *Medical records.* The local agency shall record during each designated evaluation visit, at a minimum, the following data: height (first visit only for pregnant or lactating women); weight, head circumference (infants only); and hemoglobin determinations. In addition, the following information is to be recorded at the local agency after delivery of an infant: The duration of the pregnancy and birth weight of the infant. If birth weight is not determined within two hours of delivery, the weight in grams may be determined within 5 days, but the interval between birth and weighing must be specifically noted. It may also be required at each designated evaluation visit that blood be drawn and processed for transportation to a designee of FNS.

(e) *Reports.* State agencies and local agencies shall submit monthly reports on forms specified by FNS. Such reports shall be submitted on or before the 20th of the month following the month for which data are reported. Reports shall be mailed in accordance with instructions from FNS. Reports shall concern the use of funds received under this part, the participation in the WIC program, and the data necessary to permit evaluation of administrative performance and of the effect of food intervention upon participants.

§ 246.12 Eligibility of persons.

Pregnant or lactating women, infants and children shall be eligible for the WIC program if:

(a) They reside in an approved project area;

(b) They are eligible for treatment at less than the full charge customarily made for such services by the local agency which serves the project area wherein they reside; and

(c) They are determined by a competent professional on the staff of the local agency to need the supplemental foods described in § 246.13.

§ 246.13 Supplemental foods.

(a) The following kinds and specifications of foods shall be available under the WIC program:

(1) For infants:

(i) Iron fortified infant formula with at least 10 milligrams of iron per liter of formula at standard dilution (which supplies 67 kilocalories per 100 milliliters, i.e., 20 kilocalories per fluid ounce).

Substitute

Whole fluid milk fortified with 400 International Units of Vitamin D per quart, or evaporated milk fortified with 400 International Units of Vitamin D per reconstituted quart, may be substituted for iron fortified infant formula for infants after six months of age.

(ii) Infant cereal which contains a minimum of 90 milligrams of iron per 100 grams of dry cereal.

(iii) Fruit juice which contains at least 30 milligrams of vitamin C per 100 milliliter.

(2) For children and pregnant or lactating women:

(i) Whole fluid milk fortified with 400 International Units of vitamin D per quart; or evaporated milk; or skim milk, low fat milk or non-fat dry milk. All milk products other than whole fluid milk must be fortified with 400 International Units of vitamin D and at least 1500 International Units of vitamin A per fluid quart.

(ii) Cereal (hot or cold) which contains a minimum of 30 milligrams of iron per 100 grams of dry cereal.

(iii) Fruit or vegetable juice, or both, which contains a minimum of 30 milligrams of vitamin C per 100 milliliters.

(iv) Cheese (natural cheddar or pasteurized processed American).

(v) Eggs.

(b) Supplemental foods shall be made available in amounts up to the following maximum quantities:

Foods	Units [a]	Maximum Number of Units Per Month: Infants	Maximum Number of Units Per Month: Children & Pregnant or Lactating Women
Iron fortified infant formula	13 fl. oz. can of conc. liquid [b]	31	
Whole fluid milk	fluid quart	(*)	31
Evaporated milk	13 fl. oz. can	May be substituted for whole fluid milk at the rate of one can per quart of whole fluid milk.	
Skim or low fat milk	fluid quart		May be substituted for whole fluid milk on a quart-for-quart basis.
Non-fat dry milk	4 lb. pkg		One package may be substituted for each 20 quarts of whole fluid milk.
Cheese	pound		May be substituted for whole fluid milk at the rate of one pound per three quarts.
Eggs	dozen		2½ [d]
Infant cereal	8 oz. pkg	3	
Cereals (hot or cold)	8 oz. pkg		4
Juice, single strength	46 fl. oz. can [e]	2 [f]	6

[a] Different size units may be made available provided that the total volume or weight per month remains the same.
[b] Dry or ready-to-use forms may be made available in equivalent amounts.
[*] May be substituted for formula beginning at age six months at the rate of one quart per can of concentrated formula.
[d] An equivalent amount of dried egg mix (two pounds) may be substituted.
[e] Frozen, concentrated fruit juices may be made available in 12 oz. cans at the same rate or in an equivalent volume in other size cans.
[f] 15-4 oz. cans of infant juices may be substituted.

§ 246.14 Fair hearing procedure.

Each State agency participating in the WIC program shall establish a hearing procedure under which a person or his or her parent or guardian can appeal from a decision made by the local agency respecting the eligibility of such person for supplemental foods. Such hearing procedure shall provide:

(a) A simple, publicly announced method for a person to make an oral or written request for a hearing;

(b) An opportunity for the person to be assisted or represented by an attorney or other person in presenting the appeal;

(c) An opportunity to examine, prior to and during the hearing, the documents and records presented to support the decision under appeal;

(d) That the hearing shall be held with reasonable promptness and convenience to the person and that adequate notice shall be given to the person as to the time and place of the hearing;

(e) An opportunity for the person to present oral or documentary evidence and arguments supporting his or her position without undue interference;

(f) An opportunity for the person to question or refute any testimony or other evidence and to confront and cross-examine any adverse witnesses;

(g) That the hearing shall be conducted and the decision made by a hearing official who did not participate in making the decision under appeal;

(h) That the decision of the hearing official shall be based on the oral and documentary evidence presented at the hearing and made a part of the hearing record:

(i) That the person and any designated representative shall be notified in writing of the decision of the hearing official;

(j) That a written record shall be prepared with respect to each hearing, which shall include the decision under appeal, any documentary evidence and a summary of any oral testimony presented at the hearing, the decision of the hearing official, including the reasons therefor, and a copy of the notification to the family of the decision of the hearing official; and

(k) That such written record of each hearing shall be preserved for a period of 3 years and shall be available for examination by the person's representative at any reasonable time and place during such period.

§ 246.15 Miscellaneous.

(a) Any State agency or any local agency may be disqualified from future participation if it fails to comply with the provisions of this part and its agreement with the Department or the State agency. This does not preclude the possibility of other action being taken through other means available where necessary, including prosecution for fraud under applicable Federal statutes. If FNS determines that any part of the money received by a State agency, or food purchased or vouchers redeemed with WIC program funds were, through State agency or local agency negligence or fraud, misused or otherwise diverted from the WIC program purposes, the State agency shall, on demand by FNS, pay to FNS a sum equal to the amount of the money or the value of the food or vouchers so misused or diverted. Further, if FNS determines that any part of the money received by a State agency, or food purchased or vouchers redeemed with WIC program funds, were lost as a result of thefts, embezzlements, or unexplained causes, the State agency shall, on demand by FNS, pay to FNS a sum equal to the amount of the money or the value of the food or vouchers so lost. The State agency shall have full opportunity to submit evidence, explanation or information concerning alleged instances of noncompliance or diversion before a final determination is made in such cases.

(b) Requests for information or assistance on the WIC program and all applications, transmittals, agreements or other documents required by this part shall be sent to the FNSRO serving the State as listed below:

(1) Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia: U. S. Department of Agriculture, FNS, Northeast Region, 707 Alexander Road, Princeton, New Jersey 08540.

(2) Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, Puerto Rico, South Carolina, Tennessee, Virgin Islands: U. S. Department of Agriculture, FNS, Southeast Region, 1100 Spring Street NW., Atlanta, Georgia 30309.

(3) Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, Ohio, Wisconsin: U. S. Department of Agriculture, FNS, Midwest Region, 536 South Clark Street, Chicago, Illinois 60605.

(4) Arkansas, Colorado, Louisiana, Montana, New Mexico, North Dakota, Oklahoma, South Dakota, Texas, Utah, Wyoming: U. S. Department of Agriculture, FNS, West-Central Region, 1100 Commerce Street, Room 5-D-22, Dallas, Texas 75202.

(5) Alaska, American Samoa, Arizona, California, Guam, Hawaii, Idaho, Nevada, Oregon, Trust Territory, Washington: U. S. Department of Agriculture, FNS, Western Region, 550 Kearney Street, Room 400, San Francisco, California 94108.

(c) FNS shall issue instructions or procedures to implement the provisions of this part.

(d) Nothing contained in this part shall prevent a State agency from imposing additional requirements for participation in the WIC program which are not inconsistent with the provisions of this part.

NOTE: The reporting and/or record keeping requirements contained herein have been approved by the Office of Management and Budget in accordance with the Federal Reports Act of 1942.

Effective date. This part shall become effective on July 13, 1973.

Signed at Washington, D.C., on July 6, 1973.

CLAYTON YEUTTER,
Assistant Secretary.

CHAPTER VII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (AGRICULTURAL ADJUSTMENT), DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—FARM MARKETNG QUOTAS AND ACREAGE ALLOTMENTS

[Amdt. 5]

PART 722—COTTON

Subpart—Regulations for 1968 and Succeeding Years Extra Long Staple Cotton Program

MISCELLANEOUS AMENDMENTS

The regulations governing the Extra Long Staple Cotton Program for 1968 and Succeeding Years, 33 FR 19159, as amended, are being amended to set forth changes for the 1973 crop year as follows:

1. In accordance with amendment 3 to the regulations governing reconstitution of farms, allotments, and bases (38 FR 7564), federally-owned land will be ineligible for participation in the program.

V 38 1132 JUL 11 73 XUM

To the extent that the leasing arrangement permits the production of extra long staple cotton, this prohibition will not apply (1) to the former owner who has enjoyed uninterrupted possession of the land, or (2) during the term of any lease executed prior to March 23, 1973.

2. The 1973 price support payment factor and price support payment rate are announced.

3. Beginning with the 1973 crop, a reduction will be made in the payment otherwise computed for a farm in cases where the producer, in good faith, submits incorrect production data.

On January 8, 1973, notice of proposed rule making regarding determinations with respect to the 1973 crop of extra long staple cotton was published in the FEDERAL REGISTER (38 FR 1053). Interested persons were invited to submit written data, views, and recommendations regarding the determinations within 30 days after publication of the notice. The comments received have been duly considered.

Pursuant to section 101(f) of the Agricultural Act of 1949, as amended, Part 722 is amended as follows:

1. Section 722.703(b) is amended by adding a new subparagraph (4) to read as follows:

§ 722.703 Requirements for eligibility.

* * * * *

(b) *Farm requirements.* * * *

(4) Land owned by the Federal Government shall be inelegible for participation in the program if the land is (i) leased subject to restrictions prohibiting the production of extra long staple cotton, or requiring the use of land for other purposes, or prohibiting the receipt of Federal payments for diversion or set-aside of such acreage, (ii) occupied without a lease, permit, or other right of possession, (iii) in a national wildlife refuge, or (iv) covered by a lease which was renewed or executed after March 22, 1973, unless the land was acquired by an agency having the right of eminent domain and leased back to the former owner with uninterrupted possession.

2. Section 722.704 is amended by adding a new paragraph (d) to read as follows:

§ 722.704 Price support payment factor.

* * * * *

(d) For 1973, the price support payment is 0.6914.

3. Section 722.709 is amended by adding a new sentence at the end of paragraph (a) and by adding a new paragraph (c). The amended language reads as follows:

§ 722.709 Price support payment.

(a) * * * For 1973, the price support payment rate shall be 16.01 cents per pound.

* * * * *

(c) Notwithstanding any other provision of this subpart, where the county committee determines that (1) a producer submitted incorrect production data under § 722.705, (2) the difference between the actual production and the amount of production represented by the incorrect data is small in relation to the actual production, and (3) the producer made a good faith effort to supply the correct data, a reduction shall be made in the payment otherwise computed for the farm in accordance with instructions issued by the Deputy Administrator.

4. Section 722.715 is amended to read as follows:

§ 722.715 Misrepresentation and scheme or device.

(a) A producer who is determined by the county committee or the State committee to have erroneously represented any fact affecting a program determination shall not be entitled to payments under the program for the farm with respect to which the representation was made and shall refund to the Commodity Credit Corporation the payments received by him with respect to such farm.

(b) A producer who is determined by the State committee, or the county committee with the approval of the State committee, to have knowingly (1) adopted any scheme or device which tends to defeat the purpose of the program, (2) made any fraudulent representation, or (3) misrepresented any fact affecting a program determination shall not be entitled to payments for any farm under the program and shall refund to the Commodity Credit Corporation all payments received by him with respect to the program.

(c) The provisions of this section shall be applicable in addition to any liability under criminal and civil fraud statutes.

(Sec. 101(f), as amended, 82 Stat. 701, 7 U.S.C. 1441(f))

Effective date. July 11, 1973.

Signed at Washington, D.C., on July 3, 1973.

KENNETH E. FRICK,
Administrator, Agricultural Stabilization and Conservation Service.

[FR Doc.73-14067 Filed 7-10-73;8:45 am]

[Amdt. 3]

PART 722—COTTON

Subpart—Upland Cotton Set-Aside Program for Crop Years 1971–73

MISCELLANEOUS AMENDMENTS

The regulations governing the Upland Cotton Set-Aside Program for Crop Years 1971–73, 36 FR 15516, are being amended to set forth changes for the 1973 crop year as follows:

1. No acreage is required to be set aside.

2. A reduction will be made in the 1973 payments otherwise computed for the farm in cases where the producer, in good faith, submits incorrect production data for 1972.

3. The provisions of the regulations regarding the misrepresentation of facts are being amended so as not to require a forfeiture of payments made under the wheat or feed grain set-aside program.

4. In accordance with amendment 3 to the regulations governing reconstitution of farms, allotments, and bases (38 FR 7564), Federally-owned land will be ineligible for participation in the program. To the extent that the leasing arrangement permits the production of upland cotton, this prohibition will not apply (1) to the former owner who has enjoyed uninterrupted possession of the land, or (2) during the term of any lease executed prior to March 23, 1973.

In addition, the regulations are being corrected to make it clear that the payments which would otherwise be made to producers on small farms are to be increased by 30 per centum.

Pursuant to section 103 of the Agricultural Act of 1949, as amended by the Agricultural Act of 1970, Part 722 is amended as follows:

1. Section 722.804 is amended by revising paragraph (b)(6) to read as follows:

§ 722.804 Requirements for eligibility.

* * * * *

(b) *Farm requirements.* * * *

(6) Land owned by the Federal Government shall be ineligible for participation in the program if the land is (i) leased subject to restrictions prohibiting the production of upland cotton, or requiring the use of land for other purposes, or prohibiting the receipt of Federal payments for diversion or set-aside of such acreage, (ii) occupied without a lease, permit, or other right of possession, (iii) in a national wildlife refuge, or (iv) covered by a lease which was renewed or executed after March 22, 1973, unless the land was acquired by an agency having the right of eminent domain and leased back to the former owner with uninterrupted possession.

2. Section 722.805 is amended by revising paragraph (c) to read as follows:

§ 722.805 Set-aside acres.

* * * * *

(c) For 1973, the set-aside requirement shall be zero.

3. Section 722.808 is amended by correcting paragraph (b)(2) to read as follows:

§ 722.808 Farm yield and payment rates.

* * * * *

(b) *Payment rates.* * * *

(2) The small farm payment rate shall be 30 per centum of the preliminary payment rate as established in accordance with subparagraph (4) of this paragraph: *Provided,* That the small farm payment rate shall be 30 per centum of the regular payment rate as established in accordance with paragraph (b)(3) of this section if the regular payment rate is greater than the preliminary payment rate.

4. Section 722.812 is amended by adding a new paragraph (l) at the end thereof to read as follows:

§ 722.812 Payments.

* * * * *

(l) Notwithstanding any other provision of this subpart, where the county committee determines that (1) a producer submitted incorrect 1972 production data for purposes of establishing the farm yield under § 722.808(a), (2) the difference between the actual production and the amount of production represented by the incorrect data is small in relation to the actual production, and (3) the producer made a good faith effort to supply the correct data, the farm yield shall be corrected and a reduction shall be made in the payments otherwise computed for the farm in accordance with instructions issued by the Deputy Administrator.

5. Section 722.817 is amended to read as follows:

§ 722.817 Misrepresentation and scheme or device.

(a) A producer who is determined by the county committee or the State committee to have erroneously represented any fact affecting a program determination shall not be entitled to payments under the program for the farm with respect to which the representation was made and shall refund to the Commodity Credit Corporation the payments received by him with respect to such farm.

(b) A producer who is determined by the State committee, or the county committee with the approval of the State committee, to have knowingly (1) adopted any scheme or device which tends to defeat the purpose of the program, (2) made any fraudulent representation, or (3) misrepresented any fact affecting a program determination shall not be entitled to payments for any farm under the program and shall refund to the Commodity Credit Corporation all payments received by him with respect to the program.

(c) The provisions of this section shall be applicable in addition to any liability under criminal and civil fraud statutes.

(Sec. 103, 84 Stat. 1374, 7 U.S.C. 1444)

Effective date. Since farmers are completing their plans for the 1973 crop year, it is essential that this amendment be made effective as soon as possible. It is hereby found and determined that compliance with the notice and public procedure provisions of 5 U.S.C. 553 is impracticable and contrary to the public interest. Accordingly, this amendment shall become effective on July 11, 1973.

Signed at Washington, D.C., on July 3, 1973.

KENNETH E. FRICK,
Administrator, Agricultural Stabilization and Conservation Service.

CHAPTER VIII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (SUGAR), DEPARTMENT OF AGRICULTURE

SUBCHAPTER H—DETERMINATION OF WAGE RATES

[Amdt. 1 to determination which became effective October 23, 1972; Docket No. SH-307]

PART 864—SUGARCANE: LOUISIANA

Fair and Reasonable Wage Rates

Pursuant to the provisions of the Sugar Act of 1948, as amended, Part 864 of Title 7 of the Code of Federal Regulations, published October 23, 1972 (37 FR 21795), is amended by revising paragraph (a) of § 864.23 to read as follows:

§ 864.23 Requirements.

A producer of sugarcane in Louisiana shall be deemed to have complied with the wage provisions of the act if all persons employed on the farm in production, cultivation, or harvesting work, as provided in § 864.24, shall have been paid in accordance with the following:

(a) *Wage rates.* All such persons shall have been paid in full for all such work and shall have been paid wages in cash therefor at rates required by existing legal obligations, regardless of whether those obligations resulted from an agreement (such as a labor union agreement) or were created by State or Federal legislative action, or at rates as agreed upon between the producer and the worker, whichever is higher, but not less than the following, which shall become effective on October 1, 1972, and shall remain in effect until amended, superseded, or terminated:

(1) *Work performed on a time basis.*

Class of Worker	Rate per hour
Harvest Work:	
Harvester, loader and transfer loader operators	1.95
Tractor drivers, truck drivers, harvester bottom blade operators, and hoist operators	1.90
All other harvesting workers	1.80
Production and Cultivation Work:	
Tractor drivers	1.85
All other production and cultivation workers	1.80

* * * * *

(Secs. 301, 403, 61 Stat. 929, as amended, 932; 7 U.S.C. 1131, 1153)

Statement of bases and considerations. The redetermined effective date contained herein is issued as a result of the April 30, 1973 Order of the United States District Court for the District of Columbia in the case of Huey Freeman, et al. v. the United States Department of Agriculture, et al., Civil Action No. 1490–72, in which the court required the Department to publish and make effective an annual Louisiana wage determination on or before the beginning of the Louisiana sugarcane harvest for the 1971–72 crop. The order further declared that all Louisiana wage determinations should be effective before the start of the harvest each year, and this amendment is in accord with that declaration of the court with respect to the determination applicable to the 1972–73 crop.

Effective date. This amendment shall become effective July 10, 1973.

Signed at Washington, D.C., on July 3, 1973.

KENNETH E. FRICK,
Administrator, Agricultural Stabilization and Conservation Service.

CHAPTER XIV—COMMODITY CREDIT CORPORATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

PART 1446—PEANUTS

Subpart—1973-Crop Peanut Warehouse Storage Loans

On page 4408 of the FEDERAL REGISTER of February 14, 1973, there was published a notice of proposed rule making relating to a Loan and Purchase Program for 1973 crop peanuts. The notice stated that the Department was giving consideration to: (a) Eliminating the sheller purchase program, (b) making peanuts with visible Aspergillus flavus mold of the type that produces aflatoxin ineligible for price support, and (c) requiring producers to assume storage, handling and inspection costs on peanuts placed under warehouse storage loans. Interested persons were given until March 9, 1973, to submit in writing data, views and recommendations regarding the proposed determinations. About 600 signed responses were received. None of the responses related to the level of support. All were concerned with one or more of the three proposed changes and were almost unanimously opposed to any retrenchment from the 1972 crop program. After consideration of all data, views and recommendations three important changes have been made in the 1973–crop regulations as follows: (a) The sheller purchase program is eliminated, (b) farmers stock peanut with visible Aspergillus flavus mold (a mold that produces aflatoxin) will be eligible for price support at a $50 per ton discount, and (c) producers will be required to assume a charge for storage, handling and inspection costs on peanuts placed under warehouse storage loans. The following regulations reflect this determination.

The General Regulations Governing 1967 and Subsequent Crop Peanut Warehouse Storage Loans and Sheller Purchases (32 FR 9950 as amended) are hereby superseded but remain effective with respect to the 1967 through 1972 crops of peanuts.

GENERAL

§ 1446.1 General statement.

(a) *Scope.* This subpart sets forth support prices for 1973 crop farmers stock peanuts and the terms and conditions under which eligible producers acting collectively through specified cooperative marketing associations (referred to severally in this subpart as "the association") may obtain price support on their eligible 1973 crop farmers stock peanuts.

(b) *Price support advances.* Eligible producers may obtain price support through, in the Southeastern area, GFA Peanut Association, Camilla, Ga.; Southwestern area, Southwestern Peanut Growers Association, Gorman, Tex.; and Virginia-Carolina area, Peanut Grower Cooperative Marketing Association, Franklin, Va. Each association will make price support advances on eligible peanuts delivered to it by eligible producers at warehouses operating under peanut receiving and warehouse contracts with the association. CCC will make a loan (referred to in this subpart as a "warehouse storage loan") to the association. Such loan will be secured by the eligible peanuts upon which the association has made advances to eligible producers.

(c) *Farm storage loans; purchases from producers.* Regulations containing the terms and conditions under which CCC will make farm storage loans directly to producers on, and purchases directly from, producers of 1973 crop farmers stock peanuts will be published separately in the FEDERAL REGISTER.

§ 1446.2 Administration.

(a) *Responsibility.* Under the general direction and supervision of the Executive Vice President, CCC, the Tobacco and Peanut Division, Agricultural Stabilization and Conservation Service (referred to in this subpart as "ASCS") will administer this subpart.

(b) *Limitation of authority.* County Executive Directors, State and county ASC committees, and the associations do not have authority to modify or waive any of the provisions of this subpart or any amendments or supplements thereto.

(c) *Supervisory authority.* No delegation of authority in this subpart shall preclude the Executive Vice President, CCC, or his designee, from determining any questions arising under the regulations or from reversing or modifying any determination made pursuant to such delegation.

§ 1446.3 Definitions.

As used in this subpart, and in instructions and documents in connection herewith, the words and phrases defined in this section shall have the meanings herein assigned to them unless the context or subject matter otherwise requires.

(a) *ASCS.* The Agricultural Stabilization and Conservation Service of the United States Department of Agriculture.

(b) *CCC.* The Commodity Credit Corporation, an agency and instrumentality of the United States within the Department of Agriculture.

(c) *County office.* The office of the ASC county committee where records for the farm are kept.

(d) *Effective farm allotment.* The effective farm peanut acreage allotment for 1973 crop of peanuts, as defined in the marketing quota regulations.

(e) *Farm.* A farm, as defined in the Regulations Governing Reconstitution of Farm, Allotments, and Bases, as amended, Part 719 of this title, which in general define a farm as all adjoining or nearby farmland which is operated by one person.

(f) *Farmers stock peanuts.* Picked or threshed peanuts produced in the United States which have not been shelled, crushed, cleaned or otherwise changed (except for removal of foreign material, loose shelled kernels, and excess moisture) from the state in which picked or threshed peanuts are customarily marketed by producers.

(g) *Final acreage.* The final 1973 crop acreage of peanuts on a farm determined in accordance with the marketing quota regulations which, in general, define such acreage as the total acreage of peanuts on the farm which is picked or threshed.

(h) *Form MQ–94.* Inspection Certificate and Sales Memorandum for farmers stock peanuts.

(i) *Inspector.* A Federal or Federal-State inspector authorized or licensed by the Secretary, U.S. Department of Agriculture.

(j) *Lot.* That quantity of farmers stock or shelled peanuts for which one Form MQ–94 or other inspection certificate is issued. In the case of farmers stock peanuts delivered to the association for a price support advance, a lot shall consist of not more than the content of one vehicle or approximately 20,000 pounds when delivered by more than one vehicle.

(k) *Marketing quota regulations.* The Allotment and Marketing Quota Regulations for Peanuts of the 1972 and subsequent crops, as amended, issued by the Administrator, ASCS, Part 729 of this title.

(l) *Marketing year.* The period beginning on August 1, 1973 and ending on July 31, 1974.

(m) *Net weight.* That weight of farmers stock peanuts obtained by multiplying the gross scale weight of peanuts by a percentage equal to 100 percent minus the sum of the percentages of (1) foreign material, and (2) moisture in excess of 7 percent in the Southwestern and Southeastern areas, and 8 percent in the Virginia-Carolina area.

(n) *Peanut receiving and warehouse contract.* Form CCC–1028 Identity Preserved, or Form CCC–1028–A Commingled Storage.

(o) *Producer advance value.* The support value of eligible farmers stock peanuts less an amount equivalent to $15.00 per net ton. The producer advance value of any lot of peanuts pledged to CCC as collateral for a loan to an association shall be computed on the basis of weight, quality and type of such peanuts in the lot and the loan advance schedule for such type issued by CCC. The $15.00 deduction is made to provide funds to pay inspection, storage and handling costs on such peanuts.

(p) *Peanut Segregations*—(1) *Segregation 1.* Farmers stock peanuts which (i) have at least 99 percent peanuts of one type, (ii) have not more than 2 percent damaged kernels nor more than 1.00 percent concealed damage caused by rancidity, mold, or decay, and (iii) are free from visible Aspergillus flavus mold. (2) *Segregation 2.* Farmers stock peanuts which (i) have less than 99 percent peanuts of one type, or (ii) have more than 2 percent damaged kernels or more than 1.00 percent concealed damage caused by rancidity, mold, or decay, and (iii) are free from visible Aspergillus flavus mold. (3) *Segregation 3.* Farmers stock peanuts which have visible Aspergillus flavus mold.

(q) *Sound mature kernels.* Kernels which are free from "damage" and "minor defects," as defined in the U.S. Standards for the applicable type of peanuts effective on the date of the inspection, and which will not pass through screens with the following openings:

(1) 15/64 by 3/4-inch in the case of Spanish and Valencia type peanuts.

(2) 15/64 by 1-inch screen in the case of Virginia type peanuts.

(3) 16/64 by 3/4-inch in the case of Runner type peanuts.

(r) *Extra large kernels.* Shelled Virginia type peanuts which will not pass through a screen having 21.5/64-by 1-inch openings and which are "whole" and free from "minor defects" and "damage," as such terms are defined in the U.S. Standards for Shelled Virginia type peanuts effective on the date of inspection.

(s) *Type.* The generally known types of peanuts (i.e., Runner, Spanish, Valencia, and Virginia), as defined in the marketing quota regulations.

(t) *Valencia type peanuts suitable for cleaning and roasting.* Valencia type peanuts containing not more than 25 percent peanuts having shells damaged by (1) discoloration, (2) cracks or broken ends, or (3) both.

(u) *Within quota card.* Form MQ–76 (Peanuts), 1973 Peanut Within Quota Marketing card issued pursuant to the marketing quota regulations.

(v) *Compliance regulations.* The Regulations Governing Acreage and Compliance Determinations for Farm Marketing Quotas, Acreage Allotments, and Related ASCS Programs, as amended, issued by the Administrator, ASCS, and effective for the 1973 crop, Part 718 of this title.

WAREHOUSE STORAGE LOANS

§ 1446.4 Availability of warehouse storage loans.

(a) *Loans to associations.* CCC will make warehouse storage loans to the associations specified in § 1446.1 which contract with CCC to arrange for the storing and handling of eligible farmers stock peanuts, make advances to eligible producers on such peanuts, and use such peanuts as collateral for loans to be obtained from CCC. Such loans will mature on demand.

(b) *Areas.* Price support advances will be available in the following areas:

(1) The Southeastern area consisting of the States of Alabama, Georgia, Mississippi, Florida, and that part of South Carolina south and west of the Santee-Congaree-Broad Rivers.

(2) The Southwestern area consisting of the States of Arizona, Arkansas, California, Louisiana, New Mexico, Oklahoma, and Texas.

(3) The Virginia-Carolina area consisting of the States of Missouri, North Carolina, Tennessee, Virginia, and that part of South Carolina north and east of the Santee-Congaree-Broad Rivers.

(c) *Where available.* Price support advances will be available to eligible producers at warehouses which have entered into peanut receiving and warehouse contracts with the association. Such contracts will require the warehouses to inform producers that price support advances are available and to make advances to eligible producers on eligible peanuts tendered for price support as provided in paragraph (g) of this section. The names and locations of such warehouses may be obtained from the office of the appropriate association or from an ASCS State or county office. The associations shall pledge to CCC all eligible peanuts upon which they have made price support advances as security for loans obtained pursuant to agreements with CCC.

(d) *Time.* Price support advances to eligible producers will be available from time of harvest through January 31, 1974, or such later date as may be established by the Executive Vice President, CCC. If the final date of availability falls on a nonworkday for the association, the applicable final date shall be the next workday.

(e) *Inspection.* The type and quality of each lot of farmers stock peanuts delivered to an association for a price support advance shall be determined by an inspector when such peanuts are received at a warehouse under contract with an association.

(f) *Producer agreement.* To obtain a price support advance the producer shall, in writing, authorize the association to pledge peanuts delivered to the association to CCC as collateral for a warehouse storage loan, and relinquish any right to redeem or obtain possession of such peanuts.

(g) *Advance to producer.* For each lot of eligible peanuts received, the association will make a price support advance to the producer in an amount equal to the producer advance value of such peanuts, except that, in addition to the deductions specified in § 1446.5, the association will deduct from such advances and pay over to the proper State authorities any assessments or excise taxes imposed by State law, and the Southwestern Peanut Growers Association will, upon the prior agreement of the producer, deduct from such advance an amount approved by CCC, not to exceed 50 cents per net weight ton of peanuts upon which such advance was made, to be used in payment for its peanut activities outside the price support program.

(h) *Fraud of producer.* The making of any fraudulent representation by a producer in the loan documents or in obtaining a loan or advance shall render him subject to criminal prosecution under Federal law. The producer shall be personally liable to CCC, aside from any additional liability under criminal or civil frauds statutes, for the amount of such advance and for all costs which CCC would not have incurred except for the producer's fraudulent representation, together with interest upon such amounts at the rate of 12 percent per annum: *Provided,* That the producer shall be given credit for the proceeds received by CCC upon sale of the peanuts upon which such advance was made.

§ 1446.5 Producer indebtedness.

(a) *Facility and drying equipment loans.* If any installment or installments on any loan made by CCC on farm storage facilities or drying equipment are payable under the provisions of the note evidencing such loan out of any amount due the producer under this subpart, the amount due the producer, after deduction of amounts due prior lienholders, shall be applied to such installment(s).

(b) *Producers listed on county debt record.* If the producer is indebted to CCC or to any other agency of the United States and such indebtedness is listed on the county debt record, amounts due the producer under this subpart, after deduction of amounts due prior lienholders and on farm storage facilities or drying equipment, shall be applied to such indebtedness as provided in the Secretary's Setoff Regulations, Part 13 of this title.

(c) *Producer's right.* Compliance with the provisions of this section shall not deprive the producer of any right he would otherwise have to contest the justness of the indebtedness involved in the setoff action either by administrative appeal or by legal action.

§ 1446.6 Eligible producer.

(a) *Requirements.* An eligible producer is an individual, partnership, association, corporation, estate, trust or other legal entity, and whenever applicable, a State, political subdivision of a State or any agency thereof, producing peanuts as a landowner, landlord, tenant, or sharecropper on a farm on which it is determined (1) that the final acreage does not exceed the effective farm allotment, or (2) if the final acreage exceeds the effective farm allotment, that the producer did not knowingly exceed such allotment. Determinations under paragraphs (1) and (2) of this section shall be made pursuant to the marketing quota regulations and the compliance regulations. No producer on a farm in a certification county for which the farm operator fails timely to file a certification of crop or land use acreages as required by Part 718 of this title shall be eligible for price support unless the late filed certification was accepted by the county committee.

(b) *Estates and trust.* A receiver of an insolvent debtor's estate, an executor or an administrator of a deceased person's estate, a guardian of an estate or of a ward of incompetent person, and trustees of a trust estate shall be considered to represent the insolvent debtor, the deceased person, the ward or incompetent, and the beneficiaries of a trust, respectively, and the production of the receiver, executor, administrator, guardian or trustees shall be considered to be the production of the person he represents. Loan documents executed by any such person shall be accepted by CCC only if they are legally valid and such person has the authority to sign the applicable documents.

(c) *Eligibility of minors.* A minor who is otherwise an eligible producer shall be eligible for price support only if he meets one of the following requirements: (1) The right of majority has been conferred on him by court proceedings or by statute; (2) a guardian has been appointed to manage his property and the applicable price support documents are signed by the guardian; or (3) a bond is furnished under which a surety guarantees to protect CCC from any loss incurred for which the minor would be liable had he been an adult.

§ 1446.7 Eligible peanuts.

(a) *Eligible peanuts.* Peanuts eligible for price support advances shall be 1973 crop farmers stock peanuts which were produced in the United States by an eligible producer, and

(1) Which contain not more than 10 percent moisture, and which if they have been mechanically dried, contain at least 6 percent moisture;

(2) Which contain not more than 10 percent foreign material;

(3) Which were not produced in violation of a restrictive lease on federally owned land, or on land owned by the Federal Government which was occupied

V 38-132 JUL 11 73 XUM

by the producer without lease, permit, or other right of possession;

(4) Which are free and clear of all liens and encumbrances, including landlord's lien, or if liens or encumbrances exist on the peanuts, acceptable waivers are obtained; and

(5) In which the beneficial interest is in the producer who delivers them to the association and has always been in him or in him and a former producer whom he succeeded before they were harvested. To meet the requirements of succession to a former producer, the rights, responsibilities, and interest of the former producer with respect to the farm on which the peanuts were produced shall have been substantially assumed by the person claiming succession. Mere purchase of a crop prior to harvest, without acquisition of any additional interest in the farm on which the peanuts were produced, shall not constitute succession. Any producer in doubt as to whether his interest in the peanuts complies with the requirements of this section should, before applying for price support, make available to the ASC County Committee all pertinent information which will permit a determination with respect to succession to be made by CCC.

(6) Which are, if delivered to the association in bags in the Southwestern area, in new or thoroughly cleaned used bags which are made of material, other than mesh or net, weighing not less than 7½ ounces nor more than 10 ounces per square yard and containing no sisal fibers, are free from holes and are finished at the top with either the selvage edge of the material, binding or a hem. Such bags shall be of uniform size with approximately 2 bushel capacity.

§ 1446.8 Applicability.

The support values specified in this subpart apply to 1973-crop farmers stock peanuts in bulk or in bags, net weight basis, eligible for price support advances under this subpart. The support values announced in this subpart will not be reduced but will be increased if a combination of the supply percentage as of August 1, 1973, and the parity price on that date indicates a higher price.

§ 1446.9 National average support value.

The national average support value for 1973-crop peanuts is $310.50 per ton.

§ 1446.10 Average support values by type.

The support values by type per average grade ton of 1973-crop peanuts are:

Type	Dollars per ton
Virginia	$317.05
Runner	313.58
Southeast Spanish	305.18
Southwest Spanish	301.45
Valencia, in the Southwest area suitable for cleaning or roasting	317.05

The price for all Valencia type peanuts in the Southeast and Virginia-Carolina areas and those in the Southwest area which are not suitable for cleaning and roasting will be the same as for Spanish type peanuts in the same area.

§ 1446.11 Calculation of support values.

The support value per ton for 1973-crop peanuts of a particular type and quality shall be calculated on the basis of the following rates, premiums, and discounts (with no value being assigned to damaged kernels), except that the minimum support value for any lot of eligible peanuts of any type shall be 4 cents per pound of kernels in the lot:

(a) *Kernel value per net ton excluding loose shelled kernels.* (1) Price for each percent of sound mature and sound split kernels shall be:

Type	Dollars per ton
Virginia	4.403
Runner	4.364
Southeast Spanish	4.364
Southwest Spanish	4.364
Valencia:	
Southwest area—suitable for cleaning and roasting	4.817
Southwest area—not suitable for cleaning and roasting	4.364
Areas other than Southwest	4.364

(2) Price for each percent of other kernels:

All types	$1.40

(3) Premium for each 1 percent extra large kernels in Virginia type peanuts shall be 45 cents, except that no premium shall be applicable to any lot of such peanuts containing more than 7 percent damaged kernels.

(b) *Value of loose shelled kernels per pound.*

All types	$0.07

(c) *Damaged kernel discount.* For all types of peanuts, the discount per ton for damaged kernels shall be as follows:

Peanuts containing damaged kernels of—	Discount
1 percent	None
2 percent	$3.40
3 percent	7.00
4 percent	11.00
5 percent	25.00
6 percent	40.00
7 percent	60.00
8–9 percent	80.00
10 percent and over	100.00

(d) *Sound split kernel discounts.* For all types of peanuts, the discount per ton for sound split kernels shall be as follows:

Peanuts containing sound split kernels of—	Discount
1 through 4 percent	None
5 percent	$1.00
6 percent	1.60

Plus 80 cents for each percent of sound split kernels in excess of 6 percent.

(e) *Foreign material discount.* The discount for each full 1 percent foreign material in excess of 4 percent and not over 10 percent shall be $1.00 per ton.

(f) *Discount for aspergillus flavus mold.* Peanuts found by the Federal-State Inspection Service to have visible aspergillus flavus mold shall be discounted at the rate of $50 per net ton.

(g) *Price adjustment for peanuts sampled with other than a pneumatic sampler.* The support price for Virginia type peanuts sampled with other than a pneumatic sampler shall be reduced by $0.100 percent sound mature and sound split kernels.

(h) *Mixed type discount.* Individual lots of farmers stock peanuts containing mixtures of two or more types in which there is less than 90 percent of any one type will be supported at a rate which is $10 per ton less than the support price applicable to the type in the mixture having the lowest support value.

(i) *Location adjustments to support prices.* Farmers stock peanuts delivered to the association for price support advances in the States specified, where peanuts are not customarily shelled or crushed, shall be discounted as follows:

(1) Arizona, $25 per ton.
(2) Arkansas, $10 per ton.
(3) California, $33 per ton.
(4) Louisiana, $7 per ton.
(5) Mississippi, $10 per ton.
(6) Missouri, $10 per ton.
(7) Tennessee, $25 per ton.

(j) *Virginia type peanuts.* Virginia type peanuts, to receive peanut price support as Virginia type, must contain 40 percent or more "fancy" size peanuts, as determined by a presizer with the rollers set at 34/64 inch space. Virginia type peanuts so determined to contain less than 40 percent "fancy" size peanuts will be supported (but not classed) as though they were Runner type.

Effective date: July 11, 1973.

Signed at Washington, D.C. on July 3, 1973.

KENNETH E. FRICK,
Executive Vice President,
Commodity Credit Corporation.

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS; EXTRAORDINARY EMERGENCY REGULATION OF INTRASTATE ACTIVITIES

PART 71—GENERAL PROVISIONS

Interstate Movement

Statement of consideration. No provisions now exist whereby anaplasmosis reactors may be moved interstate, for any purpose including slaughter. Since accurate diagnostic tests are now available for anaplasmosis and treatments are also available which cure animals of the carrier state, an increasing number of livestock owners are freeing their herds of this disease. In some cases it is economically preferable for them to sell their carrier animals to slaughter. In many such cases the trade area slaughtering establishments are located across State lines and interstate movements would be involved.

Anaplasmosis is not transmissible directly from cow to cow nor does it produce the disease in man. There would, therefore, be no danger of disease spread in movement of anaplasmosis reactors interstate to slaughter. In addition, there may be cases where it would be safe and even desirable to move anaplasmosis carriers interstate for other purposes. Such movements could be permitted under § 71.3(d)(6) where the Deputy Administrator, Veterinary Services, and the appropriate livestock sanitary officials of the receiving State concur that such movements can be made under conditions which he may prescribe to prevent the spread of disease.

The purpose of this amendment is to permit the interstate movement of anaplasmosis reactors for immediate slaughter and to provide for the Deputy Administrator, Veterinary Services, to approve movements of such reactors, other than direct to slaughter, under such conditions as he may prescribe to prevent the spread of the disease with the concurrence of appropriate livestock sanitary officials of the States involved in any such action.

Pursuant to provisions of the Act of May 29, 1884, as amended, the Act of February 2, 1903, as amended, the Act of March 3, 1905, as amended, and the Act of July 2, 1962 (21 U.S.C. 111–113, 114, 114a–1, 115–117, 120–126, 134b), Part 71, Title 9, Code of Federal Regulations, is hereby amended in the following respect:

In § 71.3(d), in subparagraph (1) the word anaplasmosis is added after the reference to "actinobacillosis."

(Secs. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791, as amended; secs. 1–4, 33 Stat. 1264, as amended; sec. 3, 76 Stat. 130; 21 U.S.C. 111–114, 114a, 114a–1, 115, 117, 120, 121–126, 134b; 37 FR 28464, 28477)

Effective date. The foregoing amendment shall become effective July 11, 1973.

The amendment relieves restrictions presently imposed but no longer deemed necessary to prevent the spread of livestock diseases, and should be made effective promptly in order to be of maximum benefit to affected persons. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions of 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and unnecessary, and good cause is found for making the amendment effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 6th day of July, 1973.

G. H. WISE,
Acting Administrator, Animal and Plant Health Inspection Service.

Title 12—Banks and Banking

CHAPTER II—FEDERAL RESERVE SYSTEM

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Reg. Z]

PART 226—TRUTH IN LENDING

Advertising Credit Terms

1. Effective November 1, 1973, §§ 226.2(u), 226.6(a), 226.10(c) and 226.10(d) of Regulation Z are amended to read as set forth below. The amendments will, in large part, simplify and clarify the advertising restrictions of the regulation. For example, the amount of information which must be included in an open end credit advertisement once a specific "triggering" term is used has been reduced and the prohibition against use of the "add-on" or "discount" rate in advertisements has been clarified. Among other changes, the amendments add the "period of repayment" as a "triggering" term in open and credit which requires additional disclosures. The amendments clarify the fact that the amount of downpayment, either in dollars or percentages, triggers full disclosure.

§ 226.2 Definitions and rules of construction.

* * * * *

(u) *"Periodic rate"* means a percentage rate of finance charge which is or may be imposed by a creditor against a balance for a period. (See also § 226.5(a)(3).)

* * * * *

§ 226.6 General disclosure requirements.

(a) *Disclosures; general rule.* The disclosures required to be given by this Part shall be made clearly, conspicuously, in meaningful sequence, in accordance with the further requirements of this section, and at the time and in the terminology prescribed in applicable sections. Except with respect to the requirements of § 226.10, where the terms "finance charge" and "annual percentage rate" are required to be used, they shall be printed more conspicuously than other terminology required by this Part and all numerical amounts and percentages shall be stated in figures and shall be printed in not less than the equivalent of 10 point type, .075 inch computer type, or elite size typewritten numerals, or shall be legibly handwritten.

* * * * *

§ 226.10 Advertising credit terms.

* * * * *

(c) *Advertising of open end credit.* No advertisement to aid, promote, or assist directly or indirectly the extension of open end credit may set forth any of the terms described in paragraph (a) of § 226.7, the Comparative Index of Credit Cost, or that a specified downpayment or periodic payment is required (either in dollars or as a percentage), the period of repayment or any of the following items, unless it also clearly and conspicuously sets forth all the following items in terminology prescribed under paragraph (b) of § 226.7:

(1) An explanation of the time period, if any, within which any credit extended may be paid without incurring a finance charge.

(2) The method of determining the balance upon which a finance charge may be imposed.

(3) The method of determining the amount of the finance charge, including the determination of any minimum, fixed, check service, transaction, activity, or similar charge, which may be imposed as a finance charge.

(4) Where one or more periodic rates may be used to compute the finance charge, each corresponding annual percentage rate determined by multiplying the periodic rate by the number of periods in a year and, where there is more than one corresponding annual percentage rate, the range of balances to which each is applicable.[1]

(d) *Advertising of credit other than open end.* No advertisement to aid, promote, or assist directly or indirectly any credit sale including the sale of residential real estate, loan, or other extension of credit, other than open end credit, subject to the provisions of this Part, shall state

(1) The rate of the finance charge except as an "annual percentage rate," using that term. No other rate of finance charge may be stated, except that:

(i) Where the total finance charge includes, as a component, interest computed at a simple annual rate, the simple annual rate may be stated in conjunction with, but not more conspicuously than, the annual percentage rate, or

(ii) Where the finance charge is computed solely by the application of a periodic rate to an unpaid balance, the periodic rate may be stated in conjunction with, but not more conspicuously than, the annual percentage rate.

(2) That no downpayment is required, or the amount of the downpayment or of any instalment payment required (either in dollars or as a percentage), the dollar amount of any finance charge, the number of instalments or the period of repayment, or that there is no charge for credit, unless it also

[1] A creditor imposing minimum charges is not required to adjust the disclosure of the range of balances to which each rate would apply in order to reflect the range of the balances below which the minimum charge applies. If a creditor does not impose a finance charge when the outstanding balance is less than a certain amount, the creditor is not required to disclose that fact or the balance below which no such charge will be imposed.

V 38 1 132 JUL 11 73 XUM

clearly and conspicuously sets forth all of the following items in terminology prescribed under § 226.8:

(i) the cash price or the amount of the loan, as applicable.

(ii) in a credit sale, the amount of the downpayment required or that no downpayment is required, as applicable.

(iii) the number, amount, and due dates or period of payments scheduled to repay the indebtedness if the credit is extended.

(iv) the amount of the finance charge expressed as an annual percentage rate. The exemptions from disclosure of an annual percentage rate permitted in paragraph (b)(2) of § 226.8 shall not apply to this subdivision.

(v) except in the case of the sale of a dwelling or a loan secured by a first lien on a dwelling to purchase that dwelling, the deferred payment price in a credit sale, or the total of payments in a loan or other extension of credit which is not a credit sale, as applicable.

2. These amendments are promulgated pursuant to section 105 of the Truth in Lending Act (15 U.S.C. § 1604). Notice of proposed rule making was published on December 29, 1972, (37 FR 28765). After consideration of all relevant matter submitted by interested parties, the range of balances to which annual percentage rates apply was reinserted in the information required to be shown under § 226.10(c)(4) once the full advertisement of open end credit terms is triggered. A technical change was made to § 226.2(u).

3. The amendments are designed to stimulate the competitive advertising of specific open end credit terms within the constraints of the statute. They also harmonize the separate requirements for open and closed end credit, where appropriate. The amendments make numerous technical changes to the existing provisions.

4. Section 226.6(a) has been clarified to provide that the requirement that the "annual percentage rate" and "finance charge" be shown more conspicuously than other terminology does not apply to advertising since such a requirement may be either impractical (eg. in radio advertisements) or inequitable (where a creditor wishes to emphasize a favorable term for competitive purposes). However an addition has been made to § 226.10(d) specifying that all required disclosures must be made "clearly and conspicuously." This requirement (which is already contained in § 226.10(c) with respect to open end credit) would prevent the advertiser from burying the required disclosures with insufficient emphasis in the text of the advertisement.

5. The amendments simplify § 226.10(c) by deleting the present requirements of showing a number of items in open end credit advertisements once a specific credit term is advertised. The deleted terms are the periodic rates, the conditions under which other charges may be imposed, the method by which the other charges will be determined, and the minimum periodic payment required. Such advertisements must still include the annual percentage rate(s), any free ride period, and the method of determining finance charges and the balances on which they are imposed. "No downpayment" has been removed as a specific term which triggers full disclosure since the term is implied in almost any statement about an open end credit plan e.g., "charge it with your credit card."

6. The "period of repayment" has been added to § 226.10(c) as one of the specific terms requiring full disclosure. This harmonizes the requirements of open end credit with those presently applicable to closed end credit regarding the "period of repayment." For example, "up to 24 months to pay" would be a triggering term regardless of whether the credit plan involved open or closed end credit.

7. Section 226.10(d)(1) clarifies the fact that any expression of the finance charge on an annual basis in closed end credit must be solely as an "annual percentage rate" and not in conjunction with, for example, the add-on rate. With regard to the use of oral quotations of add-on or discount rates in response to consumer inquiries about the cost of credit, the Board has issued a concurrent interpretation (§ 226.101) indicating that the annual percentage rate and not the add-on or discount rate should be used in such circumstances. Under the amendment the simple interest component of the finance charge could be shown along with the annual percentage rate. For example, the interest rate on a home mortgage could also be advertised where points may result in a higher annual percentage rate. Likewise, where finance charges are computed based upon the application of a periodic rate (for example by credit unions), that rate may be shown in conjunction with the annual percentage rate—e.g., a monthly periodic rate. These additional rates could not, however, be shown more conspicuously than the annual percentage rate.

8. Sections 226.10(c) and 226.10(d)(2) have been clarified to provide that advertisement of the amount of the downpayment or other payment, either in dollars or percentages, will trigger the full disclosure requirements (whether or not the cash price is also given). The requirement for closed end credit that the amount of the downpayment must be given once full disclosure is otherwise triggered has been clarified to refer only to credit sales. (§ 226.10(d)(2)(ii)). However, statements as to downpayments remain "triggering" terms under § 226.10 (c) and (d)(2) for loans as well as credit sales. Where, for example, full disclosure is triggered by a lender's statement such as "95% loans," examples of typical extensions of credit may be used pursuant to interpretation § 226.1001 "Advertising of Credit Terms in Other Than Open End Credit" (issued 4/22/69) to comply with the full disclosure requirements. Section 226.10(d)(2)(v) has also been modified to specify that the "deferred payment price" disclosure is required in a credit sale, while the "total of payments" is required in a loan or other non-sale transaction.

By order of the Board of Governors, June 29, 1973.

[SEAL] CHESTER B. FELDBERG, *Secretary of the Board.*

[FR Doc.73-14143 Filed 7-10-73;8:45 am]

[Reg. Z]

PART 226—TRUTH IN LENDING

Use of "Annual Percentage Rate" In Oral Communications

The interpretation is designed to make it clear that in responding to oral inquiries from consumers about the cost of consumer credit, the creditor should quote the cost in terms of the annual percentage rate and not the add-on or discount rate.

Part 226 is amended by adding § 226.101 as set forth below.

§ 226.101 Use of "annual percentage rate" in oral communications.

(a) Under § 226.1(a)(2), a stated purpose of the Truth in Lending Act and Regulation Z is to assure that every customer who has need for consumer credit is given meaningful information with respect to the cost of that credit so that he may readily compare the various credit terms available to him from different sources and avoid the uninformed use of credit. Under § 226.6(a), a creditor is required to make disclosures using certain prescribed terminology, including the "annual percentage rate." The question arises as to the propriety of a creditor quoting annual rates other than "annual percentage rate" in response to consumer inquiries about the cost of credit, where such other rates could not be used in an advertisement under the proscriptions of § 226.10.

(b) The Truth in Lending Act and Regulation Z are intended to facilitate "shopping" between competitive credit plans. If a customer inquires about the cost of credit and the creditor responds by quoting an add-on or discount rate, he may mislead the customer since the use of such rates is prohibited in consumer credit advertising and such rates are significantly lower than the annual percentage rate which must be shown on the creditor's disclosure statement. The quotation of these rates can frustrate the stated purpose of the Act and prevent the customer from making an informed use of credit.

(c) In response to any oral inquiry by a customer about the cost of credit, a creditor when quoting annual rates should use only those rates permitted to be used in advertisements under § 226.10. Irrespective of the method used by the creditor to compute finance charges, the annual rate of the creditor's total finance charges should be quoted only in terms of the "annual percentage rate."

(Interprets and applies 15 U.S.C. 1663 and 15 U.S.C. 1664)

By order of the Board of Governors, June 29, 1973.

[SEAL] CHESTER B. FELDBERG, *Secretary of the Board.*

CHAPTER V—FEDERAL HOME LOAN BANK BOARD

SUBCHAPTER B—FEDERAL HOME LOAN BANK SYSTEM

[No. 73-927]

PART 526—LIMITATIONS ON RATE OF RETURN

Rates of Return

JULY 6, 1973.

The Federal Home Loan Bank Board, after consulting with the Board of Governors of the Federal Reserve System and the Board of Directors of the Federal Deposit Insurance Corporation, considers it advisable to amend Part 526 of the Regulations for the Federal Home Loan Bank System (12 CFR Part 526) in order to revise the limitations on rates of return contained therein.

The following chart summarizes the revisions:

Type of Account		Previous Maximum Rate	New Maximum Rate
1. Regular Passbook Account		5.00	5.25
2. 90-Day Notice Account		5.26	5.75
3. Certificates of Deposit	*Minimum*** *Balance*		
Maturity			
a. 30 days	None	*	5.25
b. 90 days	$1,000	*	5.75
c. 1-2 years	$1,000	5.75	6.50
d. 2 years	$5,000	6.00	6.50
e. 30 months	$5,000	6.00	6.75
f. 4 years	None	*	6.75
g. 4 years	$1,000	*	No Maximum Rate
h. Any CD of $100,000 or more		No Maximum Rate	No Maximum Rate

*New CD Classification.
**No Maximum Specified.

Under revised § 526.5(a)(5)(ii) no member institution may pay a return at a rate in excess of 6.75 percent on a certificate account of $1,000 or more (but less than $100,000) if, as a result of the issuance of such certificate account, the total amount of all such certificate accounts then outstanding, on which a return is being paid at a rate in excess of 6.75 percent, would exceed 5 percent of the institution's total savings accounts outstanding as of the end of its most recent distribution period for regular passbook accounts.

In addition to the 5 percent of total savings accounts limitation in said revised § 526.5(a)(5)(ii), under revised § 526.5–1(b) no member institution may pay a return at a rate in excess of 6.75 percent on any certificate account of $100,000 or more if, as a result of the issuance of such certificate account, the total of all such certificate accounts then outstanding, on which a return is being paid at a rate in excess of 6.75 percent, would exceed 5 percent of the institution's total savings accounts outstanding at the end of its most recent distribution period for regular accounts. The effect of § 526.5(a)(5)(ii) and § 526.5–1(b) is that a member institution may have a total of 10 percent of total savings accounts in certain certificate accounts for which no maximum rate of return is prescribed.

Accordingly, the Federal Home Loan Bank Board hereby amends 12 CFR Part 526 as set forth below effective July 6, 1973.

Since affording notice and public procedure on the above amendments would delay them from becoming effective for a period of time and since it is in the public interest that such amendments become effective as soon as possible, the Board hereby finds that notice and public procedure thereon are contrary to the public interest under the provisions of 12 CFR 508.11 and 5 U.S.C. 553(b); and the Board hereby finds that publication of such amendments for the 30-day period specified in 12 CFR 508.14 and 5 U.S.C. 553(d) prior to the effective date thereof is unnecessary since they relieve restrictions; and the Board hereby provides that such amendments shall become effective as hereinbefore set forth.

1. Section 526.3 is revised to read as follows:

§ 526.3 Maximum rate of return payable on regular accounts.

A member institution may pay a return at a rate not in excess of 5.25 percent per annum on any regular account.

2. Section 526.4 is revised to read as follows:

§ 526.4 Maximum rate of return payable on notice accounts.

A member institution may pay a return at a rate not in excess of 5.75 percent per annum on any notice account.

3. Section 526.5 is revised to read as follows:

§ 526.5 Maximum rates of return payable on certificate accounts of less than $100,000.

(a) *Maximum rates*—(1) *Maximum rate of 5.25 percent.* Except as is otherwise provided in § 526.5–1, a member institution may pay a return at a rate not in excess of 5.25 percent per annum on any certificate account having a fixed or minimum term or qualifying period of not less than 30 days.

(2) *Maximum rate of 5.75 percent.* Except as is otherwise provided in this section or in § 526.5–1, a member institution may pay a return at a rate not in excess of 5.75 percent per annum on any certificate account of $1,000 or more having a fixed or minimum term or qualifying period of not less than 90 days.

(3) *Maximum rate of 6.50 percent.* Except as is otherwise provided in this section or in § 526.5–1, a member institution may pay a return at a rate not in excess of 6.50 percent per annum on—

(i) Any certificate account of $1,000 or more having a fixed or minimum term or qualifying period of not less than 1 year but less than 2 years; and

(ii) Any certificate account of $5,000 or more having a fixed or minimum term or qualifying period of not less than 2 years.

(4) *Maximum rate of 6.75 percent.* Except as is otherwise provided in this section or in § 526.1, a member institution may pay a return at a rate not in excess of 6.75 percent per annum on—

(i) Any certificate account of $5,000 or more having a fixed or minimum term or qualifying period of not less than 30 months; and

(ii) Any certificate account having a fixed or minimum term or qualifying period of not less than 4 years.

(5) *No prescribed maximum rate.* (i) Subject to the percentage limitation contained in paragraph (a)(5)(ii) of this section and except as is otherwise provided in this section or § 526.5–1, no maximum rate of return is prescribed on any certificate account of $1,000 or more having a fixed or minimum term or qualifying period of not less than 4 years.

(ii) No member institution may pay a return at a rate in excess of 6.75 percent per annum on a certificate account of $1,000 or more (but less than $100,000) if, as a result of the issuance of such certificate account, the total amount of all such certificate accounts then outstanding, on which a return is being paid at a rate in excess of 6.75 percent per annum, would exceed 5 percent of the institution's total savings accounts outstanding at the end of its most recent distribution period for regular accounts.

(b) *Exceptions as to minimum amount.* (1) If the home office of a member institution is located in a Standard Metropolitan Statistical Area, or county not in such Area, as to which the regional Federal Home Loan Bank has determined that a mutual savings bank having an office located therein is paying a return at a rate in excess of 5.25 percent per annum on any deposit having a minimum amount lower than the corresponding minimum amount prescribed in paragraph (a) of this section for certificate accounts of the same maturity, such member institution may issue certificate accounts of the same maturity in such lower minimum amount.

(2) If the home office of a member institution is located in a State as to which the regional Federal Home Loan Bank has determined (i) that the total amount of savings capital attributable to mutual savings banks exceeds 30 percent of the total amount of savings capital attributable to mutual savings banks, savings and loan associations, building and loan associations, homestead associations, and cooperative banks and (ii) that a mutual savings bank having an office located in such State is paying a return at a rate in excess of 5.25 percent per annum on any deposit having a minimum amount lower than the corresponding minimum

V 38 I 132 JUL 11 73 XUM

amount prescribed in paragraph (a) of this section for certificate accounts of the same maturity, such member institution may issue certificate accounts of the same maturity in such lower minimum amount.

(3) With respect to certificate accounts issued under a monthly payment bonus plan providing for the payment of a bonus if regular monthly payments are made by the saver for a period of not less than 12 months, a member institution may pay a return as permitted by paragraph (a) of this section without regard to the minimum amount requirements contained in such paragraph.

4. Section 526.5–1 is revised to read as follows:

§ 526.5–1 Certificate accounts of $100,000 or more.

(a) *Rate of return.* Subject to the limitation contained in paragraph (b) of this section, no maximum rate of return is prescribed on any certificate account of $100,000 or more with a fixed or minimum term or qualifying period of not less than 30 days.

(b) *Percentage limitation.* No member institution may pay a return at a rate in excess of 6.75 percent per annum on any certificate account of $100,000 or more if, as a result of the issuance of such certificate account, the total amount of all such certificate accounts then outstanding, on which a return is being paid at a rate in excess of 6.75 percent per annum, would exceed 5 percent of the institution's total savings accounts outstanding at the end of its most recent distribution period for regular accounts.

(c) *Geographic exception.* In the case of certificate accounts issued by a member institution whose home office is located in the Commonwealth of Puerto Rico, the minimum amount requirement specified in paragraph (a) of this section shall be $50,000 intead of $100,000, and the percentage limitation contained in paragraph (b) of this section shall apply to certificate accounts of $50,000 or more with a return at a rate in excess of 6.75 percent per annum: *Provided*, That no such institution may advertise or promote any such account outside of the Commonwealth of Puerto Rico.

(Sec. 5B, 47 Stat. 727, as added by sec. 4, 80 Stat. 824, as amended by Public Law 91–151, sec. 2(b), 83 Stat. 371; sec. 17, 47 Stat. 736, as amended; 12 U.S.C. 1425b, 1437. Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943–48 Comp., p. 1071)

By the Federal Home Loan Bank Board.

[SEAL] HENRY A. CARRINGTON, *Secretary.*

[FR Doc.73–14130 Filed 7–10–73;8:45 am]

SUBCHAPTER C—FEDERAL SAVINGS AND LOAN SYSTEM

[No. 73–925]

PART 545—OPERATIONS

Savings Accounts

JULY 6, 1973.

The Federal Home Loan Bank Board considers it advisable to amend §§ 545.1–4, 545.3 and 545.3–1 of Part 545 of the rules and regulations for the Federal Savings anl Loan System (12 CFR Part 545) in order to revise certain of the terms upon which Federal associations may accept savings accounts. Accordingly, the Board hereby amends paragraph (c)(3) and subdivisions (i) and (ii) of paragraph (f)(1) of said § 545.1–4, paragraph (b)(4) of said § 545.3, and subdivisions (i) and (ii) of paragraph (c)(3) of said § 545.3–1 to read as set forth below, effective July 11, 1973.

Paragraph (c)(3) of § 545.1–4 is revised in order to reduce the minimum permissible maturity for fixed-term savings deposits from 60 days to 30 days.

Subdivisions (i) and (ii) of paragraph (f)(1) of § 545.1–4, paragraph (b)(4) of § 545.3, and subdivisions (i) and (ii) of paragraph (c)(3) of § 545.3–1 set forth minimum penalty provisions for early withdrawals from fixed-term savings deposits, fixed-balance bonus accounts, and savings accounts evidenced by certificates. The present amendments revise those minimum penalty provisions for Federal associations so that in the event of withdrawal of all or any portion of such an account prior to the expiration of the fixed or minimum term or qualifying period of such an account, the account holder shall receive interest from the beginning of the term or period on the amount withdrawn at a rate not in excess of the rate then being paid on passbook savings accounts. In addition, the account holder shall also pay a penalty in an amount not less than the lesser of the interest at such rate for 90 days on the amount withdrawn or all interest at such rate (since issuance or renewal of the account) on the amount withdrawn. These revisions are made by the Board in coordination with the Federal Reserve Board and the Federal Deposit Insurance Corporation so that the penalty provisions prescribed by the Board and those two agencies will be uniform.

Since affording notice and public procedure on the above amendments would delay such amendments from becoming effective for a period of time and since it is in the public interest that such amendments become effective without such delay, the Board hereby finds that notice and public procedure as to such amendments are contrary to the public interest under the provisions of 12 CFR 508.11 and 5 U.S.C. 553(b); and since publication of such amendments for the period specified in 12 CFR 508.14 and 5 U.S.C. 553(d) prior to the effective date of such amendments would in the opinion of the Board likewise be unnecessary for the same reason, the Board hereby provides that such amendments shall become effective as hereinbefore set forth.

Part 545 of Title 12 of the Code of Federal Regulations is amended as follows.

1. Section 545.1–4 (c)(3) and (f)(1)(i) and (ii) is revised to read as follows:

§ 545.1–4 Other savings deposits.

* * * * * *

(c) *Limitations.* In accepting savings deposits under the authority contained in paragraph (a) of this section, no Federal association shall:

* * * * * *

(3) Accept any fixed-term savings deposit for a term of less than 30 days or more than 10 years: *Provided*, That any savings deposit may provide for renewal, at the option of the association, for successive periods not exceeding 10 years for each renewal.

* * * * * *

(f) *Withdrawal prior to expiration of term.* (1) In the event of withdrawal of all or any portion of a fixed-term savings deposit prior to the expiration of its term—

(i) The depositor shall receive interest from the beginning of the term of such savings deposit on the amount withdrawn at a rate not in excess of the rate then being paid on savings deposits accepted for an indefinite period of time.

(ii) The depositor shall also pay a penalty in an amount not less than the lesser of (*a*) the interest at such rate for 90 days (3 months) on the amount withdrawn or (*b*) all interest at such rate (since issuance or renewal of the deposit) on the amount withdrawn.

* * * * * *

2. Section 545.3(b)(4) is revised to read as follows:

§ 545.3 Bonus on monthly-payment and fixed-balance accounts.

* * * * * *

(b) *Fixed balance accounts.* * * *

(4) In the event of withdrawal of all or any portion of any such bonus account prior to the expiration of such qualifying period, the account holder shall receive earnings from the date of issuance of such account on the amount withdrawn at a rate not in excess of the regular rate then being paid, and shall pay a penalty in an amount not less than the lesser of (i) the earnings at such rate for 90 days (3 months) on the amount withdrawn or (ii) all earnings at such rate on the amount withdrawn. If any earnings have been distributed to the account holder prior to such withdrawal, a deduction shall be made from the amount withdrawn to adjust for the penalty applicable to such earnings.

* * * * * *

3. Section 545.3–1(c)(3)(i) and (ii) is revised as follows:

§ 545.3–1 Distribution of earnings at variable rates.

* * * * * *

(c) *Form of certificate.* * * *

(3) In the event of withdrawal of all or any portion of any certificate account, issued pursuant to subparagraph (3) of paragraph (b) of this section, prior to completion of the time eligibility period set forth in the certificate evidencing such account—

(i) The account holder shall receive earnings from the date of issuance of such account on the amount withdrawn at a rate not in excess of the regular rate then being paid.

(ii) The account holder shall also pay a penalty in an amount not less than the lesser of (*a*) the earnings at such rate for 90 days (3 months) on the amount withdrawn or (*b*) all earnings at such rate (since issuance or renewal of the certificate account) on the amount withdrawn.

* * * * * *

(Sec. 5, 48 Stat. 132, as amended; 12 U.S.C. 1464. Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943–48 Comp., p. 1071)

By the Federal Home Loan Bank Board.

[No. 73–891]

PART 545—OPERATIONS

Applications by Federal Savings and Loan Associations for Branch Offices, Mobile Facilities or Satellite Offices

JUNE 27, 1973.

Certain provisions in Part 545 of the Rules and Regulations for the Federal Savings and Loan System (12 CFR Part 545) regarding branch offices (12 CFR 545.14), mobile facilities (12 CFR 545.14–4) and satellite offices (12 CFR 545.14–5) limit the number of applications by the same Federal savings and loan association for permission to establish branch offices, mobile facilities or satellite offices that the Federal Home Loan Bank Board will consider and process at the same time. It has been pointed out to the Board that certain State supervisory authorities apply more liberal provisions to such applications by State-chartered thrift institutions or commercial banks for permission to establish similar types of offices.

The Board considers it advisable to amend the appropriate provisions in said Part 545 for the purpose of providing, in substance, that the Board will consider and process at the same time as many of such applications by a Federal association as the appropriate State authority of the State in which the applicant's home office is located will consider and process at the same time for the same savings and loan association, savings bank or similar institution or commercial bank of such State. Accordingly, the Federal Home Loan Bank Board hereby amends said Part 545 by revising §§ 545.14(b)(1)(i), 545.14–4(b)(4), and 545.14–5(c)(5) thereof to read as set forth below, effective July 11, 1973.

Since the above amendments relieve restriction, the Board hereby finds that notice and public procedure with respect to said amendments are unnecessary under the provisions of 12 CFR 508.11 and 5 U.S.C. 553(b); and since publication of said amendments for the 30-day period specified in 12 CFR 508.14 and 5 U.S.C. 553(d) prior to the effective date of said amendments would in the opinion of the Board likewise be unnecessary for the same reason, the Board hereby provides that said amendments shall become effective as hereinbefore set forth.

Part 545 of 12 CFR Chapter V is amended as follows:

1. Section 545.14(b)(1)(i) is revised as follows:

§ 545.14 Branch office.

* * * * * *

(b) *Eligibility.* (1) Except as provided in paragraph (b)(2) of this section, a Federal association shall be eligible to have an application for permission to establish a branch office (including an application for a limited facility branch office) considered and processed only if, at the date on which such application is filed with the Board:

(i) The association does not have on file with the Board any other such application, excluding any application as to which more than 4 months have elapsed since the date of publication of notice thereof; except that the limitations of this subdivision (i) shall not prohibit the consideration and processing at the same time of (*a*) both an application in which the applicant proposes, under the provisions of paragraph (j)(1) of this section, that the office applied for be a limited facility branch office and an application in which it does not so propose or (*b*) more than one branch office or more than one limited facility branch office application of the same association to the extent that the appropriate State authority of the State in which the applicant's home office is located considers and processes at the same time more than one branch office application or more than one limited facility branch office application of the same savings and loan association, savings bank or similar institution or commercial bank of such State.

* * * * * *

2. Section 545.14–4 (b)(4) is revised as follows:

§ 545.14–4 Mobile facility.

* * * * * *

(b) *Eligibility.* No application for permission to establish a mobile facility by a Federal association shall be considered or processed, except to determine the association's eligibility under the provisions of this paragraph (b), if, at the date on which such application is filed with the Board:

* * * * * *

(4) The association has on file any other application for permission to establish a mobile facility with respect to which action by the Board is pending, except that the association may have on file more than one mobile facility application to the extent that the appropriate State authority of the State in which the applicant's home office is located permits to be on file at the same time more than one mobile facility application of the same savings and loan association, savings bank or similar institution or commercial bank of such State; or

* * * * * *

4. Section 545.14–5(c)(5) is revised as follows:

§ 545.14–5 Satellite office.

* * * * * *

(c) *Specific provisions.* Each application for permission to establish a satellite office will be considered or processed pursuant to the provisions of this section. Approval of such an application pursuant to this section will be subject to the following provisions and any other conditions, requirements, and limitations the Board may specify in a particular case:

* * * * * *

(5) A Federal association may not operate more than 5 satellite offices at any one time, and may not file applications for more than 2 such offices in any 12-month period, except that a Federal association may file in the same 12-month period more than two satellite office applications to the extent that the appropriate State authority of the State in which the applicant's home office is located permits to be on file at the same time more than two satellite office applications of the same savings and loan association, savings bank or similar institution or commercial bank of such State. An application which has been disapproved shall be disregarded in determining compliance with the preceding sentence.

* * * * * *

(Sec. 5, 48 Stat. 132, as amended; 12 U.S.C. 1464. Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR, 1943–48 Comp., p. 1071)

By the Federal Home Loan Bank Board.

[SEAL] GRENVILLE L. MILLARD, JR., *Assistant Secretary.*

SUBCHAPTER D—FEDERAL SAVINGS AND LOAN INSURANCE CORPORATION

[No. 73–926]

PART 563—OPERATIONS

Savings Accounts

JULY 6, 1973.

The Federal Home Loan Bank Board considers it advisable to amend §§ 563.3–1 and 563.3–2 of Part 563 of the Rules and Regulations for Insurance of Accounts (12 CFR Part 563) in order to revise certain provisions regarding savings accounts accepted by institutions insured by the Federal Savings and Loan Insurance Corporation. Accordingly, the Board hereby amends paragraph (b)(4) and subdivisions (i) and (ii) of paragraph (d)(1) of said § 563.3–1 and paragraph (b)(4) and subdivisions (i) and (ii) of paragraph (d)(1) of said § 563.3–2 to read as set forth below, effective July 11, 1973.

Paragraph (b)(4) of § 563.3–1 and paragraph (b)(4) of § 563.3–2 are each revised in order to reduce the minimum maturity for fixed-rate, fixed-term accounts and certificates evidencing other accounts from 60 days to 30 days.

Subdivisions (i) and (ii) of paragraph (d)(1) of § 563.3–1 and subdivisions (i) and (ii) of paragraph (d)(1) of § 563.3–2 set forth minimum penalty provisions for early withdrawals from fixed-rate,

V 38 I 132 JUL 11 73 XUM

fixed-term accounts and certificates evidencing other accounts. The present amendments revise those minimum penalty provisions for insured institutions so that in the event of withdrawal of all or any portion of such an account prior to the expiration of its term or completion of its eligibility term, the account holder shall receive interest from the beginning of such term on the amount withdrawn at a rate not in excess of the rate then being paid on passbook savings accounts. In addition, the account holder shall also pay a penalty in an amount not less than the lesser of the interest at such rate for 90 days or all interest at such rate (since issuance or renewal of the account) on the amount withdrawn. These revisions are made by the Board in coordination with the Federal Reserve Board and the Federal Deposit Insurance Corporation so that the penalty provisions prescribed by the Board and those two agencies will be uniform.

Since affording notice and public procedure on the above amendments would delay such amendments from becoming effective for a period of time and since it is in the public interest that such amendments become effective without such delay, the Board hereby finds that notice and public procedure as to such amendments are contrary to the public interest under the provisions of 12 CFR 508.11 and 5 U.S.C. 553(b); and since publication of such amendments for the period specified in 12 CFR 508.14 and 5 U.S.C. 553(d) prior to the effective date of such amendments would in the opinion of the Board likewise be unnecessary for the same reason, the Board hereby provides that such amendments shall be come effective as hereinbefore set forth.

Part 563 of 12 CFR Chapter V is amended as follows:

1. Paragraphs (b)(4) and (d)(1)(i) and (ii) of § 563.3–1 are revised as follows:

§ 563.3–1 Fixed-rate, fixed-term accounts.

* * * * *

(b) *Limitations.* In issuing certificates evidencing fixed-rate, fixed-term accounts pursuant to the approval contained in paragraph (a) of this section, no insured institution shall:

* * * * *

(4) Accept any fixed-rate, fixed-term account for a term of less than 30 days or more than 10 years: *Provided*, That any fixed-rate, fixed-term account may provide for renewal at the option of the institution, for successive periods not exceeding 10 years for each renewal.

* * * * *

(d) *Withdrawal prior to expiration of term.* (1) Each certification issued by an insured institution for a fixed-rate, fixed-term account shall provide that, in the event of withdrawal of all or any portion of such account prior to the expiration of its term—

(i) The account holder shall receive interest from the beginning of the term of such account on the amount withdrawn at a rate not in excess of the rate then being paid on savings accounts accepted for an indefinite period of time.

(ii) The account holder shall also pay a penalty in an amount not less than the lesser of (*a*) the interest at such rate for 90 days (3 months) on the amount withdrawn or (*b*) all interest at such rate (since issuance or renewal of the account) on the amount withdrawn.

* * * * *

2. Paragraphs (b)(4) and (d)(1)(i) and (ii) of § 563.3–2 are revised as follows:

§ 563.3–2 Certificates evidencing other accounts.

* * * * *

(b) *Limitations.* In issuing certificates pursuant to the approval contained in paragraph (a) of this section, no insured institution shall:

* * * * *

(4) Issue any certificate account with a time eligibility period of not less than 30 days or more than 10 years; or

* * * * *

(d) *Provisions relating to early withdrawal.* (1) Each certificate issued by an insured institution for a certificate account shall provide that, in the event of withdrawal of all or any portion of such account prior to completion of its time eligibility period—

(i) The account holder shall receive earnings from the date of issuance of such account on the amount withdrawn at a rate not in excess of the regular rate then being paid.

(ii) The account holder shall also pay a penalty in an amount not less than the lesser of (*a*) the earnings at such rate for 90 days (3 months) on the amount withdrawn or (*b*) all earnings at such rate (since issuance or renewal of the certificate account) on the amount withdrawn.

* * * * *

(Secs. 402, 403, 48 Stat. 1256, 1257, as amended; 12 U.S.C. 1725, 1726. Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR, 1943–48 Comp., p. 1071)

Title 16—Commercial Practices

CHAPTER I—FEDERAL TRADE COMMISSION

[Docket No. C-2407]

PART 13—PROHIBITED TRADE PRACTICES

Miro Inc., et al.

Subpart—Advertising falsely or misleading: § 13.73 *Formal regulatory and statutory requirements:* § 13.73–90 Textile Fiber Products Identification Act. Subpart—Misbranding or mislabeling: § 13.1185 *Composition:* § 13.1185–80 Textile Fiber Products Identification Act; § 13.1212 *Formal regulatory and statutory requirements:* 13.1212–80 Textile Fiber Products Identification Act. Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1852 *Formal regulatory and statutory requirements:* 13.1852–70 Textile Fiber Products Identification Act.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, 72 Stat. 1717; 15 U.S.C. 45, 70) [Cease and desist order, Miro Inc., et al., Jersey City, N.J., Docket No. C-2407, May 29, 1973]

In the Matter of Miro Inc., Herald Modes Inc., Empire Fashions, Inc., Rain-Ette Fashions Inc., and Suz-Ette Fashions Inc., Corporations, and Robert Mincow, Individually and As An Officer of Said Corporations

Consent order requiring several Jersey City, New Jersey, manufacturers and sellers of women's and misses' wearing apparel, among other things to cease misbranding its textile fiber products.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondents Miro Inc., Herald Modes Inc., Empire Fashions Inc., Rain-Ette Fashions Inc., and Suz-Ette Fashions Inc., corporations, their successors and assigns, and their officers, and Robert Mincow, individually and as an officer of said corporations, and respondents' agents, representatives, and employees directly or through any corporation, subsidiary, division, or any other device, in connection with the introduction, delivery for introduction, manufacture for introduction, sale, advertising or offering for sale in commerce, or the transportation or causing to be transported in commerce, or the importation into the United States of any textile fiber product; or in connection with the sale, offering for sale, advertising, delivery, transportation or causing to be transported, of any textile product, which has been advertised or offered for sale in commerce, or in connection with the sale, offering for sale, advertising, delivery, transportation or causing to be transported, after shipment in commerce of any textile fiber product, whether in its original state or contained in other textile fiber products, as the terms "commerce" and "textile fiber product" are defined in the Textile Fiber Products Identification Act, as forthwith cease and desist from:

A. Misbranding textile fiber products by:

1. Falsely or deceptively stamping, tagging, labeling, invoicing, advertising or otherwise identifying such products as to the name or amount of the constituent fibers contained therein.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondents, such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporations which may affect compliance obligations arising out of this Order.

It is further ordered, That the individual respondent named herein promptly notify the Commission of the discontinuance of his present business or employment and of his affiliation with a new business or employment. Such notice shall include respondent's current business address and a statement as to the nature of the business or employment in which he is engaged as well as a description of his duties and responsibilities.

It is further ordered, That the respondent corporations shall forthwith distribute a copy of this order to each of their operating divisions.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this Order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this Order.

Issued: May 29, 1973.

By the Commision.

[SEAL] CHARLES A. TOBIN, *Secretary.*

[Docket C-2406]

PART 13—PROHIBITED TRADE PRACTICES

Pay Less Drug Stores Northwest, Inc., et al.

Subpart—Advertising falsely or misleadingly: § 13.170 *Qualities or properties of product or service:* 13.170–70 Preventive or protective; § 13.195 *Safety:* 13.195–60 Product; § 13.210 *Scientific tests.* Subpart—Misrepresenting oneself and goods—Goods: § 13.1710 *Qualities or properties.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Pay Less Drug Stores Northwest, Inc., et al., Portland, Oregon, Docket C-2406, May 25, 1973]

In the Matter of Pay Less Drug Stores Northwest, Inc., a Corporation, House of Values, Incorporated, House of Values of Bremerton, Inc., Pay Less Drug Store of Mt. Vernon, Inc., Corporations Doing Business As House of Values, Eureka Pay Less for Drugs Company, Pay Less Drug Store of Coos Bay, Inc., Pay Less Drug Store of Pendleton, Inc., and Pay Less for Drugs, Inc., Corporations, Doing Business As Pay Less Drug Stores

Consent order requiring a Portland, Oregon, based operator of 45 retail stores in four Northwestern states, among other things to cease making deceptive safety helmets and requiring respondent to make cash refunds to deceived purchasers who return the helmets.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondents Pay Less Drug Stores Northwest, Inc., House of Values, Incorporated, House of Values of Bremerton, Inc., Pay Less Drug Store of Mt. Vernon, Inc., Eureka Pay Less For Drugs Company, Pay Less Drug Store of Coos Bay, Inc., Pay Less Drug Store of Pendleton, Inc., and Pay Less For Drugs, Inc., corporations, their successors and assigns, and their officers, and respondent's agents, representatives and employees, directly or through any corporation, subsidiary, division or other device, in connection with the advertising, offering for sale, or sale of safety helmets do forthwith cease and desist from representing, orally, in writing, or in any other manner, directly or by implication, that the Lear-Siegler "El Dorado 77 (S–80 Spoiler)," the PIP (Pacific Interchange Parts) "GP–2," the American Safety Equipment Corporation "Titan" or any other safety helmet is the world's safest or is safer than any other safety helmet, or words of similar import or meaning, or that any such product is effective in protecting the head from injury, unless respondents have a reasonable basis for such representation at the time it is made, including documentation of scientific tests or other scientific data.

It is further ordered, That respondents shall cause dissemination of clear and conspicuous public notice not less than two columns in width and of the same length and content as Exhibits A through H annexed hereto[1] in the publications noted therein. Said public notices shall be published in an equal number of issues as the original advertisements on dates approved by the Seattle Regional Office.

It is further ordered, That respondents immediately refund the respective purchase price in cash to any person who, within thirty (30) days of the date of publication of said public notices tenders a safety helmet of the type described in Exhibits A through H annexed hereto and asserts that said helmet was purchased as a result of the original false and misleading advertisement.

It is further ordered, That each respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondents such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries, or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a written report setting forth in detail the manner and form of their compliance with this order.

Issued: May 25, 1973.

By the Commission.

[SEAL] VIRGINIA M. HARDING, *Acting Secretary.*

[1] Exhibits A through H filed as part of the original document.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER C—DRUGS

PART 135c—NEW ANIMAL DRUGS IN ORAL DOSAGE FORMS

Diethylcarbamazine Citrate Tablets

The Commissioner of Food and Drugs has evaluated a new animal drug application (93–512V) filed by E. R. Squibb & Sons, Inc., Georges Rd., New Brunswick, N.J. 08902, proposing the safe and effective use of diethylcarbamazine citrate tablets for the treatment of dogs. The application is approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 135c is amended by revising § 135c.86 to read as follows:

§ 135c.86 Diethylcarbamazine citrate tablets.

(a)(1) *Specifications.* Diethylcarbamazine citrate tablets contain 50 or 400 milligrams of diethylcarbamazine citrate per tablet.

(2) *Sponsor.* See code No. 004 in § 135.501(c) of this chapter.

(3) *Conditions of use.* (i) The drug is used as an aid in the treatment of ascarids in dogs and cats and for the prevention of heartworm disease (*Dirofilaria immitis*) in dogs.

(ii) For the treatment of ascarids in dogs and cats, the tablets are administered orally or pulverized and given in the feed or water at a dosage level of 25 to 50 milligrams of diethylcarbamazine citrate per pound of body weight. A repeat dose should be given in 10 to 20 days to remove immature worms which may enter the intestine from the lungs after the first dose.

(iii) For the prevention of heartworm disease in heartworm endemic areas dogs should be given a daily dose of 3 milligrams of diethylcarbamazine citrate per pound of body weight.

(iv) Dogs with established heartworm infections should not receive the drug until they have been converted to a negative status.

(v) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

(b)(1) *Specifications.* Diethylcarbamazine citrate tablets contain 100 milligrams of diethylcarbamazine citrate per tablet.

(2) *Sponsor.* See code No. 035 in § 135.501(c) of this chapter.

(3) *Conditions of use.* (i) It is used in dogs for the prevention of infection with *Dirofilaria immitis* (heartworm disease) and as an aid in the treatment of ascarid infections (*Toxocara canis* and *Toxascaris leonina*) in dogs.

(ii) For the prevention of heartworm disease in dogs the drug is given orally once a day at a dosage rate of 3 milligrams of diethylcarbamazine citrate per pound of body weight. Young dogs may

V 38 1 132 JUL 11 73 XUM

be started on the prevention program at 2 months of age. For treatment of ascarid infection in dogs, the drug is given orally at a dosage rate of 25 to 50 milligrams of diethylcarbamazine citrate per pound of body weight. A repeat dose should be given in 10 to 20 days to remove immature worms which may enter the intestines from the lungs after the initial treatment.

(iii) Use of the drug is not recommended in dogs with active *D. immitis* infections.

(iv) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

Effective date. This order shall be effective July 11, 1973.

Dated: July 3, 1973.

C. D. VAN HOUWELING,
Director, Bureau of Veterinary Medicine.

PART 1910—OCCUPATIONAL SAFETY AND HEALTH STANDARDS

Emergency Temporary Standard for Exposure to Organophosphorous Pesticides

Correction

In FR Doc. 73-13071 appearing at page 17214 in the issue of Friday, June 29, 1973, in § 1910.267a(c)(2), the 19th line should be deleted, and the following substituted: "respirator approved by either the U.S.".

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 19653; FCC 73-732]

PART 73—RADIO BROADCAST SERVICES

Table of Assignments, FM Broadcast Stations in Gregory, S. Dak.

Report and order. In the matter of amendment of § 73.202(b), Table of assignments, FM Broadcast Stations. (Gregory, South Dakota) Docket No. 19653, RM-1759.

1. The Commission here considers the notice of proposed rule making in this docket, adopted November 29, 1972 (FCC 72-1086; 37 FR 26134; extension of time for comments published at 38 FR 1941), proposing amendment of the FM Table of Assignments (§ 73.202(b) of the Commission's Rules and Regulations) as concerns possible assignment of either Channel 260 or 268 to Gregory, South Dakota. The parties filing formal comments are the petitioner, West Central Investment Co., Inc. (WCI); and Midwest Radio Corporation (Midwest), licensee of Stations KWYR (daytime-only) and KWYR-FM (Channel 229), Winner, South Dakota, Ranchland Broadcasting Co., Inc. (Ranchland), licensee of AM Station KBRX (daytime-only) and applicant for FM Channel 224A at O'Neill, Nebraska (BPH-8171), filed informal comments. Midwest and Ranchland oppose assignment of a channel other than a Class A to Gregory.

2. As stated in the Notice, WCI seeks the assignment of either Channel 260 or 268 to Gregory, South Dakota. Gregory, population 1,756, is the largest community in Gregory County, population 6,710.[1] There is no FM channel assignment to the community nor is there a standard broadcast station licensed in the county. WCI states that a maximum Class A facility at Gregory would (based on assumed reasonable facilities for other stations) serve 5,229 persons and an area of 680 square miles within its 1 mV/m contour, and would bring a first FM service to 357 persons and a second FM service to 4,872 persons. In contrast with this, WCI states that if a Class C channel is assigned to Gregory it would apply for its use with facilities of 100 kW E.R.P. and antenna height of 500 feet A.A.T. With such facilities, it states that its 1 mV/m contour would contain 4,300 square miles and a population of 23,874 persons, and that 45 percent of this area would receive a first FM service (11,132 persons), and 49.7 percent of the area (12,085 persons) a second FM service.[2] These computations, prepared before the Winner station was activated, assumed that such a station would operate with 75 kW power and an antenna height of 500 feet A.A.T., and used 1960 census figures. Station KWYR-FM has since gone on the air at Winner with 100 kW, power and an antenna height of 560 feet A.A.T. Midwest contends that considering the present facilities of KWYR-FM, and using 1970 Census figures, the total population within the 1 mV/m contour of a Gregory station would be 21,104, and a first FM service would be provided to only 4,670 persons. Midwest has not calculated the population that would be provided with a second FM service. However, if we accept the figure of 4,670 persons receiving a first FM service, it appears that about 15,300 persons would be receiving a second.

3. Midwest opposes the proposed assignment on the grounds that Gregory merits only a Class A channel under Commission criteria. Midwest relies on the following: A detailed showing that Gregory and its county are not as important as Winner (population 3,789) and Tripp County (population 8,171) to the area (the counties adjoin and the cities are 25 miles apart). Midwest also claims that the assignment of either Channel 260 or 268 should be denied because of the substantial preclusionary effect: 24 communities are precluded from using Channel 260 if that channel is assigned to Gregory, while 22 communities would be precluded from using Channel 268 if it is assigned there. In this respect, Midwest also asserts that the more logical assignment for Channel 260 would be at Ord, Nebraska (population 2,439), the seat of Valley County (population 5,783); and for Channel 268 would be at Redfield, South Dakota (population 2,943), the seat of Spink County (population 10,595). Midwest also contends that in determining the areas to which a Gregory station would bring a first FM service, the 50 uV/m service of other FM stations should be taken into account because of the rural nature of the Gregory area, and so should AM service.

4. We disagree with Midwest's contentions. While the assignment of either Channel 260 or 268 would preclude use of other FM stations should be taken into as Midwest claims, the number of FM channels available for assignment in the area is ample for assignment to these communities.[3] In this connection, we note that sixteen communities are subject to preclusion by either channel, and, therefore, would not be completely precluded by assigning the other channel to Gregory. Moreover, four of the 16 communities, all with populations of less than 10,000, have FM assignments; Midwest's contention as to preclusion here is that the three with Class A channels could use Class C channels and the other one with a Class C channel (in use) could use a second Class C channel.[4] Midwest's suggestion that the channels more appropriately might be assigned to Ord and Redfield are not considered as counterproposals, because it is not usual to assign a channel to a community with less than 10,000 population unless there is a showing that someone is willing and able to apply for the channel and, if assigned, to build a station if the application is granted; this also applies to other precluded communities including those in which Midwest feels the FM channel class should be changed or a second FM assignment is made. Midwest's contention that a 50 uV/m signal might provide service to rural areas (see § 73.315(b)) has no bearing for the standard as to making FM assignments is the 1 mV/m contour which is considered an FM station's predicted service contour; indeed, this very contention made by Midwest was raised and rejected in the Roanoke Rapids-Goldsboro decision, 9 F.C.C. 2d at 675-6. Midwest's reliance on service

[1] All population information is from the 1970 Census unless otherwise indicated.

[2] This comports with the so-called Roanoke Rapids-Goldsboro criteria for allocating a higher Class FM channel to a community that normally merits only a Class A channel (9 F.C.C. 2d 672, 673 (1967)). The Notice sets forth certain further information relied on by the petitioner to show the sociology, governmental activities, and economics of Gregory. We need not repeat this data here.

[3] In the circumstances, a preclusion study (see Policy to Govern Requests for Additional FM Assignments, 8 F.C.C. 2d 79 (1967)) was deemed unnecessary.

[4] Similar contentions are made with respect to three of the other eight communities precluded by Channel 260 and two of the other six communities precluded by Channel 268.

of AM stations to Gregory is not well taken; six of the 13 AM stations are daytime-only, three are Class IV stations which operate with 250 watts power at night, and the other four operate with 5 kW power and directional antennas at night. Since the nighttime operation of AM stations is severely limited by interfering signals, it is doubtful that any of the AM stations operating at night could serve an area where an FM station at Gregory would serve at night; the nearest is AM Station WNAX, Yankton, South Dakota, 105 miles from Gregory.

5. Ranchland's contention is that a Gregory station would serve the area it proposes to serve with its FM station (BPH-8171). The distance between O'Neill, Nebraska, and Gregory is 65 miles. The 1 mV/m contour of the O'Neill station would extend approximately 15 miles, while that of a Gregory station (with 100 kW and antenna height of 500 feet A.A.T.) would extend approximately 37 miles. In the circumstances, there is no overlap of service of the protected service contours.

6. Accordingly, we find that the public interest, convenience, and necessity would be served by assigning Channel 268 to Gregory, South Dakota. The rationale is that followed in assigning Channel 229 to Winner, South Dakota (5 F.C.C. 2d 188, 189-190), namely, that there is a basis for departure from our policy of making Class A assignments to smaller communities in Class B and C to metropolitan areas and larger cities where the small community is in a sparsely settled rural area located far from any metropolitan areas or population centers and assignment of the higher class channel would allow full-time service to the community and surrounding rural areas which a Class A channel could not. In this respect, there appears to be a substantial number of persons who have no FM service or are in a "grey" area. As noted in paragraph 2 above, assuming a 100 kW-500 foot Gregory station, the populations in the unserved and grey areas respectively are 4,670 and about 15,300 persons, which are quite substantial as compared to the total to be served by a Class C station at Gregory. While WCI discussed a facility of 100 kW power and 500 feet antenna height, it did not commit itself to applying for such a facility if either Channel 260 or 268 is assigned to Gregory. Further, there may be some other applicant. Thus, in order to assure reasonable first FM service, we are conditioning operation of a station on the channel with at least 75 kW E.R.P. and 500 feet A.A.T. antenna height or equivalent, which would cover an area with a slightly lesser radius. As to the choice between Channels 260 and 268, we have selected 268 for assignment to Gregory because it precludes a lesser number of and less populated communities. This assignment meets our spacing requirements.

7. Authority for this action is found in sections 4(i), 303 (g) and (r), and 307 (b) of the Communications Act of 1934, as amended.

8. *Accordingly, it is ordered,* That the FM Table of Assignments (§ 73.202(b) of the Commission's rules and regulations) is amended effective August 20, 1973, as concerns Gregory, South Dakota, as follows:

City	Channel No.
Gregory, South Dakota	268*

*Any application for this channel must specify at least an effective radiated power of 75 kW and antenna height of 500 feet above average terrain or equivalent.

9. *It is further ordered,* That this proceeding is terminated.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Adopted: July 3, 1973.

Released: July 9, 1973.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Acting Secretary.

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[2d Rev. S.O. 1124]

PART 1033—CAR SERVICE

Demurrage and Free Time on Freight Cars

At a session of the Interstate Commerce Commission, Division 3, held in Washington, D.C., on the 29th day of June 1973.

It appearing, that an acute shortage of boxcars, gondola cars, and covered hopper cars exists throughout the country; that certain carriers are unable to furnish adequate supplies of these types of freight cars to shippers located on their lines; that these shortages of freight cars are impeding the movement of many commodities; that many freight cars are held by shippers for excessive periods awaiting loading, unloading, or disposition instructions; that such practices immobilize large numbers of freight cars needed by shippers for the transportation of other freight; and that the existing demurrage and detention rules, regulations, and practices of the railroads are ineffective to control such use of freight cars. It is the opinion of the Commission that an emergency exists requiring immediate action to promote car service in the interest of the public and the commerce of the people. Accordingly, the Commission finds that notice and public procedure are impracticable and contrary to the public interest, and that good cause exists for making this order effective upon less than thirty day's notice.

It is ordered, That:

§ 1033.1124 **Service Order No. 1124 (Demurrage and free time on freight cars).**

(a) Each common carrier by railroad subject to the Interstate Commerce Act shall observe, enforce, and obey the following rules, regulations, and practices with respect to its car service:

(i) Application. (i) The provisions of this order shall apply to intrastate, interstate, and foreign commerce.

(ii) This order shall apply to all freight cars which are listed in the Official Railway Equipment Register, I.C.C. R.E.R. No. 386, issued by W. J. Trezise, or successive issues thereof, as having one of the mechanical designations shown on pages 1154 and 1155 under the headings:

Class "X"—Box Car Type—All Class "X" except "XT."
Class "G"—Gondola Car Type—All Class "G" except "GW."
Class "L"—Special Car Type—"LC", "LO", "LU", only.

(iii) *Exception.* This order shall not apply to cars with inside length 69 ft. 0 in. and over.

(iv) *Exception.* This order shall not apply to cars held at, or outside of ocean, Great Lakes, or river ports, while subject to the provisions of Service Order No. 1121—Demurrage and Free Time at Ports—or revisions thereof.

(v) *Exception.* This order shall not apply to freight cars of Mexican ownership while held by or for shippers at Mexican border crossings, viz:

Brownsville, Texas	Douglas, Arizona
Laredo, Texas	Naco, Arizona
Eagle Pass, Texas	Nogales, Arizona
Presidio, Texas	Calexico, California
El Paso, Texas	

(vi) *Exception.* This order shall not apply to cars subject to Freight Tariff 8-O, I.C.C. H-30, issued by B. B. Maurer, supplements thereto, or re-issues thereof, Car Demurrage Rules on Cars Used in Handling Coal or Coke Products at Coal Mines, etc.

(vii) *Exception.* The provisions of Rule 8, Item 935 of General Car Demurrage Tariff 4-J, I.C.C. H-59, issued by B. B. Maurer, supplements thereto, or re-issues thereof, or similar provisions of other applicable demurrage, detention, or storage tariffs shall govern the adjustment, cancellation, or refund of demurrage assessed as a result of the causes described in such rules.

(viii) *Exception.* Exceptions to this order may be authorized to carriers by the Railroad Service Board. Request for exceptions must be submitted in writing to R. D. Pfahler, Chairman, Railroad Service Board, Interstate Commerce Commission, Washington, D.C. 20423. Each such request must specifically identify the type of cars for which an exemption is desired and must clearly state the reasons why such cars cannot be utilized in other services.

(ix) The terms "loading", "unloading", "constructive placement", and "forwarding directions" as defined in General Car Demurrage Tariff 4-J, I.C.C. H-59, issued by B. B. Maurer, supplements thereto, or re-issues thereof, shall apply to cars subject to this order.

(x) The term "holiday" means holidays as listed in Item 25 of General Car Demurrage Tariff 4-J, I.C.C. H-59, issued by B. B. Maurer, supplements thereto, or re-issues thereof.

V38-132-JUL 11 73 XUM

(2) Free time. (i) Not more than a total of 48 hours' free time, computed in accordance with the provisions of the applicable tariffs naming demurrage or detention rules and charges, shall be allowed for loading, unloading, or furnishing of forwarding or disposition instructions on cars held for orders.

(ii) If the maximum free time authorized in applicable tariffs is less than the 48-hour period described in paragraph (i) of this section, the free-time periods, if any, provided in such tariffs shall apply.

(3) Demurrage, detention, or storage charges—cars not subject to average demurrage basis. (i) After the expiration of the free-time period described in paragraph (a)(2) of this section, or without free-time allowance when none is provided, demurrage charges shall be assessed at the following rates, until car is released:

$10.00 per car per day, or fraction of a day, for each of the first two days
$20.00 per car per day, or fraction of a day, for each of the next two days
$30.00 per car per day, or a fraction of a day, for each of the next two days
$50.00 per car per day, or fraction of a day, for each subsequent day.

(ii) Except as provided in demurrage Rule 6, Section B of General Car Demurrage Tariff 4–J, I.C.C. H–59, the applicable demurrage charges provided herein will accrue on all Saturdays, Sundays, and holidays subsequent to the free time, or without free time when none is provided, including a Saturday, Sunday, or holiday immediately following the day on which the last day of free time begins, provided such last day of free time begins to run at or before 7 a.m. or expires at or before 11:59 p.m. of the day immediately prior to the Saturday, Sunday, or holiday.

(4) Cars subject to average demurrage basis. (i) One credit will be allowed for each car released before the expiration of the first twenty-four (24) hours of free time. After the expiration of forty-eight (48) hours free time (or the adjusted free time if provided in applicable tariffs), one debit per car per day, or fraction of a day, will be charged for each of the first two days. In no case shall more than one credit be allowed on any one car, and in no case shall more than four credits be applied in cancellation of debits accruing on any one car. When a car has accrued two debits, a charge of $20.00 per car per day, or fraction of a day, will be made for each of the next two days, or fraction of a day, and $30.00 per car, per day, or fraction of a day, for each of the next two days, and $50.00 per car per day, or fraction of a day, will be made for all subsequent detention. In computing time under this rule, all Saturdays, Sundays, and holidays will be counted after the free time, including a Saturday, Sunday, or holiday immediately following the day on which the last day of free time begins.

(ii) Credits earned on cars held for loading shall not be used in offsetting debits accruing on cars held for unloading, nor shall credits earned on cars held for unloading be used in offsetting debits accruing on cars held for loading. Credits earned on cars loaded and unloaded in intraplant switching service shall not be used to offset debits accruing on cars handled in other services; nor shall credits earned on cars handled in other services be used to offset debits accruing on cars loaded and unloaded in intraplant switching service.

NOTE: The term "intraplant switching service" will be applied as defined in the applicable tariffs, and will include cars of grains, seeds, or soybeans, handled in "setback service."

(iii) Credits cannot be earned by private cars subject to Rule 1, Section B, Paragraph 4(a) of General Car Demurrage Tariff 4–J, I.C.C. H–59, issued by B. B. Maurer, supplements thereto, or reissues thereof, or subject to similar rules in other tariffs, but debits charged on such cars while under constructive placement may be offset by credits earned on other cars.

(iv) At end of the calendar month the total number of applicable credits will be deducted from the total number of debits at the ratio of two credits for one debit, and $10.00 per debit will be charged for the remainder. (See Note.) If the total number of debits are offset by credits through deduction at the above ratio of two credits for one debit, no charge will be made for the detention of the cars except as otherwise provided herein for detention beyond the second debit day, and no payment will be made by the railroad on account of such excess of credits; nor shall the credits in excess of the debits of any one month be considered in computing the average detention for another month.

NOTE: For the purpose of applying Part (iv) of this paragraph, when an odd number of credits is earned, one of such credits will be disregarded in the computation.

(v) Credits earned on cars subject to this order shall not be used in offsetting debits accruing on cars not subject to this order; nor shall debits accruing on cars subject to this order be offset by credits earned on cars not subject to this order.

(5) Existing tariff rules requiring the placement or release, as a unit, of all cars in a multiple-car shipment shall remain in effect.

(6) The demurrage, detention, or storage rates provided herein shall supersede all published storage charges expressed in cents per hundred-weight, per bushel, or other unit of measure, for all freight held in cars in excess of the free-time periods provided in Paragraph (2) herein.

(7) If the demurrage, detention, or storage rates authorized in the applicable tariffs are greater than those described herein, such higher rates shall apply.

(8) Notices of arrival, constructive placement, etc. (i) Existing tariff provisions defining constructive placement and establishing the requirements for the placement, the giving of arrival or constructive placement notice of freight destined for unloading or trans-shipment, shall apply.

(ii) If no such rules with respect to arrival, or regarding constructive placement are published in the applicable tariffs, the rules published in General Car Demurrage Tariff 4–J, I.C.C. H–59, issued by B. B. Maurer, supplements thereto, or re-issues thereof, shall apply.

(b) Rules and regulations suspended. The operation of all rules and regulations, including rates, rules, and free-time periods granted by authority of Part 1, Section 22 of the Interstate Commerce Act, insofar as they conflict with the provisions of this order, is hereby suspended.

(c) Notification of shipper required. (i) Carriers shall send or deliver a written notice to shippers or consignees of the requirements of this order at or prior to the time of actual or constructive placement of cars for loading or unloading or at the time notice of arrival or of constructive placement is given. On cars held for instructions from the shipper or qualified owner of the freight, such notices must accompany or precede the arrival notice.

(ii) If a notice described in paragraph (i) of this section has been given to a shipper or receiver at origin, destination, or hold point, no further notices of the requirements of this order need be given.

(iii) Carriers are required to maintain a copy of all notices of the requirements of this order sent to shippers, receivers, or qualified owners of freight, at the station or point from which sent.

(iv) Failure of a carrier to send and preserve copies of the notices required by Part (i) of this section shall not be deemed as nullifying the requirements of Sections (2) or (3) of this order.

(d) Effective date. This order shall become effective at 7:00 a.m., July 1, 1973.

(e) Expiration date. This order shall expire at 6:59 a.m., Oct. 1, 1973, unless otherwise modified, changed, or suspended by order of this Commission.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17 (2). Interprets or applies Secs. 1(10–17), 15 (4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2))

It is further ordered, That a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Division 3.

[SEAL] ROBERT L. OSWALD,
Secretary.

Title 15—Commerce and Foreign Trade

CHAPTER III—DOMESTIC AND INTERNATIONAL BUSINESS ADMINISTRATION, DEPARTMENT OF COMMERCE

SUBCHAPTER B—EXPORT REGULATIONS

[13th Gen. Rev., Export Regs., Amdt. 63]

PART 376—SPECIAL COMMODITY POLICIES AND PROVISIONS

Monitoring Exports and Anticipated Exports of Cotton

Section 376.3 is amended to read as set forth below and Supplement No. 1 to Part 376 is amended to add a new Group X, as set forth below.

Effective date: July 6, 1973.

RAUER H. MEYER,
Director,
Office of Export Control.

In order to assist the Department of Commerce in monitoring, on a current basis, the exports of and foreign demand for cotton, the Export Control Regulations are revised to require each U.S. exporter to file, no later than Friday, July 13, 1973, a report of all anticipated exports of more than $250 of each commodity defined below. Such report will provide the number of pounds (and running bales, if specified in Schedule B) of such anticipated exports as of close of business July 5, 1973. The commodities subject to the reporting requirement set forth herein shall be listed by the appropriate numbers in Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported from the United States, U.S. Bureau of the Census, which are set forth below, and in the case of cotton classified under Sch. B No. 263.1031, also by staple length[2], by country of ultimate destination and by month of scheduled or anticipated export.

For optional sales, the report shall include that portion of the sale expected to be exported from the United States or in the case of optional class or kind of cotton the report shall include the particular class or kind of cotton expected to be exported.

A report shall be filed on Form DIB–634P–j[1], "Anticipated Exports" for the cotton commodities listed below.

Subsequent Reports. On July 16, 1973, and on the first business day of each week thereafter, each U.S. exporter shall file a report on Form DIB–634P–j setting forth as of the close of business the preceding Friday all anticipated exports of more than $250 for each separate commodity set forth below. Such report shall be made on the same basis as and shall contain all data required above for the July 13 report. Such report shall also have attached a reconciliation of all changes from the prior report which will show in aggregate form all new anticipated exports of more than $250; all cancellations of, or changes in, orders previously reported; a breakdown showing whether such cancelled orders were accepted on or before July 5, 1973 or accepted after that date; all exports made since the closing date of the prior report, whether or not such exports were made against reported or accepted orders; a breakdown of exports showing whether they were against orders accepted on or before July 5, 1973 or against orders accepted after that date; any changes in the quantities to be exported to particular countries; any changes in the month of scheduled or anticipated export; and in the case of optional sales any change in the particular class or kind of commodity expected to be exported from the U.S. Such reconciliation shall be filed on Form DIB–635P–j[1]. If there are no changes on a line of information from the prior report, the information contained in the prior report shall not be repeated but Form DIB–634P–j shall nevertheless be submitted with the statement "no change" entered on its face; in such case, Form DIB–635P–j need not be filed. If there are changes, even though these do not result in changes in the aggregates because they are offsetting, Form DIB–635P–j shall be filed showing such changes.

Manner of reporting. All reports must be filed in an original and one copy with the Office of Export Control (Attn: 547), U.S. Department of Commerce, Washington, D.C. 20230. Such reports shall be deemed filed when actually received by the Office of Export Control.

Date of export. For purposes of this reporting requirement only, a commodity shall be considered as scheduled for export on the date the exporting carrier is expected to depart from the United States.

Corrections. If, because of a carrier's earlier or delayed departure or for other reasons, data reported pursuant to the proceding paragraph are found to have been incorrect, such facts shall be set forth on Form DIB–635P–j and corrected data shall thereafter be set forth on the appropriate Form DIB–634P–j.

Who shall file reports. For purposes of this reporting requirement only, in order to prevent duplication as well as to insure complete and adequate coverage of pending orders and shipments, the exporter as the principal party in interest in the export transaction will have the sole responsibility of reporting any and all information even though there may also be a U.S. order party involved. The exporter will have the sole responsibility of reporting the anticipated exports whether the exporter employs a freight forwarder to handle the shipping of the material or delivers the material to a carrier for export out of the country.

The term "anticipated export(s)" as used herein and in the Reporting Forms means exports expected which are based upon accepted orders which are unfilled in whole or in part or upon other firm arrangements, such as exports for the exporter's own account on the basis of an order from an exporter's foreign affiliate or agent. It does not include merely hoped-for orders or volume commitments without fixed price or fixed basis for price.

Possibility of quota restrictions. U.S. exporters are advised that if controls are imposed on exports of these commodities, all unshipped export orders may be fully subject to such controls, whether the order was entered into before, on, or after July 5, 1973. In addition, exports made after July 5, 1973, may be deducted from whatever export quotas are established.

The cotton commodities subject to this reporting requirement are defined as follows:

Schedule B Number	*Commodity Description*
263.1011	American-Egyptian and Sea Island domestic raw cotton.
263.1021	Upland domestic raw cotton, staple length 1 1/8 inches and over (U.S. official standard).
263.1031	Upland domestic raw cotton, staple length 1 inch (U.S. official standard).
263.1031	Upland domestic raw cotton, staple length 1 1/32 inches (U.S. official standard).
263.1031	Upland domestic raw cotton, staple length 1 1/16 up to 1 1/8 inches (U.S. official standard).
263.1041	Upland domestic raw cotton, staple length under 1 inch (U.S. official standard).
263.1051	Raw cotton, foreign, re-exported.
263.3020	Cotton card strips.
263.3030	Cotton comber waste.
263.4000	Cotton, carded or combed (laps, silver, and roving).

Exporters are advised that this reporting requirement may be revised and expanded if the Department determines that information being received is not sufficient for accurate monitoring of anticipated exports.

Accordingly, § 376.3 of the Export Control Regulations is amended as set forth below and Supplement No. 1 to Part 376 is amended to add a new Group X, as set forth below.

1. Section 376.3 is amended to read as follows:

§ 376.3 Agricultural commodities requiring reports.

(a) *Exports and anticipated exports of certain agricultural commodities.* (1) *Initial report of unfilled orders.* (i) No later than the date shown in Column D of Supplement No. 1 to this Part 376, each U.S. exporter shall file a report of all anticipated exports (as hereinafter defined) of more than $250 of each separate agricultural commodity listed in Supplement No. 1. Such report will provide the tonnage (in metric tons) of such anticipated exports as of the close of business on the date shown in Column C, of Supplement No. 1, unless other unit of quantity is specified in Supplement No. 1. The commodities subject to the reporting requirement set forth herein

[1] The reporting requirements contained herein have been approved by the Office of Management and Budget in accordance with the Federal Reports Act of 1942.

[2] Report separately staple length 1 inch; 1 1/32 inches; and 1 1/16 up to 1 1/8 inches.

[1] Copies of the forms may be obtained from all U.S. Department of Commerce District Offices and from the Office of Export Control (Attn: 547), U.S. Department of Commerce, Washington, D.C. 20230.

V 38-132 JUL 11 73 XUM

shall be listed by the appropriate number in Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported from the United States, U.S. Bureau of the Census, as set forth in Supplement No. 1, and in the cases of wheat and cotton also by the separate classes set forth in Supplement No. 1; by country of ultimate destination; and by month of scheduled or anticipated export. For optional sales, the report shall include that portion of the sale expected to be exported from the United States, or in the case of optional class or kind of commodity, the report shall include the particular class or kind of commodity expected to be exported.

(ii) A separate report shall be filed on the appropriate form DIB–634P (a) through (j) "Anticipated Exports" for each of the agricultural commodity groupings listed in Supplement No. 1. Form DIB–634P is promulgated in series (a) through (j) inclusive, so that each of the commodity groupings has its own particular form, designated by color coding.

(2) *Subsequent reports.* On the date shown in Column E of Supplement No. 1, and on the first business day of each week thereafter, each U.S. exporter shall file a report on the appropriate Form DIB–634P setting forth as of the close of business the preceding Friday all anticipated exports of more than $250 for each separate commodity set forth in Supplement No. 1. Such report shall be made on the same basis as and shall contain all data required under paragraph (a) (1) of this section. Such report shall also have attached a reconciliation of all changes from the prior report which will show in aggregate form all new anticipated exports of more than $250; all cancellations of, or changes in, orders previously reported; a breakdown showing whether such canceled orders were accepted on or before the date shown in Column C of Supplement No. 1 or accepted after that date; all exports made since the closing date of the prior report, whether or not such exports were made against reported or accepted orders; a breakdown of exports showing whether they were against orders accepted on or before the date shown in Column C of Supplement No. 1, or against orders accepted after that date; any changes in the quantities to be exported to particular countries; any changes in the month of scheduled or anticipated export; and in the case of optional sales any change in the particular class or kind of commodity expected to be exported from the U.S. Such reconciliation shall be filed on Form DIB–635P which is also promulgated in series (a) through (j) inclusive. If there are no changes on a line of information from the prior report, the information contained in the prior report shall not be repeated but Form DIB–634P shall nevertheless be submitted with the statement "no change" entered on its face; in such case, Form DIB–635P need not be filed. If there are any changes, even though these do not result in changes in the aggregates because they are offsetting, Form DIB–635P shall be filed showing such changes. If the date in Column C of Supplement No. 1 is different from that shown in the heading or any item of Form DIB–634P or DIB–635P, the dates on the forms should be corrected accordingly.

(3) *Reporting requirements.* (i) Manner of reporting: All reports required under this Part 376 must be filed in an original and one copy with the Office of Export Control (Attn: 547), U.S. Department of Commerce, Washington, D.C. 20230. Such reports shall be deemed filed when actually received by the Office of Export Control.

(ii) Date of export: For purposes of this section only, a commodity shall be considered as scheduled for export on the date the exporting carrier is expected to depart from the United States.

(iii) Corrections: If, because of a carrier's earlier or delayed departure or for other reasons, data reported pursuant to (ii) above are found to have been incorrect, such facts shall be set forth on Form DIB–635P (a) through (j) and corrected data shall thereafter be set forth on the appropriate Form DIB–634P (a) through (j).

(iv) Who shall file reports: For purposes of Section 376.3 only, in order to prevent duplication as well as to insure complete and accurate coverage of pending orders and shipments, the exporter as the principal party in interest in the export transaction will have the sole responsibility of reporting any and all information even though there may also be a U.S. order party involved. The exporter will have the sole responsibility of reporting the anticipated exports whether the exporter employs a freight forwarder to handle the shipping of the material or delivers the material to a carrier for export out of the country.

(v) The term "anticipated export(s)" as used herein and in the Reporting Forms means exports expected which are based upon accepted orders which are unfilled in whole or in part or upon other firm arrangements, such as exports for the exports own account on the basis of an order from the exporter's foreign affiliate or agent. It does not include merely hoped for orders or volume commitments without fixed price or fixed basis for price.

* * * * *

2. Supplement No. 1 to Part 376 is amended to add the following commodities:

Supplement No. 1 to Part 376

AGRICULTURAL COMMODITIES SUBJECT TO MONITORING

A. Schedule B Number	B. Commodity Description	C. Report Unfilled Orders as of:	D. Initial Report Due By:	E. Subsequent Reports Beginning:
	GROUP X - OTHER AGRICULTURAL COMMODITIES			
263.1011	American - Egyptian and Sea Island domestic raw cotton (Report both running bales (Rba) and pounds (Lb.))	July 5, 1973	July 13, 1973	July 16, 1973
263.1021	Upland domestic raw cotton, staple length 1 1/8 inches and over (U.S. official standard) (Report both running bales (Rba) and pounds (Lb.))	July 5, 1973	July 13, 1973	July 16, 1973

Proposed Rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

[21 CFR Part 308]

BARBITURIC ACID DERIVATIVES AND SALTS

Proposed Transfer From Schedule III to Schedule II; Extension of Comment Period

A notice was published in the FEDERAL REGISTER on May 31, 1973 (28 FR 14289) proposing the transfer of amobarbital, butabarbital, cyclobarbital, heptabarbital, pentobarbital, probarbital, secobarbital, talbutal, and vinbarbital, and their salts, from Schedule III to Schedule II of the Controlled Substances Act.

Due to a delay in publication of the notice, less than 30 days was provided during which interested persons could comment. In order to correct this situation, the Director of the Bureau of Narcotics and Dangerous Drugs ordered an extension of time for filing comments to July 3, 1973. Because of additional delays in publication, a notice of extension was not published in the FEDERAL REGISTER until July 3, 1973, thereby rendering the extension ineffective. In order to provide adequate time for additional comments, the Administrator of the Drug Enforcement Administration, successor agency to the Bureau of Narcotics and Dangerous Drugs, hereby extends the time for filing until July 18, 1973.

All comments, objections, or requests for hearings must be received no later than July 18, 1973. In the event a hearing is held, the date of the hearing will be August 2, 1973, at 10:00 a.m., in Room 1210, 1405 Eye Street NW., Washington, D.C. 20537.

Dated: July 6, 1973.

JOHN R. BARTELS, JR.,
Acting Administrator,
Drug Enforcement Administration.

FRESH PEARS, PLUMS, AND PEACHES GROWN IN CALIFORNIA

Notice of Proposed Rulemaking

This notice invites written comments relative to the continuation of Pear Regulation 3 (§ 917.432; 38 FR 17182). This regulation requires that all California Bartlett Max-Red Bartlett, Red Bartlett, anl Rosired Bartlett variety pears shipped in interstate commerce grade at least U.S. Combination, with not less than 80 percent grading U.S. No. 1 grade. It also requires that such pears be not smaller than 165 size, except that not to exceed 5.263 percent may be smaller but not smaller than 180 size, and provides that containers of such pears shall be marked with the variety name or the words "unknown variety". The Pear Commodity Committee, in proposing continuance, reflected that in order to assure consumers of an appropriate supply of quality fruit during 1973 such regulation should encompass the entire shipping and harvesting season for California Bartletts.

Consideration is being given to the following proposal, submitted by the Pear Commodity Committee, established pursuant to the marketing agreement, as amended, and Order No. 917, as amended (7 CFR Part 917), regulating the handling of fresh pears, plums, and peaches grown in California. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The proposal is to amend § 917.432 (Pear Regulation 3; 38 FR 17182) to continue the effective period of such regulation through July 31, 1974. Unless so amended the regulation would end August 4, 1973.

As proposed to be amended § 917.432 paragraph (a) would read as follows:

§ 917.432 Pear Regulation 3.

(a) *Order.* During the period July 5, 1973 through July 31, 1974, no handler shall ship:

* * * * *

Dated: July 5, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Commodity Exchange Authority

[17 CFR Part 1]

CONTRACT MARKET RULE ENFORCEMENT

Proposed Requirements

Notice is hereby given in accordance with administrative procedure provisions of 5 U.S.C. 553 that the Secretary of Agriculture, pursuant to the authority of Sections 5a and 8a of the Commodity Exchange Act (7 U.S.C. 7a and 12a), is considering adding a new § 1.51 to Part 1 of the regulations under the Commodity Exchange Act (17 CFR Part 1) to read as set forth below. The purpose of the proposed regulation is to set forth the requirements for programs by the contract markets for enforcement of the provisions of the Act specified below and of their bylaws, rules, regulations, and resolutions referred to therein. Some contract markets are maintaining a passive attitude toward such enforcement while others are failing to diligently seek out violations in certain areas.

§ 1.51 Contract market program for enforcement.

(a) Each contract market shall use due diligence in maintaining a continuing affirmative action program to secure compliance with all of the provisions of sections 5, 5a, 5b, 6(a) and 6b of the Act (7 U.S.C. 7, 7a, 7b, 8, 13a) and with all of the contract market's bylaws, rules, regulations and resolutions referred to therein. Such program shall include:

(1) Surveillance of market activity for indication of possible congestion or other market situation conducive to possible price distortion;

(2) Surveillance of trading practices on the floor of such contract market;

(3) Examination of the books and records kept by contract market members relating to their business of dealing in commodity futures and cash commodities;

(4) Investigation of complaints received from customers concerning the handling of their accounts or orders;

(5) Investigation of all other alleged or apparent violation of such bylaws, rules, regulations and resolutions; and

(6) Such other surveillance, record examination and investigation as is necessary to enforce such bylaws, rules, regulations and resolutions; and

(7) A procedure which results in the taking of prompt, effective disciplinary action for any violation which is found to have been committed.

(b) Each contract market shall keep full, complete, and systematic records which will clearly set forth all action taken as a part of, and as a result of, its program required under paragraph (a) of this section.

If any interested person desires a hearing with reference to this proposed regulation, he should make a request to that effect stating the reasons therefor, addressed to the Administrator, Commodity Exchange Authority, U.S. Department of Agriculture, Washington, D.C. 20250, on or before August 27, 1973.

Written statements with reference to the subject matter of this proposal may be submitted by an interested person. Such statements should be mailed to the

V 38-132 JUL 11 73 XUM

Administrator of the Commodity Exchange Authority prior to August 27, 1973.

The transcript of the proceedings at any hearing which may be held and all written submissions made pursuant to this notice will be made available for public inspection in the Office of the Administrator, Commodity Exchange Authority, during regular business hours.

Issued: July 5, 1973.

ALEX C. CALDWELL,
Administrator,
Commodity Exchange Authority.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 73-NW-10]

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amendments to Part 71 of the Federal Aviation Regulations that would alter the description of the Burley, Idaho control zone and transition area.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Operations, Procedures and Airspace Branch, Northwest Region, Federal Aviation Administration, FAA Building, Boeing Field, Seattle, Washington 98108. All communications received on or before August 10, 1973, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration.

The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the office of the Regional Counsel, Northwest Region, Federal Aviation Administration, FAA Building, Boeing Field, Seattle, Washington 98108.

A new RNAV Runway 20 straight-in approach has been developed for the Burley Municipal Airport, Burley, Idaho. In order to provide controlled airspace to protect aircraft executing this procedure, it is necessary to alter the Burley, Idaho control zone and transition area.

In consideration of the foregoing, the Federal Aviation Administration proposes the following airspace action:

In § 71.171 (38 FR 351) the description of the Burley, Idaho control zone is amended by adding the following: "• • • and within 1.5 miles each side of the 036 degree bearing from the Burley Municipal Airport extending from the 5-mile radius zone to 8 miles northeast of the airport."

In § 71.181 (38 FR 435) the description of the Burley, Idaho transition area is amended to read as follows:

BURLEY, IDAHO

That airspace extending upward from 700 feet above the surface within 5.5 miles each side of the Burley VORTAC 121 degree radial, extending from the VORTAC to 27 miles southeast of the VORTAC; within 5.5 miles each side of the Burley VORTAC 292 degree radial extending from the VORTAC to 17 miles west of the VORTAC; within 4.5 miles each side of the Burley VORTAC 344 degree radial extending to the north edge of V-500; and within 2.5 miles southeast and 6 miles northwest of the 036 degree bearing from the Burley Municipal Airport, extending to 9.5 miles north of the Burley Municipal Airport; and that airspace extending upward from 1200 feet above the surface within 8 miles south of the Burley VORTAC 074° radial extending from the VORTAC 19 miles east; within 10 miles southeast of the 223° radial extending from the VORTAC 19 miles southwest; that airspace southeast of Burley bounded on the north by V-4, on the southeast by a 33.5 mile arc centered on the Burley Airport, on the southwest by northeast edge V-101, that airspace northeast of Burley bounded on the north by V-500, on the east by an arc of a 23 mile radius circle centered on Pocatello, Idaho VORTAC, on the south by V-269 and on the west by V-365; and that airspace north of Burley bounded on the west by a line parallel to and 8 miles northwest of the centerline of V-365 extending from the Burley VORTAC to the south edge of V-500.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(v)).

Issued in Seattle, Wash., on July 2, 1973.

J. H. TANNER,
Acting Director,
Northwest Region.

[FR Doc.73-14028 Filed 7-10-73;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 73-GL-31]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to alter the transition area at Sheboygan, Wisconsin.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018. All communications received on or before August 10, 1973, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

A new public VOR instrument approach procedure has been developed for the Sheboygan County Memorial Airport. In addition, the criteria for designation of transition areas have been changed. Accordingly, it is necessary to alter the Sheboygan, Wisconsin transition area to adequately protect the aircraft executing the new approach procedure.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Regulations as hereinafter set forth:

In § 71181 (38 FR 435), the following transition area is amended to read:

SHEBOYGAN, WISC.

That airspace extending upward from 700 feet above the surface within an 8 mile radius of Sheboygan County Memorial Airport (latitude 43°46'18" N., longitude 87°51'08" W.).

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Des Plaines, Ill., on June 28, 1973.

LYLE K. BROWN,
Director, Great Lakes Region.

[FR Doc.14029 Filed 7-10-73;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 73-GL-30]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to designate a transition area at Wilmington, Ohio.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018. All communications on or before August 10, 1973, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

A new public use instrument approach procedure has been developed for the Wilmington Industrial Airport, Wilmington, Ohio based on a non-federal NDB. Consequently, it is necessary to provide controlled airspace protection for aircraft executing this new approach procedure by designating a transition area at Wilmington, Ohio. The new procedure will become effective concurrently with the designation of the transition area.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (38 FR 435), the following transition area is added:

WILMINGTON, OHIO

That airspace extending upward from 700 feet above the surface within a 10 mile radius of the Wilmington Industrial Airport (latitude 39°25'45" N., longitude 83°48'00" W.).

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Des Plaines, Ill., on June 22, 1973.

HAROLD W. POGGEMEYER,
Acting Director,
Great Lakes Region.

[FR Doc.73-14030 Filed 7-10-73;8:45 am]

CIVIL AERONAUTICS BOARD

[14 CFR Part 250]

[Docket No. 25592; EDR 248-A]

FOREIGN AIR CARRIERS

Priority Rules, Denied Boarding Compensation Tariffs and Reports of Unaccommodated Passengers

The Board, by circulation of notice of proposed rule making EDR-243, dated June 4, 1973 (38 FR 15085, June 8, 1973), gave notice that it had under consideration the adoption of amendments to Part 250 of the Economic Regulations (14 CFR Part 250) to expand the part so as to encompass foreign air carriers holding a permit issued by the Board pursuant to section 402 of the Act. Interested persons were invited to participate by submission of twelve (12) copies of written data, views or arguments pertaining thereto to the Docket Section of the Board on or before July 9, 1973.

Counsel for Iberia Airlines and Alitalia have requested an extension of the time for filing comments until July 23, 1973, and counsel for British Overseas Airways Corporation has requested an extension until July 30, 1973. These requests state that the carriers are presently considering the Board's proposed rule, but that they require additional time beyond the present deadline.

The undersigned finds that good cause has been shown for an extension of time for filing comments until July 23, 1973.

Accordingly, pursuant to the authority delegated in § 385.20(d) of the Board's Organization Regulations, the undersigned hereby extends the time for submitting comments to July 23, 1973.

(Sec. 204(a) of the Federal Aviation Act of 1958, as amended, 72 Stat. 743; 49 U.S.C. 1324).
